CONTENTS

This issue of the Bulletin contains in the order given—

Court Decision.

Docket.

Rules Directory.

The Hearing Calendar.

Continuation of Minutes of Regular Meeting, December 19, 1944, at 2 P.M., Affecting Calendar Numbers 614-44-A, 655-44-A, 662-44-A, 693-44-A, 496-43-A, 926-28-BZ, 28-40-BZ, 452-41-BZ, 363-42-BZ, 578-42-BZ and 192-38-BZ.

Correction Affecting Calendar Number 554-44-A.

Rules—Extracts From the Administrative Code of the City of New York, Relating to Refrigerating systems.

Use of Methyl Chloride in Class B and C Refrigerating Systems, Rules for.

COURT DECISION

WHERE MORE THAN FIVE MOTOR VEHICLES ARE PLACED ON A LOT IN A BUSINESS USE DISTRICT BY THEIR RESPECTIVE OWNERS FOR SAFEKEEPING AND A REGULAR FEE OR CHARGE IS MADE ON THE BASIS OF A DAY, WEEK OR MONTH, THE USE OF THE PREMISES IS STORAGE AND NOT PARKING AND SUCH USE HAS BEEN UNLAWFUL SINCE JUNE 1928.

In the Matter of Glicker v. Board:—Mr. Justice Hammer, at Special Term, Supreme Court, Bronx County, affirmed the action of the Board of July 28, 1942 under Cal. No. 1098-41-A, in revoking a Certificate of Occupancy as unlawfully issued and dismissed the certiorari proceeding.

The premises are at 2050-2066 White Plains avenue, Bronx, and are located in a business use district. The Board granted an appeal of an adjoining owner who claimed that a Certificate of Occupancy had been unlawfully issued on the strength of the decision by the Court of Appeals in the case of *Boardwalk & Seashore Corporation* v. *Murdock* (268 N. Y. 494). The court found the facts in the current case not analogous to those in the *Boardwalk and Seashore* case.

The court reviewed the history of the use of the lot since 1934 and declared, in part, that "when during sporadic periods from and after June 1935 . . . the premises were in use, the business therein constituted *storage* of more than five motor vehicles as distinguished from *parking*"; . . . "that the motor vehicles on the premises were placed there by their respective owners for safekeeping and a regular fee or charge was made on the basis of a day, week or month and signs on said premises advertised that the business being conducted was a *storage* lot for motor vehicles, one sign containing the legend: 'attractive monthly rates';" and "nor was the use, if parking, continuously maintained during the period in question. The record discloses beyond a doubt that the use of the premises was storage and not parking and such a use has been unlawful since 1928."

The court found that the hearing before the Board was full and complete and denied a new hearing before an official referee.

The lengthy and detailed opinion of the court appears in the New York Law Journal, December 23, 1944, page 1813.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to December 26, 1944.

Cal. No. Dept. *Premises Affected*

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

693-44-A

APPLICANT—Henry G. Harrington, for 735-741 65th Street Realty Corporation, owner (Danish Athletic Club, Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—735-743 65th street, north side, 280 ft. east of 7th avenue (Block 5821, Lot 61), Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry G. Harrington, Carl J. Vollertson, Svend J. Fast and Arthur R. Koch (Amicus Curiae).

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn by applicant, without prejudice to restoration to the calendar.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

496-43-A

APPLICANT—Clayton G. Shirkey, for Rosina and Dominick Zafonti, and Guiseppe and Mary Zafonti, owners.

SUBJECT—Appeal from a decision of the acting borough superintendent.

PREMISES AFFECTED—425 Beach 72nd street, southwest corner of Hessler avenue (Block 523, Lots 22 and 24), Arverne, Borough of Queens. (Under Section 35, General City Law—re bed of mapped street—Barbadoes drive).

APPEARANCES—

For Applicant: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 9, 1945, at 2 P.M. pending Court decision.

ZONING CASES

926-28-BZ

APPLICANT—L. A. Kiesewetter for The Texas Company, owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a residence use district, the extension of an accessory building (for lubritory use) and also the rearrangement of pumps on an existing gasoline service station, which was previously acted upon by the Board.

PREMISES AFFECTED—2633-2643 Ocean avenue and 2002 Avenue V, southeast corner (Block 7381, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (926-28-BZ)

WHEREAS, this application, to permit in a residence district, under section 21 of the zoning resolution, the erection and maintenance of a gasoline service station, affecting premises 2633-2643 Ocean avenue and 2002 Avenue V, southeast corner (Block 7381, Lot 1), Borough of Brooklyn, was denied by the Board on May 7, 1929; the action of Board was reversed by the Supreme Court, and a gasoline service station erected; a request for reopening was denied by the Board on February 9, 1937, as it appeared that this station, as erected, did not conform to the plans filed with the Board and part of the record before the Court; and

WHEREAS, on order of the Court, this application was reopened by the Board on January 25, 1938, and granted on condition; and

WHEREAS, this application was reopened on December 16, 1941, under section 7c of the zoning resolution and the resolution of January 25, 1938 was amended on November 24, 1942 and on December 21, 1943, time was extended to obtain permits and complete the work; and

WHEREAS, the applicant requested a further extension of time to complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 25, 1938, as amended through December 21, 1943, only so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"* * * that all permits for such extension shall be obtained and all work completed within one (1) year from the date of this *amended* resolution."

28-40-BZ

APPLICANT—Reginald S. Hardy, for 42 South 11th Avenue Realty Co., Inc., owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition under section 7c of the zoning resolution, permitting in a business use district the reconstruction and rearrangement of existing gasoline service station and accessory building.

PREMISES AFFECTED—14-80 Clintonville street, west side, 1 ft. north of Cross Island boulevard (Block 4697, Lots 15 and 18), Whitestone, Borough of Queens.

APPEARANCES—
For Applicant: Reginald S. Hardy.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (28-40-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station, lubritorium, auto-laundry and auto-repair shop, affecting premises 14-80 Clintonville street, west side, 1 ft. north of Cross Island boulevard (Block 4697, Lots 15 and 18), Whitestone, Borough of Queens, was granted by the Board May 28, 1940 on certain conditions, time extended February 3, 1942, December 15, 1942 and December 21, 1943 and the applicant requested a further extension of time to obtain permits and complete work.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution of May 28, 1940, as amended through December 21, 1943, only in so far as it has reference to obtaining permits and completion of the work so that as amended, this portion of the resolution shall read:

"that all permits required shall be obtained and all work completed within one (1) year from the date of this *amended* resolution (N.B. applic. 8544-39)."

452-41-BZ

APPLICANT—L. A. Kiesewetter, for The Texas Company, owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district the construction of a new accessory building on an existing gasoline service station.

PREMISES AFFECTED—406 Bay street, northwest corner of Clinton street (Block 505, Lot 18), Tompkinsville, Borough of Richmond.

APPEARANCES—
For Applicant: Joseph B. Lynch.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (452-41-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a business use district, the construction of a new accessory building on an extisting gasoline service station, affecting premises 406 Bay street northwest corner of Clinton street (Block 505, Lot 18), Tompkinsville, Borough of Richmond, was granted by the Board September 16, 1941, on certain conditions, resolution amended June 9, 1942, time to obtain permits and complete the work, extended on October 6, 1942, May 4, 1943 and June 27, 1944; and

WHEREAS, the applicant requested a further extension of time to complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on September 16, 1941, only so far as it has reference to obtaining permits and completion of work, so that as amended, this portion of the resolution shall read:

"In view of statement by applicant that all permits have been obtained, and approximately 90% of the work completed, that all work shall be completed within 6 months from the date of this *amended* resolution."

363-42-BZ

APPLICANT—Henry Nordheim, for Clifford A. Adee, owner.

SUBJECT—Application for consideration—reopening and extension of variance—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a residence use district, for a term of two years, the parking and storage of more than three (3) motor vehicles.

PREMISES AFFECTED—650 Thwaites place, south side, from Olinville avenue to Barker avenue, 2224 Barker avenue and 2211 Olinville avenue (Block 4338, Lots 12, 20, 22, 24, 27, 29, 31 and 33), Borough of The Bronx.

APPEARANCES—
For Applicant: Henry Nordheim.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (363-42-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a residence use district, for a term of two years, the parking and storage of more than three (3) motor vehicles, affecting premises 650 Thwaites place, south side, from Olinville avenue to Barker avenue, 2224 Barker avenue and 2211 Olinville avenue (Block 4338, Lots 12, 20, 22, 24, 27, 29, 31 and 33) Borough of The Bronx, was granted by the Board on December 8, 1942, on certain conditions; and

WHEREAS, the applicant requested an extension of the variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 8, 1942,

only so far as it has reference to the term of the permit, so that as amended this portion of the resolution shall read:

"Granted under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than three (3) motor vehicles, *on condition* * * * *and that a certificate of occupancy shall be obtained."*

578-42-BZ

APPLICANT—Philip Silver, for Buoniello Holding Company, Inc., owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years the parking and storage of more than five motor vehicles and, also, the continuance of the use of part of the plot for the display and sale of used cars.

PREMISES AFFECTED—6802-6810 Ft. Hamilton parkway, southwest corner of 68th street (Block 5771, Lot 6), Borough of Brooklyn.

APPEARANCES—
For Applicant: Philip Silver and John Buoniello.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (578-42-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles and, also, the continuance of the use of part of the plot for the display and sale of used cars, affecting premises 6802-6810 Ft. Hamilton parkway, southwest corner of 68th street (Block 5771, Lot 6), Borough of Brooklyn, was granted by the Board on December 22, 1942, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 22, 1942, only so far as it has reference to the term of permit, so as amended, this portion of the resolution shall read:

"Granted under Section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the parking and storage of more than five (5) motor vehicles on the vacant portion of the lot west of the existing one story building, *on condition,* etc. *and that a certificate of occupancy shall be obtained.*

192-38-BZ

APPLICANT—Power and Hopkins, for Walter W. Welton, et al., owners.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the acting borough superintendent) previously granted on condition, under section 21 of the zoning resolution, permitting in a business use district, the conversion of occupancy of an existing building to a motor vehicle repair shop for a temporary period.

PREMISES AFFECTED—1679-1681 Jerome avenue, west side, 275 ft. north of Featherbed lane (Block 2861, Lot 32), Borough of The Bronx.

APPEARANCES—
For Applicant: John T. Power.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, restored to the calendar and set for hearing on January 16, 1945 at 10 A. M.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

---

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals, held on December 12, 1944, as they appeared in Bulletin No. 50, Vol. 29, are hereby corrected to read as follows:

554-44-A

APPLICANT—L. E. Driver, for New York Dock Co., owner (Atlantic Basin Iron Works, Inc., lessee).

SUBJECT—Appeal from an order and decision of the fire commissioner.

PREMISES AFFECTED—East side of Conover street, 345 ft. south of Reid street (Block 611, part of Lot 1), Pier 45, East River, Borough of Brooklyn.

APPEARANCES—
For Applicant: L. E. Driver and C. E. Hicks.
For Administration: T. A. Wilson and Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

THE RESOLUTION (554-44-A)

WHEREAS, L. E. Driver, for New York Dock Company, owner (Atlantic Basin Iron Works, Inc., lessee), filed September 29, 1944, an appeal from an order and decision of the fire commissioner, affecting Pier 45, East side of Conover street, 345 ft. south of Reid street (Block 611, part of Lot 1), East River, Borough of Brooklyn; and

WHEREAS, order 8936-LF, issued by the fire commissioner, June 8, 1942 and referred to in a decision of the fire commissioner dated September 1, 1944, reads:

"6. Provide 10" x 10" hose openings in every bay at intervals of 25' in the pier floor properly protected by a hinge cover, equivalent in strength to floor of the pier, or any approved form of fire extinguishment in the substructure. C19-161.0 Adm. Code."

and

WHEREAS, the applicant states that the pier is 1 story (30 ft.) in height, 50 ft. by 632 ft. in area, of class 5 construction, erected in 1918, located in an unrestricted use, A area district and used for the repair and servicing of vessels —100 persons; and

WHEREAS, the applicant contends as to item 6 of the fire commissioner's order, that this requirement is one part of specifications which have been devised for construction and protection of piers by fire prevention authorities; that the deck holes constitute but a part of a complete arrangement which include fire walls, fire stops, fire hatches, etc.; that the requirement for the installation of fire stops has been rescinded for the duration of the war, because of the strategic value of materials required; that since these and other component installations have been deferred, it seems futile to require installation of deck openings at this time; that in connection with the deck hole installations, the maintenance of an elaborate aisle space arrangement would be required, with a consequent reduction of storage space; that the reduction of usable deck space on a pier which would result from the installation as required, would make

the pier practically useless for repair and storage purposes; that in addition, if these openings are provided with hinged covers, they will be difficult to maintain, easily opened, and when missing, will constitute a source of accidents and a means of spreading fire between the substructure and the superstructure; that the alternate offered by the fire commissioner's order of an approved fire extinguishing system leaves only the special monorail system which is a patented expensive installation; that even with such an installation, there appears to be no sound reason why each pier owner should be required to do more than install the rails necessary for its operation, since the nozzles should be part of the Fire Department equipment.

Resolved, that the *order* of the *fire commissioner,* acting on Order 8936-LF, Objection 6, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

Correction—The words "decision of the borough superintendent" changed to "order of the fire commissioner" as indicated in italics in the resolution.

NOTICE

RESOLUTION RELATING TO APPROVAL OF SITES FOR BUS STATIONS ADOPTED BY THE BOARD OF ESTIMATE FEBRUARY 1, 1940 (CALENDAR NO. 15).

Whereas, The existence and operation of bus stations is a matter of vital public interest affecting the welfare of the City and, in particular, street vehicular and pedestrian traffic as well as bus passengers; and

Whereas, The existence and operation of bus stations create unique street problems; and

Whereas, The special nature of such problems requires that no new bus station be constructed or operated except by and with the consent of the Board of Estimate after reports by the City Planning Commission, the President of the Borough affected, the Police Commissioner, the Art Commission and the Department of Housing and Buildings if curb cuts are involved; now, therefore, be it

Resolved, That the following be and hereby are adopted as the rules and regulations for the handling of applications to the Board for its consent to the construction and operation of bus stations:

1. No new bus station shall hereafter be constructed or operated in the city of New York except by and with the consent of the Board.

2. Any person, firm or corporation desiring to construct or operate a bus station shall present to the Board a duly verified petition, plus 25 copies, setting forth, among other things, the following information in regard to the proposed bus station: Exact location and size; design; preliminary building plans or sketches including lane layouts and approaches; facilities for storing or handling of laid-over buses; maximum number of buses to use the entrance to and exit from the station during each 15 minute period on week days, Saturdays, Sundays and holidays.

3. (a) The petition shall be referred to the following agencies for report and recommendation: The City Planning Commission and the President of the Borough in which the proposed station is to be located for a general report: the Police Commissioner for report as to the adequacy of the approaches and the traffic conditions on the streets which would be traversed by buses using the proposed station, and the maximum number of buses that such streets can reasonably accommodate throughout each day; the Art Commission for report as to the design; if curb cuts are involved, the Department of Housing and Buildings for report as to whether or not there are objections to the proposed curb cuts.

(b) The Borough President, the Police Commisisoner, the Art Commission and the Department of Housing and Buildings shall, within fifteen days after receipt of the petition, render their reports, in writing, to the City Planning Commission. The City Planning Commission shall, within thirty days after receipt of the petition, render its report and recommendations to the Board, approving or disapproving the petition, to which there shall be annexed a copy of all of the reports which the City Planning Commission received from the other agencies. The City Planning Commission shall transmit to the Board a copy of its findings and decision.

4. In the event the City Planning Commission does not approve the petition the Board may approve it by a three-fourths vote. If the Board determines to approve the petition it shall impose such terms and conditions as will best serve public convenience.

5. The fee for filing each application for the Board's consent to a bus station shall be one hundred and twenty-five dollars ($125.00), payable to the Treasurer of the City of New York. No application may be placed on the Board's calendar unless it is accompanied by a receipt issued by the Treasurer certifying that such fee has been paid.

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1018, Municipal Building, Manhattan, at three cents each—postage to be added if the forms are forwarded by mail.

RULES

EXTRACTS FROM THE ADMINISTRATIVE CODE OF THE CITY OF NEW YORK, RELATING TO REFRIGERATING SYSTEMS

General Provisions.

§C19-2.0. Definitions.

Unless otherwise expressly stated, whenever used in this chapter the following terms shall respectively be deemed to mean:

34. Refrigerating system, a combination of apparatus in which a refrigerant is circulated for the purpose of extracting heat.

(a) The parts of the system are the compressor, generator, condenser, absorber, receiver, shell type or tube type apparatus, pipes, vessels, or other parts, containing refrigerant.

(b) Direct refrigeration, a system in which the refrigerant is circulated to the substance or space refrigerated.

(c) Indirect refrigeration, a system in which brine cooled by the refrigerant is circulated to the substance or space refrigerated.

(d) Refrigerant is the chemical agent other than brine used to produce refrigeration.

(e) Irritant refrigerant, any refrigerant which when breathed, attacks the throat or lungs.

(f) Hydrocarbon refrigerants, any refrigerant of the hydrocarbon class.

(g) Flammable refrigerant, any refrigerant which will burn or explode when mixed with certain proportions of air.

(h) Refrigerating machinery room, a room in which is located a refrigerating system containing refrigerant, but not including expansion coils when located in cold storage rooms or expansion coils when located in refrigerator boxes.

(i) Factor of safety, the multiple three and one-third (3⅓), the product of which and the test pressure, constitutes the probable rupture pressure.

(j) Pressure imposing element, that apparatus which draws the refrigerant from the low pressure or low temperature side of the system and discharges it into the high pressure or high temperature side of the system.

(k) Pressure limiting device, a pressure or temperature responsive mechanism for automatically stopping the operation of the pressure imposing element.

(l) Brine, any liquid which having been cooled by the refrigerating system is used for the transmission of heat.

(m) Pressure relief device, a pressure relief valve, a rupture member, fusible plug or other approved device for relieving the pressure.

(n) Pressure relief valve, a valve held shut by a spring or other means to automatically relieve pressure in excess of its setting.

(o) Rupture member, a device that will automatically rupture at a pre-determined pressure.

(p) Liquid receiver, a vessel permanently connected to a system by inlet and outlet pipes for storage of a liquid refrigerant.

(q) Container, a cylinder for the shipment of refrigerant constructed to conform to the regulations of the Interstate Commerce Commission.

(r) Mixer, a vessel or device in a system for mixing the ammonia or other soluble vapor with water.

(s) Stop valve, a cut-off valve for use during normal operation.

(t) Service valve, a key-operated shut-off valve used only during shipment, installation or repairs.

(u) Fusible plug, a device having a predetermined-temperature fusible member for the relief of pressure.

§C26-235.0. Definitions.

(a) **Public Buildings.** Public buildings are structures or parts of structures in which persons congregate for civic, political, educational, religious or recreational purposes, or in which persons are harbored to receive medical, charitable or other care or treatment, or in which persons are held or detained by reason of public or civic duty, or for correctional purposes, including among others, court houses, schools, colleges, libraries, museums, exhibition buildings, lecture halls, churches, assembly halls, lodge rooms, club houses with more than five sleeping rooms, dance halls, theatres, bath houses, hospitals, asylums, armories, fire houses, police stations, jails and passenger depots.

(b) **Residence Buildings.** Residence buildings are structures or parts of structures in which sleeping accommodations are provided, except such as may for other reasons be classed as public buildings, including multiple dwellings as defined in the Multiple Dwelling Law.

(c) **Commercial Buildings.** Commercial buildings are structures or parts of structures, which are not public buildings or residence buildings, including among others, office buildings, factory buildings, salesrooms (stores), markets, restaurants, warehouses, freight depots, car barns, stables, garages, motor vehicle repair shops, factories, laboratories, smoke houses, grain elevators, coal pockets, central station power plants and electric sub-stations.

Bonds and Fees.

§C19-24.0 Fees for Permits.

Applicants for permits under the provisions of this chapter shall pay annual fees as follows:

35. Refrigerating systems:

Class A systems	$20.00
Class B systems	10.00
Class C systems containing over six pounds of refrigerant	5.00
Class C systems containing six pounds or less of refrigerant	1.00

Refrigerating Systems.

C19- 96.0. Permits.
C26-214.0. Supervision.
C19- 97.0. Classification.
C19- 98.0. Permissible locations.
C19- 99.0. Refrigerating machinery rooms and ventilation.
C19-100.0. Open flames and electrical equipment.
C19-101.0. Testing.
C19-102.0. Piping.
C19-103.0. Safety devices.
C19-104.0. Size of safety devices.
C19-105.0. Location and discharge of safety devices.
C19-106.0. Operating precautions.
C19-107.0. Equipment diagrams.

§C19-96.0. Permits.

(a) Except as hereinafter provided in this article it shall be unlawful to maintain or operate a refrigerating system without a permit.

(b) A permit will not be required for a Class C system when maintained or operated in the residence portion of a dwelling containing not more than two families, or in the residence portions of either a tenement house or a business building.

(c) It shall be unlawful to maintain or operate any refrigerating system employing a refrigerant other than those specified in this article without a permit issued upon such conditions, consistent with the provisions of this article, as are deemed by the fire commissioner necessary in the interest of public safety.

NOTE:—The Fire Chief and Commissioner prescribed under date of April 4, 1934, the following:

1. That the refrigerants dichlorodifluoromethane, known as "Freon" ("Kinetic No. 12" also "F-12") CCl^2F^2 also dichlorotetrafluoroethane ("F-114") $C^2Cl^2F^4$ and monofluorotrichloromethane ("F-11") CFC^3 are non-flammable and non-irritant, unless otherwise hereinafter provided, and

shall be regulated in accordance with the provisions of Article 18 of Chapter 19 of the Administrative Code, as such, except, when used in a room or rooms in which there is an open flame or apparatus to produce an open flame, when the provisions of said article covering irritant refrigerants shall apply.

2. That refrigerating systems employing F-11, F-12 or F-114 are restricted to parts of a building so specified in Section C19-98.0 (b) for refrigerants other than non-irritant and non-flammable.

3. That refrigerating systems employing F-11, F-12 or F-114 used for air conditioning are restricted to the indirect method except that the direct method may be used in parts of a building so specified in Section C19-98.0 (b) for refrigerants other than non-irritant and non-flammable.

4. That refrigerating systems employing F-11, F-12 or F-114 shall not be installed or maintained in or on the stairways, halls, lobbies, entrances, exits or auditoriums of any building.

5. That refrigerating systems employing F-11, F-12 or F-114, shall not be installed or maintained in a hospital, unless the entire system is confined in a fireproof machinery room, used for no other purpose, and in which no open flame shall be employed, except that the Class "C" system containing not more than 10 pounds of refrigerant may be used in a diet kitchen which shall be cut off from the rest of the building by a tight fitting self-closing door or doors and provided with a window or windows to the outside air. All open flames, and/or apparatus for producing an open flame, in diet kitchens where these refrigerants are used shall be vented to the outside air as hereinafter required in Paragraph 8.

6. That refrigerating systems employing F-11, F-12 or F-114 may be installed or maintained in a hospital private room, having tight partitions and tight fitting self-closing door or doors and where not more than two persons are helpless and/or given medical treatment, provided there is no open flame and/or apparatus for producing an open flame in such room and when the system contains not more than 10 pounds of refrigerant.

7. That a refrigerating system employing F-11, F-12 or F-114 shall not be installed or maintained in a theatre and/or motion picture theatre unless the entire system is confined in a fireproof machinery room, used for no other purpose, and in which no open flame and/or apparatus to produce such open flame shall be employed, except that Class "C" systems containing not more than ten pounds of refrigerant may be installed in a rest room, smoking room or lounging room provided in such rooms no open flame or apparatus to produce such open flame shall be employed.

8. That a refrigerating system employing F-11, F-12 or F-114 when used in a room or rooms in which there is an open flame or apparatus to produce such open flame, such open flame and/or apparatus shall be provided with a hood and independent mechanical ventilation so arranged as to convey all the products of combustion to the outside of the building. This provision shall apply only to diet kitchens of hospitals and to Class "C" systems in schools, churches, dance halls, court rooms, police stations, jails, asylums, subways, passenger depots, rooms opening into passenger depots and/or subways and such other places as are deemed by the Fire Commissioner necessary in the interest of public safety.

9. That, except for Class "C" systems located in rooms in which no open flame or apparatus to produce such flame shall be employed containing not more than ten pounds of refrigerant, each refrigerating machinery room in any building in which F-11, F-12 or F-114 are used, shall be maintained vapor-tight and provided with tight fitting, self-closing doors, in accordance with Section C19-99.0 (a).

10. That each refrigerating machinery room in which F-11, F-12 or F-114 is used, shall be adequately ventilated directly to the outside air in accordance with Section C19-99.0 (b), 1, 2, 3 and 4.

11. Test pressures and setting of safety valves for systems employing F-11, F-12 or F-114, shall be included in Section C19-101.0 as follows:

Refrigerant	Column No. 1	Column No. 2	Column No. 3
F-11	25	15	15
F-12	180	120	135
F-114	60	30	30

12. That the size of pressure relief valves for systems in which F-11, F-12 or F-114 is employed, shall be as follows:

Capacity of System	Number Required
Up to 30 tons	One ½ inch
30 to 60 "	One ¾ "
60 to 100 "	One 1 "
100 to 175 "	One 1¼ inches
175 to 250 "	One 1½ "
250 to 450 "	One 2 "
450 to 900 "	Two 2 "

13. That the storage of F-11, F-12 or F-114 shall conform with Section C19-106.0 (c)-5 for other refrigerants.

14. That all other sections or parts of Article 18 of the Administrative Code not so mentioned, shall be complied with.

15. That refrigerating systems employing F-11, F-12 or F-114, installed prior to May 19, 1932, shall be inspected, and if found to comply with the rules, or if in the opinion of the Fire Commissioner, the installations are of a non-hazardous character, a permit may be issued. Installations which have been made in hospitals, theatres, asylums and places of public assembly shall be made to comply strictly with these rules.

(d) A permit, where required, shall be applied for forty-eight hours after installation is completed, containing the name of the person for whom the system is installed and the place or location of the system.

(e) Only the refrigerant specified in the permit shall be used in the system.

(f) Refrigerating systems to which these provisions cannot be applied, may be maintained and operated subject to such conditions as are deemed necessary by the fire commissioner.

§C26-214.0. Refrigeration System Operators; Certificate of Qualification.

(a) It shall be unlawful to maintain or operate in any building any refrigerating system containing more than fifty (50) pounds of refrigerant except under the personal supervision, direction or control of either a duly licensed engineer or a person who has obtained a certificate of qualification from the superintendent to operate such a system. Where the system contains two hundred (200) pounds or less of refrigerant and is fully automatic, only one qualified operator will be required.

(b) It shall be unlawful to maintain or operate in a public building or exhibition hall any Class C system permitted for exhibition or demonstration purposes except under the personal supervision, direction or control of either a duly licensed engineer or a person who has obtained a certificate of qualification from the superintendent to operate such a system.

(c) Upon receipt of such certificate the applicant therefor shall pay an annual license fee as follows: For the initial fee $5, and for renewal thereof the sum of $1 provided application for such renewal be made within thirty days prior to the expiration of such certificate. Any such certificate may be revoked or suspended for cause at any time by the superintendent.

§C19-97.0. Classifications.

(a) The total amount of refrigerant common to a system operating through one or more evaporators, shall be considered the capacity of the system and determine its class.

(b) A Class A system is a system containing one thousand (1,000) pounds or over of refrigerant, or capable of thirty (30) tons capacity or over.

(c) A Class B system is a system capable of less than thirty (30) tons capacity, or containing less than one thousand (1,000) pounds of refrigerant and more than amounts provided for in a Class C system.

(d) A Class C system is a system containing not more than twenty (20) pounds of refrigerant.

§C19-98.0. Permissible Locations.

(a) It shall be unlawful to install any Class A or Class B systems in any public building as defined by subdivision a of section C26-235.0 of the code, until plans have been filed with and approved by the fire commissioner, and no refrigerant shall be placed in the system until a permit has been obtained from the fire commissioner.

(b) The direct method of refrigeration shall not be used in any building, whether or not a permit is required for installation therein, outside of the refrigerating machinery room except in buildings used exclusively for ice making or for refrigerating purposes, or when such method is not carried above the first floor in business buildings, or in the business sections of business buildings provided the entire system is confined to one floor in the space occupied by a single tenant, or in the business section of a residence building when not carried above the first floor, or in a residence building occupied by not more than two families, or in any building provided a non-irritant and non-flammable refrigerant is used. The provisions of this subdivision shall not apply to a building in which installation was made prior to December 13, 1927.

(c) It shall be unlawful to use brine in any brine circulating system that will generate flammable vapor at a temperature below 100 degrees Fahrenheit when tested in a Tagliabue open cup tester, and no refrigerant shall be used as a brine.

(d) It shall be unlawful to install or maintain a Class A system using ammonia in any building above the first floor level unless such building is used exclusively for ice making or refrigerating purposes. The provisions of this subdivision shall not apply to a building in which installation was made prior to December 13, 1927.

(e) Systems on demonstration in exhibition halls shall be limited to the unit type containing not more than ten (10) pounds of refrigerant.

(f) It shall be unlawful to install or maintain a refrigerating system employing an irritant or inflammable refrigerant in or on:

1. The stairways, halls, lobbies, entrances, exits or auditoriums of any building;
2. Dance halls, court rooms, police stations, jails, subways, theatres, or motion picture theatres;
3. Waiting or public rooms in a railroad passenger depot or rooms opening directly therein;
4. Rooms opening directly into a subway, or theatre, or motion picture theatre, or where persons are detained or confined;
5. A school, unless the refrigerating system is used exclusively for instructions or research purposes;
6. A hospital or asylum in which persons are confined or given medical treatment or helpless. Unless otherwise required by this section, such refrigerating system shall be cut off from the building by unpierced fireproof construction.

The foregoing provisions do not apply to hermetically sealed unit system containing not more than six (6) pounds of refrigerant when located in dance halls, police stations, diet kitchens of hospitals, schools, or laboratories, and when located in rooms shut off from the rest of the building by tight partitions and tight-fitting, solid, self-closing doors and located in a room having a window to the outside air.

(g) An intermittent absorption type of refrigerating machine shall not be permitted in a Class A system. Such a type of machine shall be permitted in a Class B system only when a heating medium of low pressure steam is used in its operation.

(h) The use of methyl and ethyl chloride, sulphur dioxide, or a hydro-carbon refrigerant will not be permitted in Class A systems.

(i) A Class B system using ethyl chloride or a hydrocarbon refrigerant shall not be installed or maintained in the Borough of Manhattan or in other built-up sections of the city. Elsewhere, it shall be installed or maintained only in a fireproof building of not more than one story in height, and shall be located on the ground floor, which shall be of unpierced fireproof construction. The refrigerating machinery room shall be cut off from the rest of the building by unpierced fireproof walls of not less than eight inches (8″) of brick or six inches (6″) of reinforced concrete. Direct exit therefrom leading to the open air and not to any other part of the building shall be maintained and shall be provided with vapor-tight, self-closing, fireproof doors.

§C19-99.0. Refrigerating Machinery Rooms and Ventilation.

a. Refrigerating machinery rooms.

1. All refrigerating machinery rooms in which an irritant refrigerant is used shall be maintained vapor-tight except that all doors which open to other parts of the building shall only be required to be self-closing and close fitting, and shall be kept closed at all times, except during entrance or exit. All other openings that may permit the passage of vapor to other parts of the building shall be vapor-tight and kept closed. No opening from elevator shafts shall be permitted in the refrigerating machinery room. This provision, however, shall not apply to dumbwaiter shafts the door openings of which are protected with self-closing fire doors or to a system containing less than six (6) pounds of refrigerant. Closets solely contained within and opening only into the refrigerating machinery room shall be considered as part of the room in which it opens.
2. In Class A and Class B systems in which an irritant refrigerant is used, the doors of the refrigerating machinery rooms shall open outwardly.

b. Ventilation.

1. Each Class A, B and C refrigerating machinery room of any system shall be independently provided with means for adequate ventilation to the outer air. The ventilation shall consist of a window or windows opening directly to the open air, or mechanical means capable of exhausting the foul air from the room.
2. When a window or windows are used, if placed in opposite walls so as to provide a through air circulation to the outer air, a total area of inlet and outlet, respectively, of not less than that specified in Column D of the table in subdivision 4 shall be provided. When a window or windows are placed in one wall a total area shall be provided not less than that specified in Column E of such table.
3. When mechanical means are used they shall consist of a power-driven exhaust fan of the enclosed case blower type which shall be capable of removing from the refrigerating machinery room the amount of air specified in Column B of the table in subdivision 4. The inlet to the fan shall be located near the refrigerating equipment. The outlet from the fan shall terminate not less than six (6) feet above the sidewalk and in no case under a stairway or fire escape. Where air ducts are used on either the inlet or discharge side of the fan they shall each have an area not less than that specified in Column C of such table. Sharp bends in the run of the ducts shall be avoided. The control for such mechanical means of ventilation shall be easily accessible and located outside of the refrigerating machinery room.
4.

	Pounds of Refrigerant in System	Mechanical Cu. Ft. per Minute Discharge	Window Area Mechanical Sq. Ft. Duct Area	Window Area in Sq. Ft. for each Opposite Side	Window Area in Sq. Ft. for One Side Only
	A	B	C	D	E
Up to ...	20	150	¼	1	6

7,000	10,500	10½	42	278
8,000	12,000	12	48	315
9,000	13,000	13	52	342
10,000	14,000	14	56	360
12,000	17,000	17	68	425
14,000	19,000	19	75	470
16,000	22,000	22	86	540
18,000	24,000	24	92	580
20,000	26,500	26	100	630
25,000	33,000	33	121	760
30,000	39,000	39	142	870
35,000	44,000	44	155	940
40,000	51,000	51	176	1,060
45,000	56,000	56	190	1,120

Note—Door openings leading directly to the open air shall be considered equivalent to windows for the requirements specified in columns "D" and "E" of this table.

5. Where a non-irritant or non-inflammable refrigerant is employed, the requirements as given in the table in subdivision 4 may be reduced by one-half. When air or water is employed as the refrigerant no ventilation shall be required.

6. In lieu of mechanical means of ventilation in refrigerating machinery rooms where a Class A system or a Class B system using ammonia is installed, a water deluge may be provided which shall consist of a sprinkler system having open heads of not less than one-quarter inch (¼") orifice spaced not more than eight feet apart in any direction, and such system shall be located above all the refrigerating apparatus and piping in the refrigerating machinery room. Not more than one head shall be installed on a ¾-inch pipe; five heads on a 1-inch pipe; six heads on a 1¼-inch pipe. The deluge system shall be permanently connected with the main house supply or other assured source from which a constant water pressure of not less than twenty pounds per square inch can be maintained on the inlet side of the main control valve or valves at all times. The control valve or valves for such water deluge system shall be manually operated and easily accessible, and shall be labeled and located outside of the refrigerating machinery room.

§C19-100.0 Open Flames and Electrical Equipment.

a. Open flames.

No fire-flame or arc light will be permitted in a Class A or B refrigerating machinery room in which a flammable refrigerant is used.

b. Electrical equipment.

1. All Class A and B refrigerating systems containing more than fifty (50) pounds of refrigerant shall have an emergency switch controlling all of the electrically-operated refrigerating machinery or the remote control of such a switch located outside of the refrigerating machinery room where it can be quickly reached and operated in case of necessity.

2. Where the operating mechanism in any system is dependent upon electrical control, such control in a pressure limiting device shall be on a closed circuit. Nothing herein contained shall require a hand reset on an automatic type of refrigerating machine.

§C19-101.0. Testing.

Every part of any refrigerating system, except pressure gauges and control mechanism shall be tested to at least the following pressures: Class A and B systems containing over fifty (50) pounds of refrigerant shall be tested after installation and proved tight before being operated. A dated declaration of such test, signed by the tester, shall be posted in the machinery room.

Refrigerant	Col. 1 High Pressure Side	Col. 2 Low Pressure Side With Safety Valves	Col. 3 Low Pressure Side Without Safety Valves
Carbon dioxide	1,500	750	1,000
Ethane	1,050	520	760
Ammonia	300	150	225
Propane	250	115	175
Methyl chloride	155	80	120
Sulphur dioxide	135	100	100
Iso-butane	90	45	70
Butane	75	35	50
Ethyl chloride	30	15	25
Dichloromethane	12	12	12
Dichloroethylene	12	12	12
Trichloroethylene	12	12	12

§C19-102.0. Piping.

a. Piping.

1. All piping, liquid receivers or vessels containing the refrigerant, shall be supported on or by strong and durable materials. This provision shall not apply to Class C installations.

2. The arrangement of stop valves, relief devices, and other similar devices, when used shall be as shown on the diagram for Class A and B systems in section C19-107.0 of the code.

3. Every system which may be charged after installation shall have the charging connection located on its low pressure.

b. Gauge glasses.

Liquid level gauge glasses, except those of the bull's eye type, shall have automatic closing shut-off valves and such glasses shall be adequately protected against injury by slotted metal casings.

§C19-103.0. Safety Devices.

a. Construction and setting.

1. Pressure relief valves, pressure limiting devices and rupture members shall be set to prevent the pressure from exceeding the test pressure. The pressure at which the device is set to function shall be indicated thereon. (See section C19-101.0 of the code, columns 1 and 2 of table.)

2. Fusible plugs shall relieve the pressure at a temperature not exceeding 280 degrees Fahrenheit.

b. Use of stop valves.

1. It shall be unlawful to locate a stop valve between a pressure relief device or pressure limiting device and the part of the system protected thereby, unless two pressure relief devices of required size are used, and so arranged that only one pressure relief device can be cut off for repair purposes at any one time.

2. A Class B system in which no stop valves are used and in which the pressure will equalize throughout the system when the pressure imposing element is not in operation may be protected by only one pressure relief device located on the high pressure side.

c. Ammonia mixer.

1. The low pressure side of a Class A ammonia system shall be provided with a hand-operated valve for discharging the ammonia into water through a mixer to the sewer in case of emergency.

2. The ammonia mixer shall be constructed of steel and shall be capable of withstanding a pressure of at least fifty (50) pounds per square inch.

3. It shall be unlawful to locate a valve in the ammonia emergency discharge line, except for the manually-operated valve discharging into the water and ammonia mixer, but there may be one stop valve located inside the building for repair purposes only. This valve shall be sealed open and labeled "Keep Open."

4. The manually operated pressure relief valve shall be located in a locked box which can be opened by members of the Fire Department by means of a Fire Department key. The door of the box shall be on the public thoroughfare side of the building in an easily accessible location and not less than eighteen (18) inches or more than five (5) feet above the sidewalk level. The box shall be permanently labeled with letters of not less than one (1) inch reading "For Fire Department Use Only." The relief valve shall be labeled "Ammonia." A sign shall be posted within the box reading "Do Not Open Valve Until Water Is Flowing."

5. A single standard three (3) inch fire department connection shall be provided through which the necessary water may be supplied to the mixer. The fire department connection shall be located near the box and not less than eighteen (18) inches or more than twenty-four (24) inches above the sidewalk level and shall be permanently labeled having letters not less than one (1) inch high reading "To Ammonia Mixer." A check valve so set as to prevent gases from reaching the fire department connection shall be installed in the water line between the fire department connection and the water and ammonia mixer.

6. The fire department shall have sole use of the mixer and supply the necessary water.

7. In systems using over twenty-seven thousand (27,000) pounds of ammonia there shall be provided one additional water and ammonia mixer for each twenty-seven thousand (27,000) pounds of ammonia or fraction thereof so used in excess.

8. The ammonia mixer and its connection for a Class A system shall conform to the diagram in section C19-107.0 of the code.

§C19-104.0. Size of Safety Devices.

(a) The size of pressure relief valves shall be as follows:

Capacity of System	CO_2 and Ethane, No. Req., Size	Other Refrigerants No Req., Size
Up to 30 tons	1—½"	1—½"
30 to 60 tons	1—½"	1—¾"
60 to 100 tons	1—½"	1—1"
100 to 175 tons	1—½"	1—1¼"
175 to 250 tons	1—¾"	1—1½"
250 to 450 tons	1—1"	1—2"
450 to 900 tons	.....	2—2"

(b) Where rupture members are permitted and used, the equivalent area of the relief valve specified must be provided.

(c) Fusible plugs may be used on all Class C systems and on all Class B systems of the hermetically sealed compression type containing not more than fifty (50) pounds of refrigerant. The free discharge opening shall be one-sixteenth (1/16) inch in diameter.

§C19-105.0. Location and Discharge of Safety Devices.

a. Location.

A pressure limiting device shall be provided on the high pressure side of each water-cooled refrigerating system containing more than six (6) pounds of refrigerant. A pressure relief valve shall be provided on the high pressure side of each water-cooled refrigerating system containing twenty (20) pounds or more of refrigerant, but it shall not be necessary to discharge the refrigerant to the outside air or water tank from any such refrigerating system containing fifty (50) pounds or less of refrigerant, any other provision of part 1, of this title, to the contrary notwithstanding.

b. Location and discharge of safety devices.

1. Each compressor or generator of a Class A or B system containing more than 100 pounds of refrigerant shall be protected by a pressure relief valve connected into the high pressure side between the main stop valve and the compressor or generator to relieve excessive pressure as hereinafter provided.

2. A rupture member may be substituted for the relief valve in CO^2 systems or systems operating below atmospheric pressure.

3. Shell type apparatus such as liquid receivers, condensers, evaporators, liquid separators and absorbers of Class A and Class B systems containing more than fifty (50) pounds of refrigerant, and Class B systems containing fifty (50) pounds or less of refrigerant which can be shut off by stop valves, shall each be equipped with a pressure relief valve discharging as hereinafter provided.

4. Class C systems and Class B systems containing fifty (50) pounds or less of refrigerant so constructed that, when subjected to abnormal outside temperature such as that generated in a fire, they may burst due to the expansion of the refrigerant, shall be protected by a pressure relief device.

5. A pressure relief valve shall be required on the low pressure side of a Class B system into which the relief valve or valves on the high pressure side discharge, as so shown on equipment diagram of section C19-107.0 of the code.

c. Discharge of pressure relief valve.

1. Where ammonia is used in Class A systems, the discharge from relief valves must be conducted to the outside atmosphere or into that part of the low pressure side protected by the mixer as specified in subdivision C, of section C19-103.0 of the code. If it is discharged to the outside atmosphere it must be piped above the roof or not less than 12 feet above the grade. The discharge pipe shall be not less than the size of the relief valve outlet. The discharge from more than one relief valve may be run into a common header, the area of which shall be equal to the area of the pipes connected thereto. The outlet orifice shall be turned downward.

2. Where more than fifty (50) pounds of ammonia is used in a Class B system, the discharge from relief valves shall be piped to the outside atmosphere as specified for Class A systems, or to the low pressure side as shown in diagrams in section C19-107.0 of the code, or into a tank of water which shall be used for no purpose except ammonia discharge. At least one gallon of fresh water shall be provided for every pound of ammonia contained in the system. The water used shall be prevented from freezing without the use of salt or chemicals. The tank shall be substantially constructed of not less than one-eighth (⅛) of No. 11 U. S. gauge iron. No horizontal dimensions of the tank shall be greater than one-half (½) the height. The tank shall have a hinged cover or, if of the enclosed type, shall have a vent hole at the top. All pipe connections shall be through the top of the tank only. The discharge pipe from the pressure relief valves shall discharge the ammonia in the center of the tank near the bottom. The tank shall be as securely supported as any other portion of the system. There shall be no opening in the tank below the water level.

3. Where more than fifty (50) pounds of any refrigerant other than ammonia is used, the discharge from relief valves shall be to the atmosphere as specified for Class A ammonia systems. Carbondioxide may be discharged into the room if the same contains at least 10 cubic feet of capacity per pound of refrigerant used.

4. Arrangements of pressure relief devices for Class A and B systems shall conform to the diagrams in section C19-107.0 of the code.

§C19-106.0. Operating Precautions.

a. Masks and helmets.

1. In a Class A system which operates above atmospheric pressure, there shall be provided at least two helmets or masks.

2. In a Class B system in which more than fifty (50)

pounds of ammonia, sulphur dioxide or other irritant refrigerant is used, there shall be provided at least one helmet or mask.

3. Only helmets or masks that have been approved by the United States Bureau of Mines as suitable for the refrigerant employed shall be used, and they shall be kept in operative condition in an easily accessible case or cabinet located immediately outside the refrigerating machinery room.

b. Signs.

1. On Class A and Class B systems containing more than fifty (50) pounds of refrigerant there shall be painted on and affixed in a permanent manner to the main steam control, main electrical and remote control switches, receivers, containers and shell type coolers, signs having letters not less than one and one-half inches (1½") high, designating the part and refrigerant contained therein.

2. The seller of every Class A or B system shall furnish the purchaser with a sign bearing his name at least 8½" by 11" in size, which gives the rated refrigeration capacity and the quantity and kind of refrigerant required for the satisfactory operation of the system. The purchaser shall conspicuously and permanently display this sign in the machinery room. The quantity and name of the proper refrigerant content and the rated refrigeration capacity shall be stamped on all Class C systems near to or on the name plate.

3. The following information shall be posted in Class A and B machinery rooms where over fifty (50) pounds of refrigerant is used: (a) The names and addresses of the engineers or operators in charge; (b) Location of nearest fire alarm box; (c) The name, address and telephone number of physician to be called in case of emergency; (d) Instructions for safely shutting down the plant in case of emergency.

c. Storage of refrigerant.

1. Refrigerant not contained in the refrigerating system shall be stored only in non-inflammable or non-irritant containers conforming to the regulations prescribed by the Interstate Commerce Commission for the transportation of such refrigerant.

2. Only two containers holding not more than a total of three hundred (300) pounds of inflammable or irritant refrigerant shall be stored in a refrigerating machinery room of a Class A system.

3. Only one container holding not more than one hundred and fifty (150) pounds of inflammable or irritant refrigerant shall be stored in a refrigerating machinery room of a Class B system.

4. In a Class C system no refrigerant other than that used in the system shall be stored in the refrigerating machinery room.

5. If a greater amount of inflammable or irritant refrigerant than that permitted in a refrigerating machinery room is desired, it shall be stored in a fireproof building or enclosure used for no other purpose.

6. When the refrigerant is withdrawn from a system it shall be discharged only into a suitable absorbent or containers conforming to the regulations of the Interstate Commerce Commission for the transportation of such refrigerant. It shall be unlawful to permit any refrigerant to escape into the refrigerating machinery room.

7. Containers shall be connected to the system only during period of charging or withdrawing the refrigerant.

§C19-107.0. Equipment Diagrams.

(See arrangement of pressure relief devices for Class A and Class B equipment.)

Penalties.

§C19-152.0. Violations.

Any person who shall willfully violate or neglect or refuse to comply with any provisions of part 1, of this title, except the provisions of article twenty-six, in addition to any other penalties prescribed by law, shall, upon conviction, be punished by a fine of not more than $500, or by imprisonment not exceeding six months, or by both.

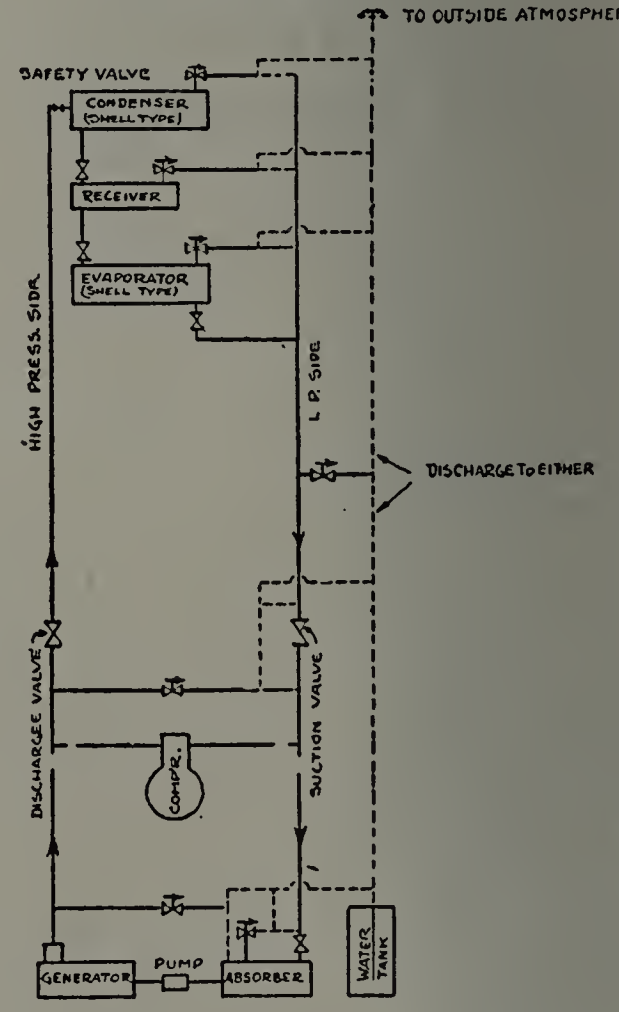
ARRANGEMENT OF PRESSURE RELIEF DEVICES FOR CLASS "A" EQUIPMENT SECTION C19-107.0



ARRANGEMENT OF PRESSURE RELIEF DEVICES FOR CLASS "B" EQUIPMENT SECTION C19-107.0

RULES

RULES FOR USE OF METHYL CHLORIDE IN CLASS B AND C REFRIGERATING SYSTEMS.

Adopted by the Board of Standards and Appeals June 23, 1944, effective July 17, 1944.

(Cal. 333-44-SR.)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, *Par.* 2 *of the Charter of the City of New York and Section* C19-98.0 *of the Administrative Code.*

SCOPE:

These rules are supplementary and additional to the requirements of C19-98.0 providing for the use of methyl chloride in class B and class C refrigerating systems.

The promulgation of these rules has become necessary because of the military requirements for Freon (F12). Methyl chloride, while not permitted to be used in class A systems, is permissively allowed in class B and C systems. However, when used in refrigerating systems which formerly used Freon, additional precautions and safeguards are necessary to adapt the refrigerating equipment for use with methyl chloride.

NOTE: References given herein preceded by C19- or C26- refer to specific sections of the Administrative Code. Wherever decimal numbers occur, such system of numbering refers to these rules.

C19-96.0 Permits—a. Except as provided in this article, it shall be unlawful to maintain or operate a refrigerating system without a permit.

b. A permit will not be required for a class C system when maintained or operated in the residence portion of a dwelling containing not more than two families, or in the residence portions of either a tenement house, or a business building.

c. It shall be unlawful to maintain or operate any refrigerating system employing a refrigerant other than those specified in this article without a permit issued upon such conditions, consistent with the provisions of this article, as are deemed by the commissioner necessary in the interest of public safety.

d. A permit, where required, shall be applied for forty-eight hours after installation is completed, containing the name of the person for whom the system is installed and the place of location of the system.

e. Only the refrigerant specified in the permit shall be used in the system.

f. Refrigerating systems to which these provisions cannot be applied, may be maintained and operated subject to such conditions as are deemed necessary by the commissioner.

C19-97.0 Classifications.—a. The total amount of refrigerant common to a system operating through one or more evaporators, shall be considered the capacity of the system and determine its class.

b. A class A system is a system containing one thousand pounds or over of refrigerants, or capable of thirty tons capacity or over.

c. A class B system is a system capable of less than thirty tons capacity, or containing less than one thousand pounds of refrigerant and more than the amounts provided for in a class C system.

d. A class C system is a system containing not more than twenty pounds of refrigerant.

C19-98.0 Permissible locations.—a. It shall be unlawful to install any class A or class B systems in any public building as defined by subdivision a of section C26-235.0 of the code, until plans have been filed with and approved by the fire commissioner, or no refrigerant shall be placed in the system until a permit has been obtained from such commissioner.

b. The direct method of refrigeration shall not be used in any building, whether or not a permit is required for installation therein, outside of the refrigerating machinery room; except in buildings used exclusively for ice making or for refrigerating purposes, or when such method is not carried above the first floor in business buildings, or in the business sections of business buildings when the entire system is confined to one floor in the space occupied by a single tenant, or in the business section of a residence building when not carried above the first floor, or in a residence building occupied by not more than two families, or in any building in which a non-irritant and non-inflammable refrigerant is used. The provisions of this subdivision shall not apply to a building in which installation was made prior to the thirteenth day of December, nineteen hundred twenty-seven.

c. It shall be unlawful to use brine in any brine circulating system that will generate inflammable vapor at a temperature below one hundred degrees Fahrenheit when tested in a Tagliabue open cup tester, and no refrigerant shall be used as a brine.

d. It shall be unlawful to install or maintain a class A system using ammonia in any building above the first floor level unless such building is exclusively for ice making or refrigerating purposes. The provisions of this subdivision shall not apply to a building in which installation was made prior to the thirteenth day of December, nineteen hundred twenty-seven.

e. Systems on demonstration in exhibition halls shall be limited to the unit type containing not more than ten pounds of refrigerant.

f. It shall be unlawful to install or maintain a refrigerating system employing an irritant or inflammable refrigerant in or on:

1. The stairways, halls, lobbies, entrances, exits, or auditoriums of any building;

2. Dance halls, courtrooms, police stations, jails, subways, theatres, or motion picture theatres;

3. Waiting or public rooms in a railroad passenger depot or rooms opening directly therein;

4. Rooms opening directly into a subway, or theatre, or motion picture theatre or where persons are detained or confined;

5. A school, unless the refrigerating system is used exclusively for instruction or research purposes;

6. A hospital or asylum in which persons are confined or given medical treatment, or are helpless. Unless otherwise required by this section, such refrigerating system shall be cut off from the building by unpierced fireproof construction. The foregoing provisions do not apply to hermetically sealed unit systems containing not more than six pounds of refrigerant when located in dance halls, police stations, diet kitchens of hospitals, schools, or laboratories, and when located in rooms shut off from the rest of the building by tight partitions and tight fitting, solid self-closing doors, and located in a room having a window to the outside air.

g. An intermittent absorption type of refrigerating machine shall not be permitted in a class A system. Such type of machine shall be permitted in a class B system only when a heating medium of low pressure steam is used in its operation.

h. The use of methyl and ethyl chloride, sulphur dioxide, or a hydro-carbon refrigerant is not permitted in class A system.

i. A class B system using ethyl chloride or a hydrocarbon refrigerant shall not be installed or maintained in the borough of Manhattan or in other built-up sections of the city. Elsewhere, it shall be installed or maintained only in a fireproof building of not more than one story in height, and shall be located on the ground floor, which shall be of unpierced fireproof construction. The refrigerating machinery room shall be cut off from the rest of the building by unpierced fireproof walls of not less than eight inches of brick or six inches of reinforced concrete. Direct exit therefrom leading to the open air and not to any other part of the building shall be maintained and shall be provided with vapor-tight, self-closing fireproof doors.

RULE 1.0 Prohibited Uses of Methyl Chloride Refrigerant.

1.1 No direct system or indirect open spray system of air conditioning employing methyl chloride shall be permitted in a public building as defined in C26-235.0.

1.2 The direct method of refrigeration may be permitted when the installation satisfies the requirements of Section C19-98.0 and only when the percentage of methyl chloride to the volume of conditioned space is not over .7 of 1 per cent. (Methyl chloride to equal 8.0 cubic feet per lb.)

RULE 2.0 Requirements, for Permissible Uses of Methyl Chloride Refrigerant in Class B and C Refrigerating Systems.

2.1 That the refrigerating equipment room shall be isolated from human occupancies by reasonably gas tight opening closures.

2.2 A mechanical exhaust system with a capacity of ten changes of air per hour shall be provided for the refrigeration equipment room and so controlled electrically and automatically that it shall start with the refrigerating system and be kept running while the system is in operation; that an independent switch remotely located and labeled shall be provided for the mechanical exhaust system so that such ventilating system may operate independently if it should become necessary to stop the refrigerating system during an emergency; that the intake to the exhaust fan shall be located as near the floor as practicable. The capacity of such ventilating system shall in no event be less than the requirements in Section C19-99.b,3.

2.3 That the service company making the conversion shall check with the manufacturer of the specific equipment and certify in writing that conversion to methyl chloride can be safely made and shall list the changes in the system and controls as recommended by the manufacturer to make the equipment suitable for use with methyl chloride. The service company shall, after complying with the recommended changes by the manufacturer, certify to the Fire Commissioner that such recommended changes have been made and shall certify that all the requirements of these rules have been complied with.

2.3.1 The system shall be completely purged of all freon and the lubricating oil replaced with fresh oil suitable for use in refrigeration.

2.3.2 The system shall be thoroughly cleansed, dehydrated and tested for tightness and leaks by pressure immediately after methyl chloride is added. After the system has been purged as provided in Rule 2.3.1 and before methyl chloride is added, special tubes shall be attached on the feed side of the line, containing either silica gel (high test solid material specifically designed for refrigerant drying), activated alumina or suitable drying agent to insure thorough dryness of the refrigerant.

2.3.3 Expansion valves shall be reset or replaced as required.

2.3.4 Relief valves and pressure limiting device shall be reset to conform to the Administrative Code requirements.

2.3.5 All gaskets in the system shall be replaced with gaskets suitable for use with methyl chloride.

2.3.6 Only the exact amount of methyl chloride shall be charged into the system. Capacities shall be measured on the basis of weight of the refrigerant and not volume. Under no circumstances shall external heat, steam, open flame, or otherwise, be applied to the cylinder containing the refrigerant and only the exact amount of refrigerant required for charging shall be permitted to be delivered to the premises. After charging the cylinder shall be immediately disconnected and removed. No reserve storage of methyl chloride shall be permitted nor shall there be any open flames in the same room with the refrigeration equipment.

2.3.7 Before charging any refrigeration system with methyl chloride, all parts which are in contact with the refrigerant and are composed of aluminum, magnesium, zinc or their alloys, shall be replaced with parts made of suitable metals.

2.3.8 Upon completion of the conversion from freon to methyl chloride, and before the equipment is put in operation, the service company shall make a complete check for leaks using a Halide torch and immediately remedy any leaks.

2.3.9 A mask or helmet as approved by the Bureau of Mines of the U. S. Dept. of Interior for use with methyl chloride shall be provided in a suitable wall cabinet located immediately outside the equipment room.

2.3.10 A weekly inspection by the person holding a certificate of fitness to supervise refrigerating equipment as provided in C26-214.0 shall be made of the refrigeration equipment and all piping and connections for leakage.

2.3.11 Refrigeration equipment within the purview of these rules shall bear a metal sign reading: "Caution: Methyl Chloride Refrigerant, Guard against Leaks."

Minutes of Regular Meeting, January 3, 1945, at 2 P. M., Affecting Calendar Numbers 654-44-A, 658-44-A, 667-44-A, 720-44-A, 725-44-A, 558-43-A, 690-41-A, 143-44-A, 201-44-A, 656-44-A, 95-40-BZ, 446-40-BZ, 587-42-BZ, 274-44-BZ and 442-42-BZ.

Rules Governing the Use of Equipment for Spraying and Drying of Paints, Varnishes, Lacquers and Other Flammable Surface Coatings and Storage of Such Materials.

COURT DECISION

Court of Appeals approves decision of the Board that where a frame building was not lawfully occupied under Section 31 of the Tenement House Law prior to 1929, it acquired no vested right under Section 56 of the Multiple Dwelling Law. This decision can be taken as superseding the decision of Special Term Supreme Court in *People (Louis H. Pink as Superintendent of Insurance) vs. Murdock* (N. Y. Law Journal, November 27, 1937), 166 Misc. 124, 300 N. Y. S. 1250, also reported in Volume 15A of McKinney's Laws of New York, titled "Multiple Dwelling Law" under Section 56 (p. 24 of the 1942 Annotation):

Matter of Marie Ramundo vs. Murdock, et al—On July 6, 1939, the Board denied an appeal from an order of the Borough Superintendent, Department of Housing and Buildings; Cal. No. 474-39-A; premises 1711 Taylor Avenue, W.S., 95.01 ft. north of Van Nest Avenue, Borough of The Bronx.

By order of the Court, the appeal was restored to Calendar for additional testimony.

On July 1, 1941, the Board received additional testimony, indicating that prior to April 18, 1929, the building was not occupied by 3 families, in accordance with definition of a family in the Multiple Dwelling Law, etc., etc.; Board denied request to restore to Calendar.

Mr. Justice McGeehan at Special Term, Supreme Court reversed Board and annulled the order of Borough Superintendent, Department of Housing and Buildings (N.Y.L.J. March 7, 1942).

The building is a two-story frame structure, erected in 1903 for two families and located in a residence use district. Affidavits filed alleged that the building had been occupied for three families without legal sanction prior to 1929. The Borough Superintendent issued a permit for alterations to accommodate three families (Alteration Application 963-37) under the authority of the decision at Special Term, Supreme Court by Mr. Justice Peter Smith in re *People (Louis H. Pink as Superintendent of Insurance) vs. Murdock* (N. Y. Law Journal November 27, 1937), 166 Misc. 124, 300 N. Y. S. 1250. Later, the approval of plans was rescinded and a Certificate of Occupancy refused. Upon appeal to the Board, the action of Borough Superintendent was affirmed, holding that neither the Borough Superintendent nor the Board had any jurisdiction to vary the Multiple Dwelling Law, and that the alteration is not permissible so as to increase the number of families under Section 56 of the Multiple Dwelling Law.

Upon review of the decision of Special Term, reversing the action of the Board, Supreme Court, Appellate Division, First Department, unanimously restored the decision of the Board, stating *per curiam:*

> "The determination of the Board of Standards and Appeals to the effect that petitioner's premises were not used as a three-family dwelling on and before April 18, 1929, is amply supported by the evidence. The Board was warranted in sustaining the orders of the Bronx Borough Superintendent of Housing and Buildings dated March 15, 1939, which ordered a revocation of permits for alterations and directed petitioner to remove violations arising out of the alterations thus made. Misrepresentations as to the material facts in the application on which the permit and approval were based were adequately established. Upon discovery thereof, the Building Superintendent had express power to revoke the permit theretofore issued. (See Sec. C26-180.0 Administrative Code, Sec. 300 Multiple Dwelling Law.) Petitioner obtained no rights under the invalid permit. (Matter of Durning v. Reville, 137 Misc. 173, 176, 177, aff'd. 232 App. Div. 790.)
>
> The order should be reversed with $20. costs and disbursements and the motion to dismiss the order of certiorari and to confirm the determination of the Board of Standards and Appeals granted." (N. Y. Law Journal February 27, 1943.)

Affirmed by Court of Appeals without opinion (N. Y. Law Journal January 3, 1945, page 24).

CALENDAR

DOCKET

New Cases Filed up to January 2, 1945.

Cal. No. Dept. Premises Affected.

745-44-A—H.B.B.—3042-3060 West 23rd street (3050-3060 displayed), west side, 99 ft. north of Boardwalk (Block 7070, Lots 142, 143, 144, 145 and 155), Borough of Brooklyn, Alt. 1930-44.

746-44-A—H.B.M.—709-715 8th avenue and 300 West 45th street, southwest corner (Block 1035, Lot 36), Borough of Manhattan, Amendment to Alt. 940-44.

747-44-BZ—H.B.M.—68 and 70 Irving place, east side, 27 ft. north of East 18th street (Block 874, Lots 21 and 22), Borough of Manhattan, Alt. 1231-44 and Alt. 1232-44.

748-44-A—H.B.M.—68 and 70 Irving place, east side, 27 ft. north of East 18th street (Basement and 1st floors); (Block 874, Lots 21 and 22), Borough of Manhattan, Alt. 1231-44 and Alt. 1232-44.

749-44-BZ—H.B.M.—1160 Broadway, east side, 26 ft. 5¼ in. north of West 27th street (Block 829, Lot 29), Borough of Manhattan, Amendment to Alt. 1029-44.

750-44-A—H.B.M.—1160 Broadway, east side, 26 ft. 5¼ in. north of West 27th street (Block 829, Lot 29), Borough of Manhattan, Amendment to Alt. 1029-44.

751-44-A—F.D.—1681-1683 McDonald avenue, east side, 180 ft. north of Avenue O (1st floor); (Block 6583, Lots 67 and 68), Borough of Brooklyn, 98343-LC.

752-44-A—H.B.M.—9 West 19th street, north side, 195 ft. west of 5th avenue (2nd, 3rd, 4th and 5th floors); (Block 821, Lot 33), Borough of Manhattan, Decision.

753-44-BZ—H.B.R.—140 Main street, south side, 369.04 ft. west of Craig avenue (Block 8028, Lot 67), Tottenville, Borough of Richmond, N.B. 106-44.

1-45-A—H.B.B.—1319 50th street, north side, 140 ft. east of 13th avenue (1st floor); (Block 5642, Lot 70), Borough of Brooklyn, Alt. 3547-44.

Restored to Calendar.

1366-17-BZ—H.B.Q.—1920 Harman street, south side, 165 ft. west of Fairview avenue (Block 3388, Lot 21), Ridgewood, Borough of Queens, Alt. 642-44.

442-42-BZ—H.B.B.—2001-2011 Cropsey avenue and 8799-8815 20th avenue, northeast corner (Block 6442, Lot 5), Borough of Brooklyn, Amendment to N.B. 49-42.

558-43-A—F.D.—177-183 Lewis street, west side, 102 ft. north of East 4th street (Block 360, Lot 19 and part of Lot 30), Borough of Manhattan, 19447-LF and 19448-LF.

DESIGNATIONS: H.B.—Department of Housing and Buildings; **H.B.B.**—Department of Housing and Buildings, Brooklyn; **H.B.M.**—Department of Housing and Buildings, Manhattan; **H.B.Q.**—Department of Housing and Buildings, Queens; **H.B.R.**—Department of Housing and Buildings, Richmond; **H.B.Bx.**—Department of Housing and Buildings, Bronx; **H.D.**—Health Department, and **F.D.**—Fire Department.

JANUARY 9, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, January 9*, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

449-44-BZ—Application, July 20, 1944, under sections 7a and 21 of the zoning resolution, of Philip Freshman, applicant, on behalf of Peter Hartmann, owner, to permit in a business use district, the reconstruction of three (3) buildings, two (2) of which are two stories in height occupied as garages for more than five motor vehicles and one (1) one story in height occupied as a garage for five motor vehicles, into one (1) building one story in height to be occupied as a garage for more than five motor vehicles; premises 238-242 Vanderbilt avenue, west side, 208 ft. 7 in. north of DeKalb avenue (Block 2092, Lots 53, 54 and 55), Borough of Brooklyn.

CALENDAR

268-44-BZ—Application, May 5, 1944, under section 7e of the zoning resolution, of Herman Kron, applicant, on behalf of Ruth Katz, owner, to permit in a residence use district, for a temporary period of two years, the change of occupancy of a garage for more than five motor vehicles to a factory for wood working; premises 334-344 Cleveland street, west side, 100 ft. north of Liberty street (Block 3968, Lot 29), Borough of Brooklyn.

718-44-BZ—Application, December 11, 1944, under section 7e of the zoning resolution, of Harry M. Prince, applicant, on behalf of 39 Park Avenue Corporation, owner (Philip E. Wilcox, lessee), to permit in a residence use district, the temporary use of a portion of an existing residence building for conference room, professional office, drafting room, storage and file room; premises 39 Park avenue, northeast corner of East 36th street (Block 892, Lot 1), Borough of Manhattan.

370-41-BZ—Application of Ferdinand Savignano, applicant, on behalf of Sophie Rigler, owner, reopened December 12, 1944 for consideration as to extension of permit (expired by limitation)—Application, previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 443-451 Myrtle avenue and 137-155 Waverly avenue, northeast corner (Block 1889, Lots 96, 94 and 1), Borough of Brooklyn.

414-41-BZ—Application of John J. Beatty, applicant, on behalf of Thomas F. Martin Realty Company, owner (Louis Theil, lessee); reopened November 21, 1944, for consideration as to extension of permit (expired by limitation) re—Application (decision of the borough superintendent) previously granted on condition under section 7h of the zoning resolution, for a term of two years, permitting partly in a business use and partly in a residence use district, the parking of more than five motor vehicles; premises 2918-2926 West 17th street, west side, 170 ft. north of Surf avenue (Block 7061, Lot 16), Borough of Brooklyn.

991-40-BZ—Application of William J. Minogue, applicant, on behalf of Unexcelled Manufacturing Co., Inc., owner, reopened May 26, 1942, for consideration as to extension of permit (expired by limitation) re—Application, previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, for a term of two years, the erection and maintenance of twenty-six (26) buildings for fireworks; premises 1144-1208 Richmond avenue, west side, 400 ft. south of Lisk avenue (Block 1665, Lot 7 and Block 1660, Lot 1), Graniteville, Borough of Richmond.

319-44-BZ—Application, May 31, 1944, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of Joseph Newman, owner, to permit in a business use district, the conversion of a stable, store and one family residence building, to a motor vehicle repair shop, stores and residence for one family; premises 8664-8666 18th avenue, west side, 150 ft. north of Benson avenue (Block 6368, Lot 55), Borough of Brooklyn.

284-36-BZ—Application of W. T. McCarthy, applicant, on behalf of The House of St. Giles the Cripple, owner; reopened December 12, 1944 re—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit partly in a C area district and partly in an E area district, the alteration and extension in height of an existing hospital building, and the erection of additions thereto, to occupy a greater area than that permitted by the zoning resolution; premises 1342-1350 President street and 335-343 Brooklyn avenue, southeast corner (Block 1285, Lot 7), Borough of Brooklyn.

Appeals from Administrative Decisions

700-44-A—1342-1350 President street and 335-343 Brooklyn avenue, southeast corner (Block 1285, Lot 7), Borough of Brooklyn.

591-44-A—107-17 86th avenue, northwest corner of 108th street (1st floor); (Block 9197 (170), Lot 29), Richmond Hill, Borough of Queens.

Material for Approval

548-44-SM—Sloan V-200 ⅜" and ½" IPS Vacuum Breaker.

HARRIS H. MURDOCK, *Chairman.*

JANUARY 9, 1945, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday afternoon, January* 9, 1945, at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Appeals from Administrative Decisions

343-43-A—93-101 Lexington avenue, north side, 275 ft. east of Classon avenue (Block 1967, Lots 64 and 66), Borough of Brooklyn (reopened and restored to calendar, November 21, 1944; previously withdrawn).

496-43-A—425 Beach 72nd street, southwest corner of Hessler avenue (Block 523, Lots 22 and 24), Arverne, Borough of Queens (under section 35, General City Law re bed of mapped street—Barbadoes drive).

HARRIS H. MURDOCK. *Chairman.*

JANUARY 16, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, January* 16, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

330-42-BZ—Application of Eugene De Rosa, applicant on behalf of Jeron Co., Inc., owner, reopened and restored to Calendar, September 12, 1944 (previously withdrawn), under section 7c of the zoning resolution, to permit partly in a business use district and partly in a residence use district, the erection and maintenance of a building to be used as a theatre and stores; premises 95-42 to 95-48 Queens boulevard, south side, 130 ft. west of 63rd drive and 63-39 to 63-49 Saunders street (Block 3080, Lots 30 and 31), Rego Park, Borough of Queens.

192-38-BZ—Application of Power and Hopkins, applicants, on behalf of Walter W. Welton, et al, owners, reopened December 19, 1944, for consideration as to extension of permit (expired by limitation)—Application, previously granted on condition, under section 7i of the zoning resolution, for a term of two years, permitting in a business use district, the conversion of occupancy of an existing building to a motor vehicle repair shop; premises 1679-1681 Jerome avenue, west side, 275 ft. north of Featherbed lane (Block 2861, Lot 32), Borough of The Bronx.

670-44-BZ—Application, November 15, 1944 under section 21-C of the zoning resolution, of Albert E. Wheeler, applicant, on behalf of Vinmont Land Corporation, owner, to permit in a C and F area district, a one family residential development not conforming to the area district requirements; premises East side of Mosholu avenue, from West 254th to West 255th streets (Block 3421C, Lot 1311 and Block 3421D, Lot 1417), Borough of The Bronx.

220-44-BZ—Application, April 13, 1944, under sections 7c and 21 of the zoning resolution, of Anthony M. De Rose, applicant, on behalf of D'Abramo Realty Corporation, owner, to permit in a business use district, the change of occupancy of an existing building from a stable and wagon storage to a garage for more than five (5) motor vehicles and motor vehicle repair shop and without complying with yard and area requirements for a new building; premises 89 Thompson street, west side, 100 ft. 1 in. north of Spring street (Block 503, Lot 35), Borough of Manhattan.

CALENDAR

512-40-BZ—Application of Henry Nordheim, applicant, on behalf of Salvatore Rullo, owner, reopened November 28, 1944, under section 7i of the zoning resolution, to permit partly in a business use and partly in an unrestricted use district, the maintenance of a motor vehicle repair shop, previously granted by the Board for a term of two years; premises 2623 Roberts avenue, north side, 100 ft. west of Blondell avenue and 1409 Blondell avenue (Block 4074, Lot 22), Borough of The Bronx.

515-29-BZ—Application of Henry Nordheim, applicant, on behalf of Nicola Latini, owner, reopened October 17, 1944, under section 7c of the zoning resolution, to permit in a residence use district, the further extension to the 2nd story of a business use (undertaking establishment) previously granted by the Board for the 1st story; premises 711 Tilden street, north side, 72 ft. east of Gunhill road (Block 4659, Lot 85), Borough of The Bronx.

Appeal from Administrative Decision.

558-44-A—711 Tilden street, north side, 72 ft. east of Gunhill road (1st and 2nd floors); (Block 4659, Lot 85), Borough of The Bronx.

Material for Approval.

616-44-SM—Pittsburgh Welded Wire Reinforcement.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

WEDNESDAY MORNING, JANUARY 3, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board, held on Tuesday morning, December 19, 1944, and Tuesday afternoon, December 19, 1944, were approved, as printed in Bulletin No. 51, Volume 29.

ZONING CASES

268-44-BZ

APPLICANT—Herman Kron, for Ruth Katz, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, for a temporary period of two years, the change of occupancy of a garage for more than five motor vehicles to a factory for wood working.

PREMISES AFFECTED—334-344 Cleveland street, west side, 100 ft. north of Liberty avenue (Block 3968, Lot 29), Borough of Brooklyn.

APPEARANCES—

For Applicant: Herman Kron and J. Steinberg.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 9, 1945 at 10 A. M., for decision.

599-44-BZ

APPLICANT—Paul Friedman, for Isser Einhorn, owner (Adelphi Paint and Color Works, Inc., lessee).

SUBJECT—Application (decision of the acting borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence use district, the addition of a 2nd story on an existing paint storage building and its connection to an existing two story paint factory.

PREMISES AFFECTED—85-20 to 85-26 and 86-02 to 86-08 135th (Dumont) avenue, south side, 441.83 ft. east of 84th street (Block 11396, Lots 25 and 32), Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman, Samuel Gardstein, Isser Einhorn and Sophie Emmen.
For Opposition: Emily L. Skerrett, Hedwig Puleo, Edward F. Morton, Flora De Martin, Frances M. Hamilton, May Beck and Max Shlivek.
For Administration: Fred Dahlem, Dep't of Housing and Buildings and Harold Klorfein, Dep't of Parks.

ACTION OF BOARD—Laid over to January 30, 1945 at 10 A. M., for inspection by a committee of the Board. No further argument.

606-44-BZ

APPLICANT—Albert E. Wheeler, for Marie P. Campagna, owner.

SUBJECT—Application (decision of the acting borough superintendent) under section 21-C of the zoning resolution, to permit in an F area district, a one and two family residential development not conforming to the area district requirements.

PREMISES AFFECTED—South side of West 249th street (Spauldings Lane), between Henry Hudson parkway and Arlington avenue (Block 3419, Lot 91), Borough of The Bronx.

APPEARANCES—

For Applicant: Albert E. Wheeler, Anthony Campagna and Stanley M. Moffat (Amicus Curiae).
For Opposition: Charles G. Witherspoon and Thomas A. Diskin.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to February 6, 1945 at 10 A. M., for further consideration.

670-44-BZ

APPLICANT—Albert E. Wheeler, for Vinmont Land Corporation, owner.

SUBJECT—Application (decision of the acting borough superintendent) under section 21-C of the zoning resolution, to permit in a C and F area district, a one family residential development not conforming to the area district requirements.

PREMISES AFFECTED—East side of Mosholu avenue, from West 254th to West 255th streets (Block 3421C, Lot 1311 and Block 3421D, Lot 1417), Borough of The Bronx.

APPEARANCES—

For Applicant: Albert E. Wheeler, Robert C. Weinberg and Mr. Robbins.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings, Gustav Goldman, Board of Education and Harold Klorfein, Dep't of Parks.

ACTION OF BOARD—Laid over to January 16, 1945 at 10 A. M., for further consideration.

699-44-BZ

APPLICANT—Sidney L. Strauss, for Ten Fifth Avenue Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, a one story extension to a multiple dwelling and stores building, the extension to cover balance of lot.

PREMISES AFFECTED—10 Fifth avenue and 1 West 8th street, northwest corner (Block 572, Lot 44), Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney L. Strauss and others.
For Opposition: Edward G. Steinert.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 23, 1945 at 10 A. M., on request of applicant.

718-44-BZ

APPLICANT—Harry M. Prince, for 39 Park Avenue Corporation, owner (Philip E. Wilcox, lessee).

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the temporary use of a portion of an existing residence building for conference room, professional office, drafting room, storage and file room.

PREMISES AFFECTED—39 Park avenue, northeast corner of East 36th street (Block 892, Lot 1), Borough of Manhattan.

APPEARANCES—

For Applicant: Henry M. Prince, Philip E. Wilcox and John P. Fox.
For Opposition: Dr. J. Kunstler, Walter Keane and Julius Perbinder.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

MINUTES

ACTION OF BOARD—Laid over to January 9, 1945 at 10 A. M. for decision by the Board. Applicant to file revised plans.

1366-17-BZ

APPLICANT—Saul Goldsmith, for 1920 Harman Street Corporation, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the acting borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a residence use district, the change of use from a factory for manufacture of hospital furniture (permitted by the Board) to paper box and knitwear manufacturing.

PREMISES AFFECTED—1920 Harman street, south side, 165 ft. west of Fairview avenue (Block 3388, Lot 21), Ridgewood, Borough of Queens.

APPEARANCES—

For Applicant: Saul Goldsmith and Jeannette Pulver.

For Opposition: Sidney S. Levine.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, restored to calendar and set for hearing on January 23, 1945 at 10 A. M.

THE VOTE TO REOPEN—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

33-20-BZ

APPLICANT—Juseph Lau, for Eugene F. Nolan, owner.

SUBJECT—Application reopened October 6, 1942, re (decision of the acting borough superintendent) under section 7c of the zoning resolution, to permit partly in a business use district and partly in an unrestricted use district, the change of occupancy from oil storage in the cellar and ice storage on the 1st floor (previously granted by the Board) to dead storage of autos in the cellar and a garage for more than five motor vehicles on the first story.

PREMISES AFFECTED—245 West Fordham road, northeast corner of Cedar avenue (Block 3235, Lots 30, 33, 34, 37, 38, 48 and 49), Borough of The Bronx.

APPEARANCES—

For Applicant: Joseph Lau.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (33-20-BZ)

WHEREAS, this application, permitting partly in a business use district and partly in an unrestricted use district, the erection and maintenance of an ice storage plant and garage for more than five motor vehicles, affecting premises 245 West Fordham road, northeast corner of Cedar avenue (Block 3235, Lots 30, 33, 34, 37, 38, 48 and 49), Borough of The Bronx, was granted by the Board on February 3, 1920, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution relative to the change of occupancy to dead storage of autos in the cellar and a garage for more than five motor vehicles on the first story; and

WHEREAS, this case was reopened by vote of the Board on October 6, 1942, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 3, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that West Fordham road is in a business use, B area and 1½ times height district; Cedar avenue is in a business residence and unrestricted use, B area and 1½ times height district; Landing road is in an unrestricted use, B area and ½ times height district; and

WHEREAS, the decision of the borough superintendent, dated May 26, 1944, re amendment to Alt. App. 490-42, reads:

"Amendment disapproved with the following objection:

3. Proposed occupancy of this building, which is as follows:

Cellar—Dead storage of motor vehicles
1st fl.—Garage for more than 5 motor vehicles
2nd fl.—Garage for more than 5 motor vehicles.

is contrary to the resolution approved by the Board of Standards and Appeals under Cal. #33.20-BZ, which is as follows:

Cellar—Ice Storage—1st Floor—Ice Plant—
2nd floor—Garage for more than 5 motor vehicles."

and

WHEREAS, the applicant states the premises consist of a plot, 165.85 ft., irregular in frontage, by 195.38 ft., irregular, in depth, on which is located a 2-story building occupying the entire plot, of class 1 construction, except roof of 2nd story; that it is proposed to change the occupancy from ice storage and ice plant to dead storage of automobiles in cellar and garage for more than five motor vehicles above; and

WHEREAS, the applicant contends that the building was erected in 1920 to be used as an ice manufacturing plant and later in 1920 as ice manufacturing plant and garage; that this usage was approved under Cal. 33-20-BZ; that the building has never actually been used as an ice plant and during all these years, has been vacant and used only for storage; that the original loading entrance on Fordham road had been left open and only boarded up within the last few years, by order of the Fire and Police Departments; that since the present owner took over the property, he has closed this opening with masonry walls and windows and fixed up all old windows which were broken and boarded them up; that the building now looks far better than at any time since its erection; that Certificate of Occupancy 439, indicates that the first floor is to be used for truck storage and machinery; that this was old ice plant machinery which was never installed, and since removed; that the second floor indicates the use as a garage; that nothing is mentioned ni the certificate about the lowest story or cellar; that the latter is included in this appeal for modification of resolution of Cal. 33-20-BZ, to include its use for dead storage of motor vehicles; that this portion of the building is in the unrestricted use district, which runs 100 ft. southerly from landing place and 100 ft. easterly from Cedar avenue, the remainder of plot being in the business use district; that the property is under one ownership and the increase of 25 feet into the business district leaves over 90% of the plot in an unrestricted area; that the owner has improved the appearance of the property and eliminated many hazards of old areaways, which were only fenced in, but are now filled in and made safe for children and people using these sidewalks; that the only portion of the building which is nonfireproof is the roof and a standpipe system is installed on 2nd floor with three stations, 100 feet of hose each, thereby covering entire area of second floor; therefore, it is requested the Board grant the use of the building as is contained in this application; and

WHEREAS, the owner stated in his communication of December 20, 1944, that he intends to use the entire basement and first floor of the building for the dead storage of new and used cars; that this storage space would be used in conjunction with his new car dealer operations; that in normal times the stock of new pleasure cars and trucks is approxi-

mately 150 and in addition, he also has on hand from 100 to 200 used pleasure cars and trucks, all owned by Nolan Motors, Inc.; that it is not his intention to use either of the two stories for the live storage of cars, as they are not adaptable for such storage, as they are not heated, are crowded with concrete pillars and have four different floor levels; and

WHEREAS, the Board deemed that this application for change of occupancy for a portion of this building is justified under section 7c of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted on February 3, 1920, by adding thereto:

"* * * that the lower two stories of the building, formerly proposed to be occupied as an ice plant, may be occupied for the dead storage of motor vehicles, as proposed in the letter of the owner, dated December 20, 1944, above quoted; and that in all other respects, the building and occupancy shall comply with the requirements of the resolution adopted February 3, 1920, and with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within six months from the date of this *amended* resolution."

APPEALS FROM ADMINISTRATIVE DECISIONS

695-44-A

APPLICANT—William Higginson and Son, for Gair Realty Corporation, owner (Uddeholm Co. of America, Inc., lessee).

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—98 Front street, south side, 51 ft. 1 in. west of Adams street (Block 51, Lot 17), Borough of Brooklyn.

APPEARANCES—

For Applicant: Clarence Higginson and Erik V. Ensvik.

For Administration: Edwin A. Meyer, Fire Dep't.

ACTION OF BOARD—Laid over to January 23, 1945 at 10 A. M. for inspection by a committee of the Board.

727-44-A

APPLICANT—Federal Telephone and Radio Laboratories, lessee, for International Telephone Building Corp., owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—65-81 Broad street, 30-36 Beaver street, southeast corner and 28-36 South William street, northeast corner of Broad street, 2nd floor (Block 29, Lot 70), Borough of Manhattan.

APPEARANCES—

For Applicant: Kenneth Hill, John J. Glauber and W. Boyd.

For Administration: Edwin A. Meyer, Fire Dep't.

ACTION OF BOARD—Laid over to January 23, 1945 at 10 A. M. for inspection by a committee of the Board.

Adjourned: 2:00 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

WEDNESDAY AFTERNOON, JANUARY 3, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

654-44-A

APPLICANT—Julius Bleich, for B. C. U. Holding Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—878-880 Prospect avenue, east side, 112 ft. north of Westchester avenue and 845-847 Westchester avenue (2nd and 3rd floors): (Block 2690, Lot 4), Borough of The Bronx.

APPEARANCES—

For Applicant: Julius Bleich.

For Administration: Fred Dahlem, Dep't. of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (654-44-A)

WHEREAS, Julius Bleich, for B. C. U. Holding Corporation, owner, filed on November 20, 1944, an appeal from a decision of the borough superintendent, affecting premises 878-880 Prospect avenue, east side, 112 ft. north of Westchester avenue, and 845-847 Westchester avenue (2nd and 3rd floors); (Block 2690, Lot 4), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated November 16, 1944, on Alt. Applic. 569-44, reads:

"1. Exits must comply with Section 270 Labor Law"; and

WHEREAS, the applicant states the building is 3 and 4 stories and pent house (54 ft. 4 in.) in height; 50 ft. by 95 ft. average in area; of Class 1 construction; located in a business use, B area, Class 1½ height district; erected 1928, and used and occupied since erection as follows: Cellar, boiler room, bank vault, stores and storage, 30 persons; 1st floor, bank, 25 persons; 2nd floor, public assembly, 185 persons; 3rd floor, public assembly, 200 persons; pent house, one four-room apartment; proposed to be used and occupied as follows: Cellar, same; 1st floor, same; 2nd floor, office and manufacturing garments, 60 persons; 3rd floor, office, manufacturing garments, show room and storage, 60 persons; 4th floor, one four-room apartment, the percentage of manufacturing not to exceed that allowed by the zoning resolution; that the building is equipped with one 3 ft. 8 in. steel stairs, enclosed in 4 in. terra cotta blocks, plastered both sides, equipped with fireproof self-closing doors and leading from the roof to the street, and one fire escape on Westchester avenue front, leading to the roof by stair and to the street by counterbalanced stair; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the Certificate of Occupancy 1195, issued August 14, 1929, on N.B. Applic. 1169-29, permits the use of the building as stores and public assembly with 120 lbs. live load on all floors and classifies the building as brick construction; and

WHEREAS, the applicant contends that the building is of Class 1 construction, equipped with a fireproof stair from the street to the roof and an exterior fire stairs consisting of balconies, 4 ft. wide with 2 ft. wide connecting stairs at 45 degree angle and terminating in a counterbalanced stairs, hung from the 2nd floor balcony; that while these exits are not strictly in accordance with Section 270 of the Labor Law, they are adequate for the small occupancy proposed on the 2nd and 3rd floors, which floors were formerly approved for 200 persons per floor under N.B. Applic. 1169-29; that the factory work will be limited to the 2nd and 3rd floors, which are within 14 ft. 4 in. of curb on Prospect avenue for the 2nd floor and 26 ft. 6 in. for the 3rd floor; that the building has become economically obsolete for the purpose for which it was erected, as the neighborhood has changed its character; that the upper floors have been va-

cant for years; it is therefore imperative that the use for factory purposes be permitted; that there is a lease pending, conditioned upon the granting of this appeal; that the building is equipped with proper sanitary facilities and will be provided with ample dressing rooms and it is adequately lighted and ventilated; it is therefore requested that the Board grant this appeal based on the facts herein presented.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the labor law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 569-44, objection 1, and that the appeal be and it hereby is *granted on condition* that the exits shall be arranged as indicated on plans filed with this appeal marked "Received November 20, 1944"; that in addition, a fire passage shall be constructed and maintained from the public hall at the northerly side of the building, leading to the fire escape shown on Westchester avenue; that such passageway shall be constructed on the 2nd and 3rd floors and shall be constructed of 4" T.C. blocks and shall be cut off from the public hall by a fireproof, self-closing door; that an additional door with vestibule shall be provided as a second means of exit from the northerly space on each floor to such passageway; that in addition, there shall be a cross-partition installed in the public hall on the second floor and an additional exit from the front space on the second floor, Prospect avenue side, opening to such public hall to the northerly side of such cross-partition; that a one-source sprinkler system shall be installed and maintained throughout the building or if no sprinkler system is installed, a fire alarm system and fire drills shall be maintained in accordance with the requirements of the Labor Law; that the amount of space occupied for factory work shall not exceed the amount permitted under the zoning resolution; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto and that the occupancy of each floor shall not exceed a total as may be lawfully permitted by the capacity of the primary means of exit.

658-44-A

APPLICANT—The Firm of Frederick G. Frost, for Emery Thompson Machine and Supply Co., owner.

SUBJECT—Appeal from a decision of the acting borough superintendent.

PREMISES AFFECTED—1343 Inwood evenue, west side, 345 ft. south of West 170th street (2nd floor); (Block 2864, Lot 21), Borough of The Bronx.

APPEARANCES—

For Applicant: Barnett Yurdin.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (658-44-A)

WHEREAS, the firm of Frederick G. Frost, for Emery Thompson Machine and Supply Company, owner, filed November 21, 1944, an appeal from a decision of the borough superintendent, affecting premises 1343 Inwood avenue, west side, 345 ft. south of West 170th street (2nd floor); (Block 2864, Lot 21), Borough of The Bronx; and

WHEREAS, the decisions of the borough superintendent, dated November 10, 1944, on Alt. Applic. 540-44, reads:

"1. Provide two means of egress from each floor area in accordance with Sec. 270 Labor Law."

and

WHEREAS, the applicant states the building is 2 stories (36 ft.) in height; 112.83 ft. by 177.56 ft. in area at 1st floor; 112.83 ft. by 86 ft. in area at 2nd floor; of Class 1 construction; erected 1920; located in an unrestricted use, B area, Class 1¼ height district, and used and occupied as follows: Cellar, boiler room; 1st floor, high tension switchboard room, mezzanine, toilet rooms; 2nd floor, storage; and proposed to be used and occupied as follows: cellar, boiler room, 1 person; 1st floor, manufacturing blood plasma equipment, 50 persons; mezzanine, toilet rooms, 10 persons; 2nd floor, office and fabrication shop, 8 persons; that the building is equipped with one 3 ft. 8 in. wide steel stairs, enclosed in 8 in. brick walls, equipped with kalamein self-closing doors and extending from the roof bulkhead directly to the yard and thence to the street and one counterbalanced fire escape stair at the southwest end of one story extension roof leading to the yard with egress from the yard to Inwood and Cromwell avenues; that windows and doors on the course of the fire escape are fireproof and self-closing; and

WHEREAS, the applicant contends that as only 8 persons will occupy the 2nd floor, the existing 8 in. brick enclosed fireproof stair will be more than adequate for this occupancy; that a secondary means of egress could be had to the roof area over the extension to an existing counterbalanced steel fire escape stair leading to the yard on the southwest end of the building; that this yard opens to Inwood and Cromwell avenues; that a new kalamein exit door will be installed from the fabrication shop floor area, directly to the fireproof stair enclosure and will make the exit more direct for persons in this part of the building and that in view of the fireproof construction of the building, the existing exit facilities and the low occupancy, it is requested the Board grant a variation of the provisions of Section 270 of the Labor Law.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 540-44, objection 1, and that the appeal be and it hereby is *granted on condition* that the primary means of exit shall be maintained, complying with all requirements therefor; that an additional door, as proposed, shall be constructed from the fabricating shop to the primary means of exit, as indicated on plans filed with this appeal marked "Received November 21, 1944;" that the secondary means of exit may consist of a counter-balanced fire escape ladder from the westerly one-story roof to the side yard, leading to Cromwell avenue; that the exit doors, as shown from the 2nd story to roof, shall be maintained and a walk-way shall be constructed from the northerly roof to the southerly roof over the intervening roof monitor; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

667-44-A

APPLICANT—Ranger Aircraft Engines, Division of Fairchild Engine and Airplane Corp., lessee, for Defense Plant Corp., owner.

SUBJECT—Appeal from a decision of the acting borough superintendent.

PREMISES AFFECTED—184-02 Jamaica avenue, south side, 330.58 ft. east of 183rd street (Building No. 3); (Block 10352, Lot 66), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: John A. Kibler.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (667-44-A)

WHEREAS, Ranger Aircraft Engines, Division of Fairchild Engine and Airplane Corp., lessee, for Defense Plant Corporation, owner, filed November 22, 1944, an appeal from a decision of the borough superintendent, affecting premises 184-02 Jamaica avenue, south side, 330.58 ft. east of 183rd street (Building No. 3); (Block 10352, Lot 66), Jamaica, Borough of Queens; and

MINUTES

WHEREAS, the decision of the borough superintendent, dated December 14, 1944, on amendment to Alt. Applic. 205-44, reads:

"1. The use of wood subdividing petitions is contrary to Section 270 of paragraph 6 of Labor Law.

2. Change in number of occupants on second floor is contrary to number of persons mentioned in appeal to Board of Standards and Appeals.

3. The use of second floor for factory use is contrary to the decision of Board of Standards and Appeals in Cal. 143-44-A."

and

WHEREAS, the applicant states the building is two stories (40 ft.) in height; 60 ft. by 250 ft. in area; of Class 5 construction; erected 1928; located in an unrestricted use, C area, Class 1 height district, and used and occupied since 1944 for manufacturing of airplane parts, 150 persons on the 1st floor, 10 persons on the 2nd floor, and proposed to be used and occupied as follows: 1st floor, manufacturing airplane parts, 50 persons; 2nd floor, manufacturing airplane parts, 85 persons; that the building is equipped with a two source sprinkler system, and standpipe system; that there are two 3 ft. 8 in. wide fireproof stairs from the 1st to 2nd story and one exterior stairs from the 2nd floor, east side, to a court by a ladder with passage to the street; and

WHEREAS, the applicant contends that the building was acquired in March, 1944, and alterations made for use of the building; that when these alterations were practically completed, it was found that the lessee's requirements were better suited for the use of the second floor for inspection and light manufacturing and the first floor for storage and a small amount of light manufacturing, in lieu of the use of the 2nd floor for storage and 1st floor for inspection and light manufacturing, as previously permitted by the Board under Cal. 143-44-A; that an application has now been made to the borough superintendent, to permit this change in use and occupancy; that the number of occupants on the 2nd floor has been changed from 10 persons to 85 persons, which is within the capacity of the legal exits; that the occupancy of the 1st floor has been decreased from 150 persons to 50 persons and the total occupancy of the building decreased from 160 persons to 135 persons; that the U. S. Army has requested that areas on both floors be separated for storage of vital war materials; that these spaces were separated by wood and wire partitions 7 ft. high, that are constructed as follows: 4 ft. plywood base with wire mesh over to a total height of 7 ft.; 4 ft. plywood base with glass panels over to a total height of 7 ft., or wire mesh partition 7 ft. high on wood studs; and

WHEREAS, the applicant contends that in view of the fact that this building is equipped with a standpipe, sprinkler system, fire alarm system and that the stairs are adequate, it is requested that a variation be granted, to permit the emergency partition construction and the revised occupancy and use as requested herein.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the borough superintendent, acting on Alt. App. 205-44, objection 1, and that the appeal be and it hereby is *granted on condition* that in all other respects, the building and occupancy shall comply with the requirements of resolution adopted by the Board under Cal. 143-44-A, under date of March 21, 1944, as amended this day; and that other than as modified therein, that the building shall comply in all other respects with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area; that the sprinkler and standpipe systems shall be maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner.

720-44-A

APPLICANT—Irving Imre Chairman, for Stuyvesant Town Corp., owner (Isaacs Tanenbaum, lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—434-436 East 18th street, south side, 94 ft. west of Avenue A (Block 949, Lot 33), Borough of Manhattan.

APPEARANCES—

For Applicant: Irving Imre Chairman, Sol. Kinla, Jr. and Isaacs Tannenbaum.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (720-44-A)

WHEREAS, Irving Imre, Chairman for Stuyvesant Town Corporation, owner (Isaacs Tanenbaum, lessee), filed December 11, 1944, an appeal from a decision of the borough superintendent, affecting premises 434-436 East 18th street, south side, 94 ft. west of Avenue A (Block 949, Lot 33), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated December 11, 1944, on amendment to Alt. Applic. 3372-40, reads:

"11. Repeated — reconsideration denied. Second means of exit should be another fireproof stairway as per Section 270, Labor Law.

12. Live load on upper floors should be at least 120 lbs."

and

WHEREAS, the applicant states the building is three stories (36 ft. 5 in.) in height; 50 ft. by 91 ft. 8 in. in area; of Class 3 construction; erected in November, 1913; located in an unrestricted use, B area, Class 1½ height district, and used and occupied since 1943 as follows: 1st floor, manufacture of ships galleys, 30 persons; 2nd floor, office and storage, 9 persons; 3rd floor, storage, 9 persons, and proposed to be used and occupied as follows: 1st floor, same; 2nd floor, manufacture of ships galleys, 5 persons; 3rd floor, manufacture of ships galleys, 5 persons; that the building is equipped with an interior fire alarm system and fire drills are maintained; that there is one 3 ft. 6 in. wide wood fire retarded stairway, enclosed in fireproof partitions, equipped with one hour test self-closing doors and leading directly to the street with access to the roof, therefrom by a ladder and scuttle and one fire escape at the front, which does not extend to the roof and which extends to the street by a counterbalanced ladder; that windows and door openings on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends as to Objection 11, that the fire escape at the front of the building is adequate to discharge persons to the street and is better than an additional stairway, which would lead only to the back yard; that the stairway as in use has ample capacity to safeguard the occupants of the building and provide egress to the street in case of fire; that the War Production Board will not issue a priority to permit the construction of an additional stairway; and contends as to Objection 12, that the floor load according to Certificate of Occupancy 19953, issued November 9, 1934, filed with this appeal, is 96 lbs. and that the machinery is so arranged that this live loading will not be exceeded; and

WHEREAS, the applicant further contends that a temporary certificate of occupancy is requested, as the Stuyvesant Town Corporation has acquired this property and the use of the building will be discontinued not later than April 30, 1945; and

WHEREAS, at the time the Board acted on January 21, 1941, on Cal. 1194-40-A, the building was proposed to be occupied as a garage; and

WHEREAS, said Alteration Application 3372-40, has been amended to change the occupancy to that of storage; and

WHEREAS, it is now proposed to occupy it as follows: 1st floor, manufacture of ship galleys, 30 persons; 2nd floor, same, 5 persons; 3rd floor, same, 5 persons; and

MINUTES

WHEREAS, no Certificate of Occupancy was issued for the occupancy proposed in application made to the Board under 1194-40-A.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the borough superintendent and that the appeal be and it hereby is granted as to Alt. Applic. 3372-40. Objection 11, *on condition* that the second means of exit as shown on revised plans marked "Received December 11, 1944" shall be maintained and that the primary means of exit shall be maintained as indicated thereon, *on condition,* however, that the number of persons occupying each of the 2nd and 3rd floors shall not exceed five, and provided that a goose neck ladder is constructed and maintained leading from the highest fire escape balcony to the roof; as to Objection 12, that the floor load of each of the 2nd and 3rd floors shall be not less than 75 lbs. per superficial foot, and the equipment and material stored on the 2nd and 3rd floors shall at no time exceed such loading; that signs, indicating such loading per superficial foot, shall be posted; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 1194-40-A, except that the use of the premises may be as proposed; that the building shall not be increased in height or area; that this variance shall continue for a period of one year from the date of this resolution.

725-44-A

APPLICANT—M. Martin Elkind, for Budget Holding Corp., owner.

SUBJECT—Appeal from a decision of the acting borough superintendent.

PREMISES AFFECTED—41-03 Broadway and 31-89 41st street, northeast corner (Block 679, Lot 7), Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: M. Martin Elkind.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (725-44-A)

WHEREAS, M. Martin Elkind, for Budget Holding Corporation, owner, filed December 13, 1944 an appeal from a decision of the borough superintendent, affecting premises 41-03 Broadway and 31-89 41st street, northeast corner (Block 679, Lot 7), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated December 6, 1944, on amendment to Alt. Applic. 1476-44, reads:

"1. Stair enclosure of combustible material, the omission of concrete arch roof over stairway and the omission of extension of stairhall enclosure above roof level is contrary to Section 270 of the Labor Law.

2. Stairs and doors less than 44 in. in width are contrary to section 270 of the Labor Law.

3. Balcony is required to have two means of exits as required by section 270 Labor Law."

and

WHEREAS, the applicant states that the building is 2 stories, (41 ft.) in height, 55 ft. by 96 ft. in area, of class 3 construction, erected in 1922, located in a business use, B area class 1½ height district and used and occupied since 1923 as follows: cellar—storage and boiler room; 1st floor—store; 2nd floor—club house; number of occupants not stated; mezzanine—auditorium—number of occupants not stated and proposed to be used and occupied as follows: cellar—storage and boiler room—no persons; 1st floor—stock room, manufacturing clothing and office—50 persons; 2nd floor—manufacturing clothing—100 persons; mezzanine—rest room for women—50 persons; that the building is equipped with two iron stairs leading from the second story to the street and from the mezzanine to the street; that one stairway is enclosed in 4 in. terra cotta block enclosure and is 3 ft. 8 in. in width, equipped with 3 ft. 4 in. fireproof, self-closing doors and the other stairway is enclosed in 4 in. terra cotta blocks at 1st floor, equipped with 3 ft. wide fireproof, self-closing door and proposed to be enclosed in wood studs, covered both sides with metal lath and cement plaster, equipped with 3 ft. 8 in. self-closing doors at 2nd floor and mezzanine floor levels and to be extended to the roof by a stationery iron ladder and scuttle; that this stairway is to be 3 ft. 8 in. and 6 ft. in width, as indicated on plans filed with this appeal; and

WHEREAS, the applicant contends that the north stair is of iron construction, enclosed with 4 in. terra cotta block partition with fireproof, self-closing doors and a stationary iron ladder to a scuttle in the roof; that the south and main stair is constructed of steel and extends from 1st floor to 2nd floor mezzanine and is enclosed only on the 1st story with 4 in. terra cotta; that it is proposed to complete the enclosure from 1st floor to roof with 2 in. by 4 in. wood studs, covered with metal lath and ¾ in. cement plaster both sides and to provide a stationery iron ladder to a scuttle in the roof; that acceptance is requested of the existing and proposed conditions as herein described, without requiring stair enclosures to extend 3 ft. above the roof and without the installation of concrete slabs at stairhall roofs; that the south stair is 5 ft. 6 in. minimum width with a 6 ft. 6 in. hall width on 1st floor and three 3 ft. doors leading to the street; that the main factory floor is only 1 story—12 ft. above street level; that the net 2nd floor factory area is only 4100 sq. ft.; that the height of the building is only 41 ft. from curb to high point of the roof; that two interior stairs will provide exit from 2nd floor; and

WHEREAS, the applicant contends as to objection 2, that at the north stairway, existing doors from 1st and 2nd floors to stairs are 3 ft. 4 in. wide; that the door from the stairhall to the street is 3 ft. 2 in. wide; that at the front stairs, the door from 1st floor to stairhall is 3 ft. wide; that acceptance is requested to accept these existing conditions, as the present door widths of 3 ft. 4 in. are only 4 in. short of the requirements; that the 1st floor has in addition to the exit through the north stairway, two other exits, one 3 ft. and the other two 3 ft. doors; that in addition to the 3 ft. 2 in. door leading to the street from stairhall, there is also another 3 ft. 2 in. door from the stairhall to the side yard, six steps below the first floor level; that this side yard leads directly to the street; that at front or south stair, while door from the 1st floor to the stairhall is not 3 ft. 8 in., but is 3 ft., there are two other direct means of egress to the street, one being a pair of 3 ft. doors and the other being a 3 ft. 4 in. door to the rear stairhall; as to objection 3, that the balcony has a net area of only 1300 sq. ft. and will be used only for rest and lounge room; that the stair from this floor is of ample width consisting of two 3 ft. 8 in. stairs, merging into a 6 ft. stair; that stairs and stairhalls, as indicated on plans filed with this appeal, are capable of accommodating 120 persons, based on the following computation:

Main (south) stair:	
15 persons per 22 in. width. For 66 in. wide stair	45
(credit taken for floor height over 10 ft.)	
2nd floor landing 69 sq. ft. div. by 5 sq. ft. per person	13
Intermed. landing 58 sq. ft. div. by 5 sq. ft. per person	11
1st floor hallway 130 sq. ft. div. by 5 sq. ft. per person	26
Rear Stair:	
15 persons per 22 in. width	15
2nd floor landing 28 sq. ft. div. by 5 sq. ft. per person	5
Intermed. landing 28 sq. ft. div. by 5 sq. ft. per person	5
Total persons	120

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1476-44, objections 1, 2 and 3, and that the appeal be and it hereby is *granted on condition* that the primary and second means of exit as indicated on plans filed September 9, 1944, shall be maintained and enclosed as proposed and shown; that the doors leading thereto shall comply with the requirements therefor, except the doors to the secondary means of exit may be 3 ft. 4 in. on the second floor and the exit at the street from this stair may be 3 ft. 2 in.; that the existing balcony on the easterly side of the building, formerly used in conjunction with the public occupancy, shall be retained with at least one door opening to same from the second story; that other doors may be changed to windows as proposed; that the balcony shall not be used other than for women's rest room, as proposed, and no subdividing partitions constructed therein; that a second door, leading to the stairhall at the balcony level, shall be constructed on the westerly side of such stair enclosure; that the hand-rail above the proposed false floor shall not be less than 4 ft. 6 in. in height; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the building shall not be increased in height or area; that the amount of space occupied for manufacturing shall not exceed that permitted under the zoning resolution; and that in all other respects, the building and occupancy shall comply with all rules, laws and regulations applicable thereto.

558-43-A

APPLICANT—W. G. Storch, for New York City Housing Authority, owner; (Horowitz Brothers and Margareten, lessee).

SUBJECT—Application for consideration—reopening and restoration to calendar—re Appeal from orders of the fire commissioner. (previously dismissed for lack of prosecution).

PREMISES AFFECTED—177-183 Lewis street, west side, 102 ft. north of East 4th street (Block 360, Lot 19 and part of Lot 30), Borough of Manhattan.

APPEARANCES—
For Applicant: Randell Henderson.

ACTION OF BOARD—Appeal reopened, restored to calendar and denied.

THE VOTE TO REOPEN—

Negative: 0

THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (558-43-A)

WHEREAS, Horowitz Brothers and Margareten, as owners, filed on November 16 1943, an appeal from orders of the fire commissioner, affecting premises 177-183 Lewis street, west side, 102 ft. north of East 4th street (Block 360, Lot 19 and part of Lot 30), Borough of Manhattan; and

WHEREAS, said appeal was subsequently amended by W. G. Storch, applicant for New York City Housing Authority, owner, Horowitz Brothers and Margareten, lessee, on November 28, 1944; and

WHEREAS, this appeal was dismissed for laek of prosecution, on December 5, 1944, and the applicant requested a reopening and restoration to the calendar; and

WHEREAS, Order 19447-LF, affecting 177 Lewis street, issued by the fire commissioner on October 13, 1943, reads:

"1. Properly scrape and paint with two coats of paint the fire escapes on front of building. Sections 273-274 of the Labor Law.

2. Repair or replace the (defective) shutters with proper iron shutters at all openings in the exterior wall above the 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at south side of building or other approved protection. Section 491-A-2.2. Adm. Code.

3. Properly paint iron shutters on windows on south side of building. Section 491-A2-2.—Adm. Code."

and

WHEREAS, Order 19448-LF, affecting 179-183 Lewis street, issued by the fire commissioner on October 13, 1943, reads:

"1. Repair or replace the (defective) shutters with proper iron shutters at all openings in the exterior wall above the 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at south-north and west sides of building or other approved protection. Seetion 491-A-2.2.0 Adm. Code.

2. Properly paint iron shutters on windows on south-north and west sides of building. Section 491-A-2-2. Adm. Code.

3. Properly scrape and paint with two coats of paint the fire escapes on rear of building. Sections 273-274 of Labor Law:"

and

WHEREAS, the applicant states that the building is 6 stories (75 ft.) in height; 93 ft. by 76 ft. in area; of Class 3 construction; erected 1884; located in a residence use, D area, of Class 1 height district and used and occupied since 1923 and 1925 as follows: Cellar, wrapping, boiler room and storage, 4 persons; 1st floor, packing, stock and shipping, 17 persons; 2nd floor, packaging department, 16 persons; 3rd floor, dough room, cutting and drying, 4 persons; 4th floor, dough room, mixing and drying, 4 persons; 5th floor, flour storage and mixing room, 1 person; 6th floor, storage, no persons; that the building is equipped with an approved sprinkler system, an interior fire alarm system, but fire drills are not maintained; that there are two 41½ in. wide wood stairs, fire retarded, leading from the roof bulkhead, directly to the street and two fire escapes, one of which leads to the roof by a ladder and the two lead directly to the street, and one to the yard with egress from its termination over roof; that the doors on the course of the fire escape are fireproof, self-closing; that the windows are not fireproof self-closing; and

WHEREAS, the applicant contends that the premises are included in the area of a housing development which was halted only by the outbreak of war; that immediately upon conclusion of the war, the property will be demolished; that under these circumstances, large expenditures should not be made to comply with the requirements of the orders of the fire commissioner; that the buildings are completely sprinklered; that it would be extremely difficult to obtain the materials necessary to comply with the orders.

Resolved, that the orders of the fire commissioner, No. 19447-LF, items 1, 2 and 3 and No. 19448-LF, items 1, 2 and 3 be and they are hereby *affirmed* and that the appeal be and it hereby is *denied.*

690-41-A

SUBJECT—Application for consideration—reopening and extension of time to complete—re Appeal from an order and decisions of the fire commissioner, (previously granted on condition).

PREMISES AFFECTED—117-121 West 128th street, north side, 200 ft. west of Lenox avenue (Block 1913, Lots 20, 21 and 22), Borough of Manhattan.

APPEARANCES—
For Applicant: Paul Abrams.

ACTION OF BOARD—Appeal reopened and time extended.

MINUTES

THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (690-41-A)

WHEREAS, this appeal from an order and decisions of the fire commissioner, affecting premises 117-121 West 128th street, north side, 200 ft. west of Lenox avenue (Block 1913, Lots 20, 21 and 22), Borough of Manhattan, was granted by the Board on April 28, 1942, on certain conditions; and

WHEREAS, the applicant requested an extension of time to complete the work, particularly in reference to the installation of the thermostatic alarm system.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 28, 1942, only so far as it has reference to the thermostatic alarm system required by the resolution of the Board, so that as amended, this portion of the resolution shall read:

"* * * that the installation of the thermostatic alarm hereinbefore required, may be postponed for six (6) months from the date of this *amended* resolution, provided that in all other respects, the requirements of this resolution are complied with and the requirements of all other laws, rules and regulations applicable to the building and occupancy are complied with."

143-44-A

APPLICANT—Ranger Aircraft Engines, Division of Fairchild Engine and Airplane Corp., lessee, for Defense Plant Corp., owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re appeal from a decision of the acting borough superintendent (previously granted on condition).

PREMISES AFFECTED—184-02 Jamaica avenue, south side, 330.58 ft. east of 183rd street (Block 10352, Lots 66 and 70), Hollis, Borough of Queens.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (143-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 184-02 Jamaica avenue, south side, 330.58 ft. east of 183rd street (Block 10352, Lots 66 and 70), Hollis, Borough of Queens, was granted by the Board on March 21, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, the representative of the Ranger Aircraft Engines Division of Fairchild's Aircraft, as lessee, has stated that the walls of the building and the ceiling of the 2d floor have been surfaced with one-inch Celotex and that such surfacing has been approved by the Department of Housing and Buildings.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted March 21, 1944, by adding thereto:

"* * * that in the event the owner desires to occupy the 2d floor for factory work; that such occupancy may be permitted, provided the building in all other respects complies with the requirements of all laws, rules and regulations applicable thereto as modified by the Board by resolution adopted March 21, 1944, and under Cal. 667-44-A; and provided that the occupants in the building shall not exceed 50 persons on the 1st floor and 85 on the 2nd floor, and provided the exits as shown shall be maintained, including the exterior ladder to the adjoining side yard to the east, as indicated on plans marked 'Received November 22, 1944' (Alt. Applic. 205-44)."

201-44-A

For Applicant: Lawrence Gussman.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLULUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (201-44-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 11-48 47th road, south side, 90 ft. west of 21st street (Block 59, Lots 23 and 24), Long Island City, Borough of Queens, was granted by the Board on July 5, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 5, 1944, by adding thereto:

"* * * that the emulsion room may be enclosed within a wall of 6 in. masonry as indicated on plans marked "Received December 12, 1944"; that the exterior window shall be constructed with metal frame and glazed with wire glass and generally be of factory type, with a manually operated pivoted section; that the ventilating system, consisting of a duct not less than 6 in. square, shall be maintained with mechanical ventilation in connection therewith, such duct to be extended from the emulsion room through the wall of the building to a point above the roof; that a concrete sill shall be constructed across the door leading to the emulsion room from the open cellar; that such sill shall be not less than 6 in. in height."

656-44-A

APPLICANT—Morris Whinston, for A. R. R. Realty Corporation, owner.

SUBJECT—Appeal from decisions of the borough superintendent.

PREMISES AFFECTED—24-26 East 21st street, south side, 148 ft. 6 in. east of Broadway (Block 849, Lot 58), Borough of Manhattan.

APPEARANCES—
For Applicant: Morris Whinston.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 23, 1945, at 2 P. M. pending an inspection by a committee of the Board.

ZONING CASES

95-40-BZ

APPLICANT—Samuel Rosenblum, for Forty Central Park South, Inc., owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the

borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a retail use district for a term of two (2) years, the parking and storage of more than five (5) motor vehicles.

PREMISES AFFECTED—39-51 West 58th street, north side, 120 ft. east of Sixth avenue (Block 1274, Lot 6), Borough of Manhattan.

APPEARANCES—
For Applicant: Samuel Rosenblum.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (95-40-BZ)

WHEREAS, this application under Section 7h of the zoning resolution, permitting in a retail use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 41-49 West 58th street, north side, 141 ft. 8 in. east of Sixth avenue (Block 1274, Lots 6½, 7 and 9), Borough of Manhattan, was granted by the Board on April 23, 1940, on certain conditions; and

WHEREAS, on December 1, 1942, the resolution was amended, permitting the extension of the parking and storage use to affect premises 39-51 West 58th street, north side, 120 ft. east of Sixth avenue (Block 1274, Lot 6), Borough of Manhattan; and

WHEREAS, the applicant requested a further extension of the permit;

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 23, 1940, as amended December 1, 1942, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under Section 7h of the zoning resolution, to permit the premises to be occupied for a temporary term of two (2) years from the date of this *amended* resolution for the parking and storage of more than five (5) motor vehicles, *on condition* * * *."

446-40-BZ

APPLICANT—Arthur H. Haaren, for Kesbec, Inc., owner. (James McAllister, lessee).

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the acting borough superintendent)—previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, the existing gasoline service station to be occupied also for the parking and storage of motor vehicles, and that the adjoining premises for a frontage of 50 ft. to the south may also be used for parking and storage of motor vehicles for a term of two years under section 7h of the zoning resolution.

PREMISES AFFECTED—4431-4441 Broadway, west side, 108 ft. south of West 190th street (Block 2180, Lots 492 and 494), Borough of Manhattan.

APPEARANCES—
For Applicant: James M. Coker.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (446-40-BZ)

WHEREAS, Arthur H. Haaren, for Kesbec, Inc., owner, filed April 26, 1940, an application under Section 7c of the zoning resolution, to permit in a business use district, the extension of a gasoline service station, so as to include the parking and storage of more than five (5) motor vehicles, affecting premises 4431-4441 Broadway, west side, 108 ft. south of West 190th street (Block 2180, Lots 492 and 494), Borough of Manhattan; and

WHEREAS, this application was granted by the Board on January 21, 1941, on certain conditions, permit extended on January 26, 1943, and applicant requested a further extension of the permit as to parking and storage granted under Section 7h.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of January 21, 1941, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under Section 7h of the zoning resolution, for a term of two (2) years from the date of this *amended* resolution to permit the parking and storage of more than five motor vehicles, *on condition* * * *."

587-42-BZ

APPLICANT—Louis R. Siegel, for Dorothy A. Siegel, owner.

SUBJECT—Application for consideration—reopening and extension of variance—re Application (decision of the acting borough superintendent) previously granted on condition, under section 7i of the zoning resolution, permitting in a business use district, for a term of two years, the conversion of occupancy of part of an existing building to a motor vehicle repair shop.

PREMISES AFFECTED—551 East 149th street and 555 St. Ann's avenue, northwest corner (Block 2276, Lot 57), Borough of The Bronx.

APPEARANCES—
For Applicant: Louis R. Siegel.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (587-42-BZ)

WHEREAS, this application under Section 7i of the zoning resolution, permitting in a business use district, for a term of two years, the conversion of occupancy of part of an existing building to a motor vehicle repair shop, affecting premises 551 East 149th street and 555 St. Ann's avenue, northwest corner (Block 2276, Lot 57), Borough of The Bronx, was granted by the Board on January 19, 1943, on certain conditions; and

WHEREAS, the applicant requested an extension of the variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 19, 1943, only so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under Section 7i for a temporary term of two (2) years from the date of this *amended* resolution, to permit the premises to be occupied as a motor vehicle repair shop, *on condition* * * *."

274-44-BZ

APPLICANT—A. H. Salkowitz, for Charles Fuchs, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the acting borough superintendent), previously granted on condition, under section 7c of

MINUTES

the zoning resolution, permitting partly in a business use and partly in a residence use district, the conversion of occupancy of a building from a motion picture theatre (previously acted on by the Board) to a warehouse for the storage of household furniture.

PREMISES AFFECTED—68-10 Woodside avenue, southeast corner of 68th street (Block 1346, Lot 13), Woodside, Borough of Queens.

APPEARANCES—

For Applicant: Abraham H. Salkowitz and Charles Fuchs.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (274-44-BZ)

WHEREAS, this application under Section 7c of the zoning resolution, permitting partly in a business use and partly in a residence use district, the conversion of occupancy of a building from a motion picture theatre (previously acted on by the Board) to a warehouse for the storage of household furniture, affecting premises 68-10 Woodside avenue, southeast corner of 68th street (Block 1346, Lot 13), Woodside, Borough of Queens, was granted by the Board on July 5, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, relative to the entrances to be used for loading and unloading.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 5, 1944, so that as amended, in the respect as requested, the resolution shall read:

"*Resolved*, that the Board of Standards and Appeals does here *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7e to permit the building, as granted by the Board under Cal. 474-19-BZ, to be occupied as proposed, *on condition* that the building shall not be increased in height or area; that no additional entrances for the purpose as proposed shall be installed; *that for loading and unloading the existing entrances to 68th street and the existing entrances to the alley may be used and no additional loading doors shall be constructed;* that a substantial gate shall be maintained at the building line to close off the alley; that no sign shall be erected on the walls of the building or on the roof other than such signs as may be lawful within the business use area; that the existing marquee shall be removed; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; that no new openings on the interior lot lines shall be constructed; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within six (6) months from the date of this resolution (Alt. Applic. 430-44)."

442-42-BZ

APPLICANT—Henry C. Brockman, for Gulf Oil Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of time to obtain permits and complete work—Application (decision of the borough superintendent) previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, the reconstruction and extension of an existing gasoline service station.

PREMISES AFFECTED—2001-2011 Cropsey avenue and 8799-8815 20th avenue, northeast corner (Block 6442, Lot 5), Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, restored to calendar and set for hearing on January 23, 1945, 10 A. M.

THE VOTE TO REOPEN—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

Adjourned: 5:15 P. M.

JOSEPH J. DOYLE, Chief Clerk.

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse fo rnegleet to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1018, Municipal Building, Manhattan, at three cents each—postage to be added if the forms are forwarded by mail.

RULES

RULES GOVERNING THE USE OF EQUIPMENT FOR SPRAYING AND DRYING OF PAINTS, VARNISHES, LACQUERS AND OTHER FLAMMABLE SURFACE COATINGS AND STORAGE OF SUCH MATERIALS.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JUNE 10, 1932 AND REVISED JULY 16, 1937, EFFECTIVE AUGUST 16, 1937 AND AMENDED JULY 25, 1944, EFFECTIVE AUGUST 21, 1944.

(353-30-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, subdivisions 2 and 3 of the Charter of the City of New York, to effectuate the provisions of C19-84.0, C19-85.0 and C19-86.0 of the Administrative Code.

Rule 1. Application.

1.1 No person, firm or corporation shall spray, dip or immerse any article or thing within the City of New York with any flammable paints, varnishes, lacquers or any other inflammable or combustible substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes except in conformance with these rules, and under a permit issued by the Fire Commissioner. Where the quantity of spraying, dipping or immersing materials used in a day does not exceed two quarts, except for spraying as performed under Rule 5.13, and the total amount of material stored does not exceed twenty gallons, these rules shall not apply.

1.2 APPLICATIONS. Application for the required permit to store and use the above-mentioned materials shall be made to the Fire Commissioner on forms prescribed by him and shall contain such information as he may require. When a spray, dipping, immersing, storage or mixing room is to be installed, an application shall be filed with and approved by the Borough Superintendent before a permit is issued by the Fire Commissioner.

1.3 RESTRICTIONS. No spraying, dipping or immersing of any article or thing within the City of New York with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes shall be permitted in any premises or portion thereof as follows:

1.3.1 Which is occupied as a class A or B multiple dwelling or a dwelling for one or two-families, except where a location is provided which is separated by fireproof construction from the residential occupancy and ventilated as provided in Rule 3.

1.3.2 Which is occupied as a place of public assembly except trade schools where the buildings are of Class I or Class II construction and spraying, dipping or immersing are demonstrated for instruction purposes only.

1.3.3 Which is artificially lighted by any means other than electricity.

1.3.4 Which is heated by other than the use of steam or hot water circulating systems and the boiler is located outside the space where spraying, dipping or immersing is carried on.

Rule 2. Definitions.

2.1 The term. "SPRAY or SPRAYING SPACE" "DIPPING SPACE or IMMERSING SPACE" when used in these rules shall mean that portion of the premises used for the actual work of spraying, dipping or immersing any article or thing with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds, commonly used for painting, varnishing, staining or similar purposes in any booth or room.

2.2 The term "CABINET BOOTH" when used in these rules shall mean a compartment with a back, top and two sides of incombustible materials over a substantial metal frame and equipped with air exhaust facilities, located within a room or any portion of any premises where spraying with any flammable paints, varnishes, laquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.3 The term "CANOPY BOOTH or HOOD" when used in these rules shall mean an installation consisting of a metal canopy or hood, without any side or end panels enclosing the object sprayed and an air exhaust system under which spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.4 The term "TUNNEL BOOTH" when used in these rules shall mean a compartment consisting of two sides and top, equipped with an air exhaust system in which spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.5 The term "SPRAY ROOM" when used in these rules shall mean a fully enclosed ventilated room approved for such use in which any article or thing is sprayed by any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.6 The term "DIPPING ROOM" when used in these rules shall mean a fully-enclosed ventilated room approved for such use in which any article or thing is dipped, or immersed in any flammable paints, varnishes, lacquers or any other flammable substances, mixtures, or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.7 The term "FIREPROOF or FIRE-RESISTING PARTITIONS" used in these rules shall mean the standards set in the Labor Law and the Rules of the Board of Standards and Appeals for factory buildings. All openings in this type of partition shall only be equipped with self-closing fireproof assemblies.

2.8 The term "STORAGE ROOM" when used in these rules shall mean a fully-enclosed ventilated room used for the storage and mixing of any inflammable paints, varnishes, lacquers or any flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes.

2.9 The term "CERTIFICATE OF FITNESS" when used in these rules shall mean the written permission granted by the Fire Commissioner to an in-

dividual to supervise and to process spraying, dipping and immersing materials and equipment, in accordance with the provisions of Section C19-14.0 of the Administrative Code and these Rules.

2.10 The term "PERMIT" when used in these rules shall mean the written permission issued to a person, firm or corporation by the Fire Commissioner, to store and use materials covered by Sections C19-12.0 and C19-84.0 of the Administrative Code and these Rules.

Rule 3. Ventilation.

3.1 Spraying or dipping spaces shall be ventilated when in operation so that the movement of air shall be at least one hundred (100') linear feet per minute in the breathing zone of the operator and be of sufficient capacity to prevent the accumulation of mist or vapors. For requirements of ventilation of storage rooms see Rule 4.4.1.

3.2 Air shall be admitted to the spraying, dipping or immersing spaces in an amount equal to the capacity of the fan or fans and in such a manner as to avoid short-circuiting the path of air in the working zone of such spaces. Exhaust fans shall be kept running constantly while spraying, mixing or dipping. Exhaust fan control shall be interconnected with spray gun so as to operate simultaneously. Exhaust fans shall, in addition, be arranged to operate independently of spray gun. Ventilation Equipment shall be kept in operation for a sufficient length of time thereafter to exhaust all vapors, fumes or residues of spraying materials from the spray booth, dip space or drying room. Air admitted to the spraying, dipping, immersing, drying spaces or storage rooms shall be fresh air taken from the outside of the building.

3.3 EQUIPMENT. Motors shall be located outside of spraying, dipping or immersing spaces except as provided in Rule 4.

Rule 4. Specifications for Spray Booths, Spray Rooms, Dip and Immersing Rooms, Drying Equipment and Material Storage Rooms.

4.1 Spray booths shall be constructed of metal or incombustible materials satisfactory to the administrative official having jurisdiction. Ventilation and lighting for spray booths, spray rooms, dipping rooms, drying rooms and storage rooms shall comply with the requirements of these rules.

4.1.1 Spray, dip and immersing rooms shall be enclosed on all sides with partitions constructed of incombustile materials with floors in such rooms of concrete. Where such rooms are located over wooden floors, such wooden floors shall be surfaced with 1" of grout adequately reinforced or a mixture of Portland cement, asphalt and sand similarly reinforced. Ceilings over such rooms shall be protected by 5/8" unsanded gypsum plaster or 7/8" of cement or sanded gypsum plaster on approved 3.0 lb. metal lath or other equivalent fire-resisting ceiling protection. Ventilation, lighting and heating for these rooms shall comply with the requirements of these rules. Where additional fire-fighting equipment is necessary, such equipment shall be furnished in accordance with the direction of the Fire Commissioner. Floor drains leading to the house drainage system or the public sewer, shall not be permitted. All dip tanks shall be provided with hinged metal covers held open by a fusible link, such covers to be equipped with an opening to permit automatic flooding of the tank with fire extinguishing media of a type and so located as the Fire Commissioner shall direct.

4.1.2 Panels of polished wired glass or plate-glass at least one-quarter (1/4) of an inch thick, not exceeding seven hundred and twenty (720) square inches in area and not more than forty-eight (48") inches in any linear dimension may be used in the sides of a spray booth or room.

4.1.3 The inner sides of walls, ceilings and the floors of all spraying or dipping spaces shall have a smooth surface.

4.1.4 All openings in spray, dip or immersing rooms shall be protected by fireproof opening protective assemblies. Windows opening on a street may be used to provide ventilation but no window on a lot line or less than 20 ft. from any opening in a wall of an adjacent building shall be permitted except when the subject room is more than 20 ft., in the horizontal plane, above an adjoining building.

4.1.5 Ferrous metals used in the construction of spraying, dipping or immersing spaces shall be thoroughly painted on the inside or be galvanized.

4.1.6 All spraying, dipping or immersing spaces shall be so constructed that at least three (3) feet of clear working space shall always be maintained for each operator spraying, dipping or immersing the material being processed.

4.2 STORAGE ROOMS.

4.2.1 Storage rooms shall be constructed of fireproof or fire resisting material and shall have a window opening to the outer air but such window shall not be on a lot line, enclosed court, nor opposite within twenty feet of windows of adjacent buildings nor part of the same premises, such window openings to be fireproofed and lower half provided with open louvers or ventilated by metal duct or fan at least 8 inches in diameter. The floors of all storage rooms shall be of incombustible non-ferrous materials. The sill of the door shall be at least 6 inches above the finished floor. All doors to be tin-clad, approved, fireproof and self-closing.

The lighting equipment shall comply with rule 4.5.2.2 and shall have an electric switch located outside the room. Immediately adjacent to such room shall be provided such portable fire extinguishing equipment for use within the storage room as the fire commissioner shall direct.

4.3 DRYING EQUIPMENT.

4.3.1 Gas Fired Drying Ovens. Gas fired drying ovens shall be of a type as approved by the Board. Such ovens shall be constructed of metal and incombustible materials so designed as to preclude the direct application of flame to the material in process. The exhausts from both the heating compartment and the drying compartment shall be individually equipped with adequate fans and exhaust piping connected directly to the outer air. The controls for the fans shall be so interlocked with the gas supply line that when the gas is flowing the fans are in operation. An extra switch shall be provided to permit the operation of the fans when the gas supply is off. Each

oven shall be equipped with approved gas burning equipment with electrical controls so arranged as to shut off the gas valve when ignition fails or the gas supply pressure drops to 2 inches of water.

The use of a continuous gas pilot light is prohibited unless an automatic gas shut off valve is provided, which will shut the gas off at the pilot light when the flame is extinguished or the supply of gas cut off. Electrical pilot ignition shall be of the continuous type, or equal in performance, designed for use in high temperatures, with controls so interlocked as to shut off the gas supply when current is interrupted. An auxiliary manually operated gas shut off valve shall be located not nearer than 25 feet from the oven so as to control the gas supply in the event of an emergency. Such ovens shall be adequately insulated on all sides, including the base, which shall have the equivalent of a double thickness of such insulation, unless the floor is protected by a 3 in. mat of reinforced concrete placed over and bonded into the existing concrete floor and projecting not less than 6 inches outside the projected area of the equipment, or unless an unenclosed clear air space not less than 4 inches above the floor is maintained between the floor and the underside of the oven.

4.3.1.1 Gas fired drying ovens shall not be located nearer than 25 feet from spraying or dipping spaces unless such oven is approved for use in explosive atmospheres.

4.3.2 Electric Infra Red Ray Drying Ovens.

4.3.2.1 Electric Infra Red Ray Drying Ovens shall be of a type as approved by the Board. Such ovens shall be constructed of electric equipment installed in accordance with the National Electric Code and the requirements of the Department of Water Supply, Gas and Electricity. Ovens when erected shall be placed on concrete floors without any additional protection, provided that at least 12 inches of clear space above the floor is provided to permit adequate ventilation.

4.3.2.1.1 In drying processed material, involving the evaporation of considerable amounts of flammable solvents by infra-red lamps, such installations shall not be confined in small rooms unless such rooms are thoroughly ventilated by a power driven ventilation system of sufficient capacity to provide 100 linear feet of air per minute; the controls of the ventilation system to be so interlocked with the Infra-Red Ray System that the latter cannot function unless the ventilating system is in operation. When equipped with duct ventilating system, the Infra-Red Ray Oven shall be adequately secured so as to prevent moving.

4.3.2.1.2 Where the evaporation of a considerable amount of flammable vapors are involved, ventilated hoods located as near to the floor as practicable or enclosures shall be provided at the initial stage of the process with adequate exhaust system to discharge the primary evaporation from the solvents to the outer air, so that when the processed material progresses through the lamp drying tunnels only a comparatively small amount of solvent is left for evaporation. A space between such ventilating section and the drying section shall be maintained.

4.3.2.1.3 Lamps and other electrical equipment shall be kept free from flammable deposits and adequate cleaning shall be maintained.

4.3.2.1.4 Lamp drying units shall be separated from spraying and dipping processes complying with these rules, by a distance of at least 15 feet or shall be installed in a separate fireproof room.

4.3.2.1.5 Controls shall be arranged so that the lamps in the tunnels will be shut off automatically if and when the conveyor stops.

4.3.2.1.6 Where there are no conveyors and the material being processed is left stationary in the dryer, there shall be an excessive temperature switch to shut off the lamps to avoid overheating the material being processed if it is not removed from the dryer in time.

4.3.2.1.7 Material to be processed on the conveyors shall be rigidly supported so as not to be liable to displacement and cause lamp breakage and short circuits. Where there are no conveyors, materials should be fixed on dollies running on tracks or other equivalent method to accomplish the same result.

4.3.3 The use of these processes shall be limited to metal or other incombustible material requiring paint processing.

4.3.4 Such fire fighting equipment suitable for electrical and solvent vapor fires shall be provided as the fire commissioner may direct.

4.4 SPECIFICATIONS FOR DUCTS, PIPES AND FANS.

4.4.1 All ducts used for ventilating spray, dip or immersing spaces shall be constructed of approved incombustible materials or metal

of not less than the following gauges of metal.

Ducts twenty-four (24") inches or less in diameter No. 22 gauge.

Ducts over twenty-four (24") inches and not over thirty-six (36") inches in diameter No. 20 gauge.

Ducts exceeding thirty-six (36") inches in diameter No. 18 gauge.

4.4.2 Ducts shall be strongly constructed and be installed in a workmanlike manner. They shall be rigidly supported.

4.4.3 Ventilating ducts shall run as directly as practicable to the outer air and be protected with a hood against the weather. The exhaust terminal or hood shall also be protected with a screen of copper or bronze with a mesh not larger than one-quarter (¼") inch.

4.4.4 Where a duct passes through a non-fireproof floor or roof, the duct shall be protected at such point by an outer pipe or sleeve with an air space of at least one (1") inch between the sleeve and pipe protected from the woodwork by at least a 1" blanket of asbestos, compressed rockwool or glasswool, or equivalent fire-resistive material extending through the entire depth of the ceiling construction and adequately secured to the outer pipe. The outer pipe shall be not less than two (2") inches from any woodwork and such woodwork shall be covered with at least 26 gauge metal or other incombustible material.

4.4.5 Ventilating ducts shall not terminate within ten (10) feet measured horizontally of any chimney outlet, unprotected air intakes or within twenty (20) feet of any exit or any opening in an adjoining building.

4.4.6 If induced draft is used to create an air movement, the air shall be supplied from a point outside the spray or dip or immersing space. Fans and motor must be located outside the spray, or dip space, except approved explosion-proof motor and non-ferrous blade fans which, however, are not to be located where residues of spraying material may collect on such equipment.

4.4.7 The exhaust system from any spray, dip or immersing space shall not be connected to any other ventilating system or be discharged into a chimney or flue used for the purpose of conveying gases of combustion.

4.4.8 Exhaust fan blades shall be constructed of non-ferrous metal. All exhaust and ventilating fans to be permanently connected to their source of power, using metallic conduit. Rheostats in fan bases not permitted. Fan blades not coming in direct contact with spraying fumes, need not comply with this requirement.

4.4.9 Adequate access doors or panels made tight fitting by means of screw bolts, clamps or springs shall be provided, to permit inspection and cleaning.

4.5 ELECTRICAL EQUIPMENT AND LIGHTING FIXTURES.

4.5.1 No motors, switches, rheostats, lamps, flourescent light or other electrical equipment shall be located in spray, dipping or immersing rooms or within ten (10′) feet of the open end of any spray compartment, spray booth, immersing or dipping space unless such electrical equipment be of a type approved for use in explosive atmospheres and where a conduit leads from a hazardous location to a non-hazardous location, the conduit shall be sealed off by an approved sealing compound. Except that alternating current induction motors of the totally enclosed type, having no brushes, make and break contacts, collectors or other arcing or sparking parts may be located within ten (10′) feet of a spray booth, spray compartment or dipping space when approved by the administrative official having jurisdiction. No open flame shall be used within 25 ft. of spray, dip or coating space or paint storage room or cabinet except when separated by fireproof construction, except as provided in Rule 4.3.1. Gas Fired Drying Ovens and 4.3.2.1.4 Electric Infra Red Dry Ovens.

4.5.2 Lighting Fixtures.

4.5.2.1 Artificial lighting shall be only by means of electricity.

4.5.2.2 When lighting fixtures are located within 10 feet of a spray booth, spraying space, dipping space or within a storage room they shall be of the rigid stem type, enclosing all wiring and be equipped with keyless sockets having vapor proof globes. Where exposed to breakage, globes shall be adequately protected by substantial metal guards or equivalent means. Fluorescent tube type lighting fixtures when used in spray booths or in spray and dip spaces or in storage rooms or rooms containing inflammable vapors, shall be of a type approved for use in explosive atmospheres. The auxiliaries of mercury vapor lamps shall be offset at least ten (10) feet from spray booth, spray or dip spaces unless enclosed in explosion-proof protection.

4.5.2.3 All electrical equipment shall be installed and grounded as provided by the Administrative Code covering electrical equipment and permanently connected to their source of current supply, using metallic conduit.

4.5.2.4 No pin plug receptacles shall be used except when the use of receptacles and attachment plugs become necessary they shall be so connected to form a part of a unit device with explosion-proof interlocking switch precluding the removal of the plug where the switch is in the "on" position or by an approved explosion-proof enclosure which can seal the arc when the current is interrupted. Such receptacles and plugs shall be of the polarized type providing a connection for the grounding wire of the portable cords.

4.5.2.5 All electric wiring shall be enclosed in rigid standard weight metallic conduits with explosion proof joints and fittings. Joints in metallic conduit having threaded couplings shall not have less than five (5) fully engaged threads. Where flexible connections are required a flexible fitting approved for explosive atmospheres shall be used.

4.5.2.6 The use of portable cords or trailer lights are prohibited, except when flexible cord approved for hard usage containing one (1) extra insulated conductor properly connected to form a grounding connection for metal lamp guards, motor frames and all other exposed metal portions of such portable lamps and devices may be used. When portable lamps are used they shall be enclosed in a manner approved for explosive atmospheres and with substantial guards of metal to prevent breakage. Sockets shall be of the keyless moulded composition type with no exposed metal parts.

Rule 5. Maintenance and Operation.

5.1 Every premises wherein a spraying, dipping, or immersing space is maintained and operated shall be continuously under the charge and supervision of one or more persons holding a certificate of fitness, whose duty shall be to see that the spray, dipping and immersing space comply with the rules and the terms of the permit are not violated. No other duties shall interfere with the enforcement of these rules while the work is in process. A copy of these rules shall be available near the space where these rules apply.

5.2 Smoking or the carrying of lighted cigars, cigarettes, matches or pipes in spray, dipping or immersing space is prohibited.

5.3 No person shall be permitted within a spray space between the spray gun and the exhaust outlet while the spray gun is in use.

5.4 Spraying, dip or immersing spaces and its surroundings shall be kept clean at all times and shall be kept clear of all materials, equipment and utensils not required in the operation of the spray. Side walls, ceilings, baffle plates, etc., shall be sprayed with soap and water solution, before cleaning, or cardboard or masking paper may be fastened before any operation and after said operation all waste material shall immediately be removed from the premises.

5.5 Floors within and surrounding spray, dip or immersing spaces shall be kept clean and free from waste material at all times.

5.6 Spray rooms, booths, fans, ducts, and other equipment shall be cleaned frequently and maintained in clean and efficient working condition; lacquer spraying booths shall be wet down before cleaning.

5.7 Implements used for cleaning shall be made of nonferrous material to avoid sparks.

5.8 Metal waste cans with self-closing covers shall be provided for all spraying, dipping or immersing spaces and storage rooms. The number to be installed shall be determined by the administrative official having jurisdiction.

5.9 Approved fire appliances shall be installed in all spraying, dipping or immersing spaces and in storage rooms as may be determined by the administrative official having jurisdiction.

5.10 Accumulation of flammable waste, sweepings or deposits from spray, dip or immersing space is prohibited. All such waste shall be placed in approved waste cans and be removed from the premises at the close of work each day.

5.11 All sand papering of lead painted surfaces shall be done with wet sand paper.

5.12 When a motor vehicle is taken into a spray space, the batteries shall be disconnected before the process of spraying is begun.

5.13 Before spraying is performed on elevator cars all electric power operating all elevators enclosed in a common shaft, shall be turned off. While such work is in progress portable fire extinguishers shall be provided and maintained adjacent to the work as the fire commissioner shall direct. Such shafts shall be well ventilated of fumes before starting elevators.

5.14 Inflammable solvents used for cleaning equipment or for any other purpose shall not be discharged into the house drain.

Rule 6. Material Storage and Mixing.

6.1 Main supplies of spray coating and dipping materials and thinners shall be kept in an outside storage building, storage rooms or in vented metal cabinets in accordance with the following amounts:

6.1.1 Spraying materials not in excess of 100 gallons may be stored in single walled metal cabinet ventilated to the outer air. Such cabinet to be metal covered on all sides, including the door and arranged for ventilation at top and bottom.

6.1.2 Spraying materials not in excess of 200 gallons may be stored in double-walled metal cabinets ventilated to the outer air or wood cabinets metal covered on all sides, including the door, and arranged for ventilation at top and bottom, to the outer air.

6.1.3 Spraying materials in excess of 200 gallons shall be stored in a separate exterior storage building of fireproof or fire-resisting material with ventilated plain glass skylight or in a storage room constructed fireproof in a fireproof building or fire-resisting in a non-fireproof building. The maximum amount of spraying materials to be stored in a storage room of a non-fireproof building shall be determined by the administrative official having jurisdiction.

6.1.4 Mixing or thinning of coating materials shall be conducted in a storage building or storage room, except that containers of total capacity not exceeding ten gallons may be opened and their contents mixed in the spray room or room in which booths are located while the air exhaust system is operating.

6.1.5 Working supplies sufficient for not more than one day's use but not exceeding twenty gallons to each booth, nor a total of one hundred gallons, may be kept in the spray room or room in which spray booths are located; covers of containers must be kept thereon when such containers are not actually in use. This amount is in addition to the amount allowed in Rule 6.1.7.

6.1.6 Gravity feed material containers for supplying spray guns shall not exceed ten gallons in capacity and shall be supported by wire cables or metal brackets having a factor of safety of four when filled with the heaviest spraying materials used.

6.1.7 Pressure feed tanks and other equipment for use in connection with direct spraying under air pressure shall be restricted to tanks of not more than sixty gallons, individual capacity, designed, constructed and approved for this specific purpose by the Board of Standards and Appeals. Each tank shall be provided with a safety valve set at a pressure not exceeding eighty pounds. All gravity feed containers and other spraying equipment shall be approved as above.

6.1.8 The installation of all electrical wiring, switches, lighting and all other electrical equipment, and the provisions of these rules against carrying matches or smoking and prohibiting flame or spark-producing devices, shall also apply to storage or mixing rooms.

6.2 Storage of Materials where nitro cellulose products are manufactured.

6.2.1 Storage of spraying, dipping and immersing materials shall be as provided in Rule 6.1.1 through Rule 6.1.3, but in a building in which nitro cellulose products are manufactured, stored or kept the amount shall be not over twenty-five (25) gallons as per Section C19-113.0, subdivision h of the Administrative Code.

6.3 Sprinklers.

6.3.1 Sprinkler heads shall be provided in all spray, dip or immersing spaces and storage rooms and shall be installed in accordance with the Sprinkler Rules of the Board of Standards and Appeals, except in non-sprinklered buildings where sprinkler connection may be made to the house water supply, provided the size of the house water supply line is adequate for the number of sprinkler heads.

6.4 Maintenance of Sprinkler Heads.

6.4.1 Sprinkler heads in spraying, dipping and immersing spaces shall be cleaned at least once a week under the supervision of the person holding the certificate of fitness and a coating of light grease or vaseline shall be applied after each cleaning to prevent the formation of a hard deposit and render the sprinkler useless in case of fire. The use of paper bags or other materials about sprinkler heads is prohibited.

Rule 7. General Requirements.

Notice—Attention is called to the provisions of the Administrative Code as to violations reading as follows:

Section C19-152.0 of the Administrative Code, "Any person who shall willfully violate or neglect or refuse to comply with any of the provisions of this chapter in addition to any other penalties prescribed by law or ordinance shall, upon conviction, be punished by a fine of not more than $500 *or by imprisonment not exceeding* 6 *months, or by both such fine and imprisonment."*

NOTE:—The principal cause of fires in spray-booth installations are: broken electric lamps and other electrical defects; cleaning the interior of booths, fans and motors with highly flammable solvents; accumulation of deposits in the tubes and vent pipes from neglect in cleaning them frequently; unnecessary accumulation of waste and refuse, smoking and a general lack of cleanliness.

(a) "No Smoking" signs, with letters at least 2 inches in height, shall be posted at entrances to and in all spray rooms and paint storage rooms or building.

(b) No combustible materials shall be stored or maintained within 15 feet of any spray booth.

(c) All stocks shall be arranged so as not to interfere with the operation of automatic sprinkler heads.

(d) Adequate mechanical or natural ventilation shall be provided.

(e) No open flames or devices creating open flames or arcs shall be maintained within 25 feet of the spray or dipping process.

(f) The premises where painting, dipping or immersing is performed shall be kept clear of empty paint cans, rubbish, paint accumulations and other combustible material.

Rule 8. Existing Spray Booths and Installations.

8.1 These rules shall be retroactive in the following respects:

Rule 1.3.4 Heating of Rooms.

Rule 3.1 Air Exhaust System.
3.2 Air Supply and Mixing.

Rule 4.0 Specifications for Spray Booths, Spray Rooms, Dip and Immersing Rooms, New Drying Equipment, and Material Storage Rooms.
4.1.3 Surfacing of Booths.
4.1.5 Surfacing of metal in Booths.
4.3.2 Maintenance of Ducts.
4.4.6 Method of Induced Draft.
4.5.1 Electrical Equipment.
4.5.2 Electric Lighting.

Rule 5.1 Certificate of Fitness.
5.2 Smoking, Matches, etc.
5.6 Maintenance of Equipment.
5.7 Cleaning Implements.
5.9 Fire Appliances.
5.10 Accumulation and disposal of waste materials.
5.12 Motor Vehicles in booths or rooms.
5.13 Spraying Elevator Cabs.

Rule 6. Material, Storage and Mixing.

Rule 7. General Requirements.

Rule 8.1 Rules 6.1, 6.2, 6.3 and 6.4 may not be applied in fireproof buildings equipped with an approved existing automatic sprinkler system where the general conditions of cleanliness are properly maintained at all times.

Rule 9. Permits and Plans.

Before a permit is issued by the fire commissioner, plans shall be filed with the borough superintendent, stating name, address, floor and space where the painting, dipping or spraying processes or storage room are to be installed. Such plan shall include a complete layout of the proposed installation and shall clearly indicate the location of all exterior wall openings, in premises and adjacent buildings, exits, chimneys, vent openings and proposed processes.

Plans shall be filed with the borough superintendent for storage and mixing rooms. Such plans shall show the complete floor plan of the proposed equipment and the location of the proposed equipment with respect to the storage and mixing rooms, exterior wall openings, in premises and adjacent buildings, exits and all chimneys within 20 feet of storage rooms and vent openings.

Copies of the Official Directory of the City of New York for the year 1944 (The Little Green Book), containing the latest authentic information in relation to City, State and Federal Departments, Bureaus, Offices and Courts, are now on sale at the office of the Supervisor of the City Record, Room 2213, Municipal Building, Manhattan, New York 7, N. Y. Price 50 cents; by mail, five cents per copy must be added for postage.

BOARD OF STANDARDS AND APPEALS

HARRIS H. MURDOCK, Chairman
BERNARD A. SAVAGE
CHARLES M. BLUM
CHIEF JOHN E. GUNN

JOSEPH J. DOYLE, *Chief Clerk*

OFFICE—Municipal Building, Rooms 1000 to 1018.

TELEPHONE—WOrth 2-5600.

OFFICE HOURS FOR PUBLIC—9 a. m. to 4 p. m.
Saturdays 9 a. m. to 12 noon.

Address all communications to the Chairman

CONTENTS

This issue of the Bulletin contains in the order given—

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting, January 9, 1945, at 10 A. M., Affecting Calendar Numbers 284-36-BZ, 370-41-BZ, 319-44-BZ, 991-40-BZ, 414-41-BZ, 268-44-BZ, 449-44-BZ, 718-44-BZ, 700-44-A, 591-44-A and 548-44-SM.

Minutes of Regular Meeting, January 9, 1945, at 2 P. M., Affecting Calendar Numbers 343-43-A, 382-44-A, 511-44-A, 995-41-S, 996-41-A, 484-44-A, 669-44-A, 501-44-A, 681-44-A, 496-43-A, 77-32-BZ, 337-33-BZ, 120-39-BZ, 94-38-BZ, 176-38-BZ, 890-38-BZ and 99-40-BZ.

(Remaining minutes of the meeting of January 9, 1945 will be printed in the Bulletin of January 23, 1945).

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to January 9, 1945.

Cal. No. Dept. Premises Affected.

2-45-SA—Asco Valve (Automatic Control for Spray Equipment), Appliance.

3-45-A—F.D.—150-18 to 150-24 Jamaica avenue, southwest corner of 151st (Division) street, (Basement); (Block 10092, Lot 6), Jamaica, Borough of Queens, 98245-C.

4-45-A—H.B.B.—68-94 Sackett street, 89-99 Van Brunt street, southeast corner and 69-87 Union street (Block 335, Lots 1 and 2), Borough of Brooklyn, N.B. 341-44.

5-45-A—H.B.Q.—148-18 Jamaica avenue, south side, 50 ft. west of 149th street (Block 9996, Lots 5-9), Jamaica, Borough of Queens, Alt. 1397-44.

6-45-A—F.D.—174-176 East 104th street, south side, 166.8 ft. west of 3rd avenue (Block 1631, Lot 44), Borough of Manhattan, 18054-LF and Decision.

7-45-A—H.B.B.—1201 Flushing avenue, southwest corner of Harrison place (1st, 2nd and 3rd floors); (Block 3007, Lot 3), Borough of Brooklyn, B.N. 1445-44.

8-45-A—F.D.—20-22 West 39th street, south side, 303 ft. west of 5th avenue (2nd floor); (Block 840, Lot 60), Borough of Manhattan, Decision.

9-45-SA—Coleman Gas Floor Furnace and Coleman Oil Floor Furnace, Appliance.

10-45-A—F.D.—218 Gates avenue, south side, 146.5 ft. east of Classon avenue (Block 1985, Lot 14), Borough of Brooklyn, 14037-LF.

11-45-A—F.D.—2417 Webster avenue, west side, 65.08 ft. north of East 187th street (Basement and 1st floor); (Block 3025, Lot 25), Borough of The Bronx, 39623-LC and Decision.

12-45-A—H.B.B.—917-923 Avenue J (919 displayed) and 986-996 East 10th street, northwest corner (Block 6522, Lot 43), Borough of Brooklyn, Alt. 3338-44.

13-45-A—H.B.B.—487-515 Clermont avenue, east side, 204 ft. north of Atlantic avenue (Basement, Building 5); (Block 2009, Lot 1), Borough of Brooklyn, Amendment to Alt. 3312-44.

Restored to Calendar.

120-39-BZ—H.B.R.—1646 Hylan boulevard and 301-309 Seaview avenue, northeast corner (Block 3379, Lot 89), Dongan Hills, Borough of Richmond, Decision re Certificate of Occupancy.

337-33-BZ—H.B.Bx—East side of River avenue, 100 ft. north of East 161st street (Block 2484, Lot 9), Borough of The Bronx, Decision.

511-44-A—F.D. & H.B.M.—109-111 West 24th street, north side, 100 ft. west of 6th avenue (Block 800, Lot 33), Borough of Manhattan, Decisions re 20290-LF, 20291-LF and Amendment to Misc. 187-44.

77-32-BZ—H.B.Q.—181-07 Horace Harding boulevard, northeast corner of Utopia parkway (Block 7065, Lot 5), Flushing, Borough of Queens, Alt. 1516-44.

995-41-S—H.B.B.—86-96 Hinsdale street, west side, 125 ft. south of Liberty avenue (Block 3698, Lots 19 and 20), Borough of Brooklyn, Alt. 5023-41.

382-44-A—F.D.—105-123 River street, 29-35 Metropolitan avenue, northwest corner and 18-26 North 3rd street (Block 2355, Lots 3 to 10 inclusive), Borough of Brooklyn, 9981-LF and Decision.

501-44-A—H.B.Q.—114-68 Mexico street, northwest corner of 115th avenue (1st and 2nd floor), (Block 10392, Lot 23); St. Albans, Borough of Queens, Alt. 848-44.

DESIGNATIONS: H.B.—Department of Housing and Buildings; **H.B.B.**—Department of Housing and Buildings, Brooklyn; **H.B.M.**—Department of Housing and Buildings, Manhattan; **H.B.Q.**—Department of Housing and Buildings, Queens; **H.B.R.**—Department of Housing and Buildings, Richmond; **H.B.Bx.**—Department of Housing and Buildings, Bronx; **H.D.**—Health Department, and **F.D.**—Fire Department.

JANUARY 16, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, January* 16, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

330-42-BZ—Application of Eugene De Rosa, applicant on behalf of Jeron Co., Inc., owner, reopened and restored to Calendar, September 12, 1944 (previously withdrawn), under section 7c of the zoning resolution, to permit partly in a business use district and partly in a residence use district, the erection and maintenance of a building to be used as a theatre and stores; premises 95-42 to 95-48 Queens boulevard, south side, 130 ft. west of 63rd drive and 63-39 to 63-49 Saunders street (Block 3080, Lots 30 and 31), Rego Park, Borough of Queens.

192-38-BZ—Application of Power and Hopkins, applicants, on behalf of Walter W. Welton, et al, owners, reopened December 19, 1944, for consideration as to extension of permit (expired by limitation)—Application, previously granted on condition, under section 7i of the zoning resolution, for a term of two years, permitting in a business use district, the conversion of occupancy of an existing building to a motor vehicle repair shop; premises 1679-1681 Jerome avenue, west side, 275 ft. north of Featherbed lane (Block 2861, Lot 32), Borough of The Bronx.

670-44-BZ—Application, November 15, 1944 under section 21-C of the zoning resolution, of Albert E. Wheeler, applicant, on behalf of Vinmont Land Corporation, owner, to permit in a C and F area district, a one family residential development not conforming to the area district requirements; premises East side of Mosholu avenue, from West 254th to West 255th streets (Block 3421C, Lot 1311 and Block 3421D, Lot 1417), Borough of The Bronx.

220-44-BZ—Application, April 13, 1944, under sections 7c and 21 of the zoning resolution, of Anthony M. De Rose, applicant, on behalf of D'Abramo Realty Corporation, owner, to permit in a business use district, the change of occupancy of an existing building from a stable and wagon storage to a garage for more than five (5) motor vehicles and motor vehicle repair shop and without complying with yard and area requirements for a new building; premises 89 Thompson street, west side, 100 ft. 1 in. north of Spring street (Block 503, Lot 35), Borough of Manhattan.

512-40-BZ—Application of Henry Nordheim, applicant, on behalf of Salvatore Rullo, owner, reopened November 28, 1944, under section 7i of the zoning resolution, to permit partly in a business use and partly in an unrestricted use district, the maintenance of a motor vehicle repair shop, previously granted by the Board for a term of two years; premises 2623 Roberts avenue, north side, 100 ft. west of Blondell avenue and 1409 Blondell avenue (Block 4074, Lot 22), Borough of The Bronx.

515-29-BZ—Application of Henry Nordheim, applicant, on behalf of Nicola Latini, owner, reopened October 17, 1944, under section 7c of the zoning resolution, to permit in a residence use district, the further extension to the 2nd story of a business use (undertaking establishment) previously granted by the Board for the 1st story; premises 711 Tilden street, north side, 72 ft. east of Gunhill road (Block 4659, Lot 85), Borough of The Bronx.

Appeals from Administrative Decisions.

558-44-A—711 Tilden street, north side, 72 ft. east of Gunhill road (1st and 2nd floors); (Block 4659, Lot 85), Borough of The Bronx.

232-44-A—89 Thompson street, west side, 100 ft. 1 in. north of Spring street (Block 503, Lot 35), Borough of Manhattan.

619-44-A—92 Greene street, east side, 100 ft. north of Spring street (5th floor); (Block 499, Lot 1), Borough of Manhattan.

668-44-A—34-10 Linden place, west side, 450 ft. north of 35th avenue (1st floor and basement); (Block 783, Lot 82), Flushing, Borough of Queens.

590-44-A—84-40 101st street, northwest corner of 85th road (cellar); (Block 9177, Lot 23), Richmond Hill, Borough of Queens.

Material for Approval.

616-44-SM—Pittsburgh Welded Wire Reinforcement.

HARRIS H. MURDOCK, *Chairman.*

JANUARY 16, 1945, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday afternoon, January* 16, 1945, at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Appeals from Administrative Decisions

496-43-A—425 Beach 72nd street, southwest corner of Hessler avenue (Block 523, Lots 22 and 24), Arverne, Borough of Queens (under section 35, General City Law re bed of mapped street—Barbadoes drive).

724-44-A—164-166 Duane street and 21 Hudson street, southwest corner (cellar); (Block 141, Lot 32), Borough of Manhattan.

APPEARANCES—

For Applicant: Alfred A. Lama and Joseph Newman.

For Opposition: Hector G. De Meo, Vito Scimeco.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 23, 1945 at 10 A. M., pending an inspection by a committee of the Board. No further argument.

MINUTES

991-40-BZ

APPLICANT—William J. Minogue, for Unexcelled Manufacturing Co., Inc., owner.

SUBJECT—Application reopened October 31, 1944 for consideration as to extension of permit (expired by limitation)—re Application, previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, for a term of two years, the erection and maintenance of twenty-six (26) buildings for fireworks.

PREMISES AFFECTED—1144-1208 Richmond avenue, west side, 400 ft. south of Lisk avenue (Block 1665, Lot 7 and Block 1660, Lot 1), Graniteville, Borough of Richmond.

APPEARANCES—

For Applicant: William J. Minogue.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (991-40-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting the erection and maintenance of twenty-six (26) buildings for fireworks, affecting premises 1144-1208 Richmond avenue, west side, 400 ft. south of Lisk avenue (Block 1665, Lot 7 and Block 1660, Lot 1), Graniteville, Borough of Richmond, was granted by the Board on June 23, 1942, on certain conditions, for a term of two years; and

WHEREAS, the applicant requested an extension of the permit, which had expired by limitation; and

WHEREAS, this case was reopened by vote of the Board on October 31, 1944, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 9, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted on June 23, 1942, only so far as it has reference to the terms of the permit, so that as amended it shall read:

"* * * *granted* under section 7e thereof for a term of two years from the date of this *amended* resolution, to permit the extension of the proposed use into the more restricted area and the erection of the buildings as proposed, *on condition* that in all other respects, the buildings and occupancy shall comply with all laws, rules and regulations applicable thereto; that the buildings and uses proposed therefor, shall be permitted only during the period of the present emergency and shall be completely removed at the termination thereof, if such termination materializes within the term of this permit; otherwise an application may be made for such extension of the permit as the Board may deem proper; that the operation of entire premises shall be maintained to the satisfaction of the fire commissioner and such fire-fighting appliances maintained as he shall direct; that all permits required shall be obtained and all work completed within two (2) months from the date of this *amended* resolution."

414-41-BZ

APPLICANT—John J. Beatty, for Thomas F. Martin Realty Company, owner (Louis Theil, lessee).

SUBJECT—Application reopened November 21, 1944, for consideration as to extension of permit (expired by limitation) re—Application (decision of the borough superintendent) previously granted on condition under section 7h of the zoning resolution, for a term of two years, permitting partly in a business use and partly in a residence use district, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—2918-2926 West 17th street, west side, 170 ft. north of Surf avenue (Block 7061, Lot 16), Borough of Brooklyn.

APPEARANCES—

For Applicant: John J. Beatty.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (414-41-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a business use and partly in a residence use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 2918-2926 West 17th street, west side, 170 ft. north of Surf avenue (Block 7061, Lot 16), Borough of Brooklyn, was granted by the Board on November 12, 1941, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit, which had expired by limitation; and

WHEREAS, this case was reopened by vote of the Board on November 21, 1944, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 9, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 12, 1941, only in so far as it has reference to the term of the permit, so that as amended this portion of the resolution shall read:

"*Granted* for a temporary term of two (2) years from the date of this *amended* resolution, to permit the parking and storage of more than five (5) motor vehicles *on condition* * * *"

268-44-BZ

APPLICANT—Herman Kron, for Ruth Katz, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, for a temporary period of two years, the change of occupancy of a garage for more than five motor vehicles to a factory for wood working.

PREMISES AFFECTED—334-344 Cleveland street, west side, 100 ft. north of Liberty avenue (Block 3968, Lot 29), Borough of Brooklyn.

APPEARANCES—

For Applicant: Herman Kron and Bernard F. Stern.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (268-44-BZ)

WHEREAS, Herman Kron, for Ruth Katz, owner, filed May 5, 1944, an application under section 7e of the zoning resolution, to permit in a residence use district, for a temporary period of two years, the change of occupancy of a garage for more than five motor vehicles, to a factory for wood working, affecting premises 334-344 Cleveland street, west side, 100 ft. north of Liberty avenue (Block 3968, Lot 29), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application

by the Board of Standards and Appeals, at its regular meeting, January 9, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Atlantic avenue and Liberty avenue are in a business use, C area and 1 times height district; Cleveland street is in a residence use, C area and 1 times height district and Ashford street is in a residence use, C area and 1 times height district; and

WHEREAS, the decision of the borough superintendent, dated May 5, 1944, re Alt. Applic. 3703-43, reads:

"3. Proposed change in occupancy from public garage to light manufacturing (woodworking and cabinet maker) in a residential use district, is contrary to Art. II, Sec. 3 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 90 ft. in depth, on which is located a one story class 3 constructed building, 100 ft. by 90 ft. in area, occupied as a garage for more than five motor vehicles and it is proposed to change the occupancy to wood working and cabinet making; and

WHEREAS, the applicant contends that the building was erected under N.B. 5677-20 as a garage, facing Cleveland street and running through the block and also facing Ashford street; that before the present owner took possession of the site, the building was divided by the original owner by a wall and the present owner obtained the building facing Cleveland street; that building department records do not show that permit for the above mentioned work was obtained; that as to item 2 of superintendent's objections, the applicant cannot comply, for the reason that he does not represent owner of the building facing Ashford street and therefore cannot file an application with the Department of Buildings for the illegal work previously done; that no certificate of occupancy for the present building was issued by the Building Department; that after the duration, not later than two years, it is proposed to revert the garage to its original use; that no certificate of occupancy was issued, for the reason that the building was altered without a permit; that this application is made necessary by the present war conditions: that the garage could not be used on account of the automobile shortage and was for many months vacant and therefore without the income being aided from the space for shop purposes; that the owner will not be able to pay the taxes and interest on the mortgage and his investment will be in jeopardy; that these premises are being used for a woodworking shop since about the month of April 1944 without a permit; that a violation was issued by the Building Department and no court summons was served on the occupants; that the machinery being used in connection with this woodworking establishment are circulars and bandsaws, planes and also some painting is being done on the mezzanine, which also was erected illegally; that in 1939 the site was changed from unrestricted to residence use; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision e, of the zoning resolution; and

WHEREAS, a letter dated January 8, 1945, from the tenants, DeLuxe Crafts, Inc., the present occupants of the building, reads in part as follows:

"We hereby guarantee that immediately upon approval of the Board, we will do the following:

1. A one source sprinkler system will be installed on premises and as directed by the Fire Department.
2. The spraying that is now done on premises must comply with C-19 of the Administrative Code and so approved by the Fire Department.
3. Plans for the mezzanine balcony will be filed with the Building Department for approval.
4. The cyclone exhaust system above the roof will be securely fastened to meet the approval of the Building Department.
5. In the future, the plant will operate in a safe condition.

If the Board is so gracious as to render a decision in our favor, we give our assurance that the above items will be corrected at the earliest possible time."

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7e thereof, for a term of two years from the date of this resolution, to permit the building to be occupied as a woodworking establishment as proposed, *on condition* that the building shall not be increased in height or area; that any tanks or other equipment for the storing or handling of gasoline or oil installed on the premises in connection with the former garage occupancy, shall be entirely removed; that a one source sprinkler system shall be installed; that any spraying carried on shall be separated from the balance of the building by a wall of fire-retarded construction, extending from floor to ceiling with any door therein of fireproof construction; that the ceiling of such room shall be protected in accordance with the requirements of the code for one hour; that all spraying booths and other equipment shall comply with the requirements of the Rules of the Board therefor; that any openings in the floor, opening to the boiler room, shall be permanently closed with fireproof construction; that the boiler room shall be separated from the balance of the building and enterable only from the exterior; that the cyclone and driving equipment shall be made structurally safe to the satisfaction of the borough superintendent; that the existing mezzanine balcony shall not be extended and plans shall be filed and approved by the borough superintendent therefor; that no other intermediate floor construction shall be erected; that no windows or other openings shall be constructed within the side line or rear walls; that no signs shall be erected on the premises other than one sign which may be erected on the front wall not exceeding 15 sq. ft. in area; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this variance shall continue under section 7e, only so long as the premises are occupied by the De Luxe Craft Co., Inc., formerly known as the Pollick Construction Co., Inc.

449-44-BZ

APPLICANT—Philip Freshman, for Peter Hartmann, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a business use district, the reconstruction of three (3) buildings, two of which are two stories in height, occupied as garages for more than five motor vehicles, and one 1-story in height occupied as a garage for five motor vehicles, into one (1) building one story in height to be occupied as a garage for more than five motor vehicles.

PREMISES AFFECTED—238-242 Vanderbilt avenue, west side, 208 ft. 7 in. north of DeKalb avenue (Block 2092, Lots 53, 54 and 55), Borough of Brooklyn.

APPEARANCES—

For Applicant: Philip Freshman.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (449-44-BZ)

WHEREAS, Philip Freshman, for Peter Hartmann, owner, filed July 20, 1944, an application under sections 7c and 21

of the zoning resolution, to permit in a business use district, the reconstruction of three buildings, two of which are 2 stories in height, occupied as garages for more than five (5) motor vehicles, into one building one story in height to be occupied as a garage for more than five motor vehicles; affecting premises 238-242 Vanderbilt avenue, west side, 208 ft. 7 in. north of DeKalb avenue (Block 2092, Lots 53, 54 and 55), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 9, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that DeKalb avenue and Vanderbilt avenue are in a business use, B area and 1½ times height district; Clinton avenue and Clermont avenue are in a residence use, B area and 1-times height district and Willoughby avenue is in a business and residence use, B area and 1½ times height district; and

WHEREAS, the decision of the borough superintendent, dated July 11, 1944, re Alt. Applic. 1634-44, reads:

> "The proposed extension of a garage for more than five motor vehicles in a business use district, is contrary to the Zoning Resolution, Sect. 4 (a) (15). Denied."

and

WHEREAS, the applicant states the premises consist of a plot, 66 ft. frontage by 100 ft. in depth, on which are located three buildings, one 2-stories in height, 22 ft. by 82 ft. in area, one two-stories in height, 22 ft. by 60 ft. in area, both occupied as garages for 7 cars each, and one 1-story in height, 22 by 60 ft. in area, occupied as a 5-car garage; that it is proposed to reconstruct these buildings into one building, one-story in height, to be occupied as a garage for eighteen (18) motor vehicles; and

WHEREAS, the applicant contends that the premises as it now exists, consists of three separate buildings (one ownership) each on a plot 22 ft. by 100 ft. in area, making a total of 66 ft. by 100 ft. in area; that Building 238 is a two-story brick structure, 22 ft. by 82 ft. occupied on the ground floor as a seven car, non-storage garage and storage purposes on the 2nd or top floor; that Building 240 is one story high, 22 ft. by 60 ft., occupied as a 5-car storage garage, having a 550 gallon gasoline tank and one gasoline pump; that Building 242 is a two-story brick structure, 22 ft. by 60 ft., occupied on the ground floor as a 7-car non-storage garage, and 1 family on the second or top floor, in all making a total of 19 cars for the three units; that premises 240-242 was acquired by this owner in 1939 and 238 was acquired in 1941; that these structures were erected about 1875, as near as available public and private records indicate and were primarily built for private stables, as were many buildings on this block adjacent to this property; that about 1912, these buildings were converted from stables to private garages, which use has continued up to the present time; that the owner is engaged in the business of hiring out cars for funerals and weddings, and the garages are used exclusively for his own fleet of cars; that the type of cars is uniform in appearance and generally Packard sedans with long wheel bases; that because of their use, the cars must be kept highly polished and in clean condition, which necessitates employment of experienced car-washers adapted to this line of work; that under the present arrangement of the buildings, it is a distinct hardship to operate; that each garage is but 20 ft. in width inside, too wide for two cars abreast and yet too narrow for three cars; that the owner was thus forced to rent a garage directly across the street, to relieve the situation; that in order to move cars at the rear of each unit, any cars stored in front have to be driven out and parked alongside the curb on Vanderbilt avenue and then driven back into the building, which impedes the traffic on Vanderbilt avenue, particularly in the morning when it is heavy, and requiring the employment of four or five men which would be obviated if the space were unobstructed; that on many occasions due to lack of required number of men, funerals were held up; that to relieve this condition, the applicant requests permission to remove the interior brick walls dividing these buildings and extend the garage to the rear lot line, removing upper stories and maintaining one center driveway instead of the three existing; that the garage across the street referred to will be vacated; that under the new arrangement, 18 cars will be stored, comprising 14 funeral cars and four hearses, as against 19 cars under the existing conditions; that the proposed improvement will in no way affect light or ventilation of adjoining property, will not detract from present appearance of the street, will relieve traffic congestion and reduce the hazard by having one driveway instead of three; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is granted under section 7c thereof, to permit the extension and reconstruction of the existing buildings and to permit the occupancy as a storage garage for more than five (5) motor vehicles, *on condition* that the building shall not be increased further in height or area; that the garage shall be used solely for the fleet of motor vehicles operated by the owner; that the existing gasoline pump shall be removed within the building, as shown on plans filed with this application marked "Received July 20, 1944"; that the storage of gasoline shall not exceed one (1) 550 gallon tank; that the boiler room located in the cellar shall be separated from the balance of the building by fireproof construction and enterable only from the exterior; that all signs shall be removed from the property and no signs erected, other than a permanent sign attached to the facade of the building advertising the owner's business; that such sign shall not exceed the permitted area therefor; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that no windows shall be constructed in the side line or rear walls; that existing curb cuts in the sidewalk shall be restored and one new curb cut may be constructed at the center of the plot not exceeding 20 ft. in width; that the doorways for entrance of cars shown shall be reduced to one toward the center and windows or walls substituted for the other doors shown; that in all other respects, the building and occupancy shall comply with the zoning resolution and all other laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

718-44-BZ

APPLICANT—Harry M. Prince, for 39 Park Avenue Corporation, owner (Philip E. Wilcox, lessee).

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the temporary use of a portion of an existing residence building for conference room, professional office, drafting room, storage and file room.

PREMISES AFFECTED—39 Park avenue, northeast corner of East 36th street (Block 892, Lot 1), Borough of Manhattan.

APPEARANCES—
For Applicant: Harry M. Prince.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

MINUTES

THE RESOLUTION (718-44-BZ)

WHEREAS, Harry M. Prince, for 39 Park Avenue Corporation, owner (Philip E. Wilcox, lessee), filed December 11, 1944, an application under section 7e of the zoning resolution, to permit in a residence use district, the temporary use of a portion of an existing residence building for conference room, professional office, drafting room, storage and file room, affecting premises 39 Park avenue, northeast corner East 36th street (Block 892, Lot 1), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 9, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Park avenue, Lexington avenue, East 35th, East 36th and East 37th streets are in a residence use, B area and 1½ times height district; and

WHEREAS, the decision of the borough superintendent, dated November 27, 1944, re Alt. Applic. 1516-44, reads:

"1. Proposed use of building for conference rooms, offices, drafting rooms, storage and file rooms not permitted in a residence district as such use is contrary to Sec. 3 of Art. II of Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot having a frontage of 48¾ ft. and a depth of 105 ft. on which is located a 4-story and pent house building, of Class 3 construction, 38 ft. 4 in. by 88 ft. in area, occupied as a private residence and that it is proposed to occupy the building as a residence and office of a consulting engineer; and

WHEREAS, the applicant contends that the present structure was erected in 1888 as a private residence and has remained as such to this date, although since its purchase by the 39 Park Avenue Corporation, of which Mr. Robert W. Dowling is President, it has remained vacant; that more recently, the owners have also purchased 41 Park avenue adjoining, with the intention of developing this entire plot with a modern residential fireproof structure immediately after the present war emergency and when materials are available; that during the interim, it is proposed to lease this building to a consulting engineer and industrial designer, who now has offices at 1 East 53rd street; that the practice of this engineer is entirely devoted to highly secretive technical phases of professional engineering for the U. S. Navy; that he is the only civilian cleared for naval work of the type on which he is engaged; that it is intended to use this building as a private residence carrying on a professional practice as an accessory use to residence; that no structural or other changes in the building, except one of a very minor character, is contemplated; that the proposed use is for the period of the emergency and a reasonable period thereafter; that this application is made, therefore to the Board of Standards and Appeals to modify the ruling of the Superintendent of Buildings, so as to permit him to accept the proposed use and occupancy for the following reasons: The net useable area on each floor is considerably under 2500 sq. ft., the gross area inside exterior walls being only approximately 2700 sq. ft.; that while the building is 62 ft. 4 in. from curb to roof, the fourth or top floor is not to be occupied; that the height from the curb to the third floor ceiling is only 47 ft. 3 in.; that there are two stairs in the building and an elevator, the stairs having direct egress to the street and yard; that there are to be no signs on the building or any other than that proposed, the building retaining, in every sense, its residential character in appearance; and

WHEREAS, the Board deemed that this is a proper case in which to exercise its discretion to grant a temporary variance under section 7e of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7e thereof for a temporary term of two years to permit a portion of the second floor and the entire third floor to be occupied by the lessee of the building, Philip E. Wilcox, as private professional engineering offices, *on condition* that the balance of the building shall be occupied as his personal living quarters; that the top story shall remain vacant and not used; that the building shall not be increased in height and area; that the windows shall be curtained and draped in accordance with applicant's statement dated January 5, 1945; that the enclosed secondary means of exit shall have a sprinkler system installed throughout its height, meeting all requirements for a similar stairway as required in Article VI of the Multiple Dwelling Law; that the stairway from the cellar to the basement shall be closed off with a fireproof, self-closing door; that such portable fire-fighting appliances shall be installed throughout the premises as the fire commissioner shall direct; that no structural changes shall be made to the building, except the removal of one partition on the third floor as proposed and shown on plans filed with this appeal marked "Received December 11, 1944;" that the space to be occupied for living quarters shall be in accordance with the revised plan marked "Received January 5, 1945", showing the basement, first and second floors; that no signs shall be erected on the premises indicating the engineering use, except there may be a plate not over one square foot in area, giving the name of the lessee only and a tablet reading "Bowdoin House"; and that all permits required shall be obtained and all work completed within two (2) months from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

700-44-A

APPLICANT—W. T. McCarthy, for House of St. Giles the Cripple, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1342-1350 President street and 335-343 Brooklyn avenue, southeast corner (Block 1285, Lot 7), Borough of Brooklyn.

APPEARANCES—

For Applicant: W. T. McCarthy.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 30, 1945 at 10 A. M. for decision by Board without further argument.

591-44-A

APPLICANT—Harry A. Zuch, Adjoining Owner.

OWNER OF PREMISES—Caroline Rauh (Dr. Bryant S. Hopper, lessee of 1st floor).

SUBJECT—Appeal from a decision of the acting borough superintendent re Revocation of Certificate of Occupancy #12423.

PREMISES AFFECTED—107-17 86th avenue, northwest corner of 108th street (1st floor); (Block 9197 (170), Lot 29), Richmond Hill, Borough of Queens.

APPEARANCES—

For Applicant: None.

For Opposition: Warren J. Heeg.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (591-44-A)

WHEREAS, Harry A. Zuch, adjoining owner, filed December 17, 1944 an application for revocation of Certificate of Occupancy affecting premises 107-17 86th avenue, northwest corner of 108th street (1st floor): (Block 9197, (170), Lot 29), Richmond Hill, Borough of Queens; and

MINUTES

WHEREAS, said premises are owned by Caroline Rauh and leased to Dr. Bryant S. Hopper; and

WHEREAS, the decision of the borough superintendent dated October 2, 1944 reads:

"Your request to this office to revoke Certificate of Occupancy #12423 has been denied."

and

WHEREAS, the applicant states that the building is 2½ stories (approximately 35 ft.) in height, approximately 18 ft. by 35 ft. in area, of class 4 construction, erected in 1912, located in a residence use, C area class 1¼ height district and used and occupied as follows: cellar—boiler room and storage; 1st floor—doctor's office; 2nd floor—dwelling—1 family; attic—dwelling—1 room; and

WHEREAS, the applicant contends that the building is now being occupied contrary to affidavits filed by the owner and lessee, which affidavits state that the doctor resides in the building with his family; that the doctor and his family live only a few blocks away; that the building was not arranged, intended or designed to permit the occupant of the doctor's office to reside on the premises; that the doctor does reside with his family at another location and has not, nor does he intend to remove his family to the present premises; that the credibility of the doctor lessee is challenged, as he is registered for voting as residing at 85-17 108th street and not at 107-17 86th avenue, as his affidavit filed with the borough superintendent indicates; and

WHEREAS, when this case was called for hearing, no one appeared in behalf of the applicant, although duly notified to do so.

Resolved, that the appeal be and it hereby is *dismissed* for lack of prosecution.

MATERIAL SUBMITTED FOR APPROVAL

548-44-SM

APPLICANT—Sloan Valve Company, owner.

SUBJECT—Sloan V-200 ⅜" and ½" IPS Vacuum Breaker, approval of.

APPEARANCES—

For Applicant: Philip C. Pleett and Jerome A. Edwards.

ACTION OF BOARD—Material approved in accordance with report of Committee on Tests.

THE VOTE TO APPROVE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (548-44-SM)

WHEREAS, The Sloan Valve Company, owner, filed on September 25, 1944, an application with the Board of Standards and Appeals for approval of the material known as the Sloan V-200 ⅜" and ½" IPS Vacuum Breaker; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT ON COMMITTEE ON TESTS

December 11, 1944

Cal. 548-44-SM

Subject: Sloan V-200 ⅜" and ½" IPS Vacuum Breaker, Approval of.

The Sloan Valve Company, filed an application with the Board of Standards and Appeals for approval of the Sloan V-200 ⅜" and ½" Vacuum Breaker under the provisions of C26-178.0.b for use under C26-1277.0, Administrative Building Code.

The SLOAN V-200-B ⅜" and ½" iron pipe size vacuum breaker is designed to prevent back-syphonage in any fixture or submerged outlet when installed on the discharge side of the control valve above the spill line of the fixture.

The SLOAN V-200-B vacuum breaker consists of a cast brass body with a female iron pipe size inlet at bottom of body; a female iron pipe size outlet on side near the bottom of body. Fitted to top of body is a cover with air opening which is protected with a bell shape brass hood. The cover is screwed to top of body and is fitted with a rubber combination gasket and air valve seat with friction ring. The breaker contains a special design Durez float back-check which has outside vertical ribs to guide motion of float check in body of breaker. This back-check prevents spitting and leaking under low rates of flow—the function of the back-check is to close opening to air in cover. This Durez check is the same check which is used in SLOAN V-100-B ½ and ⅜ inch vacuum breaker which has been approved for use by Board of Standards & Appeals under Calendar 149-40-SM. The bottom, or open end of float check seats down on upper end of raised heavy brass tube which is tapped directly into bottom inlet opening of breaker.

The operation of this breaker is as follows: The water supply enters inlet opening raising float check and seating check against air opening—thus sealing the opening to atmosphere. The water supply passes over center tube and thence out through discharge opening. As soon as flow ceases the back-check drops down over center tube, thus opening breaker to atmosphere. Should a vacuum occur during the flow the check closes opening at top of tube, thereby subjecting the breaker to atmospheric pressure and breaking vacuum.

Test

The unit was tested at the bench of the Department of Water Supply, Gas and Electricity on October 27, 1944, in the presence of the Committee on Tests of the Board and the representatives of the Department of Water Supply, Gas and Electricity and of the manufacturers.

The mechanical principle of the unit tested is that the water is introduced upward through an "L" shaped fitting with an inner tube extending past the horizontal outlet, toward the airport. A plastic cylinder with sealed top is fitted over the outlet end of the inner tube in such a position that when water is introduced through the unit the plastic cylinder rises and is seated against a rubber seat at the airport at the top of the vacuum breaker.

The flow of water in this position is upward through the tube, downward on the inside of the plastic cylinder, and outward horizontally through the outlet end of the vacuum breaker. When a vacuum occurs in the supply pipe which the vacuum breaker is designed to protect, the plastic cylinder falls by gravity away from the rubber seat at the outlet port, and the closed top of the cylinder rests against the upper outlet of the inner tube thus acting as a depression check. In this position atmosphere is freely admitted to the piping on the outlet side of the breaker and the siphonic influence at the inlet side of the vacum breaker is materially checked.

The unit successfully withstood a H.g. vacuum of 29½" and a sustained vacuum for five minutes varying from 5" to 25" H.g. Under these tests, no simulated contaminated water was drawn into the piping through the vacuum breaker at any vacuum to which it was subjected.

The above tests indicate that the Sloan Valve Company V-200 vacuum breaker, S. & A. Cal. 548-44-SM, in ⅜" and ½" I.P.S. warrants approval under the provisions of Section 14.8.2.8 of the Plumbing Code.

Recommendation

On the basis of this inspection and test, the Committee on Tests recommends that the Sloan V-200 ⅜" and ½" I.P.S. Vacuum Breaker be approved under C26-191.0.a for installation in New York City under C26-1277-0.h, provided that the material has a label reading: "Approved by the Board of Standards and

MINUTES

Appeals for use in New York City under Cal. 548-44-SM" on in lieu thereof a die or stamp with raised legible letters on the body of the vacuum breaker reading within a circle around the periphery at the top the word "approved" along the bottom "B.S.&A.", in the center two lines—the upper line reading "N.Y.C." and the lower line reading "548-44-SM."

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Sloan V-200 ⅜" and ½" I.P.S. Vacuum Breaker, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 12:30 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, JANUARY 9, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

343-43-A

APPLICANT—Chauncey A. Pierce, for A. E. MacAdam and Co., Inc., owner.

SUBJECT—Application reopened November 21, 1944—re Appeal from an order and a decision of the fire commissioner and a decision of the borough superintendent; previously withdrawn after discussion.

PREMISES AFFECTED—93-101 Lexington avenue, north side, 275 ft. east of Classon avenue (Block 1967, Lots 64 and 66), Borough of Brooklyn.

APPEARANCES—
For Applicant: Chauncey A. Pierce.
For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (343-43-A)

WHEREAS, Chauncey A. Pierce, for A. E. MacAdam and Co., Inc., owner, filed July 7, 1943, an appeal from an order and decision of the fire commissioner, affecting premises 93-101 Lexington avenue, north side, 275 ft. east of Classon avenue (Block 1967, Lots 64 and 66), Borough of Brooklyn; and

WHEREAS, order 8202-LF, issued by the fire commissioner February 27, 1942, reads:

"1. Install an approved wet automatic sprinkler system in the cellar of premises 93-101 Lexington Ave., Brooklyn, having at least one source of water supply, arranged and equipped as per Sprinkler Rules, Board of Standards and Appeals."

and

WHEREAS, said order was referred to in a decision of the fire commissioner dated July 2, 1942; and

WHEREAS, the applicant states that the building is 5 stories in height, 78 ft. by 95 ft. in area, of class 3 construction, erected in 1914, located in an unrestricted use district and occupied as follows: cellar—paper storage—2 persons; 1st floor—shipping and receiving—10 persons; 2nd floor office and warehouse—15 persons; 3rd to 5th floors—warehouse—no persons; that Certificate of Occupancy 2770 issued April 8, 1922, permits the use of the building on the 1st story for a garage and the upper floors for light storage; and

WHEREAS, the applicant contends that when the order was first issued, permission was requested from and presumedly granted by the Fire Department to make temporary alterations for the duration of the war, as shown on plans filed with this appeal, to furnish protection and additional exits from the premises, and it is requested that the Board permit the omission of the sprinkler system for the duration of the war, due to the fact that it is impossible to get the necessary materials and due to the fact that the amount of stock now stored in the building is at a minimum on account of the war, thereby reducing the risk; and

WHEREAS, this appeal was withdrawn July 27, 1943, to permit the applicant to file plans with the Building Department for proposed changes and to request the Fire Department for reconsideration of its order based on the proposed changes; and

WHEREAS, on November 21, 1944, this appeal was reopened by vote of the Board and restored to the calendar, subject to usual procedure; and

WHEREAS, the decision of the borough superintendent, dated April 4, 1944, on Bldg. Notice 7224-43 reads:

"F.P. 1—Comply with Fire Dept. Order #8202 L.F. provide sprinkler system in Cellar.

Note:—F. Dept. order and Supt's. order under Code 15.43 should be complied with."

and

WHEREAS, the decision of the Fire Commissioner, dated August 23, 1944, reads:

"In response to your letter of August 2nd requesting reconsideration of Order #8202-LF you are advised that no modification may be made of this item. The Order is considered necessary and should be complied with."

and

WHEREAS, the applicant contends that it is still impossible to obtain priorities for the installation of a sprinkler system, as called for by the Fire Department's order; that it is requested the improvements of the exit facilities from the basement of this building be accepted for the duration of the war in lieu of compliance with the Fire Commissioner's order.

Resolved, that the decision of the fire commissioner, acting on Order 8202-LF, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the openings from the cellar to the street, as indicated on plan marked "Received July 7, 1943," shall be made, and the doors in the openings between the cellars shall be protected with self-closing 3 hour fire wall doors; that a dry non-automatic sprinkler system, complying with the requirements therefor, shall be installed throughout the cellar having an approved central station connection.

382-44-A

APPLICANT—Ajax Contracting Co., Inc., for Brooklyn Terminal Stores, Inc., owner.

SUBJECT—Application for consideration—reopening and restoration to calendar—re Appeal from an order and decision of the fire commissioner.

PREMISES AFFECTED—105-123 River street, 29-35 Metropolitan avenue, northwest corner and 18-26 North 3rd street (Block 2355, Lots 3-10, inclusive), Borough of Brooklyn.

APPEARANCES—
For Applicant: Herman E. Horwood.
For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal reopened, restored to the calendar and granted on condition.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (382-44-A)

WHEREAS, Herman E. Horwood, for Brooklyn Terminal Stores Incorporated, owner, filed July 20, 1944, from an order and decision of the fire commissioner, affecting premises 105-123 River street, and 29-35 Metropolitan avenue, northwest corner, and 18-26 North Third street (Block 2355, Lots 3 to 10, inclusive), Borough of Brooklyn; and

WHEREAS, this appeal was withdrawn after discussion, on July 11, 1944; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, Order 9981-LF, issued by the fire commissioner January 19, 1943, and referred to in a decision of the fire commissioner dated May 23, 1944, reads:

"1. Place sprinkler system in operating condition. Among the defects noted are: Air compressor and gauges removed. Tanks empty and no water in system. Street main connection valves closed. Piping disconnected. Sprinkler rules of Board of Standards and Appeals."

and

WHEREAS, the decision of the fire commissioner, dated May 23, 1944, reads:

"We regret to note from your communication of May 11th that you have been unable to obtain a priority to carry out the provisions of Order 9981-LF. However, we cannot grant your request for any further extension of time, as the fire commissioner is not empowered to give extensions, this being a function of the Board of Standards and Appeals.

It may interest you to know, however, that it is reported that the situation on priorities for automatic sprinklers and other fire protection seems more favorable than it has been at any time during the war period. You might communicate with Mr. J. A. West, Chairman, Fire Protection Committee, War Production Board, Room 2616, Railroad Retirement Building, Washington, D. C. for further information along this line."

and

WHEREAS, the applicant states that the building is 1, 3, 4 and 8 stories (79 ft.) in height; 203 ft. 2 in. by 66 ft. 3 in. and 87 ft. 4 in. in area; of Class 3 construction; erected about 1898; located in an unrestricted use, B area district and used since 1942 for the storage of general commodities throughout and that the building is equipped with two 3 ft. 8 in. wide wood stairs, unenclosed; and

WHEREAS, the applicant contends that the premises consist of a group of unheated buildings used as a general commodity storage warehouse consisting principally of food stuffs packed in cans, cases and cartons, sugar in bags and cartons, dried soup powders, etc., none of which is of a hazardous nature; that the premises are vacant above the 4th story; that the sprinkler system, which was previously in operation was removed as it interfered with the conduct of the building, so that at the present time there is a very small portion of the piping left; that for a short period, the former owners rented the first floor and basement to a cooperage concern and it was during that time that the fire department issued the order for the sprinkler system; that when this cooperage concern vacated the premises, the former owners did not consider it necessary to ask for a rescindment of the order; that the present owners purchased it in 1942, and although the present use would not call for sprinklers, the Fire Department is still trying to enforce the order, principally on account of the few sections of sprinkler pipe remaining; that there never was any sprinkler in the 3 story building on the corner of River street and North Third street, which is used principally for the storage of steel sheets and tin plates; that there are ample auxiliary fire appliances throughout the premises, consisting of two 250 gallon extinguishers on wheels, 106 fire pails, 12 stirrup pumps and many 2½ gallon chemical extinguishers; that there are only 16 persons employed and only three above the first floor; that there is a watchman on duty during the day, and at night, a watchman with clock and stations throughout the premises; that if this order were to be complied with, it would require a complete new sprinkler system; it is therefore asked that the Board grant permission to remove the existing piping, since no sprinkler would be required, based on the present occupancy; that if the owners were willing to install a new sprinkler system, they could not obtain the necessary materials at this time; that in view of the existing auxiliary fire appliances, the small areas and the fact that the premises are vacant above the fourth floor, it is requested that this appeal be granted.

Resolved, that the decision of the fire commissioner, acting on Order 9981-LF, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the sprinkler system throughout shall be put in proper working order to the satisfaction of the fire commissioner; that the three story building at the southwest corner of north Third street and River avenue shall be separated from all other portions and all other buildings, by fireproof self-closing doors at all openings on all floors as required by the Code; and that, in view of statement that there is no heat in the building, all work shall be completed as soon as the weather conditions permit, but not later than four months from the date of the resolution.

511-44-A

APPLICANT—Sidney L. Strauss, 111 West 24th Street Corporation, owner.

SUBJECT—Application for consideration—reopening and restoration to calendar—re Appeal from decisions re orders of the fire commissioner.

THE RESOLUTION (511-44-A)

WHEREAS, Sidney L. Strauss, for 111 West 24th Street Corporation, owner, filed August 29, 1944, an appeal from decisions re orders of the fire commissioner affecting premises 109-111 West 24th street, north side, 100 ft. West of 6th avenue (Block 800, Lot 33), Borough of Manhattan; and

WHEREAS, this appeal was withdrawn after discussion, on December 12, 1944; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, the decision of the fire commissioner, dated August 31, 1944, reads in part as follows:

"Orders 20290-LF and 20291-LF for fire drill and interior alarm system are pending."

and

WHEREAS, the decision of the fire commissioner dated August 9, 1944, reads:

"Replying to your letter of August 1, 1944, we regret being compelled to deny your request.

However, you may appeal to the Board of Standards and Appeals within 30 days from this date."

and

WHEREAS, the applicant states that the building is 7 stories, 78.3 ft. in height; 50 ft. by 115 ft. in area at 1st. floor; 50 ft. by 104 ft. in area at typical floor; of Class 1 construction; erected 1900; located in an unrestricted use, B area district and used and occupied since erection as follows: cellar, storage, 2 persons; 1st floor, rug showroom, 1 person; 2nd floor, furniture showroom, 6 persons; 3rd floor, manufacturing display materials, 20 persons; 4th floor, offices and stock room, 3 persons; 5th floor, manufacturing leather goods, 15 persons; 6th floor, manufacturing smoking pipes, 40 persons; 7th floor, manufacturing rugs, 25 persons; that the building is equipped with a one source sprinkler system, one 4 ft. wide wood interior stairway from the roof to the street, enclosed in 4 in. terra cotta block partitions, equipped with fireproof, self-closing doors and one fire escape at the rear, leading to the roof by stairs and to the street through fireproof passage in the basement; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that the orders herein appealed, require the installation of a fire alarm system and the maintenance of fire drills; that a one source sprinkler system has been installed on the premises; that apparently, the Fire Department has determined the pressure at the top sprinkler, on the basis of the assumed pressure in main at the front of the building; that the sprinkler system has been accepted by the New York Fire Insurance Exchange; that the U. S. Gauge was installed at a point 75 ft. below the top line of sprinklers and pressures recorded over a 24 hour period; that the lowest pressure recorded during this 24 hour period was 44 lbs.; that the building is approximately 78 ft. 3 in. in height and it is requested that the sprinkler system be accepted as in compliance with the sprinkler rules and that this appeal be granted, waiving the requirement for the installation of a fire alarm system and the maintenance of fire drills.

Resolved, that the decision of the fire commissioner, acting on Orders 20290-LF and 20291-LF, be and it hereby is *modified* and that the appeal be and it hereby is *granted* waiving the requirements for same, *on condition* that the one-source sprinkler system shall be installed, meeting the requirements therefor, and including the central station connection, except that the pressure at the highest sprinkler head shall not be less than 10 lbs.; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

Adjourned: 3:15 P.M.

JOSEPH J. DOYLE, Chief Clerk.

(Remaining minutes of the meeting of January 9, 1945 will be printed in the Bulletin of January 23, 1945).

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse fo rneglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Corrections Affecting Calendar Numbers 489-44-A, 665-44-A and 666-44-A.

PUBLIC HEARINGS

Tuesdays, at 10 a.m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

FEBRUARY 6, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, February* 6, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

606-44-BZ—Application, October 24, 1944, under section 21-C of the zoning resolution, of Albert E. Wheeler, applicant, on behalf of Marie P. Campagna, owner, to permit in an F area district, a one and two family residential development not conforming to the area district requirements; premises South side of West 249th street (Spauldings Lane), between Henry Hudson Parkway and Arlington avenue (Block 3419, Lot 91), Borough of The Bronx.

370-41-BZ—Application of Ferdinand Savignano, applicant, on behalf of Sophie Rigler, owner, reopened December 12, 1944 for consideration as to extension of permit (expired by limitation)—Application, previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 443-451 Myrtle avenue and 137-155 Waverly avenue, northeast corner (Block 1889, Lots 96, 94 and 1), Borough of Brooklyn.

330-42-BZ—Application of Eugene De Rosa, applicant on behalf of Jeron Co., Inc., owner, reopened and restored to Calendar, September 12, 1944 (previously withdrawn), under section 7c of the zoning resolution, to permit partly in a business use district and partly in a residence use district, the erection and maintenance of a building to be used as a theatre and stores; premises 95-42 to 95-48 Queens boulevard, south side, 130 ft. west of 63rd drive and 63-39 to 63-49 Saunders street (Block 3080, Lots 30 and 31), Rego Park, Borough of Queens.

50-42-BZ—Application of Harry Barkoff, applicant and lessee, on behalf of Helen Mahoney, owner, reopened January 16, 1945 for consideration as to extension of permit (expired by limitation)—Application, previously granted on condition, under section 7i of the zoning resolution, permitting in a business use district, for a term of two years, the conversion of occupancy of an existing building to a motor vehicle repair shop; premises 1261 Jerome avenue, west side, 70 ft. south of West 169th street (Block 2855, Lot 28), Borough of The Bronx.

94-19-BZ—Application of Herman Kron, applicant, on behalf of Bergen Management Co., Inc., owner (Brownsville Motor Sales Co., Inc., lessee), reopened June 22, 1943, under section 7e of the zoning resolution, to permit in a business use district, the change of occupancy from a garage for more than five motor vehicles (previously granted by the Board) to a garage for more than five motor vehicles and motor vehicle repair shop for a temporary period of two years and the maintenance of a 2nd story on a portion of the building; premises 1776 Eastern parkway and 2122-2128 Bergen street, southeast corner (Block 1455, Lot 24), Borough of Brooklyn.

597-44-BZ—Application, October 17, 1944, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of Abraham Sorkin, Morris Sorkin and Samuel Sorkin, owners, to permit partly in an unrestricted and partly in a residence use C area district, the demolition of a gasoline service station, motor vehicle repair shop and poultry slaughter house and reconstruction as a gasoline service station and motor vehicle repair shop without providing the rear yard required under the provisions of Section 17, Zoning Resolution; premises 2987-2997 Atlantic avenue and 205-221 Elton street, northeast corner (Block 3956, Lot 48), Borough of Brooklyn.

691-44-BZ—Application, November 30, 1944, under sections 7c and 21 of the zoning resolution, of Judson E. Schnall, applicant, on behalf of 8010 Fifth Avenue Corporation, owner, to permit on a plot located in a business use and residence use C area district, the erection of a fur storage vault extending from a business use district into a residence use district as an extension to an existing business building and not in compliance with the requirements for C area district; premises 8010-8012 5th avenue, west side, 63 ft. south of 80th street (Block 5989, Lots 46 and 47), Borough of Brooklyn.

Appeal from Administrative Decision.

610-44-A—372 Seaview avenue, south side, 140 ft. east of Laconia avenue (2nd floor); (Block 3380, Lot 68), Dongan Hills, Borough of Richmond (under section 35, General City Law—re proposed widening of avenue—Seaview avenue).

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

(Remaining minutes of the meeting of January 9, 1945.)

983-40-BZ

APPLICANT—Paul Friedman, for Dime Savings Bank of Brooklyn, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition under section 7h of the zoning resolution, permitting partly in a business use and partly in an unrestricted use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—413-417 Flatbush avenue extension, east side, 136 ft. 1¼ in. south of DeKalb avenue (Block 2093, Lot 85), Borough of Brooklyn.

APPEARANCES—

For applicant: Alfred A. Lama for Paul Friedman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (983-40-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a business use and partly in an unrestricted use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 413-417 Flatbush avenue extension, east side, 136 ft. 1¼ in. south of DeKalb avenue (Block 2093, Lot 85), Borough of Brooklyn, was granted by the Board on January 21, 1941, on certain conditions; and

WHEREAS, the resolution was amended on April 1, 1941 and the permit was extended on January 12, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 21, 1941, as amended through January 12, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under Section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit a portion of the plot within the business use area to be occupied for parking and storage of more than five (5) motor vehicles, in conjunction with the balance of the plot in the unrestricted area, and in conjunction with the adjoining lot, for which a similar variance has been granted under Cal. 772-40-BZ; * * * and that other than as herein *amended,* the conditions of the resolutions of January 21, 1941 and April 1, 1941, shall be complied with."

577-42-BZ

APPLICANT—George H. Colin, for Crew Levick Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting partly in a business use and partly in a residence use district, the extension of an existing gasoline service station for parking and storage of more than five motor vehicles for a term of two years.

PREMISES AFFECTED—1 Bay Ridge avenue and 6833 Shore road, northeast corner (Block 5859, Lots 10 and 12), Borough of Brooklyn.

APPEARANCES—

For Applicant: Anthony Manuele.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (577-42-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a business use district and partly in a residence use district, the extension of an existing gasoline service station for parking and storage of more than five motor vehicles for a term of two years, affecting premises 1 Bay Ridge avenue and 6833 Shore road, northeast corner (Block 5859, Lots 10 and 12), Borough of Brooklyn, was granted by the Board on January 12, 1943, on certain conditions, time extended on July 13, 1943, resolution amended on July 27, 1943 and time extended on November 3, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 12, 1943, as amended through November 3, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of (2) years, from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of July 27, 1943, shall be complied with."

REGULAR MEETING

TUESDAY MORNING, JANUARY 16, 1945, 10 A. M.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, January 9, 1945, and Tuesday afternoon, January 9, 1945, were approved as printed in Bulletin No. 3, Vol. 30.

ZONING CASES

330-42-BZ

APPLICANT—Eugene De Rosa, for Jeron Company, Inc., owner.

SUBJECT—Application reopened September 12, 1944 (decision of the acting borough superintendent) under section 7c of the zoning resolution, to permit partly in a business use district and partly in a residence use district, the erection and maintenance of a building to be used as a theatre and stores.

ACTION OF BOARD—Laid over to February 6, 1945 at 10 A.M.—on request of applicant's representative and agreed upon by the representative of the opposition.

220-44-BZ

APPLICANT—Anthony M. De Rose, for D'Abramo Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c, 7i and 21 of the zoning resolution, to permit in a business use district the change of occupancy of an existing building from a stable and wagon storage and garage for 12 motor vehicles (in cellar) to a garage for more than five motor vehicles and a motor vehicle repair shop, without complying with yard and area requirements for a new building.

PREMISES AFFECTED—89 Thompson street, west side, 100 ft. 1 in. north of Spring street (Block 503, Lot 35), Borough of Manhattan.

APPEARANCES—

For Applicant: Anthony M. De Rose and Guiseppe D'Abramo.

For Opposition: Louis A. Jackson and William J. Ryan.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Harold Klorfein, Dep't of Parks.

ACTION OF BOARD—Laid over to January 23, 1945 at 10 A. M., pending an inspection by a committee of the Board. No further argument.

670-44-BZ

APPLICANT—Albert E. Wheeler, for Vinmont Land Corporation, owner.

SUBJECT—Application (decision of the acting borough superintendent) under section 21-C of the zoning resolution, to permit in a C and F area district, a one family residential development not conforming to the area district requirements.

PREMISES AFFECTED—East side of Mosholu avenue, from West 254th to West 255th streets (Block 3421C, Lot 1311 and Block 3421D, Lot 1417), Borough of The Bronx.

APPEARANCES—

For Applicant: Eve M. Strelling.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustav Goldman, Board of Education.

ACTION OF BOARD—Laid over to January 23, 1945 at 10 A. M., on request of applicant's representative.

515-29-BZ

APPLICANT—Henry Nordheim, for Nicola Latini, owner.

SUBJECT—Application reopened October 17, 1944—re extension of use—(decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the further extension to the 2nd story of a business use (undertaking establishment) previously granted by the Board for the 1st story.

PREMISES AFFECTED—711 Tilden street, north side, 72 ft. east of Gun Hill Road (Block 4659, Lot 85), Borough of The Bronx.

APPEARANCES—

For Applicant: Henry Nordheim, Anthony Zaccardo and Nicola Latini.

For Opposition: Vincent N. Trimarco, George Ritzmann and Mary Ritzmann.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (515-29-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting in a residence use district, the alteration and change of occupancy of a portion of a building (1st floor), from residence to business use (funeral parlor and office), affecting premises 711 Tilden street, north side, 72 ft. east of Gun Hill road (Block 4659, Lot 85), Borough of The Bronx, was granted by the Board on January 14, 1930, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, under section 7c of the zoning resolution, to permit the extension of the business use (undertaking establishment), to include the 2nd story; and

WHEREAS, this case was reopened by vote of the Board on October 17, 1944 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution shows that Tilden street is in a residence use, C area and 1¼ times height district and Gunhill road is in a business use, C area and 1¼ times height district; and

WHEREAS, the decision of the borough superintendent dated December 5, 1944, re Alt. App. 364-44, reads:

"1. Proposed extension of business use to the second story of this building which is located within a residence district, is prohibited by Section 3, Building Zone Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 16.91 ft. frontage by 95.04 ft. in depth, on which is located a two story and cellar, Class 4 constructed building, 16.91 by 83 ft. in area, occupied as a dwelling, with an undertaking establishment on the first story and that it is proposed to extend this use to the 2nd story; and

WHEREAS, the applicant contends that this application is filed for the purpose of obtaining a variation from the requirements of the zoning resolution, Art. 2, Sec. 3, prohibiting a business use in a residential district and so noted by Objection 1, recorded in Alteration Applic. 364-44; that the records in the Board's files disclose the fact that a business use in this building was granted under Cal. 515-29-BZ, permitting the use of the 1st floor as a funeral parlor, and granted by the Board on January 14, 1930; that the building at present is vacant and a prospective tenant desires to occupy it, but in the manner of its present arrangement, offices on 1st floor and funeral chapel on the 2nd floor, with the living quarters divided partly on 1st floor and partly on 2nd floor, as shown on plans filed with this application; that the Superintendent's objection as worded, presumes to condemn the business use in the entire building and pays no attention to the fact that your Board granted such use in 1930—14 years ago; that such grant limited the business use to the 1st story and residence on 2nd floor, but this brings up the point how was the brick extension allowed to be constructed with its chapel arrangement—certainly such an extension, a volume of 16.91 ft. front 20 ft. deep and 2 stories and cellar, could not get by without some supervision and approval on the part of parties in authority; that this request for a variation is vertically rather than horizontally; since that a business use was granted for the 1st floor; that this request is not to spread the business use over a greater area, but the volume, that with the foregoing facts before the Board, the matter is left for their judgment in the hope of obtaining a favorable solution; and

WHEREAS, the premises and surrounding area are familiar to the Board inasmuch as inspections have been made at different times in the general area; and

WHEREAS, it appears that the Board has previously acted on these premises and denied the application as to the occupancy of the second floor for business purposes; and

WHEREAS, it also appears that the conditions of the variance granted on January 14, 1930, were not complied with, in that a permit was not obtained within the time stipulated or at any time thereafter; and

WHEREAS, the Board deemed that there was no justification for the exercise of discretion to grant a zoning variance under section 7c of the zoning resolution.

Resolved, that the decision of the borough superintendent on Alt. Applic. 364-44, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

192-38-BZ

APPLICANT—Powers and Hopkins, for Walter W. Welton, et al., owners.

SUBJECT—Application reopened December 19, 1944, for consideration as to extension of permit (expired by limitation)—Application (decision of the acting borough superintendent) previously granted on condition, under section 7i of the zoning resolution, for a term of two years, permitting in a business use district, the conversion of occupancy of an existing building to a motor vehicle repair shop.

PREMISES AFFECTED—1679-1681 Jerome avenue, west side, 275 ft. north of Featherbed lane (Block 2861, Lot 32), Borough of The Bronx.

APPEARANCES—

For Applicant: John T. Powers.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (192-38-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting in a business use district, for a term of two years, the conversion of occupancy of an existing building, to a motor vehicle repair shop, affecting premises 1679-1681 Jerome avenue, west side, 275 ft. north of Featherbed lane (Block 2861, Lot 32), Borough of The Bronx, was granted by the Board on May 24, 1938, on certain conditions; and

WHEREAS, the permit was extended on April 16, 1940 and April 7, 1942 and the applicant requested a further extension of the permit, which had expired by limitation; and

WHEREAS, this case was reopened by vote of the Board on Decmber 19, 1944, restored to the calendar and set for hearing on January 16, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Sandrads and Appeals, at its regular meeting on January 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 24, 1938, as amended through April 7, 1942, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under Section 7i to permit the premises under appeal to be occupied for a term of two (2) years from the date of this *amended* resolution, as a motor vehicle repair shop, *on condition* * * * that a certificate of occupancy shall be obtained and that other than as herein *amended.* the conditions of the resolutions of May 24, 1938 and April 16, 1940, shall be complied with."

512-40-BZ

APPLICANT—Henry Nordheim, for Salvatore Rulla, owner.

SUBJECT—Application reopenced November 28, 1944—re extension of permit—(decision of the borough superintendent) under section 7i of the zoning resolution, permitting partly in a business use and partly in an unrestricted use district the maintcnance of a motor vehicle repair shop, previously granted for a term of two years.

PREMISES AFFECTED—2623 Roberts avenue, north side, 100 ft. west of Blondell avenue and 1409 Blondell avenue (Block 4074, Lot 22), Borough of The Bronx.

APPEARANCES—

For Applicant: Henry Nordheim.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (512-40-BZ)

WHEREAS, this application under section 7i of the zoning resolution, permitting in a business use and partly in an unrestricted use district, for a term of two years, the maintenance of a motor vehicle repair shop, affecting premises 2623 Roberts avenue, north side, 100 ft. west of Blondell avenue and 1409 Blondell avenue (Block 4074, Lot 22), Borough of The Bronx, was granted by the Board on October 28, 1941, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit, which had expired by limitation; and

WHEREAS, this case was reopened by vote of the Board on November 28, 1944 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 16, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Blondell avenue is in an unrestricted use, B area and 1-times height district; Roberts and Halpern avenues are in a business and unrestricted use, B area and 1-times height district; and

WHEREAS, the decision of the borough superintendent, dated November 14, 1944, re request for a certificate of occupancy, reads:

"Your request dated November 9th in behalf of the owner, for the extension of the Certificate of Occupancy issued October 15, 1942, for the occupancy of a Motor Vehicle Repair Shop at 2623 Roberts Avenue, Block 4074, Lot 22, is hereby denied as the approval of the Board under Calendar 512-1940 B.Z. has expired October 28th, 1943. Your request for a new Certificate of Occupancy is also denied, as the occupancy as a Motor Vehicle Repair Shop partly in an unrestricted district and partly in a Business district is contrary to subdivision 29 of Section 4 "a" of Article 2 of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 17.04 ft. frontage on Roberts avenue, 33.75 ft. frontage on Blondell avenue and a depth of 138.91 ft. and 110.18 ft.; that upon the Blondell avenue frontage of plot is a 2-story frame dwelling; that on the westerly portion is a one-story non-fireproof building, 25 ft. by 40 ft., permission to occupy same as a motor vehicle repair shop was granted by the Board for two years on October 28, 1941; and

WHEREAS, the applicant contends that on October 28, 1941, the Board granted approval to occupy the small brick building on the site for motor vehicle repairing, said variation to run for a term of two years; and that at the expiration date

in October 1943, there was no tenant to occupy the building, so the owner on notice from this applicant that a renewal application must be filed with the Board, stated he preferred to wait until another tenant could be found; that he has a tenant now and desires to continue the motor vehicle repairing occupancy; that the photographs will show nothing of importance in the way of changes in the neighborhood has taken place, so that conditions are about the same as at the time of the original grant; that the building is small and can only hold two cars at a time, thus it would not be a nuisance to the neighborhood; that it adjoins a large storage garage occupied by a milk company for their trucks and that there is an automobile wrecking yard at the corner of Blondell and Roberts avenues, so that this use would not be out of its local spheres; that the granting of this renewal will permit the owner to obtain some revenue for carrying charges, etc.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 28, 1941, so that as amended, the resolution shall read:

"*Granted* under section 7i for a term of two (2) years from the date of this *amended* resolution, to permit motor vehicle repairing to be carried on within the building located on that portion of Lot 22 facing on Roberts avenue, *on condition* * * * that a certificate of occupancy shall be obtained and that other than as herein *amended,* the conditions of the resoltuion of October 28, 1941, shall be complied with."

APPEALS FROM ADMINISTRATIVE DECISIONS

232-44-A

APPLICANT—Anthony M. De Rose, for D'Abramo Realty Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

APPEARANCES—

For Applicant: Anthony M. De Rose and Guiseppe D'Abramo.

For Opposition: Louis A. Jackson and William J. Ryan.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to January 23, 1945 at 10 A. M., pending an inspection by a committee of the Board. No further argument.

590-44-A

APPLICANT—Endo Products, Inc., lessee, for Richmond Hill Realty Corp., owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—84-40 101st street, northwest corner of 85th road (cellar); (Block 9177, Lot 23), Richmond Hill, Borough of Queens.

APPEARANCES—

For Applicant: Joseph Yaspan, D. L. Klein, Nathan Weiner and Sidney H. Kitzler.

For Administration: Edwin A. Meyer, Fire Dep't.

ACTION OF BOARD—Laid over to January 23, 1945 at 10 A. M. for decision.

558-44-A

APPLICANT—Henry Nordheim, for Nicola Latini, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—711 Tilden street, north side, 72 ft. east of Gunhill road (1st and 2nd floors); (Block 4659, Lot 85), Borough of The Bronx.

APPEARANCES—

For Applicant: Henry Nordheim, Anthony Zaccardo and Nicola Latini.

For Opposition: Vincent N. Trimarco, George Ritzmann and Mary Ritzmann.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

THE RESOLUTION (558-44-A)

WHEREAS, Henry Nordheim, for Nicola Latini, owner, filed September 29, 1944, an appeal from a decision of the borough superintendent, affecting premises: 711 Tilden street, north side, 72 ft. east of Gunhill road (1st and 2nd floors); (Block 4659, Lot 85), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent on Alt. Applic. 364-44, dated December 5, 1944, reads:

"2. Proposed extension of business use in a building partly of frame construction is prohibited by Section 4.2.1 Building Code."

and

WHEREAS, the applicant states that the building is 2 stories (26 ft.) in height, 16.91 ft. by 83 ft. in area; Class 3 and 4 construction; erected in 1905; located in a residence use, C area, Class 1¼ height district; used since 1929 as follows: Cellar—boiler and storage, no persons; 1st floor—funeral parlor and apartment, 10 persons; proposed to be used and occupied: cellar, same; 1st floor, same; 2nd floor, funeral parlor and two bedrooms in conjunction with living rooms on 1st story, 25 persons; that the building is equipped with one interior stairway in center of building, 3 ft. wide of wood construction, enclosed in lath and plaster partitions, equipped with wood doors; that there is a ladder and scuttle to the roof and the stairhall leads directly to the street; and

WHEREAS, the applicant contends that modification of the provisions of the Administrative Building Code is requested to permit the extension of the business use to about two-thirds of the second floor, as indicated on plans filed with Cal. 515-29-BZ; that the business use so established January 14, 1930, pursuant to permission granted by the Board; that the prospective tenant wishes to use two rooms on the 2nd floor as sleeping quarters; and

WHEREAS, the Board deemed that this appeal should be denied in view of the action at this meeting as to Calendar 515-29-BZ.

Resolved, that the decision of the borough superintendent on Alt. Applic. 364-44, objection 2, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

619-44-A

APPLICANT—Adam Fritz & John Zarnitz (d/b/a A. Fritz & Co.), lessees, for Mara Mattera, owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—92 Greene street, east side, 100 ft. north of Spring street (5th floor); (Block 499, Lot 1), Borough of Manhattan.

APPEARANCES—

For Applicant: Adam Fritz.

For Administration: Edwin A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (619-44-A)

WHEREAS, Adam Fritz and John Zarnitz, doing business as A. Fritz and Company lessee, for Mara Mattera, owner, filed October 28, 1944, an appeal from an order of the fire

commissioner, affecting premises 92 Greene street, east side, 100 ft. north of Spring street (5th floor); (Block 499, Lot 1), Borough of Manhattan; and

WHEREAS, Order 39341-LC, issued by the fire commissioner September 28, 1944, reads:

"Before a permit may be issued for the storage and use of lacquer, paint and varnish, the following must be done:

4. Provide a room enclosed by partitions of incombustible material in which to carry on the process of dipping. Rule 4.1.1.

5. Protect floor of the dipping room with a surfacing of one inch grout adequately reinforced or a mixture of portland cement, asphalt and sand similarly reinforced. Rule 4.1.1.

6. Protect ceiling of dipping room by 5/8" unsanded gypsum plaster or 7/8 inch of cement or sanded gypsum plaster on 3.0 pound metal lath or other equivalent fire-resisting ceiling protection. Rule 4.1.1."

and

WHEREAS, the applicant states the building is five stories in height; 25 ft. by 80 ft. in area; of Class 3 construction; erected prior to 1890; located in an unrestricted use, B area, Class 2 height district, and used and occupied since 1930 as follows: cellar, storage,—new and used cartons, 1 person; 1st floor, storage,—new and used cartons, 1 person; 2nd floor, manufacturing metal products, 1 person; 3rd floor, manufacturing lamps, 1 person; 4th floor, manufacturing wood working, 1 person; 5th floor, paint department, 1 person; and

WHEREAS, the applicant contends that the building is equipped with one 4½ ft. wide wood stairs enclosed in wood partitions, equipped with wood self-closing doors, which stairs lead directly to the street; that there is a ladder and scuttle to the roof; that the building is also equipped with two fire escapes, one at the front and one at the rear, extending to the roof by a ladder and to the street by stairs and to the yard by a ladder, with egress from the yard through adjoining buildings north and south; that windows and door openings on the course of the fire escapes are fireproof, but not self-closing; and

WHEREAS, under Cal. 1373-17-S, the building was described as having an interior stairway of the straight-run type, extending from the 1st story to the 5th story, enclosed in wood partitions with wood doors at the openings therein, leading to the street on the 1st story, through a hallway similarly enclosed and having a vertical iron ladder located near the upper termination of the stairway, extending to a scuttle in the roof and having a fire escape on the front, consisting of balconies at every story above the first, connected by 60 degree ladders with counter-balanced stairs from the 2nd story balcony to the street and fireproof windows on the course and having an exterior party wall balcony at the rear at each story above the first, embracing two non-fireproof windows in this and the adjoining northerly building; that the building was equipped with an interior fire alarm system and occupied as a tenant factory, tenants engaged in the manufacture of shirtwaists and clothing and having not more than 25 persons engaged at any one time above the 1st story and the building adjoining to the north under the same ownership; and

WHEREAS, said petition was granted by the Board October 4, 1917, omitting the requirement of extending the interior stairway to the roof, on condition that a goosenecck ladder leading to the roof, be provided from 5th story balcony of the front fire escape on this or the adjoining northerly building, said variation granted only during the period that conditions as set forth remained unchanged; and

WHEREAS, the applicant further contends, that prior to the war, it started to lay out a new paint department but was unable to complete its installation due to War Production Board restrictions; that it appeals for suspension of Items 4, 5 and 6 of the fire commissioner's order for the duration of the war; that it is specified that the material necessary to comply with Items 1, 2, 3 and 8 of the order will be obtained and the work will be completed as soon as possible.

Resolved, that order 39341-LC of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to objections 4 and 5, *on condition* that the area where the dipping is carried on, shall have a concrete floor and coping (curbing), as indicated on plan filed with this appeal marked "Received October 28, 1944"; that all doors leading to stairway and fire escape shall be made self-closing; as to objection 6, that the ceiling for a projected area extending 6 feet beyond the dipping space, shall be protected as required under Rule 4.1.1; that the spray booths shall comply with all requirements therefor; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; and *granted* only so long as the occupancy of the building above the first floor shall not exceed twenty-five (25) persons; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 1373-17-S.

668-44-A

APPLICANT—Sylvania Electric Products Inc., lessee, for Benjamin Von Sholly, Anna Von Sholly and Bertha Von Sholly, owners.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—34-10 Linden place, west side, 450 ft. north of 35th avenue (Block 783, Lot 82), Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Samuel D. Smith, Jr., Bernard F. Brooks and Francis C. Breeden.

For Administration: Edwin A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (668-44-A)

WHEREAS, Sylvania Electric Products Inc., for Benjamin Von Sholly, Anna Von Sholly and Bertha Von Sholly, owners, filed November 22, 1944, an appeal from an order of the fire commissioner, affecting premises 34-10 Linden place, west side, 450 ft. north of 35th avenue (Block 783, Lot 82), Flushing, Borough of Queens; and

WHEREAS, Order 98031-LC, issued by the fire commissioner October 26, 1944, reads:

"You are hereby notified that an inspection of the above premises, used to store and use Hydrogen Gas, etc., shows that the following must be done before the permit requested by you can be issued:

3. Discontinue storage and use of hydrogen gas, as the process of heat treatment of metals in a current of hydrogen gas creates a dangerous condition and is against the interest of public safety. C19-11.0, Admin. Code."

and

WHEREAS, the applicant states the building is one story (20 ft.) in height, 100 ft. by 125 ft. in area; Class 3 construction; erected in 1937; located in an unrestricted use, B area, Class 1 height district; used and occupied since July, 1943, as follows: Cellar, heating system and storage, no persons; 1st floor—engineering research laboratory, 53 persons, for which Certificate of Occupancy 31345 was issued July 27, 1944; and now proposed to be used and occupied as follows: cellar, same; 1st floor, same, 60 persons; that the building is equipped with one 4 ft. wide concrete fireproof enclosed stair from the basement to the first story, equipped with metal-clad, self-closing doors; and

WHEREAS, Certificate of Occupancy 31345 was issued on Alt. Applic. 34-44; and

WHEREAS, an amendment was filed June 14, 1944, with

the borough superintendent, to Alt. Applic. 38-44, requesting that occupancy be increased to 65 men and 25 women; and

WHEREAS, said amendment was approved June 22, 1944, prior to the issuance of Certificate of Occupancy 31345, permitting the use of the first floor for laboratory and offices with an occupancy of 35 persons; and

WHEREAS, the applicant states that the use of hydrogen in this building began in August, 1943; that periodic inspections have been made by inspectors of the Fire Dept. since that time, but it was not until 1944 that the applicant was requested to file an application for a permit, which was filed July 13, 1944; that certificates of fitness were granted by the Fire Department in February 1944, for three of the laboratory technicians who handle hydrogen gas in their work; and

WHEREAS, the applicant contends as to item 3 of order 98031-LC, that the use of hydrogen is necessary in the daily conduct of research problems in the laboratory; that the applicant has installed a hydrogen system conforming to the company's high standard of safety with consideration to those materials available at the present time; that the active hydrogen tanks are attached to an approved type manifold, housed in a separate enclosure at the northeast corner of the building; this enclosure has been placed in the building, as the applicant has access to no adjoining property outside of this building; that said enclosure is of masonry construction, duct-ventilated through the roof, with explosion-proof lighting; all switches are located outside the enclosure, which is entered by means of an approved metal-clad self-closing fire door; that in view of the small number of cylinders kept on hand at any one time, the empty cylinders are stored in the same enclosure; all cylinders, both empty and in use are held in place by a nonferrous metal strap; the cylinders in use are attached to a manifold, supplied on the recommendation of the Air Reduction Sales Corp., Inc.; this manifold is attached to masonry walls and consists of ¼ inch high pressure copper tubing connecting the cylinders through a cylinder type valve to a high pressure ½ inch brass pipe; that from this high pressure pipe, the gas passes through another cylinder type valve to a two-stage manifold, where the pressure is reduced to 10 lbs; that a flash-back arrestor is connected to the regulator through a ⅜ inch copper tubing; that this arrestor consists of a check valve, the escape side of which is ventilated to the outer air by ⅜ inch copper tubing; that the gas passes from the arrestor through another check valve by means of ¾ inch black iron pipe before being distributed to the laboratory; that distribution lines are reduced to half an inch for feeding the individual pieces of equipment in the laboratory; that at each station a reducing valve permits reduction of pressure to approximately 1 lb. for laboratory use; that the men handling the gas have obtained certificates of fitness and that these men or those under their direct supervision are the only ones who handle and operate the hydrogen equipment; that the total number of cylinders on hand at any one time never exceeds six, of which two would normally be connected to the manifold, with a maximum of two full cylinders in reserve and two empty ones in storage; that the consumption of hydrogen approximates one cylinder per week.

Resolved, that order 98031-LC of the fire commisioner be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the number of cylinders on the premises shall at no time exceed six (6); that the method of handling the hydrogen shall be substantially as proposed and installed and maintained to the satisfaction of the fire commissioner; that the hydrogen tanks shall be maintained in a fireproof enclosure, as proposed; that such enclosure shall be as approved by the borough superintendent; that the floor of the storage room shall be insulated to the satisfaction of the fire commissioner; that an explosion vent shall be installed in the roof within the enclosure, not less than 12 sq. ft. in area; that a hydrogen detector unit with a detector alarm shall be installed and maintained in connection with the system, to the satisfaction of the fire commissioner; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that in view of the hazardous occupancy, exits shall be made to comply with the requirements of the borough superintendent; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

MATERIAL SUBMITTED FOR APPROVAL

616-44-SM

APPLICANT—Charles A. Lutz, for Pittsburgh Steel Co., owner.

SUBJECT—Pittsburgh Welded Wire Reinforcement, approval of.

APPEARANCES—
For Applicant: Charles A. Lutz.

ACTION OF BOARD—Material approved in accordance with report of the Committee on Tests.

THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (616-44-SM)

WHEREAS, Charles A. Lutz, for Pittsburgh Steel Co., owner, filed on November 1, 1944, an application with the Board of Standards and Appeals for approval of the material known as Pittsburgh Welded Wire Reinforcement; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committe on Tests reads:

REPORT OF COMMITTEE ON TESTS.

Re: Cal. 616-44-SM
Subject: Pittsburgh Welded Wire Reinforcement, Approval of.

January 4, 1944.

The Pittsburgh Steel Company of Pittsburgh, Pa., filed an application with the Board of Standards and Appeals under the mandatory requirements of C26-178.0,b for the approval of their welded wire reinforcement (FIG. 1) under the Board's powers as prescribed in C26-191.0,a for use as a metal reinforcement in concrete floors and other concrete construction, requiring metal reinforcement and as provided under C26-318.0, C26-319.0, C26-366.0, C26-478.0 and C26-620.0,b and d.

DESCRIPTION

Pittsburgh Reinforcing is essentially an electrically welded wire fabric of square or rectangular mesh furnished in various gauges and spacings of wires (FIG. 1). The material is fabricated by automatic machines which accurately space and securely assemble the wires into fabric form by electrically welding each longitudinal and transverse member at their intersection. The fabric is manufactured from a special high-grade cold drawn steel wire, which may be furnished with either plain or galvanized (zinc coated) finish.

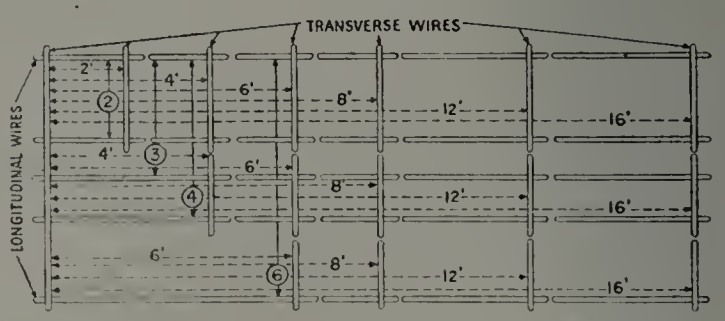

FIG. 1

Pittsburgh Reinforcing is characterized by the longitudinal and transverse members not being connected by any form of wraps, clips or ties. In this product, rigid-

ity of the mesh is obtained by welding by actually fusing together the transverse and longitudinal members at every point of intersection by means of electricity. The result is a rigid connection at every joint, giving a joint of such strength that the force necessary to strip a transverse member apart from the longitudinal to which it is welded actually exceeds, in the majority of cases, the tensile strength of the longitudinal member itself. This is accomplished without any loss in tensile strength of the fabric either longitudinally or transversely — a phenomenon readily accounted for by the fact that the process of electric welding does not merely braze the wires together, but actually fuses the metal of the two intersecting wires into one homogeneous section as shown in FIG. 2.

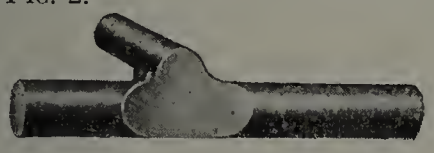

FIG. 2

The basic element of all types of Pittsburgh Reinforcing is a welded steel wire fabric. This welded fabric is manufactured from a special high quality steel wire having an ultimate tensile strength of from 70,000 to 90,000 pounds per square inch. The material is not a high-carbon wire but one which, although possessing high tensile strength, has elastic and ductile properties in excess of the minimums established by the most rigid structural specifications. The fabric consists of a series of parallel longitudinal wires across which are electrically welded a series of transverse wires thus creating either a square or rectangular mesh depending upon the relative spacing of the two groups of wires. Significant characteristics of the material are also shown by the perfect alignment of all wires, the open unobstructed mesh, and the clean-cut rigid connection between wires at every welded joint.

In fabricating the mesh a series of wires, which are to form the longitudinal members in the finished fabric and which may be of practically any gauge, are automatically drawn from supply reels through a machine which accurately spaces and holds them a certain specified distance apart. The progress of the longitudinal wires through the machine is interrupted momentarily at definite intervals while a strand of transverse wire is shuttled across the longitudinals at right angles to their length. At each point where this transverse wire crosses a longitudinal, there is then applied an elcctical welding device. This welding device, acting under a predetermined pressure, applies at each point automatically an electric current which thoroughly fuses the metal of the two wires together, thereby establishing an absolute connection between the transverse and longitudinal wires at every intersection. After a transverse strand has thus been welded into place, the longitudinal wires are then automatically drawn forward a specified distance, a strand of transverse wire is again shuttled into place and securely welded to the longitudinal wires as before. Thus the process continues and the finished material, as it is delivered from the machines, is run off into rolls or sheets of any desired dimensions.

Product control is accomplished by maintaining complete records of each heat of steel from the initial charge used in the open hearth to the finished wire for the manufacture of welded wire mesh, by competent metallurgical observers. Each shipment can be traced back through each department to the open hearth. Prior to manufacturing the wire into mesh, the coils are thoroughly tested and all records of the physical and chemical characteristics are available for each heat of steel. In this manner, any coils which do not conform to ASTM A-82 are rejected and used for other purposes thus insuring that all wire that enters the fabric department to be welded into wire mesh conforms to the required specifications. On all welded mesh the power is controlled by transformers and timers and the welds are periodically tested by inspectors both by bending at the weld and by gauging the depth of the weld.

TESTS.

Tests on samples of Pittsburgh Welded Wire Reinforcement for compliance with the requirements of C26-318.0 wherein such tests are to meet the requirements of ASTM D., A82-34 were made at the Pittsburgh Testing Laboratories, Laboratory #353358, File 458.72, with results as follows:

	Original Area sq. in.	Yield point lbs.	Max. load lbs.	Yield point lb. per sq. in.	Tensile Strength lb. per sq. in.	Reduction of area per cent
#1 Gauge	.0620	4280	4600	69040	74200	61.1
#2 Gauge	.0535	4000	4290	74770	80190	60.0
#3 Gauge	.0456	3320	3500	72820	76760	61.2
#4 Gauge	.0391	3100	3300	79280	84400	53.4
#5 Gauge	.0333	2410	2540	72380	76280	57.1
#6 Gauge	.0284	2180	2270	76770	79940	55.3
#7 Gauge	.0243	1820	1920	74900	79000	55.6
#8 Gauge	.0204	1390	1620	68140	79420	63.2
#9 Gauge	.0167	1040	1290	62880	77240	73.7
#10 Gauge	.0143	980	1110	68540	77620	69.2
#11 Gauge	.0115	855	960	74350	83480	72.2
#12 Gauge	.0084	690	715	82140	85120	66.7

Degree of Bend around a pin equal to diameter of Square / 180° — No sign of cracking on outside of bent portion

Above applies on all gauges listed.

RECOMMENDATIONS.

On the basis of the foregoing data wherein the Pittsburgh Welded Wire Reinforcement meets the requirements of C26-318.0, the Committee on Tests recommends the approval of this concrete reinforcing material under C26-191.0, when manufactured of the properties as described herein and when identified as prescribed in C26-319.0 for uses as follows:

Under C26-366.0 as a metal reinforcement in concrete for allowable working stresses as prescribed therein:

Under C26-478.0 as a shrinkage and temperature reinforcing material when manufactured and used in area per width of foot of slab as is contained therein;

Under C26-620.0,b as a reinforcing mesh when meeting the percentage requirements thereof and with the steel coefficient determined as prescribed in C26-620.0d.

It is further recommended that adequate chairs of metal or other equivalent means be provided so as to keep the reinforcement clear of the bottom of the slab as prescribed in C26-620.0,b. Further that each roll of metal reinforcement carry a tag, label or stamp reading, in addition to the marking as prescribed in C26-319.0, as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 616-44-SM."

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as Pittsburgh Welded Wire Reinforcement, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 12:30 P.M.

JOSEPH J. DOYLE, Chief Clerk.

MINUTES

REGULAR MEETING

TUESDAY AFTERNOON, JANUARY 16, 1945, 2 P. M.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

496-43-A

APPLICANT—Clayton G. Shirkey, for Rosina and Dominick Zafonti, and Guiseppe and Mary Zafonti, owners.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—435 Beach 72nd street, southwest corner of Hessler avenue (Block 523, Lots 22 and 24), Arverne, Borough of Queens. (Under Section 35, General City Law—re bed of mapped street—Barbadoes drive.)

APPEARANCES—

For Applicant: Clayton G. Shirkcy.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (496-43-A)

WHEREAS, Clayton G. Shirkey, for Rosina and Dominick Zafonti and Guiseppe and Mary Zafonti, owners, filed October 21, 1943 an appeal from a decision of the borough superintendent, pursuant to Section 35 of the General City Law relating to the erection and maintenance of buildings in the bed of a mapped street (Barbadoes drive), affecting premises 435 Beach 72nd street, southwest corner of Hessler avenuc (Block 523, Lots 22 and 24), Arvcrne, Borough of Qucens; and

WHEREAS, the decision of the borough superintendent dated July 7, 1944 on Misc. Applic. 4100-39, reads:

"5. Building appears to be in bed of mapped street. Secure permission of Board of Standards and Appeals for these buildings as per Articlc 3, Section 35 of General City Laws."

and

WHEREAS, the applicant states that the buildings in question arc one story (10 ft.) in height, 59 ft. by 20 ft. in area and 18 ft. by 26 ft. in area on a lot 100 ft. by 100 ft. in area, located in a business and unrestricted use, D area district, erected in 1926, of frame construction and used and occupied as follows: five individual garages and storage shed, chicken coop, store and dwelling; and

WHEREAS, Violation 823-43 was issued for occupying frame garages without a Certificate of Occupancy; and

WHEREAS, the applicant states that the premises were zoned for business use throughout, prior to 1939; that Barbadoes drive was placed on the tentativc map on Rockaway Beach on April 27, 1912; that Fire Department permit for non-storage garage for five cars was issued to expire March 17, 1944; that the store and dwelling were erected under N.B. Applic. 162-26, approved January 29, 1926 and work commcnced January 26, 1926; that the garages were erected in 1926, but no record is to be found in the files of the Department of Housing and Buildings; that the buildings wcre in compliance with the Building Code at the time of erection; that there is no record of a permit to cross the sidewalk; that there is no sidewalk or curb at the premises, except at front of the store building; that a permit to cross the sidewalk will be applied for; that the present owner acquired the property in 1922; that Barbadoes drive exists for two blocks between Burchell and Hillmeyer avenues further to the north and along Jamaica Bay; that Barbadoes drive has never been dedicated to public use or legally adopted; that no utilities are installed in or on Barbadoes drive; that there arc other buildings in the bed of Barbadoes drive as mapped, one on the premises to thc south of the premiscs in question and others to the north and west; and

WHEREAS, the applicant contends that Barbadoes drive has nevcr been taken over by the City and there is no immediate prospect that it will be taken over by the City; that there is an existing two family dwelling on the premises, which was permitted to be crected after the street was shown on the zoning map; that the buildings in question are existing buildings on which the owner has paid taxes for many years; that they are an accessory use to the dwelling where the owners live and to the business in which the owner is engaged, namely, that of trucking and gardening and caring for lawns; that it would be a hardship to be deprived of the use of the buildings in question, as such loss of use would impair the owners' means of livelihood; and

WHEREAS, the Board is in receipt of a communication dated August 24, 1944 from Department of City Planning of the City Planning Commission, stating that this section of Barbadoes drive has not been incorporated on the city map, although it is shown on a tentativc map approved by the Board of Estimte and Apportionment June 27, 1912 and that, however, the adjoining portion of Barbadoes drive has becn laid out on the final map, Section 215, and the presumption is clear that this mapped section of the street will be extended eventually to a connection with the established street system southerly of Hessler avenue; and

WHEREAS, due notice of public hearing on this appeal was had by publication in the Bulletin of the Board of Standards and Appeals in accordance with the requirements of Section 35 of the General City Law; and

WHEREAS, the residential building is not included in this appeal, even though located partly in the bed of the proposed strect and the Board is not reviewing the permit which the applicant states was issued by the Department of Buildings prior to the adoption of Section 35 of the General City Law.

Resolved, that the decision of the borough superintendent on Misc. Applic. 4100-39, objection 5, be and it hereby is *modified* and that the appeal be and it hereby is *granted* under thc powcrs vested in the Board under Section 35 of the General City Law, *on condition* that upon condemnation for street purposes of the buildings involved in this appeal, namely, the five car garage and the building described as storage shed, the owner shall be reimbursed for such buildings in an amount which the court may find as the true value at thc time of erection in 1926, less amortization at thc rate of 4% per annum for each year since 1926; that the garage building shall not be occupied for more than five (5) motor vehicles; that in all other respects, the buildings and occupancy shall comply with all laws, rules and regulations applicable thereto as required under the building code provisions in effect in 1926.

626-44-A

APPLICANT—Seelig and Finkelstein, for Joseph Rinaldi, owner (United Uniform Co., lessee).

SUBJECT—Appeal from a dccision of thc borough superintendent.

PREMISES AFFECTED—1582 86th street (1578 displayed), southwest cornor of 16th avenuc (1st floor); (Block 6363, Lot 46), Borough of Brooklyn.

APPEARANCES—

For Applicant: Irving Scelig.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (626-44-A)

WHEREAS, Seelig and Finkelstein, for Joseph Rinaldi,

owner (United Uniform Company, lessee), filed November 2, 1944, an appeal from a decision of the borough superintendent, affecting premises 1578 (displayed) 1582 (official) 86th street, southwest corner 16th avenue (1st floor); (Block 6362, Lot 46), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent dated October 31, 1944, on amendment to Alt. Applic. 244-44, reads:

"1. Fixed window guards contrary to Sec. 273-3 of the Labor Law."

and

WHEREAS, the applicant states that the building is 2 stories (25 ft.) in height, 40 ft. by 85 ft. in area, of class 3 construction, erected in 1922, located in a business use, C area, class 1 height district, used and occupied since 1922 as follows: cellar—boiler room, show room and clothing shop —5 persons; 1st floor—show room and clothing shop—65 persons; proposed to be used and occupied upon completion of alteration as follows: cellar—boiler, storage and manufacturing clothing—5 persons; 1st floor—office, storage and manufacturing clothing—65 persons; 2nd floor—manufacturing uniforms and storage—40 persons; that the building will be equipped with two interior stairs, one on each street front from the 2nd story to the street, of steel and concrete construction with 8 inch brick enclosures, equipped with fireproof self-closing doors and a ladder and scuttle to the roof will be provided; and

WHEREAS, the applicant contends that there are 16 windows affected on the 1st floor; that the building was erected as a one story building in 1922, for showroom and clothing shop and has been so occupied by the present lessee since its erection and the bars on the first story windows were installed during the original building construction; that in January 1944, the first story space became inadequate to take care of the war contracts and it became necessary to erect a 2nd story, which work has been completed, but upon application for a certificate of occupancy, an objection was raised as to the existing window guards on the first floor; that there are two interior fireproof stairways, remote from each other; that a scuttle and ladder is provided from each stair to the roof; that the exit doors on the 1st floor lead directly to the street; that all ceilings are surfaced with metal and the boiler room is separated from the factory portion by 4 in. terra cotta partitions with a fireproof, self-closing door and has a separate and direct exit to the street; that since the window guards on the first story are essential to protection against robbery, so prevalent in factories handling the type of merchandise used in this factory and that the window guards had previously been installed and have been in existence for a period of about 22 years and the occupancy has not changed and since the exits as provided are easily accessible and no point in the floor area is more than 40 ft. distant from an exit, it is submitted that the Board should reverse the decision of the borough superintendent and grant the appeal; and

WHEREAS, the applicant states that not more than 100% of the area of the lot is to be used for manufacturing.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on amendment to Alt. Applic. 244-44, objection 1, and that the appeal be and it hereby is *granted on condition* that no additional windows shall be barred; that one of the sixteen windows in question, namely, the one in the manufacturing space adjacent to the office wall in the facing on 16th avenue, shall be made to hinge outwardly and made readily openable so as to be available for emergency exit at all times while factory operations are in progress; that the existing exits shall be maintained openable at all times, in accordance with the requirements; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

724-44-A

APPLICANT—H. E. McCormack, for John Lowry, Inc., (Field Publications, owner).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—164-166 Duane street and 21 Hudson street, southwest corner (cellar); (Block 141, Lot 32), Borough of Manhattan.

APPEARANCES—

For Applicant: William J. Heiser, R. Carpenter and H. E. McCormack.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (724-44-A)

WHEREAS, H. E. McCormack, for John Lowry, Incorporated, for Field Publications, owner, filed December 11, 1944, an appeal from a decision of the borough superintendent, affecting 164-166 Duane street and 21 Hudson street, southwest corner (cellar); (Block 141, Lot 32), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated January 8, 1945 on P & D. Alt. Applic. 945-43, reads:

"1. Sewage ejector is not of the approved type.

2. Vent piping to ejector foot is contrary to Section C26-1316.0 of the Administrative Code."

and

WHEREAS, the applicant states that the building is 12 stories (150 ft.) in height; 44 ft. 7 in. by 123 ft. 8 in. by 98 ft. 7½ in. in area; of Class 1 construction; erected about 1900, located in an unrestricted use, A area, Class 2 height district and used and occupied since March, 1944, as follows: Cellar, storage and boiler room, 10 persons; 1st floor, press, stereotype and mailing, 65 persons; 2nd floor, composing room and offices, 60 persons; 3rd floor, offices, 55 persons; 4th floor, factory and offices, 45 persons; 5th floor, factory, 70 persons; 6th to 11th floors, factory, 50 persons each; 12th floor, factory, 75 persons; that no change in use or occupancy is proposed; that the building is equipped with a one source sprinkler system, a standpipe and interior fire alarm system; that fire drills are not maintained; that the building is provided with three (3) ft. wide steel and concrete stairs, enclosed in hollow tile and brick partitions, equipped with fireproof self-closing doors; that one of these stairs leads to the roof and two lead to the street; and

WHEREAS, Violation No. 8879-44, issued November 30, 1944, was for installing ejector in cellar without complying with the Plumbing Code on relief piping; and

WHEREAS, the applicant contends that the Board is requested to grant an exception to the ruling of the borough superintendent relative to the 100 gallon per minute Nash-Sewage Ejector installed on these premises, so as to permit the issuance of a certificate of occupancy; that Nash Sewer Ejectors have been installed in over 200 buildings in New York City, some of them have been in use for upwards of 20 years and have adequately met the intent of Section C26-1316.0 of the Administrative Code; that the objections of the borough superintendent in this case are as to the size of the connections and venting mechanism; that these connections are adequate and have ample size for the air volume and pressure required for this small sized ejector; and

WHEREAS, the Jennings Sewage Ejector, as manufactured by the Nash Engineering Company, is now before the Board for test and approval under Cal. 151-44-SA; and

WHEREAS, the Jennings Sewage Ejector installed is classified by the manufacturer as 100 gallons per minute for an 18 ft. discharge head.

Resolved, that the decision of the borough superintendent acting on P. & D. Alt. Applic. 945-43, objections 1 and 2, be and it hereby is *modified* and that the appeal be and it

hereby is *granted on condition* that the appliance shall have valves, piping and connections, which are furnished as an integral part of the same, of sufficient size to relieve the ejector pot to atmospheric pressure in not more than ten (10) seconds; that the minimum size of such relief connection shall be not less than 1¼ inch in diameter; that from the device, an independent vent line of not less than 3 inches in diameter, shall be connected thereto and carried independently to the roof, terminating in the same manner as required for vent pipes under Section C26-1307.0.

743-44-A

APPLICANT—Saul Goldsmith, for Joansa Corporation, owner (Great Metal Mfg. Corporation, lessee).
SUBJECT—Appeal from decisions of the borough superintendent.
PREMISES AFFECTED—1-11 Wyckoff avenue and 418-424 Jefferson street, southeast corner (Block. 3177, Lots 4, 7 and 8), Borough of Brooklyn.
APPEARANCES—
For Applicant: Saul Goldsmith and Herman Katz.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (743-44-A)

WHEREAS, Saul Goldsmith for Joansa Corporation, owner (Great Metal Manufacturing Corporation, lessee), filed December 21, 1944, an appeal from decisions of the borough superintendent, affecting revocation of approval of plans for premises 1-11 Wyckoff avenue, and 418-424 Jefferson street, southeast corner (Block 3177, Lots 4, 7 and 8), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated December 14, 1944, reads:

"Alt. No. 3042-44
P. & D. No. 2278-44

Please take notice that I have this day revoked the approval of the above numbered application for the reason that the work proposed does not comply with the requirements of the Building Zone Resolutions as modified by amendments effective December 2, 1944."

and

WHEREAS, the decision of the borough superintendent, dated December 26, 1944, reads:

"This will acknowledge receipt of your letter of December 22nd in which you request reconsideration of my action in revoking the above applications.

We have carefully reviewed the records in this case and find that on the basis of these records and the law, I must adhere to my original decision and let the revocation stand."

and

WHEREAS, the decision of the borough superintendent, dated January 8, 1945, reads:

"This will acknowledge receipt of your letter of January 5th in which you ask reconsideration of my denial of December 28th in answer to your letter of December 22nd. This is in reference to the revocation of the above numbered application.

I can only repeat my previous letter and inform you that I must adhere to the original decision and let the revocation stand."

and

WHEREAS, the applicant states that the existing building is 65 ft. by 80 ft. in area, 4 stories (52 ft.) in height, of class 3 construction, erected in 1922, located in an unrestricted use, C area class 1 height district and used and occupied throughout as a factory, 100 persons per floor and proposed to be used and occupied throughout for manufacturing, 100 persons each floor; that the building to be used for manufacturing metal radio parts and other metal parts, except that portions of the 2nd and 3rd floors will be used for manufacturing of clothing; that the building is equipped with a one source sprinkler system, two 3 ft. 8 in. wide fireproof stairs from the roof to the street; and

WHEREAS, Alt. 3042-44 filed with the borough superintendent indicates that the building will be 115 ft. by 90 ft. 5 in. by 115 ft. in area, 4 stories (52 ft.) in height, upon completion of the alterations; and

WHEREAS, the applicant contends that the existing building is of class 3 construction, 4 stories in height, 65 ft. by 80 ft. in area; that it is proposed to erect a four story addition 50 ft. by 90 ft. of class 3 construction, to be equipped throughout with a sprinkler system; that the building is located in an unrestricted use, C area class 1 height district; that plans were filed October 13, 1944 and approved by the borough superintendent November 8, 1944, after approval by the Board of Transportation on November 7, 1944; that these plans were filed with the WPB October 4, 1944 and after revision were approved in part on November 29, 1944; that plans and specifications were let out for contract figures and by December 1, 1944, the applicant was ready to award the contract; that concurrent with the actions above set forth, the Zoning Law was amended and the owner hesitated to proceed in order to avoid any legal entanglements; that the Zoning Law was amended effective December 2, 1944 and solely based on these amendments, the borough superintendent revoked the approval on December 14, 1944; that this appeal is based on the question of the right of the borough superintendent to revoke the approval under the Building Code and other laws; that the lessee is engaged in war work and has made substantial progress, in order to proceed with the addition to the building; that it was never intended to misrepresent in any way, the lessee's desire to commence construction immediately; that the approval of the borough superintendent was not secured for Zoning Law evasion; that the needs are critical for increased floor space and it is therefore submitted that the Board should permit the construction to proceed; that the only action necessary to make the approval a permit, is the filing of the certificate of workmen's compensation; that the permit was not secured since evidence of workmen's compensation had not been filed; that under section C26-180.0 of the Building Code it speaks of "permit or approval."

WHEREAS, the Board deemed that the owner has exercised due diligence in obtaining approval of plans, approval of the War Production Board and other authorities and should be permitted to proceed with the work under a permit as if such a permit had been issued prior to the effective date of the amendments to the Zoning resolution—namely December 2, 1944.

Resolved, that the decision of the borough superintendent dated January 8, 1945 relating to Alt. Applic. 3042-44 and P. & D. Applic. 2278-44 be and it hereby is *reversed* and that the appeal be and it hereby is *granted,* restoring the approval of plans and directing the issuance of a permit upon the filing of a proper application as required by section C26-161.0 and submission of policy covering workmen's compensation insurance applicable to the work involved.

1229-24-A

APPLICANT—Henry J. Nurick, for Elinore Gellert, owner.
SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the superintendent of buildings (previously granted on condition).
PREMISES AFFECTED—923-931 Franklin avenue and 68-74 Crown street, southeast corner (Block 1294, Lot 8), Borough of Brooklyn.
APPEARANCES—
For Applicant: Henry J. Nurick.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

MINUTES

ACTION OF Board—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (1229-24-A)

WHEREAS, this appeal from a decision of the superintendent of buildings, affecting premises 923-931 Franklin avenue and 68-74 Crown street, southeast corner (Block 1294, Lot 8), Borough of Brooklyn, was granted by the Board on November 25, 1924, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted under Cal. 1229-24-A, on November 25, 1924, by adding thereto:

"* * * that in the event the present owner desires to occupy the building for light manufacturing, such use may be permitted in this building and the adjoining garage, which was permitted to be connected thereto under Cal. 291-24-BZ by resolution adopted on June 24, 1924, *on condition* that the building shall not be increased in height or area; that any gasoline service equipment shall be temporarily sealed to the satisfaction of the fire commissioner; that this use shall not extend beyond the term of the existing emergency and for not more than six months thereafter, and to permit the resumption of the garage occupancy upon the termination of the factory use as therein permitted."

138-44-A

APPLICANT—B. M. Sylvan, Robert J. Kilpatrick and Junius J. Pittman, owners (Rose Feller, lessee).

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—107-109 East Burnside avenue, north side, 60.3 ft. east of Morris avenue (Block 3169, Lots 66 and 67), Borough of The Bronx.

APPEARANCES—

For Applicant: Benjamin M. Sylvan and Rose Feller.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

THE RESOLUTION (138-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 107-109 East Burnside avenue, north side, 60.3 ft. east of Morris avenue (Block 3169, Lots 66 and 67) Borough of The Bronx, was granted by the Board on May 31, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of May 31, 1944, so that as amended, the resolution shall read:

"*Granted on condition* that the buildings shall not be increased in height or area; that the floors shall be reinforced and approved for a live load on each of the 2nd and 3rd floors of not less than 100 lbs. per superficial foot for the public occupancy portions as shown, to the satisfaction of the borough superintendent; that the existing primary means of exit may be continued as shown on revised plans marked 'Received May 25, 1944', provided the existing rear fire escapes are removed and a steel stairway constructed as indicated on such plans with a means of exit provided through the court and fire passage of the adjoining building at 2055 Creston avenue and leading directly to Creston avenue; that such passageway shall be open and unimpeded at all times; that all doors leading to such fire escape shall be at the floor level with outwardly opening doors not less than the width of the stair and all openings on the course of the fire escape, shall be fireproof and self-closing and glass used therein shall be wire glass; that the existing light shaft along the westerly lot line shall be closed off with approved masonry as shown and floored over as proposed and maintained as a passage between the front and the rear; that the kitchen space shall be protected by sprinklers which may be attached to the domestic water supply; that such portable fire fighting appliances shall be maintained on the premises as the fire commissioner shall direct; that the total occupancy of the second and third floors shall not exceed 125 persons each; that this variance shall continue only so long as an exit is provided through the building at 2055 Creston avenue or some other means of exit equal thereto is provided, not however, including an exit through the cellar of the building under appeal; that dancing may be permitted in the restaurant in the easterly space on the second floor in addition to restaurant on the 3rd floor, provided the floor is approved by the borough superintendent for a floor load of not less than 100 lbs. per sq. ft.; that the space on the second floor to the west designated as 'office' on the plans filed with the Board marked 'Received May 25, 1944' shall be occupied for office only and not for a restaurant or for dancing or a meeting room."

432-44-A

APPLICANT—Benjamin M. Sylvan, for 1174 Bedford Avenue, Incorporated, owner (Henry Voijlo, lessee).

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent.

ZONING CASES

291-24-BZ

APPLICANT—Henry J. Nurick, for Elinore Gellert, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the superintendent of buildings) previously granted on condition, permitting in a business use district, the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—923-931 Franklin avenue and 66-74 Crown street, southeast corner (Block 1294, Lot 8), Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry J. Nurick.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (291-24-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting in a business use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises 923-931 Franklin avenue and 66-74 Crown street, southeast corner (Block 1294, Lot 8), Borough of Brooklyn, was granted by the Board on June 24, 1924, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, relative to the change of occupancy from public garage to light manufacturing for a temporary period of time; and

WHEREAS, said request for amendment of the resolution is based on a denial of the borough superintendent, on Alt. Applic. 3817-44, dated January 5, 1945.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted under Cal. 291-24-BZ on June 24, 1924, by adding thereto:

"* * * that in the event the present owner desires to occupy the building for light manufacturing, such use may be permitted in this building and the adjoining garage, which was permitted to be connected thereto under Cal. 1229-24-A by resolution adopted on November 25, 1924, *on condition* that the building shall not be increased in height or area; that any gasoline service equipment shall be temporarily sealed to the satisfaction of the fire commissioner; that this use shall not extend beyond the term of the existing emergency and for not more than six months thereafter, and to permit the resumption of the garage occupancy upon the termination of the factory use as permitted under Cal. 291-24-BZ and Cal. 1229-24-A."

480-25-BZ

APPLICANT—S. J. Kessler & Sons, for The 188 West 230th Street Corporation, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting partly in an unrestricted use district and partly in a business use district, the inclusion of a motor vehicle repair shop in a garage, which was previously granted by the Board.

PREMISES AFFECTED—South side of West 230th street, 110.62 ft. east of Exterior street (Block 3264, Lots 104 and 106), Borough of The Bronx.

APPEARANCES—
For Applicant: Samuel J. Kessler.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (480-25-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting partly in a business use district and partly in an unrestricted use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises: south side of West 230th street, 110.62 ft. east of Exterior street (Block 3264, Lots 104 and 106), Borough of The Bronx, was granted by the Board on July 21, 1925, on certain conditions; and

WHEREAS, on November 15, 1938, the resolution was amended to include a minor motor vehicle repair shop; and

WHEREAS, the applicant requested a further amendment of the resolution, to permit the temporary use of these premises for the storage and distribution of merchandise.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted July 21, 1925, as amended by resolution adopted November 15, 1938, by adding thereto:

"* * * that in the event the owner desires to discontinue temporarily the occupancy of the building as a garage and a motor vehicle repair shop and to occupy the building for the storage of merchandise and as a distribution center for the U. S. Government in connection with the adjoining building under the same ownership, variance for which was granted by the Board under Cal. 799-27-BZ, such temporary use may be permitted for the term of the present war emergency and for not over six months thereafter, provided the building is not increased in height or area and no structural alterations are made herein, and the resumption of the garage and repair shop use upon the termination of such temporary occupancy may be permitted; that any opening in the wall separating the two garage buildings shall comply with the requirements of the Building Code therefor and that other than as herein *amended,* the conditions of the resolutions of July 21, 1925 and November 15, 1938, shall be complied with."

799-27-BZ

APPLICANT—S. J. Kessler & Sons, for The 188 West 230th Street Corp., owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the superintendent of buildings) previously granted on condition under section 7c of the zoning resolution, permitting in a business district, extending from an unrestricted district, the alteration and extension of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—East side of Exterior street, 133.62 ft. south of West 230th street (Block 3264, Lot 106), Borough of The Bronx.

APPEARANCES—
For Applicant: Samuel J. Kessler.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (799-27-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a business use district, extending from an unrestricted use district, the alteration and extension of a garage for the storage of more than five motor vehicles, affecting premises: east side of Exterior street, 133.62 ft. south of West 230th street (Block 3264, Lot 106), Borough of The Bronx, was granted by the Board on November 15, 1927, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, to permit the temporary use of these premises for the storage and distribution of merchandise.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted November 15, 1927, by adding thereto:

"* * * that in the event the owner desires to discontinue temporarily the occupancy of this building as a garage and to occupy the building for the storage of merchandise and as a distribution center for the U. S. Government in connection with the adjoining building

under the same ownership, variance for which was granted by the Board under Cal. 480-25-BZ, such temporary use may be permitted for the term of the present war emergency and for not over six months thereafter, provided the building is not increased in height or area, and no structural alterations are made therein; and that any opening in the wall, separating these two garage buildings, shall comply with the requirements of the Building Code therefor; that the resumption of the garage use may be permitted upon the termination of such temporary occupancy and that other than as herein *amended,* the conditions of the resolution of November 15, 1927, shall be complied with."

489-37-BZ

APPLICANT—Anna M. O'Connor, for Philip Ferry and Rose A. Ferry, owners.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition under section 7h of the zoning resolution, permitting partly in a business use and partly in a residence use district, for a temporary term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—38-15 Union street, east side, 190 ft. north of Roosevelt avenue (Block 5020, Lot 3), Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Anna M. O'Connor.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (489-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a business use and partly in a residence use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 38-15 Union street, east side, 190 ft. north of Roosevelt avenue (Block 5020, Lot 3), Flushing, Borough of Queens, was granted by the Board on February 7, 1939, on certain conditions; and

WHEREAS, the permit was extended on January 28, 1941 and on January 26, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted February 7, 1939, as amended by resolutions adopted through January 26, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"* * * *granted* under section 7h, thereof, to permit the building to be occupied for the parking and storage of more than five (5) motor vehicles for a temporary term of two years from the date of this *amended* resolution, *on condition* that only automobiles of the pleasure-car type shall be so stored or parked; that the plot shall be leveled substantially to the grade of Union street and shall be surfaced with steam cinders, clean gravel or other suitable material, properly rolled, bounded and levelled; that on the interior lot lines where walls of existing buildings do not occur, there shall be erected a substantial woven wire fence; that a similar fence shall be erected at the front on Union street, except for an entrance not exceeding 15 ft. in width; with curb cut opposite not exceeding 15 ft. in width; that adequate aisles shall be maintained at all times for easy entrance and agress; that during the term of this variance, the premises shall be used for no other use than the parking and storage herein permitted; that no building shall be erected on the premises, except there may be erected a frame building, not 150 square feet in area and one story in height, for office and shelter for attendant; that such portable fire fighting appliances shall be installed as the fire commissioner may direct; that no signs shall be erected on the premises except one, attached to the fence, not over 10 sq. ft. in area, advertising the parking and storage use; that all permits required shall be obtained and all work completed within three months from the date of this *amended* resolution, and that a new certificate of occupancy shall be obtained (Corr. No. 3308-38)."

50-42-BZ

APPLICANT—Harry Barkoff, lessee, for Helen Mahoney, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re (decision of the acting borough superintendent) previously granted on condition, under section 21 of the zoning resolution, permitting in a business use district, the conversion of occupancy of an existing building to a motor vehicle repair shop and paint shop.

489-44-A

APPLICANT—Sidney L. Strauss, for Alfred Ambrogi, owner. (Clarostat Manufacturing Co., Inc., lessee).

SUBJECT—Appeal from orders and decisions of the fire commissioner.

PREMISES AFFECTED—538-544 Morgan avenue, southeast corner of Anthony street (Block 2818, Lot 5), Borough of Brooklyn.

APPEARANCES—

For Applicant: Reuben W. Steinberg.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (489-44-A)

WHEREAS, Sidney L. Strauss for Alfred Ambrogi, owner, (Clarostat Manufacturing Company, Incorporated, lessee), filed August 16, 1944, an appeal from orders and decisions of the fire commissioner, affecting premises 538-544 Morgan avenue, southeast corner Anthony street (Block 2818, Lot 5), Borough of Brooklyn; and

WHEREAS, Order 10828-LF, issued by the fire commissioner June 29, 1943, reads:

"1. Arrange all doors on 1st story so that same can be opened from both sides. Section 272 of the Labor Law."

and

WHEREAS, the decision of the fire commissioner dated August 14, 1944, reads:

"Your letter of August 4th requesting that Order No. 10828-LF be reissued has been received. Your request is denied for the reason that it is not the policy of this Department to reissue violation notices."

and

WHEREAS, Order 11016-LF, issued by the fire commissioner August 11, 1943, reads:

"1. Remove locks from wire screens on all windows during working hours. Section 272 of the Labor Law."

and

WHEREAS, the decision of the fire commissioner dated December 15, 1943, reads:

"In response to your letter of December 12, wherein you request reissuance of above mention order, you are hereby advised that under the rules of the Department, the order may not be reissued or redated."

and

WHEREAS, the applicant states the building is one story, (18 ft.) in height; 100 ft. by 200 ft. in area; of Class 3 construction; erected 1924; located in a manufacturing use, C area district, and used and occupied since 1942 for the manufacturing of airplane parts, 600 persons; that the building is equipped with a one source sprinkler system and a standpipe system, which are maintained; and

WHEREAS, the applicant contends that the ceiling of the entire area is covered with Bell board; that the building faces on two streets and ample exits are provided; that in view of the present emergency, it is requested a variation be granted, to permit the panic bolts and screens to remain; that the panic bolts were installed on three exit doors leading to Anthony street, on the recommendation of the Second Service Command, U. S. Army; that the windows on the 1st floor are protected with wire screens in accordance with the recommendation of the U. S. Army; that the windows are all steel factory type sash with sills approximately 4 ft. above the floor; that the locks referred to can be broken easily should it become necessary; it is therefore requested that conditions be permitted to remain for the duration of the present emergency.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in order 10828-LF of the fire commissioner and that the appeal be and it hereby is *granted* as to objection 1, *on condition* that no panic bolts shall be installed, except on three doors leading to Anthony street and one door leading to Morgan avenue, as indicated on plans filed with this appeal, marked "Received August 16, 1944"; that all other exits shall comply with the requirements and be available for exit at all times during working hours; that such panic bolts as are installed shall be of an approved type; and *granted* as to order 11016-LF of the fire commissioner, objection 1, *on condition* that exits as indicated shall be maintained as hereinbefore provided; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the sprinkler and standpipe systems shall be maintained to the satisfaction of the fire commissioner.

THE RESOLUTION (665-44-A)

WHEREAS, Ranger Aircraft Engines, Division of Fairchild Engine and Airplane Corporation, lessee for Defense Plant Corporation, owner, filed November 22, 1944, an appeal from a decision of the borough superintendent, affecting premises 184-10 Jamaica avenue, south side, 411 ft. east of 183rd street (Building No. 1); (Block 10352, Lots 70 and 71), Jamaica, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated November 13, 1944, on Alt. Applic. 548-44, reads:

"1. Conditions relative to the resolution of the Board of Standards and Appeals granting the use of frame partitions, are changed. The occupancies and manufacturing areas are larger than those acknowledged under Cal. 24-43-S."

and

WHEREAS, the applicant states the building is 5 stories and pent house (64 ft.) in height; 120 ft. by 247 ft. in area, of Class 1 construction; erected 1923; located in an unrestricted use C area and Class 1 height district, and used since 1942 as follows: cellar, storage, 35 persons; 1st to 5th floors, inclusive, manufacturing airplane parts, 220 persons each floor; north pent house, storage, 50 persons; south pent house, storage, 50 persons; that no change in use or occupancy is proposed; that the building is equipped with a two source sprinkler system, a standpipe system, interior fire alarm system and fire drills are maintained; that building is equipped with three 3 ft. 8 in. fireproof stairs from the roof to grade and horizontal exits on 1st, 2nd and 3rd floors; and

WHEREAS, Certificate of Occupancy No. 29654, issued August 18, 1943 permits the present use and occupancy; and

WHEREAS, the applicant contends that partitions were installed in accordance with the prior resolution of the Board, which permitted board partitions in the manufacturing areas; that the manufacturing processes were changed and the factory areas increased and it became necessary to move many of the partitions, formerly installed, to new locations; that the wood partitions previously installed on the storage floor, when such installation was permissible, are not now permissible, as these floors were converted to factory use and the wood partitions rearranged for the factory use; that the partitions are constructed as follows: 4 ft. plywood base with wire mesh over to a total height of 7 ft.; 4 ft.; plywood base with glass panels over to a total height of 7 ft.; plywood partitions to ceiling with glass panels; that in view of the fireproof construction of the building, the standpipe, sprinkler and fire alarm equipment, it is requested a variation be granted to accept this temporary emergency construction of partitions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on Alt. Applic. 548-44, Objection 1, and that the application be

MINUTES

and it hereby is *granted on condition* that the partitions as proposed, shall be continued only during the term of the present emergency and for not over one (1) year thereafter; that no additional combustible partitions shall be installed; that the sprinkler, standpipe and interior fire alarm systems and fire drills shall be maintained to the satisfaction of the fire commissioner; that a Certificate of Occupancy shall be obtained, to cover the present use and to record the full number of persons per floor, based on the exits and allowance for sprinkler system and fire alarm system and fire drill, if maintained; that such portable fire extinguishing equipment shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. Nos. 356-42-A and 24-43-S.

---

* Correction—Alt. Applic. 549-44, changed to Alt. Applic. 548-44 and the words "to replace Certificate of Occupancy Q20270" omitted in line 60 of the resolution.

THE RESOLUTION (666-44-A)

WHEREAS, Ranger Aircraft Engines, Division of Fairchild Engine and Airplane Corporation, lessee for Defense Plant Corporation, owner, filed November 22, 1944, an appeal from a decision of the borough superintendent, affecting premises 184-10 Jamaica avenue, south side, 411 ft. east of 183rd street (Building No. 2), (Block 10352, Lots 70 and 71), Jamaica, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated May 27, 1944, reconsideration denied October 27, 1944, on Alt. 549-44, reads:

"1. The installation of combustible partitions adjacent to factory areas, in a required fireproof factory building, is contrary to Sec. 270, Subdivision 6, of the Labor Law."

and

WHEREAS, the applicant states the building is three stories (48 ft.) in height; 120 ft. by 247 ft. in area; of Class 1 construction; erected 1921; located in an unrestricted use, C area, and Class 1 height district, and used and occupied since 1942 as follows: cellar, storage; 1st floor, inspection and storage, 150 persons; 2nd floor, cafeteria, 746 persons and offices 42 persons; 3rd floor, office and manufacturing airplane parts, 275 persons, and proposed to be used and occupied: cellar, manufacturing airplane parts, 30 persons; 1st floor, manufacturing airplane parts, 150 persons, 2nd floor, cafeteria, 746 persons, and offices 42 persons; third floor, offices, 275 persons; that the building is equipped with three 3 ft. 8 in. wide fireproof stairs leading to the roof, one of which leads to the street and two to courts facing street; 2 source sprinkler system, standpipe system, interior fire alarm system and that fire drills are maintained; and

WHEREAS, the applicant contends that partitions were installed in accordance with the prior resolution of the Board, which permitted board partitions in the manufacturing areas; that the manufacturing processes were changed and the factory areas increased and it became necessary to move many of the partitions, formerly installed, to new locations; that the wood partitions previously installed on the storage floor, when such installation was permissible, are not now permissible, as these floors were converted to factory use and the wood partitions rearranged for the factory use; that the partitions are constructed as follows: 4 ft. plywood base with wire mesh over to a total height of 7 ft.; 4 ft.; plywood base with glass panels over to a total height of 7 ft.; plywood partitions to ceiling with glass panels; that in view of the fireproof construction of the building, the standpipe, sprinkler and fire alarm equipment, it is requested a variation be granted to accept this temporary emergency construction of partitions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on Alt. Applic. 549-44, Objection 1, and that the application be and it hereby is *granted on condition* that the partitions as proposed, shall be continued only during the term of the present emergency and for not over one (1) year thereafter; that no additional combustible partitions shall be installed; that the sprinkler, standpipe and interior fire alarm systems and fire drills shall be maintained to the satisfaction of the fire commissioner; that a Certificate of Occupancy shall be obtained to cover the present use and to record the full number of persons per floor based on the exits and allowance for sprinkler system and fire alarm system and fire drill, if maintained; that such portable fire extinguishing equipment shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. No. 573-43-S.

---

* Correction—Alt. Applic. 548-44, changed to Alt. Applic. 549-44 and the words "to replace Certificate of Occupancy Q-20270" omitted in line 62 of the resolution.

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.
Special meetings as published in this Bulletin.
All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

COURT DECISION.

In the Matter of Alurion Realty Corp. v. Murdock, et. al.— The premises are located at 245-259 West 41st Street and 260 West 42nd Street, Borough of Manhattan. The 41st Street portion of the premises, with 150 ft. frontage, is occupied as an open bus station, operated by the Public Service Interstate Transportation Co., as lessee. The portion of the premises on 42nd Street provides a waiting room and ticket office in connection therewith.

In 1936, an application was filed by the owners for a zoning variance, to permit the 41st Street portion of the premises to be occupied for the parking of more than five motor vehicles. Prior thereto, the premises had been unlawfully occupied for the same use and had been subject to court action. The variance granted by the Board on October 23, 1936 was for two years and was extended on October 11, 1938 for an additional term of two years, which expired by limitation on October 11, 1940. Thereafter, on February 18, 1941, an application for a further extension was made, which the Board accepted, subject to the usual procedure, in view of the amendment to the Zoning Resolution of June 28, 1940, making a bus station a prohibited use in a business district.

The bus station use had been permitted by the Department of Housing and Buildings as an interpretation of the Board's resolution of October 23, 1936, which use was confirmed by the Board by amended resolution of October 11, 1938. On October 20, 1942, the Board adopted a resolution, permitting the premises to be occupied as a bus station. At the time of this action, the records of the Department of Housing and Buildings had not been forwarded to the Board as required by Section 668, paragraph b, of the New York Charter. When such records were later received, it was found that the determination of the Borough Superintendent, on which the Board acted, was based on an application for a Certificate of Occupancy, which incorrectly described the premises as actually occupied for the parking of buses and for a waiting room, office, sale of tickets and accessory thereto. The Board thereupon deemed that the resolution adopted by the Board on October 20, 1942, should be rescinded to permit consideration after a proper application is filed with the Borough Superintendent, correctly describing the premises and use desired. The resolution was accordingly rescinded on December 8, 1942.

Upon court review, Mr. Justice Valente, at Supreme Court, Special Term, found as follows:

> "Motion to dismiss the writ of certiorari is granted and the determination of the Board of Standards and Appeals affirmed. The question under review is the right of the Board to reopen and rehear an application for a variance of the Building Zone Resolution which had once been granted. Unquestionably, the Board did not have before it a complete set of papers so as to properly pass upon and decide the application. When the Board discovered this the matter was reopened and set down for rehearing. It seems well settled that a Board that has jurisdiction over a cause or matter has the right to reopen a proceeding upon its own motion when necessary. It is also to be noted that the decision of the Board to be reviewed merely rescinds the Board's prior resolution so as to permit the Board to hear the case on a proper set of papers. The decision of the Board did not rescind the renewal of the variance on the merits. It would appear, therefore, that the proceeding to review has been prematurely made. Review may be sought after there has been a final determination of the rights of the petitioners. Settle order." (N. Y. L. J. July 23, 1943.)

A Notice of Appeal to the Appellate Division was filed and later dismissed (N. Y. Law Journal Jan. 23, 1945, page 291).

CALENDAR

DOCKET

New Cases Filed up to January 23, 1945.

Cal. No. Dept. Premises Affected

23-45-BZ—H.B.Q.—107-28 157th street, west side, 250 ft. south of 107th avenue (Block 10135, Lots 39, 41, 42 and 43), South Jamaica, Borough of Queens, Alt. 1185-44.

MINUTES

BOARD OF STANDARDS AND APPEALS

(Remaining minutes of the meeting of January 16, 1945.)

810-42-BZ

APPLICANT—A. Farber, for Monford Realty Corporation, owner.

SUBJECT—Application for consideration—reopening, extension of time to complete work and amendment of resolution—re Application (decision of the borough superintendent) previously granted on condition, under section 7-c of the zoning resolution, permitting in a residence use district, the alteration and extension of an existing factory by the inclusion of a covered storage and loading space.

PREMISES AFFECTED—1-27 Montauk avenue, 3144-3166 Atlantic avenue, southeast corner and 2-40 Milford street (Block 3976, Lots 25-48), Borough of Brooklyn.

APPEARANCES—

For Applicant: Abraham Farber and Irving Baldinger.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, time extended and resolution amended.

THE VOTE TO REOPEN, EXTEND TIME AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (810-42-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a residence use district, the alteration and extension of a factory building—by the erection of a third story, affecting premises 1-27 Montauk avenue, 3144-3166 Atlantic avenue, southeast corner and 2-40 Milford street (Block 3976, Lots 25 to 48, inclusive), Borough of Brooklyn, was granted by the Board on January 5, 1943, on certain conditions, resolution amended on June 8, 1943 and on February 1, 1944, time was extended to obtain permits and complete the work; and

WHEREAS, on September 12, 1944, the resolution was further amended and the applicant requested a further extension of time to complete the work and a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted January 5, 1943, so that as amended, the resolution shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7-c thereof, *on condition* that the extension proposed shall not be greater than that indicated on plans filed with this application and shall in all other respects comply with all laws, rules and regulations applicable thereto; that the sprinkler system shall be continued throughout this extension.

Resolved further, that in the event the owner desires to reduce the height of the two-story brick building now existing at 11 Montauk avenue to one story, such may be done, provided the front wall is reconstructed or refinished to harmonize with the adjoining portions of the building on the same street front; that the front wall of the one-story metal building shown on Key Plan as No. 1 and No. 11 may be removed as well as the cyclone fence along the building line and replaced with a 12-inch brick wall harmonizing with the other buildings; that such wall shall be approximately 18 feet in height with an opening fitted with sliding gates as indicated on revised plans marked 'Received May 18, 1943.'

Resolved further, that such space shall be used only as an off street loading space, as indicated on plans filed with the Board on May 18, 1943, and may be roofed over, provided the sprinkler system is continued into such space; that no additional signs shall be erected or displayed; and that any signs added to the building since May 10, 1941 shall be removed.

Resolved further, that the floor within the unloading space, as indicated on revised plans marked "Received December 30, 1944" may be reduced to grade level, as thereon shown, and certain columns reconstructed and re-located as indicated thereon, *on condition* that the southerly end of such space shall be continued to be occupied as an off-street loading and unloading space; and that the requirements of this resolution shall be complied with in all other respects; and that all permits required shall be obtained and all work completed within one year from the date of this *amended* resolution."

REGULAR MEETING,

TUESDAY MORNING, JANUARY 23, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, January 16, 1945, and Tuesday afternoon, January 16, 1945, were approved as printed in Bulletin No. 4, Volume 30.

ZONING CASES

1220-23-BZ

APPLICANT—Lama & Proskauer, for Roosevelt Savings Bank of the City of New York, owner (Elwood Cross, lessee).

SUBJECT—Application reopened June 3, 1941 (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, the extension of a gasoline service station and parking and storage of more than five motor vehicles (previously acted upon by the Board).

PREMISES AFFECTED—1090-1094 (1082-1100 displayed) Gates avenue, east side, 85 ft. north of Broadway (Block 3339, part of Lot 52), Borough of Brooklyn.

MINUTES

APPEARANCES—

For Opposition: Alfred W. Bergren, Stefanos Demascus and John Divitch.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to February 20, 1945 at 10 A. M. for further consideration by the Board.

1366-17-BZ

APPLICANT—Saul Goldsmith, for 1920 Harman Street Corporation, owner.

SUBJECT—Application reopened January 3, 1945 for consideration re amendment of resolution as to occupancy of 2nd floor—Application (decision of the acting borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a residence use district, the change of use from a factory for manufacture of hospital furniture permitted by the Board to paper box manufacturing and knitwear.

PREMISES AFFECTED—1920 Harman street, south side, 165 ft. west of Fairview avenue (Block 3388, Lot 21), Ridgewood, Borough of Queens.

APPEARANCES—
For Applicant: Saul Goldsmith, Jeanette E. Pulver and Victor Maillard.
For Opposition: Sidney S. Levine and Betty Foernsler.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Ginn 4
Negative: 0

THE RESOLUTION (1366-17-BZ)

WHEREAS, this application permitting in a residence use district, the extension in height of an existing factory building, affecting premises 1920 Harman street, south side, 165 ft. west of Fairview avenue (Block 3388, Lot 21), Ridgewood, Borough of Queens, was granted by the Board on October 30, 1917, on certain conditions; and

WHEREAS, Saul Goldsmith, for 1920 Harman Street Corporation, owner, filed July 11, 1944, an application under section 7c of the zoning resolution, to permit in a residence use district, the change of use from a factory for the manufacture of hospital furniture, previously permitted by the Board, to paper box manufacture and knit wear manufacture; and

WHEREAS, on November 8, 1944, this application was granted by the Board, under section 7c of the zoning resolution, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, pertaining to the factory occupancy of the 2nd floor; and

WHEREAS, this case was reopened by vote of the Board on January 3, 1945, restored to the calendar and set for hearing on January 23, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 23, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, in accordance with the requirements of the resolution adopted November 8, 1944, as to occupancy of the second floor, the applicant submitted, as proposed tenant, the White Cloak and Suit Co. (Frank Ingrazia, proprietor) formerly located at 319 McKibben street, stating the shop will be operated on a five-day basis, with no work performed on Saturday or Sunday; and

WHEREAS, upon inspection, the Committee of the Board found the tenant already operating on the second floor of the premises.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 8, 1944, by adding thereto:

"that the use as proposed of the second story as a clothing factory is *approved, on condition* that the requirements of this resolution shall be carried out in all respects."

442-42-BZ

APPLICANT—Henry C. Brockman, for Gulf Oil Corporation, owner.

SUBJECT—Application reopened January 3, 1945 for consideration as to extension of time to obtain permits and complete work—Application decision of the borough superintendent previously granted on condition, under section 7c of the zoning resolution, permitting in a residence use district, the reconstruction and extension of an existing gasoline service station.

PREMISES AFFECTED—2001-2011 Cropsey avenue and 8799-8815 20th avenue, northeast corner (Block 6442, Lot 5), Borough of Brooklyn.

APPEARANCES—
For Applicant: Joseph B. Lynch.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Time extended.

THE VOTE TO EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Ginn.. 4
Negative: 0

MINUTES

THE RESOLUTION (442-42-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a residence use district, the reconstruction and extension of an existing gasoline service station, affecting premises 2001-2011 Cropsey avenue and 8799-8815 20th avenue, northeast corner (Block 6442, Lot 5), Borough of Brooklyn, was granted by the Board on September 29, 1942, on certain conditions time to obtain permits and complete the work was extended on October 19, 1943 and the applicant requested a further extension of time to obtain permits and complete the work; and

WHEREAS, this case was reopened by vote of the Board on January 3, 1945, restored to the calendar and set for hearing on January 23, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 23, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted September 29, 1942, only so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"* * * that all permits required shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolution of September 29, 1942, shall be complied with."

220-44-BZ

APPLICANT—Anthony M. DeRose, for D'Abramo Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a business use district, the change of occupancy of an existing building from a stable and wagon storage and garage for 12 motor vehicles (in the cellar) to a garage for more than five motor vehicles and a motor vehicle repair shop, without complying with yard and area requirements for a new building.

PREMISES AFFECTED—89 Thompson street, west side, 100 ft. 1 in. north of Spring street (Block 503, Lot 35), Borough of Manhattan.

APPEARANCES—

For Applicant: Anthony M. DeRose.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (220-44-BZ)

WHEREAS, Anthony M. DeRose, for D'Abramo Realty Corporation, owner, filed April 13, 1944, an application under section 7-f of the zoning resolution, to permit in a business use district, the change of occupancy of an existing building from a stable and wagon storage and garage for 12 motor vehicles (in the cellar) to a garage for more than five motor vehicles and a motor vehicles repair shop without complying with yard and area requirements for a new building: affecting premises 89 Thompson street, west side, 100 ft. 1 in. north of Spring street (Block 503, Lot 35), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 23, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Thompson street and Sullivan street are in a business and unrestricted use, B area and 1½ times height district and West Broadway is in an unrestricted use, B area and 2 times height district; and

WHEREAS, the decision of the borough superintendent, dated March 20, 1944 on Application 88-44, reads:

"4. The change of occupancy from a stable and wagon storage to a repair shop and garage is contrary to Section 4 of the Zoning Resolution, and is also questioned under Section 6 of the zoning resolution.

5. As occupancy of the building is being changed, building should conform with all requirements for a new building of proposed occupancy (Section 2.1.3.5, Building Code); a rear yard required for such proposed occupancy in accordance with Section 17 of the Zoning Resolution should therefore be provided."

and

WHEREAS, the applicant states the premises consist of a plot having a frontage of 25 ft. and a depth of 101 ft., on which is located a 5 story (70 ft. in height), Class 1 and 3 constructed building, occupied as a garage for 5 cars, stable, and wagon storage and that it is proposed to occupy the building as a garage for more than five cars and a motor vehicle repair shop; and

WHEREAS, the applicant contends that the application is for zoning variance under section 7f of the zoning resolution, as the result of Objections 4 and 5 of the Borough Superintendent under date of March 20, 1944, to Alteration Application 88-1944, which involves the alteration and conversion of the affected premises which are in a business district, from a non-storage garage and stable, to a motor vehicle repair shop, non-storage garage and dead storage for motor vehicles, that the existing building is five stories in height, has a 100% fireproof construction from the cellar to the floor level of the 4th story and of ordinary construction for the remainder of its height and was erected in 1908 pursuant to N.B. Applic. 149-08, for use as a stable and the storage of wagons; that the present owner acquired the property in 1921, and since then, altered the building, pursuant to Alt. Applic. 3245-35; that following acceptable completion of the said alterations, he was issued Certificate of Occupancy 22234-37, to cover legal use of the premises as follows; cellar, non-storage garage for more than five cars; 1st story, 75 lb. live load, stable; 2nd to 4th floors, inclusive, 75 lb. live load, stable 5th floor, 75 lb. live load, wagon storage; that the proposed alteration and conversion provided for the following specific uses in the building: cellar, non-storage garage for more than five cars (no change from present legal use) 1st story, motor vehicle repair shop; 2nd and 3rd stories, storage garage; 4th story, dead motor vehicle storage; 5th story, to be kept vacant or unoccupied; that the basis of the application under section 7c is justified by the fact that the building has been utilized continuously for a non-conforming use since its erection, and under section 21 is also justified, as the usefulness of the building as a stable and wagon storage has disappeared and the owner therefore would suffer great hardship unless this request for modification of the zoning resolution is granted; that additional reasons why this application should be granted are as follows: that the affected premises adjoin an unrestricted use district, immediately to the south; that the continuous non-conforming use of the building existed prior to 1916, before the date of the Building Zone Resolution; that the building is structurally sound and in good physical condition; that inasmuch as trend and rate of change in the neighborhood is not predictable, due to no change in many years, it can be immediately made useful for the use proposed; that the proposed change in use is due to absolescence that has taken place and caused by factors beyond the control of the owner; that although the present use is objectionable the proposed use is less objectionable; that there are numerous existing non-conforming uses in the vicinity; that the public health of the affected neighborhood will be better secured by discontinuance of the stable occupancy; and

WHEREAS, the premises under appeal and the surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant amended his application at the hearing, to bring it under section 7, subdivision f of the zoning resolution instead of sections 7c and 21; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7, subdivision f of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted,* under section 7f thereof, for a term of five (5) years from the date of this resolution, to permit the building to be occupied as proposed as a non-storage garage on the basement, 1st, 2nd and 3rd stories; that the 4th story may be occupied in conjunction therewith for dead storage; that the 5th floor shall be left vacant; that all the existing woodworking machinery, household furniture and other refuse and material shall be completely removed from the 5th floor and not stored elsewhere within the building; that no use shall be made of the roof, which shall be kept clear of all rubbish; that the opening in the side lot line wall to the south, now used as a convenience for extending the gasoline pump hose through the wall from the adjoining parking lot in the unrestricted district into this building, shall be blocked up and no similar opening or device for extending the gasoline station into this building shall be permitted; that no motor vehicle repairing shall be carried on; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the cellar shall be occupied for not more than eight (8) cars, and such additional means of exit shall be provided thereto as the fire commissioner and the borough superintendent shall require; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 232-44-A; and that all permits required shall be obtained and all work completed within two months from the date of this resolution.

319-44-BZ

APPLICANT—Lama and Proskauer, for Joseph Newman, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7i of the zoning resolution, to permit in a business use district, the conversion of a stable, store and one family residence building, to a motor vehicle repair shop, stores and residence for one family.

PREMISES AFFECTED—8664-8666 18th avenue, west side, 150 ft. north of Benson avenue (Block 6368, Lot 55), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (319-44-BZ)

WHEREAS, Lama and Proskauer, for Joseph Newman, owner, filed May 31, 1944, an application under section 7i of the zoning resolution, to permit in a business use district, the conversion of a stable, stores and one-family residence building, to a motor vehicle repair shop, stores and one-family residence; affecting premises: 8664-8666 18th avenue, west side, 150 ft. north of Benson avenue (Block 6368, Lot 55), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 23, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that 18th avenue is in a business and unrestricted use, C area and 1-times height district; Benson avenue is in a business and residence use, C area and 1-times height district; and Bay 17th street is in a residence use, B area and 1 times height district; and

WHEREAS, the decision of the borough superintendent dated May 18, 1944, re Alt. App. 1242-44, reads:

"1. Proposed change of occupancy to a motor vehicle repair shop of structure located within a business use district is contrary to Sec. C26-185.0. Administrative Code, since it violates Sec. 4a Subd. 29 Art. II of Zoning Resolution. Denied."

and

WHEREAS, the applicant states the premises consist of a plot 50 ft. frontage by 96 2/3 ft. in depth, on which is located a one and two-story, Class 4 constructed building, 50 ft. by 96 2/3 ft. in area on 1st story and 25 ft. by 46 2/3 ft. in area above, occupied as store and stable on 1st story and 1 family on second story and that it is proposed to occupy the building as stores and motor vehicle repair shop on 1st story and 1 family on 2nd story; and

WHEREAS, the applicant contends that the premises have a frontage of 50 ft. on 18th avenue, 96 ft. 8 in. in depth and are improved with a one and two-story building; that the northerly portion is a store 25 ft. by 68 ft., above which is a one family apartment 25 ft. by 46 ft. 8 in.; that the southerly portion is a store approximately 15 ft. by 25 ft. and a former stable for more than five horses which occupied the balance of the premises on the first floor; that it is now proposed to change the use of the former stable to a motor vehicle repair shop; that in Block 6369, Lots 17 and 28 are both improved with public garages; that Lot 13, Block 6369 is improved with a repair shop and Lot 1 is a gasoline service station; that Block 6368, Lot 51 is improved with a lumber yard; that all these uses existed prior to 1916; and that, therefore, in view of the general character of the neighborhood, the proposed change will in no way retard or affect its general surroundings; and

WHEREAS, the premises under appeal and the surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant under section 7, subdivision i of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted,* under section 7-i thereof, to permit the premises to be occupied as a motor vehicle repair shop, *on condition* that the motor vehicle repairing shall be only such as can be done by hand tools and motor-driven equipment not greater than one-half horsepower each; that portable fire-fighting appliances shall be installed and maintained as the fire commissioner shall direct; that there shall be no forge or anvil on the premises; that no openings shall be constructed in the side or rear lot line walls; that this repair shop shall be under the same tenancy and operation as that of the adjoining 15 ft. accessory store and shall be conducted in conjunction therewith; that this variance shall be for a term of five (5) years; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within three months from the date of this resolution.

699-44-BZ

APPLICANT—Sidney L. Strauss, for Ten Fifth Avenue Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, a one story extension to a multiple dwelling and stores building, the extension to cover balance of lot.

PREMISES AFFECTED—10 Fifth avenue and 1 West 8th street, northwest corner (Block 572, Lot 44), Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney L. Strauss and Allan D. Emil.

For Opposition: Edward G. Steinert.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (699-44-BZ)

WHEREAS, Sidney L. Strauss, for Ten Fifth Avenue Corporation, owner, filed December 4, 1944, an application under section 7c of the zoning resolution, to permit in a residence use district, a one story extension to a multiple dwelling and store, building the extension to cover balance of lot, affecting premises 10 Fifth avenue and 1 West 8th street, northwest corner (Block 572, Lot 44), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 23, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that 5th avenue, West 8th street and West 9th street are in a residence use, B area and 1½ times height district; and

WHEREAS, the decision of the borough superintendent, December 1, 1944, superseded by a decision of December 14, 1944, on Alt. Applic. 41-44, reads:

"Proposed extension at the rear of a residence building is not acceptable. See Subdiv. (b) of Sec. 12, of Art. Iv of the Zoning effective Dec. 2, 1944.
This is a multiple dwelling in a B district.
Not further considered.
See objection raised 12-1-44 which reads as follows:
Proposed extension of business use in a residential district is not acceptable. Sect. 3 of Art. 2 of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, having a frontage of 28½ ft. and a depth of 100 ft., on which is located a 4 story, basement and cellar, Class 3 constructed building, occupied as a multiple dwelling and 3 stores and that it is proposed to extend the building on the 1st story and occupy the extension as an additional store and the entire lot on the 1st story to be built over; and

WHEREAS, the applicant contends that the premises affected are located entirely within a residence district; that the building is a four story, basement and cellar, converted dwelling occupied with store on the basement floor and multiple dwelling above; that the store occupancy on the basement or street level has been in existence and has continued at all times since prior to 1916; that it is proposed to erect a one story extension at the westerly end of the property, as indicated on the plans filed with this application; that the extension will be of colonial character, in keeping with the locality; that both Fifth avenue and 8th street between 5th and 6th avenues now contain many non-conforming uses and it is submitted that the proposed extension will definitely be in better keeping with the character of the area than any of the non-conforming uses now existing; it is respectfully requested that a variation of the requirements be granted, to permit the construction of the proposed extension; and

WHEREAS, the premises under appeal and the surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under Section 7, subdivision c of the zoning resolution.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 41-44, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

APPEALS FROM ADMINISTRATIVE DECISIONS

232-44-A

APPLICANT—Anthony M. DeRose, for D'Abramo Realty Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—89 Thompson street, west side, 100 ft. 1 in. north of Spring street (Block 503, Lot 35), Borough of Manhattan.

APPEARANCES—
For Applicant: Anthony M. DeRose.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (232-44-A)

WHEREAS, Anthony M. DeRose, for D'Abramo Realty Corporation, owner, filed April 20, 1944 an appeal from a decision of the borough superintendent affecting premises 89 Thompson street, west side, 100 ft. 1 in. north of Spring street (Block 503, Lot 35), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent dated March 20, 1944 on Alt. Applic. 88-44 reads:

"3. A garage over one story in height to be fully fireproof (Class 1 construction) Section 4.2.1.
5. As occupancy of the building is being changed, building should conform to all requirements for a new building of proposed occuancy (Section 2.1.3.5, Building Code) a rear yard required for such proposed occupancy in accordance with Section 17 of the Zoning Resolution should therefore be provided."

and

WHEREAS, the applicant states that the building is 5 stories (70 ft.) in height, 25 ft. by 101 ft. in area, at 1st floor, 25 ft. by 98 ft. in area at typical floor, of class 3 construction, erected in 1908, located in a business use, B area class 2 height district and used and occupied since 1937 as a stable on the 1st, 2nd, 3rd and 4th stories, non-storage garage for more than 5 motor vehicles in the cellar and wagon storage on the 5th floor and proposed to be used and occupied as follows: cellar—non-storage garage for more than 5 motor vehicles; 1st floor—repair shop—5 persons; 2nd floor—non-storage garage; 3rd floor—non-storage garage; 4th floor—dead storage; 5th floor—vacant, as described in application for variation of the provisions of the zoning resolution made under Cal. 220-44-BZ; and

WHEREAS, the applicant contends as to objection 3, that in the provisions of Section C26-3.0, Section C26-254.0 (4.2.1) as stated by the borough superintendent, does not apply to this building, as it was erected prior to January 1, 1938; that the building has a floor area of 12,777 sq. ft. of which 8,361 sq. ft. is fireproof and 4,416 sq. ft. ordinary construction; that inasmuch as one half of the class 3 constructed portion will be unoccupied and only 2,208 sq. ft. of the class 3 constructed portion will actually be utilized and then for dead storage, which is less hazardous than garage use and that the space actually used as garage and repair shop will be of fireproof construction; it is requested that the Board modify the decision of the borough superintendent as to objection 3: and

WHEREAS, the applicant contends as to objection 5, that Section 2.1.3.5 does not apply to this building, as the change in occupancy is not wholly inconsistent with the last certificate of occupancy; that light and ventilation are not essential for the proposed change of occupancy; that the proposed use is not in conflict with the zoning resolution, as the building is now legally used for a non-conforming use; it is therefore requested that the decision of the borough superintendent be modified, as the usefulness of this building as a stable and wagon shed has disappeared and the owner

would suffer great hardship unless this appeal is granted; and

WHEREAS, these premises were inspected by a committee of the Board; and

WHEREAS, the Committee found the building constructed with fireproof floors, except for the top story and roof and occupied contrary to the certificate of occupancy 22234, which certificate was issued in 1937 contrary to law, in that it permitted more than five motor vehicles in a business use district and motor vehicles were also being stored on the other floors.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 88-44, be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to objection 3, *on condition* that the building shall not be increased in height or area and shall be occupied only as permitted under the resolution adopted by the Board under Cal. 220-44-BZ; as to objection 5, that the existing rear yard shall be maintained, and the building shall not be further increased in area; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 220-44-BZ; and that a new certificate of occupancy shall be obtained, superseding certificate 22234.

590-44-A

APPLICANT—Endo Products, Inc., lessee, for Richmond Hill Realty Corporation, owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—84-40 101st street, northwest corner of 85th road, (cellar); (Block 9177, Lot 23), Richmond Hill, Borough of Queens.

APPEARANCES—

For Applicant: J. Yaspan and D. L. Klein.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (590-44-A)

WHEREAS, Endo Products, Inc., lessee, for the Richmond Hill Realty Corporation, owner, filed October 18, 1944, an appeal from an order of the Fire Commissioner, affecting premises 84-40 101st street, northwest corner of 85th Road (cellar); (Block 9177, Lot 23), Richmond Hill, Borough of Queens; and

WHEREAS, Order 97736-C, issued by the Fire Commissioner, September 20, 1944, reads:

"1. You are hereby notified that Fire Department Permit, Permit #214583, and authorizing the use of premises, as a Technical Establishment, is revoked until the following is done.

2. Reduce the quantity of volatile inflammable oils, (hexane, pentane and benzine) to 5 gallons; or

Provide an approved storage system for storing and handling all volatile inflammable oils and liquids (hexane, pentane and benzine). Plans and specifications in duplicate must be filed with and approved by Department of Housing and Buildings, before the above work may be commenced. C19-51.0, Admin. Code.

3. Discontinue use of portable lights and pin plugs where volatile inflammable oils are stored and used. C19-11.0, Administrative Code.

4. Discontinue use of electric lights within 10′ of reaction pots where volatile inflammable oil is used or stored, which are not of vapor-proof type. C19-11.0, A. C."

and

WHEREAS, the applicant states the building is 4 stories (54 ft.) in height, 104 ft. by 108 ft. 9 in. in area; Class 1 construction, erected in 1916, and located in an unrestricted use, C area, Class 1½ height district; used and occupied since January 1, 1940, as follows: Cellar, storage, no persons; 1st floor, shipping, locker room and stock room, 12 persons; 2nd floor, office, 25 persons; 3rd floor, manufacturing liquids and tables, 22 persons; 4th floor, manufacturing ampules, chemical laboratories, 50 persons; no change in use or occupancy is proposed; that the building is equipped with a two-source sprinkler system, 3 ft. 8 in. wide concrete stairs, enclosed in brick, equipped with metal-covered self-closing doors extending from the roof to the street; and

WHEREAS, the applicant contends that it is engaged in manufacturing medicines and pharmaceutical preparations in the building in question; that in connection with manufacturing, it is necessary to keep on the premises, certain inflammable oils such as hexane, pentane and benzene in 55 gallon metal drums; that approximately ten drums of these oils are kept on the premises, stored in the basement and amounts necessary for daily use are taken to the manufacturing departments; that it is proposed to store these oils in a vault, which complies in all respects with the requirements of the N. Y. Fire Insurance Exchange; that in October, 1943, the applicant purchased the one-story building adjoining the vacant lot in the same ownership and adjoining the building in question; that application was made in June, 1944 to the War Production Board for priority for the necessary alterations to the said building and such request was denied by them; that repeated applications for reconstruction have been addressed to the W.P.B. and the last advice received is that the matter was still under consideration on October 12, 1944; that if such application for priority is granted, it is proposed to erect a one-story storage vault, complying in all respects with the specifications of the N. Y. Fire Insurance Exchange; that until such time as the applicant is enabled to proceed with such construction, it is proposed to do the following: In the out-building of vacant lot adjoining that in question. it is proposed to store the solvents in question; that such out-building, which is 13 ft. by 30 ft. in area, is of cinder block construction on three sides, and it is proposed to put asbestos sheeting on the roof and cover the existing door with metal, so that this out-building will be completely fireproof and comply in all respects with the alternate suggestion of the N. Y. Fire Insurance Exchange; that only so much of the solvents as will be required for daily use will be taken from such storage room into the building; and

WHEREAS, the applicant contends as to objections 3 and 4 of the order, that the use of portable lights has been discontinued; however, in the building in question it is not possible to use pin plugs nor is the building equipped with vapor-proof type of electric fixtures and in the one story building, which is proposed to be constructed when authority is received from the W.P.B., vaporproof and explosive proof type of electric fixtures, plugs and equipment of all kinds will be installed and items 3 and 4 of the order will be complied with; it is therefore requested the Board modify this order of the Fire Commissioner, to permit the storage as herein proposed; and

WHEREAS, the applicant states that no application was made to the W.P.B. to install a buried storage system, as such application was made to them prior to the issuance of the order by the Fire Commissioner; that to install a buried storage system as required, would require an application to the W.P.B. for the necessary priorities for materials and labor; that it does not seem possible to obtain these priorities at present; that the proposed storage building, which is acceptable to the N. Y. Fire Insurance Exchange, will be adequate with not more than 5 gallons of these solvents taken into the building at any one time; that the proposed storage building is not sprinklered, but a line could be run from the main factory building to the proposed building, in order to equip it with a sprinkler system; that the flash-points are as follows: Hexane, minus 40°; Pentane, minus 40°; Benzene, 50-54°; and

WHEREAS, the applicant states that an application has been filed for a certificate of occupancy for the building in question and approved by the Department of Housing and Buildings, but is awaiting the disposition of this appeal and dismissal of the Fire Commissioner's order.

Resolved, that the decision of the fire commissioner as to Order 97736-C be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that not more than one (1) drum each of hexane and pentane and not over three (3) drums of benzol (benzene) shall be stored on the premises; that each drum shall be fitted with an approved pump as approved for such use by the Underwriters' Laboratories, Inc. or Factory Mutual, Inc.; that such drums shall be stored within a fireproof storage building located where indicated on plans filed with this appeal marked "Received November 16, 1944;" that such storage building shall be constructed of fireproof materials throughout; that the roof shall be insulated with incombustible insulation; that the door shall be fireproof and self-closing; that a concrete sill shall be constructed across the door opening at least 6 in. in height; that ventilation shall be provided by means of a louvre in the bottom of such door and through the roof by means of a duct not less than 50 sq. in.; that such door louvre shall be made to close automatically by being equipped with a fusible link; that such room shall be protected with a CO_2 automatic flooding system, to the satisfaction of the Fire Commissioner; that the floor of such storage room shall be of spark-proof material; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, and denied as to Items 3 and 4, to comply.

695-44-A

APPLICANT—William Higginson and Son, for Gair Realty Corporation, owner (Uddeholm Co. of America, Inc., lessee).
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—98 Front street, south side, 51 ft. 1 in. west of Adams street (Block 51, Lot 17), Borough of Brooklyn.
APPEARANCES—
For Applicant: Clarence H. Higginson and Erik Ensvik.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (695-44-A)

WHEREAS, William Higginson and Son, for Gair Realty Corporation, owner (Uddeholm Company of America, Incorporated, lessee), filed December 1, 1944, an appeal from an order of the fire commissioner, affecting premises 98 Front street, south side, 51 ft. 1 in. west of Adams street (Block 51, Lot 17), Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, acting on Order 98121-LC, issued November 4, 1944, reads:

"You are hereby notified that an inspection of the above premises, used to store and use oil, etc., shows that the following must be done before the permit requested by you can be issued.

1. Discontinue storage and use of hydrogen gas because the manner in which it is used creates an undue hazard. C19-11.0, Administrative Code."

and

WHEREAS, the applicant states that the building is one story (15 ft. 10 in.) in height, 25 ft. 6½ in. by 74 ft. 4 in. in area, of Class 3 construction; erected in 1919; located in an unrestricted use, A area, Class 2 height district, and used and occupied for the manufacture of razor blades, 2 persons; and

WHEREAS, the applicant states that no certificate of occupancy has been issued for this building; and

WHEREAS, the applicant contends that permission is requested to store four cylinders of hydrogen gas and one 30 gallon drum of tempering oil on the premises; that the cylinders will have a capacity of 191 cu. ft. at 2000 lbs. per sq. in. pressure; that the hydrogen gas is used for tempering chrome steel for razor blades and is fed into two manifolds which are unpierced, except at both ends and run the full length of the oven; that at the ends of the manifold where the gas enters, the hydrogen is permitted to escape and burns with a 1-inch flame; that this oven is operated once or twice each month for a continuous period of 48 hours, consuming 3 cylinders of hydrogen each time; that the operator of the oven will obtain a certificate of fitness; that it is proposed to erect a new storage room for the hydrogen cylinders and tempering oil, constructed of 8 in. cinder concrete blocks, extended through the roof and vented by a skylight; that explosion-proof lights and switches will be installed in the storage room and an approved type hydrogen manifold secured to the wall, will be installed with all necessary safety valves.

Resolved, that the decision of the fire commissioner as to Order 98121-LC, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the number of cylinders of hydrogen gas shall not exceed three (3); that such cylinders shall be stored within the fireproof room located and constructed substantially as proposed and as shown on plans filed with this appeal marked "Received December 1, 1944;" that a ventilating duct or movable skylight shall be constructed in such room on the roof; that the floor of such hydrogen storage room shall be of non-sparking material; that any electrical fixtures in such room shall be of the explosion-proof type; that the hydrogen cylinders shall be attached to a manifold of a type approved by the fire commissioner and shall be firmly strapped in place with non-ferrous metal straps; that the piping shall be carried along the wall, as indicated, and protected at all points from injury; that a hydrogen detector alarm shall be installed to the satisfaction of the fire commissioner; that nothing else shall be stored within this fireproof enclosure, other than the hydrogen cylinders and any drum of oil shall be stored elsewhere within the building, as far removed as possible from the hydrogen room; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that a certificate of fitness shall be obtained by the person in charge of the hydrogen equipment; that this variance shall be for one (1) year from the date of this resolution; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

719-44-A

APPLICANT—Kienle and Co., for Eugene and Julia Kienle, owners.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—31-49 Nassau avenue, north side, from Guernsey to Dobbins streets (1st floor); (Block 2643, Lots 29 and 30), Borough of Brooklyn.
APPEARANCES—
For Applicant: H. J. Wolfs and William Gompert.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (719-44-A)

WHEREAS, Kienle and Company, for Eugene and Julia Kienle, owners, filed December 12, 1944, an appeal from an order of the fire commissioner, affecting premises 31-49 Nassau avenue, north side, between Guernsey and Dobbins streets (first floor); (Block 2643, Lots 29 and 30), Borough of Brooklyn; and

WHEREAS, order 98242-LC, issued by the fire commissioner, November 20, 1944, reads:

"With reference to your application dated October 30, 1944, for a permit to manufacture combustible mixtures on above premises, we wish to advise that your application is denied, for the reason that no permit can be

issued for the manufacture of combustible mixtures in the same building where dry goods or other materials of a highly inflammable nature are manufactured, stored or sold.

1. You are therefore, ordered to discontinue the manufacture of combustible materials on above premises. C19-59-b-6, Administrative Code."

and

WHEREAS, the applicant states that the building is 3 stories (37 ft.) in height, 200 ft. by 125 ft. in area, of class 1 construction, erected in 1924, located in a business and unrestricted use, C area, class 1¼ height district and used for the manufacture of lithographic inks on the first floor, 33 persons and for book binding on the second floor, 30 persons; and

WHEREAS, the applicant contends that the fire commissioner's order requires the applicant to desist from the manufacture of a combustible mixture known as "Wash-Out Terps", which it has been manufacturing for about 15 years; that this mixture of Wash-Out Terps consists almost entirely of Sovasol #5 having a flash point of 105 deg. F., the final product, known as Wash-Out Terps has a flashpoint of 140 deg. F.; that it is requested, the Board permit the continuance of the manufacture of the combustible mixture known as "Wash-Out Terps" on the following grounds: that the applicant manufactures lithographic ink vehicles, varnishes and driers in a one story, fireproofed room, separated from the remainder of the plant by a 12 inch brick wall, equipped with fire doors, which are automatic and kept closed; that this room is fully sprinklered and has six 2½ gallon foamite fire extinguishers; that the applicant manufactures two 55 gallon drums of "Wash-Out Terps" at a time, in steel-jacketed kettles at a temperature of 150 deg. F.; that this material is shipped in drums within 24 hours of its manufacture; that the other combustible or inflammable mixtures stored or used on the premises are as follows:

Solvent	Flash Point F.	Amount	How Stored	Where Stored
Turpentine	118 deg. F.	50 gal.	steel drum	in building
Kerosene	165 " F.	500 gal.	steel drums	" "
Cellosolve	130 " F.	100 gal.	" "	" "
Sovasol #5	105 " F.	1000 gal.	" "	100 gal. in building
Denatured Alcohol	69 " F.	500 gal.	" "	in open yard
Butanol	116 " F.	250 gal.	" "	" " "
Zylol	108 " F.	500 gal.	" "	" " "
Benzol	50 " F.	50 gal.	" drum	" " "
Solvesso #2	86 " F.	450 gal.	" drums	" " "
" #3	155 " F.	50 gal.	" drum	" " "
Linseed Oil	600 " F.	5000 gal.	" tanks	in building

Resolved, that the decision of the fire commissioner as to Order 98242-LC be and it hereby is *modified* as to Item 1, and that the appeal be and it hereby is *granted on condition* that the premises shall be maintained substantially as proposed and as indicated on plans filed with this appeal marked "Received December 12, 1944" and to the satisfaction of the fire commissioner; that the sprinkler system within the building shall be maintained to the satisfaction of the fire commissioner and the foamite fire extinguishers shall be maintained within this particular room; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified under calender numbers 685-24-BZ and 598-44-BZ.

727-44-A

APPLICANT—Federal Telephone and Radio Laboratories, lessee, for International Telephone Building Corp., owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—65-81 Broad street, 30-36 Beaver street, southeast corner and 28-36 South William street, northeast corner of Broad street (2nd floor); (Block 29, Lot 70), Borough of Manhattan.

APPEARANCES—

For Applicant: William Boyd and J. Glauber.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (727-44-A)

WHEREAS, Federal Telephone and Radio Laboratories, lessee, for International Telephone Building Corporation, owner, filed December 12, 1944, an appeal from an order of the fire commissioner, affecting premises 65-81 Broad street, and 30-36 Beaver street, southeast corner and 28-36 South William street, northeast corner Broad street (2nd floor); (Block 29, Lot 70), Borough of Manhattan; and

WHEREAS, Order 39730-LC, issued by the fire commissioner, November 13, 1944, reads:

"Before a permit may be issued for the storage and use of hydrogen, oxygen, nitrogen, acetylene and acids, the following must be done:

1. Show that existing ventilation in hydrogen room is sufficient if a large amount of hydrogen should suddenly be released. (Based on increased quantity.)

3. Discontinue running of hydrogen lines through stairhalls or other means of exit.

5. Provide automatic detection and alarm system for hydrogen.

NOTE: Smoking in any part of these premises is prohibited. Authority of Sec. C19-11, Art. 1, Adm. Code."

and

WHEREAS, the applicant states the building is 35 stories (456 ft.) in height; 231 ft. by 130 ft. in area; of Class 1 construction; erected 1928 and 1930; located in an unrestricted use, B area, Class 2½ height district, and used and occupied for offices and technical development laboratories throughout, with a maximum occupancy not to exceed that permitted by the Certificate of Occupancy; and

WHEREAS, Certificate of Occupancy 16257, issued May 19, 1930, permitted the use of the building above the first story for offices; and

WHEREAS, the applicant contends as to Item 1 of the fire commissioner's order, that there is a lack of designation in the order of what would be acceptable as adequate ventilation in the hydrogen room; that there is a complete change of air every three minutes; that additional louvres are being installed at the base of the outside wall; that these will establish a convection current which will improve ventilation; that the order does not indicate what type of showing would be made; and

WHEREAS, the applicant contends as to Item 3, that before installing hydrogen lines in their present location, plans were submitted to and approved by the Division of Combustibles under date of July 11, 1941; that permits for the storage and use of hydrogen and other gases were issued on February 18, 1942 and re-issued on March 16, 1943, and February 9, 1944; that due to the construction of the building, it is not possible to discontinue the running of the hydrogen line through a stairhall; that the lessee is investigating the possibility of encasing the hydrogen line where it passes through the stairhall, in a larger pipe opening into the hydrogen room at one end; that the problem of so encasing the hydrogen line presents considerable engineering difficulties; it is requested that, if it can be shown that engineering difficulties make this impracticable, an exception be granted to this item of the order, particularly in view of the Division of Combustibles previous approval; and as to Item 5, that the order does not specify what type of automatic detection and alarm system would be acceptable; that the lessee is arranging to purchase and install devices which are believed to be adequate in the hydrogen storage room and near the ceiling, within the working areas in which, amounts of free hydrogen might possibly collect; and

WHEREAS, the applicant contends as to the part of the order which prohibits smoking, that it is not clear as to what areas are included in the order; that smoking and the use of any flame has been prohibited in the past and will continue to be prohibited in the hydrogen storage room

and its immediate vicinity; that the installation was specifically approved by the Division of Combustibles before it was installed and has been inspected and passed numerous times since its installation; that the enforcement of this order would, of necessity result in the absolute termination of development work on vacuum tubes urgently needed by the armed services; that safety devices of the latest design are being installed and it is requested the Board permit deviations from and order clarification of Order 39730-LC, as outlined in this appeal; that the order does not arise as a result of any proposed change in method of storage or use of hydrogen from that previously inspected and approved on numerous occasions by Division of Combustibles inspectors; that these research laboratories are engaged in the development of advanced radio communications systems required by the armed forces and that the use of hydrogen and other gases is essential in research and development work in the field of vacuum tubes for the armed forces.

Resolved, that the decision of the fire commissioner acting on Order 39730-LC be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to Item 1, *on condition* that the ventilating system as proposed throughout the floor shall be maintained; that the existing hydrogen room shall have a louvre as now installed, toward the top and a similar louvre installed as proposed, toward the bottom of the outside wall; that the floor of such hydrogen room shall be spark-proof; that the hydrogen cylinders shall be attached to an approved manifold when in use and shall be firmly strapped in place with non-ferrous metal straps; that not more than six (6) cylinders shall be drawn from at one time; as to Item 3, that the hydrogen lines as existing through the stairhall and throughout the floor shall be maintained to the satisfaction of the fire commissioner; as to Item 5, that hydrogen detector units as proposed, shall be installed and maintained at such points as the fire commissioner shall direct and to his satisfaction; that no smoking shall be permitted in any portion of the premises where hydrogen is used or through which it is piped; that such portable fire fighting appliances shall be maintained as the fire commissioner shall require; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this variance shall continue for not more than one (1) year from the date of this resolution.

APPLIANCE SUBMITTED FOR APPROVAL

402-44-SA

APPLICANT—Western Electric Co., Inc., owner.

SUBJECT—Western Electric Co., Inc., Paint Spray Booths, Models RS-13161 and RS-13162 (Water Impingement Type), approval of.

APPEARANCES—
For Applicant: George F. Knapp and John H. Stubblebine.

ACTION OF BOARD—Appliance approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (402-44-SA)

WHEREAS, the Western Electric Company, Inc., owner, filed on June 28, 1944, an application with the Board of Standards and Appeals for approval of the appliance known as the Western Electric Company Paint Spray Booths, Models RS-13161 and RS-13162 (Water Impingement Type); and

WHEREAS, this appliance was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

January 10, 1945

Cal. 402-44-SA

Subject: Western Electric Company Paint Spray Booths, Models RS-13161 and RS-13162 (Water Impingement Type) Approval of.

The Western Electric Company, Incorporated, filed an application with the Board of Standards and Appeals for approval of the Western Electric Company, Incorporated Paint Spray Booths, Models RS-13161 and RS-13162 (Water Impingement Type), under the provisions of the Rules of the Board of Standards and Appeals, governing the use of equipment for spraying and drying of paints, varnishes and lacquers and other flammable surface coatings and the storage of such material.

DESCRIPTION

This equipment consists of a box-like sheet metal enclosure, open at one end, having the inside surfaces of its two sidewalls and back wall continuously flooded with a caustic solution during operation, and directly connected to a second sheet metal chamber containing a baffle system for producing an intimate mixing of air and caustic solution and a second baffle or "eliminator" section for subsequently removing entrained moisture droplets. Both enclosures are mounted on a tank which serves as a reservoir and catch-basin for the solution. The first-mentioned enclosure is called the "booth" and the latter the "wash chamber".

The solution is motivated and directed by means of a circulating direct-connected pump and its associated pipe system. The pump is mounted on an outside wall of the tank section. All pipes are fitted with valves for regulating and proportioning the flow over the several troughs and baffles. Pump specifications are as follows:

	RS-13161	RS-13162
Model	#1½ RV 1½	#2 RV 2
Discharge (G.P.M.)	100	175
Head (Ft. of Water)	40	25
Horsepower	1½	2

Both pumps are Ingersoll-Rand or equal motorpumps and driven by 3450 RPM Explosion-Proof Motors.

A centrifugal fan and its driving motor are located on a platform installed adjacent to the side of the wash chamber, with the fan inlet connected through a flexible asbestos cloth sleeve to the upper part of the wash chamber above the eliminators. The entire exhauster unit is mounted on vibration-absorbing rubber isolators. Fan specifications are as follows:

	RS-13161	RS-13162
Model	#1½ W	#2¼ W
Delivery (C.F.M.)	5,417	10,440
Static Pressure (inches)	1¾	1¾
Horsepower	3	5
R.P.M.	1,716	1,024
Face Velocity (F.P.M.)	135	130

Both fans are Clarage or Aqua driven by 1750 RPM explosion-proof motors. The exhaust fan driven motor and the pump motor operate simultaneously under control of a single explosion-proof push button station mounted on or near the booth, through magnetic starting switches located outside of the hazardous areas as defined in the Rules.

RS-13161 Equipment has a working compartment or booth section 5 to 7 feet wide by 4 feet 6 inches deep.

RS-13162 Equipment has a booth section 10 feet wide by 4 feet 10 inches deep.

All booths will handle apparatus up to 8 feet high. A removable partition, separating the working compartment into two equal sections for the accommodation of two operators, when spraying all but the large apparatus, is available for use with the 10 foot spray booth, RS-13162. A special turntable is also available

for use in spraying small apparatus such as sub-sets, key boxes, etc.

The functions of these booths are to provide an enclosure wherein paint spraying operations may be performed; to confine, collect and remove the vapors released by the spraying operation to the outside of the building (through associated ductwork), and to separate and collect the pigment in the overspray for disposal.

These booths are used for spraying telephone apparatus such as sub-sets, coin collectors, switchboards, panels, telephone booths, etc., also large plant items such as lockers, tool chests, desks, etc.

TEST

The spray booth was inspected and tested by the Committee on Tests of the Board and the representative of the Division of Combustibles of the Fire Department November 10, 1944, and found to operate as designed.

RECOMMENDATIONS

On the basis of the foregoing data, inspection and test, the Committee on Tests recommends that the Western Electric Company, Inc.'s Paint Spray Booth, Models RS-13161 and RS-13162 (Water Impingement Type), be approved for use in New York City, when installed and operated in accordance with the report and with the Rules of the Board of Standards and Appeals governing the Use of Equipment for Spraying and Drying of Paints, Varnishes, Lacquers and Other Flammable Surface Coatings and Storage of Such Materials, provided the booth bears a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 402-44-SA"; that accumulated paint material, forming a film in water in trough shall be removed at regular intervals.

(Sgd) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as the Western Electric Company Paint Spray Booths, Models RS-13161 and RS-13162 (Water Impingement Type), *on condition* that the appliance be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 12:15 P.M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, JANUARY 23, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

702-44-A

APPLICANT—Louis J. Palatnick, Adjoining Property Owner.

OWNER OF PREMISES—O. Realty Co., Inc., (Isidore L. Rosenzweig, President).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—709-715 Utica avenue, east side, 180 ft. south of Clarkson avenue (Block 4637, Lots 37-39), Borough of Brooklyn.

APPEARANCES—

For Applicant: Louis J. Palatnick.

For Opposition: Isidore L. Rosenzweig, Henry G. Harrington and Nathan Weisberg.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted and approval of application and permit revoked.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (702-44-A)

WHEREAS, Louis J. Palatnick, adjoining owner, filed on December 4, 1944, an appeal from a decision of the borough superintendent, relating to the issuance of a permit by the borough superintendent, affecting premises 709-715 Utica avenue, east side, 180 ft. south of Clarkson avenue (Block 4637, Lots 37 and 39), Borough of Brooklyn, which premises are owned by O. Realty Company, Incorporated; and

WHEREAS, the decision of the borough superintendent dated November 28, 1944, relating to B. N. 1054-44, reads:

"Your letter of November 27th requests a revocation of the above permit on the ground that the premises are located in a business use district in which the parking for more than five cars is prohibited by Article 2, Section 4a, subdivision 15 of the Building Zone Resolution.

I regret that I cannot accede to your request. A thorough investigation of the records of this department was made prior to the granting of the permit, and from these records, which are supported by affidavits and testimony taken at a hearing, it is evident that these premises were so used prior to the enactment of the zoning law provision referred to, and therefore a permit for the parking of more than five cars could be issued and was issued.

You may if you so desire appeal from this decision to the Board of Standards and Appeals, as provided for by the law."

and

WHEREAS, the applicant states the premises in question consists of a plot 60 ft. by 100 ft. in area; located in a business use, C area, Class 1 height district and used for the parking of more than five motor vehicles; and

WHEREAS, the applicant contends that he is one of the owners of 701 Utica avenue, which adjoins the premises in question; that the borough superintendent was in error in reaching the decision herein appealed, as the facts indicate that the premises were not used for parking prior to the enactment of the zoning law provision and in fact were never used for that purpose; that the property was used for storage and not for parking; that the premises were used for storing of motor vehicles by the month and at no time used for parking purposes; that parking presupposes a temporary placing of a car while the owner or driver is transacting business; that storage connotes the renting of space for a definite period and has no relation to the temporary transaction of business of the owner (*Monument Garage Corporation* v. *Levy,* 266 N. Y. 339 and *Bowen* v. *Hider,* 37 N. Y. Supplement, 2d 76); that the use of premises for storage of automobiles was illegal; that the owner had never obtained a certificate of occupancy for such use (*Bowen* v. *Hider,* 37 N. Y. Supp. 2d 76); and

WHEREAS, the applicant further contends that the premises have been used illegally for the storage of motor vehicles, as further indicated by the fact that there is no drop curb in front of the premises; that in order to use

the premises for either storage or parking, it is necessary to obtain a drop curb permit; that no application was ever made for such permit in front of the premises; that the owner used the drop curb in front of 701 Utica avenue and therefore was actually trespassing upon the adjoining property; that the owner of the premises herein involved should not be rewarded for his violation of law for using property for storage without permission to do so; that to permit the use of the property involved for parking upon the basis of the illegal use heretofore, would in effect be rewarding the owner for violating the law; and

WHEREAS, the applicant further contends that in the affidavit submitted by the owner of the premises in question to the borough superintendent and signed by Henry Feller and verified April 18, 1944, it is stated "that I became the owner of Lots 37 and 39 in Block 4637, in the County of Kings, on or about the 27th day of April, 1927, by deed duly recorded in Liber 4810, page 318. Before and while I was such owner, Barney Cohen was using my lots for parking purposes. He parked about 15 to 20 cars on my lots"; that affiant in that affidavit was in error is clearly indicated by the photographs submitted and filed in the office of this body on May 16, 1931, in proceedings 235-31-BZ, Volume 1; that those photographs, numbered in that proceeding 32 and 33, clearly show that the premises here in question were not in condition for parking or storage of cars and do not seem to have been used for that purpose at any time previous; that in the affidavit of Nathan Weisberg, verified September 2nd, 1942, submitted to the Borough Superintendent in connection with B.N. Application 1054-44, it is stated—"It appears from this that the premises of petitioner was used for the parking of about 35 to 40 automobiles from about 1928 to the present time and that I myself have been engaged in this since November, 1933, when I purchased the business from the former owner * * *"; clearly, Mr. Weisberg was also in error in making this statement, as appears by the photographs hereinbefore mentioned, because prior to May 16, 1931, the property had not been used either for the storage or parking of cars on the said premises; that the use of the said premises for the placing of automobiles thereon was for storage purposes is made evident by the testimony given by Nathan Weisberg before Mr. Hannes, Civil Engineer of the Building Department, under date of October 19, 1944, in which he testified as follows:

> "Q. How many cars did you have for sale? A. No more than 10 cars, and the rest were for parking.
>
> Q. So what would be the balance there for parking? A. 25.
>
> Q. How did these people pay you for placing their cars on the plot? A. $3 a month.
>
> Q. Did you ever rent any space by the day? A. No, there was no need for day parking."

that Mr. Weisberg also testified he had never obtained a permit for storing or parking, nor had he paid any fees to the Fire Department; that the indiscriminate use of the word "parking" throughout the papers submitted to the Borough Superintendent, by the owner, is the result of the failure to distinguish between "parking" and "storing" as is evidenced by the testimony of Mr. Weisberg; that his testimony clearly indicates that he was using the property for storage purposes, renting space by the month, while at the same time he was constantly referring to the parking of cars, not being aware of the legal distinction; it is clear, however, that whatever use was made was for storage purposes, and not for temporary parking; that it is submitted that the property was being unlawfully used for the storage and such unlawful use cannot be the basis for the Borough Superintendent's action; and

WHEREAS, the applicant has filed a copy of last owners search made by the City Register, which indicates the last recorded conveyance of the premises in question to O. Realty Company, Inc. 1476 Broadway, New York City; and

WHEREAS, the Board under date of January 19, 1945, notified such owner of the hearing to be held by the Board January 23, 1945; and

WHEREAS, the Board, as presently constituted, has been familiar with the area and use of the lots in question due to inspections from time to time in connection with applications before the Board, namely: 409-31-BZ; 235-31-BZ; 113-33-BZ; 293-33-BZ; and 702-44-A, which were in relation to premises in the immediate vicinity; and

WHEREAS, the Commissioner of Buildings issued a Letter Permit No. 174 on May 24, 1934, relating to the premises and purporting to permit "day-time parking" and restricted to five cars overnight; and

WHEREAS, such Letter Permit was a nullity, as there is no provision of law providing for such a type of Letter Permit in lieu of a certificate of occupancy required by the City Charter, the Administrative Building Code and the Zoning Resolution; and

WHEREAS, no other permit for use of the plot for sale of used cars or to cross the sidewalk appears to have been issued at any time; and

WHEREAS, from the records in the Board's files and in the records in the Department of Housing and Buildings and from testimony before the Borough Superintendent and before the Board in this appeal, the Board finds that there was no parking or storage use prior to 1931, and that whatever parking or storage was intermittently carried on after that date in conjunction with the sale of used cars, for which no permit was issued, was in fact storage inasmuch as the record shows that fees were collected therefor; and

WHEREAS, the Court of Appeals in *Monument Garage* v. *Levy* (266 N. Y. 339), in distinguishing between the meaning of the terms "storage" and "parking", did not take cognizance of the fact that, whether termed "parking" or "storage", the placing of a motor vehicle on a lot for safe keeping and where a regular fee or charge is made on the basis of a day, week or month, the business conducted is a storage lot for motor vehicles, which has been an unlawful use for more than five cars in a business use district since 1928; that the court has now adequately defined the term "storage" in a recent decision by Mr. Justice Hammer, at Special Term, Supreme Court, Bronx County, in the *Matter of Glicker* v. *The Board* (N. Y. Law Journal, December 23, 1944, page 1813, a digest of which appears in the Bulletin of the Board of January 2, 1945, Vol. XXX, No. 1, page 1), to the following effect—that where more than five motor vehicles are placed on a lot in a business use district by their respective owners for safekeeping and a regular fee or charge is made on the basis of a day, week or month, the use of the premises is "storage" and not "parking" and such use has been unlawful since 1928 (Amendment of March 1, 1928); and

WHEREAS, in the opinion of the Board, the decision of the Court of Appeals in *Boardwalk & Seashore Corporation* v. *Murdock* could not be relied upon to justify the issuance of a permit in this case, inasmuch as the storage use was not established prior to 1928, when it could have been lawfully established, and has not been continuously maintained since that date.

Resolved, that the decision of the Borough Superintendent dated November 28, 1944, refusing to revoke the approval and permit issued under Building Notice 1054-44, is *reversed,* and that no other permit, certificate of occupancy or permit to cross the sidewalk, purporting to permit the use of the premises or access thereto for the storage or parking of more than five motor vehicles, shall be issued unless a zoning variance is granted by this Board for such use for the lots in question while located in a business use district.

707-44-A

APPLICANT—James Whitford, for St. Joseph's Hill Academy, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—205 Major avenue, northeast corner of Sand lane (1st floor); (Block 3095, Lot 21), Arrochar, Borough of Richmond.

MINUTES

APPEARANCES—
For Applicant: James Whitford and Charles A. Bergman.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (707-44-A)

WHEREAS, James Whitford, for St. Joseph's Hill Academy, owner, filed December 5, 1944, an appeal from a decision of the borough superintendent, affecting premises 205 Major avenue, northeast corner Sand lane (1st floor); (Block 3095, Lot 21), Arrochar, Borough of Richmond; and

WHEREAS, the applicant has filed amendment to Alt. Applic. 46-44 with the borough superintendent wherein it is proposed to install a ceiling in a proposed extension with 2 in. by 4 in. beams, 16 in. on centers, hung from steel beams with 4 in. by 4 in. material bolted to steel rods; ceiling will be covered with rock lath and two coats of plaster; 4 in. by 4 in. struts will be placed 5 ft. on centers; and

WHEREAS, in acting on this amendment, the borough superintendent issued the decision herein appealed, which decision is dated November 27, 1944 and reads:

"2. Construction indicated in hung ceiling is not fireproof construction having a fire resistive rating of 3 hours and therefore is not acceptable. C26-239.0."

and

WHEREAS, the applicant states the building is 3 stories (44 ft.) in height; 106 ft. 6 in. by 71 ft. in area at 1st floor; 106 ft. 6 in. by 52 ft. in area at 2nd floor; of Class 1 construction; erected 1925; located in a residence use, E area, Class 1 height district and used and occupied since 1925 as follows: cellar, kitchen, dining room, gymnasium; 1st floor, dining room, auditorium and classrooms; 2nd floor, classrooms, music room and library; 3rd floor, dormitory rooms, and proposed to be used and occupied as follows: cellar, same; 1st floor, dining room, auditorium, class rooms and sun porch; 2nd floor, same; 3rd floor, same; that the building is equipped with an interior fire alarm system and fire drills are maintained and that there are two 45 in. fireproof stairs from the roof to the street; and

WHEREAS, Certificate of Occupancy 350 issued January 19, 1926, classifies the building as brick construction convent, and permits its use as follows: basement, kitchen and dining rooms; 1st floor, class rooms, etc.; 2nd floor, class rooms, etc.; 3rd floor, dormitories, etc.; roof, promenade, total occupancy of 100 persons; and

WHEREAS, the applicant contends that this is an appeal from the decision of the borough superintendent referring to the furred ceiling in the one story extension being constructed on the front of the present school building; that the extension in question is used for two class rooms; that the entire foundation and first floor construction are reinforced concrete with asphalt tile finished floor; that the walls are 12 in. brick and the roof is fireproof; that no furred ceiling was contemplated in the original plans; that the owner, however, requested the contractor to provide a furred ceiling in order to conceal the plumbing and heating pipes, etc.; that the contractor proceeded to provide for metal furring and wire lathing and installed ¾ in. steel rod hangers spaced 4 ft. on centers, but was unable to obtain the channel iron furring and wire lath, due to war conditions; that the contractor then proceeded to provide 4 in. by 4 in. timbers, spaced 4 ft. on centers through which the ¾ in. bolts are extended, and provided with plates and nuts on the under side. 2 in. by 4 in. beams, spaced 16 in. on centers are cut in between the purlins and spiked; that the entire ceiling is then covered with rock lath and prepared for two coats of plaster; that all work has been completed, except the two coats of plaster; that as the structure is fireproof and interior partitions are of gypsum blocks and as the ceiling is supported with steel hangers and the underside of the frame furring is protected with rock lath and will be plastered and thus will provide a reasonably fire retarded condition and since the contractor used every effort to obtain the fireproof furring and wire lath and spaced the hangars accordingly, it is requested the Board grant this appeal, to permit the construction as now proposed to be completed.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 46-44, Objection 2, dated November 27, 1944, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that granulated rock wool shall be placed on the rock lath to a point 1 in. above the 2 x 4 furring and that the ceiling shall be plastered with not less than two coats of Vermiculite plaster to a thickness of not less than 5/8 in.; that the cross wall of gypsum block, shown on plans filed with this appeal marked "Received December 5, 1944", shall run to the underside of the roof slab.

745-44-A

APPLICANT—Lama and Proskauer, for Morris Goldberg, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—3042-3060 (3050-3060 displayed) West 23rd street, west side, 99 ft. north of Boardwalk (Block 7070, Lots 142 to 145 and 155), Borough of Brooklyn.
APPEARANCES—
For Applicant: Alfred A. Lama.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (745-44-A)

WHEREAS, Lama and Proskauer, for Morris Goldberg, owner, fied December 27, 1944, an appeal from a decision of the borough superintendent, affecting premises 3042-3060 West 23rd street, west side, 99 ft. north of Boardwalk (Block 7070, Lots 142, 143, 144, 145 and 155), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent dated December 18, 1944, on Alt. Applic. 1930-44, reads:

"15. All stairways to lead in a continuous enclosure to street, as per section 6.4.1.11 of the Building Code.

16. Capacity of stairways inadequate for egress from 3rd & 2nd floors and solarium and sunroof over two story extension, as per section 6.4.11 of the Building Code.

17. Every room or area having an occupancy of more than 75 persons to be provided with two remote doorways leading to an exit or exits, as per sec. 6.1.2.2.1 of the Building Code,"

and

WHEREAS, the applicant states the building is 3 stories (38 ft.) in height; 93 ft. by 128 ft. in area; of Class 1 construction; erected 1932; located in a business use, C area, Class 1 height district and used and occupied since 1932 as follows: 1st floor, office, swimming pool, baths, and vapor rooms, 500 persons; 2nd floor, dressing rooms, 500 persons; 3rd floor, dormitories, beauty solariums, 11 persons; roof, sun bathing, 250 persons, and proposed to be used and occupied: 1st floor, same, 242 persons; 2nd floor, same, 906 persons; 3rd floor, same 323 persons; roof, same 338 persons; and

WHEREAS, the applicant states to the borough superintendent in specification sheet filed with Alt. Applic. 1930-44, that the building will be used and occupied as follows: 1st floor, office, laundry and bathing, 242 persons; 2nd floor, roof, dressing rooms and sun bathing, 165 persons; 2nd floor, restaurant, solarium, 1225 persons; 3rd floor, dormi-

tories and solarium, 484 persons, roof, sun bathing, 240 persons; and

WHEREAS, the applicant states the building is equipped with two 3 ft. 8 in. iron stairs, enclosed in terra cotta partitions, equipped with fireproof, self-closing doors and leading from the roof bulkhead to the first story; and

WHEREAS, the applicant states that the premises has a frontage of 276 ft. 9½ in. on West 23rd street, running through to West 24th street and faces the Boardwalk; that the plot is improved with a 3 story fireproof building, 94 ft. front, 128 ft. in depth; constructed under N.B. permit 7502-32, for which Certificate of Occupancy 71856 was issued; that it is proposed to construct a new 2 story extension to the north, 63 ft. 6 in. by 85 ft. in area; that with the construction of the proposed extension, the present fire escape on the northerly portion of the existing building will be removed and new fire proof stairway constructed, these stairs will lead to the rear yard, from which there is access to both West 23rd street and West 24th street; and

WHEREAS, the applicant contends that the building is equipped with a standpipe system, completely fireproof and periodic fire drills are maintained; it is therefore respectfully requested that this appeal be granted.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 1930-44, be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Objection 15, *on condition* that the exit from all stairs shall be over the vacant property under the same ownership, leading directly to the street or boardwalk; and withdrawn as to Objections 16 and 17, to comply.

518-31-S

APPLICANT—Sidney L. Strauss, for the Presbyterian Hospital, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Variation of the Labor Law, as cited in an order and decision of the fire commissioner and a decision of the superintendent of buildings (previously granted on condition).

PREMISES AFFECTED—53 West 56th Street, northside, 189.4 ft. east of Sixth avenue (Block 1272, Lot 9), Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney L. Strauss.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

Negative: 0

THE RESOLUTION (518-31-S)

WHEREAS, this application from an order and decision of the fire commissioner and a decision of the superintendent of buildings, affecting premises 53 West 56th street, north side, 189.4 ft. east of Sixth avenue (Block 1272, Lot 9), Borough of Manhattan, was granted by the Board on March 18, 1932, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of March 18, 1932, by adding thereto:

"that in the event the building at 53 West 56th street is completely separated from the building at West 57th street and the two buildings are under different ownership, the terms of this resolution as to the occupancy of the building at West 56th street may, however, still apply in all other respects, provided the second means of exit is provided and maintained substantially as indicated on plans filed with this appeal marked "Received January 10, 1945;" that the number of persons within the building shall be limited to the capacity of the primary means of exit; that the amount of space occupied for factory work shall not exceed 25 percent of the total floor area of the building; that the decision of the borough superintendent on Alt. Applic. 1529-44, Objections 6 and 7, be and it hereby is *modified* as above stated and the variation of the requirements of the Labor Law *amended* to that effect."

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

628-44-BZ

APPLICANT—Anthony M. De Rose, for Paladino Bros. Holding Corp., owner.

SUBJECT—Application for consideration—reopening and consideration of new proposal—temporary change of occupancy for two years, for occupancy of building as storage warehouse for cosmetic bottles—re Application (decision of the borough superintendent) previously denied under section 7e of the zoning resolution, to permit in a residence use district, the change of occupancy from garage for more than five motor vehicles, to a paper-box factory for a temporary period of two years and to revert to garage storage thereafter.

PREMISES AFFECTED—437-445 East 120th street, north side, 100 ft. west of Pleasant avenue (Block 1808, Lot 19), Borough of Manhattan.

APPEARANCES—
For Applicant: Anthony M. De Rose and Frank A. Paladino.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and restored to the calendar, subject to usual procedure.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

Adjourned: 4:45 P.M.

JOSEPH J. DOYLE, Chief Clerk.

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse fo rneglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

RULES

RULES GOVERNING THE USE OF EQUIPMENT FOR SPRAYING AND DRYING OF PAINTS, VARNISHES, LACQUERS AND OTHER FLAMMABLE SURFACE COATINGS AND STORAGE OF SUCH MATERIALS.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JUNE 10, 1932 AND REVISED JULY 16, 1937, EFFECTIVE AUGUST 16, 1937 AND AMENDED JULY 25, 1944, EFFECTIVE AUGUST 21, 1944.

(353-30-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, subdivisions 2 and 3 of the Charter of the City of New York, to effectuate the provisions of C19-84.0, C19-85.0 and C19-86.0 of the Administrative Code.

Rule 1. Application.

1.1 No person, firm or corporation shall spray, dip or immerse any article or thing within the City of New York with any flammable paints, varnishes, lacquers or any other inflammable or combustible substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes except in conformance with these rules, and under a permit issued by the Fire Commissioner. Where the quantity of spraying, dipping or immersing materials used in a day does not exceed two quarts, except for spraying as performed under Rule 5.13, and the total amount of material stored does not exceed twenty gallons, these rules shall not apply.

1.2 APPLICATIONS. Application for the required permit to store and use the above-mentioned materials shall be made to the Fire Commissioner on forms prescribed by him and shall contain such information as he may require. When a spray, dipping, immersing, storage or mixing room is to be installed, an application shall be filed with and approved by the Borough Superintendent before a permit is issued by the Fire Commissioner.

1.3 RESTRICTIONS. No spraying, dipping or immersing of any article or thing within the City of New York with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes shall be permitted in any premises or portion thereof as follows:

1.3.1 Which is occupied as a class A or B multiple dwelling or a dwelling for one or two-families, except where a location is provided which is separated by fireproof construction from the residential occupancy and ventilated as provided in Rule 3.

1.3.2 Which is occupied as a place of public assembly except trade schools where the buildings are of Class I or Class II construction and spraying, dipping or immersing are demonstrated for instruction purposes only.

1.3.3 Which is artificially lighted by any means other than electricity.

1.3.4 Which is heated by other than the use of steam or hot water circulating systems and the boiler is located outside the space where spraying, dipping or immersing is carried on.

Rule 2. Definitions.

2.1 The term "SPRAY or SPRAYING SPACE" "DIPPING SPACE or IMMERSING SPACE" when used in these rules shall mean that portion of the premises used for the actual work of spraying, dipping or immersing any article or thing with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds, commonly used for painting, varnishing, staining or similar purposes in any booth or room.

2.2 The term "CABINET BOOTH" when used in these rules shall mean a compartment with a back, top and two sides of incombustible materials over a substantial metal frame and equipped with air exhaust facilities, located within a room or any portion of any premises where spraying with any flammable paints, varnishes, laquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.3 The term "CANOPY BOOTH or HOOD" when used in these rules shall mean an installation consisting of a metal canopy or hood, without any side or end panels enclosing the object sprayed and an air exhaust system under which spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.4 The term "TUNNEL BOOTH" when used in these rules shall mean a compartment consisting of two sides and top, equipped with an air exhaust system in which spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.5 The term "SPRAY ROOM" when used in these rules shall mean a fully enclosed ventilated room approved for such use in which any article or thing is sprayed by any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.6 The term "DIPPING ROOM" when used in these rules shall mean a fully-enclosed ventilated room approved for such use in which any article or thing is dipped, or immersed in any flammable paints, varnishes, lacquers or any other flammable substances, mixtures, or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.7 The term "FIREPROOF or FIRE-RESISTING PARTITIONS" used in these rules shall mean the standards set in the Labor Law and the Rules of the Board of Standards and Appeals for factory buildings. All openings in this type of partition shall only be equipped with self-closing fireproof assemblies.

2.8 The term "STORAGE ROOM" when used in these rules shall mean a fully-enclosed ventilated room used for the storage and mixing of any inflammable paints, varnishes, lacquers or any flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes.

2.9 The term "CERTIFICATE OF FITNESS" when used in these rules shall mean the written permission granted by the Fire Commissioner to an in-

dividual to supervise and to process spraying, dipping and immersing materials and equipment, in accordance with the provisions of Section C19-14.0 of the Administrative Code and these Rules.

2.10 The term "PERMIT" when used in these rules shall mean the written permission issued to a person, firm or corporation by the Fire Commissioner, to store and use materials covered by Sections C19-12.0 and C19-84.0 of the Administrative Code and these Rules.

Rule 3. Ventilation.

3.1 Spraying or dipping spaces shall be ventilated when in operation so that the movement of air shall be at least one hundred (100') linear feet per minute in the breathing zone of the operator and be of sufficient capacity to prevent the accumulation of mist or vapors. For requirements of ventilation of storage rooms see Rule 4.4.1.

3.2 Air shall be admitted to the spraying, dipping or immersing spaces in an amount equal to the capacity of the fan or fans and in such a manner as to avoid short-circuiting the path of air in the working zone of such spaces. Exhaust fans shall be kept running constantly while spraying, mixing or dipping. Exhaust fan control shall be interconnected with spray gun so as to operate simultaneously. Exhaust fans shall, in addition, be arranged to operate independently of spray gun. Ventilation Equipment shall be kept in operation for a sufficient length of time thereafter to exhaust all vapors, fumes or residues of spraying materials from the spray booth, dip space or drying room. Air admitted to the spraying, dipping, immersing, drying spaces or storage rooms shall be fresh air taken from the outside of the building.

3.3 EQUIPMENT. Motors shall be located outside of spraying, dipping or immersing spaces except as provided in Rule 4.

Rule 4. Specifications for Spray Booths, Spray Rooms, Dip and Immersing Rooms, Drying Equipment and Material Storage Rooms.

4.1 Spray booths shall be constructed of metal or incombustible materials satisfactory to the administrative official having jurisdiction. Ventilation and lighting for spray booths, spray rooms, dipping rooms, drying rooms and storage rooms shall comply with the requirements of these rules.

4.1.1 Spray, dip and immersing rooms shall be enclosed on all sides with partitions constructed of incombustile materials with floors in such rooms of concrete. Where such rooms are located over wooden floors, such wooden floors shall be surfaced with 1" of grout adequately reinforced or a mixture of Portland cement, asphalt and sand similarly reinforced. Ceilings over such rooms shall be protected by 5/8" unsanded gypsum plaster or 7/8" of cement or sanded gypsum plaster on approved 3.0 lb. metal lath or other equivalent fire-resisting ceiling protection. Ventilation, lighting and heating for these rooms shall comply with the requirements of these rules. Where additional fire-fighting equipment is necessary, such equipment shall be furnished in accordance with the direction of the Fire Commissioner. Floor drains leading to the house drainage system or the public sewer, shall not be permitted. All dip tanks shall be provided with hinged metal covers held open by a fusible link, such covers to be equipped with an opening to permit automatic flooding of the tank with fire extinguishing media of a type and so located as the Fire Commissioner shall direct.

4.1.2 Panels of polished wired glass or plate-glass at least one-quarter (1/4) of an inch thick, not exceeding seven hundred and twenty (720) square inches in area and not more than forty-eight (48") inches in any linear dimension may be used in the sides of a spray booth or room.

4.1.3 The inner sides of walls, ceilings and the floors of all spraying or dipping spaces shall have a smooth surface.

4.1.4 All openings in spray, dip or immersing rooms shall be protected by fireproof opening protective assemblies. Windows opening on a street may be used to provide ventilation but no window on a lot line or less than 20 ft. from any opening in a wall of an adjacent building shall be permitted except when the subject room is more than 20 ft., in the horizontal plane, above an adjoining building.

4.1.5 Ferrous metals used in the construction of spraying, dipping or immersing spaces shall be thoroughly painted on the inside or be galvanized.

4.1.6 All spraying, dipping or immersing spaces shall be so constructed that at least three (3) feet of clear working space shall always be maintained for each operator spraying, dipping or immersing the material being processed.

4.2 STORAGE ROOMS.

4.2.1 Storage rooms shall be constructed of fireproof or fire resisting material and shall have a window opening to the outer air but such window shall not be on a lot line, enclosed court, nor opposite within twenty feet of windows of adjacent buildings nor part of the same premises, such window openings to be fireproofed and lower half provided with open louvers or ventilated by metal duct or fan at least 8 inches in diameter. The floors of all storage rooms shall be of incombustible non-ferrous materials. The sill of the door shall be at least 6 inches above the finished floor. All doors to be tin-clad, approved, fireproof and self-closing.

The lighting equipment shall comply with rule 4.5.2.2 and shall have an electric switch located outside the room. Immediately adjacent to such room shall be provided such portable fire extinguishing equipment for use within the storage room as the fire commissioner shall direct.

4.3 DRYING EQUIPMENT.

4.3.1 Gas Fired Drying Ovens. Gas fired drying ovens shall be of a type as approved by the Board. Such ovens shall be constructed of metal and incombustible materials so designed as to preclude the direct application of flame to the material in process. The exhausts from both the heating compartment and the drying compartment shall be individually equipped with adequate fans and exhaust piping connected directly to the outer air. The controls for the fans shall be so interlocked with the gas supply line that when the gas is flowing the fans are in operation. An extra switch shall be provided to permit the operation of the fans when the gas supply is off. Each

oven shall be equipped with approved gas burning equipment with electrical controls so arranged as to shut off the gas valve when ignition fails or the gas supply pressure drops to 2 inches of water.

The use of a continuous gas pilot light is prohibited unless an automatic gas shut off valve is provided, which will shut the gas off at the pilot light when the flame is extinguished or the supply of gas cut off. Electrical pilot ignition shall be of the continuous type, or equal in performance, designed for use in high temperatures, with controls so interlocked as to shut off the gas supply when current is interrupted. An auxiliary manually operated gas shut off valve shall be located not nearer than 25 feet from the oven so as to control the gas supply in the event of an emergency. Such ovens shall be adequately insulated on all sides, including the base, which shall have the equivalent of a double thickness of such insulation, unless the floor is protected by a 3 in. mat of reinforced concrete placed over and bonded into the existing concrete floor and projecting not less than 6 inches outside the projected area of the equipment, or unless an unenclosed clear air space not less than 4 inches above the floor is maintained between the floor and the underside of the oven.

4.3.1.1 Gas fired drying ovens shall not be located nearer than 25 feet from spraying or dipping spaces unless such oven is approved for use in explosive atmospheres.

4.3.2 Electric Infra Red Ray Drying Ovens.

4.3.2.1 Electric Infra Red Ray Drying Ovens shall be of a type as approved by the Board. Such ovens shall be constructed of electric equipment installed in accordance with the National Electric Code and the requirements of the Department of Water Supply, Gas and Electricity. Ovens when erected shall be placed on concrete floors without any additional protection, provided that at least 12 inches of clear space above the floor is provided to permit adequate ventilation.

4.3.2.1.1 In drying processed material, involving the evaporation of considerable amounts of flammable solvents by infra-red lamps, such installations shall not be confined in small rooms unless such rooms are thoroughly ventilated by a power driven ventilation system of sufficient capacity to provide 100 linear feet of air per minute; the controls of the ventilation system to be so interlocked with the Infra-Red Ray System that the latter cannot function unless the ventilating system is in operation. When equipped with duct ventilating system, the Infra-Red Ray Oven shall be adequately secured so as to prevent moving.

4.3.2.1.2 Where the evaporation of a considerable amount of flammable vapors are involved, ventilated hoods located as near to the floor as practicable or enclosures shall be provided at the initial stage of the process with adequate exhaust system to discharge the primary evaporation from the solvents to the outer air, so that when the processed material progresses through the lamp drying tunnels only a comparatively small amount of solvent is left for evaporation. A space between such ventilating section and the drying section shall be maintained.

4.3.2.1.3 Lamps and other electrical equipment shall be kept free from flammable deposits and adequate cleaning shall be maintained.

4.3.2.1.4 Lamp drying units shall be separated from spraying and dipping processes complying with these rules, by a distance of at least 15 feet or shall be installed in a separate fireproof room.

4.3.2.1.5 Controls shall be arranged so that the lamps in the tunnels will be shut off automatically if and when the conveyor stops.

4.3.2.1.6 Where there are no conveyors and the material being processed is left stationary in the dryer, there shall be an excessive temperature switch to shut off the lamps to avoid overheating the material being processed if it is not removed from the dryer in time.

4.3.2.1.7 Material to be processed on the conveyors shall be rigidly supported so as not to be liable to displacement and cause lamp breakage and short circuits. Where there are no conveyors, materials should be fixed on dollies running on tracks or other equivalent method to accomplish the same result.

4.3.3 The use of these processes shall be limited to metal or other incombustible material requiring paint processing.

4.3.4 Such fire fighting equipment suitable for electrical and solvent vapor fires shall be provided as the fire commissioner may direct.

4.4 SPECIFICATIONS FOR DUCTS, PIPES AND FANS.

4.4.1 All ducts used for ventilating spray, dip or immersing spaces shall be constructed of approved incombustible materials or metal

of not less than the following gauges of metal.

Ducts twenty-four (24") inches or less in diameter No. 22 gauge.

Ducts over twenty-four (24") inches and not over thirty-six (36") inches in diameter No. 20 gauge.

Ducts exceeding thirty-six (36") inches in diameter No. 18 gauge.

4.4.2 Ducts shall be strongly constructed and be installed in a workmanlike manner. They shall be rigidly supported.

4.4.3 Ventilating ducts shall run as directly as practicable to the outer air and be protected with a hood against the weather. The exhaust terminal or hood shall also be protected with a screen of copper or bronze with a mesh not larger than one-quarter (¼") inch.

4.4.4 Where a duct passes through a non-fireproof floor or roof, the duct shall be protected at such point by an outer pipe or sleeve with an air space of at least one (1") inch between the sleeve and pipe protected from the woodwork by at least a 1" blanket of asbestos, compressed rockwool or glasswool, or equivalent fire-resistive material extending through the entire depth of the ceiling construction and adequately secured to the outer pipe. The outer pipe shall be not less than two (2") inches from any woodwork and such woodwork shall be covered with at least 26 gauge metal or other incombustible material.

4.4.5 Ventilating ducts shall not terminate within ten (10) feet measured horizontally of any chimney outlet, unprotected air intakes or within twenty (20) feet of any exit or any opening in an adjoining building.

4.4.6 If induced draft is used to create an air movement, the air shall be supplied from a point outside the spray or dip or immersing space. Fans and motor must be located outside the spray, or dip space, except approved explosion-proof motor and non-ferrous blade fans which, however, are not to be located where residues of spraying material may collect on such equipment.

4.4.7 The exhaust system from any spray, dip or immersing space shall not be connected to any other ventilating system or be discharged into a chimney or flue used for the purpose of conveying gases of combustion.

4.4.8 Exhaust fan blades shall be constructed of non-ferrous metal. All exhaust and ventilating fans to be permanently connected to their source of power, using metallic conduit. Rheostats in fan bases not permitted. Fan blades not coming in direct contact with spraying fumes, need not comply with this requirement.

4.4.9 Adequate access doors or panels made tight fitting by means of screw bolts, clamps or springs shall be provided, to permit inspection and cleaning.

4.5 ELECTRICAL EQUIPMENT AND LIGHTING FIXTURES.

4.5.1 No motors, switches, rheostats, lamps, flourescent light or other electrical equipment shall be located in spray, dipping or immersing rooms or within ten (10′) feet of the open end of any spray compartment, spray booth, immersing or dipping space unless such electrical equipment be of a type approved for use in explosive atmospheres and where a conduit leads from a hazardous location to a non-hazardous location, the conduit shall be sealed off by an approved sealing compound. Except that alternating current induction motors of the totally enclosed type, having no brushes, make and break contacts, collectors or other arcing or sparking parts may be located within ten (10′) feet of a spray booth, spray compartment or dipping space when approved by the administrative official having jurisdiction. No open flame shall be used within 25 ft. of spray, dip or coating space or paint storage room or cabinet except when separated by fireproof construction, except as provided in Rule 4.3.1. Gas Fired Drying Ovens and 4.3.2.1.4 Electric Infra Red Dry Ovens.

4.5.2 Lighting Fixtures.

4.5.2.1 Artificial lighting shall be only by means of electricity.

4.5.2.2 When lighting fixtures are located within 10 feet of a spray booth, spraying space, dipping space or within a storage room they shall be of the rigid stem type, enclosing all wiring and be equipped with keyless sockets having vapor proof globes. Where exposed to breakage, globes shall be adequately protected by substantial metal guards or equivalent means. Fluorescent tube type lighting fixtures when used in spray booths or in spray and dip spaces or in storage rooms or rooms containing inflammable vapors, shall be of a type approved for use in explosive atmospheres. The auxiliaries of mercury vapor lamps shall be offset at least ten (10) feet from spray booth, spray or dip spaces unless enclosed in explosion-proof protection.

4.5.2.3 All electrical equipment shall be installed and grounded as provided by the Administrative Code covering electrical equipment and permanently connected to their source of current supply, using metallic conduit.

4.5.2.4 No pin plug receptacles shall be used except when the use of receptacles and attachment plugs become necessary they shall be so connected to form a part of a unit device with explosion-proof interlocking switch precluding the removal of the plug where the switch is in the "on" position or by an approved explosion-proof enclosure which can seal the arc when the current is interrupted. Such receptacles and plugs shall be of the polarized type providing a connection for the grounding wire of the portable cords.

4.5.2.5 All electric wiring shall be enclosed in rigid standard weight metallic conduits with explosion proof joints and fittings. Joints in metallic conduit having threaded couplings shall not have less than five (5) fully engaged threads. Where flexible connections are required a flexible fitting approved for explosive atmospheres shall be used.

4.5.2.6 The use of portable cords or trailer lights are prohibited, except when flexible cord approved for hard usage containing one (1) extra insulated conductor properly connected to form a grounding connection for metal lamp guards, motor frames and all other exposed metal portions of such portable lamps and devices may be used. When portable lamps are used they shall be enclosed in a manner approved for explosive atmospheres and with substantial guards of metal to prevent breakage. Sockets shall be of the keyless moulded composition type with no exposed metal parts.

Rule 5. Maintenance and Operation.

5.1 Every premises wherein a spraying, dipping, or immersing space is maintained and operated shall be continuously under the charge and supervision of one or more persons holding a certificate of fitness, whose duty shall be to see that the spray, dipping and immersing space comply with the rules and the terms of the permit are not violated. No other duties shall interfere with the enforcement of these rules while the work is in process. A copy of these rules shall be available near the space where these rules apply.

5.2 Smoking or the carrying of lighted cigars, cigarettes, matches or pipes in spray, dipping or immersing space is prohibited.

5.3 No person shall be permitted within a spray space between the spray gun and the exhaust outlet while the spray gun is in use.

5.4 Spraying, dip or immersing spaces and its surroundings shall be kept clean at all times and shall be kept clear of all materials, equipment and utensils not required in the operation of the spray. Side walls, ceilings, baffle plates, etc., shall be sprayed with soap and water solution, before cleaning, or cardboard or masking paper may be fastened before any operation and after said operation all waste material shall immediately be removed from the premises.

5.5 Floors within and surrounding spray, dip or immersing spaces shall be kept clean and free from waste material at all times.

5.6 Spray rooms, booths, fans, ducts, and other equipment shall be cleaned frequently and maintained in clean and efficient working condition; lacquer spraying booths shall be wet down before cleaning.

5.7 Implements used for cleaning shall be made of non-ferrous material to avoid sparks.

5.8 Metal waste cans with self-closing covers shall be provided for all spraying, dipping or immersing spaces and storage rooms. The number to be installed shall be determined by the administrative official having jurisdiction.

5.9 Approved fire appliances shall be installed in all spraying, dipping or immersing spaces and in storage rooms as may be determined by the administrative official having jurisdiction.

5.10 Accumulation of flammable waste, sweepings or deposits from spray, dip or immersing space is prohibited. All such waste shall be placed in approved waste cans and be removed from the premises at the close of work each day.

5.11 All sand papering of lead painted surfaces shall be done with wet sand paper.

5.12 When a motor vehicle is taken into a spray space, the batteries shall be disconnected before the process of spraying is begun.

5.13 Before spraying is performed on elevator cars all electric power operating all elevators enclosed in a common shaft, shall be turned off. While such work is in progress portable fire extinguishers shall be provided and maintained adjacent to the work as the fire commissioner shall direct. Such shafts shall be well ventilated of fumes before starting elevators.

5.14 Inflammable solvents used for cleaning equipment or for any other purpose shall not be discharged into the house drain.

Rule 6. Material Storage and Mixing.

6.1 Main supplies of spray coating and dipping materials and thinners shall be kept in an outside storage building, storage rooms or in vented metal cabinets in accordance with the following amounts:

6.1.1 Spraying materials not in excess of 100 gallons may be stored in single walled metal cabinet ventilated to the outer air. Such cabinet to be metal covered on all sides, including the door and arranged for ventilation at top and bottom.

6.1.2 Spraying materials not in excess of 200 gallons may be stored in double-walled metal cabinets ventilated to the outer air or wood cabinets metal covered on all sides, including the door, and arranged for ventilation at top and bottom, to the outer air.

6.1.3 Spraying materials in excess of 200 gallons shall be stored in a separate exterior storage building of fireproof or fire-resisting material with ventilated plain glass skylight or in a storage room constructed fireproof in a fireproof building or fire-resisting in a non-fireproof building. The maximum amount of spraying materials to be stored in a storage room of a non-fireproof building shall be determined by the administrative official having jurisdiction.

6.1.4 Mixing or thinning of coating materials shall be conducted in a storage building or storage room, except that containers of total capacity not exceeding ten gallons may be opened and their contents mixed in the spray room or room in which booths are located while the air exhaust system is operating.

6.1.5 Working supplies sufficient for not more than one day's use but not exceeding twenty gallons to each booth, nor a total of one hundred gallons, may be kept in the spray room or room in which spray booths are located; covers of containers must be kept thereon when such containers are not actually in use. This amount is in addition to the amount allowed in Rule 6.1.7.

6.1.6 Gravity feed material containers for supplying spray guns shall not exceed ten gallons in capacity and shall be supported by wire cables or metal brackets having a factor of safety of four when filled with the heaviest spraying materials used.

6.1.7 Pressure feed tanks and other equipment for use in connection with direct spraying under air pressure shall be restricted to tanks of not more than sixty gallons, individual capacity, designed, constructed and approved for this specific purpose by the Board of Standards and Appeals. Each tank shall be provided with a safety valve set at a pressure not exceeding eighty pounds. All gravity feed containers and other spraying equipment shall be approved as above.

6.1.8 The installation of all electrical wiring, switches, lighting and all other electrical equipment, and the provisions of these rules against carrying matches or smoking and prohibiting flame or spark-producing devices, shall also apply to storage or mixing rooms.

6.2 Storage of Materials where nitro cellulose products are manufactured.

6.2.1 Storage of spraying, dipping and immersing materials shall be as provided in Rule 6.1.1 through Rule 6.1.3, but in a building in which nitro cellulose products are manufactured, stored or kept the amount shall be not over twenty-five (25) gallons as per Section C19-113.0, subdivision h of the Administrative Code.

6.3 Sprinklers.

6.3.1 Sprinkler heads shall be provided in all spray, dip or immersing spaces and storage rooms and shall be installed in accordance with the Sprinkler Rules of the Board of Standards and Appeals, except in non-sprinklered buildings where sprinkler connection may be made to the house water supply, provided the size of the house water supply line is adequate for the number of sprinkler heads.

6.4 Maintenance of Sprinkler Heads.

6.4.1 Sprinkler heads in spraying, dipping and immersing spaces shall be cleaned at least once a week under the supervision of the person holding the certificate of fitness and a coating of light grease or vaseline shall be applied after each cleaning to prevent the formation of a hard deposit and render the sprinkler useless in case of fire. The use of paper bags or other materials about sprinkler heads is prohibited.

Rule 7. General Requirements.

Notice—Attention is called to the provisions of the Administrative Code as to violations reading as follows:

Section C19-152.0 of the Administrative Code, "Any person who shall willfully violate or neglect or refuse to comply with any of the provisions of this chapter in addition to any other penalties prescribed by law or ordinance shall, upon conviction, be punished by a fine of not more than $500 *or by imprisonment not exceeding 6 months, or by both such fine and imprisonment."*

NOTE:—The principal cause of fires in spray-booth installations are: broken electric lamps and other electrical defects; cleaning the interior of booths, fans and motors with highly flammable solvents; accumulation of deposits in the tubes and vent pipes from neglect in cleaning them frequently; unnecessary accumulation of waste and refuse, smoking and a general lack of cleanliness.

(a) "No Smoking" signs, with letters at least 2 inches in height, shall be posted at entrances to and in all spray rooms and paint storage rooms or building.

(b) No combustible materials shall be stored or maintained within 15 feet of any spray booth.

(c) All stocks shall be arranged so as not to interfere with the operation of automatic sprinkler heads.

(d) Adequate mechanical or natural ventilation shall be provided.

(e) No open flames or devices creating open flames or arcs shall be maintained within 25 feet of the spray or dipping process.

(f) The premises where painting, dipping or immersing is performed shall be kept clear of empty paint cans, rubbish, paint accumulations and other combustible material.

Rule 8. Existing Spray Booths and Installations.

8.1 These rules shall be retroactive in the following respects:

Rule 1.3.4 Heating of Rooms.

Rule 3.1 Air Exhaust System.
3.2 Air Supply and Mixing.

Rule 4.0 Specifications for Spray Booths, Spray Rooms, Dip and Immersing Rooms, New Drying Equipment, and Material Storage Rooms.
4.1.3 Surfacing of Booths.
4.1.5 Surfacing of metal in Booths.
4.3.2 Maintenance of Ducts.
4.4.6 Method of Induced Draft.
4.5.1 Electrical Equipment.
4.5.2 Electric Lighting.

Rule 5.1 Certificate of Fitness.
5.2 Smoking, Matches, etc.
5.6 Maintenance of Equipment.
5.7 Cleaning Implements.
5.9 Fire Appliances.
5.10 Accumulation and disposal of waste materials.
5.12 Motor Vehicles in booths or rooms.
5.13 Spraying Elevator Cabs.

Rule 6. Material, Storage and Mixing.

Rule 7. General Requirements.

Rule 8.1 Rules 6.1, 6.2, 6.3 and 6.4 may not be applied in fireproof buildings equipped with an approved existing automatic sprinkler system where the general conditions of cleanliness are properly maintained at all times.

Rule 9. Permits and Plans.

Before a permit is issued by the fire commissioner, plans shall be filed with the borough superintendent, stating name, address, floor and space where the painting, dipping or spraying processes or storage room are to be installed. Such plan shall include a complete layout of the proposed installation and shall clearly indicate the location of all exterior wall openings, in premises and adjacent buildings, exits, chimneys, vent openings and proposed processes.

Plans shall be filed with the borough superintendent for storage and mixing rooms. Such plans shall show the complete floor plan of the proposed equipment and the location of the proposed equipment with respect to the storage and mixing rooms, exterior wall openings, in premises and adjacent buildings, exits and all chimneys within 20 feet of storage rooms and vent openings.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1018, Municipal Building, Manhattan, at three cents each—postage to be added if the forms are forwarded by mail.

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

APPLICANT—Albert E. Wheeler, for Vinmont Land Corporation, owner.

SUBJECT—Application (decision of the acting borough superintendent) under Section 21-C of the zoning resolution, to permit in a C and F area district, a one-family residential development not conforming to the area district requirements.

PREMISES AFFECTED—East side of Mosholu avenue, from West 254th to West 255th streets (Block 3421C, Lot 1311, and Block 3421D, Lot 1417), Borough of The Bronx.

APPEARANCES—

For Applicant: Albert E. Wheeler.
For Opposition: None.
For Administration: Fred Dahlem, Dept't of Housing and Buildings and Gustav Goldman, Board of Education.

ACTION OF BOARD—Application placed on the Reserve Calendar.

284-36-BZ

APPLICANT—W. T. McCarthy, for The House of St. Giles the Cripple, owner.

SUBJECT—Application reopened December 12, 1944—re Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit partly in a C area district and partly in an E area district, the alteration and extension to height of an existing hospital building, and the erection of additions thereto, to occupy a greater area than that permitted by the zoning resolution.

PREMISES AFFECTED—1342-1350 President street and 335-343 Brooklyn avenue, southeast corner (Block 1285, Lot 7), Borough of Brooklyn.

APPEARANCES—

For Applicant: None.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn on written request of applicant.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

337-33-BZ

APPLICANT—Robert Teichman, for City Bank Farmers Trust Company, as trustee of Estate of William Waldorf Astor, owner.

SUBJECT—Application reopened January 9, 1945 for consideration as to extension of permit (expired by limitation)—Application (decision of the acting borough superintendent) previously granted on condition, permitting in a business use district, under section 7h of the zoning resolution, for a term of two years, the maintenance of a storage space for more than five motor vehicles.

PREMISES AFFECTED—East side of River avenue, 100 ft. north of East 161st street (Block 2484, Lot 9), Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Teichman.
For Opposition: Harold Klorfein, Dept. of Parks.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (337-33-BZ)

WHEREAS, this application, permitting in a business use district, for a term of two years, the maintenance of a storage space for more than five motor vehicles, affecting premises: east side of River avenue, 100 ft. north of East 161st street (Block 2484, Lot 9), Borough of The Bronx, was granted by the Board on February 14, 1934, on certain conditions; and

WHEREAS, the permit was extended from time to time, the last such extension, having been granted on October 20, 1942; and

WHEREAS, the applicant requested a further extension of the permit which had expired by limitation; and

WHEREAS, this case was reopened by vote of the Board on January 9, 1945, restored to the calendar and set for hearing on January 30, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meet-

ing on January 30, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of February 14, 1934, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, permitting the plot to be used as a storage space for more than five automobiles of the pleasure-car type, during periods when the Yankee Stadium is used for baseball games or exhibitions and in no event to permit this storage space to be used for over-night storage or parking, *on condition* * * * and that, other than as herein *amended,* the conditions of the resolution of February 14, 1934 shall be complied with."

120-39-BZ

APPLICANT—F. D. Koehler Co., Inc., owner (Horace C. Carter, lessee).

SUBJECT—Application reopened January 9, 1945 (decision of the acting borough superintendent) under section 7i of the zoning resolution, to permit in a business use district, the maintenance of a motor vehicle repair shop (previously granted by the Board for a temporary term of two years) on a plot with an existing gasoline service station.

PREMISES AFFECTED—1646 Hylan boulevard and 301-309 Seaview avenue, northeast corner (Block 3379, Lot 89), Dongan Hills, Borough of Richmond.

APPEARANCES—

For Applicant: W. E. Gerke, Jr.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended and permit extended.

THE VOTE TO AMEND RESOLUTION AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (120-39-BZ)

WHEREAS, this application, permitting in a business use district, for a term of two-years, the maintenance of a motor vehicle repair shop in part of an existing building located on a plot with an existing gasoline service station, affecting premises 1646 Hylan boulevard and 301-309 Seaview avenue, northeast corner (Block 3379, Lot 89), Dongan Hills, Borough of Richmond, was granted by the Board on February 27, 1940, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit, which had expired by limitation; and

WHEREAS, this case was reopened by vote of the Board on January 9, 1945, and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 30, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Hylan boulevard is in a business use, D area and Class 1 height district and Seaview avenue is in a local retail and business use, D area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated December 18, 1944, re B.N. App. 8-39 and request for certificate of occupancy reads:

"Your application for a certificate of occupancy is denied because—

1. The resolution of the Board of Standards and Appeals, Cal. 120-39-BZ, limited the occupancy of these premises as a motor vehicle repair shop and gasoline service station to a term of two years, expiring February 27, 1942."

and

WHEREAS, the applicant states that the premises consist of a plot 100 ft. frontage by 106 ft. in depth, on which is located a one-story, Class 3 constructed building, 20 ft. by 84 ft. in area; the plot is occupied as a gasoline and oil selling station accessories, motor vehicle repair shop and storage of four cars; and

WHEREAS, the applicant contends that this is an application for the extension of a variance previously granted by the Board, which has expired by limitation; that it was originally granted to Charles Hofmann, lessee; Cecelia Hofmann, owner, subject to limitations and expiring on February 27, 1942; that the premises were vacant and unoccupied, because of gasoline rationing and war conditions, for nearly three years, from December 29, 1941 until the present owner leased the premises as of September 16, 1944, to Horace Carter, a medically discharged war veteran and skilled auto mechanic; that the applicant acquired title on April 7, 1942 and had no knowledge, until recently, that the original variance was of a temporary nature and had expired February 27, 1942, almost one and one-half months before the applicant took title; that no new work is proposed; that there has been no change in the area, and conditions are the same now as they were on February 27, 1940, when it was originally granted; that the records of the Dept. of Housing and Buildings, show the original building was erected in 1924 and a certificate of occupancy issued July 30, 1924, for use as a gasoline and oil selling station, and accessory store, and covered a 1½ story concrete block building, approximately 20 by 36 ft.; that in 1924, an additional 20 ft. by 48 ft. was built for use as a battery station and a small motor vehicle repair shop; that in 1935 a further addition consisting of toilet rooms and a work room was built; that since 1926, the premises have been continuously occupied as a gasoline, oil and accessory station, and from February 27, 1940, under the variance granted by the Board, as a motor vehicle repair shop, until December 29, 1941, when it was unoccupied temporarily because of war conditions producing a scarcity of skilled auto mechanics; that the lessee, a medically discharged war veteran and a skilled mechanic, requires a small motor vehicle repair shop in order to carry on the business; that such a shop is needed for the residents of the adjoining area, there being none for a distance of one mile in one direction and three miles in another direction; that most of the land immediately adjoining on Hylan boulevard is vacant and unimproved; that there is no intention either to operate a large motor vehicle repair shop or to increase the area which has been operated for that purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of February 27, 1940, so that as amended, the resolution shall read:

"*Granted* under section 7i for a temporary term of two (2) years from the date of this *amended* resolution, to permit the building as proposed to be occupied for motor vehicle repair work as shown on plans filed with this application marked "Received December 27, 1944," *on condition* that such repair work shall be limited to work to be done by hand tools except that a motor-driven grinder, drill and lathe may be permitted, provided that no such machine has a motor greater than ½ h.p.; that no sign shall be erected on the premises advertising the repair work; that the area now so used shall not be further extended; that a new Certificate of Occupancy shall be obtained to include the existing gasoline station and the motor vehicle repairing herein permitted and a garage for not over four (4) motor vehicles; that no cars shall be parked along the sidewalk of Seaview avenue; that all permits shall be obtained and all work completed within three (3) months from the date of this *amended* resolution."

APPLICANT—Paul Friedman, for Isser Einhorn, owner (Adelphi Paint and Color Works, Inc., lessee).

SUBJECT—Application (decision of the acting borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence use district, the addition of a 2nd story on an existing paint storage building and its connection to an existing two story paint factory.

PREMISES AFFECTED—85-20 to 85-26 and 86-02 to 86-08 135th (Dumont) avenue, south side, 441.83 ft. east of 84th street (Block 11396, Lots 25 and 32), Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman, Samuel Gardstein, Samuel Einhorn and Isser Einhorn.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Harold Klorfein, Dep't of Parks.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (599-44-BZ)

WHEREAS, Paul Friedman, for Isser Einhorn, owner (Adelphi Paint and Color Works, Inc., lessee), filed October 20, 1944, an application under section 7c and 21 of the zoning resolution, to permit in a residence use district, the addition of a second story on an existing paint storage building and its connection to an existing two story paint factory, affecting premises: 85-20 to 85-26 and 86-02 to 86-08 135th (Dumont) avenue, south side, 441.83 ft. east of 84th street (Block 11396, Lots 25 and 32), Ozone Park, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 30, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that 135th avenue and 84th street are in a residence use, D area and 1 times height district; and

WHEREAS, the decision of the borough superintendent, dated October 9, 1944, re Alt. App. 1219-44, reads:

"1. The proposed addition to existing commercial building located within a residence district, is contrary to Article 2, Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that this is an application under sections 7c and 21 of the zoning resolution, to permit in a residence district, the erection of a fireproof, second story (to be used for storage of paints) to an existing, fireproof, one story building (used for storage of paints), and to connect the proposed second story by means of horizontal exits to the existing, adjoining second story of a fireproof building (used for office, stockroom and factory for manufacture of paints); that the premises consist of a plot having a frontage of 184.16 ft. and an irregular depth of from 160 ft. to 197 ft., on which 5 buildings are erected, which are designated on the plot plan as buildings #1 to 5, inclusive.

Building #1—is a one story fireproof building, having a frontage of 61 ft. and an irregular depth of from 70.6 ft. to 90.10 ft., 11 ft. in height, erected in 1936, under permit 437-36. Certificate of Occupancy #52449, issued on December 14, 1936, permits occupancy for storage. It is proposed to erect a fireproof second story to this building for paint storage use and to connect the 2nd story by means of horizontal exits to the existing, adjoining second story of Building #2.

Building #2—is a two story fireproof building, 72 ft. by 90.10 ft. in area, erected in 1933 under Alt. Applica. 1769-33, to replace a two story building (used for paint factory), which was entirely destroyed by fire in 1931, except for the four walls. Altered Building Certificate of Occupancy #2763, issued on June 30, 1933, permits occupancy for office, stockroom and factory. It is proposed to alter this building by creating horizontal exits to the proposed second story of building #1.

Building #3—is a one story fireproof building in the rear of the lot, 43 ft. by 40 ft. in area, 14.8 ft. in height, erected in 1932 under Alt. 1030-32, to replace a one story building (used for varnish factory) which was entirely destroyed by the same fire in 1931. Certificate of Occupancy 2568, issued on November 30, 1936, permits occupancy for "boiling varnish." No change is proposed for this building.

Building #4—is a brick building 28 ft. by 32 ft. in area, erected in 1940 under NB7692-40. No certificate of occupancy has been issued although the occupancy approved by the permit is watchman's residence. No change is proposed for this building.

Building #5—is a one story brick building, 18 ft. by 85 ft. in area, erected in 1940, also under N.B. 7692-40. No certificate of occupancy has been issued, although the occupancy approved by the permit is storage. No change is proposed for this building; and

WHEREAS, the applicant contends that the Board of Standards and Appeals has jurisdiction to grant this application under section 7c of the zoning resolution, because this is an application "where premises are devoted to a non-conforming use" and where the proposal is for "* * * the extension of an existing building * * * into a district restricted against the proposed use under such conditions as will safeguard the character of the district," and

WHEREAS, the applicant further contends that the Board of Standards and Appeals has jurisdiction to grant this application under section 21 of the zoning resolution, because this is a specific case where it would be a unique hardship on the owner to carry out the strict letter of the zoning resolution and where the resolution could be varied in harmony with its general purpose and intent, so that the public health, safety and general welfare may be secure and substantial justice done, and contends further that the application should be granted for the following reasons: that additional storage space is required to accommodate the shipping and receiving of paints and paint materials in carload lots; that the proposal will not alter the essential character of the neighborhood, because no new use is sought to be intruded, only the existing storage use is sought to be extended to the proposed second floor, level with the adjoining two story paint factory, which already exists, and which existed before the character of the neighborhood became residential; that the proposed additional story will not constitute a fire hazard nor increase insurance rates of nearby buildings nor otherwise affect the public health, safety and general welfare, because it will not be used for manufacture of paints, but only for unobnoxious storage, and because the additional story will be fireproof; that the granting of this application will not be an opening wedge for similar applications in the neighborhood, because the situation in which the owner of this property finds himself is unique; that the owner of the premises is one of the persons active in the ownership and control of the tenant corporation; that in February of 1920, the premises was leased to the present tenant corporation for use of a paint factory; that Certificate of Occupancy 328 was issued on February 10, 1922, to the Adelphi Paint and Color Works, Inc., based on Alt. Applic. 288-1920, permitting the two story brick building, then existing, to be used as a factory; that in 1929, the land and buildings on Lot 32 were purchased by the present owner, who rebuilt buildings numbered 2 and 3, after a fire had entirely demolished them, except for the four walls; that in rebuilding, fireproof construction was used instead of non-fireproof; that in 1936, the owner purchased Lot 25 and built a fireproof structure for storage purposes; that at the same time, the row of dwellings on the south side of 135th avenue, just east of the instant premises, was constructed; that on May 15, 1941, the City Planning Commission rezoned the neighborhood from business to residence; that thereafter, the rows of one family dwellings on 85th and 86th streets, shown on the block plan,

were erected and sold; that from the foregoing, it is submitted that the situation in which the owner of this property finds himself, is unique; that the granting of this application will not adversely affect property values in the neighborhood, because the non-conforming uses already exist and because the owners of the one family homes in the neighborhood purchased their properties with full knowledge of the existence of the paint factory and presumably paid prices commensurate with the values of such properties in such a neighborhood; that a grant herein will benefit the neighborhood, because it will enable the Board to impose ameliorating conditions regulating the maintenance of the property, which conditions could not otherwise be imposed and that a grant would do substantial justice, because it would permit a reasonable, beneficial use of the premises without adversely affecting nearby property owners; in view of the foregoing, it is requested that the application be granted, subject to such appropriate conditions and safeguards as the Board may impose; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7c thereof, to permit the extension of the building as proposed and substantially as indicated on plans filed with this application marked "Received October 20, 1944", *on condition* that the building shall not be further increased in height or area; that there shall be no openings in the proposed second story to the west; that one of the shipping doors, on the first story on the building line of 135th avenue to the west, shall be permanently closed; that a sprinkler system, complying with the requirements therefor, shall be installed throughout the two story factory building as existing and as extended; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

749-44-BZ

APPLICANT—Joseph Saravis, for The Swinger Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7a and 21 of the zoning resolution, to permit in a retail use district, a manufacturing occupancy of 25% of the floor area of the building, of which more than 5% is not connected with the retail business conducted on the premises.

PREMISES AFFECTED—1160 Broadway, east side, 26 ft. 5¼ in. north of West 27th street (Block 829, Lot 29), Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph Saravis, Philip Ginsberg and Mr. Ansell.

For Opposition: Ruth Ronson.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

THE RESOLUTION (749-44-BZ)

WHEREAS, Joseph Saravis, for The Swinger Realty Corporation, owner, filed December 28, 1944, an application under sections 7a and 21 of the zoning resolution, to permit in a retail use district, a manufacturing occupancy of 25 per cent of the floor area of the building, of which more than 5 per cent is not connected with any retail business conducted in the premises, affecting premises 1160 Broadway, east side, 26 ft. 5¼ in. north of West 27th street (Block 829, Lot 29), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, January 30, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Broadway is in a retail use, B area and 2 times height district, West 27th and West 28th streets are in a business and retail use, B area and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated December 22, 1944, re Alt. App. 1029-44, reads:

> "Amendments disapproved Dec. 22, 1944 with objections 3, 7, 9, 10 repeated as follows:
>
> 3. State type of manufacturing to be done on premises, also extent. Note that premises are located in a retail district and Sec. 4A, Zone Resolution, and so stated in specification sheet. Answer to objection cannot be accepted, as manufacturing is required to be incidental to the conduct of a retail business conducted on the premises, except that other manufacturing to the extent of 5% of the floor space of the building is permitted, the total manufacturing, however, not to exceed 25%."

and

WHEREAS, the applicant contends that the records show the building was built in 1871 and the occupancy was as follows: 1st floor and cellar, stores; 4 upper floors, light manufacturing, offices and rooms; occupancy was later changed to stores and offices; that it is now occupied as storage and boiler room in cellar; restaurant on the 1st floor—upper floors, vacant; that it is desired to change the occupancy as follows—cellar, storage, light cartons; 1st floor, store and show room; 2nd floor and 3rd floor, storage and offices (light cartons—parts of belts and suspenders); 4th and 5th floors, factory (belts and suspenders); that the manufacturing will be of a type permitted in a business district and will not exceed 25% of floor area of the building, of which 5% will be manufacturing, not incidental to the retail business conducted on the premises; that the manufacturing will be the assembly of belts and suspenders; that the first story store will be used as a showroom in connection with wholesale sales of these articles manufactured on the premises; that this use would be permitted by the Zoning Resolution, except that the manufacturing on premises will not be limited to the 5% permitted thereby; that the owner wishes to avoid any subterfuge in the operation of his business and has therefore made this application for permission to exceed the 5% manufacturing permitted by the Zoning Resolution; that the proposed use will be in harmony with the character of the neighborhood, as there are adjoining and adjacent manufacturing occupancies; that the applicant would suffer a hardship if compelled to limit his manufacturing to 5% and the proposed manufacturing will not be a detriment to the neighborhood, nor tend to reflect itself on the adjoining properties in any way; that the character of the neighborhood is such—by reason of adjoining and adjacent manufacturing occupancies—that the proposed use of the premises will have a beneficial influence on the character of the neighborhood and will tend to bring into harmonious development, the use of adjacent buildings when the alteration becomes economically feasible and their tenancies change; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivision *a* and that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution and was therefore not entitled to relief on the grounds of practical difficulties and unnecessary hardships.

THE RESOLUTION (583-44-SM)

WHEREAS, the Atlantic Metal Products, Inc., owner, filed on October 16, 1944, an application with the Board of Standards and Appeals for approval of the material known as the Atlantic 1½ Hour Hollow Metal Door, #11 Flush Type and #12 Panel Type; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

January 11, 1945.

Cal. 583-44-SM
Subject: Atlantic 1½ Hour Hollow Metal Door, #11, Flush Type, #12, Panel Type, Approval of.

The Atlantic Metal Products, Incorporated, of Long Island City, New York, filed an application with the Board of Standards and Appeals, under the requirements of C26-178.0, b, of the Administrative Building Code for the approval of their 1½ hour hollow metal flush and panel type doors (Fig. 1) for approval under the Board's authority as provided in C26-191.0,a, for uses under C26-661.0, C26-662.0, C26-663.0 of the Administrative Building Code and as a fireproof one hour opening protective assembly under the Multiple Dwelling Law.

Description

The test panel consisted of a pair of swinging hollow metal doors of the paneled and flush type, details as shown in Figure 1, equipped with a single point lock in the active door and throw bolts in the inactive door, mounted in a single type 14 USG frame designed for mounting in an 8-in. brick wall.

No. "12" Panel Type Door

Stiles are made of one piece No. 18 USG steel to form the sides, edges and return for the panel recess of the stile and reinforced by a No. 20 gauge channel running the full length of the stile. The stile was 1¾ in. thick and 4½ in. wide, exclusive of the panel moulding. Both stiles are insulated with laminated cellular asbestos block for the full length and width of stiles. Top rail to be constructed similar to the styles. The intermedaite rail is formed of two pieces of No. 18 gauge steel forming the sides and return for the panel recess, reinforced by two No. 20 gauge channels running the full length of the rail. The construction and insulation are as shown on Fig. 1.

The bottom rail is formed of two pieces of No. 18 gauge steel to form the sides. The top edge of rail has a return for the recess which receives the panel moulding and reinforced at that point by a No. 20 gauge channel running the full length of rail and welded to same as shown. A No. 18 gauge stiffener channel is applied to the center of rail running the full length of the rail and spot-welded every 8 in. to same. The bottom reinforcing channel is of No. 16 gauge steel and runs the full width of the door, spot-welded on both sides every 4 in.

The panels are made of ⅜-in. thick asbestos, covered on both sides with No. 18 gauge steel. The edges of panels fit into the groove of panel moulding for a distance of at least ¾ in. The panel moulding is made of No. 20 gauge steel and reinforced with a No. 20 gauge steel channel running along the entire length of same. Panel moulding is fastened to the stiles and rails with

welds every 8 in. on both sides and runs along the entire perimeter of panel. The moulding is mitered and welded at corners. The area surrounding panel groove of moulding and channel reinforcement to be filled with strips of laminated cellular asbestos. The stiles extend the full height of the door. The rail is recessed to set between the stiles and the joints welded and filled on the outer surface of doors.

#"11" Flush Type Door

The flush doors are made up of two No. 18 USG in. one-piece stiles not less than 4½ in. wide and 1¾ in. thick. The stiles are reinforced with No. 20 USG. steel channels running the full length of stile and spot welded every 8 in. on both sides. The flush panels are of No. 16 gauge and are recessed to be set between both stiles and reinforced with "Z" bar clip stiffeners spaced not more than 7 in. on centers and running the full height from top of bottom horizontal reinforcing channel, to underside of top horizontal reinforcing channel. The hollow spaces between vertical stiffeners shall be filled with laminated cellular asbestos 1⅝ in. thick. The top and bottom of door is reinforced by a No. 16 USG steel channel running the full width of door. These channels are spot-welded on both sides every 4 in. The joints between the flush panel and door stiles are electric welded and filled 10 in. on center, 2 in. long.

General

When doors are mounted in pairs, they are provided with one astragal attached to one door face. Astragal to be of No. 20 USG moulded type or ⅛ in. thick steel bar. The astragal extends beyond the edge of door not less than ¾ in. and is fastened to door by machine screws 8 in. o.c.

Doors not exceeding 5 ft. in height are provided with two hinge cut-outs and reinforcements. Doors in excess of 5 ft. in height are provided with one hinge cut-out and reinforcement for each additional 2½ ft. in height or fraction thereof. Reinforcements for half or full surface hinges to be constructed as shown on Fig. 1.

The lock stile to be cut out and reinforced for the lock as shown on Fig. 1. Reinforcement in top rail to be constructed and secured in position as shown on same figure. Likewise the cut-out and reinforcement for the throw bolt unit shall be similar to the details as shown thereon.

The door frame was constructed of 14 USG steel of the single type provided with a channel-shaped sill piece secured to the jambs of the frame and designed for an 8-in. brick wall. The jambs and head were provided with a ⅝ in. stop. The jambs were provided with adjustable nonremovable anchors spaced adjacent to the hinges.

Each door section was equipped with four 5-in. steel mortise hinges secured to reinforcements attached to the hinge stiles of the door and the jambs of the frame. The active door was provided with a single point lock having a steel bolt with ¾ in. throw, secured to reinforcements in the lock stile, and when in a locked position the bolts enter the opening in the steel strike plate in the lock stile of the inactive door. The inactive door was provided with mortise-steel throw bolts extending into keepers in the head and sill of the frame. Each door was painted on the inside and on the outside with seven coats of paint as is normally furnished on these types of doors before shipment.

Tests

The opening protective assemblies (Fig. 1) was subjected to fire endurance and hose stream tests in accordance with details and procedures as outlined in Article 11 of the Administrative Building Code, and reported by the Underwriters Retardant 2819, Application No. 44C428, as follows:

The door assembly previously mounted in a 12-in. brick wall opening, after the fire was started in a furnace exposing one face of the assembly to a gas furnace controlled in accordance with standard temperature curves for a period of one and one half hours after which the panel was withdrawn from the furnace and the exposed face was immediately subjected to the impact and cooling action of a 30-lb. water stream applied for one minute. Temperatures within the furnace were maintained within the 5% area tolerance for 1½ hour period. The average temperature at the end of one-half hour on the panel door 553 deg. F.; for the flush door 605 deg. F., which is well within the limitations prescribed in C26-610.0 of the Administrative Building Code.

At the end of one and one-half hours, the assembly was successfully subjected to a hose stream test. There was no passage of flame through around the door during the fire exposure. The assembly movement throughout the test did not exceed 4½ in. deflection towards the furnace, which was reduced by the pressure of the hose stream to one and one-half inches. The visibility was considerably reduced because of the application of 7 coats of paint to the doors being tested. Between 15 and 25 minutes from the start of the test, this visibility was reduced 93% but this is to be expected with doors painted as these specimens were and are required to be painted by the purchasers. The temperature curve indicated that flammable material placed against the exposed face of the doors would ignite but under conditions of installation it is a fair assumption that there will be considerable air space between any such door and adjacent flammable material.

Recommendations

On the basis of the foregoing data, wherein the test meets the requirements of C26-610.0, the Committee recommends the approval of the Atlantic Metal Products, Inc. Hollow Metal Door known as Atlantic #"11" Flush, #"12" Panel types One and one-half Hour Hollow Metal Doors under C26-191.0,a, when constructed and hung as described herein and as having met the fire resistive requirements for a rating of one and one-half hours for uses as follows: Under C26-661.0, as opening protective assembly for use in fire partitions wherein a 1½ hour fire resistive rating is required, under C26-662.0, wherein a ¾ hour fire resistive rating is required under C26-663.0 for the protection of openings in interior shafts which require a fire resistive rating of 1½ hours, under Article 1, Section 4, Item 10 of the Multiple Dwelling Law, which provides for a fire resistive rating of one hour when used in fireproof partitions.

The foregoing recommendations include the use of either the panel or flush type doors used singly or in pairs with astragal and for the increase in permissable sizes as provided in C26-610.0. It is further recommended that all opening protective assemblies manufactured under this approval shall in addition comply with all the detail requirements contained herein and shall be marked and inspected as provided for in the Opening Protective Assembly Rules of the Board of Standards and Appeals.

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Atlantic 1½ Hour

Hollow Metal Door, #11 Flush Type and #12 Panel Type, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 11:30 A. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, JANUARY 30, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

709-44-A

APPLICANT—Louis Sigloch, for Delevan Northeast Corporation, owner (Arthur Tickle Engineer Works, Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—36-44 Delevan street and 57-63 Richard street, northeast corner (1st floor); (Block 519, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Louis Sigloch.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (709-44-A)

WHEREAS, Louis Sigloch, for Delevan Northeast Corporation, owner (Arthur Tickle Engineer Works, Inc., lessee), filed December 7, 1944, an appeal from a decision of the borough superintendent, affecting premises 36-44 Delevan street and 57-63 Richard street, northeast corner (1st floor); (Block 519, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated November 20, 1944 on Alt. Applic. 2776-44, reads:

"1. Provide two means of egress from each floor, complying with the requirements of Section 270 of the Labor Law. Note: Building was erected under permit N.B. 3742-16."

and

WHEREAS, the applicant states that the building is 1 and 3 stories (38 ft.) in height, 100 ft. by 100 ft. in area at 1st floor, 40 ft. by 100 ft. in area at typical floor, of class 6 construction, erected in 1916, located in an unrestricted use district and used and occupied as follows: cellar—boiler room and warehouse; 1st, 2nd and 3rd floors—garage, factory, smelting and refining; proposed to be used and occupied as follows: cellar—boiler room and warehouse—1 person; 1st floor—non-storage garage, cabinet shop and warehouse—8 persons; 2nd floor—cabinet shop—10 persons; 3rd floor—offices—14 persons; that the building is equipped with a one source sprinkler system and will be provided with one fireproof stair tower 4 ft. 6 in. wide, enclosed in 12 in. brick, equipped with metal doors and bucks and leading to the roof bulkhead; that the building is equipped with one fire escape at the rear of the three story portion, extending to the roof by a ladder and to the yard by an exterior stairway; and

WHEREAS, Violation 5037-44 was issued for constructing a fire tower without a permit; and

WHEREAS, the applicant contends that the lessee is engaged in ship repairs and conversions for the Maritime Commission and the U. S. Army and Navy; that the work to be done in the building cannot be deferred, as it is essential to occupy the premises at once in connection with war contracts on hand; that the 1st and 2nd floors will be used as a cabinet shop and the rear one story portions for warehousing materials and the third floor will be occupied as offices; that the building was constructed in 1916 as a smelting and refining factory and has been occupied in its entirety, for the manufacture and processing of pumice and similar grits; that the main stairway was an open wood stairway in the center of the building on the easterly wall with a fire escape from the 2nd floor and a ladder to the street on the Delevan street front; that plans now filed with the borough superintendent undertook to provide two means of egress from the 2nd and 3rd floors; that to prepare the building occupancy, a fireproof stair tower was built at the easterly side of the three story building and the fire escape was removed from the Delevan street front, due to its unsafe condition; that with the presence of high tension wires at the second story level in Delevan and Richard streets in close proximity to the building line, it was considered unsafe to provide a fire escape on these fronts; that the means of egress proposed is better and safer than a fire escape on these street fronts; that the only factory occupancy affected will be the 2nd floor cabinet shop, which will have a maximum occupancy of 10 persons; that windows have been cut in the easterly wall of the three-story building at 2nd and 3rd floors, providing doorways to the fire escape, which leads to the roof of the one story building to the east, thus permitting egress across the roof, to a 5 ft. wide fireproof concrete and steel open stairway to adjoining court yard, which has three means of egress to the street, as indicated on plans filed with this appeal marked "Received January 25, 1945;" that the property to the east is under the same ownership and control; that the roof, which it is proposed to traverse as a means of egress, will be fire-retarded with 4 in. rock wool batts, placed between the beams and the ceiling underneath covered with ⅜ in. sheetrock; that this roof is a built-up roof with asbestos felts and is splinklered underneath; that although the proposed means of egress does not comply with section 270, it does provide adequate and safe egress; that to comply with section 270, would create a hardship and reduce the area of the three story building, which at the present time is just adequate for the tenant's needs; that in view of the great improvement made to the general safety of the building by the installation of a sprinkler system, and the placing of ⅜ in. sheet rock on the ceilings of all floors over existing exposed wood beams, it is felt that the safety factor is more than adequate.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 2776-44, and that the appeal be and it hereby is *granted,* as to objection 1, *on condition* that the second means of exit, as indicated on plans filed with this appeal, marked "Received December 7, 1944," shall be maintained; that the number of occupants in the building shall be limited to the capacity of the primary means of exit; that the one-source wet sprinkler system shall be maintained to the satisfaction of the fire commissioner; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

711-44-A

APPLICANT—Saul Goldsmith, for Gimpel Farms, Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—57-10 59th avenue and 59-01 57th street, southeast corner (Block 2622, Lots 8, 12, 17 and 19), Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: Saul Goldsmith.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

MINUTES

THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (711-44-A)

WHEREAS, Saul Goldsmith, for Gimpel Farms, Inc., owner, filed December 9, 1944 an appeal from a decision of the borough superintendent, affecting premises 57-10 59th avenue and 59-01 57th street, southeast corner (Block 2622, Lots 8, 12, 17 and 19), Maspeth, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated November 29, 1944, on amendment to N.B. Applic. 346-44, reads:

"1. The proposed use of precast slabs as a means of bracing top flanges of steel beams is not acceptable. Approval by Board of Standards and Appeals 28-38-SM does not indicate that metal clips at ends of slabs were approved for this purpose."

and

WHEREAS, the applicant states that the building will be one story (17 ft.) in height, 193 ft. by 50 ft. in area, of class 1 construction, located in an unrestricted use, A area, class 1 height district and used as a non-storage garage for more than five motor vehicles; and

WHEREAS, the applicant contends that the building will be constructed of brick walls, concrete floor and precast concrete roof slab on steel beams and girders; that "Cantilite" concrete plank as approved by the Board under Cal. 28-38-SM will be used; that on steel girders and beams, the Building Code allows the full fibre stress of 18,000 lbs. wherever the L/b does not exceed 15, as stated under Sec. 7.4.5.3.1; that it has been the practice in the past that any poured concrete arch serves as limiting the L/b to 15, also when wood joists are strapped to steel girders and beams as per Sec. 8.4.1.4 and Sec. 8.7.1.3.2, then the maximum L/b is 15, or 18,000 lbs. fibre stress may be used in bending; that the question involved in this appeal is whether a precast reinforced concrete slab of approved type and clipped to the steel beams at every slab joint, may also be considered as limiting the L/b to 15 or allowing the maximum fibre stress of 18,000 lbs.; that empiracally, the stiffness, construction and clipping of the precast slabs is far superior to wood beams strapped to the steel beams in class 3 construction; that precast slab construction has been used by the applicant in the past and placed as proposed, without objections and the construction is in perfect shape; that it is therefore requested that the Board grant this appeal, to permit precast reinforced concrete roof slab as a brace of the upper flange of the steel beams or girders, where it is clipped at every joint.

WHEREAS, the Board deemed that the requirements of C26-629.0 (10.3.11) should be complied with and that the approval of the "Cantilite" concrete planks under Cal. 28-38-SM did not include omission of the tie rods required by the Code section.

Resolved, that the decision of the borough superintendent, acting on amendment to N.B. Applic. 346-44, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

19-45-A

APPLICANT—W. G. Storch, for Horowitz Brothers and Margareten, owners.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—29-06 Review avenue, southwest corner of 29th street (Block 294, Lot 150), Long Island City, Borough of Queens.

APPEARANCES—
For Applicant: Wallace G. Storch.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (19-45-A)

WHEREAS, W. G. Storch, for Horowitz Brothers and Margareten, owners, filed January 13, 1945, an appeal from a decision of the borough superintendent, affecting premises 29-06 Review avenue, southwest corner 29th street (Block 294, Lot 150), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated January 2, 1945, on Alt. Applic. 1488-44, reads:

"8. Fire wall is not to be removed, since height of building is excessive, section 4.2.1."

and

WHEREAS, the applicant states that the building is 4 stories (60 ft. 4 in.) in height, 198 ft. by 200 ft. in area, of class 3 construction, erected in 1905, located in an unrestricted use, A area, class 2 height district and now vacant, proposed to be used and occupied as follows: cellar—storage of food products—3 persons; 1st floor—shipping and storage of food products—20 persons; 2nd floor—storage of food products—8 persons; 3rd floor—packaging and storage of food products—20 persons; 4th floor—bakery and grinding material—20 persons; that the building is equipped with a two source sprinkler system and four 5 ft. wide interior wood stairs, enclosed in brick partitions, equipped with class A Underwriters' label self-closing doors and extending from the roof bulkhead directly to the street and one fire escape at the rear, extending to the roof by a gooseneck ladder and to the yard by a stationary iron stairs with egress from the yard to the street; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, Certificate of Occupancy 2045, issued November 10, 1931, permits the use of the building throughout as a factory with a liveload of 120 lbs. on each floor; and

WHEREAS, the applicant contends that the building has an area of approximately 30,000 sq. ft., divided by fire walls into three units and is equipped with an approved two source sprinkler system; that it is proposed to use the building for the manufacture of food products, including matzohs; that these matzohs will be baked in gas fired ovens of the travelling belt type, 109 ft. long; that in order to accommodate these ovens, it is necessary to remove 19 ft. 6 in. of one fire wall on the 4th story; that there is no extension in height of the building proposed; that the only effect of the alteration proposed will be to increase the area inside the fire walls on the 4th story to approximately 20,000 sq. ft., which is within the allowable limits of 24,000 sq. ft. permitted by section 4.2.1, for a building facing on two streets and equipped with an approved two source sprinkler system; that the proposed ovens will not constitute a fire hazard; that they will be automatically controlled, gas fired, with an internal temperature of not over 700 degrees F. and will be set on 4 in. terra cotta blocks with 3/16 in. steel plate above; that all four sides of the ovens will be surrounded by 6 in. of 85% magnesia and a steel jacket; that the exterior of the ovens will be cool; that the ovens will be ventilated to the outer air by vents through and above the roof; that the building is equipped with exits having a capacity far in excess of the proposed occupancy; that the ovens are being removed from their present location in Manhattan, to the building in question and cannot be reduced in length without interference with proper baking of the product and cannot be installed in the building in question unless the proposed opening in the fire wall is permitted; that to reduce the building in height to the limits permitted by section 4.2.1, is impracticable, as it would require the razing of an entire story; that it would not be practical to change the building to class 1 or class 2 construction; that the building could not be used by the owner unless the ovens can be installed.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1488-44, objection 8, be and it hereby is *modified* and that the appeal be and it hereby is *granted*

on condition that the fire wall may be omitted, except that it shall extend from the ceiling down to a point not over 6 ft. 6 in. from the floor; that the space between the top of the oven and the lintel supporting such wall section, shall be fire-stopped with incombustible material; that between the ovens there shall be a vertical 3-hour fire door, operating within channel frames, properly secured, and with fusible link to close the opening to floor; that such door shall be counter-weighted so as to not operate too fast as to be dangerous; that the sprinkler system shall be maintained as proposed and a line of sprinkler heads shall be not over one foot away from each side of the fire wall.

298-39-A

APPLICANT—C. H. Simmons, Jr. for The Corporation of the Brick Presbyterian Church of the City of New York, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—62 East 92nd street, south side, 153 ft. 3 in. west of Park avenue (Block 1503, Lot 44), Borough of Manhattan.

APPEARANCES—

For Applicant: C. H. Simmons, Jr., Rev. Paul Wolfe, James M. Nicely and Russel L. Tarbox.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and restored to the calendar, subject to usual procedure.

THE VOTE TO REOPEN—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

360-44-A

APPLICANT—Grosfeld House, Inc., lessee, for Rubanjo Realties, Incorporated, owner.

SUBJECT—Application for consideration—reopening and restoration to calendar re new order of fire commissioner—re Appeal from an order of the fire commissioner (previously withdrawn).

PREMISES AFFECTED—949-953 Kent avenue, east side, 250 ft. north of DeKalb avenue (Block 1926, Lot 10), Borough of Brooklyn.

APPEARANCES—

For Applicant: Sigurd A. Swenson.

ACTION OF BOARD—Appeal reopened and restored to the calendar, subject to usual procedure.

THE VOTE TO REOPEN—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

5-45-A

APPLICANT—William B. Still, for Tyson Realty Corp., owner (Jamaica Radio Television Co., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—148-18 Jamaica avenue, south side, 50 ft. west of 149th street (Block 9996, Lots 5-9), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: William B. Still.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn without prejudice, for reconsideration upon resubmission of revised plan and decision of the borough superintendent.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

534-44-A

APPLICANT—Randolph H. Almiroty, for The Salvation Army, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—224 Tompkins street, southeast corner of Warren street (Block 552, Lots 23 to 26 incl.), Stapleton, Borough of Richmond.

APPEARANCES—

For Applicant: Randolph H. Almiroty.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to February 14, 1945 at 2 P. M. for further consideration.

31-45-A

APPLICANT—Joseph S. Rodell, for Paul and Esther Blackarsh and Rose and Isidore Podolsky, owners.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—153-19 Jamaica avenue, north side, 175.05 ft. east of Jamaica avenue (2nd floor); (Block 9754, Lot 48), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Joseph S. Rodell.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 13, 1945 at 2 P. M., pending an inspection by a committee of the Board.

ZONING CASES

369-37-BZ

APPLICANT—Henry Nordheim, for Edso Realty Corporation, owner.

SUBJECT—Application for consideration—reopening and restoration to calendar—re Application (decision of the borough superintendent) under sections 7b, 7c and 21 of the zoning resolution, to permit partly in a residence use and partly in a business use district, the inclusion of a store in a six-story multiple dwelling (previously withdrawn).

PREMISES AFFECTED—1212 Grand Concourse, 1209 Sheridan avenue and 179-197 East 167th street, northeast corner (Block 2457, Lots 1, 2 and 31), Borough of The Bronx.

APPEARANCES—

For Applicant: Henry Nordheim.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and restored to the calendar, subject to usual procedure.

THE VOTE TO REOPEN—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

644-25-BZ

APPLICANT—F. P. Platt & Bros., for Cleta Realty Corp., owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—change of occupancy for duration of war emergency—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, extending from an unrestricted use district, the

erection and maintenance of a garage for more than five motor vehicles.

PREMISES AFFECTED—301-305 East 97th street, north side, 74 ft. 6 in. east of Second avenue (Block 1669, Lot 5), Borough of Manhattan.

APPEARANCES—

For Applicant: Charles L. Platt.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (644-25-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a business use district, extending from an unrestricted use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises 301-305 East 97th street, north side, 74 ft. 6 in. east of Second avenue (Block 1669, Lot 5), Borough of Manhattan, was granted by the Board on November 24, 1925, on certain conditions; and

WHEREAS, the resolution was amended on July 13, 1926, and the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted on November 24, 1925, and amended on July 13, 1926, by adding thereto:

"* * * that in the event the owner desires to occupy the building temporarily, during the term of the present war emergency, for a conforming use as proposed and as submitted to the Department of Housing and Buildings under Alt. Applic. 1701-44, namely, for the shipping and storage of refrigerator parts, such use may be permitted, provided the building is not increased in height or area and is not altered or occupied for manufacturing purposes; and that upon the termination of the temporary permit herein granted, the garage use may be restored; and that the gasoline storage system shall be sealed temporarily to the satisfaction of the fire commissioner and that other than as herein *amended,* the conditions of the resolution of July 13, 1926, shall be complied with."

266-41-BZ

APPLICANT—Edwards Bros., owners.

SUBJECT—Application for consideration—reopening and extension of time to complete work—re Application (decision of the borough superintendent) previously granted on condition, under sections 7c and 7g of the zoning resolution, permitting partly in a business use and partly in a residence use district, the erection and maintenance of a group of four (4) buildings for the storage, in the aggregate, of more than five motor vehicles.

PREMISES AFFECTED—55-02 to 55-32 Flushing avenue, south side, from 55th to 56th streets, 60-01 to 60-09 55th street and 60-02 to 60-18 56th street (Block 2648, Lots 15, 26, 28, 29, 31, 34, 36, 37 and 39), Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: Martin Edwards.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (266-41-BZ)

WHEREAS, this application under sections 7c and 7g of the zoning resolution, permitting partly in a business use district and partly in a residence use district, the erection and maintenance of a group of four buildings for the storage, in the aggregate, of more than five motor vehicles, affecting premises 55-02 to 55-32 Flushing avenue, south side, from 55th to 56th streets, 60-01 to 60-09 55th street and 60-02 to 60-18 56th street (Block 2648, Lots 15, 26, 28, 29, 31, 34, 36, 37 and 39), Maspeth, Borough of Queens, was granted by the Board September 30, 1941, on certain conditions, resolution amended December 2, 1941, May 19, 1942, November 4, 1942 and November 16, 1943; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted September 30, 1941, as amended by resolutions adopted through November 16, 1943, only so far as it has reference to the completion of the work, so that as amended, this portion of the resolution shall read:

"* * * that in view of statement by the owner that all plans have been approved and all permits issued, all work shall be completed within one (1) year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolutions of September 30, 1941, December 2, 1941 and November 4, 1942, shall be complied with (N.B. Applic. 844-41)."

The minutes of the meeting of the Board of Standards and Appeals, held on December 13, 1938, as they appeared in Bulletin No. 51, Vol. 23, are hereby corrected to read as follows:

720-38-SA

APPLICANT—Alro Plumbing Specialty Company, owner.

SUBJECT—Alro Fill Pipe Terminal for Fuel Oil—approval of.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Appliance approved in accordance with report of engineer of the board.

THE VOTE TO APPROVE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Assistant Chief Walsh 4

Negative 0

Absent 0

THE RESOLUTION—

(720-38-SA)

WHEREAS, the Alro Plumbing Specialty Company, owner, filed August 15, 1938, an application with the Board of Standards and Appeals for approval of the appliance known as the Alro Fill Pipe Terminal for fuel oil; and

WHEREAS, the appliance was submitted to the engineer of the board for investigation and report; and

WHEREAS, the report of the engineer of the board included description and recommendation as follows:

This appliance comprises a heavy galvanized cast iron body which has a tapered standard pipe thread at the bottom and a straight thread at the top with a brass screw plug to fit in. There is a recess in the top for a gasket against which the threaded cap is secured with a special wrench to make it water and gas tight and prevent tampering.

---

* Correction—The word "not" changed to *"hot"* in line 28 of the resolution, as indicated in italics.

It is recommended that the Alro Fill Pipe Terminal for fuel oil be approved on condition that the appliance be installed in accordance to the Oil Burner Rules of the Board of Standards and Appeals and in accordance with certain additional requirements.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as the Alro Fill Pipe Terminal for use in fuel oil installations, *on condition* that the appliance shall be installed in accordance with the Oil Burner Rules of the Board of Standards and Appeals and with the following additional requirements:

"The fill pipe terminal shall be of cast or malleable iron *hot* galvanized, with not less than ten machine-cut threads on the nipple end and with not less than seven on the sealcap. The sealcap shall be of brass or bronze.

The fill pipe terminal shall be provided with at least three (3) lugs on the outside, so that the fill pipe terminal can be imbedded in concrete or masonry to prevent the terminal from being loosened from the fill line or in lieu thereof, the fill pipe terminal shall be fastened to the fill line by means of an Allen or similar set screw.

The outer flange of fill pipe terminal shall be provided with letters not less than ½-inch in height and raised 1/16-inch reading "Fuel Oil" and with the calendar number under which the fill pipe terminal was submitted for approval and with BSA in smaller letters.

An oil-proof gasket shall be provided, inserted in a groove in the sealcap end of the fill pipe terminal, so that it cannot readily be removed."

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stairhall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the Administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

RULES

EXTRACTS FROM THE ADMINISTRATIVE CODE OF THE CITY OF NEW YORK, RELATING TO REFRIGERATING SYSTEMS

General Provisions.

§C19-2.0. Definitions.

Unless otherwise expressly stated, whenever used in this chapter the following terms shall respectively be deemed to mean:

34. Refrigerating system, a combination of apparatus in which a refrigerant is circulated for the purpose of extracting heat.

(a) The parts of the system are the compressor, generator, condenser, absorber, receiver, shell type or tube type apparatus, pipes, vessels, or other parts, containing refrigerant.

(b) Direct refrigeration, a system in which the refrigerant is circulated to the substance or space refrigerated.

(c) Indirect refrigeration, a system in which brine cooled by the refrigerant is circulated to the substance or space refrigerated.

(d) Refrigerant is the chemical agent other than brine used to produce refrigeration.

(e) Irritant refrigerant, any refrigerant which when breathed, attacks the throat or lungs.

(f) Hydrocarbon refrigerants, any refrigerant of the hydrocarbon class.

(g) Flammable refrigerant, any refrigerant which will burn or explode when mixed with certain proportions of air.

(h) Refrigerating machinery room, a room in which is located a refrigerating system containing refrigerant, but not including expansion coils when located in cold storage rooms or expansion coils when located in refrigerator boxes.

(i) Factor of safety, the multiple three and one-third (3⅓), the product of which and the test pressure, constitutes the probable rupture pressure.

(j) Pressure imposing element, that apparatus which draws the refrigerant from the low pressure or low temperature side of the system and discharges it into the high pressure or high temperature side of the system.

(k) Pressure limiting device, a pressure or temperature responsive mechanism for automatically stopping the operation of the pressure imposing element.

(l) Brine, any liquid which having been cooled by the refrigerating system is used for the transmission of heat.

(m) Pressure relief device, a pressure relief valve, a rupture member, fusible plug or other approved device for relieving the pressure.

(n) Pressure relief valve, a valve held shut by a spring or other means to automatically relieve pressure in excess of its setting.

(o) Rupture member, a device that will automatically rupture at a pre-determined pressure.

(p) Liquid receiver, a vessel permanently connected to a system by inlet and outlet pipes for storage of a liquid refrigerant.

(q) Container, a cylinder for the shipment of refrigerant constructed to conform to the regulations of the Interstate Commerce Commission.

(r) Mixer, a vessel or device in a system for mixing the ammonia or other soluble vapor with water.

(s) Stop valve, a cut-off valve for use during normal operation.

(t) Service valve, a key-operated shut-off valve used only during shipment, installation or repairs.

(u) Fusible plug, a device having a predetermined-temperature fusible member for the relief of pressure.

§C26-235.0. Definitions.

(a) **Public Buildings.** Public buildings are structures or parts of structures in which persons congregate for civic, political, educational, religious or recreational purposes, or in which persons are harbored to receive medical, charitable or other care or treatment, or in which persons are held or detained by reason of public or civic duty, or for correctional purposes, including among others, court houses, schools, colleges, libraries, museums, exhibition buildings, lecture halls, churches, assembly halls, lodge rooms, club houses with more than five sleeping rooms, dance halls, theatres, bath houses, hospitals, asylums, armories, fire houses, police stations, jails and passenger depots.

(b) **Residence Buildings.** Residence buildings are structures or parts of structures in which sleeping accommodations are provided, except such as may for other reasons be classed as public buildings, including multiple dwellings as defined in the Multiple Dwelling Law.

(c) **Commercial Buildings.** Commercial buildings are structures or parts of structures, which are not public buildings or residence buildings, including among others, office buildings, factory buildings, salesrooms (stores), markets, restaurants, warehouses, freight depots, car barns, stables, garages, motor vehicle repair shops, factories, laboratories, smoke houses, grain elevators, coal pockets, central station power plants and electric sub-stations.

Bonds and Fees.

§C19-24.0 Fees for Permits.

Applicants for permits under the provisions of this chapter shall pay annual fees as follows:

35. Refrigerating systems:

Class A systems	$20.00
Class B systems	10.00
Class C systems containing over six pounds of refrigerant	5.00
Class C systems containing six pounds or less of refrigerant	1.00

Refrigerating Systems.

C19- 96.0. Permits.
C26-214.0. Supervision.
C19- 97.0. Classification.
C19- 98.0. Permissible locations.
C19- 99.0. Refrigerating machinery rooms and ventilation.
C19-100.0. Open flames and electrical equipment.
C19-101.0. Testing.
C19-102.0. Piping.
C19-103.0. Safety devices.
C19-104.0. Size of safety devices.
C19-105.0. Location and discharge of safety devices.
C19-106.0. Operating precautions.
C19-107.0. Equipment diagrams.

§C19-96.0. Permits.

(a) Except as hereinafter provided in this article it shall be unlawful to maintain or operate a refrigerating system without a permit.

(b) A permit will not be required for a Class C system when maintained or operated in the residence portion of a dwelling containing not more than two families, or in the residence portions of either a tenement house or a business building.

(c) It shall be unlawful to maintain or operate any refrigerating system employing a refrigerant other than those specified in this article without a permit issued upon such conditions, consistent with the provisions of this article, as are deemed by the fire commissioner necessary in the interest of public safety.

NOTE:—The Fire Chief and Commissioner prescribed under date of April 4, 1934, the following:

1. That the refrigerants dichlorodifluoromethane, known as "Freon" ("Kinetic No. 12" also "F-12") $CC1^2F^2$ also dichlorotetrafluoroethane ("F-114") $C^2C1^2F^4$ and monofluorotrichloromethane ("F-11") CFC^3 are non-flammable and non-irritant, unless otherwise hereinafter provided, and

shall be regulated in accordance with the provisions of Article 18 of Chapter 19 of the Administrative Code, as such, except, when used in a room or rooms in which there is an open flame or apparatus to produce an open flame, when the provisions of said article covering irritant refrigerants shall apply.

2. That refrigerating systems employing F-11, F-12 or F-114 are restricted to parts of a building so specified in Section C19-98.0 (b) for refrigerants other than non-irritant and non-flammable.

3. That refrigerating systems employing F-11, F-12 or F-114 used for air conditioning are restricted to the indirect method except that the direct method may be used in parts of a building so specified in Section C19-98.0 (b) for refrigerants other than non-irritant and non-flammable.

4. That refrigerating systems employing F-11, F-12 or F-114 shall not be installed or maintained in or on the stairways, halls, lobbies, entrances, exits or auditoriums of any building.

5. That refrigerating systems employing F-11, F-12 or F-114, shall not be installed or maintained in a hospital, unless the entire system is confined in a fireproof machinery room, used for no other purpose, and in which no open flame shall be employed, except that the Class "C" system containing not more than 10 pounds of refrigerant may be used in a diet kitchen which shall be cut off from the rest of the building by a tight fitting self-closing door or doors and provided with a window or windows to the outside air. All open flames, and/or apparatus for producing an open flame, in diet kitchens where these refrigerants are used shall be vented to the outside air as hereinafter required in Paragraph 8.

6. That refrigerating systems employing F-11, F-12 or F-114 may be installed or maintained in a hospital private room, having tight partitions and tight fitting self-closing door or doors and where not more than two persons are helpless and/or given medical treatment, provided there is no open flame and/or apparatus for producing an open flame in such room and when the system contains not more than 10 pounds of refrigerant.

7. That a refrigerating system employing F-11, F-12 or F-114 shall not be installed or maintained in a theatre and/or motion picture theatre unless the entire system is confined in a fireproof machinery room, used for no other purpose, and in which no open flame and/or apparatus to produce such open flame shall be employed, except that Class "C" systems containing not more than ten pounds of refrigerant may be installed in a rest room, smoking room or lounging room provided in such rooms no open flame or apparatus to produce such open flame shall be employed.

8. That a refrigerating system employing F-11, F-12 or F-114 when used in a room or rooms in which there is an open flame or apparatus to produce such open flame, such open flame and/or apparatus shall be provided with a hood and independent mechanical ventilation so arranged as to convey all the products of combustion to the outside of the building. This provision shall apply only to diet kitchens of hospitals and to Class "C" systems in schools, churches, dance halls, court rooms, police stations, jails, asylums, subways, passenger depots, rooms opening into passenger depots and/or subways and such other places as are deemed by the Fire Commissioner necessary in the interest of public safety.

9. That, except for Class "C" systems located in rooms in which no open flame or apparatus to produce such flame shall be employed containing not more than ten pounds of refrigerant, each refrigerating machinery room in any building in which F-11, F-12 or F-114 are used, shall be maintained vapor-tight and provided with tight fitting, self-closing doors, in accordance with Section C19-99.0 (a).

10. That each refrigerating machinery room in which F-11, F-12 or F-114 is used, shall be adequately ventilated directly to the outside air in accordance with Section C19-99.0 (b), 1, 2, 3 and 4.

11. Test pressures and setting of safety valves for systems employing F-11, F-12 or F-114, shall be included in Section C19-101.0 as follows:

Refrigerant	Column No. 1	Column No. 2	Column No. 3
F-11	25	15	15
F-12	180	120	135
F-114	60	30	30

12. That the size of pressure relief valves for systems in which F-11, F-12 or F-114 is employed, shall be as follows:

Capacity of System	Number Required
Up to 30 tons	One ½ inch
30 to 60 "	One ¾ "
60 to 100 "	One 1 "
100 to 175 "	One 1¼ inches
175 to 250 "	One 1½ "
250 to 450 "	One 2 "
450 to 900 "	Two 2 "

13. That the storage of F-11, F-12 or F-114 shall conform with Section C19-106.0 (c)-5 for other refrigerants.

14. That all other sections or parts of Article 18 of the Administrative Code not so mentioned, shall be complied with.

15. That refrigerating systems employing F-11, F-12 or F-114, installed prior to May 19, 1932, shall be inspected, and if found to comply with the rules, or if in the opinion of the Fire Commissioner, the installations are of a non-hazardous character, a permit may be issued. Installations which have been made in hospitals, theatres, asylums and places of public assembly shall be made to comply strictly with these rules.

(d) A permit, where required, shall be applied for forty-eight hours after installation is completed, containing the name of the person for whom the system is installed and the place or location of the system.

(e) Only the refrigerant specified in the permit shall be used in the system.

(f) Refrigerating systems to which these provisions cannot be applied, may be maintained and operated subject to such conditions as are deemed necessary by the fire commissioner.

§C26-214.0. Refrigeration System Operators; Certificate of Qualification.

(a) It shall be unlawful to maintain or operate in any building any refrigerating system containing more than fifty (50) pounds of refrigerant except under the personal supervision, direction or control of either a duly licensed engineer or a person who has obtained a certificate of qualification from the superintendent to operate such a system. Where the system contains two hundred (200) pounds or less of refrigerant and is fully automatic, only one qualified operator will be required.

(b) It shall be unlawful to maintain or operate in a public building or exhibition hall any Class C system permitted for exhibition or demonstration purposes except under the personal supervision, direction or control of either a duly licensed engineer or a person who has obtained a certificate of qualification from the superintendent to operate such a system.

(c) Upon receipt of such certificate the applicant therefor shall pay an annual license fee as follows: For the initial fee $5, and for renewal thereof the sum of $1 provided application for such renewal be made within thirty days prior to the expiration of such certificate. Any such certificate may be revoked or suspended for cause at any time by the superintendent.

§C19-97.0. Classifications.

(a) The total amount of refrigerant common to a system operating through one or more evaporators, shall be considered the capacity of the system and determine its class.

(b) A Class A system is a system containing one thousand (1,000) pounds or over of refrigerant, or capable of thirty (30) tons capacity or over.

(c) A Class B system is a system capable of less than thirty (30) tons capacity, or containing less than one thousand (1,000) pounds of refrigerant and more than amounts provided for in a Class C system.

(d) A Class C system is a system containing not more than twenty (20) pounds of refrigerant.

§C19-98.0. Permissible Locations.

(a) It shall be unlawful to install any Class A or Class B systems in any public building as defined by subdivision a of section C26-235.0 of the code, until plans have been filed with and approved by the fire commissioner, and no refrigerant shall be placed in the system until a permit has been obtained from the fire commissioner.

(b) The direct method of refrigeration shall not be used in any building, whether or not a permit is required for installation therein, outside of the refrigerating machinery room except in buildings used exclusively for ice making or for refrigerating purposes, or when such method is not carried above the first floor in business buildings, or in the business sections of business buildings provided the entire system is confined to one floor in the space occupied by a single tenant, or in the business section of a residence building when not carried above the first floor, or in a residence building occupied by not more than two families, or in any building provided a non-irritant and non-flammable refrigerant is used. The provisions of this subdivision shall not apply to a building in which installation was made prior to December 13, 1927.

(c) It shall be unlawful to use brine in any brine circulating system that will generate flammable vapor at a temperature below 100 degrees Fahrenheit when tested in a Tagliabue open cup tester, and no refrigerant shall be used as a brine.

(d) It shall be unlawful to install or maintain a Class A system using ammonia in any building above the first floor level unless such building is used exclusively for ice making or refrigerating purposes. The provisions of this subdivision shall not apply to a building in which installation was made prior to December 13, 1927.

(e) Systems on demonstration in exhibition halls shall be limited to the unit type containing not more than ten (10) pounds of refrigerant.

(f) It shall be unlawful to install or maintain a refrigerating system employing an irritant or inflammable refrigerant in or on:

1. The stairways, halls, lobbies, entrances, exits or auditoriums of any building;
2. Dance halls, court rooms, police stations, jails, subways, theatres, or motion picture theatres;
3. Waiting or public rooms in a railroad passenger depot or rooms opening directly therein;
4. Rooms opening directly into a subway, or theatre, or motion picture theatre, or where persons are detained or confined;
5. A school, unless the refrigerating system is used exclusively for instructions or research purposes;
6. A hospital or asylum in which persons are confined or given medical treatment or helpless. Unless otherwise required by this section, such refrigerating system shall be cut off from the building by unpierced fireproof construction.

The foregoing provisions do not apply to hermetically sealed unit system containing not more than six (6) pounds of refrigerant when located in dance halls, police stations, diet kitchens of hospitals, schools, or laboratories, and when located in rooms shut off from the rest of the building by tight partitions and tight-fitting, solid, self-closing doors and located in a room having a window to the outside air.

(g) An intermittent absorption type of refrigerating machine shall not be permitted in a Class A system. Such a type of machine shall be permitted in a Class B system only when a heating medium of low pressure steam is used in its operation.

(h) The use of methyl and ethyl chloride, sulphur dioxide, or a hydro-carbon refrigerant will not be permitted in Class A systems.

(i) A Class B system using ethyl chloride or a hydrocarbon refrigerant shall not be installed or maintained in the Borough of Manhattan or in other built-up sections of the city. Elsewhere, it shall be installed or maintained only in a fireproof building of not more than one story in height, and shall be located on the ground floor, which shall be of unpierced fireproof construction. The refrigerating machinery room shall be cut off from the rest of the building by unpierced fireproof walls of not less than eight inches (8″) of brick or six inches (6″) of reinforced concrete. Direct exit therefrom leading to the open air and not to any other part of the building shall be maintained and shall be provided with vapor-tight, self-closing, fireproof doors.

§C19-99.0. Refrigerating Machinery Rooms and Ventilation.

a. Refrigerating machinery rooms.

1. All refrigerating machinery rooms in which an irritant refrigerant is used shall be maintained vapor-tight except that all doors which open to other parts of the building shall only be required to be self-closing and close fitting, and shall be kept closed at all times, except during entrance or exit. All other openings that may permit the passage of vapor to other parts of the building shall be vapor-tight and kept closed. No opening from elevator shafts shall be permitted in the refrigerating machinery room. This provision, however, shall not apply to dumbwaiter shafts the door openings of which are protected with self-closing fire doors or to a system containing less than six (6) pounds of refrigerant. Closets solely contained within and opening only into the refrigerating machinery room shall be considered as part of the room in which it opens.
2. In Class A and Class B systems in which an irritant refrigerant is used, the doors of the refrigerating machinery rooms shall open outwardly.

b. Ventilation.

1. Each Class A, B and C refrigerating machinery room of any system shall be independently provided with means for adequate ventilation to the outer air. The ventilation shall consist of a window or windows opening directly to the open air, or mechanical means capable of exhausting the foul air from the room.
2. When a window or windows are used, if placed in opposite walls so as to provide a through air circulation to the outer air, a total area of inlet and outlet, respectively, of not less than that specified in Column D of the table in subdivision 4 shall be provided. When a window or windows are placed in one wall a total area shall be provided not less than that specified in Column E of such table.
3. When mechanical means are used they shall consist of a power-driven exhaust fan of the enclosed case blower type which shall be capable of removing from the refrigerating machinery room the amount of air specified in Column B of the table in subdivision 4. The inlet to the fan shall be located near the refrigerating equipment. The outlet from the fan shall terminate not less than six (6) feet above the sidewalk and in no case under a stairway or fire escape. Where air ducts are used on either the inlet or discharge side of the fan they shall each have an area not less than that specified in Column C of such table. Sharp bends in the run of the ducts shall be avoided. The control for such mechanical means of ventilation shall be easily accessible and located outside of the refrigerating machinery room.

4.

	Pounds of Refrigerant in System	Mechanical Cu. Ft. per Minute Discharge	Window Area Mechanical Sq. Ft. Duct Area	Window Area in Sq. Ft. for each Opposite Side	Window Area in Sq. Ft. for One Side Only
	A	B	C	D	E
Up to ...	20	150	¼	1	6
	50	250	⅓	1½	12
	100	400	½	2	16

10,000	14,000	14	56	360
12,000	17,000	17	68	425
14,000	19,000	19	75	470
16,000	22,000	22	86	540
18,000	24,000	24	92	580
20,000	26,500	26	100	630
25,000	33,000	33	121	760
30,000	39,000	39	142	870
35,000	44,000	44	155	940
40,000	51,000	51	176	1,060
45,000	56,000	56	190	1,120

Note—Door openings leading directly to the open air shall be considered equivalent to windows for the requirements specified in columns "D" and "E" of this table.

5. Where a non-irritant or non-inflammable refrigerant is employed, the requirements as given in the table in subdivision 4 may be reduced by one-half. When air or water is employed as the refrigerant no ventilation shall be required.

6. In lieu of mechanical means of ventilation in refrigerating machinery rooms where a Class A system or a Class B system using ammonia is installed, a water deluge may be provided which shall consist of a sprinkler system having open heads of not less than one-quarter inch (¼") orifice spaced not more than eight feet apart in any direction, and such system shall be located above all the refrigerating apparatus and piping in the refrigerating machinery room. Not more than one head shall be installed on a ¾-inch pipe; five heads on a 1-inch pipe; six heads on a 1¼-inch pipe. The deluge system shall be permanently connected with the main house supply or other assured source from which a constant water pressure of not less than twenty pounds per square inch can be maintained on the inlet side of the main control valve or valves at all times. The control valve or valves for such water deluge system shall be manually operated and easily accessible, and shall be labeled and located outside of the refrigerating machinery room.

§C19-100.0 Open Flames and Electrical Equipment.

a. Open flames.

No fire-flame or arc light will be permitted in a Class A or B refrigerating machinery room in which a flammable refrigerant is used.

b. Electrical equipment.

1. All Class A and B refrigerating systems containing more than fifty (50) pounds of refrigerant shall have an emergency switch controlling all of the electrically-operated refrigerating machinery or the remote control of such a switch located outside of the refrigerating machinery room where it can be quickly reached and operated in case of necessity.

2. Where the operating mechanism in any system is dependent upon electrical control, such control in a pressure limiting device shall be on a closed circuit. Nothing herein contained shall require a hand reset on an automatic type of refrigerating machine.

§C19-101.0. Testing.

Every part of any refrigerating system, except pressure gauges and control mechanism shall be tested to at least the following pressures: Class A and B systems containing over fifty (50) pounds of refrigerant shall be tested after installation and proved tight before being operated. A dated declaration of such test, signed by the tester, shall be posted in the machinery room.

Refrigerant	Col. 1	Col. 2 Low Pressure Side	Col. 3 Low Pressure Side
	High Pressure Side	With Safety Valves	Without Safety Valves
Carbon dioxide	1,500	750	1,000
Ethane	1,050	520	760
Ammonia	300	150	225
Propane	250	115	175
Methyl chloride	155	80	120
Sulphur dioxide	135	100	100
Iso-butane	90	45	70
Butane	75	35	50
Ethyl chloride	30	15	25
Dichloromethane	12	12	12
Dichloroethylene	12	12	12
Trichloroethylene	12	12	12

§C19-102.0. Piping.

a. Piping.

1. All piping, liquid receivers or vessels containing the refrigerant, shall be supported on or by strong and durable materials. This provision shall not apply to Class C installations.

2. The arrangement of stop valves, relief devices, and other similar devices, when used shall be as shown on the diagram for Class A and B systems in section C19-107.0 of the code.

3. Every system which may be charged after installation shall have the charging connection located on its low pressure.

b. Gauge glasses.

Liquid level gauge glasses, except those of the bull's eye type, shall have automatic closing shut-off valves and such glasses shall be adequately protected against injury by slotted metal casings.

§C19-103.0. Safety Devices.

a. Construction and setting.

1. Pressure relief valves, pressure limiting devices and rupture members shall be set to prevent the pressure from exceeding the test pressure. The pressure at which the device is set to function shall be indicated thereon. (See section C19-101.0 of the code, columns 1 and 2 of table.).

2. Fusible plugs shall relieve the pressure at a temperature not exceeding 280 degrees Fahrenheit.

b. Use of stop valves.

1. It shall be unlawful to locate a stop valve between a pressure relief device or pressure limiting device and the part of the system protected thereby, unless two pressure relief devices of required size are used, and so arranged that only one pressure relief device can be cut off for repair purposes at any one time.

2. A Class B system in which no stop valves are used and in which the pressure will equalize throughout the system when the pressure imposing element is not in operation may be protected by only one pressure relief device located on the high pressure side.

c. Ammonia mixer.

1. The low pressure side of a Class A ammonia system shall be provided with a hand-operated valve for discharging the ammonia into water through a mixer to the sewer in case of emergency.

2. The ammonia mixer shall be constructed of steel and shall be capable of withstanding a pressure of at least fifty (50) pounds per square inch.

3. It shall be unlawful to locate a valve in the ammonia emergency discharge line, except for the manually-operated valve discharging into the water and ammonia mixer, but there may be one stop valve located inside the building for repair purposes only. This valve shall be sealed open and labeled "Keep Open."

4. The manually operated pressure relief valve shall be located in a locked box which can be opened by members of the Fire Department by means of a Fire Department key. The door of the box shall be on the public thoroughfare side of the building in an easily accessible location and not less than eighteen (18) inches or more than five (5) feet above the sidewalk level. The box shall be permanently labeled with letters of not less than one (1) inch reading "For Fire Department Use Only." The relief valve shall be labeled "Ammonia." A sign shall be posted within the box reading "Do Not Open Valve Until Water Is Flowing."

5. A single standard three (3) inch fire department connection shall be provided through which the necessary water may be supplied to the mixer. The fire department connection shall be located near the box and not less than eighteen (18) inches or more than twenty-four (24) inches above the sidewalk level and shall be permanently labeled having letters not less than one (1) inch high reading "To Ammonia Mixer." A check valve so set as to prevent gases from reaching the fire department connection shall be installed in the water line between the fire department connection and the water and ammonia mixer.

6. The fire department shall have sole use of the mixer and supply the necessary water.

7. In systems using over twenty-seven thousand (27,000) pounds of ammonia there shall be provided one additional water and ammonia mixer for each twenty-seven thousand (27,000) pounds of ammonia or fraction thereof so used in excess.

8. The ammonia mixer and its connection for a Class A system shall conform to the diagram in section C19-107.0 of the code.

§C19-104.0. Size of Safety Devices.

(a) The size of pressure relief valves shall be as follows:

Capacity of System	CO_2 and Ethane, No. Req., Size	Other Refrigerants No Req., Size
Up to 30 tons	1—½"	1—½"
30 to 60 tons	1—½"	1—¾"
60 to 100 tons	1—½"	1—1"
100 to 175 tons	1—½"	1—1¼"
175 to 250 tons	1—¾"	1—1½"
250 to 450 tons	1—1"	1—2"
450 to 900 tons	.....	2—2"

(b) Where rupture members are permitted and used, the equivalent area of the relief valve specified must be provided.

(c) Fusible plugs may be used on all Class C systems and on all Class B systems of the hermetically sealed compression type containing not more than fifty (50) pounds of refrigerant. The free discharge opening shall be one-sixteenth (1/16) inch in diameter.

§C19-105.0. Location and Discharge of Safety Devices.

a. Location.

A pressure limiting device shall be provided on the high pressure side of each water-cooled refrigerating system containing more than six (6) pounds of refrigerant. A pressure relief valve shall be provided on the high pressure side of each water-cooled refrigerating system containing twenty (20) pounds or more of refrigerant, but it shall not be necessary to discharge the refrigerant to the outside air or water tank from any such refrigerating system containing fifty (50) pounds or less of refrigerant, any other provision of part 1, of this title, to the contrary notwithstanding.

b. Location and discharge of safety devices.

1. Each compressor or generator of a Class A or B system containing more than 100 pounds of refrigerant shall be protected by a pressure relief valve connected into the high pressure side between the main stop valve and the compressor or generator to relieve excessive pressure as hereinafter provided.

2. A rupture member may be substituted for the relief valve in CO^2 systems or systems operating below atmospheric pressure.

3. Shell type apparatus such as liquid receivers, condensers, evaporators, liquid separators and absorbers of Class A and Class B systems containing more than fifty (50) pounds of refrigerant, and Class B systems containing fifty (50) pounds or less of refrigerant which can be shut off by stop valves, shall each be equipped with a pressure relief valve discharging as hereinafter provided.

4. Class C systems and Class B systems containing fifty (50) pounds or less of refrigerant so constructed that, when subjected to abnormal outside temperature such as that generated in a fire, they may burst due to the expansion of the refrigerant, shall be protected by a pressure relief device.

5. A pressure relief valve shall be required on the low pressure side of a Class B system into which the relief valve or valves on the high pressure side discharge, as so shown on equipment diagram of section C19-107.0 of the code.

c. Discharge of pressure relief valve.

1. Where ammonia is used in Class A systems, the discharge from relief valves must be conducted to the outside atmosphere or into that part of the low pressure side protected by the mixer as specified in subdivision C, of section C19-103.0 of the code. If it is discharged to the outside atmosphere it must be piped above the roof or not less than 12 feet above the grade. The discharge pipe shall be not less than the size of the relief valve outlet. The discharge from more than one relief valve may be run into a common header, the area of which shall be equal to the area of the pipes connected thereto. The outlet orifice shall be turned downward.

2. Where more than fifty (50) pounds of ammonia is used in a Class B system, the discharge from relief valves shall be piped to the outside atmosphere as specified for Class A systems, or to the low pressure side as shown in diagrams in section C19-107.0 of the code, or into a tank of water which shall be used for no purpose except ammonia discharge. At least one gallon of fresh water shall be provided for every pound of ammonia contained in the system. The water used shall be prevented from freezing without the use of salt or chemicals. The tank shall be substantially constructed of not less than one-eighth (⅛) of No. 11 U. S. gauge iron. No horizontal dimensions of the tank shall be greater than one-half (½) the height. The tank shall have a hinged cover or, if of the enclosed type, shall have a vent hole at the top. All pipe connections shall be through the top of the tank only. The discharge pipe from the pressure relief valves shall discharge the ammonia in the center of the tank near the bottom. The tank shall be as securely supported as any other portion of the system. There shall be no opening in the tank below the water level.

3. Where more than fifty (50) pounds of any refrigerant other than ammonia is used, the discharge from relief valves shall be to the atmosphere as specified for Class A ammonia systems. Carbondioxide may be discharged into the room if the same contains at least 10 cubic feet of capacity per pound of refrigerant used.

4. Arrangements of pressure relief devices for Class A and B systems shall conform to the diagrams in section C19-107.0 of the code.

§C19-106.0. Operating Precautions.

a. Masks and helmets.

1. In a Class A system which operates above atmospheric pressure, there shall be provided at least two helmets or masks.

2. In a Class B system in which more than fifty (50)

pounds of ammonia, sulphur dioxide or other irritant refrigerant is used, there shall be provided at least one helmet or mask.

3. Only helmets or masks that have been approved by the United States Bureau of Mines as suitable for the refrigerant employed shall be used, and they shall be kept in operative condition in an easily accessible case or cabinet located immediately outside the refrigerating machinery room.

b. Signs.

1. On Class A and Class B systems containing more than fifty (50) pounds of refrigerant there shall be painted on and affixed in a permanent manner to the main steam control, main electrical and remote control switches, receivers, containers and shell type coolers, signs having letters not less than one and one-half inches (1½") high, designating the part and refrigerant contained therein.

2. The seller of every Class A or B system shall furnish the purchaser with a sign bearing his name at least 8½" by 11" in size, which gives the rated refrigeration capacity and the quantity and kind of refrigerant required for the satisfactory operation of the system. The purchaser shall conspicuously and permanently display this sign in the machinery room. The quantity and name of the proper refrigerant content and the rated refrigeration capacity shall be stamped on all Class C systems near to or on the name plate.

3. The following information shall be posted in Class A and B machinery rooms where over fifty (50) pounds of refrigerant is used: (a) The names and addresses of the engineers or operators in charge; (b) Location of nearest fire alarm box; (c) The name, address and telephone number of physician to be called in case of emergency; (d) Instructions for safely shutting down the plant in case of emergency.

c. Storage of refrigerant.

1. Refrigerant not contained in the refrigerating system shall be stored only in non-inflammable or non-irritant containers conforming to the regulations prescribed by the Interstate Commerce Commission for the transportation of such refrigerant.

2. Only two containers holding not more than a total of three hundred (300) pounds of inflammable or irritant refrigerant shall be stored in a refrigerating machinery room of a Class A system.

3. Only one container holding not more than one hundred and fifty (150) pounds of inflammable or irritant refrigerant shall be stored in a refrigerating machinery room of a Class B system.

4. In a Class C system no refrigerant other than that used in the system shall be stored in the refrigerating machinery room.

5. If a greater amount of inflammable or irritant refrigerant than that permitted in a refrigerating machinery room is desired, it shall be stored in a fireproof building or enclosure used for no other purpose.

6. When the refrigerant is withdrawn from a system it shall be discharged only into a suitable absorbent or containers conforming to the regulations of the Interstate Commerce Commission for the transportation of such refrigerant. It shall be unlawful to permit any refrigerant to escape into the refrigerating machinery room.

7. Containers shall be connected to the system only during period of charging or withdrawing the refrigerant.

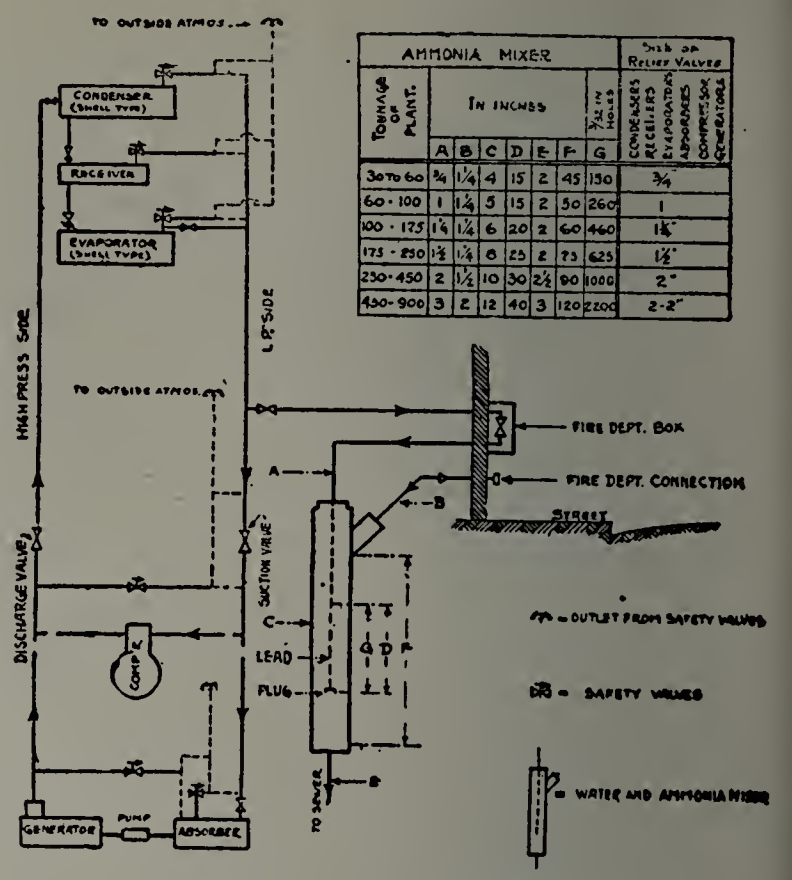
§C19-107.0. Equipment Diagrams.

(See arrangement of pressure relief devices for Class A and Class B equipment.)

Penalties.

§C19-152.0. Violations.

Any person who shall willfully violate or neglect or refuse to comply with any provisions of part 1, of this title, except the provisions of article twenty-six, in addition to any other penalties prescribed by law, shall, upon conviction, be punished by a fine of not more than $500, or by imprisonment not exceeding six months, or by both.



AMMONIA MIXER								Size of Relief Valves

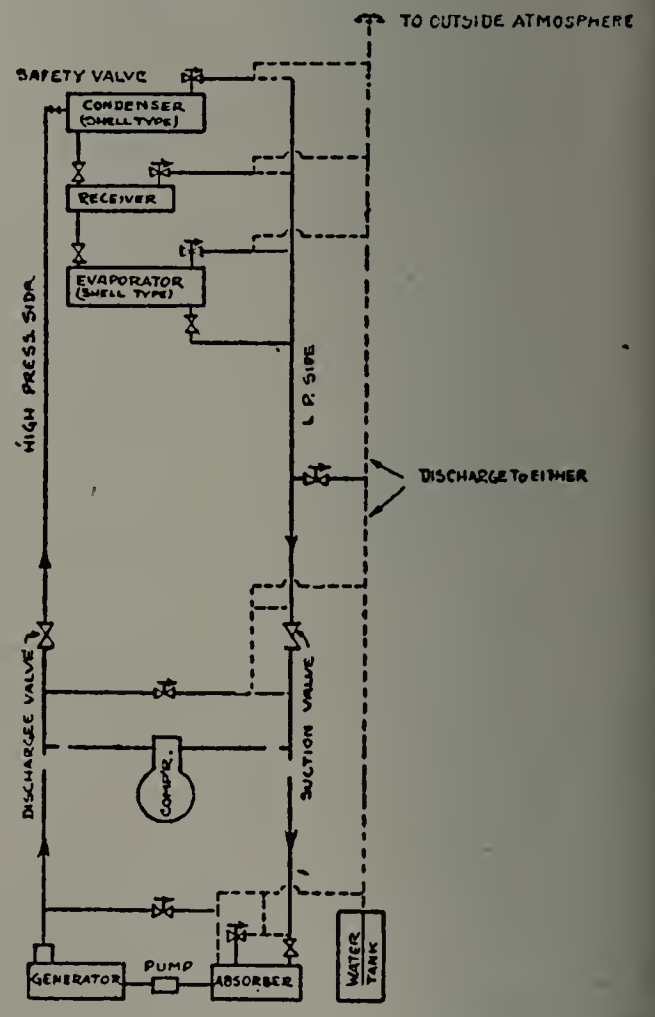
ARRANGEMENT OF PRESSURE RELIEF DEVICES FOR CLASS "A" EQUIPMENT
SECTION C19-107.0



ARRANGEMENT OF PRESSURE RELIEF DEVICES FOR CLASS "B" EQUIPMENT
SECTION C19-107.0

RULES

RULES FOR USE OF METHYL CHLORIDE IN CLASS B AND C REFRIGERATING SYSTEMS.

Adopted by the Board of Standards and Appeals June 23, 1944, effective July 17, 1944.

(Cal. 333-44-SR.)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, *Par.* 2 *of the Charter of the City of New York and Section* C19-98.0 *of the Administrative Code.*

SCOPE:

These rules are supplementary and additional to the requirements of C19-98.0 providing for the use of methyl chloride in class B and class C refrigerating systems.

The promulgation of these rules has become necessary because of the military requirements for Freon (F12). Methyl chloride, while not permitted to be used in class A systems, is permissively allowed in class B and C systems. However, when used in refrigerating systems which formerly used Freon, additional precautions and safeguards are necessary to adapt the refrigerating equipment for use with methyl chloride.

NOTE: References given herein preceded by C19– or C26- refer to specific sections of the Administrative Code. Wherever decimal numbers occur, such system of numbering refers to these rules.

C19-96.0 Permits—a. Except as provided in this article, it shall be unlawful to maintain or operate a refrigerating system without a permit.

b. A permit will not be required for a class C system when maintained or operated in the residence portion of a dwelling containing not more than two families, or in the residence portions of either a tenement house, or a business building.

c. It shall be unlawful to maintain or operate any refrigerating system employing a refrigerant other than those specified in this article without a permit issued upon such conditions, consistent with the provisions of this article, as are deemed by the commissioner necessary in the interest of public safety.

d. A permit, where required, shall be applied for forty-eight hours after installation is completed, containing the name of the person for whom the system is installed and the place of location of the system.

e. Only the refrigerant specified in the permit shall be used in the system.

f. Refrigerating systems to which these provisions cannot be applied, may be maintained and operated subject to such conditions as are deemed necessary by the commissioner.

C19-97.0 Classifications.—a. The total amount of refrigerant common to a system operating through one or more evaporators, shall be considered the capacity of the system and determine its class.

b. A class A system is a system containing one thousand pounds or over of refrigerants, or capable of thirty tons capacity or over.

c. A class B system is a system capable of less than thirty tons capacity, or containing less than one thousand pounds of refrigerant and more than the amounts provided for in a class C system.

d. A class C system is a system containing not more than twenty pounds of refrigerant.

C19-98.0 Permissible locations.—a. It shall be unlawful to install any class A or class B systems in any public building as defined by subdivision a of section C26-235.0 of the code, until plans have been filed with and approved by the fire commissioner, or no refrigerant shall be placed in the system until a permit has been obtained from such commissioner.

b. The direct method of refrigeration shall not be used in any building, whether or not a permit is required for installation therein, outside of the refrigerating machinery room; except in buildings used exclusively for ice making or for refrigerating purposes, or when such method is not carried above the first floor in business buildings, or in the business sections of business buildings when the entire system is confined to one floor in the space occupied by a single tenant, or in the business section of a residence building when not carried above the first floor, or in a residence building occupied by not more than two families, or in any building in which a non-irritant and non-inflammable refrigerant is used. The provisions of this subdivision shall not apply to a building in which installation was made prior to the thirteenth day of December, nineteen hundred twenty-seven.

c. It shall be unlawful to use brine in any brine circulating system that will generate inflammable vapor at a temperature below one hundred degrees Fahrenheit when tested in a Tagliabue open cup tester, and no refrigerant shall be used as a brine.

d. It shall be unlawful to install or maintain a class A system using ammonia in any building above the first floor level unless such building is exclusively for ice making or refrigerating purposes. The provisions of this subdivision shall not apply to a building in which installation was made prior to the thirteenth day of December, nineteen hundred twenty-seven.

e. Systems on demonstration in exhibition halls shall be limited to the unit type containing not more than ten pounds of refrigerant.

f. It shall be unlawful to install or maintain a refrigerating system employing an irritant or inflammable refrigerant in or on:

1. The stairways, halls, lobbies, entrances, exits, or auditoriums of any building;

2. Dance halls, courtrooms, police stations, jails, subways, theatres, or motion picture theatres;

3. Waiting or public rooms in a railroad passenger depot or rooms opening directly therein;

4. Rooms opening directly into a subway, or theatre, or motion picture theatre or where persons are detained or confined;

5. A school, unless the refrigerating system is used exclusively for instruction or research purposes;

6. A hospital or asylum in which persons are confined or given medical treatment, or are helpless. Unless otherwise required by this section, such refrigerating system shall be cut off from the building by unpierced fireproof construction. The foregoing provisions do not apply to hermetically sealed unit systems containing not more than six pounds of refrigerant when located in dance halls, police stations, diet kitchens of hospitals, schools, or laboratories, and when located in rooms shut off from the rest of the building by tight partitions and tight fitting, solid self-closing doors, and located in a room having a window to the outside air.

g. An intermittent absorption type of refrigerating machine shall not be permitted in a class A system. Such type of machine shall be permitted in a class B system only when a heating medium of low pressure steam is used in its operation.

h. The use of methyl and ethyl chloride, sulphur dioxide, or a hydro-carbon refrigerant is not permitted in class A system.

i. A class B system using ethyl chloride or a hydrocarbon refrigerant shall not be installed or maintained in the borough of Manhattan or in other built-up sections of the city. Elsewhere, it shall be installed or maintained only in a fireproof building of not more than one story in height, and shall be located on the ground floor, which shall be of unpierced fireproof construction. The refrigerating machinery room shall be cut off from the rest of the building by unpierced fireproof walls of not less than eight inches of brick or six inches of reinforced concrete. Direct exit therefrom leading to the open air and not to any other part of the building shall be maintained and shall be provided with vapor-tight, self-closing fireproof doors.

RULE 1.0 Prohibited Uses of Methyl Chloride Refrigerant.

1.1 No direct system or indirect open spray system of air conditioning employing methyl chloride shall be permitted in a public building as defined in C26-235.0.

1.2 The direct method of refrigeration may be permitted when the installation satisfies the requirements of Section C19-98.0 and only when the percentage of methyl chloride to the volume of conditioned space is not over .7 of 1 per cent. (Methyl chloride to equal 8.0 cubic feet per lb.)

RULE 2.0 Requirements, for Permissible Uses of Methyl Chloride Refrigerant in Class B and C Refrigerating Systems.

2.1 That the refrigerating equipment room shall be isolated from human occupancies by reasonably gas tight opening closures.

2.2 A mechanical exhaust system with a capacity of ten changes of air per hour shall be provided for the refrigeration equipment room and so controlled electrically and automatically that it shall start with the refrigerating system and be kept running while the system is in operation; that an independent switch remotely located and labeled shall be provided for the mechanical exhaust system so that such ventilating system may operate independently if it should become necessary to stop the refrigerating system during an emergency; that the intake to the exhaust fan shall be located as near the floor as practicable. The capacity of such ventilating system shall in no event be less than the requirements in Section C19-99.b,3.

2.3 That the service company making the conversion shall check with the manufacturer of the specific equipment and certify in writing that conversion to methyl chloride can be safely made and shall list the changes in the system and controls as recommended by the manufacturer to make the equipment suitable for use with methyl chloride. The service company shall, after complying with the recommended changes by the manufacturer, certify to the Fire Commissioner that such recommended changes have been made and shall certify that all the requirements of these rules have been complied with.

2.3.1 The system shall be completely purged of all freon and the lubricating oil replaced with fresh oil suitable for use in refrigeration.

2.3.2 The system shall be thoroughly cleansed, dehydrated and tested for tightness and leaks by pressure immediately after methyl chloride is added. After the system has been purged as provided in Rule 2.3.1 and before methyl chloride is added, special tubes shall be attached on the feed side of the line, containing either silica gel (high test solid material specifically designed for refrigerant drying), activated alumina or suitable drying agent to insure thorough dryness of the refrigerant.

2.3.3 Expansion valves shall be reset or replaced as required.

2.3.4 Relief valves and pressure limiting device shall be reset to conform to the Administrative Code requirements.

2.3.5 All gaskets in the system shall be replaced with gaskets suitable for use with methyl chloride.

2.3.6 Only the exact amount of methyl chloride shall be charged into the system. Capacities shall be measured on the basis of weight of the refrigerant and not volume. Under no circumstances shall external heat, steam, open flame, or otherwise, be applied to the cylinder containing the refrigerant and only the exact amount of refrigerant required for charging shall be permitted to be delivered to the premises. After charging the cylinder shall be immediately disconnected and removed. No reserve storage of methyl chloride shall be permitted nor shall there be any open flames in the same room with the refrigeration equipment.

2.3.7 Before charging any refrigeration system with methyl chloride, all parts which are in contact with the refrigerant and are composed of aluminum, magnesium, zinc or their alloys, shall be replaced with parts made of suitable metals.

2.3.8 Upon completion of the conversion from freon to methyl chloride, and before the equipment is put in operation, the service company shall make a complete check for leaks using a Halide torch and immediately remedy any leaks.

2.3.9 A mask or helmet as approved by the Bureau of Mines of the U. S. Dept. of Interior for use with methyl chloride shall be provided in a suitable wall cabinet located immediately outside the equipment room.

2.3.10 A weekly inspection by the person holding a certificate of fitness to supervise refrigerating equipment as provided in C26-214.0 shall be made of the refrigeration equipment and all piping and connections for leakage.

2.3.11 Refrigeration equipment within the purview of these rules shall bear a metal sign reading: "Caution: Methyl Chloride Refrigerant, Guard against Leaks."

BOARD OF STANDARDS AND APPEALS

HARRIS H. MURDOCK, Chairman
BERNARD A. SAVAGE
CHARLES M. BLUM
CHIEF JOHN E. GUNN

JOSEPH J. DOYLE, *Chief Clerk*

OFFICE—Municipal Building, Rooms 1000 to 1018.

TELEPHONE—WOrth 2-5600.

OFFICE HOURS FOR PUBLIC—9 a. m. to 4 p. m.

Saturdays 9 a. m. to 12 noon.

Address all communications to the Chairman

CONTENTS

This issue of the Bulletin contains in the order given—

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting, February 6, 1945, at 10 A. M., Affecting Calendar Numbers 422-39-BZ, 597-44-BZ, 691-44-BZ, 606-44-BZ, 94-19-BZ, 370-41-BZ, 50-42-BZ, 330-42-BZ, 182-44-BZ, 183-44-A, 610-44-A, 644-44-A, 737-44-A and 584-44-SM.

Minutes of Regular Meeting, February 6, 1945, at 2 P. M., Affecting Calendar Numbers 605-44-A, 620-44-A, 643-44-A, 12-45-A, 13-45-A, 20-45-A, 51-44-A, 612-39-A, 277-44-A, 617-44-A, 706-44-A, 1-45-A, 585-42-BZ, 104-37-BZ, 480-37-BZ and 702-38-BZ.

Resolution Relating to Approval of Sites for Bus Stations Adopted by The Board of Estimate February 1, 1940 (Calendar No. 15).

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to February 6, 1945

Cal. No. *Dept.* *Premises Affected*

43-45-BZ—H.B.B.—4724 13th avenue, northwest corner of 48th street (Block 5628, Lot 42), Borough of Brooklyn, Alt. 3487-44.

44-45-A—F.D.—203A Nassau avenue, north side, 25 ft. west of Russell street (1st floor); (Block 2654, Lot 30), Borough of Brooklyn, 98493-C.

45-45-A—H.B.B.—211-249 Lombardy street, north side, 188 ft. east of Stewart avenue (2nd floor, penthouse); (Block 2822, Lot 1), Borough of Brooklyn, Decision re XO-161-43.

46-45-BZ—H.B.B.—1256-1262 Bedford avenue, northwest corner of Fulton street (Block 2000, Lot 35), Borough of Brooklyn, Alt. 2675-44.

47-45-A—F.D.—533-537 West 34th street, north side, 350 ft. east of 11th avenue (cellar); (Block 706, Lot 15), Borough of Manhattan, 32304-LF and Decisions.

48-45-A—F.D.—1201 Flushing avenue, southwest corner of Harrison place (basement); (Block 3007, Lot 3), Borough of Brooklyn, 13158-LF and Decision.

49-45-SA—Safety Oil Heater (Preheater), Appliance.

50-45-BZ—H.B.B.—1101 Avenue J, northeast corner of Coney Island avenue (Block 6704, Lot 49), Borough of Brooklyn, Alt. 3577-44.

51-45-A—F.D.—30-30 Thomson avenue, south side and 47th (Nelson) avenue, north side, from 30th place (Manly street) to 31st (Mount) street (ground, 1st, 2nd, 4th and 5th floors); (Block 277, Lot 1), Long Island City, Borough of Queens, Decision.

52-45-BZ—H.B.Q.—214 Beach 90th street, east side, 106 ft. north of Rockaway Beach boulevard (Block 574, Lots 1, 2 and 5), Rockaway Beach, Borough of Queens, Alt. 1425-44.

53-45-SM—Alpha 275 Gallon Fuel Oil Storage Tank, Cylindrical and Obround, manufactured by Alpha Tank Co., Inc., Material.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, FEBRUARY 6, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, January 30, 1945, and Tuesday afternoon, January 30, 1945, were approved as printed in Bulletin No. 6, Volume 30.

MINUTES

ZONING CASES

422-39-BZ

APPLICANT—Lama and Proskauer, for Bonded Lien Corporation, owner.

SUBJECT—Application reopened July 25, 1944, for consideration as to extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—305-313 21st street and 697-705 6th avenue, northwest corner (Block 892, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 6, 1945 at 10 A. M. on request of applicant.

597-44-BZ

APPLICANT—Lama & Proskauer, for Abraham, Morris & Samuel Sorkin, owners.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit partly in an unrestricted and partly in a residence use C area district, the demolition of a gasoline service station, motor vehicle repair shop and poultry slaughter house and reconstruction as a gasoline service station and motor vehicle repair shop without providing the rear yard required under the provisions of Section 17, Zoning Resolution.

PREMISES AFFECTED—2987-2997 Atlantic avenue and 205-221 Elton street, northeast corner (Block 3955, Lot 48), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Harold Klorfein, Dep't of Parks.

ACTION OF BOARD—Laid over to March 6, 1945 at 10 A. M., pending an inspection by a committee of the Board; no further argument and for decision by the Board.

691-44-BZ

APPLICANT—Judson E. Schnall, for 8010 Fifth Avenue Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit on a plot located in a business use and residence use C area district, the erection of a fur storage vault extending from a business use district into a residence use district as an extension to an existing business building and not in compliance with the requirements for C area district.

PREMISES AFFECTED—8010-8012 5th avenue, west side, 63 ft. south of 80th street (Block 5989, Lots 46 and 47), Borough of Brooklyn.

APPEARANCES—

For Applicant: Judson E. Schnall, Julius Lewis, Solomon Lewis and John Cincotto.

For Opposition: Walter F. Cahill, Mary M. Smith, Dominic Divine, Olga Klein.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 6, 1945, at 10 A. M. pending an inspection by a committee of the Board. No further argument and for decision by the Board.

606-44-BZ

APPLICANT—Albert E. Wheeler, for Marie P. Campagna, owner.

SUBJECT—Application (decision of the acting borough superintendent) under section 21-C of the zoning resolution, to permit in an F area district, a one and two family residential development not conforming to the area district requirements.

PREMISES AFFECTED—South side of West 249th street (Spauldings lane), between Henry Hudson parkway and Arlington avenue (Block 3419, Lot 91), Borough of The Bronx.

APPEARANCES—

For Applicant: None.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn on written request of applicant.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

94-19-BZ

APPLICANT—Herman Kron, for Bergen Management Co., Inc., owner (Brownsville Motor Sales Co., Inc., lessee).

SUBJECT—Application reopened, June 22, 1943 (decision of the borough superintendent) under section 7i of the zoning resolution, to permit in a business use district, the change of occupancy from a garage for more than five motor vehicles (previously granted by the Board) to a garage for more than five motor vehicles and motor vehicle repair shop for a temporary term of two years and the maintenance of a 2nd story on a portion of the building.

PREMISES AFFECTED—1776 Eastern parkway and 2122-2128 Bergen street, southeast corner (Block 1455, Lot 24), Borough of Brooklyn.

APPEARANCES—

For Applicant: Herman Kron.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION—94-19-BZ)

WHEREAS, this application, permitting in a business use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises 1776 Eastern parkway and 2122-2128 Bergen street, southeast corner (Block 1455, Lot 24), Borough of Brooklyn, was granted by the Board on March 26, 1919, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, to permit the inclusion of a motor vehicle repair for a temporary term of two years and the maintenance of a 2nd story on a portion of the building; and

WHEREAS, this case was reopened by vote of the Board on June 22, 1943, and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, February 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Eastern parkway and Bergen street are in a business use, C area and Class 1 height district and that East New York avenue is in an unrestricted use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 15, 1944, re Alt. App. 1317-43, reads:

"2. Proposed change in occupancy from garage for more than five (5) motor vehicles to garage for more than five (5) motor vehicles and motor vehicle repair shop and the connection to adjoining two story building and change of use of the two story building from store to accessory to garage for more than five (5) motor vehicles and motor vehicle repair shop in a business use district is contrary to Art II, Sec. 4 (a), Subdivision 15 and 29 of the Zoning Resolution.

NOTE: Premises were the subject of conditional variation of the Board of Standards and Appeals. 94-19-BZ."

and

WHEREAS, the applicant states the premises consist of a plot, 168.8 feet frontage by 160.10 feet in depth, irregular, on which is located a 1 and 2-story, Class 3, structure, occupied as a garage for more than five motor vehicles and motor vehicle repair shop and to maintain the second story; and

WHEREAS, the applicant contends that this application is made necessary by reason of changed circumstances of the present war conditions; that the occupant was known as the BROWNSVILLE CHEVROLET CO. (Now The Brownsville Motor Sales), a dealer in new Chevrolet cars; that due to the curtailment of manufacturing of new cars, he must supplement his income by selling used cars and also repairing same; that the Fire Department has made an order requiring the lessee to vacate the portion used as a repair shop on the ground the certificate of occupancy, in accordance with Board's resolution of 1919, limits the use of it to a public garage; that the lessee of this building took it subject to its tenancy as a public garage and repair shop; that he now finds the certificate of occupancy does not permit a repair shop and this application became necessary; that without the income from repair shop purposes, the lessee will be unable to pay the rent and his invesiment will be jeopardized; that the building was approved under Cal. 94-19-BZ and resolution therein stated that same shall be erected as 1-story garage with no entrance on Eastern parkway and that window sills facing Eastern parkway shall not be less than 6 ft. above grade; that the Building Department approved plans in 1919 shown as follows: one 1 story garage building and adjoining one 2 story store building with no entrance on Eastern parkway, into the garage; that the plans show there are two entrances on Bergen street; that the windows facing Eastern parkway are 4 ft. above grade instead of 6 ft; that the same applies to the windows on the Bergen street side; that the machine equipment used in connection with the automobile repair shop are as follows: 1 bench grinder ¼ H.P., 1 bench lathe ¾ H.P., 1 valve refacing machine ¼ H.P., 1 movable auto lift and necessary tools for the work as stated above; that the Building Dept. issued a new objection, stating that the adjoining two story building (approved under original plans) as a store and used as an accessory to the garage, is, in the Building Dept's estimation, contrary to the Zone Resolution; that the original plan shows a window, whereas present applicant's plans show an entrance and a show window facing Eastern parkway, corner of Bergen street; that this work was done many years ago under a Building Notice, but the Building Department has no record of the same; that the 1100 gallon tank was also installed in 1919 and no gasoline is sold to the public; that the lessee has a second-hand dealer's license #B 5561, expiring Jan. 31, 1945, issued by the Department of Licenses; that it is requested the Board vary the Zoning Resolution under Art. II, Sec. 4, subdiv. 7i for a temporary term of two years, as to the inclusion of the repair shop; and

WHEREAS, the premises and the adjacent area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of March 26, 1919, by adding thereto:

"*Granted* under section 7i to permit the building to be also occupied as a garage and motor vehicle repair shop *on condition* that the motor vehicle repair shop shall not extend beyond the area as proposed and shall be maintained with the equipment as proposed; that there shall be no forge or anvil; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that any signs on the front of the building, not in accordance with the lawful requirements, shall be removed; that all roof signs shall be removed and no roof signs shall be constructed or maintained; that the building shall not be increased in height or area; that the repair work shall be solely in connection with the existing use and not operated by a separate tenant; that otherwise, the building shall be maintained in accordance with the resolution adopted by the Board on March 26, 1919, and as herein permitted including the existing second story and except that the existing windows may have sills approximately 4 ft. above the sidewalk instead of 6 ft. as required in 1919; that all permits shall be obtained and all work completed within three (3) months from the date of this *amended* resolution; that this variance shall continue for not over five (5) years from the date of this *amended* resolution and shall be discontinued in the event that the building is not continued for the present use; that a new Certificate of Occupancy shall be obtained."

370-41-BZ

APPLICANT—Ferdinand Savignano, for Sophie Rigler, owner.

SUBJECT—Application reopened December 12, 1944 for consideration as to extension of permit (expired by limitation) re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—443-451 Myrtle avenue and 137-155 Waverly avenue, northeast corner (Block 1889, Lots 96, 94 and 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Peter L. Siciliano.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (370-41-BZ

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 443-451 Myrtle avenue and 137-155 Waverly avenue, northeast corner (Block 1889, Lots 96, 94 and 1), Borough of Brooklyn, was granted by the Board on April 7, 1942, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit, which had expired by limitation; and

WHEREAS, this case was reopened by vote of the Board on December 12, 1944, restored to the calendar and set for hearing on January 9, 1945 and laid over to February 6, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, February 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted April 7, 1942, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"* * * *granted* under section 7h for a temporary term of two years from the date of this *amended* reso-

lution, to permit the premises, consisting of lots 96, 94 and 1, as indicated on plans filed with this application, to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of April 7, 1942, shall be complied with; and that a certificate of occupancy shall be obtained."

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted May 12, 1942, only so far as it has reference to the term of the permit, so that as amended this portion of the resolution shall read:

"* * * *granted* under section 7i for a temporary term of two (2) years, from the date of this *amended* resolution, to permit the premises to be occupied for motor vehicle repairing, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of May 12, 1942, shall be complied with and that a certificate of occupancy shall be obtained."

330-42-BZ

APPLICANT—Eugene De Rosa, for Jeron Company, Inc., owner.
SUBJECT—Application reopened on September 12, 1944 (decision of the acting borough superintendent) under section 7c of the zoning resolution, to permit partly in a business use district and partly in a residence use district, the erection and maintenance of a building to be used as a theatre and stores.
PREMISES AFFECTED—95-42 to 95-48 Queens boulevard, south side, 130 ft. west of 63rd drive and 63-39 to 63-49 Saunders street (Block 3080, Lots 30 and 31), Rego Park, Borough of Queens.
APPEARANCES—
For Applicant: Joseph V. McKee, Gilbert Lazerus, Eugene De Rosa and Sol L. Firstenberg.
For Opposition: Paul Jacoby, Jr., Edna L. Livezey, Mrs. A. G. Main and Jabez E. Dunningham.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION—(330-42-BZ)

WHEREAS, this application under section 7c of the zoning resolution, to permit partly in a business use district and partly in a residence use district, the erection and maintenance of a building to be used as a theatre and stores, affecting premises 95-42 to 95-48 Queens boulevard, south side, 130 ft. west of 63rd drive and 63-39 to 63-49 Saunders street (Block 3080, Lots 30 and 31), Rego Park, Borough of Queens, was withdrawn after argument, on October 14, 1942; and

WHEREAS, the applicant requested a reopening of the application and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on September 12, 1944 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals at its regular meeting, November 28, 1944 and laid over from time to time to February 6, 1945 after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Queens boulevard is in a business use, C area and 1-times height district and that Saunders street is in a residence use, D area and 1-times height district; and

WHEREAS, the decision of the borough superintendent dated June 28, 1944, re NB App. 397-42, reads:

"1. The erection of a theatre on that portion of a lot which is in a residence use district, is contrary to Art. II Sec. 3 of the Building Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 86 ft. by 145 ft. frontage, and 100 ft. by 200 ft. in depth, now vacant, on which it is proposed to erect a one and two-story fireproof theatre building with a nonfireproof portion to be occupied by stores; and

WHEREAS, the applicant contends that the portion of property facing Queens boulevard is in a business use district, while the rear portion, facing Saunders street, is in a residential use district; that the affected property is surrounded on the east by highly developed business property, on the north by business property, on the west by apartment houses and on the south (across Saunders street) by private dwellings; that a prior application was made to the Board under Cal. 330-42-BZ, but was withdrawn by the applicant on October 14, 1942, because of the restrictions imposed on construction by the War Production Board; that while those restrictions still exist, the possible imminent end of the war may result in their removal in the immediate future; that it is therefore necessary to plan for the construction and operation of the proposed project at the earliest possible time; that it is believed by applicant that the granting of this appeal will in no way adversely affect the character of the surrounding area; that, on the contrary, there is a definite need for a theatre in the immediate vicinity and its construction would be a benefit to the neighborhood; that there is no theatre in the vicinity at present and no other property suitable for that purpose; that the erection of the proposed structure in this highly developed business and residence area is, therefore, a very appropriate and desirable development; that the proposed structure will be so erected as to safeguard the character of the residential area; that

the main entrance will be on Queens boulevard, which is in a business area; that the door openings to Saunders street will be solely for emergency exits; that the front wall facing Saunders street, will be treated with face-brick, granite base and such architectural embellishments as shown on a drawing to be submitted, as will preserve the residential aspect of the street; that there will be no advertising signs or billboards displayed on any part of the building facing on Saunders street; and

WHEREAS, after public hearing on November 28, 1944, the hearing was adjourned to permit the applicant to obtain a new decision of the borough superintendent, in view of the amendments to the Zoning Resolution, which became effective December 3, 1944, and to submit revised plans; and

WHEREAS, the new decision of the borough superintendent was obtained, dated January 13, 1945, re N.B. 397-1942, reading:

"1. The erection of a theatre on that portion of lot which is in a residence use district is contrary to Article II, Section 3 of the Building Zone Resolution.

2. The building occupies at the curb level more than 60% of the area of that portion of the lot located in a 'business c' district, contrary to section 13 (b) of the Building Zone Resolution. Not further considered."

and

WHEREAS, the revised plans submitted to the borough superintendent as disapproved January 13, 1945, and as submitted thereafter to the Board on January 18, 1945, showed substantial compliance with the requirements for a residential "D" area district as to coverage, according to the Zoning Resolution as amended effective December 3, 1944, and in compliance as to the business "C" area except as to the construction not over 23 feet in height for 40% of the plot; and

WHEREAS, the applicant claimed that it would not only be of no benefit to anyone to leave 40% of the plot in the business use area unbuilt upon, inasmuch as the buildings on either side have unpunctured walls for the full depth of the lot on the lot line and 23 feet or more in height, but that it would constitute an unnecessary deprivation of the use of the land for which there would be no gain as to light and air for the common good; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant under section 7, subdivision c of the zoning resolution, as to the extension of the business use into the residence use, D area district; and

WHEREAS, the Board deemed that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution and was, therefore, entitled to relief on the grounds of practical difficulty and unnecessary hardship as to building beyond the area permitted in the business use district; and

WHEREAS, the Board deemed that no loss of light and air would result from permitting the entire portion of the lot to be built upon within the business use area, especially as adjoining lot line walls on both sides are blank and for the full depth of the lots.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted,* under section 7c thereof, to permit the extension of the proposed theatre building into the residence district, substantially as indicated on revised plans marked "Received January 18, 1945", *on condition* that the design of the building and its area shall be substantially as shown thereon; that the portion of the building within the residence use district shall comply with the requirements of the zoning law in all other respects; that the open spaces indicated to the east and to the west shall remain unbuilt upon, except for the fire escapes as indicated; that cement walks from the emergency exit doors shall be maintained to Saunders street; that along Saunders street at the building line to the east and to the west, there shall be erected an ornamental iron fence with an ornamental iron gate which shall normally be kept closed and shall be fitted with a panic bolt on the inside so as to make it openable outwardly at all times; that the height of such fence shall be not less than 6 feet; that the open areas shown as Court 1 and Court 2 shall otherwise be kept planted; that a similar iron fence shall be erected on the westerly lot line, separating this plot from the adjoining apartment house plot under the same ownership, except where lot line walls occur; and *granted,* under section 21, as to the portion of the building to be erected within the business area, *on condition* that the building complies with the requirements of the existing zoning law, except that such space required under the present amended zoning law to be left vacant, may be built upon to a height not exceeding 23 feet; that signs on the building shall comply with all requirements therefor; that no vertical signs shall be erected above the marquee and no sign shall be placed on the front of the building above the marquee, or on the roof; that no signs of any nature shall be erected on any portion of the exterior of the building within the residence use district; that the ventilating system exhaust fan shall be constructed within the business use area and arranged to exhaust toward Queens boulevard and away from Saunders street; that the exits from the theatre to the side courts 1 and 2 shall be used for emergency purposes only and not as a regular means of exit; that the operators of the theatre shall carry this requirement into effect, so that all exiting under normal conditions shall be through the main lobby to Queens boulevard and the emergency exit doors shall be so labeled; that there shall be no openings in the walls within the residence use district other than as indicated for exit purposes on the plans submitted marked "Received January 18, 1945;" that complete working drawings, including landscape drawings, shall be submitted to the Board for general approval before same are filed with the borough superintendent; and that all permits required shall be obtained and all work completed within one year from the date of this resolution.

182-44-BZ

APPLICANT—Frank C. Keller, for John Celmer and Stanley Celmer, owners.

SUBJECT—Application (decision of the acting borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the erection of a garage for two (2) commercial cars (trucks) and the maintenance of a contractor's equipment storage yard.

PREMISES AFFECTED—70-01 to 70-07 71st place, southeast corner of 70th (Edsall) avenue (Block 3663, Lots 1, 2 and 4), Glendale, Borough of Queens.

APPEARANCES—

For Applicant: Frank C. Keller and John Celmer.

For Opposition: Edward N. Kassel, Helen A. Guthlein and Marie C. Montag.

For Administration: Fred Dahlem. Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (182-44-BZ

WHEREAS, Frank C. Keller, for John Celmer and Stanley Celmer, owners, filed March 27, 1944, an application under section 21 of the zoning resolution, to permit in a residence use district, the erection of a garage for two commercial cars (trucks) and the maintenance of a contractor equipment storage yard; affecting premises: 70-01 to 70-07 71st place, southeast corner of 70th (Edsall) avenue (Block 3663, Lots 1, 2 and 4), Glendale, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meet-

ing, February 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that 71st place is in a residence use, C area and Class 1 height district and that (Edsall) 70th avenue is in a residence and business use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 3, 1944, re N.B. App. 7-44, reads:

"2. The use of property located within a residence district for the storage of business machinery, etc., is contrary to Art. 2, Section 3 of the Zone Resolution.

3. The erection of a garage, not accessory to a dwelling located on the same lot, in a residence district is contrary to Art. 2, Section 3 of the Zone Resolution.

4. The storage of business trucks in a garage located in a residence district is contrary to Art. 2, Sect. 3 of the Zone Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 75.06 ft. frontage by 91.21 ft. in depth, irregular, on which is to be located a one-story, Class 3 construction, 30 ft. by 25 ft. garage for two trucks, the remainder of plot to be used for the storage of contractor's equipment, consisting of scaffold, horses, wheelbarrows and like equipment used in general contracting; and

WHEREAS, the applicant contends that this plot, although originally zoned as unrestricted, was changed to residential at some time between October 3, 1924, and July 28, 1927; that it is a hardship on the owner to be compelled to pay taxes and be unable to improve this land with a conforming residential use and therefore be deprived of its use; that directly opposite on the 70th avenue frontage is the Long Island Railroad, as shown on block survey filed with this application; that the traffic on this railroad line is mostly freight; that the noise and dust from these freight trains and the smoke and soot from the coal-fueled steam locomotives would prevent any improvement of this land for residential use; that beyond these tracks to the north lies the Lutheran Cemetery; that although this portion is not as yet filled with graves and tombstones, it will be in the very near future since no other land in the city can be obtained for this purpose; that opposite this plot on the 71st place side to the west is a factory used and operated by the Weirfield Rug and Carpet Cleaning Co., whose condition can be seen on Photograph #1 filed with this application; that on the 70th avenue side within the area of influence on the southwest corner of 72nd place, is a factory operated by the G. F. Richter Mfg. Co.; that the aforementioned are facts which contribute to the hardship of the owners; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this is a proper case in which to exercise its discretion to grant under section 7, subdivision e of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted*, under section 7e thereof, for a term of two years from this date, *on condition* that no building shall be erected on the premises; that the wood fence shall be maintained; that there shall be no addition to the present unlawful use consisting of the storage of contractor's equipment; that no trucks or other motor vehicles shall be stored on the premises; and that all permits required shall be obtained and all work completed within one (1) month from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

183-44-A

APPLICANT—Frank C. Keller, for John Celmer and Stanley Celmer, owners.

SUBJECT—Appeal from a decision of the acting borough superintendent.

PREMISES AFFECTED—70-01 to 70-07 71st place, southeast corner of 70th (Edsall) avenue (Block 3663, Lots 1, 2 and 4), Glendale, Borough of Queens (Under Section 35, General City Law re bed of mapped street—70th (Edsall) avenue).

APPEARANCES—

For Applicant: Frank C. Keller and John Celmer.

For Opposition: Edward N. Kassel, Helen A. Guthlein and Marie C. Montag.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (183-44-A)

WHEREAS, Frank C. Keller, for John Celmer and Stanley Celmer, onwers, filed March 27, 1944 an application pursuant to section 35 of the General City Law as stated in a decision of the borough superintendent, affecting premises 70-01 to 70-07 71st place, southeast corner 70th (Edsall) avenue (Block 3663, Lots 1, 2 and 4), Glendale, Borough of Queens, relating to the use of a portion of the premises in a mapped street (70th avenue) for the storage of contractors' equipment and materials; and

WHEREAS, the decision of the borough superintendent on N. B. Applic. 7-44 dated March 3, 1944 reads:

"1. The use of premises in the bed of a mapped street for business purposes, is contrary to Art. 3, Section 35 of the General City Law."

and

WHEREAS, the applicant states that the premises consist of a plot 75 ft. by 91 ft. in depth irregular in area, located in a residence use, C area class 1 height district and used and occupied for the storage of contractor's equipment and materials as described in application for a zoning variance filed under Cal. 182-44-BZ; and

WHEREAS, the applicant contends that he has filed an application for a modification of the zoning resolution to permit the use of the premises for a non-conforming use and that in the event such application is granted, it is requested that the Board give consideration to this application and grant the request; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board in connection with Cal. 182-44-BZ.

Resolved, that the decision of the borough superintendent of buildings acting on N. B. Applic. 7-44, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted* under the powers vested in the Board under section 35 of the General City Law, *on condition* that no structure shall be erected on the portion of the premises within the bed of the proposed street other than the existing fence; and that the use of the premises shall be maintained in accordance with the requirements of the resolution adopted this day under Cal. 182-44-BZ for a term of two years as stated therein, and for no other use.

610-44-A

APPLICANT—Frank J. Buttermark, for Gaetano Raia, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—372 Seaview avenue, south side, 140 ft. east of Laconia avenue (2nd floor); (Block 3380, Lot 68), Dongan Hills, Borough of Richmond (under Section 35, General City Law—re proposed widening of avenue—Seaview avenue).

APPEARANCES—

For Applicant: Angelo Constantino.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (610-44-A)

WHEREAS, Frank J. Buttermark, for Gaetano Raia, owner, filed October 24, 1944, an appeal from a decision of the borough superintendent and an application pursuant to Section 35 of the General City Law affecting premises 372 Seaview avenue, south side, 140 ft. east of Laconia avenue (2nd floor); (Block 3380, Lot 68), Dongan Hills, Borough of Richmond; and

WHEREAS, the decision of the borough superintendent, dated September 27, 1944, on Alt. Applic. 134-44, reads:

"This proposed alteration of an increase in height of the 1 story front to 2 stories of this proposed 2 family dwelling is not permitted, as it will encroach within the proposed widening line of 10 feet, together with the required front yard of 10 feet in this area district.

(Section 35, General City Law and Zoning Resolution, Art. IV, Section 15)."

and

WHEREAS, the applicant states that the structure is a duplex building 22 ft. front by 56 ft. 4 in. in depth, 2 stories (30. ft. 6 in.) in height, of class 4 construction, erected in 1920, located in a residence use, E area and class 1 height district and used and occupied as follows: front section—1 family; rear section, 1st floor—1 family, 2nd floor—1 family; that the structure is divided with two 3 ft. wide frame stairs, enclosed in partitions of wood studs and plaster, equipped with wood doors and leading directly to the street; and

WHEREAS, it is proposed to increase the height of the front section of the structure to 2 stories and to occupy the front half of the building as a 2 family dwelling; and

WHEREAS, the applicant contends that the proposed alteration will in no way interfere with the integrity of the City plan and will in no wise increase the cost of opening the proposed street, as the proposed alteration will not extend the building beyond its present lines; that the proposed widening of Seaview avenue from 40 ft. to 60 ft. in width was approved by the Board of Estimate April 25, 1930; that the existing building is 13 ft. from the existing street line and will be 3 ft. from such line if the street is widened as proposed; that the income is insufficient to pay the expenses of running the property; that the proposed alteration will permit the owner's daughter to occupy the proposed three room apartment on the second floor front and thus yield a return to the owner without prejudicing or jeopardizing the interests of the City.

Resolved, that the decision of the borough superintendent on Alt. Applic. 134-44 be and it hereby is *modified* and that the appeal be and it hereby is *granted* under the powers vested in the Board under Section 35 of the General City Law, *on condition* that no part of the building shall be erected within the bed of the proposed street as widened; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

644-44-A

APPLICANT—Ferdinand Savignano, for Gussie Schwartz, owner. (A. A. Woolstock Co., lessee).
SUBJECT—Appeal from a decision re an order of the fire commissioner.
PREMISES AFFECTED—237 Mercer street, west side, 100 ft. south of West 3rd street (Block 533, Lot 20), Borough of Manhattan.
APPEARANCES—
For Applicant: None.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal dismissed for lack of prosecution.

THE VOTE TO DISMISS—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (644-44-A)

WHEREAS, Ferdinand Savignano, for Gussie Schwartz, owner, (A. A. Woolstock Co., lessee), filed November 13, 1944, an appeal from an order of the fire commissioner, affecting premises 237 Mercer street, west side, 100 ft. south of West 3rd street (Block 533, Lot 20), Borough of Manhattan; and

WHEREAS, when this case was called for hearing, no appearance was made on behalf of the applicant, although duly notified to do so.

Resolved, that the appeal be and it hereby is *dismissed* for lack of prosecution.

737-44-A

APPLICANT—Wickes, Riddell, Bloomer, Jacobi and McGuire, for Republic Steel Corporation, owner.
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—62-88 (62-160) Scott avenue, northeast corner of Meserole street (1st floor); (Block 2972-B, Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: John K. Clark, Jr. and H. F. Eisengrein.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (737-44-A)

WHEREAS, Wickes, Riddell, Bloomer, Jacobi and McGuire, for Republic Steel Corporation, owner, filed December 18, 1944, an appeal from an order and a decision of the fire commissioner, affecting premises 62-88 (62-160) Scott avenue, northeast corner of Meserole street (1st floor); (Block 2972B, Lot 1), Borough of Brooklyn; and

WHEREAS, order 96995-LC issued by the fire commissioner May 2, 1944 and repeated in a decision of the fire commissioner dated December 12, 1944 reads:

"You are hereby notified that an inspection of the above premises used to store and use oils, acids, etc., shows the following must be done before the permit requested by you can be issued.

2. Provide a separate exterior storage building of fireproof or fire-resisting material with ventilated plain glass skylight or a storage room constructed fireproof in a fireproof building or fire resisting in a non-fireproof building for the storage of spray material in excess of 100 gallons.

Storage rooms shall have a window opening to the outer air, but such window shall not be on a lot line enclosed court nor opposite within 20 ft. of windows of adjacent buildings; nor part of the same premises, such window openings to be fireproofed and lower half provided with open louvres or ventilated by a metal duct or fan at least 8 in. in diameter. The floors of all storage rooms shall be waterproof up to a height of at least 6 in. from the floor and be properly pitched for drainage purposes to a low point within enclosure. Any drain in such storage room shall not be connected to the house drainage system or street sewer. The sill of the door shall be at least 6 in. above the finished floor. All doors to be tin-clad approved fireproof and self-closing. Rule 6.1.3 Spray Rules."

and

WHEREAS, the applicant states that the building is 5 stories (75 ft.) in height, 80 ft. by 287 ft. in area, of class 1 construction, erected in 1926, located in an unrestricted use, A area and class 1½ height district and used and occupied

since erection as follows: cellar, boiler room, 2 persons; 1st to 4th floors, manufacturing steel and tubing, 15 persons on the 1st floor, 35 persons on the 2nd floor, 20 persons on the 3rd floor and 10 persons on the 4th floor; 5th floor, machine shop and maintenance department, 65 persons; that the building is equipped with a one source sprinkler system, a standpipe system, interior fire alarm system, but fire drills are not maintained; that there are two fireproof stairs from the roof to the street, one is 44 in. in width and the other 55½ in. wide; and

WHEREAS, Certificate of Occupancy 39622 issued July 2, 1926 on N. B. permit 15018-25, permits the use of the building as a factory; and

WHEREAS, the applicant contends that the order refers to a storage room for the storage of spray materials in excess of 100 gallons located on the 1st floor; that it is impossible to build either a storage building or a storage room on the premises which would be 20 ft. or more from any adjacent building, except on the portion of the premises used for a lumber yard; that it would therefore be impossible to construct such a storage building of storage room which would have a window not opposite within 20 ft. of windows of adjacent buildings; that it is proposed that the storage room, as indicated on plans filed with this appeal, be equipped with a metal duct to exhaust fumes from the storage room, as indicated on plans filed with this appeal; that the storage room is constructed as follows: 6 inch concrete roof except the portion of the roof which is under the stair well, which is 7 inches thick; that the easterly wall of the room is 8 in. concrete, southerly wall, 8 in. concrete with two former doorways bricked up with brick and cement to a thickness of 8 inches; that the westerly wall is terra cotta tile 6 in. thick; that the northerly wall is terra cotta tile 6 in. thick with one doorway to be closed up with terra cotta tile 6 in. thickness; that the floor of the room is concrete 4 in. thick; that a new door will be installed in the westerly wall, opening into the fireproof first floor of the building; that the storage room is equipped with five sprinkler heads connected to the sprinkler system of the building; that the room will be equipped with a tin-clad fireproof, self-closing door with 6 in. sill; that floors will be waterproofed to a height of 6 in. with a 5 degree pitch for floor rise on each side of the sill; that the building is fireproof with eight remote exits on the first floor; that it is felt that the storage room with the proposed vent and other changes herein proposed, will comply with the spirit of the rules and it is therefore requested that the Board grant a variance, permitting the use of the room as proposed.

Resolved, that the decision of the fire commissioner as to Order 96995-LC, Item 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that such paint and spray materials as are proposed, shall be stored in a fireproof room, constructed substantially as indicated on plans filed with this appeal marked "Received December 18, 1944;" that in addition to the exhaust duct as shown, such duct shall also be extended within the room, downwardly to approximately one (1) foot above the floor line; that the amount of paint to be stored in this room shall at no time exceed two thousand gallons; that in all other respects, the room, as proposed, shall be maintained; that the sprinkler system shall be maintained to the satisfaction of the fire commissioner; that this variance shall continue only so long as conditions are maintained substantially as proposed and to the satisfaction of the fire commissioner; that permits shall be obtained for the construction of the fireproof room from the borough superintendent.

MATERIAL SUBMITTED FOR APPROVAL

584-44-SM

APPLICANT—Atlantic Metal Products, Inc., owner.
SUBJECT—Atlantic 3 Hour Hollow Metal Door, #9 Flush and #10 Panel Types, approval of.

APPEARANCES—
For Applicant: George Weiterer.
ACTION OF BOARD—Material approved in accordance with the report of the committee of the Board.
THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (584-44-SM)

WHEREAS, the Atlantic Metal Products, Inc., owner, filed on October 16, 1944, an application with the Board of Standards and Appeals for approval of the material known as the Atlantic Three Hour Hollow Metal Door, #9 Flush and #10 Panel Types; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

January 18, 1945.

Cal. 584-44-SM

Subject: Atlantic 3 Hour Hollow Metal Door, "#9" flush and "#10" panel types, approval of.

The Atlantic Metal Products, Inc., of Long Island City, New York, filed an application with the Board of Standards and Appeals, under the requirements of C26-178.0,b of the Administrative Building Code for the approval of their three hour hollow metal flush and panel type doors (Fig. 1) for approval under the Board's authority as provided in C26-191.0,a, for uses under C26-660.0, C26-661.0, C26-662.0, C26-663.0 of the Administrative Building Code and as a fireproof one hour opening protective assembly under the Multiple Dwelling Law.

Description

The test panel consisted of a pair of swinging hollow metal doors of the paneled and flush type, details as shown in Fig. 1, equipped with a two-point lock in the inactive door and a three-point lock on the active door, mounted in a 14-gauge steel frame designed for mounting in a 12-in. brick fire wall. The test assembly was designed for the protection of an opening in a 12-in. brick wall 8 ft. in width and 8 ft. in height.

#"10" Panel Type Door

Stiles are made of one piece No. 18 USG steel forming the sides, edge and return for the panel recess of the stile and reinforced by a No. 20 gauge continuous channel. The recess in the stile receives the panel molding for a depth of ¾ in. and then a welding operation every 8 in. on both sides of the stile joins the stile with the panel assembly. The stile is not less than 1¾ in. thick and 5¾ in. wide exclusive of the panel molding. The insulation of the hinge stile is cellular asbestos laminated sheets for the full width and length of stiles. Top rail is constructed similar to the stiles as shown in Fig. 1. The intermediate rail is formed of two pieces of No. 18 USG steel forming the sides and return for the panel recess reinforced by two No. 20 gauge channels running the full length of the rail. The construction and insulation are shown in Fig. 1. The bottom rail is formed of two pieces of No. 18 gauge steel to form the sides. The top edge of the rail has a return for the recess to receive the panel molding and reinforced by a No. 20 gauge channel running the full length of rail. A No. 18 gauge stiffener channel is applied in the center of the rail running the full length of the rail and welded to rail as shown. The bottom channel is of No. 16 gauge and across the full width of the door, spotwelded on both sides every 4 in. Panels are made of ½ in. thick millboard asbestos covered on both sides with No. 16 gauge USG sheet steel. The edges of panels fit into the recessed groove of panel molding for a distance of at least ¾ in. The panel molding is made of No. 20 USG steel and reinforced with a No. 20 USG steel continuous channel and fastened to the stiles and

FIG. 1

rails with welds every 8 in. on both sides along the entire perimeter of panel. The molding is mitered and welded at corners. The area surrounding panel groove of molding and channel reinforcement is filled with strips of laminated cellular asbestos. The stiles extend the full height of the door. The rail is recessed to set between the stiles and the joint is welded on the outer surfaces of the door, the full width of the joints between the stiles and rails.

#"9" Flush Type Door

The flush door is made up of two No. 18 USG one-piece stiles not less than 5¾ in. wide and 1¾ in. thick. The stiles are reinforced with No. 20 USG steel channels running the full length of stile and spotwelded every 8 in. on both sides. The flush panels are of No. 16 gauge and are recessed for setting between both stiles and reinforced with "Z" bar clip stiffeners spaced not more than 7 in. on centers for the full height from top of bottom horizontal reinforcing channel to the underside of top horizontal reinforcing channel. The hollow spaces between vertical stiffeners are filled with laminated cellular asbestos 1⅝ in. thick. The top and bottom of door is reinforced by a No. 16 USG steel channel running the full width of door. These channels are spotwelded on both sides every 4 in. The joints between the flush panel and door stiles are electric welded 10 in. centers, 2 in. long, and filled. The lock stiles for the three point and two-point locks only are insulated with 1/16 in. thick sheet asbestos and then lined with 30-gauge galvanized iron.

General

When doors are mounted in pairs, they are provided with an astragal attached to each door face. Astragals are of No. 20 USG molded type or ⅛ in. thick steel bar, as shown in Fig. 1. Astragal extends beyond edge of door not less than ¾ in. and is fastened to door by machine screws 8 in. o.c.

Each door was painted one primer coat, while outside was painted with the usual 7 coats of paint normally furnished on these types of doors.

Reinforcement for Hinges-Doors not exceeding 5 ft. in height are provided with two hinge reinforcement and cutouts (see Fig. 1). Doors in excess of 5 ft. in height are provided with one hinge reinforcement and cutout for each additional 2½ ft. in height or fraction thereof. For mortise type hinges, the hinge stile is reinforced with a No. 9 gauge steel bar, the width of the bar not less than the cutout of the hinge. The bar is not less than 12 in. long and extends not less than 3 in. above and below the cutout of the hinge. The bar is held in position with a No. 16 gauge steel channel to which it is welded. The channel is spotwelded to hinge stile of door. Reinforcements for half or full surface hinges are to be constructed as shown in Fig. 1. Reinforcements for door closers or checks are to be constructed and secured in position as shown on Fig. 1.

The frame is constructed of 14 USG steel designed for a 12-in. brick wall. The jambs and head are provided with a ¾ in. stop. The jambs of the frame extend into the masonry at the sill. The jambs of the frame are provided with adjustable non-removable anchors spaced adjacent to each hinge.

Each door section is equipped with four 5 in. ball bearing steel hinges. The leaves of the hinge are constructed of 0.180 in. steel and secured to reinforcements attached to the hinge stiles of the door sections and the jambs of the frame. The active door is provided with an Underwriters' labeled three-point locking mechanism inserted in the lock stile, and when in a locked or thrown position the bolts enter sockets or strike plates in the lock stile of the inactive door. The inactive door is provided with an Underwriters' two-point locking mechanism consisting of a vertical bolting mechanism extending into keepers in the head of the frame and in the sill when in a locked position. The bolts which mesh with the adjacent door and extend into the sill and head of the frame are constructed of steel, but the outer trim is made of bronze.

Tests

The opening protective assemblies (Fig. 1) were subjected to fire endurance and hose stream tests in accordance with details and procedures as outlined in Article 11 of the Administrative Building Code, and reported by the Underwriters Retardant 2817, Application No. 44C400, as follows:

The door assembly previously mounted in a 12 in. brick wall opening, was subjected to a fire in the furnace exposing one face of the assembly to a gas furnace controlled in accordance with standard temperature curves for a continuous period of three hours after which the panel was withdrawn from the furnace and the exposed face was immediately subjected to the impact and cooling action of a 30-lb. water stream applied for one minute and 36 seconds. Temperatures within the furnace were maintained with the area tolerance for the 3 hour period. The average temperature at the end of one-half hour on the panel door 582 deg. F.; for the flush door 603 deg. F., which is well within the limitations prescribed in C26-610.0 of the Administrative Building Code.

At the end of three hours, the assembly was successfully subjected to a hose stream test. There was no passage of flame through around the door during the fire exposure. The assembly movement throughout the test did not exceed 5½ in. deflection towards the furnace, which was reduced by the pressure of the hose stream to one and one-half inches. The visibility was considerably reduced because of the application of 7 coats of paint to the doors being tested. At 20 minutes from the start of the test, this visibility was reduced 93%, but this is to be expected with doors painted as these specimens were and are required to be painted by the purchasers. The temperature curve indicated that flammable material placed against the exposed face of the doors would ignite, but under conditions of installation, it is a fair assumption that there will be considerable air space between any such door and adjacent flammable material.

Recommendations

On the basis of the foregoing data, wherein the test meets the requirements of C26-610.0, the Committee recommends the approval of the Atlantic Metal Products, Inc. Hollow Metal Door known as Atlantic Three Hour Hollow Metal Door # 9, flush type, and #10, panel type, with or without intermediate rail (Fig. 1), under C26-191.0,a, when constructed and hung as described herein and as having met the fire-resistive requirements for a rating of three hours for uses as follows: Under C26-660.0, as an opening protective assembly in fire walls wherein a three hour fire resistive rating is required; under C26-661.0, as opening protective assembly for use in fire partitions wherein a 1½ hour fire-resistive rating is required; under C26-662.0, wherein a ¾ hour fire resistive rating is required; under C26-663.0 for the protection of openings in interior shafts which require a fire resistive rating of 1½ hours, under Article 1, Section 4, Item 10 of the Multiple Dwelling Law, which provides for a fire resistive rating of one hour when used in fireproof partitions.

The foregoing recommendations include the use of either the panel or flush type doors used single or in pairs with astragal and for the increase in permissible sizes as provided in C26-610.0. It is further recommended that all opening protective assemblies manufactured under the approval shall, in addition, comply with all the detail requirements contained herein and shall be marked and inspected as provided for in the

MINUTES

Opening Protective Assembly Rules of the Board of Standards and Appeals.

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Atlantic Three Hour Hollow Metal Door, #9, Flush and #10 Panel Types, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 12:50 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, FEBRUARY 6, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

605-44-A

APPLICANT—Arnold W. Lederer, for Anna Yarmark, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—110-128 Waterbury street and 283-291 Ten Eyck street, northeast corner (1st and 2nd floors); (Block 3021, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Arnold W. Lederer.

For Administration: Fred Dahlem, Dep't of Housing and Buidings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (605-44-A)

WHEREAS, Arnold W. Lederer, for Anna Yarmark, owner, filed October 24, 1944, an appeal from a decision of the borough superintendent, affecting premises: 110-128 Waterbury street and 283-291 Ten Eyck street, northeast corner (1st and 2nd floors); (Block 3021, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintedent, acting on Amendment to Alt. Applic. 2250-44, dated January 29, 1945, reads:

"1. As two story building was erected under N.B. permit 2624-29, provide two means of egress complying with the requirements of Sec. 270 of the Labor Law.

Proposed exits consisting of an existing fire escape to yard and a fire-retarded enclosed stairway to street are contrary to Sec. 270 of the Labor Law."

and

WHEREAS, the applicant states the building is two stories (26 ft.) in height, 34 ft. 7 in. by 96 ft. in area at 1st story, 34 ft. 7 in. by 75 ft. in area at typical floor; Class 3 construction; erected in 1929; located in an unrestricted use, A area, Class 2 height district, now vacant; proposed to be used and occupied: 1st floor, manufacturing electrical supplies, 30 persons; 2nd floor, machine shop and lunchroom, 30 persons; that the building is equipped with one 3 ft. 8 in. steel and concrete stairs enclosed with terra cotta blocks on the first floor, equipped with fireproof, self-closing doors leading directly to the street and one fire escape at the side of the building leading to the roof by a ladder and to the yard by stationary stairs, with egress to the street through open rear yards; that the windows and doors on course of fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that the building, which is a corner building, was erected as a macaroni factory; that the present owners purchased it along with three adjoining buildings for the purpose of manufacturing electrical equipment and are now replacing a one-story building adjoining that in question with a new structure; that the corner two-story building in question was built with one stairway enclosed in fireproof partition on the first floor and open on the 2nd floor; that about 1930, the Fire Department placed an order to install a fire escape; that this violation was complied with; that the building was purchased on the assumption it could be used as a factory; that upon obtaining approval for the proposed one-story building at 114 Waterbury street, it was required that two fireproof stairways be installed in the two-story building; that the two-story building in question will be limited in occupancy as stated herein; that the fire escape at the rear has two 1 ft. 10 in. doors swinging outwardly and the windows on the course of same are fireproof; that the stairs are 22 in. wide, stationary, constructed according to the Labor Law requirements and lead to an open yard; that the balcony on the 2nd floor has a stationary ladder to the main roof; that the primary means of egress consist of a steel stairs with fireproof enclosure on the 1st floor and wood on the 2nd floor; that the closet under these stairs will be discontinued as shown; that no cooking will be done on the 2nd floor, as the lunchroom is to be provided for employees, due to inaccessibility of restaurants; that it is proposed to place a fire-retarded enclosure on the 2nd floor primary means of egress with a scuttle and ladder within such enclosure, leading to the roof; that this enclosure is to be equipped with a ¾-hour fireproof, self-closing door at the 2nd floor level; that the first floor stair enclosure is to be remodeled as indicated on plans filed with this appeal; that to provide fireproof enclosures as required by the Labor Law for a new building, would create unnecessary hardship, due to the limited occupancy of the 2nd floor; that 3 ft. aisles will be maintained, leading to all exits; that exit signs, directional signs and exit lights will be provided.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 2250-44, objection 1, and that the appeal be and it hereby is *granted on condition* that the building and its primary means of exit shall comply in all respects with the requirements therefor, except that the enclosure of the primary means of exit at the second floor may consist of fire retarded partitions as indicated, with an exit to the roof by means of a scuttle with an easy opening device and with a double rung steel ladder leading thereto, as indicated; that the secondary means of exit may be by means of the fire escape as proposed and as shown on plans filed with this appeal marked "Received October 24, 1944"; that from the foot of the fire escape, there shall be a free access at all times to Ten Eyck street; that the number of persons on the second floor shall not exceed that lawfully permitted for the primary means of exit; that in all other respects, the building and occupancy shall comply with all laws and rules applicable.

620-44-A

APPLICANT—John W. Pickworth, for Chase National Bank of the City of New York, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—11-23 Broad street, east side, 115 ft. 5¾ in. south of Wall street, 51-55 Exchange place and 35 Wall street (36th, 37th and 38th floors); (Block 26, Lot 1), Borough of Manhattan.

THE RESOLUTION (620-44-A)

WHEREAS, John W. Pickworth, for Chase National Bank of the City of New York, owner, filed October 27, 1944, an appeal from a decision of the borough superintendent, affecting premises 11-23 Broad street, east side, 115 ft. 5¾ in. south of Wall street, 51-55 Exchange place and 35 Wall street (36th, 37th and 38th floors); (Block 26, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, on Alt. Applic. 1252-44, dated October 11, 1944, reads:

"4. Provide access to fire tower from 37th and 38th floors as per section 6.5.2, 6.5.1 and 6.1.2.3 Code."

and

WHEREAS, the applicant states the building is 42 stories (about 500 ft.) in height; 165 ft. by 151 ft. in area; of Class 1 construction; erected 1928; located in a business use, B area, Class 2½ height district and used and occupied as follows: Basement C, storage, vault and mechanical equipment, 5 persons; Basement C Mezzanine, mechanical equipment, 5 persons; Basement B, storage, vault and bank, 40 persons; Basement A, storage, vault and bank, 45 persons; ground story, bank, 90 persons; 1st story, bank, 70 persons; Mezzanine, offices, 20 persons; 2nd to 20th stories, offices, 150 persons on each floor; 21st to 24th stories, offices, 110 on each floor; 25th to 30th stories, offices, 95 on each floor; 31st and 32nd stories, private luncheon club, 95 on each floor; 33rd to 36th stories, offices, 40 persons on each floor; 37th story, offices and tower, ventilating system; 38th story, tower, ventilating system; 39th story, tower and ventilating system, and proposed to be used and occupied without change except that the 37th story will be used for office space and mechanical equipment, 30 persons; 38th story for office space and mechanical equipment, 30 persons; and

WHEREAS, the applicant contends that it is not physically possible to extend the fire tower above the existing 36th floor level; that the proposed alteration consists of increasing the office space on the 37th floor and converting part of the 38th floor to offices; that the 38th floor at present contains the ventilating equipment, which will be rearranged; that this area is served by an interior fireproof stairway in which there is a standpipe; that a secondary remote means of egress will be provided by a new fireproof stairway as shown on plans; that two elevators will be extended to serve this floor; that the 37th floor contains office space and mechanical equipment; that there is one interior fireproof stairway in which there is a standpipe accessible to this area; that the use as office space was approved by the Board of Buildings April 8, 1937; additional office space in is now required; that a secondary means of egress will be provided by a fireproof stairway as shown on plans; that at present, one elevator serves this space and one will be added; that the new fireproof stairway will land on the 36th floor; directional signs will be provided to direct occupants to the existing fire tower stair; and

WHEREAS, the action of the Board of Buildings under date of April 8, 1937, purporting to clarify the law as to its application in connection with Alt. Applic. 918-37, is of no lawful effect.

Resolved, that the decision of the borough superintendent on Alt. Application 1252-44, Objection 4, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the proposed supplementary stair from the 36th floor to the 38th floor shall be constructed and maintained substantially as indicated; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the corridor leading from the proposed supplementary stair to the fire tower at the 36th floor, and the corridors on the 37th and 38th floors shall be maintained at all times so as to provide access to both means of exit on such floors.

643-44-A

APPLICANT—Arnold W. Lederer, for Kingsland Estate, Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—337-341 Kingsland avenue, west side, 95 ft. north of Norman avenue (2nd floor); (Block 2608, Lots 84 and 87), Borough of Brooklyn.
APPEARANCES—
For Applicant: Arnold W. Lederer.
For Administration: Fred Dahlem, Dep't of Housing and Buidings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (643-44-A)

WHEREAS, Arnold W. Lederer, for Kingsland Estate, Inc., owner, filed November 14, 1944 an appeal from a decision of the borough superintendent, affecting premises 337-341 Kingsland avenue, west side, 95 ft. north of Norman avenue (2nd floor); (Block 2608, Lots 84 and 87), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated November 8, 1944, on Alt. Applic. 3140-44, reads:

"1. Unobstructed egress from foot of stair in rear yard, to the street must be provided in accordance with Rule 8 Factory Exit Rules (Board of Standards and Appeals) and Section 273 Labor Law."

and

WHEREAS, the applicant states that the building is 2 stories (23 ft.) in height, 30 ft. by 90 ft. in area, of class 3 construction, erected 60 years ago, located in an unrestricted use, A area, class 2 height district and used and occupied since 1941 as follows: cellar, storage; 1st floor, assorting and shipping room, 20 persons; 2nd floor, office and lunch room, 55 persons; that the building is equipped with one 4 ft. wide wood fire-retarded stair at the front, equipped with fireproof, self-closing door and leading directly to the street; that there is a ladder and a scuttle to the roof; that the building is also equipped with one fire escape at the rear of building, extending from the 2nd story to the yard by a stationary iron stairs with egress through the one story building at the southerly side; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that the proposed exit should be accepted on the following grounds; that the 2nd floor is provided with a 4 ft. wide fire-retarded stairway directly to the street; that the second means of egress consists of an outside stairway 4 ft. wide with a canopy over the same, leading to the rear yard; that the borough superintendent required a fireproof passageway from the rear stairway to the street; that to provide an underground fireproof passageway through unexcavated areas, would cause an unnecessary hardship; that no manufacturing will take place on the 2nd floor; that the owner will maintain an open door from the second means of egress to the adjoining one story building; that no cleaning or dyeing will be done at either of the buildings involved; that easy access can be had from the second story of the building in question, to the roof of the new one story adjoining building under the same ownership; and

WHEREAS, the building was altered and reduced to two stories in height under Alt. Applic. 2767-42, work completed July 6, 1944, and Certificate of Occupancy No. 110931 issued August 15, 1944.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor

Law, as cited in the decision of the borough superintendent and that the appeal be and it hereby is *granted* as to Alt. Applic. 3140-44, objection 1, *on condition* that the primary means of exit shall be maintained as approved by the borough superintendent under Certificate of Occupancy 110931, issued August 15, 1944; that the second means of exit may be by means of the fire escape as indicated at the rear and the access from the street therefrom may be by means of a fireproof, self-closing double acting door, as indicated, with access through the adjoining one story building under the same ownership, through to Kingsland avenue, with a 4 ft. clear passageway, as indicated on such plans, to be maintained at all times and indicated by stripes painted on the floor; that in addition, a means shall be provided for exit to the roof of the one story adjoining building from the second story and a loose iron ladder, shall be maintained on the roof of the one story building, of sufficient length to reach the street; that this variance shall continue only so long as the buildings are in the same ownership and occupied jointly; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that no factory occupancy shall be permitted on the second floor; and that the number of persons on the 2nd floor shall be limited to the capacity of the primary means of exit; that in addition, there shall be an iron balcony constructed at the 2nd floor rear at the window toward the southerly side, to permit additional access to the roof of the adjoining one story building.

THE RESOLUTION (12-45-A)

WHEREAS, Ferdinand Savignano, for Anna Spinello, owner, filed January 9, 1945, an appeal from a decision of the borough superintendent, affecting premises: 917-923 Avenue J (919 displayed) and 986-996 East 10th street, northwest corner (Block 6522, Lot 43), Borough of Brooklyn, and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 3338-44, dated December 11, 1944, reads:

"1. Proposed change of occupancy from one to two families within a frame structure over two stories and attic in height, is contrary to Sec. 2.1.3.5 Bldg. Code, since it would violate the provisions of Sec. 8.7.2.1 and Sec. 4.2.1 Bldg. Code."

and

WHEREAS, the applicant states that the building is 3 stories and attic (35 ft.) in height, 32 ft. by 56 ft. 6 in. in area at 1st floor, 24 ft. by 46 ft. 6 in. in area at 2nd floor; of Class 4 construction; erected in 1908; located in residence use, E area, Class 1 height district; and used and occupied as a one-family dwelling; proposed to be used and occupied: Cellar, ordinary; 1st and 2nd floors, combined one family; 3rd floor, one family; attic, storage; that the building is equipped with one 2 ft. 8 in. wide wood stairs, enclosed in wood and lath and plaster partitions, equipped with wood doors, which are not self-closing; and

WHEREAS, the applicant contends that the building does not exceed 35 ft. in height; that a regulation fire escape leading directly to street, will be installed at the rear, reasonably remote from the existing interior stair; that an exterior masonry-enclosed stairway will be erected adjacent to the interior stair; that both families will have access to this proposed stair, which will be not less than 3 ft. in the clear and will lead directly to the street; that the stair to the attic will be removed and a scuttle provided; that the third floor was previously used by one family for living purposes, in conjunction with the 1st and 2nd floors; that it will be a hardship to be compelled to occupy a building of this size for one family, due to the present high maintenance costs, and the proposed alterations is essential to the owner's ability to meet his financial obligations.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 3338-44, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that the building shall be occupied only as proposed, as one family on the 1st and 2nd floor combined and one family on the third floor; that the attic shall be unoccupied except for storage of household furniture; that the stairway enclosure on the 3rd floor of the existing stair shall be of fire retarded partition with a fireproof, self-closing door leading thereto; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this variance shall continue only so long as the building is occupied substantially as proposed.

13-45-A

APPLICANT—Fairbanks Morse and Co., for A. Schrader's Son, Division of Scovill Manufacturing Co., Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—487-515 Clermont avenue, east side, 204 ft. north of Atlantic avenue (Basement, Building 5); (Block 2009, Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: George S. Thompson and Eugene Miller.
For Administration: Fred Dahlem, Dep't of Housing and Buidings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (13-45-A)

WHEREAS, Fairbanks Morse and Co., for A. Schrader's Son, Division of Scoville Manufacturing Co., Inc., owner, filed January 3, 1945, an appeal from a decision of the borough superintendent, affecting premises 487-515 Clermont avenue, east side, 204 ft. north of Atlantic avenue (Basement, Building 5); (Block 2009, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated December 22, 1944, on amendment to Alt. Applic. 3312-44, reads:

"1. Refer proposal to the Board of Standards and Appeals for a variation to use an auxiliary tank of a capacity greater than 60 gallons. Rule 2.3.1. Oil Burner Rules of the Board of Standards and Appeals."

and

WHEREAS, the applicant states the building is 7 stories (93 ft. 3 in.) in height; 156 ft. by 90 ft. in area; of Class 1 construction; erected 1926; located in an unrestricted use, B area, Class 1½ height district and used and occupied as follows: cellar, boiler room, engine room and coal storage, 6 persons; 1st floor, engine room and garage, 12 persons; 2nd floor, kitchen, employment and personnel office, 26 persons; 3rd floor, hospital storage, inspection department and electric shop, 37 persons; 4th, 5th, 6th and 7th floors, manufacturing tire valves, 146 persons on the 4th floor, 165 persons on the 5th floor, 64 persons on the 6th floor, 61 persons on the 7th floor; that the building is equipped with a two

source sprinkler system, interior fire alarm system, but fire drills are not maintained; that there are two 3 ft. 8 in. fireproof stairs from the roof bulkhead directly to the street; and

WHEREAS, Certificate of Occupancy 37797, issued January 29, 1926, permits the use and occupancy of the building as follows: basement, boiler room; 1st floor, two male employees, 2nd to 7th floors, 25 males and 25 females; occupancy, factory and storage throughout; and

WHEREAS, it is proposed to install a Diesel engine generator with oil supply tanks; that the oil will be stored in approved tanks underneath the sidewalk, in accordance with the requirements of the Oil Burner Rules; that an additional oil storage tank is required near the engine; that this tank will be placed below the engine base, supported on a concrete base resting on the cellar floor and will have a capacity of 275 gallons; that the oil will be pumped from this tank to the cylinders of the engine through injectors and that this tank will be vented to the outer air; and

WHEREAS, the applicant contends that Rule 2.3.1 defines an auxiliary tank as a container having a capacity of not over 60 gallons, used as an auxiliary tank for gravity feed and equipped with an automatic or manually operated pump; that the proposed auxiliary fuel tank is not used for gravity feed as defined in the rules; that the oil will be pumped from this tank, up to the injectors of the engine; that Rule 6.1.1 permits a 275 gallon tank above ground on the lower story, when mounted on a substantial incombustible foundation, and where there is no exposed flame or furnace within 7 ft. horizontally; that oil from the main storage tanks under the sidewalk will be pumped to the auxiliary fuel storage tanks through a 10 gallon per minute motor driven rotary pump or an emergency hand pump, both properly valved; that the motor driven pump will be so arranged, that when the auxiliary tank is partially emptied, the pump will automatically fill the tank to a predetermined level; that controls will be so designed that should the pump motor fail to start at low level, there will be a 20 minute oil supply left for the engine and if the pump should fail to stop at the predetermined high level, the engine still may operate for approximately 20 minutes before the auxiliary fuel storage tank is full; that an automatic alarm will warn the operator when either of these conditions arise, in ample time to take necessary action; that such leeway in control is not possible with a 60 gallon auxiliary tank, but is possible with the proposed 275 gallon storage tank; that the proposed Diesel engine will use oil at a rate which would make it difficult to operate the automatic controls with a 60 gallon auxiliary tank.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 3312-44, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the auxiliary tank as proposed shall comply with the Oil Burner Rules in all respects other than capacity.

20-45-A

APPLICANT—Abraham Farber, for Granville B. Winthrop, Jr., and Fulton Trust Co. of New York, trustees (Etched Products Corp., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—43-01 to 43-11 39th street and 39-02 to 39-10 43rd avenue, southeast corner (1st floor); (Block 191, Lot 19), Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Abraham Farber.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (20-45-A)

WHEREAS, Abraham Farber, for Granville E. Winthrop, Jr. and Fulton Trust Co. of New York, trustees (Etched Products Corp., lessee), filed January 12, 1945, an appeal from a decision of the borough superintendent, affecting premises: 43-01 to 43-11 39th street and 39-02 to 39-10 43rd avenue, southeast corner (1st floor); (Block 191, Lot 19), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, re Alt. Applic. 1582-44, dated December 20, 1944, reads:

> "1. The request to change the use of a building from a public garage to a factory use with the privilege of reverting back to garage use six months after termination of war, must be approved by the Board of Standards and Appeals."

and

WHEREAS, the applicant states that the building is one story (15 ft.) in height, 100 ft. by 125 ft. in area; Class 3 construction; erected in 1928; located in an unrestricted use, B area, Class 1½ height district; used and occupied as a public garage; proposed to be used and occupied as follows: Cellar, boiler room and storage; 1st floor—general storage and separating metal waste and cleaning metal electrodes, 6 persons; such use and occupancy to be maintained only for the duration of the war and six months thereafter; and

WHEREAS, Violation 3935-44 was issued for failing to secure approval and permits for the erection of partition and for change of use from garage to factory and storage building; that Certificate of Occupancy 31,188 issued June 28, 1944, on Alt. 1728-42, permits the use of the building for garage for more than five cars, metal storage and light manufacture; and

WHEREAS, Certificate of Occupancy 41534 issued on N. B. Applic. 5786-28, permits the use of the building throughout as a public garage; and

WHEREAS, the portion of the building now in question is that permitted to be used for garage under Certificate of Occupancy 31188; and

WHEREAS, the applicant contends that the lessee is the owner of the two story fireproof factory building adjoining the south half, equal to 125 ft. by 100 ft. of the building in question and such south half is used as a factory under Certificate of Occupancy Q31188; that subsequently, the lessee erected a partition of 4 in. fireproof block, equipped with fireproof doors to separate the metal wastes and clean metal electrodes, employing six persons; that the remainder of the garage space is now used for general storage of materials; that Violation 3935-44 was served and the applicant was then instructed to file plans; that such plans were filed under Alt. Applic. 1582-44, to change the use of the building in question for the duration of the war and six months thereafter, from a public garage to general storage in connection with the adjoining factory of the lessee and then to revert to its original use as public garage; that the building is located in an unrestricted use district and there would be no objection to its use as a public garage after the war, provided the use district is not changed; that the owner feels he has a right to the assurance he will not lose the right to revert to garage use; that it is only due to war conditions that he has been induced to lease the premises for the duration of the war and six months thereafter; that under normal conditions, the garage use would be maintained continuously.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1582-44, and that the appeal be and it hereby is *granted*, as to objection 1, *on condition* that the building shall not be increased in height or area, and permitting the garage occupancy to be resumed after the temporary occupancy as proposed is maintained, provided the garage occupancy is restored within six (6) months from the end of the present emergency; that the gasoline storage tank shall be sealed during such temporary occupancy, to the satisfaction of the Fire Department; that during such

proposed temporary occupancy, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

51-44-A

APPLICANT—Harrison, Fouilhoux & Abramovitz, for The Equitable Life Assurance Society of The United States, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—Re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—345 Clinton avenue, southeast corner of Lafayette avenue (Block 1944, Lots 13, 15, 18 and 22), Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph D. Stasio and William E. Erb.

For Administration: Fred Dahlem, Dep't of Housing and Buidings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (51-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 345 Clinton avenue, southeast corner of Lafayette avenue (Block 1944, Lots 13, 15, 18 and 22), Borough of Brooklyn, was granted by the Board on January 25, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, the applicant proposes that the columns shall be of 14 in. minimum for the least dimension for any column directly supporting flat slab construction, and 12 in. minimum when columns are braced by beams in two directions, and maintains that such columns are preferable to the round columns required by the Code, and further maintains, that the stresses of such columns, as are proposed, are within the stresses required by the Building Code.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 25, 1944, by adding to the resolution in the last clause, which reads:

"* * * that in all other respects, the requirements of the Building Code as are applicable shall be complied with, and computations shall be submitted and approved by the borough superintendent, except that the requirements of Section C26-494,0,e,2, need not be complied with, provided the columns are constructed as indicated and meet the requirements of the Building Code, as to stress."

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

104-37-BZ

APPLICANT—Renander and Miller, for Adeline Granello, owner (Nunley Parking Company, Inc., lessee).
SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.
PREMISES AFFECTED—89-37 to 90-07 161st street, east side, and 89-40 to 89-42 162nd street, west side, 357.04 ft. south of 89th (Shelton) avenue (Block 835, Lots 25 and 22), Jamaica, Borough of Queens.
APPEARANCES—
For Applicant: Arthur W. Renander.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (104-37-BZ)

WHEREAS, this application, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 89-37 to 90-07 161st street, east side, and 89-40 to 89-42 162nd street, west side, 357.04 ft. south of 89th (Shelton) avenue (Block 835, Lots 22 and 25), Jamaica, Borough of Queens, was granted by the Board March 11, 1941, on certain conditions; and

WHEREAS, the resolution was amended on February 24, 1942 and permit extended on March 16, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 11, 1941, as amended through March 6, 1943, so that as amended, this portion of the resolution shall read:

"* * * *Granted* under Section 7h, to permit the premises to be occupied for the parking and storage of more than five (5) motor vehicles for a term of one year, ending February 8, 1946, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of March 11, 1941, as amended February 24, 1942, shall be complied with and that a new certificate of occupancy shall be obtained (Misc. Applic. 8785-40)."

480-37-BZ

APPLICANT—John R. Davies, for Wendel Foundation and Phelps Estate, Incorporated, owners (Arco Stations, Incorporated, lessee).
SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the commissioner of buildings) previously *granted on condition,* under section 7h of the zoning resolution, permitting partly in a business use and partly in an unrestricted use district, for a temporary term of two years, the parking and storage of more than five motor vehicles.
PREMISES AFFECTED—21-25 Union Square West, west side, 52 ft. north of East 15th street (Block 843, Lots 22 and 25), Borough of Manhattan.
APPEARANCES—
For Applicant: James P. Callendar.
For Opposition: Harold Klorfein, Dep't of Parks.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (480-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a business use and partly in an unrestricted use district, for a temporary term of two years, the packing and storage of more than five motor vehicles, affecting premises 21-25 Union Square West, west side, 52 ft. north of East 15th street (Block 843, Lots 22 and 25), Borough of Manhattan, was granted by the Board on June 14, 1938, on certain conditions; and

WHEREAS, the permit was extended on June 11, 1940 and on January 19, 1943, the resolution was amended and the permit further extended; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 14, 1938, as amended through January 19, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit the plot under appeal to be used for the parking and storage of five motor vehicles in conjunction with the existing parking lot and gasoline station to the west, located in the unrestricted use district, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of January 19, 1943, shall be complied with and that a certificate of occupancy shall be obtained."

702-38-BZ

APPLICANT—Herman Kron, for Holy Name Mission of the Bowery District, Inc., and Second Street Holding Co., Inc., owners.
SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a temporary term of two years, the parking and storage of more than five motor vehicles.
PREMISES AFFECTED—7-19 East 2nd street, south side, 95 ft. east of Bowery (Block 457, Lots 13 to 19, inclusive), Borough of Manhattan.
APPEARANCES—
For Applicant: Herman Kron.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (702-38-BZ)

WHEREAS, this application, under section 7h of the zoning resolution, permitting in a business use district, for a tem-

MINUTES

porary term of two years, the parking and storage of more than five motor vehicles, affecting premises 7-19 East 2nd street, south side, 95 ft. east of Bowery (Block 457, Lots 13 to 19, inclusive), Borough of Manhattan, was granted by the Board February 6, 1940, on certain conditions; and

WHEREAS, the permit was extended on January 19, 1943 and on January 18, 1944, the resolution was amended and the permit was further extended to expire on January 19, 1945; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on February 6, 1940, as amended through January 18, 1944, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two years from the date of this *amended* resolution, to permit the parking and storage of more than five motor vehicles, *on condition* * * * that other than as herein *amended,* the conditions of the resolution of January 18, 1944, shall be complied with and that a certificate of occupancy shall be obtained."

Adjourned: 4:00 P. M.

JOSEPH J. DOYLE, Chief Clerk.

NOTICE

RESOLUTION RELATING TO APPROVAL OF SITES FOR BUS STATIONS ADOPTED BY THE BOARD OF ESTIMATE FEBRUARY 1, 1940 (CALENDAR NO. 15).

Whereas, The existence and operation of bus stations is a matter of vital public interest affecting the welfare of the City and, in particular, street vehicular and pedestrian traffic as well as bus passengers; and

Whereas, The existence and operation of bus stations create unique street problems; and

Whereas, The special nature of such problems requires that no new bus station be constructed or operated except by and with the consent of the Board of Estimate after reports by the City Planning Commission, the President of the Borough affected, the Police Commissioner, the Art Commission and the Department of Housing and Buildings if curb cuts are involved; now, therefore, be it

Resolved, That the following be and hereby are adopted as the rules and regulations for the handling of applications to the Board for its consent to the construction and operation of bus stations:

1. No new bus station shall hereafter be constructed or operated in the city of New York except by and with the consent of the Board.

2. Any person, firm or corporation desiring to construct or operate a bus station shall present to the Board a duly verified petition, plus 25 copies, setting forth, among other things, the following information in regard to the proposed bus station: Exact location and size; design; preliminary building plans or sketches including lane layouts and approaches; facilities for storing or handling of laid-over buses; maximum number of buses to use the entrance to and exit from the station during each 15 minute period on week days, Saturdays, Sundays and holidays.

3. (a) The petition shall be referred to the following agencies for report and recommendation: The City Planning Commission and the President of the Borough in which the proposed station is to be located for a general report: the Police Commissioner for report as to the adequacy of the approaches and the traffic conditions on the streets which would be traversed by buses using the proposed station, and the maximum number of buses that such streets can reasonably accommodate throughout each day; the Art Commission for report as to the design; if curb cuts are involved, the Department of Housing and Buildings for report as to whether or not there are objections to the proposed curb cuts.

(b) The Borough President, the Police Commisisoner, the Art Commission and the Department of Housing and Buildings shall, within fifteen days after receipt of the petition, render their reports, in writing, to the City Planning Commission. The City Planning Commission shall, within thirty days after receipt of the petition, render its report and recommendations to the Board, approving or disapproving the petition, to which there shall be annexed a copy of all of the reports which the City Planning Commission received from the other agencies. The City Planning Commission shall transmit to the Board a copy of its findings and decision.

4. In the event the City Planning Commission does not approve the petition the Board may approve it by a three-fourths vote. If the Board determines to approve the petition it shall impose such terms and conditions as will best serve public convenience.

5. The fee for filing each application for the Board's consent to a bus station shall be one hundred and twenty-five dollars ($125.00), payable to the Treasurer of the City of New York. No application may be placed on the Board's calendar unless it is accompanied by a receipt issued by the Treasurer certifying that such fee has been paid.

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (1182-39-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 1231 Boscobel avenue, west side, 100 ft. north of Jerome avenue (Block 2506, Lot 58), Borough of The Bronx, was granted by the Board on November 26, 1940, on certain conditions; and

WHEREAS, the permit was extended on November 17, 1940 and the applicant requested a further extension of the permit, which had expired by limitation of time; and

WHEREAS, this case was reopened by vote of the Board on January 23, 1945, restored to the calendar and set for hearing on February 14, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting on February 14, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 26, 1940, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* * * * that other than as herein *amended,* the conditions of the resolution of November 26, 1940 shall be complied with and that a certificate of occupancy shall be obtained."

747-44-BZ

APPLICANT—F. P. Platt and Brother, for Helen V. Kelchner, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district for a temporary term of two years, the change of occupancy of the basement and 1st story of a vacant multiple dwelling, to storage use and the return of the premises to its original use at the end of the temporary term.

PREMISES AFFECTED—68 and 70 Irving place, east side, 27 ft. north of East 18th street (Block 874, Lots 21 and 22), Borough of Manhattan.

APPEARANCES—

For Applicant: Charles Platt and Duncan White.

For Opposition: Jacob Weisswacker, M. Kenneth Boss, W. H. Baxter, Mr. Silberman, Jerome S. Blumenthal, Peter D. Belles and William H. Bird.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustave Goldman, Board of Education.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (747-44-BZ)

WHEREAS, F. P. Platt and Brother, for Helen V. Kelchner, owner, filed December 28, 1944, an application under section 7e of the zoning resolution, to permit in a residence use district, for a temporary term of two years, the change of occupancy of the basement and first story of a vacant multiple dwelling, to storage use and to return the premises to its original use at the end of the temporary term; affecting premises 68 and 70 Irving place, east side, 27 ft. north of East 18th street (Block 874, Lots 21 and 22), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting February 14, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Irving place, East 18th street and East 19th street are in a residence use, B area and Class 2 height district and that Third avenue is in a business use, B area and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated September 27, 1944 on Alt. Applic. 1232-44, as repeated November 28, 1944, reads:

"A1. A certificate of occupancy must be obtained and the building may not be reoccupied as a multiple dwelling until it is made to conform to all provisions of Art. 6, M.D.L.

Proposed occupancy in relation to the zoning resolution not considered at this time.

2. Proposed change from residence building to storage for basement and 1st floor and upper floors to be kept vacant is contrary to Art. II, Sec. 3, Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 52 ft. frontage by 106⅔ ft. in depth on which are located 2 multiple dwellings now vacant, of Class 3 construction 4 stories and basement (50 ft.) in height, each 26 ft. by 49 ft. 6 in. in area; that it is proposed to occupy the basement and 1st story for storage of empty bottles, cardboard cartons, cans and containers and the upper floors to remain vacant; that the use is to be for the Mem Company, now occupying 69 Irving place, for manufacturing soaps and perfumes, which is a factory building; and

WHEREAS, the applicant contends, that due to the shortage of space in this section of the city, permission is asked to use the above premises for storage purposes; that these buildings are multiple dwellings under the multiple dwelling law and the zone is residential under the zoning law; that the buildings have been vacant for many years; that the use will be confined to the two lower floors of each of these buildings, with the upper floors entirely cut off in a manner satisfactory to the Department of Housing and Buildings; that the amount of business usage is inconsiderable; that business is for storage of empty bottles, cardboard cartons, cans and containers; that this particular usage is of the type that is not detrimental, in amount or nature, to the school and hospital that are within the prescribed limits; that this limited occupancy of the buildings for the purpose described, creates less of a neighborhood hazard than if the buildings were to remain entirely vacant; that the "business" use will be temporary only for the duration of the war emergency, and the hardship in refusing this tenancy, would injure both the owner of the premises and the business to be accommodated, as both are feeling the impact of war time restrictions; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivision e of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1232-44, objections 1A and 2, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

APPEALS FROM ADMINISTRATIVE DECISIONS

596-44-A

APPLICANT—Thirty Central Park South, Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—30 Central Park South, south side, 320 ft. east of Sixth avenue (2nd to 13th floors); (Block 1274, Lot 60), Borough of Manhattan.
APPEARANCES—
For Applicant: Francis A. O'Neill, Albert J. Stone, Dr. Lambert Cone, Dr. Thomas H. Johnson, Dr. Hirschman, Dr. J. Friedman, Dr. Earl F. Limbach, Dr. Howard D. H. Brown and MacDonald Mayer.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to March 6, 1945 at 10 A. M., pending an inspection by a committee of the Board. No further argument and for decision by the Board.

475-44-A

APPLICANT—Reliable Remover and Lacquer Corporation, owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—42-56 Crescent street, west side, 84 ft. north of 43rd (Harris) avenue (Block 429, Lot 31), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: Leo H. Schoen and Julius Kaplan.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal withdrawn without prejudice to restoration to the calendar.
THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

478-44-A

APPLICANT—F. P. Platt and Brother, for Helen V. Kelchner, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—68 and 70 Irving place, east side, 27 ft. north of East 18th street (Basement and 1st floors), (Block 874, Lots 21 and 22), Borough of Manhattan.
APPEARANCES—
For Applicant: Charles Platt and Duncan White.
For Opposition: Jacob Weisswacker, M. Kenneth Boss, W. H. Baxter, Mr. Silberman, Jerome S. Blumenthal, Peter D. Belles and William H. Bird.
For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustav Goldman, Board of Education.
ACTION OF BOARD—Appeal withdrawn on request of applicant in view of the action taken on Cal 747-44-BZ.
THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

644-44-A

APPLICANT—Ferdinand Savignano, for A. A. Woolstock Co., lessee; Gussie Schwartz, owner.
SUBJECT—Application for consideration—reopening and restoration to calendar—re Appeal from a decision and an order of the Fire Commissioner (prev. dismissed for lack of prosecution).
PREMISES AFFECTED—237 Mercer street, west side, 100 ft. south of West 3rd street (Block 533, Lot 20), Borough of Manhattan.
APPEARANCES—
For Applicant: Peter L. Siciliano.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal reopened, restored to the calendar and laid over to February 20, 1945 at 10 A. M.
THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

APPLICANT—Thortel Fireproof Fabrics, Division of J. H. Thorp and Co., Inc., owner.
SUBJECT—Thortel "100" Fireproof Fabrics, approval of.
APPEARANCES—
For Applicant: None.
ACTION OF BOARD—Material approved in accordance with the report of the Committee of the Board.
THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

MINUTES

THE RESOLUTION (477-44-SM)

WHEREAS, Thortel Fireproof Fabrics, Division of J. H. Thorp and Co., Inc., owner, filed on August 15, 1944, an application with the Board of Standards and Appeals for approval of the material known as Thortel "100" Fireproof Fabrics; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Cal. 477-44-SM

Subject: Thortel "100" Fireproof Fabrics, Approval of.

Thortel Fireproof Fabrics, Division of J. H. Thorp and Company, Incorporated, filed an application with the Board of Standards and Appeals for approval of Thortel "100" Fireproof Fabrics under C26-178.0,b, and Subdivision 6 of Article 13 of the Administrative Code, and C26-720.0,c of the Administrative Building Code, and the Board Rules.

Description

The fabrics which are the subject of this report are woven from 100% glass yarns, are given a surface color treatment following the weaving operations and include no combustible threads except for one, two or three such threads running lengthwise of the material in the selvage.

Use:

These fabrics are intended for use as drapery materials in all types of curtains such as stage curtains, backdrops, portieres, valances, window drapery, glass curtains, and for all wall and ceiling coverings, either stretched or pleated.

Marking:

The selvage of the fabrics will be stamped with the designation "Thortel—100" at intervals of not more than 36 in.

The manufacturer presents the following claims which are quoted verbatim.

"Since the drapery materials are all made of inorganic yarns, besides being definitely fireproof and non-inflammable, these materials are not affected by extremes of climatic temperatures, either hot or cold, and cannot be burned by sunlight, will not shrink or sag with atmospheric changes, as other textiles do. The materials are mildewproof and not affected by moths, silver fish and other fibre eating insects. The materials are highly resistant to any effects of chemical fumes and cannot rot or disintegrate from unusual exposures."

Tests

Tests were made at the Underwriter's Laboratories, Chicago, with the following results:

Methods

Weight per Unit Area

Sample pieces of the fabrics were measured and and weighed and the weight in ounces per square foot calculated.

Determination of Extractible and Volatile Matter:

Weighed samples of the fabrics were subjected to Ether Extract Tests and the per cent by weight of material extracted was calculated and other weighed samples were placed in crucibles and ignited over a Bunsen burner for 30 min. following which the per cent loss of weight, or in other words, the amount of volatile material, was calculated.

Results

Weight Per Unit Area:

The weight in ounces per square foot of the fabrics was found to be as follows:

Red Damask Drapery—0.73 oz. per sq. ft.
Turquoise Cloth —0.58 oz. per sq. ft.

Extractible and Volatile Matter:

The extractible and volatile matters in the samples tested are as follows:

Extractible Matter

Red Damask Drapery—0.79 per cent.
Turquoise Cloth —0.72 per cent.

Volatile Matter

Red Damask Drapery—1.88 per cent.
Turquoise Cloth —1.23 per cent.

Flammability Tests:

Method

The apparatus used in conducting these tests consists of an iron stack of square cross section 12 by 12 in. (internal) and 7 ft. high, supported 1 ft. above the floor by legs. A gas burner at the bottom of the stack furnishes a flame of standard dimensions (11 in. long) which is used as a source of ignition. Specimens of the material undergoing test are hung in the stack so that the bottom edge of the specimen is a standard height (4 in.) above the gas burner. The stack is provided with a wired-glass observation window throughout its height.

The specimens used in the flammability tests were for one series of tests, strips 5 in. wide and 7 ft. long, and for a second series of tests were pieces 12 by 15 in. folded five times to give 3 in. folds. Specimens of these descriptions were cut from each of the samples of the fabrics as received from the manufacturer.

The specimens were hung one at a time in the apparatus, the standard gas flame applied with the burner adjusted to give a yellow flame for one series of trials and to give a blue flame for a second series of trials, and the behavior of the product was observed, including the time for ignition, if any, the period of combustion, if any, and the time of afterglow.

Results

There was no ignition of the samples during these tests and therefore no combustion and no evidence of fire spread. The change in physical characteristics of the fabrics was limited to the areas touched by the test flames and ranged from a fading of the color where touched by the yellow test flame to a melting disintegration of threads where these were surrounded by the higher temperature portions of the blue gas flame. These results were noted with both the straight and folded samples.

Combustible threads of which there may be one, two or three, running lengthwise in the selvage, burned only in those areas touched by the test flame.

Ignition Test:

Method

Ignition tests with the fabric samples supported horizontally were conducted on the two patterns of fabrics using the following kinds of test igniters: glowing cigarettes, glowing cigars, single paper match lighted, complete folder of paper matches lighted, wood brand ½ by ½ by 3 in. wood brand ⅜ by 2 by 2¼ in.

Results

There was no effect on the fabrics except for slight color fading from the application of glowing cigars and cigarettes nor from the application of single paper matches nor complete folders of such matches and in the cases of the wood brands, the brands burned completely without affecting the sample fabrics on which they were placed other than some darkening due to the smoke from the burning material.

Further tests were conducted by the Engineering Materials Laboratories at Columbia University, Wed-

nesday, December 6, 1944, in the presence of representatives of the Committee on Tests of the Board and of the manufacturer, with the following results:

Standard Flame Tests on "Fiberglas" Fabrics

Laboratory Test No.	72948	72947	72948
Material	Tan 50"	Glass Light Blue 50"	Peach 50"
Mark	Taffeta 6010/5	Glass grosgrain 6000	Glass Stripe 6170

Method of Test:

Test was conducted under Board of Standards and Appeals, City of New York, Specifications entitled "Rules for Tests of Fire Resistive, Flameproofed Materials . . ." May 27, 1940. Section 5.4 entitled "Test for Permanence of Chemicals" was omitted at the direction of Commissioner Savage as being not applicable to these types of materials.

Results of Test:

Time of Flame, seconds	0-0	0-0	0-0
	0-0	0-0	0-0
	0-0	0-0	0-0
average	0-0	0-0	0-0
Time of Glow seconds	0-1	0-1	0-1
	0-1	0-1	0-1
	0-1	0-1	0-1
average	0-1	0-1	0-1

Observations:

No flame or flash during or after exposure. Glow recorded was not combustion but merely a heating of glass fibers. Slight melting of glass at lower edge of exposed area and slight embrittlement in exposed area were observed. No noticeable odor or smoke emanated from the samples during or after exposure.

The Committee also observed that this material because of its composition will meet the requirements of C26-88.0 when coloring material is applied and uniformly distributed throughout the material, similarly as was done with the samples herein treated.

Recommendations

On the basis of these tests, the Committee on Tests recommends the approval of Thortel "100" Fireproof Fabrics, under C26-191.0-a for use in New York City under the provisions of C26-191.0.a and Subdiv. 6 of Art. 13 of the Administrative Building Code and C26-720.0,c, Subdiv. 4 C26-726.0, Administrative Building Code C19-161.1 (Local Law #29) and the Rules of the Board for Testing Fire Resistive and Flameproofing of Fabrics. It is further recommended that each bolt of fabric and each manufactured drapery be provided with a stamp, label or tag reading "Approved by the Board of Standards and Appeals for Use in New York City under Cal. 477-44-SM."

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Commissioner,

Committee on Tests

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as Thortel "100" Fireproof Fabrics, *on condition* that the material be manufactured, used and labelled in accordance with the above report.

Adjourned: 12:30 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

WEDNESDAY AFTERNOON, FEBRUARY 14, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

655-44-A

APPLICANT—Harry A. Yarish, for Midwood Patriotic Memorial, Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent (reopened and restored to calendar January 23, 1945; previously withdrawn).

PREMISES AFFECTED—1472 Ocean avenue, west side, 150 ft. north of Avenue J (Block 6712, Lot 88), Borough of Brooklyn.

APPEARANCES—

For Applicant: Harry A. Yarish and Dr. Lester D. Volk.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (655-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 1472 Ocean avenue, west side, 150 ft. north of Avenue J (Block 6712, Lot 88), Borough of Brooklyn, was withdrawn on December 19, 1944; and

WHEREAS, the applicant requested a reopening of the appeal and the restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on January 23, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, the decision of the borough superintendent dated January 4, 1945, based on revised plans filed under Alt. Applic. 3108-44, reads:

"1. Changing occupancy from residence to public use in a frame structure is contrary to Section 2.1.3.5 and 4.2.1 of Building Code.

2. Exits from all floors to comply fully with Art. 6 of Building Code (including cellar).

3. Floors to be adequate for 100 lbs. per sq. ft. live load as per Section 7.3.2.2.5 of Building Code."

and

WHEREAS, the applicant states the building is two stories and attic (26 ft.) in height; 33 ft. by 62 ft. in area at 1st floor 25 ft. by 54 ft. in area at 2nd floor; of Class 4 construction, erected 1894; located in a residence use, C area, Class 1½ height district, and used and occupied as a dwelling, and proposed to be used and occupied as follows: cellar, boiler room and billiard room, 10 persons; 1st floor, auditorium, 100 persons, 2nd floor, committee and coat rooms, 30 persons; attic, vacant; and

WHEREAS, the applicant contends that the building will be used as a memorial to the American soldiers; that the attic will be sealed off; that the building is hemmed in by two apartment houses and is undesirable for residential purposes; and

MINUTES

WHEREAS, the applicant further contends that most of the exterior walls are now brick filled from the foundation walls up to the roofing boards, and it is in an excellent condition; that the walls are indicated on the plans by red coloring filed with this appeal; that the balance of the exterior walls, which are not brick filled, will be fire retarded on the inside; that all partitions on the first and second floors will be fire retarded on both sides; that all ceilings in cellar first and second floors will be fire retarded; that all exterior walls will be covered with asbestos shingles; that the roof is now metal covered that all fire retarding will be done in accordance with the fire retarding rules, adopted by the Board of Standards and Appeals, for one hour construction; that the boiler room in the cellar will be separated from the rest of the cellar by an 8 in. thick wall made up of approved type cement blocks; that the stairs in the cellar will be separated from the rest of the cellar by a similar wall; that this stair will be 3 ft. wide and the soffit will be fire retarded; that openings in these walls will be provided with one hour test self-closing doors and trim; that the first floor construction has now been designed for a live load of 100 lbs. per sq. ft.; that the new stairs to the second floor will be 3 ft. wide and will be separated from the meeting room by a one hour partition, equipped with a one hour test self-closing door and trim; that the soffit of the stairs will be fire retarded; that the kitchen will be provided with two sprinkler heads connected from the domestic water supply; that this floor is designed for 100 persons; that the 2nd floor construction has been redesigned for a live load of 98 lbs. for the rear portion and for a live load of 60 lbs. for the front and central portions; that this floor will not have more than 50 persons at any time; that in addition to the interior stairs leading to the 1st floor as previously described, this floor will be provided with an exterior iron stairs, 3 ft. wide, enclosed in an angle iron frame and transite sheets, with a door at the bottom 3 ft. wide and provided with a panic bolt; that the building will be used exclusively by the corporate owner, generally evenings and perhaps on rare occasions, during the day; that the membership consists of adults only, since they are all veterans of World War I; that the building will not be used for restaurant or catering purposes and will not be rented, let, leased or hired to other organizations, nor will it be used for business purposes; that the kitchen on the first floor is now provided with a domestic sink and gas range and will be used for making tea, coffee, etc. for collations, such as is generally served to its members after the meeting.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 3108-44, objections 1, 2 and 3, dated January 4, 1945, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall be reconstructed and altered substantially as indicated on revised plans marked "Received January 16, 1945" as hereinabove described; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that any fire-places within the building shall be bricked up; that the building shall be re-wired throughout in accordance with the requirements of the Electrical Code; that all main cornices shall be removed in connection with the proposed exterior weather surfacing with asbestos shingles; that the building shall not be increased in height or area; that this building shall be used only for the purposes proposed; that all exits shown, shall at all times remain available for exit during the time the building is occupied; that the sprinkler heads within the kitchen may be fed from the domestic water supply, provided such supply is not less than 1½ in. at the street supply line; that the 3-car garage in the rear shall be used only as an accessory to this building and shall not be leased out to persons or for functions not directly connected with the organization operating this building; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that a certificate of occupancy shall be obtained.

706-44-A

APPLICANT—Leon and Lionel Levy, Franklin Building Co., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—79-81 Chambers street, north side, 143 ft. 11 in. west of Broadway (1st floor); (Block 149, Lot 3), Borough of Manhattan.

APPEARANCES—

For Applicant: S. Joseph Gilbert, Lois Katz and Myron Engelman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn to comply.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (706-44-A)

WHEREAS, Leon and Lionel Levy, for Franklin Building Company, owner, filed December 4, 1944, an appeal from a decision of the borough superintendent, affecting premises 79-81 Chambers street, north side, 143 ft. 11 in. west of Broadway (1st floor); (Block 149, Lot 3), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated November 22, 1944, on P.A. Applic. 849-44, reads:

"The two exits provided at the front of the store, are not remote from each other, as required by C26-273.0 subd. 1a of the Administrative Code. (Sec. 6.1.2.2.1 Building Code.)"

and

WHEREAS, the applicant states the building is two stories (30 ft.) in height; 49 ft. 11 in. by 150 ft. 6 in. in area at 1st floor; 24 ft. 11 in. by 85 ft. in area at 2nd floor; of **Class 3 construction**; erected approximately 50 years ago; located in an unrestricted use, B area, Class 2½ height district and used and occupied as subcellar, boiler room; cellar, storage, hardware, food supplies and beer; 1st floor, stores and restaurant, 225 persons; 2nd floor, manufacturing lenses, 70 persons; that the building is equipped with one 4 ft. 8 in. steel stairs, enclosed in partitions of wood studs, metal lath and plastered both sides, equipped with ¾ hour self-closing doors, leading directly to the street and provided with a ladder and scuttle to the roof and one fire escape at the Reade street front, leading to the roof by a ladder and to the street by stair; that windows and doors on the course of the fire escape are fireproof and self-closing; and

WHEREAS, Violation 1815, issued October 3, 1944, to Blue Kitchen, occupant of a portion of the 1st floor, was for failing to obtain a permit for restaurant accommodating more than 74 persons on part of the 1st floor, contrary to Local Law 29 of 1943; and

WHEREAS, Certificate of Occupancy 21058, issued February 25, 1936, permits the use of the subcellar for storage, cellar for storage; 1st floor, stores, 225 persons; 2nd floor, factory, 70 persons; and

WHEREAS, the applicant contends that there are two remote exits at the front of the building, as indicated on plans filed with this appeal; that access to the westerly exit is by means of an aisle 3 ft. wide; that it is proposed to alter and relocate the existing counters and stools, so there will be an additional 3 ft. passage in the back of the counters to the easterly exit; that it is not possible to obtain egress to the yard or court, which would lead to a street, as the building occupies the entire lot on the 1st floor level; that all cooking, except short orders, are done in the fully enclosed kitchen at the rear, having a fireproof, self-closing door and the only exposed flames in the restaurant proper are small gas burners; that under these conditions it is felt there is no hazard involved.

WHEREAS, the applicant requested permission to withdraw this appeal, on the understanding that he would file plans

with the Building Department, to show a second means of exit, consisting of a stair in the rear leading to the one story roof and connecting with the existing fire escape to Reade street, and to block up or make fireproof, the two windows toward the rear opening upon courts or shafts.

Resolved, that the appeal be and it hereby is *withdrawn* to comply.

41-45-A

APPLICANT—M. Martin Elkind, for Robert W. Higbie, Jr., trustee for Robert W. Higbie Trust No. 2, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—95-41 to 95-45 Roosevelt avenue and 37-87 Warren street, northeast corner (2nd and 3rd floors); (Block 1484, Lot 54), Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: M. Martin Elkind.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (41-45-A)

WHEREAS, W. Martin Elkind, for Robert W. Higbie, Jr, trustee for Robert W. Higbie Trust No. 2, owner, filed January 30, 1945, an appeal from a decision of the borough superintendent, affecting premises 95-41 to 95-45 Roosevelt avenue and 37-87 Warren street, northeast corner (2nd and 3rd floors); (Block 1484, Lot 54), Jackson Heights, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, re Alt. Applic. 1674-44, dated January 16, 1945, reads:

"1. Means of egress not in compliance with Section 270 Labor Law."

and

WHEREAS, the applicant states the building is 3 stories (35 ft.) in height, 41 ft. by 42 ft. average, in area; Class 3 construction; erected in 1927; located in a business use, C area, Class 1½ height district; used and occupied as follows: cellar, boilerroom and storage; 1st floor, stores, 6 persons; 2nd floor, cloth specialities manufacturing and offices, 3 persons, 3rd floor, vacant; proposed to be used and occupied: cellar, same; 1st floor, same; 2nd and 3rd floors, clothing manufacturing and offices, 20 persons per floor; that the building is equipped with one 3 ft. 8 in. stairs of iron construction at 1st floor and wood above, enclosed in partitions constructed of 2 in. by 4 in. wood studs, covered both sides with metal lath and cement plaster; equipped with fireproof, self-closing doors and leading from the roof bulkhead directly to the street; and

WHEREAS, Certificate of Occupancy Q31115, issued June 9, 1944, permits the use and occupancy of the building as follows: Cellar, heating and storage; 1st floor, stores; 2nd floor, offices and light manufacturing, 3 persons; 120 lbs. liveload; 3rd floor, offices and light manufacturing, 2 persons, 120 lbs. liveload; and

WHEREAS, the applicant contends that the use of the 2nd and 3rd floors will not be changed, except that the definite classification of clothing manufacturing will be substituted; that the net usable floor area on each of the 2nd and 3rd floors is only 1440 square feet; that to require an additional stairway would reduce the already small area to an impractical point; that the total number of persons for which the approval is sought, will only be forty persons above the first floor; that the existing stairs is more than adequate to accommodate this number; that the stairs have a clear width of 3 ft. 8 in. and stairhalls are 3 ft. 6 in.; that the stair enclosure is equipped with two 2 ft. 6 in. fireproof, self-closing doors, on each of the 2nd and 3rd stories; a multiple dwelling type fire escape balcony will be provided on the 2nd and 3rd floors, connected by 60 degree stairs with stationary gooseneck ladder to the roof and a sliding drop ladder to grade; that the total area used for manufacturing will not exceed the area of the lot.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, re Alt. Applic. 1674-44, objection 1, and that the appeal be and it hereby is *granted on condition* that in addition to the primary means of exit, as secondary exit, consisting of an exterior fire escape complying with the requirements of the Labor Law in all respects, shall be constructed and maintained; that the windows on the course of such fire escape shall comply with the requirements of the Labor Law therefor; that the number of persons on each of the 2nd and 3rd floors shall not exceed that permitted by the primary means of exit; that the fire-retarding partition around the primary means of exit and doors, as indicated, shall be maintained; that structural evidence shall be submitted to the borough superintendent that the floor framing of the 2nd and 3rd floors will meet all the requirements for the 120 lbs. floor load and there shall be no reliance in this respect on the incomplete data as indicated in application 9431-27; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

65-45-A

APPLICANT—Saul Goldsmith, for 35-18 37th Street Realty Corporation, owner (Kurman Electric Co., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—35-18 37th street, west side, 165 ft. south of 35th avenue (cellar); (Block 640, Lot 31), Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Saul Goldsmith.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (65-45-A)

WHEREAS, Saul Goldsmith, for 35-18 37th Street Realty Corporation, owner (Kurman Electric Co., lessee), filed February 9, 1945, an appeal from a decision of the borough superintendent, affecting premises 35-18 37th street, west side, 165 ft. south of 35th avenue (cellar); (Block 640, Lot 31), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, acting on amendment to Alt. Applic. 3086-41, dated February 5, 1945, reads:

"1. The cellar ceiling is required to be covered with material having a fire resistive rating of 1 hour. (Section 440 of former Building Code or Section 10.11.b. of the present Building Code.)"

and

WHEREAS, the applicant states the building is 2 and 3 stories (31 and 45 ft.) in height; 95 ft. by 90 ft. in area; of Class 3 construction; located in an unrestricted use, B area, Class 1½ height district, erected 1925, and used and occupied since 1943 throughout as a factory for electrical timing devices and electrical relays, 100 persons in the cellar, 140 persons on the 1st floor, 80 persons on the 2nd floor, 40 persons on the 3rd floor, for which no certificate of occupancy has been issued; that the building is equipped with a one source sprinkler system, two interior stairs, 3 ft. 8 in. wide from the roof to the street, of fireproof construction; and

WHEREAS, Violation 2592-44, issued July 25, 1944, for failure to fire retard cellar ceiling, and Violation 76-45 was

issued for occupying the structure under Alt. Applic. 3086-41, without obtaining a certificate of occupancy; and

WHEREAS, the applicant contends that the sprinkler system is connected to a central station alarm; that the building is patrolled 24 hours a day by manual watchman service; that the building is owned and tenanted by the same principals engaged in 100% war work with many restricted devices being developed and manufactured; that the building was altered under Alteration 3086-41; that in 1943, when the present owners purchased the property, alterations were partly completed and plans were drawn and filed meeting all the required amendments under such alteration application and work completed October, 1943; that an application was filed for a certificate of occupancy and upon final inspection, it was discovered the cellar ceiling fire retarding was omitted and violations were issued; that an amendment was filed February 5, 1945, to omit the fire retarding of the cellar ceiling; that the open joists of the cellar ceiling act as supports for the utility and electrical conduits supplying the various machines and equipment; that this makes the covering of the cellar ceiling exceedingly difficult and impractical to accomplish and continuous plant operation prevents any covering being applied to the cellar ceiling; that for all practical purposes, the spirit and intent of the law is exceeded in providing protection for the cellar ceiling by the voluntary installation of an approved type wet sprinkler system throughout the building, connected to a central station alarm and supplemented by a 24 hour a day manual watchman service; that the National Board of Fire Underwriters permits the omission of cellar ceiling fire retarding, where a sprinkler system is installed; it is therefore requested that the Board grant a variance, to permit the omission of the cellar ceiling fire retarding.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 3086-41, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the sprinkler system and central district connection shall be maintained throughout the building as well as a manual watchmen's service with patrol during the full 24 hours of the day; that the fire walls with fire doors at all openings shall be maintained as proposed; that the building shall not exceed 3 stories in total height and shall not be increased in area, except that the rear extension as proposed, at the northwesterly corner of the rear yard at the cellar level and intended for an annealing room, may be constructed.

1006-40-A

APPLICANT—Pauline Weisberger, for The Nursery Rhyme, lessee; Pauline Weisberger and Edward Weisberger, owners.

SUBJECT—Application for consideration — reopening. amendment of resolution and extension of variance —re Appeal from a decision of the borough superintendent, previously granted on condition for a term of two (2) years (under General City Law re bed of mapped street).

PREMISES AFFECTED—141-43 Coolidge avenue, north side, 235.65 ft. west of Daniels street (Block 6639, Lot 54), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Pauline Weisberger.

ACTION OF BOARD—Appeal reopened, resolution amended and permit extended.

THE VOTE TO REOPEN, AMEND RESOLUTION AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (1006-40-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 141-43 Coolidge avenue, north side, 235.65 ft. west of Daniels street (Block 6639, Lot 54), Jamaica, Borough of Queens, was granted by the Board on January 14, 1941, on certain conditions for a term of two years; and

WHEREAS, the term of the variance was extended on February 16, 1943 and the applicant requested an amendment of the resolution and a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted January 14, 1941, as amended February 16, 1943, so that as amended, the resolution will read:

"* * * *granted on condition* that the proposed kindergarten school shall be limited to *twenty* (20) pupils, and shall be maintained within the two rooms on the first floor, as indicated on plans filed with this appeal marked "Received October 18, 1940"; that the school while in session shall at all times be under the supervision of two qualified persons; that the door to the cellar shall be made self-closing; that the front and rear exits shall be maintained; that the building shall not be increased in height or area, and *granted* for a term of two (2) years from the date of this *amended* resolution; that no child shall remain on the premises overnight; and as to objection 7, *dismissed* in view of the building having been erected prior to the proposed extension of Main street being placed on the official map; and that a certificate of occupancy shall be obtained (Misc. Applic. 8336-40)."

ZONING CASES

721-23-BZ

APPLICANT—Arnold W. Lederer, for Max Spinner, Inc., owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the superintendent of buildings)—previously granted on condition, permitting in a business use district, the erection and maintenance of a garage for more than five motor vehicles.

PREMISES AFFECTED—985-989 Franklin avenue, east side, 450 ft. south of Montgomery street and 56-60 Cedar place (Block 1301, Lot 11), Borough of Brooklyn.

APPEARANCES—

For Applicant: Arnold W. Lederer.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (721-23-BZ)

WHEREAS, this application, permitting in a business use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises 985-989 Franklin avenue, east side, 450 ft. south of Montgomery street and 56-60 Cedar place (Block 1301, Lot 11), Borough of Brooklyn, was granted by the Board on July 31, 1923, on certain conditions; and

WHEREAS, time was extended to obtain permits and complete the work, on March 23, 1926 and April 12, 1927; and

WHEREAS, the applicant requested reopening and amendment of the resolution, based on a decision of the borough superintendent, dated February 5, 1945, on Alt. Applic. 260-45, which reads:

"The use in this structure was granted under a variance by the Board of Standards and Appeals, any modification of this use to be referred to Board of Standards and Appeals."

and

WHEREAS, Alt. Applic. 260-45, was filed with the borough superintendent for the purpose of permitting the temporary use of the building for the storage of groceries, which is a conforming use in a business district; that this storage is to be for a temporary period, extending for the duration of the emergency and six months thereafter, at which time the use will revert to that shown on the existing certificate of occupancy, which it is requested be permitted to remain in force.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted July 31, 1923, as amended through April 12, 1927, by adding thereto:

"that in the event the owner desires to occupy the building during the term of the present emergency and for not more than six months thereafter for the storage of merchandise instead of a garage as proposed in the application filed with the borough superintendent under Alt. Applic. 260-45, such temporary change of use may be permitted, provided the building is not increased in height and area and no structural changes are made therein; that the gasoline storage system shall be temporarily sealed to the satisfaction of the fire commissioner; that the existing certificate of occupancy, 45131-27, may remain in force and the garage use may be restored upon the termination of the proposed temporary storage use."

92-31-BZ

APPLICANT—I. Erlich Wolff, for Rubin Laskin and Louis Laskin, owners.

SUBJECT—Application for consideration—reopening and extension of time to complete—Application (decision of the borough superintendent) previously granted on condition, under section 7f of the zoning resolution, for a term of years, permitting partly in business use and partly in unrestricted use districts, the maintenance of a building occupied as a garage for more than five motor vehicles and a motor vehicle repair shop, and the alteration and maintenance of a gasoline service station (previously granted by Board for temporary period).

PREMISES AFFECTED—8401-8411 Flatlands avenue and 761-775 East 84th street, northeast corner (Block 8005, Lots 6 and 11), Borough of Brooklyn.

MINUTES

APPEARANCES—
For Applicant: Ada Wolfe.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and time extended.
THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn. 4
Negative: 0

THE RESOLUTION (92-31-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station, affecting premises 8401-8411 Flatlands avenue and 761-775 East 84th street, northeast corner (Block 8005, Lots 6 and 11), Borough of Brooklyn, was granted by the Board on June 23, 1931, on certain conditions, permit extended from time to time and resolution amended on April 15, 1941 under section 7f of the zoning resolution, permitting partly in a business use district and partly in an unrestricted use district, for a term of ten years, the maintenance of a building occupied as a garage for more than five motor vehicles and a motor vehicle repair shop and the alteration and maintenance of a gasoline service station; and

WHEREAS, time was extended to obtain permits and complete the work, on March 3, 1943 and on February 15, 1944 and the applicant requested a further extension of time for such purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted June 23, 1931, as amended through February 15, 1944, only so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"that all permits required shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolutions of June 23, 1931 and April 15, 1941 shall be complied with."

541-32-BZ

APPLICANT—Louis N. Field, for Universal Asbestos Corporation, owner.
SUBJECT—Application for consideration—reopening and extension of time to complete work—(decision of the borough superintendent) previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, the conversion of occupancy of an existing building from storage use to a factory (asbestos pipe insulation).

RULES

RULES FOR TESTS OF FIRE-RESISTIVE, FLAMEPROOFED MATERIALS, SUCH AS TEXTILES, PAPER, SIMILAR MATERIALS AND ADHESIVES USED FOR DECORATIVE PURPOSES AND TREATED ACOUSTICAL DRAPERIES, CARPETS AND SIMILAR MATERIALS FOR USE IN PLACES OF PUBLIC ASSEMBLY AND SPECIAL OCCUPANCY STRUCTURES.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS MAY 3, 1940. EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, MAY 27, 1940.

[Cal. No. 294-40-SR]

AUTHORITY:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, *paragraph* 2, *of the Charter of the City of New York and Section* C26-721.0b (12.2) *as amended by Local Law No.* 170, *approved November* 14, 1939, *and Section* C19-161.1 *Local Law No.* 112, *approved July* 18, 1939.

1.0 SCOPE

These requirements apply to flameproofed combustible materials used for decorative or other purposes within special occupancy structures as defined in Section C26-715.0 (12.1.1) and other places of public assembly as provided in Section C-19-161.0, which was amended by Local Law No. 112.

2.0 GENERAL REQUIREMENTS

It shall be unlawful for any person to use any decorations, drape, curtain or scenery used for artistic enhancement which is made of combustible material, unless painted or saturated with a non-combustible material or liquid or otherwise rendered safe against fire to the satisfaction of the Fire Commissioner and in accordance with the requirements of these Rules, in any building of a public character, including a hotel, theatre, restaurant, public hall, department store, and a building used or intended to be used for purposes of public assembly, amusement or instruction, and a building where large numbers of persons congregate (See Section C19-161.1) except as exempted in Rule 7.

After flameproofing, such processing as ironing, sewing and normal handling shall have no detrimental effects on the treatment of the material.

3.0 APPROVAL OF MATERIALS AND METHODS USED IN FLAMEPROOFING TEXTILES, ETC.

3.1 No materials or methods for flameproofing combustible materials for use under these Rules shall be used unless approved by the Board.

4.0 FLAMEPROOFING PROPERTIES.

The flameproofed material, when subjected to the test described in Rule 5.0, shall meet the following requirements as to fire-retardant properties.

4.1 FLASHING—No flashing shall occur at any time on the length of the test specimen. A flashing due to fuzz or bad edges may be disregarded.

4.2 DURATION OF FLAME—The average continuation of flaming shall not exceed 3 seconds.

4.3 DURATION OF GLOW—The average continuation of glow at the edge of the charred area shall not exceed an additional twenty seconds after the cessation of flaming. Glow confined to the charred area may be disregarded.

5.0 TESTS.

Tests for each specific installation of originally treated combustible material, or any re-tests thereof, shall be made by the Fire Commissioner, or in a laboratory approved by him, in accordance with the requirements of these Rules.

5.1 SAMPLING FOR TEST SPECIMENS—Samples of each variety of material and for every kind of treatment shall be subject to separate tests. Samples shall be of sufficient size to furnish test specimens provided for in Rule 5.2. At least three samples shall be furnished for every 500 square feet or fraction thereof.

5.2 TEST SPECIMENS—Specimens for test shall be 2 in. wide and 12½ in. long and shall be numbered on one end. Test specimens shall be carefully cut from at least three different places in the material to provide a minimum of three test specimens from each material for testing.

5.3 CONDITIONING OF TEST SPECIMENS—The test samples or test specimens shall be dried for 24 hours in a room of average temperature of 70° F., with an average humidity of 40%.

5.4 TEST FOR PERMANENCE OF CHEMICALS—Test specimens shall be suspended by folding and pinning one-half inch of the numbered end over a horizontal 8-gauge wire, placed two inches above the center of a 7-inch opening in a 3 ft. wind tunnel arranged to deliver a wind velocity to the air, at the tunnel end, of 700 lineal feet, plus or minus 50 ft. per minute, as measured by a suitable anemometer on a line with the wire. In this position the test specimens shall be whipped for five minutes. Immediately upon conclusion of this test, the specimens shall be placed in a closed dry container until required for the flame test.

5.5 APPARATUS FOR FLAME TEST—The apparatus shall consist of a ring stand 20 inches high with an adjustable clamp housed in a metal shield 12 inches square and 20 inches high, open in front and at both ends and a Bunsen or Tirrill gas burner which shall have a tube of ⅜-inch inside diameter.

5.6 FLAME TEST—A whipped test specimen shall be taken from the closed container required in Rule 5.4 and suspended vertically with one-half inch of the numbered end in a clip held in a clamp on the ring stand so that the test specimen shall hang vertically within and near the center of the metal shield required in Rule 5.5. The lower end of the test specimen shall be three-quarters of an inch above the top of the gas burner on which the air supply is shut off completely and adjusted to give a luminous flame 1½ inches long. The flame shall be applied for 12 seconds, then withdrawn. The result of the test for duration of flame and duration of glow of the three test specimens shall each be averaged and recorded. Flashing, if any, shall be noted.

6.0 APPROVAL AND CERTIFICATION.

The approval of materials that have been flameproofed, as provided in Rule 1.0 and tested as required in Rule 5.0 with flameproofing properties as given in Rule 4.0, shall be limited to one year. An affidavit by the person, firm or corporation flameproofing the combustible materials shall be filed with the Fire Commissioner stating that the flameproofing compound and method complies with the approval of the Board, with calendar number thereof, and including the date of treatment and warranted period of effectiveness of the flameproofing.

6.1 The Fire Commissioner may require check tests at any time. Upon the termination of the approval, as provided for in Rule 6.0, a retest of the flameproofed combustible materials shall conform to the following:

Flameproofed materials shall withstand a test of at least 400° F., as measured by a pyrometer, or other acceptable method, for approximately one-minute's duration by means of an open flame. Under such test, the flameproofed material shall not flash or support combustion and shall not glow outside of the char if a char is set up by the open flame. Material found not to conform to these requirements, shall be removed and replaced with materials conforming to the requirements of Rule 4.0.

7.0 EXEMPTION.

These Rules shall not be construed to apply to merchandise for sale or displayed for sale, to guest rooms in hotels, to offices, to works of art in museums, nor to churches or places of religious worship.

RULES

RULES RELATIVE TO SUBMERGED INLETS AND PROTECTIVE METHODS TO BE APPLIED TO PREVENT CONTAMINATION OF WATER SUPPLY

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS FEBRUARY 3, 1939, EFFECTIVE IN ACCORDANCE WITH SECTION 666, PARAGRAPH 2, OF THE NEW YORK CITY CHARTER, FEBRUARY 27, 1939, AS AMENDED DECEMBER 4, 1942, EFFECTIVE DECEMBER 28, 1942.

(835-38-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2 of the New York City Charter pertaining to Sections C-26-1268.0,c,4. and C26-1277,0h. of the Administrative Building Code.

Rule 1. Vacuum Breakers.

All vacuum breakers prescribed under these rules shall be set at least four inches above the flood level rim of fixtures or as otherwise specifically provided for in these rules. Each fixture with submerged inlets shall be independently controlled by an approved vacuum breaker or breakers the full size of supply pipe, as set forth in these rules.

Rule 2. Submerged Inlets.

Water supply inlets to fixtures shall be located at least one inch above the flood level rim of the fixture, except when submerged inlets are absolutely essential for the proper functioning of a fixture, or as otherwise provided for in these rules.

Water supply lines to water preheating apparatus utilizing waste water shall be equipped with an approved vacuum breaker located at least four feet above the highest elevation of the preheating apparatus or coil, with a check valve between the vacuum breaker and the preheating apparatus. Any hot water boiler supplied through such preheating device and having an independent cold water supply line shall have the cold water supply line equipped with a vacuum breaker and check valve located at least four inches above the highest elevation of the boiler.

Rule 3. Flush-Valve Fixtures.

Flush-valve controlled fixtures, with submerged inlets supplied directly or indirectly from the City Water Supply System, shall be equipped with an approved vacuum breaker in the supply line not less than four inches above the flood level rim of the fixture.

Rule 4. Ballcocks.

All flush tanks operated by ballcocks shall have an approved vacuum breaker located not less than three-quarter inch above the overflow outlet of the flush tank.

Ballcocks controlling water supply to suction, roof or other intermediate tanks shall be located at least one inch above the flood level rim of the tank excepting that in roof tanks equipped with an overflow of a size at least one commercial diameter larger than the water supply pipe, the ballcock may be located two inches above the highest elevation of the overflow pipe. The overflow and emptying pipes of roof, suction and intermediate tanks shall not be directly connected to a drainage system, notwithstanding the permissive provisions of Section C26-1273.0,d of the Administrative Building Code for connection to a leader.

Rule 5. Sterilizers.

Direct water supply connections to all sterilizers are prohibited, except such equipment as is approved by the Board. When approved sterilizers are used, the waste piping from sterilizers shall not connect directly with any drainage system.

Rule 6. Aspirators—Water Siphons.

Direct water supply connections to aspirators, water siphons or similar apparatus is prohibited except when approved by the Board. The waste pipe for this type of apparatus shall not connect directly with any drainage system.

Rule 7. Bidets—Bed Pan Washers.

Direct water supply connections to a bidet is prohibited. Water supply connection to bed pan washers or similar apparatus shall be equipped with an approved vacuum breaker and check valve, the latter located between the fixture and the vacuum breaker. Water supply to bed pan washers equipped with an approved flush valve shall be governed by Rule 3.

Bed pan washers may be equipped with steam connections only when such equipment has been approved by the Board.

Rule 8. Sump or Well Pumps:

Direct water supply connections for priming purposes to sump, well or similar type pumps when permitted by the Department of Water Supply, Gas and Electricity shall be connected to the inlet side of the pump and be equipped with an approved vacuum breaker and check valve, the check valve to be located between the pump and the vacuum breaker.

Rule 9. Condensers.

Direct water connection to refrigeration unit for cooling purposes shall be equipped with an approved check valve to prevent possible back flow of ammonia or other refrigerant from defective condenser coils or jackets, except in such installations where the water supply piping is entirely outside of the piping or tank containing the refrigerant and two independent wall thicknesses of metal separate the refrigerant from the city water supply. Refrigeration units containing more than twenty pounds of refrigerant shall be provided with an additional safeguard in the form of an approved relief valve installed at the outlet side of the check valve, such relief valve being set at five pounds above the maximum water pressure at the point of installation. Direct water connection is prohibited under Section C26-1223.0 Administrative Building Code.

Rule 10. Mortuary, Dissection, Operating and Embalming Tables or Equipment.

Mortuary, dissection, operating and embalming tables or equipment shall have no direct water supply connection. Hose used with such equipment shall terminate at least 12 inches at any point from the table or attachments.

Rule 11. Dishwashing and Laundry Machines.

Direct water supply to dishwashing and laundry machines shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker and the fixture. The vacuum breaker shall be located at least 4" above the highest elevation of the machine.

Rule 12. Chemical Solution Tanks or Apparatus.

Direct water supply connections, when permitted by the Department of Water Supply, Gas and Electricity, to any tank or apparatus containing any chemical shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker and the tank or apparatus.

BOARD OF STANDARDS AND APPEALS

HARRIS H. MURDOCK, Chairman
BERNARD A. SAVAGE
CHARLES M. BLUM
CHIEF JOHN E. GUNN

JOSEPH J. DOYLE, *Chief Clerk*

OFFICE—Municipal Building, Rooms 1000 to 1018.

TELEPHONE—WOrth 2-5600.

OFFICE HOURS FOR PUBLIC—9 a. m. to 4 p. m.

Saturdays 9 a. m. to 12 noon.

Address all communications to the Chairman

CONTENTS

This issue of the Bulletin contains in the order given—

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting, February 20, 1945, at 10 A. M., Affecting Calendar Numbers 1220-23-BZ, 661-44-BZ, 458-44-BZ, 628-44-BZ, 679-44-BZ, 705-44-BZ, 644-44-A, 16-45-A, 24-45-A and 468-44-SM.

Minutes of Regular Meeting, February 20, 1945, at 2 P. M., Affecting Calendar Numbers 277-44-A, 693-44-A, 746-44-A, 5-45-A, 7-45-A, 48-45-A, 285-43-A, 582-44-A, 255-43-A, 634-44-A, 27-45-A, 872-28-BZ, 348-37-BZ, 342-40-BZ, 578-39-SM, 638-39-SM and 1170-39-SM.

Corrections Affecting Calendar Numbers 672-44-A and 646-44-A.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to February 20, 1945.

Cal. No. Dept. Premises Affected

70-45-A—H.B.B.—151-165 35th street, north side, 100 ft. west of 4th avenue (1st floor); (Block 688, Lot 48), Borough of Brooklyn, Alt. 130-45.

71-45-BZ—H.B.M.—109-119 East 16th street and 35-45 Irving place, northwest corner (Block 872, Lot 13), Borough of Manhattan, Alt. 216-45.

72-45-A—H.B.M.—94-100 Varick street and 68 Watts street, northeast corner (Block 477, Lot 35), Borough of Manhattan, Amendment to Alt. 1162-43.

73-45-A—F.D.—207-231 Varick street (225 displayed), west side, between West Houston and Clarkson streets, 240-248 West Houston street and 2-8 Clarkson street (6th floor); (Block 581, Lot 63), Borough of Manhattan, Decision.

74-45-SM—Magnatrol Valve (Solenoid Magnetic Valve for the control of oil, brine, air, gas, steam, etc.), manufactured by Magnatrol Valve Corp., Material.

75-45-BZ—H.B.Bx—477 East 143rd street, north side, 215 ft. west of Brook avenue (Block 2288, Lot 63), Borough of The Bronx, Alt. 602-44.

76-45-A—H.B.B.—139 Evergreen avenue, east side, 25 ft. north of Troutman street (1st and 2nd floors); (Block 3172, Lot 2), Borough of Brooklyn, Alt. 303-45.

77-45-A—F.D.—340 East 43rd street, south side, 90 ft. west of Prospect place (Block 1335, Lot 37), Borough of Manhattan, Decision.

78-45-BZ—H.B.B.—284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn, Alt. 2233-44.

79-45-A—F.D.—432 West 29th street, south side, 325 ft. east of 10th avenue (basement and 2nd floors); (Block 726, Lot 60), Borough of Manhattan, 40439-LC.

80-45-A—H.B.Bx.—409-411 East 154th street, north side, 70 ft. east of Melrose avenue (Block 2376, Lot 35), Borough of The Bronx, Alt. 50-45.

81-45-A—H.B.B.—465-471 Adelphi street, east side, 258 ft. north of Atlantic avenue (ground and 2nd floors); (Block 2008, Lot 9), Borough of Brooklyn, Alt. 1468-44.

82-45-A—H.B.B.—101-109 Court street, southeast corner of Schermerhorn street (cellar and 1st floor); (Block 271, Lot 23), Borough of Brooklyn, Alt. 50-45.

83-45-A—H.B.Q.—161-25 Grand Central parkway, north side, from 161st to 164th streets (Block 6858, Lot 1), Jamaica, Borough of Queens, N.B. 269-43.

84-45-BZ—H.B.M.—1-5 Greenwich avenue, southwest corner of Christopher street (Block 593, Lot 13), Borough of Manhattan, Amendment to Alt. 555-45.

Restored to Calendar

255-43-A—H.B.Q.—28-53 216th street, north side, 477.32 ft. east of 28th avenue (Block 6019, Lot 1), Bayside, Borough of Queens, Alt. 1628-44.

634-44-A—H.B.M.—227-229 East 56th street, north side, 260 ft. east of 3rd avenue (Block 1330, Lot 11), Borough of Manhattan, Alt. 1257-44.

5-45-A—H.B.Q.—148-18 Jamaica avenue, south side, 50 ft. west of 149th street (Block 9996, Lots 5-9), Jamaica, Borough of Queens, Alt. 1397-44.

872-28-BZ—H.B.Bx.—2301-2313 Grand Concourse and 163-169 East 183rd street, northwest corner (Block 3164, Lot 31), Borough of The Bronx, Amendment to E. S. 129-44.

DESIGNATIONS: **H.B.**—Department of Housing and Buildings; **H.B.B.**—Department of Housing and Buildings, Brooklyn; **H.B.M.** Department of Housing and Buildings, Manhattan; **H.B.Q.**—Department of Housing and Buildings, Queens; **H.B.R.**—Department of Housing and Buildings, Richmond; **H.B.Bx.**—Department of Housing and Buildings, Bronx; **H.D.**—Health Department, and **F.D.**—Fire Department.

FEBRUARY 27, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, February* 27, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

398-44-BZ—Application, June 27, 1944, under section 7e of the zoning resolution, of Raymond Irrera, applicant, on behalf of Hi Heat Coal and Coke Co., owner, to permit in a business use district, the change of occupancy from office, shed and scale for a coal yard on opposite side of street to office, shed and scale and coal storage yard; premises 77-08 76th street and 75-12 to 75-20 Edsall avenue, southwest corner (Block 3813, Lot 6), Glendale, Borough of Queens.

753-44-BZ—Application, December 29, 1944, under sections 7e, 7f and 21 of the zoning resolution, of Chester A. Cole and Maurice G. Uslan, applicants, on behalf of Emanuel M. Honig, owner, to permit partly in a residence use and partly in a business—1 business use district and D and E area district, the erection of a building occupying more than the permitted percentage of lot and omitting the required yards and court area; building to be occupied as a garage for more than 5 motor vehicles, motor repair shop, show rooms and gasoline service station; premises 140 Main street, south side, 369.04 ft. west of Craig avenue (Block 8028, Lot 67), Tottenville, Borough of Richmond.

Appeal from Administrative Decision

644-44-A—237 Mercer street, west side, 100 ft. south of West 3rd street (Block 533, Lot 20), Borough of Manhattan (reopened and restored to calendar February 14, 1945—previously dismissed for lack of prosecution).

HARRIS H. MURDOCK, *Chairman.*

FEBRUARY 27, 1945, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday afternoon, February* 27, 1945 at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Appeals from Administrative Decisions.

39-45-A—644-646 Broadway, northeast corner of Bleecker street (8th floor); (Block 529, Lot 1), Borough of Manhattan.

82-45-A—101-109 Court street, southeast corner of Schermerhorn street (cellar and 1st floor); (Block 271, Lot 23), Borough of Brooklyn.

98-45-A—124-126 Livingston street, south side, 93 ft. 3¾ in. east of Boerum place (Block 165, Lot 10), Borough of Brooklyn.

HARRIS H. MURDOCK, *Chairman.*

MARCH 6, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, March* 6, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

422-39-BZ—Application of Lama and Proskauer, applicants on behalf of Bonded Lien Corp., owner, reopened July 25, 1944, for consideration as to extension of permit —Application, previously granted on condition under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles; premises 305-313 21st street and 697-705 6th avenue, northwest corner (Block 892, Lot 1), Borough of Brooklyn.

597-44-BZ—Application, October 17, 1944, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of Abraham Sorkin, Morris Sorkin and Samuel Sorkin, owners, to permit partly in an unrestricted and partly in a residence use C area district, the demolition of a gasoline service station, motor vehicle repair shop and poultry slaughter house and reconstruction as a gasoline service station and motor vehicle repair shop without providing the rear yard required under the provisions of Section 17, Zoning Resolution; premises 2987-2997 Atlantic avenue and 205-221 Elton street, northeast corner (Block 3956, Lot 48), Borough of Brooklyn.

691-44-BZ—Application, November 30, 1944, under sections 7c and 21 of the zoning resolution, of Judson E. Schnall, applicant, on behalf of 8010 Fifth Avenue Corporation, owner, to permit on a plot located in a business use and residence use C area district, the erection of a fur storage vault extending from a business use district into a residence use district as an extension to an existing business building and not in compliance with the requirements for C area district; premises 8010-8012 5th avenue, west side, 63 ft. south of 80th street (Block 5989, Lots 46 and 47), Borough of Brooklyn.

1220-23-BZ—Application of Lama and Proskauer, applicants, on behalf of Roosevelt Savings Bank of the City of New York, owner (Elwood Cross, lessee), reopened June 3, 1941, under section 7c of the zoning resolution, to permit in a business use district the extension of a gasoline service station and parking and storage of more than five motor vehicles (previously acted upon by the Board); premises 1090-1094 (1082-1100 displayed) Gates avenue, east side, 85 ft. north of Broadway (Block 3339, part of Lot 52), Borough of Brooklyn.

623-44-BZ—Application, October 27, 1944, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of Realty Associates Securities Corp., owner (Whitman Hotel, lessee), to permit in a residence use district, the parking and storage of more than five motor vehicles as an accessory use to a hotel in a business use district; premises 160-11 89th avenue, north side, 127 ft. west of 161st street (Block 9764, Lot 97), Jamaica, Borough of Queens.

539-44-BZ—Application, September 21, 1944, under section 7e of the zoning resolution, of George W. Swiller, applicant, on behalf of Morris Rosen, owner (Moncel Trading Co., lessee), to permit in a business use district, the change of occupancy of a two story building from stores and place of public assembly to cutting and baling of wiping cloths, offices and stores; premises 1272-1274 Hoe avenue, northeast corner of Freeman street (Block 2987, Lot 1), Borough of The Bronx.

71-45-BZ—Application, February 14, 1945, under section 7e of the zoning resolution, of Western Electric Company, Inc., applicant, on behalf of Metropolitan Life Insurance Co., owner (Consolidated Edison Company of New York, Inc., lessee), to permit in a business use district, for a temporary period of two years, the conversion of an existing office building to a factory building with an area approximating 35% of the area of the building devoted to manufacturing purposes; the remainder of the building to be used for offices, storage of component materials and parts and cafeteria; premises 109-119 East 16th street and 35-45 Irving place, northwest corner (Block 872, Lot 13), Borough of Manhattan.

57-45-BZ—Application, February 7, 1945, under section 21 of the zoning resolution, of Ralph J. Gurfield, applicant, on behalf of Storch and Hirche, owners, to permit in a retail

CALENDAR

use B area district, the conversion of the 1st story of an existing building to cover the entire lot; premises 733 Ninth avenue, west side, 117.13 ft. north of West 49th street (Block 1059, Lot 34), Borough of Manhattan.

595-44-BZ—Application, October 19, 1944, under sections 7d, 7e and 21 of the zoning resolution, of Thirty Central Park South, Inc., applicant and owner, to permit in a residence use district, the maintenance of doctor's and dentist's offices in a residence building, some of whom do not reside on the immediate premises; premises 30 Central Park South, south side, 320 ft. east of Sixth avenue (Block 1274, Lot 60), Borough of Manhattan.

Appeals from Administrative Decisions.

596-44-A—30 Central Park South, south side, 320 ft. east of Sixth avenue (2nd to 13th floors); (Block 1274, Lot 60), Borough of Manhattan.

85-45-A—42-17 West (Barn) street, east side, 60.84 ft. south of Jackson avenue (1st and mezzanine floors); (Block 263, Lots 1, 4 and 12), Long Island City, Borough of Queens (under section 35, General City Law-re bed of mapped street—West street).

Material for Approval.

742-44-SM—Porete Manufacturing Company's Porex Slabs, size 80 in. x 20 in. x 1¾ in.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, FEBRUARY 20, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Wednesday morning, February 14, 1945, and Wednesday afternoon, February 14, 1945, were approved as printed in Bulletin No. 7, Volume 30.

ZONING CASES

1220-23-BZ

APPLICANT—Lama & Proskauer, for Roosevelt Savings Bank of the City of New York, owner (Elwood Cross, lessee).

SUBJECT—Application reopened June 3, 1941 (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use dis-

trict, the extension of a gasoline service station and parking and storage of more than five motor vehicles (previously acted upon by the Board).

PREMISES AFFECTED—1090-1094 (1082-1100 displayed) Gates avenue, east side, 85 ft. north of Broadway (Block 3339, part of Lot 52), Borough of Brooklyn.

APPEARANCES—

For Applicant: None.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 6, 1945 at 10 A. M. on written request of applicant.

661-44-BZ

APPLICANT—Max Horn, for Kaymos Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in an F area district, the erection of an apartment house covering a greater area than permitted in an F area district.

PREMISES AFFECTED—147 Beach 117th street, west side, 440 ft. south of Rockaway Beach boulevard (Block 757, Lots 28, 32 and 34), Rockaway Park, Borough of Queens.

APPEARANCES—

For Applicant: Max Horn.

For Opposition: Herman Brasch, Nathan Frank and W. Blato.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 27, 1945 at 10 A. M. at the request of objector.

458-44-BZ

APPLICANT—Horace Ginsbern, for Alstevlen Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, two vehicular entrances to a driveway from garage and service station located in an unrestricted use district.

PREMISES AFFECTED—400-418 East 61st street and 1110-1112 First avenue, southeast corner (Block 1455, Lot 46), Borough of Manhattan.

APPEARANCES—

For Applicant: Maurice H. Belkin.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (458-44-BZ)

WHEREAS, Horace Ginsburn, for Alstevlen Realty Corporation, owner, filed July 26, 1944, an application under section 7c of the zoning resolution, to permit in a business use district, two vehicular entrances to a driveway from a garage and service station located in an unrestricted use district, affecting premises 400-418 East 61st street and 1110-1112 First avenue, southeast corner (Block 1455, Lot 46), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals at its regular meeting, February 20, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that East 61st street is in an unrestricted and business use, A area and class 2 height district and that First avenue is in a business use, A area and class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated July 5, 1944, on Alt. Applic. 736-44, reads:

"1. Entrance to automobile service station opening into business district, also driveway in business district serving automobile service station is in violation of Sec. 4(a) (29) and Sec. 4(a) (15) Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 300 ft. frontage by 100 ft. 5 in. in depth, on which is located a 2 story building 200 ft. by 100 ft. located entirely in the unrestricted district, occupied as a garage and motor vehicle repair shop, a one story auto showroom building on the corner of the plot, and a driveway to the south of this showroom used to give car access thereto and it is proposed to create two vehicular openings from 2nd story of garage to this driveway; and

WHEREAS, the applicant contends that the premises consist of a two story building running 200 ft. on East 61st street for a depth of 100 ft. therefrom, located entirely in the unrestricted use district and used on the 1st story as garage for more than 5 motor vehicles, on the 2nd story as garage for more than 5 motor vehicles and motor vehicle repair shop and on the roof as a used car display, and a 1 story automobile showroom, located on the corner of the plot wholly within the business use district; that there is also a driveway, existing to the south of this automobile showroom on First avenue, which is used to give access by car to the showroom building; that this driveway is also in use as a secondary means of egress to the street from the termination of the required stairs in the existing two story garage building; that it is proposed to create two vehicular openings in the 2nd floor westerly wall of the two story building (floor of this 2nd floor is level with driveway) and to use the driveway leading from 1st avenue as an accessory to the garage, motor vehicle repair shop and used car display conducted in the 2 story building in the unrestricted district; that experience has indicated that it is not economically feasible to operate these premises without having motor vehicle access from First avenue; that East 61st street is a west bound traffic street, and by reason of this condition, the operator of the premises is deprived of the full use of the premises, which would result from access directly from First avenue and streets westerly thereof, that the business of the owner is primarily that of the sale and display of new and used cars and the repairing necessarily incident thereto; that the garage use is confined to the 1st floor and will have no access to the driveway in question; that pedestrian traffic on 1st avenue is light; that there is no occasion for pedestrians to traverse the easterly side of First avenue, between East 60th and East 61st streets, as there is no retail use south of East 61st street serving this neighborhood; that the hazard to pedestrian traffic will not be substantially increased by reason of the proposed driveway use, as there already exists on the easterly side of 1st avenue between the same intersecting streets, two driveways, one of which serves a storage warehouse adjoining the premises in question on the south, and the other which serves a gasoline station located at the northeast corner of East 60th street and First avenue; that if the owner is deprived of the use of the driveway as proposed, accessory to the existing use of the premises for the sale and display of new and used cars and the repairs and maintenance necessarily incident to the business, he will suffer an undue hardship within the meaning of the provisions of the zoning resolution; that to permit the proposed accessory use constitutes an extension of the existing use now conforming in the unrestricted district and therefore is within the purview of the powers granted to the Board under section 7c of the zoning resolution; that the granting of this application cannot be considered as an entering wedge for a new non-conforming use in a business use district, for the following reasons:

The new car showroom exists and the driveway exists as an accessory thereto; The small amount of traffic over this driveway in connection with the sales and display of used cars and the repair of new and used cars is primarily an extension of the showroom use, as it is ordinarily conducted in the trade at many locations throughout the city; that the gasoline station located at the Northeast corner of East 60th street and First avenue and the garage and gasoline station located at the southeast corner of East 62nd street and First avenue have already determined the character of First avenue; that the existing use on the corner of East 61st street and First avenue will enhance the value of neighboring property and it is within contemplation that in the future First avenue may be devoted to like and similar uses at this point and become a new and used car sales area; it is therefore requested that in view of the powers granted to the Board under section 7c of the zoning resolution, and the fact that the proposed use will not be detrimental to the area, and that the hazard to pedestrian traffic is negligible, that the Board grant this application as proposed; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution; and

WHEREAS, it appears that an opening has previously existed for the purpose of entrance from First avenue to the portion of the premises in the rear of the unrestricted district.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7c thereof, to permit the continuation of the driveway as indicated on plans filed with this application marked "Received July 26, 1944", as access to the garage at the rear under the same ownership and located within the unrestricted district, *on condition* that such driveway shall be used solely for motor vehicle entrance and exit purposes and not for any other use or for the storage of motor vehicles; that an iron gate shall be maintained at the First avenue building line and the gate shall be kept open only during working hours; that the proposed openings to the garage from such entrance shall be in conformity with the requirements of the Building Code therefor; that the existing fire escape from the roof shall not be obstructed and clear access to the street shall be maintained at all times during working hours; that all permits shall be obtained and all work completed within two (2) months from the date of this resolution.

628-44-BZ

APPLICANT—Anthony M. De Rose, for Paladino Bros. Holding Corp., owner.

SUBJECT—Application reopened January 23, 1945 (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the change of occupancy from a garage for more than five motor vehicles to a storage building for cosmetic bottles.

PREMISES AFFECTED—437-445 East 120th street, north side, 100 ft. west of Pleasant avenue (Block 1808, Lot 19), Borough of Manhattan.

APPEARANCES—

For Applicant: Anthony M. De Rose, Irving J. W. Marx, Frank Paladino and Arthur J. McCann.

For Opposition: Frank Iaquinto, Louis A. Cioffi and Eleanor A. Freaney.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustav Goldman, Board of Education.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (628-44-BZ)

WHEREAS, this application under section 7e of the zoning resolution, to permit in a residence use district, for a term of two years, the change of occupancy from a garage for more than five motor vehicles to a factory for manufacturing of paper boxes, affecting premises 437-445 East 120th street, north side, 100 ft. west of Pleasant avenue (Block 1808, Lot 19), Borough of Manhattan, was denied by the Board on December 19, 1944; and

WHEREAS, the applicant requested a reopening and reconsideration of the application, based on a new proposal, namely, the change of occupancy from a garage for more than five motor vehicles to a storage building for cosmetic bottles; and

WHEREAS, this case was reopened by vote of the Board on January 23, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals at its regular meeting, February 20, 1945, after due notice by publication in its Bulletin; and

WHEREAS, the use district maps accompanying the zoning resolution show that First avenue is in a business use, B area and Class 1½ height district and that East 120th street and Pleasant avenue are in a residence use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated January 15, 1945, re Alt. Applic. 1143-43, reads:

> "Obj. 2. Since building is in a residence district, proposed change of use from storage garage to a warehouse for storage of cosmetic bottles, is contrary to Subdiv. 3 Art. II Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 100 ft. frontage by 100 ft. 11 in. in depth, on which is located a one and two-story, Class 3 construction, garage for more than five motor vehicles, 100 ft. by 100 ft. 11 in. in area on the 1st story and an office 18 ft. 4 in. by 25 ft. 8 in. above; that it is proposed to change the occupancy and use the building for the storage of cosmetic bottles; and

WHEREAS, the applicant contends that the premises consist of a one-story storage garage for more than five motor vehicles and a small office at second story; that the building has a frontage of 100 ft. and a depth of 100 ft. 11 in. and is equipped with a standpipe system; that it was erected in 1920 by the present owners, when the district was zoned unrestricted; that the property has been continuously in the same ownership and during said period, no change has been made; that the proposed change is requested under Section 7-e, to permit the use of premises for a period of two years as a warehouse for the storage of cosmetic bottles by the Roux Distributing Company of 1841 Park avenue, New York; that no alterations are proposed to the structure; that the owners are reluctant to lease the building until an amended certificate is issued, as they wish to preserve the legality of the garage use during such temporary period, without prejudice to their rights to a storage garage for more than five cars; that the premises are now devoted to a non-conforming use; that there are other non-conforming uses in the affected area; that the temporary proposed use will safeguard the character of the district, as it is not a greater hazard or nuisance than the present use; that the present character of premises will remain unchanged during the temporary proposed use; that the present labor conditions are a serious handicap to the operation of this garage during the war period; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision e, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7e thereof, for a

term of two (2) years from the date of this resolution, to permit the building to be occupied as proposed, as a storage place for empty bottles in cartons as received from the manufacturer by the tenant, the Roux Distributing Company, located at 1841 Park avenue, New York City, *on condition* that the building shall not be increased in height or area; that all loading and unloading shall be done within the building; that if necessary, the existing door openings to East 120th street shall be enlarged; that no manufacturing shall be permitted on the premises; that no other use shall exist on the premises other than as herein permitted, except that the existing mezzanine office may be retained by the owner; that no signs shall be erected on the building; that the existing gasoline storage tank shall be sealed to the satisfaction of the fire commissioner; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that upon the termination of the two (2) year permission as herein granted, the garage use, as formerly lawfully permitted, may be resumed; that all permits shall be obtained and all work completed within two (2) months from the date of this resolution.

679-44-BZ

APPLICANT—Henry C. Brucker, for Julia Haeberle, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in an F area district, the maintenance of a brick stoop and terrace 8 feet instead of 15 feet back from the building line.

PREMISES AFFECTED—109-40 205th place, west side, 93 ft. north of Hollis avenue (Block 10911, Lot 24), Hollis, Borough of Queens.

APPEARANCES—

For Applicant: Otto M. Gabler, Julia Haeberle and Mrs. Sarnosky.

For Opposition: None.

For Administration: Fred Dahlem and J. Greenbaum, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (679-44-BZ)

WHEREAS, Henry C. Brucker, for Julia Haeberle, owner, filed November 28, 1944, an application under section 21 of the zoning resolution, to permit in an F area district, the maintenance of a brick stoop and terrace 8 ft. instead of 15 ft. back from the building line, affecting premises 109-40 205th Place, west side, 93 ft. north of Hollis avenue (Block 10911, Lot 24), Hollis, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, February 20, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that 205th place and 205th street are in a F and D area, residence and business use, class 1 height district, and Hollis avenue is in a business use, D area and class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated November 27, 1944 re B. N. Applic. 3340-40, reads:

"1. The erection of a brick stoop and terrace into the required 15 ft. front yard is contrary to section 16a of the Building Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 35 ft. frontage by 100 ft. in depth, on which is located a one family, class 4 constructed building, 20 ft. by 46 ft. in area on the 1st story and 20 ft. by 38 ft. in area above and that it is proposed to maintain a brick stoop and terrace erected in the front setback space; and

WHEREAS, the applicant contends that this is an application to maintain the existing brick open terrace on the front of the premises as shown on plans filed with this application; that the brick terrace was built in or about 1940, replacing an inclined sodded terrace; that it extends into the 15 ft. setback (as required in this district area), approximately 7 ft. and is built of face brick with open face brick balusters and face brick coping; that ornamental concrete flower boxes are set on this coping which provides a beautiful setting to the front, as shown on photographs filed with this application; that inasmuch as no roof or any structural uprights have been provided, this is nothing more than an open platform similar to any cement or brick sidewalk and is not a building or structure as classified under the Building Code; that the premises being on the westerly side of 205th place 93 ft. north of Hollis avenue, extend 7 ft. into a business zone; that all of the applicant's neighbors on the entire block front have consented in writing to the maintenance of the structure, which consents are on record with the Department of Housing and Buildings; that the applicant respectfully requests approval of the application in view of the above facts; and

WHEREAS, it appears from the records of the Department of Housing and Buildings, that an B.N. application 3340 of 1940 was filed April 30, 1940 for approval of the masonry stoop and terrace and, while objected to by the Examiner on May 10, 1940, was approved on August 8, 1941 and stamped Void (no date recorded) and that Violation 3 was issued January 4, 1944 stating that B.N. 3340 of 1940 was not approved; and

WHEREAS, the work was apparently constructed while the approval was outstanding; and

WHEREAS, the Board deemed that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution and was, therefore, entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 21 thereof, to permit the continuation of the brick stoop and terrace as indicated on plans filed with this application marked "Received November 28, 1944," *on condition* that such terrace shall not at any time be roofed over, except for a temporary awning supported on piping as indicated on photographs filed with this application; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

705-44-BZ

APPLICANT—Ellen Roffler, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, B area district, the erection of a one-story building covering more than 65% of the area of the lot and to be occupied for office and storage building material.

PREMISES AFFECTED—162-164 West 64th street, south side, 171 ft. 5 in. east of Amsterdam avenue (Block 1135, Lots 57 and 157), Borough of Manhattan.

APPEARANCES—

For Applicant: Leroy Coventry and A. P. Kramer.

For Opposition: H. A. Arne and Stefanos Demascus.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Savage 1

Negative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn 3

THE RESOLUTION (705-44-BZ)

WHEREAS, Ellen Roffler, owner, filed December 4, 1944, an application under section 21 of the zoning resolution, to per-

mit in a residence use, B area district, the erection of a one-story building covering more than 65% of the area of the lot, to be occupied for an office and storage of building materials; affecting premises 162-164 West 64th street, south side, 171 ft. 5 in. east of Amsterdam avenue (Block 1135, Lots 57 and 157), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, February 20, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Amsterdam avenue is in a residence use, B area and 1½ times height district and that West 63rd, West 64th and West 65th streets are in a residence use, B area and 1½ times height district; and

WHEREAS, the decision of the borough superintendent, dated November 10, 1944, superseded by decision dated December 14, 1944, re N.B. App. 210-44, reads:

"1. The erection of a business building in a residence district is not permitted by Section 3 of the Zoning Resolution.

2. In a B area district, for an interior lot no non-residential building in a residence district may occupy more than 65 percent of the lot area."

and

WHEREAS, the applicant states the premises consist of a plot 28 7/12 ft. frontage by 110 5/12 ft. in depth, now vacant, on which it is proposed to erect a one-story, Class 3 constructed building, 28 ft. 7 in. by 90 ft. in area, to be occupied for storage of building material and an office; and

WHEREAS, the applicant contends that Bromley's maps of Manhattan showed the subject premises as being in a business area and an inspection of the street disclosed an eleven story loft building at 109-123 West 64th street, a 4-story service building at 167 West 64th street, a 4-story commerce transportation building at 155 West 64th street and numerous stores which had been opened in the old private houses; that, consequently it never occurred to him that the street had been changed to a residential district; that as the property is only 28 ft. by 100 ft., it would be impractical to attempt to build a flat house, but the main factor against residential use is that the lot adjoins an Edison power house and the constant hum and vibration is such that no one could use the plot for residential use; that in the owner's estimation, the property has only one use, which is commercial; that to limit the use of this lot to residential purposes creates a hardship on the applicant, especially in view of the fact the neighboring owners on both sides of the street use their property commercially; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant submitted a revised proposal to occupy the building as proposed for two tenants, a barber and a restaurant; and

WHEREAS, the Board deemed that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution and is therefore not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent, dated November 10, 1944, superseded by decision dated December 14, 1944 on N. B. Applic. 210-44 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

APPEALS FROM ADMINISTRATIVE DECISIONS

644-44-A

APPLICANT—Ferdinand Savignano, for Gussie Schwartz, owner (A. A. Woolstock Company, lessee).

SUBJECT—Appeal from a decision re an order of the fire commissioner (reopened February 14, 1945, previously dismissed for lack of prosecution).

PREMISES AFFECTED—237 Mercer street, west side, 100 ft. south of West 3rd street (Block 533, Lot 20), Borough of Manhattan.

APPEARANCES—

For Applicant: None.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Laid over to February 27, 1945 at 10 A. M. on written request of applicant.

16-45-A

APPLICANT—Halsey Drug Co., Inc., lessee, for Taffenclark Realty Co., owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—325-341 Classon avenue, east side, 40 ft. south of DeKalb avenue (5th floor); (Block 1938, Lot 7), Borough of Brooklyn.

APPEARANCES—

For Applicant: Harold Marcus.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (16-45-A)

WHEREAS, Halsey Drug Co., Inc., lessee, for Taffenclark Realty Co., owner, filed January 11, 1945 an appeal from an order of the fire commissioner, affecting premises 325-341 Classon avenue, east side, 40 ft. south of DeKalb avenue (5th floor); (Block 1938, Lot 7), Borough of Brooklyn; and

WHEREAS, Order 98410-LC issued by the fire commissioner, December 13, 1944, reads:

"1. You are hereby notified that your application for the storage of drugs and chemicals and the operation of wholesale drug store on the above premises is denied.

2. Discontinue the maintenance of a wholesale drug house or drug and chemical supply house in any building which is occupied as a work shop or factory and which is not constructed of fire resisting materials throughout. C19-136, Administrative Code."

and

WHEREAS, the applicant states that the building is 5 stories (75 ft.) in height, 110 ft. by 50 ft. in area, of class 3 construction, erected in 1901, located in an unrestricted use, B area, class 1½ height district and used and occupied since November, 1943 as follows: 1st floor—manufacturing fibre carton fillers—8 persons; 2nd floor—manufacturing coats and machine shop—50 persons; 3rd floor—manufacturing coats—80 persons; 4th floor—machine shop—12 persons; 5th floor—drug packers—11 persons; that the building is equipped with a two source sprinkler system, a standpipe system, an interior fire alarm system, but fire drills are not maintained; that there is one interior stairs leading from the roof bulkhead to the street; that the front stairs are 48 in. in width, of wood construction, with brick enclosure, equipped with metal self-closing doors and the rear stairs are 36 in. in width, of iron construction, enclosed in brick partitions, equipped with metal self-closing doors; that there is also a fire escape at the rear, extending to the roof by stair and to the yard by stair; that the windows and doors on the course of the fire escape are fireproof and self-closing; and

WHEREAS, certificate of occupancy 2194, issued August 24, 1921, permits the use of the building throughout as a factory; and

WHEREAS, the applicant contends that it has occupied the premises for the past 15 years and has never been requested to make any changes or improvements in the premises; that although it comes under the classification of a wholesale drug house, it does not have 5% of the quantity of combustible merchandise carried by a wholesale drug house; that 90% of the items carried are non-combustible materials; that the so-called combustible materials handled, come in tightly sealed drums or containers and are repacked into

sealed containers of smaller sizes; that in view of the fact that it is impossible to obtain another loft at the present time, it is requested that the Board grant permission for occupancy of the premises; and

WHEREAS, an examination of Fire Department folder No. 9693.13, indicates that the following materials were applied for: 25 drums of mineral oil; 5 drums isopropl alcohol; 25 lbs. essential oils; 50 lbs. hydrogen peroxide, 15% volume, 200 lbs. hydrogen peroxide—10% volume; 100 lbs. sulphur; 50 gallons of glycerine; 1 barrel of denatured alcohol; 1 carboy of acetic acid; 1 drum kerosene oil; and

WHEREAS, the report of the combustible inspector states that the building is of mill construction, approximately 50 ft. by 150 ft. in area; that all of the materials are stored in the original packages, drums and barrels and distributed in various parts of the open floor and used in the preparation of rubbing alcohol, shampoo, Bay rum, castor oil, mouth wash and Witch Hazel; that there is a laboratory separated from the remainder of the floor area by means of board partitions; that there are two mixing tanks in this laboratory used in the preparation of Burow's solution, Rubbarb and Soda, Calamine solution, and other preparations; that the kettles used in mixing these solutions are equipped with steam lines for heating; that there are no open flames in the laboratory and there is an electric bottling machine equipped with vaporproof globes and switches.

Resolved, that order 98410-LC of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, and that the premises under appeal shall be maintained to the satisfaction of the fire commissioner; that the sprinkler, standpipe and interior fire alarm systems shall be maintained to the satisfaction of the fire commissioner.

24-45-A

APPLICANT—Samuel Rosenblum, for Chanlan Corporation, owner (Lite Manufacturing Co., lessee).

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—101-115 West 21st street, 675-691 6th avenue, northwest corner and 102-114 West 22nd street (2nd floor); (Block 797, Lots 33, 34, 35, 37, 39, 40, 43, 44, 45, 47 and 52), Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum and Joshua Sprayregen.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (24-45-A)

WHEREAS, Samuel Rosenblum, for Chanlan Corporation, owner (Lite Manufacturing Company, lessee), filed January 15, 1945, an appeal from an order of the fire commissioner, affecting premises 101-115 West 21st street, 675-691 6th avenue, northwest corner, and 102-114 West 22nd street (2nd floor), (Block 797, Lots 33, 34, 35, 37, 39, 40, 43, 44, 45, 47, and 52), Borough of Manhattan; and

WHEREAS, order 40013-LC, issued by the fire commissioner, December 16, 1944, reads:

"With reference to your application dated November 7th, 1944 for a permit to store ammunition and fireworks, (flares) at the above location, I regret to inform you that this department is without power to grant such a permit for the reason:

Section C19-38.0-D-5-6, Article 5, New York City Administrative Code prohibits the issuance of permit to store small arms ammunition for any premises where materials of a highly inflammable nature are stored or kept for sale, or where fireworks are stored. Sec. C19-41.0-C-6, Article 6, Administrative Code prohibits the issuance of permit to store fireworks where materials of a highly inflammable nature are stored.

YOU ARE THEREFORE, HEREBY, ADVISED TO

(1) Discontinue the storage of small arms ammunition in excess of two hundred cartridges on these premises. Section C19-38-0-A, Article 5, Administrative Code.

(2) Discontinue the storage of fireworks (flares) on these premises. Sec. C19-41.0-B, Article 6, Administrative Code."

and

WHEREAS, the applicant states that the building is 6 stories (100 ft.) in height, 197 ft. by 200 ft. in area, of class 1 construction, erected in 1899, formerly occupied as the McNeil-Adams Department Store, located in an unrestricted use, B area class 2 height district, and the 2nd floor occupancy commenced in 1942; that the building is at present used and occupied as follows: cellar—storage, toys, infants' wear and liquor—3 persons; 1st floor—warehouse, furniture, shipping, etc.—19 persons; 2nd floor—manufacturing airplane textiles, apparel, etc.—300 persons; 3rd floor—manufacturing of apparel—200 persons; 4th floor—manufacturing airplane textiles, apparel, etc.—140 persons; 5th floor—storage of furniture—3 persons; 6th floor—storage, houseware and rugs—14 persons; that no change in use or occupancy is proposed; that the building is equipped with a two source sprinkler system, a standpipe system and four interior fireproof stairs from the roof to the street; and

WHEREAS, the applicant requests the Board to permit the storage of small arms, ammunition and flares on the second floor which is occupied by contractors, for the manufacture of airplane vests, colored cloth targets and other paraphernalia for the U. S. government; that the cartridges are supplied by the government and are 45 calibre, enclosed in clips and received in sealed boxes containing 1440 cartridges to the box; that none of the material is exposed, but the lessee has to place two of these clips or about 20 cartridges in each airplane vest and similarly two flares in each airplane vest; that the flares are furnished by the government and are about the equivalent of a railroad fuse; that the materials in question as furnished by the government are kept in a separate vault like room protected by fireproof door, and are all in finished containers; that there is no contact between this material and anything of a highly inflammable nature; that the total quantity on hand is about 100 boxes of cartridges and about 5200 flares; that the building faces on three street fronts; that the sprinkler system is supplied by five pressure tanks and two gravity tanks with automatic water flow alarm; that inasmuch as the building is amply protected, that the material is kept in the original containers in a separate room, it is requested that permission be granted to continue this operation.

Resolved, that order 40013-LC of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to objections 1 and 2, *on condition* that such storage of cartridges and flares shall be as proposed; that this variance shall continue only during the term of the present war emergency; that the sprinkler and standpipe systems shall be maintained to the satisfaction of the fire commissioner and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

MATERIAL SUBMITTED FOR APPROVAL

468-44-SM

APPLICANT—M. A. Tarshis, for The B. T. Company, owner.

SUBJECT—Ormax Vacuum Breaker, Model No. 3, approval of.

APPEARANCES—

For Applicant: M. A. Tarshis.

ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (468-44-SM)

WHEREAS, M. A. Tarshis, for the B. T. Company, owner, filed on August 4, 1944, an application with the Board of Standards and Appeals for approval of the material known as the Ormax Vacuum Breaker, Model No. 3; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

February 6, 1945.

Re: Cal. 468-44-SM

Subject: Ormax Vacuum Breaker, Model #3, approval of.

The B-T Company, of New York City, filed an application with the Board of Standards and Appeals for approval of the Ormax Vacuum Breaker, Model #3, under the requirements of C26-178.0b for use under the provisions of C26-1277.0h of the Administrative Building Code and the Rules Relative to Submerged Inlets and Protective Methods to be Applied to Prevent Contamination of Water Supply.

Description

The vacuum breaker is designed for protection against siphonic action and contamination of water supply from waterclosets, urinals, and similar apparatus controlled by flush valves. The unit (Fig. 1) consists of a metal casing with airports, a combination metal coupling and hood and an internal rubber valve. The casings of the units are provided with three seating services designed on radii, to afford seating at the lowest point of contact on the first introduction of water into the pipe under gravity flow, and successively seating against an internal annular seat in the casing between the lower seat and the airports, and then against the lower end of the inner tube just below the elevation of the airports as the internal hydrostatic pressure increases.

The rubber member is designed with decreasing thickness from the upper section to the lower section to afford greater flexibility at the lower section for quick seating, and to afford increased tensile strength at the point where it seats against the airway passage to the airports. The lower section of the rubber member is spherical with reinforced slits which open downward and outward under flow conditions and return to normal position with cessation of flow.

When negative pressure is obtained in the supply pipe, creating a potential hazard of siphonage of contaminated water or fluid, the siphonic force contracts the rubber member inwardly away from the side wall of the casing, thus opening the air passageway from the airports to permit instantaneous drop of fluid below the vacuum breaker. Under siphon conditions the lower section of the rubber member, being in a closed position with reinforced slits, prevents the siphoning of any fluid below this point, and the air passageway created in the unit by the contraction of the rubber member affords sufficient atmospheric relief to relieve any slight leakage which may occur in the slitted section of the rubber member.

Tests

The Ormax Vacuum Breaker, Model #3, was tested at the vacuum bench of the Department of Water Supply, Gas and Electricity, at 32 Vanderwater Street on Jan. 30, 1945 in the presence of the Committee on Tests

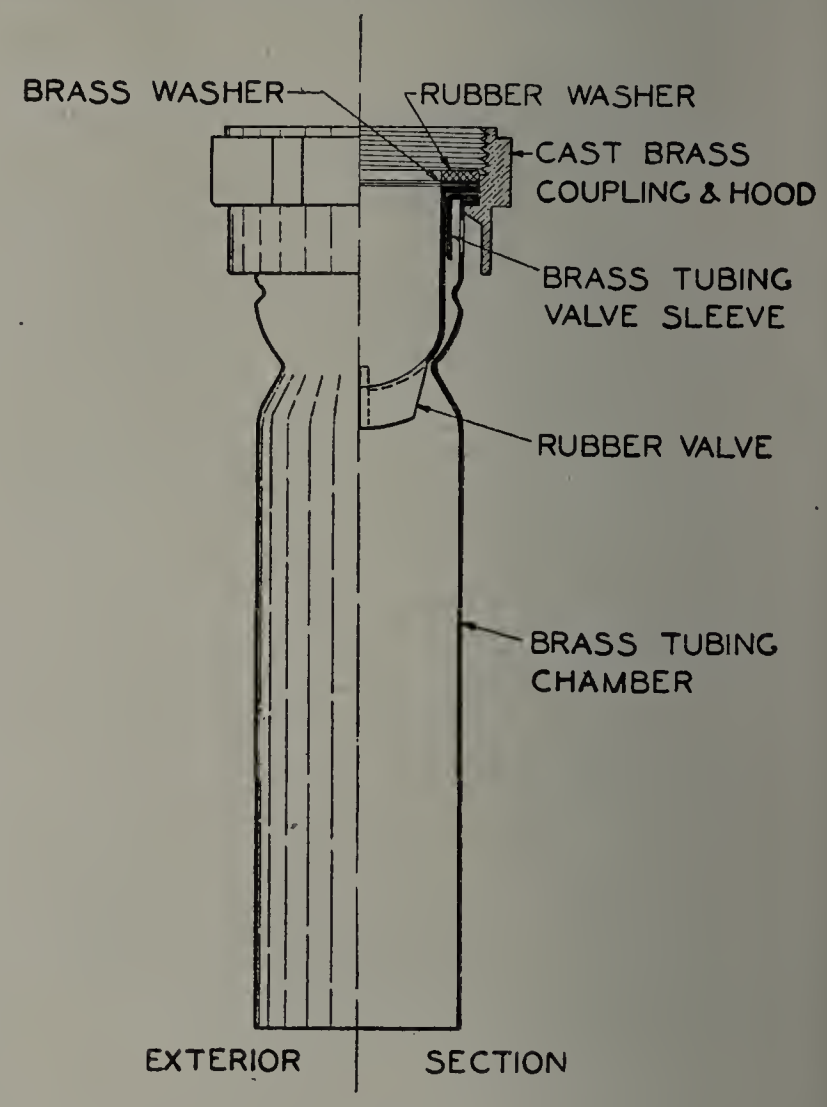

FIG. 1

of the Board of Standards and Appeals, the representatives of the Department of Water Supply, Gas and Electricity, the Department of Health, the Department of Hospitals and representatives of the manufacturer.

The unit was subjected to a 29½" Hg. vacuum with a water closet bowl filled to overflow with colored water simulating contamination. Under the vacuum of 29½" no rise of contaminated water was observed in the connection to the bowl. The unit was also subjected to a sustained and varying vacuum from 5" to 29½" Hg. vacuum for a period of ten minutes without causing any rise of simulated contaminated water from the bowl.

The unit was also subjected to a minimum operating pressure of 2 pounds under which conditions it functioned correctly, and the water closet bowl was successfully flushed of simulated solids with a 6-second flush of 28 pounds static pressure, thus indicating negligible resistance of flow offered by the operating element of this unit.

RECOMMENDATIONS

On the basis of the above tests, the Committee on Tests recommends the approval of the Ormax Vacuum Breaker, Model 3, (Fig. 1) for use in New York City, as set forth in this report, under C26-191.0 for use under the provisions of C26-1277.0h, Administrative Building Code and the Rules Relative to Submerged Inlets of the Board of Standards and Appeals, provided that each vacuum breaker be stamped, labeled or marked, reading as follows:

"Approved by the Board of Standards and Appeals for Use in New York City under Cal. 468-44-SM"

or in lieu thereof, a die or stamp be made (and stamped

on each vacuum breaker) the following inscription within a circle, around the periphery at the top the word "APP'VD": along the bottom, "B.S. & A.": in the center two lines, upper line, reading "N.Y.C.", lower line reading, "Cal. 468-44-SM."

(Sgd.) BERNARD A. SAVAGE
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Commissioner,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Ormax Vacuum Breaker, Model No. 3, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 11:55 A. M.

Joseph J. Doyle, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, FEBRUARY 20, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

277-44-A

APPLICANT—John C. Burt, for Pearl Street Realty Corporation, owner.

SUBJECT—Application reopened and restored to Calendar September 19, 1944—re Appeal from a decision of the borough superintendent (previously withdrawn).

PREMISES AFFECTED—546 Pearl street, north side, 146 ft. 3 in. west of Elm street (Block 157, Lot 27), Borough of Manhattan.

APPEARANCES—
For Applicant: John C. Burt.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (277-44-A)

WHEREAS, John C. Burt, for Pearl Street Restaurant, Incorporated, lessee, Pearl Street Corporation, owner, filed May 9, 1944, an appeal from a decision of the borough superintendent, affecting premises 546 Pearl street, north side, 146 ft. 3 in. west of Elm street (Block 157, Lot 27), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated May 4, 1944, on Misc. Applic. 368-44, reads:

"2. Repeat Objection 1 of April 19, 1944, which reads: Neither the 1st nor the 2nd floors, each with an occupancy in excess of 75 persons has two exits remote from each other, leading to a street. The exits proposed are deemed not satisfactory by the District Inspector."

and

WHEREAS, the applicant states the building is five stories (50 ft.) in height; 24 ft. by 95 ft. in area; of Class 3 construction erected 1890; located in an unrestricted use, B area district and used and occupied as follows: cellar, toilets, kitchen and storage, 10 persons, and dining room, 36 persons; first floor, dining room, bar and kitchen, 100 persons; 2nd floor, dining room, 126 persons; third, 4th and 5th floors, vacant; that no change in use or occupancy is proposed; that the building was erected prior to the establishment of the present laws; that the first record in the Building Department is an Alteration filed in 1891; that the first floor of this building was occupied by the present tenant as a restaurant in January, 1926, and the entire cellar, 1st and 2nd floor converted to a restaurant under Alt. 3431-1937, which was approved as complying with rules and regulations then in effect; that under such approved plans, the permissible occupancy would be calculated by two methods. Method No. 1. Section 6.1.2.3., Par. 1a, with floor area calculated as per C26-73.0, second floor, 1,742 sq. ft. net allowable occupancy 174 persons. First floor 1,172 sq. ft. net allowable occupancy 117 persons.

Method 2. Stair capacity as per Sec. 6.1.10, two 4 ft. wide stairs allowable occupancy 450 persons. For less than 300 persons, the Code made no provision for the second stairs; that under Alt. Applic. 3431-1937, the only feasible means of providing two exits from all parts of this restaurant, which would furnish direct egress to street remote from each other were provided; that the present proposal calls for moving the present door from the center of the building and creating a door at each side of the premises; that any attempt by the Department of Housing and Buildings to repudiate approved plans by invocation of the reported new legislation, especially rules which would require the closing of a large number of existing restaurants located on interior lots by requiring that the two means of egress should not pass through any service passage or any second dining room, but must open from the dining room directly to the street or to a fireproof enclosed fire passage used for no other purpose, should not be countenanced; and

WHEREAS, the applicant further contends that the cellar, first floor and second floor dining rooms each have one stair ending in egress to the street; that the cellar, first floor and second floor dining rooms are interconnected, with stairs 4 ft. in width and a service passage that crosses the first floor serving pantry; and

WHEREAS, this appeal was withdrawn July 11, 1944, without prejudice to restoration after the applicant obtained a new decision of the borough superintendent; and

WHEREAS, the applicant has filed an amendment with the borough superintendent dated July 14, 1944 reading as follows:

"Reconsideration is again respectfully requested, on the Departmental Objections, dated May 4th, 1944, as a repeat from April 19, 1944, that neither the first nor the 2nd floors, each with an occupancy of more than 75 persons—would have two satisfactory exits.

First: The Department having approved Alteration Application No 3431-37, covering this restaurant; the Department should honor said approved plans. Under the Rules then in effect, capacity of restaurants were calculated on two basis:

(A) 6.1.2.3 Administrative Code.
2nd floor. 1,742 sq. ft. net floor area. Allowable 174 persons. Desired: 126.
1st floor. 1,172 sq. ft. net floor area. Allowable 117 persons. Desired: 100.

(B) 6.1.10 Administrative Code. (Stair Capacity) two stairs—4 feet wide each. Allowable 450 persons per floor. Desired 226—for two floors.

Second: Architect, thinking of 6.1.5. Adm. Code (C26-276.0) designed the only practical improvement in existing exits; from cellar, first and second floor dining rooms; combined. Each being open at all time, during business hours on any one of them. The two casement windows, on first floor, front of building, is to be turned into exit doors. Altering Stair No. 1 on plans and cashier's desk, first floor; that will provide two separate ways (some three separate ways) to reach

exit foyer on first floor without going through the self same dining room—twice. Passageways, 3 ft. wide and unobstructed—are provided for in current plans.

Third: This Block has no rear yard with access to street. The buildings on either side are one lower and the other higher; hence safe access to roofs would be impractical. That No. 104 Worth Street; the five story loft building, directly back of this building object to giving an exit to this structure, as they have only one interior stair and a Fire Escape from the Third Story—set-back to their roof. Should that building have the usual type of Fire Escape, running from its lowest story to the roof, their balcony would touch the joint lot line, and this building could erect balconies on the first and second floors—providing exits in the rear. But at the present, it is impractical.

Hence, Architect, respectfully requests, the suggested method—shown on plans, be accepted."

and

WHEREAS, this amendment was disapproved August 14, 1944 by the borough superintendent; and

WHEREAS, the applicant now contends that the appeal was withdrawn to file a request for reconsideration and such request was filed and disapproved August 14, 1944; that the restaurant business was built up in reliance on approved Alt. Applic. 3431-37; that it would be a shame to destroy this building and public confidence in the value of an approved plan, by conferring a retroactive power on Local Law 29, permitting the Building Department to repudiate previously approved plans and to make new demands that could not be complied with without destroying the usefulness of the property; and

WHEREAS, this appeal was restored to the calendar September 19, 1944, to permit consideration on the basis of the new decision of the borough superintendent dated August 14, 1944 in disapproving the amendment filed by the applicant July 14, 1944; and

WHEREAS, after inspection, the Board deemed that the alterations proposed are inadequate to correct the unsafe condition found to exist.

Resolved, that the decision of the borough superintendent acting on Misc. Applic. 368-44, objection 2, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

693-44-A

APPLICANT—Henry G. Harrington, for 735-741 65th Street Realty Corporation, owner (Danish Athletic Club, Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent (reopened and restored to calendar January 23, 1945; previously withdrawn).

PREMISES AFFECTED—735-743 65th street, north side, 280 ft. east of Seventh avenue (Block 5821, Lot 61), Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry G. Harrington, Svend Fast and C. Vallertis.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (693-44-A)

WHEREAS, Henry G. Harrington, for 735-741 65th Street Realty Corporation owner (Danish Athletic Club, Inc., lessee), filed November 30, 1944 an appeal from a decision of the borough superintendent, affecting premises 735-743 65th street, north side, 280 ft. east of Seventh avenue (Block 5821, Lot 61), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated November 21, 1944 on Alt. Applic. 3146-44, reads:

"1. Changing occupancy from business to public use in a frame building is contrary to Sections 2.1.3.5 and 4.2.1 of Bldg. Code."

and

WHEREAS, the applicant states that the building is 1 story (15 ft.) in height, 19 ft. and 30 ft. front by 100 ft. in depth, of class 4 construction, erected in 1933, located in an unrestricted use, A area, class 1 height district, and used and occupied as follows: cellar—ordinary and boiler room—no persons; 1st floor—offices, storage rooms, private garage and 1 family dwelling; proposed to be used and occupied: cellar—ordinary and boiler room—no persons; 1st floor—club, bar and grill and gymnasium—300 persons; and

WHEREAS, Certificate of Occupancy 1974, issued May 14, 1921, under Permit 9083-20, permits the use of the premises 733-743 65th street as follows: cellar—boiler room; 1st floor—office, storage rooms, private garage and 1 family; and

WHEREAS, the applicant contends that the building occupies only 88% of the lot area and has a front yard of 1740 sq. ft. in area, fronting on the street; that due to the U shape of the building, it is possible to provide adequate exits from all parts of the building, directly to the street or to the open yard fronting on the street; that the exits which open on the street or yard total 276 in. in width and can accommodate many times the proposed number of occupants; that no portion of the premises will be more than 50 ft. from an exit; that all exterior walls are solidly filled between studs with brick and surfaced on the inside with approved plaster boards; that there is only a small cellar under the westerly wing on the street front, for boiler room use; that the type of occupancy proposed insures that the safety of the occupants is well provided for; that the proposed use and occupancy will be less hazardous than the present legal occupancy; and

WHEREAS, Application 11829-20, upon which permit 9083 and Certificate of Occupancy 1974A were issued, indicates that it was proposed to alter two buildings on the lot; that these buildings were occupied as stable, hay, feed and harness rooms, office and coal storage rooms and boiler room in conjunction with the milk station and then proposed to be occupied as follows: 1st floor—office and storage rooms, private garage and one family; total-boiler room, office and storage rooms, private garage and 1 family; that the buildings to be altered were 18 ft. 7 in. and 31 ft. front, 52 ft. 4 in. and 58 ft. 6 in. in depth, of frame construction; that it was stated on the application, that the stable building had been burned and it was intended to remove all charred and defective wood and replace same, the present wood beams throughout to be scraped and cleaned and reinforced; all stalls, wood planking and boarding on walls to be removed; posts, girders to be removed and replaced with new iron beams and iron column; that the front portion of stable building formerly used for hay and feed room to be arranged for 1 family dwelling; that the windows on lot line in new garage to be closed up and brick filled; that it was noted on this application, that the easterly wall of the garage was then brick filled and present stud walls and ceiling of the garage would be covered with ½ in. plaster boards; that an objection was issued on this plan, that the garage was contrary to Section 391 of the Code and this objection waived, with the statement that it would be satisfactory to the Superintendent, if walls of the garage were brick filled and walls and ceilings covered with ½ in. plaster boards; that a note on the plans accompanying this application indicated that the easterly wall of the private garage was brick filled and the southerly wall of the private garage was to be constructed of 6 in. hollow tile blocks, laid in Portland cement mortar; that on this plan, the rear portions are indicated as sheds and open wagon yard; that under Application 24139-24, the premises were shown as 90 ft. front and it was proposed to underpin approved foundation wall of the rear one story extension at a point where the new building was being erected on the 64th street side; that a plan filed with this application indicated that the

portion at the rear, which it was proposed to underpin, was used as a factory and the application indicated that the use of the building was metal factory; that there is no indication anywhere, that the exterior walls other than the easterly wall of the garage portion are brick filled, as now stated by the applicant.

WHEREAS, this appeal was withdrawn December 19, 1944, without prejudice to restoration to the calendar after the applicant submits complete working drawings to the Borough Superintendent and obtains a new decision; and

WHEREAS, this appeal was reopened and restored to the calendar January 23, 1945; and

WHEREAS, the decision of the borough superintendent dated January 12, 1945 on Alt. Applic. 3146-44 reads:

"1. Changing occupancy from business to public use in a frame Bldg. is contrary to Sections 2.1.3.5 and 4.2.1 of Bldg. Code."

and

WHEREAS, the applicant now states that revised plans have been submitted to the borough superintendent, clearly indicating the construction and material of building walls and of the wall of the building adjacent to the building in question; that plans filed with this appeal January 17, 1945, now show all conditions shown on the plan filed with the borough superintendent, with special attention to the following: All exterior lot line walls brick filled at present from concrete foundation wall, up full height of wall; all exterior siding of exterior walls to be covered with metal lath and "P.C." stucco; Kitchen partitions to be of masonry construction and kitchen to have three sprinkler heads connected to domestic water supply; All unplastered ceiling throughout to be fire-retarded with gypsum rock lath, plastered with two coats of gypsum plaster; All doors to kitchen are to be fireproof, self-closing, one hour test; All lot line walls to be lathed on inside with rock lath and then given two coats of gypsum plaster; front wall (exterior) now covered with rigid asbestos shingles, full area.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 3146-44, dated January 12, 1945, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that the exterior frame walls on the lot lines shall be brick-filled throughout; that where masonry walls of adjacent buildings do not occur, the exterior walls of this building shall be wire lath and finished with stucco; that the interior of all walls on the lot line shall be fire-retarded and all interior partitions of fire-retarding construction, except for the accordion partitions shown, which may be of wood; that the room marked "office", to the east, shall be used for a children's playroom; that the boilerroom under the westerly portion shall have a fire-retarded ceiling with no openings to the interior of the building and shall be reached only by a stairway, as shown in the paved yard; that the locker room and hat and coat room shown on the easterly side shall be combined for a hat and coat room, and the corridor partition moved easterly, so as to provide a corridor not less than 8 feet in width; that the doors leading from such corridor to the street shall be double doors, swinging in the direction of exit; that in the wall between the hat and coat room and the gymnasium, a window shall be installed for checking garments; that the exterior of the wall on the 65th street front shall be surfaced with asbestos shingles; that the roof shall be of tar and gravel, meeting the specifications therefor; that no windows or other openings shall be constructed in the interior lot line walls; that the floor throughout shall have a concrete or other approved incombustible surfacing, except over the heater room toward the west; that all steps and other encroachments beyond the building line shall be removed, and a new entrance to the children's playroom on the west side may be constructed from the paved yard; that no windows or other openings shall be constructed in the interior lot line walls; and that in all other respects, the alterations shall be completed substantially as proposed on revised drawing marked "Received January 17, 1945", including sprinkler heads as shown in the kitchen, which may be fed from the domestic water supply line, provided such water line is not less than 1 inch in diameter; and that such portable fire-fighting appliances shall be maintained throughout as the fire commissioner shall direct.

746-44-A

APPLICANT—Sidney Daub, for Central Hanover Bank and Trust Co. and Thomas C. Meeks, trustees for Estate of Lee Kamineer, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—709-715 8th avenue and 300 West 45th street, southwest corner (Block 1035, Lot 36), Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn after discussion.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (746-44-A)

WHEREAS, Sidney Daub, for Estate of Lee Kamineer, owner, filed December 27, 1944, an appeal from a decision of the borough superintendent, affecting premises 709-715 8th avenue and 300 West 45th street, southwest corner (Block 1035, Lot 36), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated December 22, 1944, on amendment to Alt. Applic. 940-44, reads:

"1. Proposed use for meeting rooms classifies building as a public building and should be of fireproof construction as per Sec. 4.2.1 Bldg. Code."

and

WHEREAS, the applicant states that the building is 3 stories (37 ft.) in height, 100 ft. by 100 ft. 5 in. in area, of class 3 construction, erected in 1928, located in a retail use, B area class 2 height district and used and occupied since 1929 as follows: cellar—restaurant and cabaret—298 persons; 1st floor—stores and restaurant—110 persons; 2nd floor—club meeting; 3rd floor—meeting rooms, office and school—340 persons; rooms, school and offices—300 persons; no change in use or occupancy is proposed; and

WHEREAS, Certificate of Occupancy 19250 issued November 7, 1933, classifies the building as fireproof and the occupancy as business and public and permits the building to be used and occupied as follows: cellar—restaurant and cabaret—100 persons; basement—stores—90 persons; 1st floor—office and factory—90 persons; 2nd floor—office and factory—90 persons; 3rd floor—office and factory—90 persons, not more than 25% of floor area of building to be used for manufacturing purposes; and

WHEREAS, Alt. Applic. 940-44 was filed to obtain a revised certificate of occupancy; and

WHEREAS, the applicant contends that it is the owner's desire to obtain a certificate of occupancy to conform with the present use and occupancy of the building; that an examination of the records of the Department of Housing and Buildings discloses that the building is non-fireproof although a number of certificates of occupancy were issued stating that the building was fireproof; that the building was erected under N. B. Applic. 380-28 and Certificate of Occupancy 15164 issued April 18, 1929, stating the building is fireproof; to be occupied for stores, offices, showrooms and factory use; that on August 23, 1929 Certificate of Occupancy 15531 was issued for a fireproof building, to be occupied for business and public use for stores, offices, showrooms and factory with dance hall on the 3rd story; that on September 26, 1930 Certificate of Occupancy 16850 was issued for a fireproof building with business and public

use approving the cellar for a golf course and the 3rd story for dance hall; that in 1931, Certificate of Occupancy 18038 was issued for a fireproof building with business and public use approving the cellar for use as a dance hall; that on November 17, 1933, Certificate of Occupancy 19250 was issued for business and public use, fireproof construction, and changed the occupancy of the cellar to restaurant and cabaret; that the present owners have been under the impression that the building has always been of fireproof construction; that all subdividing partitions in the building are constructed of wood studs, lath and plaster; that the owner is prepared to provide other safeguards and fire protection to render the building safe for the occupancy, such safeguards and fire protection to consist of approved portable fire extinguishers and appliances; that the Board is requested to grant the owner permission to continue the present occupancy, as it would be a great hardship to be required to vacate the public assembly occupancy; and

WHEREAS, after discussion, the applicant requested a withdrawal of the appeal.

Resolved, that the appeal be and it hereby is *withdrawn,* to permit the applicant to file an application to review the plans and specifications as originally filed under N.B. 380-28 and to correct the record as to the building's being fireproof, whereas it is in fact non-fireproof,—and for further examination under the Code as then in effect, without prejudice to this appeal's being reopened for consideration by the Board as to such objections as may be made by the borough superintendent, after the examination of such plans; that this shall also include the correction of Certificate of Occupancy 19250, so as to properly set forth the type of construction and the permitted occupancy.

5-45-A

APPLICANT—William B. Still for Tyson Realty Corporation, owner (Jamaica Radio Television Company, lessee).

SUBJECT—Application for consideration—reopening and restoration to calendar for consideration of new decision of the Borough Superintendent—re Appeal from a decision of the Borough Superintendent, which was withdrawn without prejudice to reconsideration.

PREMISES AFFECTED—148-18 Jamaica avenue, south side, 50 ft. west of 149th street (Block 9996, Lots 5-9), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: William B. Still and Emil Schaeffer.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened, restored to the calendar and granted on condition.

THE VOTE TO REOPEN—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: **0**

THE VOTE TO GRANT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (5-45-A)

WHEREAS, William B. Still, for Tyson Realty Corp., owner (Jamaica Radio Television Company, lessee), filed December 29, 1944, an appeal from a decision of the borough superintendent, affecting premises 148-18 Jamaica avenue, south side, 50 ft. west of 149th street (Block 9996, Lots 5 and 9), Jamaica, Borough of Queens; and

WHEREAS, this appeal was withdrawn on January 30, 1945 and the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, the decision of the borough superintendent dated February 9, 1945, on Alt. Applic. 1397-44, reads:

"2. Thickness of materials must comply with Section 8.6.2.6 B.C.; note ¼" minimum."

and

WHEREAS, the applicant states that the building is 1 story (20 ft.) in height, 91 ft. by 99 ft. in area, of class 3 construction, erected in 1927, located in a business use, A area class 2 height district and used and occupied as follows: cellar—heating plant, storage of radio parts—3 persons; 1st floor—radio television studio, transmission room and store—2 persons, for which no Certificate of Occupancy has been issued; that the building is equipped with a one source sprinkler system and one 2 ft. wide steel stairs with concrete enclosure equipped with metal doors, extending from the cellar to the street; and

WHEREAS, the applicant contends that the Jamaica Radio and Television Company has been licensed by the Federal Communications Commission, to construct and operate a television broadcast station at the premises; that the purpose of this station is to complete and test the system of television communications to be used by the Police Department of the City of New York and to develop and submit a finished model of proposed system of electronic transmission of motion pictures, through the medium of television; that the total weight of antennae to be attached to tower will amount to about 20 lbs. maximum; that the program of research and experimentation proposed will require a maximum of two years time; that when this experiment and research work is completed, it is proposed to dispose of the tower in question and remove the station to a more desirable location and finally to open a regular commercial television station; and

WHEREAS, the applicant has filed with the Board a communication from the manufacturer of the tower, wherein it is contended that the structural members of the tower are cold drawn round tubing of carbon steel S.A.E. 1015; that the thickness of the metal is 14 gauge, but since the section is closed all around, only one surface is exposed to the atmosphere; that the tubing is galvanized inside and outside; that the conditions for the construction of the tower in question are different from the members mentioned in Sec. 8.6.2.6, where structural framework of buildings is dealt with; that this condition cannot be applied to lightweight radio towers, which are mostly built of sheet metal; that the tubing in the tower in question is understressed; that 14 gauge material was used only because the manufacturer has had it in stock; that the wind pressure of 30 lbs. per sq. ft. according to Section 7.3.3.4, is only required for tank towers, stacks and other exposed structures; that for structures over 100 ft. in height, only 20 lbs. per sq. ft. exposed surface are required and this is only from the top of the structure down to the 100 ft. level and below that level wind pressure may be neglected; that the proposed tower is designed for 20 lbs. per sq. ft. wind pressure; that for cylindrical surfaces in antenna towers only 0.67 of the vertical projection is to be considered because of the sliding effect; that the Bureau of Yards and Docks in Standards of Design for Structural Steel, No. 12 Y B, Sept. 1934, page 13, under III, states:

Areas subject to wind:

D—Antennas—0.67 of the vertical projection.

E—Cylindrical surfaces, e.g., Tanks, riser pipes and Chimneys—0.67 of the vertical projection.

and

WHEREAS, the applicant has submitted to the Board, a report of Francis C. Holbrook, Licensed Professional Engineer, New York, No. 11951, dated January 11, 1945, wherein it is stated that the stresses developed with wind loading of 30 lbs. per sq. ft. fall well within the allowable stress for S.A.E. 1015 steel, as specified and that the following changes in design are recommended: 1. a more substantial guy anchor with individual attachments to a 3" x 4" x ⅜" x 36" long angle to distribute the guy pull over a greater area of coping; 2. the bottom plate forming the top section of the supporting grillage should be increased to ½" thickness; 3. Guy cables should be increased from 3/16" to ¼" diameter; 4. that all welding be performed by competent and licensed welders using the electric contact method of welding.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1397-44, Objection 2, as disapproved February 9, 1945, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the proposed mast shall be constructed substantially as indicated on revised plan marked "Received February 14, 1945", as to gauge of metal as indicated thereon, and, for purposes of computation, such gauge shall be figured on the basis of the gauge of the metal less the maximum minimum tolerance; that the manner of splicing to develop the full section shall be to the satisfaction of the borough superintendent; that all metal used shall be hot galvanized including the connections thereto; that in all other respects, the construction, support, anchorage, guys and wind stress shall comply with the requirements of the Building Code therefor, and shall be maintained to the satisfaction of the Borough Superintendent; that this variance shall be for a term of two (2) years from the date of this resolution.

7-45-A

APPLICANT—Sherron Metallic Corp. lessee, for Macata Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1185-1223 Flushing avenue, southwest corner of Harrison place (1st, 2nd and 3rd floors); (Block 3007, Lot 3), Borough of Brooklyn.

APPEARANCES—

For Applicant: James W. Hunter.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Daniel S. Lenihan, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (7-45-A)

STERN— g

WHEREAS, Sherron Metallic Corporation, lessee, for Macata Corporation, owner, filed December 28, 1944, an appeal from a decision of the borough superintendent, affecting premises 1185-1223 Flushing Avenue, southwest corner of Harrison place (1st, 2nd and 3rd floors); (Block 3007, Lot 3), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, acting on B. N. Applic. 1445-44, dated December 11, 1944, reads:

"1. Proposed changes violates Section 272 Labor Law."

and

WHEREAS, the applicant states the building is 3 stories and cellar (44 ft.) in height; 305 ft. by 62 ft. in area; of Class 1 construction; erected 1922; located in an unrestricted use, A area, Class 1½ height district, and used since 1933 as follows: cellar, factory, machine room and sheet metal plant, 4 persons; 1st floor, manufacturing, assembling and welding, 19 persons; 2nd floor, electric wirings and office, 45 persons; 3rd floor, finishing spray booths and ovens, 8 persons; that no change in use or occupancy is proposed; that the building is equipped with a two source sprinkler system, a standpipe system, three 4 ft. wide fireproof stairs from the roof to the street; and

WHEREAS, the applicant contends, that due to the requirement for plant protection, it is requested that the Board grant permission to retain the panic bolts on the fire exits; three on the first floor, one on the 2nd floor and one on the 3rd floor and keep a fourth on the first floor closed at all times, with exit signs removed, as indicated on plans filed with this appeal; that the plant is engaged in the manufacture of war products and guard service is provided 24 hours daily.

WHEREAS, the applicant has received an additional order from the fire commissioner, dated February 16, 1945, #14445-LF, reading:

"1. Remove all articles and wares from stairway enclosure, west side on 1st story as per Factory Exit Rules of Board of Standards and Appeals. (watchman's shanty);

2. Arrange all door (exits) on 1st story so that same can be opened from both sides during working hours. Sec. 272 of the Labor Law."

and

WHEREAS, the applicant states that all panic bolts previously unlawfully installed on doors throughout the building have been removed, and that no panic bolts will be installed, except one leading to Flushing avenue toward the east and two panic bolts on vestibule doors at the north, all on the first story.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the borough superintendent, acting on B.N. Applic. 1445-44, objection 1, *on condition* that all panic bolts throughout the building shall be removed and no new panic bolts installed, except on the door leading to Flushing avenue toward the east and on two doors leading to vestibule and to the outside toward the north, all on the first floor; that such panic bolts shall be of an approved type; that the door leading to the stairway to the west on Flushing avenue and to the street on Flushing avenue, shall comply with the law as to being openable at all times during work hours for ingress and egress as shown on plan filed with this appeal marked "Received November 2, 1944"; that this variance as to panic bolts shall continue only during the term of the present war emergency; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 48-45-A as to barred windows in the cellar and Cal. 197-43-A as to maintenance of open flame.

48-45-A

APPLICANT—Sherron Metallic Corp., lessee, for Macata Corporation, owner.

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—1185-1223 Flushing avenue, southwest corner of Harrison place (Basement): (Block 3007, Lot 3), Borough of Brooklyn.

APPEARANCES—

For Applicant: James W. Hunter.

For Administration: Daniel S. Lenihan, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (48-45-A)

WHEREAS, Sherron Metallic Corporation, lessee, for Macata Corporation, owner, filed February 1, 1945, an appeal from an order of the fire commissioner, affecting premises 1185-1223 Flushing avenue, southwest corner of Harrison place (Basement); (Block 3007, Lot 3), Borough of Brooklyn; and

WHEREAS, Order 13158-LF, issued by the fire commissioner July 14, 1944, and referred to in a decision of the fire commissioner, dated January 22, 1945, reads:

"2. Arrange iron bars on windows in basement, so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for the purposes of egress, Section 272 of Labor Law."

and

WHEREAS, the applicant states the building is three stories and cellar (44 ft.) in height; 305 ft. by 62 ft. in area; of Class 1 construction; erected 1922; located in an unrestricted use, A area, Class 1½ height district, and used since 1933 as follows: cellar, factory, machine room and sheet metal plant, 4 persons; 1st floor, manufacturing, assembling and weld-

ing, 19 persons; 2nd floor, electric wirings and office, 45 persons; 3rd floor, finishing, spray booths and ovens, 8 persons; that no change in use or occupancy is proposed; that building is equipped with a two source sprinkler system, a standpipe system and three 4 ft. wide fireproof stairs from the roof to the street; and

WHEREAS, the applicant contends that 13 windows are affected on the basement story; that egress from the basement may be had by means of two windows equipped with hinged bars and two stairways leading to the 1st floor; that at present there are 4 persons employed in this space; that except for the manufacturing space adjacent to these windows, the basement is used for storage of metal material and parts; that compliance with the order will involve the conversions of 13 windows; that owing to war restrictions on labor and material, difficulty would be experienced in having the work done and the expense involved would be considerable; it is therefore requested that the Board grant permission to maintain the window construction as at present.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in order 13158-LF of the fire commissioner, and referred to in his decision dated January 22, 1945, and that the appeal be and it hereby is *granted,* as to objection 2, *on condition* that no additional bars shall be constructed on any windows, other than as indicated on plans marked "Received February 20, 1945"; that a steel ladder shall be constructed from the cellar floor to the hinged window toward the east opening to Flushing avenue; that such ladder shall be a steel, double-rung ladder reaching from floor to ceiling, close to the window which shall be hinged as proposed, so as to be openable at all times when the factory is in operation; and that all other means of exit from the cellar shall be maintained to permit entrance and egress at all times; and, provided that not more than five persons shall be engaged in factory work at the east end of the cellar.

285-43-A

APPLICANT—Alexander S. Pilot, for Plough Sales Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Appeal from a decision of the fire commissioner, re Packaging of inflammable mixture known as "Mufti-Dry Cleaner" in 2 oz., 6 oz. and 12 oz. glass bottles (capacity of same not in conformity with Admin. Code Specifications) (previously granted on condition for six months.)

APPEARANCES—
For Applicant: Alexander S. Pilot.

ACTION OF BOARD—Appeal reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (285-43-A)

WHEREAS, this appeal from a decision of the fire commissioner, relative to the packaging of inflammable material known as "Mufti-Dry Cleaner" in 2 oz., 6 oz. and 12 oz. glass bottles, was granted by the Board on September 28, 1943, on certain conditions, for a term of six months; and

WHEREAS, the permit was extended on March 31, 1944 and the applicant requested a further exetnsion of the permit; and

WHEREAS, the applicant proposes to use bottles of the Boston round type, as made by the Owens Illinois Glass Company, in lieu of the bottles previously submitted.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted September 28, 1943, so that as amended, this resolution will read:

"*Resolved,* that the decision of the fire commissioner, dated May 28, 1943, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition,* to permit the product to be stored and sold in glass bottles of the Boston round type in 2, 6 and 12 oz. sizes; and that such bottles shall be labeled in accordance with the requirements of the Administrative Code and to the satisfaction of the fire commissioner; that this permit shall be for a term of six months from the date of this *amended* resolution or until the application filed by the Owens Illinois Glass Company for test and approval of such bottles is acted on favorably by the Board; that the bottles shall be fitted with a washer and a cap so as to insure their being tight at all times."

582-44-A

APPLICANT—M. W. Del Gaudio, for Harold J. Bastine and Wilfred S. Bastine, as Trustees, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—45-47 West 27th street, north side, 200 ft. east of 6th avenue (Block 829, Lot 11), Borough of Manhattan.

APPEARANCES—
For Applicant: Matthew W. Del Gaudio.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (582-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 45-47 West 27th street, north side, 200 ft. east of 6th avenue (Block 829, Lot 11), Borough of Manhattan, was granted by the Board on December 5, 1944, on certain conditions; and

WHEREAS, the applicant has requested that his statement filed with this appeal and the resolution adopted by the Board be amended, so as to omit the reference to an interior fire alarm system and fire drills, as it has been ascertained that no interior fire alarm system has been installed and no fire drills are maintained, and that such are not necessary in connection with the present occupancy.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted December 5, 1944, so that as *amended* it shall read:

"* * * WHEREAS, the applicant states the building is 12 stories (150 ft.) in height; 50 ft. by 90 ft. in area; of Class 1 construction; erected 1909; located in a business use, B area, Class 2 height district, and used and occupied since 1909 as follows: cellar, storage and boiler room, 4 persons; 1st floor, store and manufacturing flowers, 70 persons; 2nd to 12th floors, manufacturing dresses, 70 persons each floor; that the building is equipped with an approved two source sprinkler system and a standpipe system; that there is one 35½ in. wide steel stairway from the roof bulkhead directly to the street, enclosed in 4 in. terra cotta block partitions, equipped with metal covered self-closing doors and one fire escape at the rear, extending to the roof by a ladder, which ladder will be replaced by stairs and to the yard by stairs wtih egress from its termination proposed through a passage of fireproof construction through the cellar, with an inside stairway leading therefrom, to an existing fireproof hall and thence to the street; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that this appeal relates to risers and treads of the existing outside stairway at the rear, which now extends from the 12th floor to yard level with egress therefrom through adjoining premises; that a gooseneck ladder is provided from the

top floor to the roof; that to insure egress from the rear outside stairway to the street, it is proposed to extend this stairway to cellar level and to provide a fireproof passage through the cellar with stairway leading to existing hall; that although access to adjoining roofs is not possible, it is proposed to extend the rear stairway to the roof; that a new certificate of occupancy will be requested upon completion of the proposed alterations, as no certificate of occupancy is in existence at the present time; that the Board is requested to accept the existing outside stairs from 1st to 12th floors, as being in substantial compliance with Section 268 of the Labor Law, as any alteration to such stairs would require complete removal and reconstruction, which would be an unnecessary hardship on the owner, and it is also requested that the Board permit the exterior stairs from the yard to the cellar to be constructed with 8 in. rise, 8 in. tread, plus 1 in. nosing and from the top story to the roof with 8 in. rise and 9 in. tread and the new interior stairs from the cellar passage to the west hallways to be constructed with 7¾ in. rise and 9½ in. treads; and

WHEREAS, it was stated at the hearing that the street floor is occupied by a wholesale florist and no work for a factory is carried on.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on Alt. Applic. 435-43 and that the application be and it hereby is *granted,* as to objection 13, *on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the treads on the proposed stair from the first floor to cellar shall be constructed with approved non-slip material; that the sprinkler and standpipe systems shall be maintained to the satisfaction of the fire commissioner.

255-43-A

APPLICANT—Paltrow and Rice, for Anita Stewart, owner; Hyland Nursing Home, lessee.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the acting borough superintendent, previously granted on condition.

APPEARANCES—
For Applicant: Raymond Irrera.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTIONS OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (342-40-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a residence use district and partly in a business use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 42-02 31st avenue, 31-15 42nd street, southeast corner and east side of 42nd street, 97.5 ft. south of 31st avenue (Block 692, Lots 36, 37, 40 and part of 51), Astoria, Borough of Queens, was granted by the Board on February 9, 1943, on certain conditions; and

WHEREAS, on February 29, 1944, time was extended to obtain permits and complete the work; and

WHEREAS, the resolution was amended on March 28, 1944; and

WHEREAS, the applicant requested an extension of the permit,

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on February 9, 1943, as amended on March 28, 1944, only so far as it has reference to the term of the permit, so as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution to permit the premises to be occupied for the parking and storage of more than five motor vehicles, *on condition* * * * that other than as herein *amended,* the conditions of the resolution of February 9, 1943, as amended March 28, 1944, shall be complied with and that a certificate of occupancy shall be obtained (Misc. Applic. 5085-42)."

MATERIALS SUBMITTED FOR APPROVAL

578-39-SM

APPLICANT—Clyde Baird, for Federal Cement Tile Company, present owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Approval of Federal American Cement Tile Co.'s Featherweight Concrete Channel Slabs (for floor and roof construction), previously approved on condition.

APPEARANCES—
For Applicant: George E. Strehan and Clyde H. Baird.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (578-39-SM)

WHEREAS, Clyde H. Baird, for Federal American Cement Tile Company, owner, filed May 5, 1939, an application with the Board of Standards and Appeals, for approval of the material known as Federal-American Cement Tile Co., Featherweight Concreet Channel Slabs (for floor and roof construction); and

WHEREAS, this material was approved by the Board on October 17, 1939, on certain conditions; and

WHEREAS, Clyde Baird, for Federal Cement Tile Company, present owner, requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 17, 1939, by adding thereto:

"* * * that in view of the good will of the Federal American Cement Tile Company having been acquired by the Federal Cement Tile Company, as indicated by an affidavit filed February 20, 1945, and in view of the agreement between the Federal Cement Tile Company and the Lastik Products Company, Incorporated, marked "Received February 20, 1945", these materials may be manufactured by the Lastik Products Company, Inc., at their plant in Wampum, Pennsylvania, and marketed under their name, *on condition* that the requirements of this resolution shall be complied with in all respects; that a new application for test and approval of the material as now manufactured at Wampum, Pennsylvania, by the Lastik Products Company, Inc., shall be filed within 30 days, and all information required by the Board for test and approval shall be promptly submitted so as to be completed not later than six months from this date, and that the permission herein granted is for such term not exceeding six (6) months from the date of this *amended* resolution."

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals, held on December 12, 1944, as they appeared in Bulletin No. 50, Vol. 29, are hereby corrected to read as follows:

672-44-A

APPLICANT—Sidney L. Strauss, for Young Men's and Young Women's Hebrew Assn., owner.

SUBJECT—Appeal from decisions of the fire commissioner.

PREMISES AFFECTED—573-581 Bedford avenue, northeast corner of Keap street (penthouse); (Block 2193, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Sidney L. Strauss.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (672-44-A)

WHEREAS, Sidney L. Strauss, for Young Men's and Young Women's Hebrew Association, owner, filed November 24, 1944, an appeal from decisions of the fire commissioner affecting premises 573-581 Bedford avenue, northeast corner of Keap street (Block 2193, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner dated June 8, 1944 reads:

"1. Install an adequate closed circuit fire alarm in accordance with the attached approved layout."

and

WHEREAS, the decision of the fire commissioner dated October 27, 1944 reads:

"Your request for an acceptance of the present sub-standard fire alarm system in the above mentioned premises is denied."

and

WHEREAS, the applicant states that the building is 3 stories and penthouse (50 ft.) in height, 100 ft. by 100 ft. in area, of class 1 construction, erected in 1913, located in a residence use, C area class 1 height district and used and occupied: cellar—boiler room and storage; first floor—recreation room and office; 2nd floor—recreation room; 3rd floor—recreation room; penthouse—banquet room; that no change in use or occupancy is proposed, except that the penthouse will be changed to a day nursery—45 persons; that the building is equipped with a standpipe system, two interior fireproof stairs from the roof to the street, one 3 ft. 6 in. wide and the other 3 ft. 10 in. wide, and one fire escape, at the east side of the building, leading to the yard by stairs with egress to the street through a fireproof passage; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that a need was established for a day nursery in this area and it has been included in the program of the Mayor's Committee on Wartime Care of Children; that space on the penthouse floor, as indicated on plans filed with this appeal, was utilized for the nursery; that application was made for acceptance of these premises as a day nursery for 45 children and inspection was made; that the building is now equipped with a sub-standard fire alarm system with a 6 in. gong on each floor with break-glass stations below each of the gongs; that in addition, there are separate controls in the main office on the 1st floor from which point a gong on any floor may be sounded or all of the gongs in the building sounded; it is respectfully requested that a variation of the requirements be granted and that the present sub-standard fire alarm system, which is in perfect working order, be accepted.

Resolved, that the decision of the fire commissioner, dated October 27, 1944, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the sub-standard *open*-circuit fire alarm system shall be maintained on all floors, to the satisfaction of the fire commissioner; that fire drills shall be maintained for the day nursery, not less than once every two weeks under the supervision of trained employees and that a record of such fire drills shall be maintained on the premises; that the number of children occupying the day nursery shall at no time exceed 60; that such portable fire extinguishers shall be installed and maintained within the kitchen space and other spaces deemed necessary by the fire commissioner as he shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals, held on January 16, 1945, as they appeared in Bulletin No. 4, Vol. 30, are hereby corrected to read as follows:

646-44-A

APPLICANT—Frank D. Hutchinson, for Metropolitan Engineering Co., owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1262-1286 Atlantic avenue, south side, 80 ft. west of Nostrand avenue (3rd floor); Block 1200, Lots 21, 33 and 41), Borough of Brooklyn.

APPEARANCES—

For Applicant: Frank D. Hutchinson and J. H. Lawrence.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Ginn.. 4

Negative: 0

THE RESOLUTION (646-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 1262-1286 Atlantic avenue, south side, 80 ft. west of Nostrand avenue (3rd floor); (Block 1200, Lots 21, 33 and 41), Borough of Brooklyn, was granted by the Board on November 21, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby amend its resolution adopted November 21, 1944, by repeating the resolution then adopted and adding thereto:

"* * * that the building shall not exceed 51 feet in total height; that the building may be altered by changing the location of the elevator and removal of stairs, as indicated on revised plans marked 'Received January 9, 1945', *on condition* that the construction of same and the required exits for the area comply with the requirements of the Building Code and the Labor Law therefor and that other than as herein *amended,* the conditions of the resolution of November 21, 1944, shall be complied with, *except that a portion of the interior cross partition at the east end may be removed on the second and third floors as shown on plans marked 'Received January 9, 1945' and fire doors in the openings in such partition omitted."*

---

* Correction—The words *"except that a portion of the interior cross partition at the east end may be removed on the second and third floors as shown on plans marked 'Received January 9, 1945' and fire doors in the openings in such partition omitted",* add to the end of the resolution, as indicated in italics above.

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

APPEARANCES—

For Applicant: Peter L. Siciliano.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (644-44-A)

WHEREAS, Ferdinand Savignano, for Gussie Schwartz, owner (A. A. Woolstock Co., lessee), filed November 13, 1944, an appeal from an order of the fire commissioner, affecting premises 237 Mercer street, west side, 100 ft. south of West 3rd street (Block 533, Lot 20), Borough of Manhattan; and

WHEREAS, this appeal was dismissed for lack of prosecution on February 6, 1945 and the applicant requested a reopening and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on February 14, 1945 and set for hearing on February 20, 1945, then laid over to February 27, 1945; and

WHEREAS, order 35995-LC, issued by the fire commissioner September 24, 1943 and repeated in a decision of the fire commissioner dated October 19, 1944, reads:

"With reference to your application, dated September 13, 1943, for a permit to store combustible fibre at above location, it is regretted that this department is without power to grant such a permit for the reason:
That building is not equipped with a fixed fire extinguishing system or other means for the extinguishment of fire satisfactory to the Fire Commissioner. Sec. C19-149.0-C-4, Art. 26, Administrative Code.
Further, no evidence that occupancy meets with approval of the Department of Housing and Buildings.

YOU ARE THEREFORE, HEREBY, ADVISED TO:

1. Discontinue the storage of combustible fibre in excess of one ton on these premises. Sec. C19-149.0-B, Art. 26, Administrative Code."

and

WHEREAS, the applicant states that the building is 6 stories (76 ft.) in height, 25 ft. by 95 ft. in area at 1st floor, 25 ft. by 87 ft. in area at typical floor, of class 3 construction, erected in 1891, located in an unrestricted use, B area, class 1½ height district and use and occupied since 1942 as follows: cellar—rag storage—no persons; 1st floor—rag storage and sorting—4 persons; 2nd floor—hat manufacturing—12 persons; 3rd floor—hat manufacturing—3 persons; 4th, 5th and 6th stories—hat storage—0 persons; that the building is equipped with one 2 ft. 6 in. wide wood stairs with fire-retarded soffit, enclosed in wood studs, fire-retarded on one side, equipped with metal covered self-closing doors, leading to the roof bulkhead and directly to the street, and one fire escape at the front of building leading to the roof by stair and to the street by counterbalanced stair; that the windows and doors on the course of the fire escape are fireproof and self-closing that the buildings to the north and south are 6 stories in height; and

WHEREAS, the applicant contends that the existing interior stairway is adequate or it will be made adequate to meet all the applicable provisions of Section 278 of the New York State Labor Law "limitation of the number of occupants"; that in addition, the fire escape at the front of the building complies in all respects with Section 274, "fire escapes erected before October 1, 1913" and the building will meet all the requirements of Section 272 "additional requirements for all buildings;" that with regard to section 271, all applicable provisions are at present, or will be complied with, with the exception of Subd. 1; that in view of this subdivision, the applicant states that the human occupancy does not extend above the third story, that the stair and fire escape extend to the roof, from which safe egress may be had to either of the adjoining buildings, that the fire escape is in good condition and will be kept as such, that the entire building is occupied by only two tenants, the first of whom is occupying the cellar and street floor for the storage of rags in bales and the second of whom is occupying the 2nd and 3rd stories for felt hat manufacturing, in conjunction with the fourth to sixth floors, inclusive for the storage of his products only; that in the light of the above facts, it is respectfully requested that the Board will find it within their discretion to waive compliance with the pending Fire Department order for the provision of a fixed fire extinguishing system; and

WHEREAS, contrary to statement by applicant on the appeal form, the records of the Board in a prior appeal (1304-22A) and the records of the Division of Fire Prevention as well as inspection by the applicant show that there is a wet sprinkler system throughout the cellar; and

WHEREAS, the Board deemed that in view of the type of occupancy in the building there was no basis for granting the appeal.

Resolved, that the decision of the Fire Commissioner, acting on Order 35995-LC, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

Adjourned: 11:10 A. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, FEBRUARY 27, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

39-45-A

APPLICANT—Associated Pen Company, lessee, for Craftsman Realty Corporation, owner.
SUBJECT—Appeal from a decision of the fire commissioner.
PREMISES AFFECTED—644-646 Broadway, northeast corner of Bleecker street (8th floor); (Block 529, Lot 1), Borough of Manhattan.

THE VOTE—
Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn..... 3
Negative: Commissioner Savage..... 1

THE RESOLUTION (39-45-A)

WHEREAS, Associated Pen Company, lessee, for Craftsman Realty Corporation, owner, filed January 27, 1945, an appeal from a decision of the fire commissioner, affecting premises: 644-646 Broadway, northeast corner of Bleecker street (8th floor); (Block 529, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner, dated January 12, 1945, reads:

"In reply to your letter of January 10, 1945, requesting permission to use fluorescent type lighting fixtures in connection with a proposed nitrocellulose occupancy at the above premises, you are advised that Chapter 19, Sec. 112.0 Adm. Code, states that only incandescent electric lights properly protected shall be permitted, therefore, your request is denied.

As the Fire Department is without the authority to waive the requirements, it is suggested that the matter be presented to the Board of Standards and Appeals for a decision."

and

WHEREAS, the applicant states the building is 8 stories (120 ft.) in height, 53 ft. by 140 ft. in area Class 1 construction; erected prior to 1913; located in an unrestricted use, B area, Class 2 height district; used and occupied since prior to 1913 as follows: Cellar, boilerroom and pump, 2 persons; 1st floor—stores—jobbers, 8 persons; 2nd floor—retail clothing, 3 persons; 3rd floor, manufacturing and printing envelopes, 12 persons; 4th floor, manufacturing doll accessories, 50 persons; 5th floor, assembling toys, 10 persons; 6th floor, manufacturing men's sport shirts, 50 persons; 7th floor, manufacturing shoes and slippers, 50 persons; 8th floor, manufacturing pens, 60 persons; that the building is equipped with a two-source sprinkler system, a standpipe system and interior fire alarm system, one interior fireproof stairs from the top story to the street, a ladder to a scuttle in the roof is provided and an exterior stairs at the rear, leading to the street through a court; and

WHEREAS, it is proposed to install fluorescent lighting fixtures on the 8th story, which floor is used for manufacturing fountain pens and other articles from nitro-cellulose materials; that application was made to the Fire Department for approval of the installation and the Department has interpreted Section C19-112.0 of the Administrative Code to the effect that these fixtures are not incandescent lights and therefore are not permitted; and

WHEREAS, the applicant contends that the close tolerances used in the manufacturing processes require a quality of lighting which can only be achieved by the installation of fluorescent fixtures; that these fixtures will be installed over work benches and at sufficient height above same to preclude the possibility of any of the celluloid articles coming in contact therewith; that all nitro-cellulose not actually used in the manufacturing process, will be stored in a vault located at the northeast corner of the building, as indicated on plans filed with this appeal; that it is therefore requested the Board grant a variation of the requirements of the Administrative Code, so as to permit the installation of fluorescent fixtures as proposed.

Resolved, that the decision of the fire commissioner dated January 12, 1945, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the premises shall be maintained to the satisfaction of the fire commissioner; that the cutting of nitro-cellulose products shall be carried on so as to preclude an accumulation of waste; that all waste nitro-cellulose material shall be immediately immersed in water and so maintained in metal receptacles until removed from the premises; that no other inflammable materials shall be used near such nitro-cellulose products, unless protected to the satisfaction of the fire commissioner; that ample natural ventilation to the outer air shall be provided at all times; that no portable lights on extension cords in any rooms where nitro-cellulose products are handled or stored, shall be maintained; that the fixtures shall be equipped with a fibre disc and lock, to lock the lamp holders at each end of the fluorescent lamps to protect same against vibration and to prevent the falling of lamps from the sockets; and that in all other respects, including the regulations for nitro-cellulose occupancy, the premises shall be maintained in accordance with the requirements therefor, other than as modified by the Board under Cal. 286-17-S.

82-45-A

APPLICANT—David Millman for S. Millman and Son, for Estate of Nora Haggerty, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—101-109 Court street, southeast corner of Schermerhorn street (cellar and 1st floor); (Block 271, Lot 23), Borough of Brooklyn.
APPEARANCES—
For Applicant: David Millman, Edward T. Growe and P. Eisenberg.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (82-45-A)

WHEREAS, David Millman, for Estate of Nora G. Haggerty, owner, filed February 17, 1945, an appeal from a decision of the borough superintendent, affecting premises 101-109 Court street, southeast corner of Schermerhorn street (cellar and 1st floor); (Block 271, Lot 23), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated February 21, 1945, on Alt. Applic. 50-45, reads:

"1. Changing occupancy of Bldg.

Business to Manufacturing & Business in a structure over 4-stories in height, erected after Oct. 1st, 1913, is contrary to sect. 2.1.3.5 of Bldg. Code and Section 270 of Labor Law.

2. Exits to comply fully with Section 270 of Labor Law. Denied."

and

WHEREAS, the applicant states the building is six stories (74 ft.) in height, 87 ft. by 100 ft. in area; Class 3 construction; erected 1922; located in business use, B area, Class 1½ height district; used throughout for offices, 55 persons per floor and for stores on the first floor, 15 persons, for which Certificate of Occupancy 4789 was issued April 4, 1924, permitting the use of the cellar for restaurant and dancing, 25 couples; first floor, stores, and offices above; that the building is proposed to be used and occupied as follows: Cellar, ordinary use and general storage; 1st floor, stores, manufacturing house slippers and showroom and offices in connection with such manufacture, 30 persons; 2nd to 6th stories, inclusive, offices, 53 persons each floor; and

WHEREAS, the building is equipped with two interior stairs of cement construction, enclosed with 6 in. terra cotta blocks, equipped with fireproof, self-closing doors leading from the roof to the first story with egress through corridors to the street; and

WHEREAS, the applicant contends that the portion of the first floor in question has been occupied as stores; that the owner has experienced difficulty in obtaining tenants for same; that it is proposed to occupy store 1 as an office and show room in connection with the use of stores 2 and 3 for manufacturing purposes; that the building is equipped with two interior stairs of fireproof construction, one of which extends to the roof; that the use of the first floor for manufacturing with an occupancy of not more than fifteen persons at manufacturing will not change the status of the building; that the area involved for manufacturing is less than 3% of the cubic contents of the structure and the number of persons engaged in manufacturing is less than 10% of the people occupying the building.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent as to Alt. App. 50-45, objections 1 and 2, and that the appeal be and it hereby is *granted on condition* that the only portion of the building to be used for manufacturing shall be store space on the street floor, as proposed and as indicated on plans filed with this appeal marked "Received February 21, 1945;" that such space on the first floor used for manufacturing shall comply with the requirements of the Labor Law as to exits; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that a new certificate of occupancy shall be obtained.

98-45-A

APPLICANT—Saul Goldsmith, for Nurnberg Thermometer Co., Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—124-126 Livingston street, south side, 93 ft. 3¾ in. east of Boerum place (Block 163, Lot 10), Borough of Brooklyn.
APPEARANCES—
For Applicant: Saul Goldsmith.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (98-45-A)

WHEREAS, Saul Goldsmith, for Nurnberg Thermometer Company, Inc., owner, filed February 26, 1945, an appeal from a decision of the borough superintendent, affecting premises 124-126 Livingston street, south side, 93 ft. 3¾ in. east of Boerum place (Block 163, Lot 10), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated February 26, 1945 on Alt. Applic. 500-45, reads:

"1. Exits to comply with Sect. 270 of Labor Law (two fireproof stairways required).

2. Liveload of 2nd floor for factory use to be 120 lbs. p.s.f. as per Section 7.3.2.3 of Bldg. Code."

and

WHEREAS, the applicant states that the building is 2 stories (27 ft.) in height, 33 ft. 4 in. by 76 ft. 9 in. in area at 1st floor, 33 ft. 4 in. by 69 ft. 1 in. at second floor, of class 3 construction; erected in 1923, located in a business use, B area, class 2 height district and used and occupied as follows: cellar, boiler room and storage; 1st floor, store and beauty parlor, 15 persons; 2nd floor, offices, 15 persons; proposed to be used and occupied as follows: cellar, boiler room and storage, no persons; 1st floor, factory, offices and shipping, 15 persons; 2nd floor, factory and offices, 15 persons; factory use to be for the manufacture of thermometers; that the building is equipped with one 4 ft. wide steel stairs with marble treads enclosed in partitions of wood studs, wood lath and plaster, equipped with hardwood self-closing doors and leading to the street and equipped with a ladder and scuttle to the roof, and proposed to be equipped with one outside balcony at the front of the building leading to street by counterbalanced drop ladder; that the window and door openings on the course of the fire escape will be fireproof, self-closing; and

WHEREAS, the applicant contends that it is proposed to convert the building for the manufacture of thermometers and hydrometers, such manufacturing use to comply with section 4c of the zoning resolution; that it is proposed to erect a new iron balcony at the front of the building with counterbalanced sliding drop ladder to the street; that the cellar floor is concrete and the cellar ceiling is covered with ½ in. plasterboards; that the boiler room and interior cellar stair will be enclosed with 4 in. fireproof blocks and equipped with fireproof, self-closing door; that egress from the cellar will be by the interior stair to the first floor and an iron stairway at the front to the sidewalk; that all working benches on the 1st and 2nd floors will be covered with ¼ in. hard asbestos; that the manufacturing operations are performed to a large extent manually, with small hand Bunsen burners; that the building will be occupied, owned and operated by the same tenant; that the second floor liveload is 60 lbs. per sq. ft. and will not be exceeded at any time, due to the nature of the work involved; that the entire output of the plant is devoted to agencies connected with the prosecution of the war; it is therefore requested that the Board grant a modification, to permit the factory use with the existing interior stair and the proposed outside iron balcony counterbalanced drop ladder and accept the second floor liveload of 60 lbs. per sq. ft.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, re Alt. Applic. 500-45, objection 1, and that the appeal be and it hereby is *granted on condition* that the stairway shall be maintained as proposed and as indicated on plans filed with this appeal, marked "Received February 26, 1945"; except that additional protection by means of wire lath and plaster or sheet rock shall be applied on the interior of the stairs throughout the first and second stories; that the ladder leading to the scuttle in the roof shall be a double-rung steel ladder within the hallway, as indicated; that the scuttle shall be fitted with an easy-opening device; that the fire escape balcony at the front shall be maintained as proposed, with a gooseneck ladder to the roof, except that a counterbalanced stairway to the street shall be installed instead of the sliding drop ladder as shown; that the balcony shall be extended in area so as to provide for the gooseneck ladder to the roof; and as to objection 2, that the proposed liveload of 60 lbs. per superficial foot may be maintained, provided the occupancy of the second floor shall at no time exceed such load and that such load shall be posted; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

THE RESOLUTION (654-27-BZ)

WHEREAS, this application under sections 7e and 21 of the zoning resolution, permitting in a business use district, the change of occupancy of an existing building to a garage for more than five motor vehicles, affecting premises 622-632 Foster avenue, southwest corner of East 7th street (Block 6494, Lot 8), Borough of Brooklyn, was granted by the Board on November 18, 1927, on certain conditions; and

WHEREAS, the resolution was amended on April 16, 1929, January 7, 1936, and September 9, 1942; and

WHEREAS, the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted November 18, 1927, as amended by resolutions adopted through September 9, 1942, by adding thereto:

"that in addition to the gasoline storage system herein permitted, which consists of a 275 gallon buried gasoline storage tank, there may also be used for the storage of gasoline a portable gasoline tank with a capacity of fifty (50) gallons; that such portable gasoline tank shall be used for such storage only for the duration of the present emergency and shall be maintained within the building."

377-39-BZ

APPLICANT—Francis X. Stephens, Jr., for Eva V. C. Hawkes, owner (Robert Olmstead, lessee).
SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.
PREMISES AFFECTED—280 East 167th street, east side, 150 ft. south of Morris avenue (Block 2438, Lot 45), Borough of The Bronx.
APPEARANCES—
For Applicant: Robert Olmstead.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (377-39-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 280 East 167th street, east side, 150 ft. south of Morris avenue (Block 2438, Lot 45), Borough of The Bronx, was granted by the Board on March 4, 1941, on certain conditions; and

WHEREAS, the permit was extended on March 9, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of March 4, 1941, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"* * * *granted* under section 7h for a term of two years from the date of this *amended* resolution, to permit the parking and storage of more than five motor vehicles, *on condition* * * * that other than as herein *amended,* the conditions of the resolution of March 4, 1941, shall be complied with and that a certificate of occupancy shall be obtained."

647-40-BZ

APPLICANT—Schwartz and Accardy, for Eugene Higgins, owner.
SUBJECT—Application for reopennig—reopening and extension of permit re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

JOSEPH J. DOYLE, *Chief Clerk.*

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse fo rneglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

RULES

RULES GOVERNING THE USE OF EQUIPMENT FOR SPRAYING AND DRYING OF PAINTS, VARNISHES, LACQUERS AND OTHER FLAMMABLE SURFACE COATINGS AND STORAGE OF SUCH MATERIALS.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JUNE 10, 1932 AND REVISED JULY 16, 1937, EFFECTIVE AUGUST 16, 1937 AND AMENDED JULY 25, 1944, EFFECTIVE AUGUST 21, 1944.

(353-30-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, subdivisions 2 and 3 of the Charter of the City of New York, to effectuate the provisions of C19-84.0, C19-85.0 and C19-86.0 of the Administrative Code.

Rule 1. Application.

1.1 No person, firm or corporation shall spray, dip or immerse any article or thing within the City of New York with any flammable paints, varnishes, lacquers or any other inflammable or combustible substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes except in conformance with these rules, and under a permit issued by the Fire Commissioner. Where the quantity of spraying, dipping or immersing materials used in a day does not exceed two quarts, except for spraying as performed under Rule 5.13, and the total amount of material stored does not exceed twenty gallons, these rules shall not apply.

1.2 APPLICATIONS. Application for the required permit to store and use the above-mentioned materials shall be made to the Fire Commissioner on forms prescribed by him and shall contain such information as he may require. When a spray, dipping, immersing, storage or mixing room is to be installed, an application shall be filed with and approved by the Borough Superintendent before a permit is issued by the Fire Commissioner.

1.3 RESTRICTIONS. No spraying, dipping or immersing of any article or thing within the City of New York with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes shall be permitted in any premises, or portion thereof as follows:

1.3.1 Which is occupied as a class A or B multiple dwelling or a dwelling for one or two-families, except where a location is provided which is separated by fireproof construction from the residential occupancy and ventilated as provided in Rule 3.

1.3.2 Which is occupied as a place of public assembly except trade schools where the buildings are of Class I or Class II construction and spraying, dipping or immersing are demonstrated for instruction purposes only.

1.3.3 Which is artificially lighted by any means other than electricity.

1.3.4 Which is heated by other than the use of steam or hot water circulating systems and the boiler is located outside the space where spraying, dipping or immersing is carried on.

Rule 2. Definitions.

2.1 The term "SPRAY or SPRAYING SPACE" "DIPPING SPACE or IMMERSING SPACE" when used in these rules shall mean that portion of the premises used for the actual work of spraying, dipping or immersing any article or thing with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds, commonly used for painting, varnishing, staining or similar purposes in any booth or room.

2.2 The term "CABINET BOOTH" when used in these rules shall mean a compartment with a back, top and two sides of incombustible materials over a substantial metal frame and equipped with air exhaust facilities, located within a room or any portion of any premises where spraying with any flammable paints, varnishes, laquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.3 The term "CANOPY BOOTH or HOOD" when used in these rules shall mean an installation consisting of a metal canopy or hood, without any side or end panels enclosing the object sprayed and an air exhaust system under which spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.4 The term "TUNNEL BOOTH" when used in these rules shall mean a compartment consisting of two sides and top, equipped with an air exhaust system in which spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.5 The term "SPRAY ROOM" when used in these rules shall mean a fully enclosed ventilated room approved for such use in which any article or thing is sprayed by any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.6 The term "DIPPING ROOM" when used in these rules shall mean a fully-enclosed ventilated room approved for such use in which any article or thing is dipped, or immersed in any flammable paints, varnishes, lacquers or any other flammable substances, mixtures, or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.7 The term "FIREPROOF or FIRE-RESISTING PARTITIONS" used in these rules shall mean the standards set in the Labor Law and the Rules of the Board of Standards and Appeals for factory buildings. All openings in this type of partition shall only be equipped with self-closing fireproof assemblies.

2.8 The term "STORAGE ROOM" when used in these rules shall mean a fully-enclosed ventilated room used for the storage and mixing of any inflammable paints, varnishes, lacquers or any flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes.

2.9 The term "CERTIFICATE OF FITNESS" when used in these rules shall mean the written permission granted by the Fire Commissioner to an in-

dividual to supervise and to process spraying, dipping and immersing materials and equipment, in accordance with the provisions of Section C19-14.0 of the Administrative Code and these Rules.

2.10 The term "PERMIT" when used in these rules shall mean the written permission issued to a person, firm or corporation by the Fire Commissioner, to store and use materials covered by Sections C19-12.0 and C19-84.0 of the Administrative Code and these Rules.

Rule 3. Ventilation.

3.1 Spraying or dipping spaces shall be ventilated when in operation so that the movement of air shall be at least one hundred (100') linear feet per minute in the breathing zone of the operator and be of sufficient capacity to prevent the accumulation of mist or vapors. For requirements of ventilation of storage rooms see Rule 4.4.1.

3.2 Air shall be admitted to the spraying, dipping or immersing spaces in an amount equal to the capacity of the fan or fans and in such a manner as to avoid short-circuiting the path of air in the working zone of such spaces. Exhaust fans shall be kept running constantly while spraying, mixing or dipping. Exhaust fan control shall be interconnected with spray gun so as to operate simultaneously. Exhaust fans shall, in addition, be arranged to operate independently of spray gun. Ventilation Equipment shall be kept in operation for a sufficient length of time thereafter to exhaust all vapors, fumes or residues of spraying materials from the spray booth, dip space or drying room. Air admitted to the spraying, dipping, immersing, drying spaces or storage rooms shall be fresh air taken from the outside of the building.

3.3 EQUIPMENT. Motors shall be located outside of spraying, dipping or immersing spaces except as provided in Rule 4.

Rule 4. Specifications for Spray Booths, Spray Rooms, Dip and Immersing Rooms, Drying Equipment and Material Storage Rooms.

4.1 Spray booths shall be constructed of metal or incombustible materials satisfactory to the administrative official having jurisdiction. Ventilation and lighting for spray booths, spray rooms, dipping rooms, drying rooms and storage rooms shall comply with the requirements of these rules.

4.1.1 Spray, dip and immersing rooms shall be enclosed on all sides with partitions constructed of incombustile materials with floors in such rooms of concrete. Where such rooms are located over wooden floors, such wooden floors shall be surfaced with 1" of grout adequately reinforced or a mixture of Portland cement, asphalt and sand similarly reinforced. Ceilings over such rooms shall be protected by 5/8" unsanded gypsum plaster or 7/8" of cement or sanded gypsum plaster on approved 3.0 lb. metal lath or other equivalent fire-resisting ceiling protection. Ventilation, lighting and heating for these rooms shall comply with the requirements of these rules. Where additional fire-fighting equipment is necessary, such equipment shall be furnished in accordance with the direction of the Fire Commissioner. Floor drains leading to the house drainage system or the public sewer, shall not be permitted. All dip tanks shall be provided with hinged metal covers held open by a fusible link, such covers to be equipped with an opening to permit automatic flooding of the tank with fire extinguishing media of a type and so located as the Fire Commissioner shall direct.

4.1.2 Panels of polished wired glass or plate-glass at least one-quarter (1/4) of an inch thick, not exceeding seven hundred and twenty (720) square inches in area and not more than forty-eight (48") inches in any linear dimension may be used in the sides of a spray booth or room.

4.1.3 The inner sides of walls, ceilings and the floors of all spraying or dipping spaces shall have a smooth surface.

4.1.4 All openings in spray, dip or immersing rooms shall be protected by fireproof opening protective assemblies. Windows opening on a street may be used to provide ventilation but no window on a lot line or less than 20 ft. from any opening in a wall of an adjacent building shall be permitted except when the subject room is more than 20 ft., in the horizontal plane, above an adjoining building.

4.1.5 Ferrous metals used in the construction of spraying, dipping or immersing spaces shall be thoroughly painted on the inside or be galvanized.

4.1.6 All spraying, dipping or immersing spaces shall be so constructed that at least three (3) feet of clear working space shall always be maintained for each operator spraying, dipping or immersing the material being processed.

4.2 STORAGE ROOMS.

4.2.1 Storage rooms shall be constructed of fireproof or fire resisting material and shall have a window opening to the outer air but such window shall not be on a lot line, enclosed court, nor opposite within twenty feet of windows of adjacent buildings nor part of the same premises, such window openings to be fireproofed and lower half provided with open louvers or ventilated by metal duct or fan at least 8 inches in diameter. The floors of all storage rooms shall be of incombustible non-ferrous materials. The sill of the door shall be at least 6 inches above the finished floor. All doors to be tin-clad, approved, fireproof and self-closing.

The lighting equipment shall comply with rule 4.5.2.2 and shall have an electric switch located outside the room. Immediately adjacent to such room shall be provided such portable fire extinguishing equipment for use within the storage room as the fire commissioner shall direct.

4.3 DRYING EQUIPMENT.

4.3.1 Gas Fired Drying Ovens. Gas fired drying ovens shall be of a type as approved by the Board. Such ovens shall be constructed of metal and incombustible materials so designed as to preclude the direct application of flame to the material in process. The exhausts from both the heating compartment and the drying compartment shall be individually equipped with adequate fans and exhaust piping connected directly to the outer air. The controls for the fans shall be so interlocked with the gas supply line that when the gas is flowing the fans are in operation. An extra switch shall be provided to permit the operation of the fans when the gas supply is off. Each

oven shall be equipped with approved gas burning equipment with electrical controls so arranged as to shut off the gas valve when ignition fails or the gas supply pressure drops to 2 inches of water.

The use of a continuous gas pilot light is prohibited unless an automatic gas shut off valve is provided, which will shut the gas off at the pilot light when the flame is extinguished or the supply of gas cut off. Electrical pilot ignition shall be of the continuous type, or equal in performance, designed for use in high temperatures, with controls so interlocked as to shut off the gas supply when current is interrupted. An auxiliary manually operated gas shut off valve shall be located not nearer than 25 feet from the oven so as to control the gas supply in the event of an emergency. Such ovens shall be adequately insulated on all sides, including the base, which shall have the equivalent of a double thickness of such insulation, unless the floor is protected by a 3 in. mat of reinforced concrete placed over and bonded into the existing concrete floor and projecting not less than 6 inches outside the projected area of the equipment, or unless an unenclosed clear air space not less than 4 inches above the floor is maintained between the floor and the underside of the oven.

4.3.1.1 Gas fired drying ovens shall not be located nearer than 25 feet from spraying or dipping spaces unless such oven is approved for use in explosive atmospheres.

4.3.2 Electric Infra Red Ray Drying Ovens.

4.3.2.1 Electric Infra Red Ray Drying Ovens shall be of a type as approved by the Board. Such ovens shall be constructed of electric equipment installed in accordance with the National Electric Code and the requirements of the Department of Water Supply, Gas and Electricity. Ovens when erected shall be placed on concrete floors without any additional protection, provided that at least 12 inches of clear space above the floor is provided to permit adequate ventilation.

4.3.2.1.1 In drying processed material, involving the evaporation of considerable amounts of flammable solvents by infra-red lamps, such installations shall not be confined in small rooms unless such rooms are thoroughly ventilated by a power driven ventilation system of sufficient capacity to provide 100 linear feet of air per minute; the controls of the ventilation system to be so interlocked with the Infra-Red Ray System that the latter cannot function unless the ventilating system is in operation. When equipped with duct ventilating system, the Infra-Red Ray Oven shall be adequately secured so as to prevent moving.

4.3.2.1.2 Where the evaporation of a considerable amount of flammable vapors are involved, ventilated hoods located as near to the floor as practicable or enclosures shall be provided at the initial stage of the process with adequate exhaust system to discharge the primary evaporation from the solvents to the outer air, so that when the processed material progresses through the lamp drying tunnels only a comparatively small amount of solvent is left for evaporation. A space between such ventilating section and the drying section shall be maintained.

4.3.2.1.3 Lamps and other electrical equipment shall be kept free from flammable deposits and adequate cleaning shall be maintained.

4.3.2.1.4 Lamp drying units shall be separated from spraying and dipping processes complying with these rules, by a distance of at least 15 feet or shall be installed in a separate fireproof room.

4.3.2.1.5 Controls shall be arranged so that the lamps in the tunnels will be shut off automatically if and when the conveyor stops.

4.3.2.1.6 Where there are no conveyors and the material being processed is left stationary in the dryer, there shall be an excessive temperature switch to shut off the lamps to avoid overheating the material being processed if it is not removed from the dryer in time.

4.3.2.1.7 Material to be processed on the conveyors shall be rigidly supported so as not to be liable to displacement and cause lamp breakage and short circuits. Where there are no conveyors, materials should be fixed on dollies running on tracks or other equivalent method to accomplish the same result.

4.3.3 The use of these processes shall be limited to metal or other incombustible material requiring paint processing.

4.3.4 Such fire fighting equipment suitable for electrical and solvent vapor fires shall be provided as the fire commissioner may direct.

4.4 SPECIFICATIONS FOR DUCTS, PIPES AND FANS.

4.4.1 All ducts used for ventilating spray, dip or immersing spaces shall be constructed of approved incombustible materials or metal

of not less than the following gauges of metal.

Ducts twenty-four (24") inches or less in diameter No. 22 gauge.

Ducts over twenty-four (24") inches and not over thirty-six (36") inches in diameter No. 20 gauge.

Ducts exceeding thirty-six (36") inches in diameter No. 18 gauge.

4.4.2 Ducts shall be strongly constructed and be installed in a workmanlike manner. They shall be rigidly supported.

4.4.3 Ventilating ducts shall run as directly as practicable to the outer air and be protected with a hood against the weather. The exhaust terminal or hood shall also be protected with a screen of copper or bronze with a mesh not larger than one-quarter (¼") inch.

4.4.4 Where a duct passes through a non-fireproof floor or roof, the duct shall be protected at such point by an outer pipe or sleeve with an air space of at least one (1") inch between the sleeve and pipe protected from the woodwork by at least a 1" blanket of asbestos, compressed rockwool or glasswool, or equivalent fire-resistive material extending through the entire depth of the ceiling construction and adequately secured to the outer pipe. The outer pipe shall be not less than two (2") inches from any woodwork and such woodwork shall be covered with at least 26 gauge metal or other incombustible material.

4.4.5 Ventilating ducts shall not terminate within ten (10) feet measured horizontally of any chimney outlet, unprotected air intakes or within twenty (20) feet of any exit or any opening in an adjoining building.

4.4.6 If induced draft is used to create an air movement, the air shall be supplied from a point outside the spray or dip or immersing space. Fans and motor must be located outside the spray, or dip space, except approved explosion-proof motor and non-ferrous blade fans which, however, are not to be located where residues of spraying material may collect on such equipment.

4.4.7 The exhaust system from any spray, dip or immersing space shall not be connected to any other ventilating system or be discharged into a chimney or flue used for the purpose of conveying gases of combustion.

4.4.8 Exhaust fan blades shall be constructed of non-ferrous metal. All exhaust and ventilating fans to be permanently connected to their source of power, using metallic conduit. Rheostats in fan bases not permitted. Fan blades not coming in direct contact with spraying fumes, need not comply with this requirement.

4.4.9 Adequate access doors or panels made tight fitting by means of screw bolts, clamps or springs shall be provided, to permit inspection and cleaning.

4.5 ELECTRICAL EQUIPMENT AND LIGHTING FIXTURES.

4.5.1 No motors, switches, rheostats, lamps, flourescent light or other electrical equipment shall be located in spray, dipping or immersing rooms or within ten (10′) feet of the open end of any spray compartment, spray booth, immersing or dipping space unless such electrical equipment be of a type approved for use in explosive atmospheres and where a conduit leads from a hazardous location to a non-hazardous location, the conduit shall be sealed off by an approved sealing compound. Except that alternating current induction motors of the totally enclosed type, having no brushes, make and break contacts, collectors or other arcing or sparking parts may be located within ten (10′) feet of a spray booth, spray compartment or dipping space when approved by the administrative official having jurisdiction. No open flame shall be used within 25 ft. of spray, dip or coating space or paint storage room or cabinet except when separated by fireproof construction, except as provided in Rule 4.3.1. Gas Fired Drying Ovens and 4.3.2.1.4 Electric Infra Red Dry Ovens.

4.5.2 Lighting Fixtures.

4.5.2.1 Artificial lighting shall be only by means of electricity.

4.5.2.2 When lighting fixtures are located within 10 feet of a spray booth, spraying space, dipping space or within a storage room they shall be of the rigid stem type, enclosing all wiring and be equipped with keyless sockets having vapor proof globes. Where exposed to breakage, globes shall be adequately protected by substantial metal guards or equivalent means. Fluorescent tube type lighting fixtures when used in spray booths or in spray and dip spaces or in storage rooms or rooms containing inflammable vapors, shall be of a type approved for use in explosive atmospheres. The auxiliaries of mercury vapor lamps shall be offset at least ten (10) feet from spray booth, spray or dip spaces unless enclosed in explosion-proof protection.

4.5.2.3 All electrical equipment shall be installed and grounded as provided by the Administrative Code covering electrical equipment and permanently connected to their source of current supply, using metallic conduit.

4.5.2.4 No pin plug receptacles shall be used except when the use of receptacles and attachment plugs become necessary they shall be so connected to form a part of a unit device with explosion-proof interlocking switch precluding the removal of the plug where the switch is in the "on" position or by an approved explosion-proof enclosure which can seal the arc when the current is interrupted. Such receptacles and plugs shall be of the polarized type providing a connection for the grounding wire of the portable cords.

4.5.2.5 All electric wiring shall be enclosed in rigid standard weight metallic conduits with explosion proof joints and fittings. Joints in metallic conduit having threaded couplings shall not have less than five (5) fully engaged threads. Where flexible connections are required a flexible fitting approved for explosive atmospheres shall be used.

4.5.2.6 The use of portable cords or trailer lights are prohibited, except when flexible cord approved for hard usage containing one (1) extra insulated conductor properly connected to form a grounding connection for metal lamp guards, motor frames and all other exposed metal portions of such portable lamps and devices may be used. When portable lamps are used they shall be enclosed in a manner approved for explosive atmospheres and with substantial guards of metal to prevent breakage. Sockets shall be of the keyless moulded composition type with no exposed metal parts.

Rule 5. Maintenance and Operation.

5.1 Every premises wherein a spraying, dipping, or immersing space is maintained and operated shall be continuously under the charge and supervision of one or more persons holding a certificate of fitness, whose duty shall be to see that the spray, dipping and immersing space comply with the rules and the terms of the permit are not violated. No other duties shall interfere with the enforcement of these rules while the work is in process. A copy of these rules shall be available near the space where these rules apply.

5.2 Smoking or the carrying of lighted cigars, cigarettes, matches or pipes in spray, dipping or immersing space is prohibited.

5.3 No person shall be permitted within a spray space between the spray gun and the exhaust outlet while the spray gun is in use.

5.4 Spraying, dip or immersing spaces and its surroundings shall be kept clean at all times and shall be kept clear of all materials, equipment and utensils not required in the operation of the spray. Side walls, ceilings, baffle plates, etc., shall be sprayed with soap and water solution, before cleaning, or cardboard or masking paper may be fastened before any operation and after said operation all waste material shall immediately be removed from the premises.

5.5 Floors within and surrounding spray, dip or immersing spaces shall be kept clean and free from waste material at all times.

5.6 Spray rooms, booths, fans, ducts, and other equipment shall be cleaned frequently and maintained in clean and efficient working condition; lacquer spraying booths shall be wet down before cleaning.

5.7 Implements used for cleaning shall be made of nonferrous material to avoid sparks.

5.8 Metal waste cans with self-closing covers shall be provided for all spraying, dipping or immersing spaces and storage rooms. The number to be installed shall be determined by the administrative official having jurisdiction.

5.9 Approved fire appliances shall be installed in all spraying, dipping or immersing spaces and in storage rooms as may be determined by the administrative official having jurisdiction.

5.10 Accumulation of flammable waste, sweepings or deposits from spray, dip or immersing space is prohibited. All such waste shall be placed in approved waste cans and be removed from the premises at the close of work each day.

5.11 All sand papering of lead painted surfaces shall be done with wet sand paper.

5.12 When a motor vehicle is taken into a spray space, the batteries shall be disconnected before the process of spraying is begun.

5.13 Before spraying is performed on elevator cars all electric power operating all elevators enclosed in a common shaft, shall be turned off. While such work is in progress portable fire extinguishers shall be provided and maintained adjacent to the work as the fire commissioner shall direct. Such shafts shall be well ventilated of fumes before starting elevators.

5.14 Inflammable solvents used for cleaning equipment or for any other purpose shall not be discharged into the house drain.

Rule 6. Material Storage and Mixing.

6.1 Main supplies of spray coating and dipping materials and thinners shall be kept in an outside storage building, storage rooms or in vented metal cabinets in accordance with the following amounts:

6.1.1 Spraying materials not in excess of 100 gallons may be stored in single walled metal cabinet ventilated to the outer air. Such cabinet to be metal covered on all sides, including the door and arranged for ventilation at top and bottom.

6.1.2 Spraying materials not in excess of 200 gallons may be stored in double-walled metal cabinets ventilated to the outer air or wood cabinets metal covered on all sides, including the door, and arranged for ventilation at top and bottom, to the outer air.

6.1.3 Spraying materials in excess of 200 gallons shall be stored in a separate exterior storage building of fireproof or fire-resisting material with ventilated plain glass skylight or in a storage room constructed fireproof in a fireproof building or fire-resisting in a non-fireproof building. The maximum amount of spraying materials to be stored in a storage room of a non-fireproof building shall be determined by the administrative official having jurisdiction.

6.1.4 Mixing or thinning of coating materials shall be conducted in a storage building or storage room, except that containers of total capacity not exceeding ten gallons may be opened and their contents mixed in the spray room or room in which booths are located while the air exhaust system is operating.

6.1.5 Working supplies sufficient for not more than one day's use but not exceeding twenty gallons to each booth, nor a total of one hundred gallons, may be kept in the spray room or room in which spray booths are located; covers of containers must be kept thereon when such containers are not actually in use. This amount is in addition to the amount allowed in Rule 6.1.7.

6.1.6 Gravity feed material containers for supplying spray guns shall not exceed ten gallons in capacity and shall be supported by wire cables or metal brackets having a factor of safety of four when filled with the heaviest spraying materials used.

6.1.7 Pressure feed tanks and other equipment for use in connection with direct spraying under air pressure shall be restricted to tanks of not more than sixty gallons, individual capacity, designed, constructed and approved for this specific purpose by the Board of Standards and Appeals. Each tank shall be provided with a safety valve set at a pressure not exceeding eighty pounds. All gravity feed containers and other spraying equipment shall be approved as above.

6.1.8 The installation of all electrical wiring, switches, lighting and all other electrical equipment, and the provisions of these rules against carrying matches or smoking and prohibiting flame or spark-producing devices, shall also apply to storage or mixing rooms.

6.2 Storage of Materials where nitro cellulose products are manufactured.

6.2.1 Storage of spraying, dipping and immersing materials shall be as provided in Rule 6.1.1 through Rule 6.1.3, but in a building in which nitro cellulose products are manufactured, stored or kept the amount shall be not over twenty-five (25) gallons as per Section C19-113.0, subdivision h of the Administrative Code.

6.3 Sprinklers.

6.3.1 Sprinkler heads shall be provided in all spray, dip or immersing spaces and storage rooms and shall be installed in accordance with the Sprinkler Rules of the Board of Standards and Appeals, except in non-sprinklered buildings where sprinkler connection may be made to the house water supply, provided the size of the house water supply line is adequate for the number of sprinkler heads.

6.4 Maintenance of Sprinkler Heads.

6.4.1 Sprinkler heads in spraying, dipping and immersing spaces shall be cleaned at least once a week under the supervision of the person holding the certificate of fitness and a coating of light grease or vaseline shall be applied after each cleaning to prevent the formation of a hard deposit and render the sprinkler useless in case of fire. The use of paper bags or other materials about sprinkler heads is prohibited.

Rule 7. General Requirements.

Notice—Attention is called to the provisions of the Administrative Code as to violations reading as follows:

Section C19-152.0 of the Administrative Code, "Any person who shall willfully violate or neglect or refuse to comply with any of the provisions of this chapter in addition to any other penalties prescribed by law or ordinance shall, upon conviction, be punished by a fine of not more than $500 *or by imprisonment not exceeding* 6 *months, or by both such fine and imprisonment."*

NOTE:—The principal cause of fires in spray-booth installations are: broken electric lamps and other electrical defects; cleaning the interior of booths, fans and motors with highly flammable solvents; accumulation of deposits in the tubes and vent pipes from neglect in cleaning them frequently; unnecessary accumulation of waste and refuse, smoking and a general lack of cleanliness.

(a) "No Smoking" signs, with letters at least 2 inches in height, shall be posted at entrances to and in all spray rooms and paint storage rooms or building.

(b) No combustible materials shall be stored or maintained within 15 feet of any spray booth.

(c) All stocks shall be arranged so as not to interfere with the operation of automatic sprinkler heads.

(d) Adequate mechanical or natural ventilation shall be provided.

(e) No open flames or devices creating open flames or arcs shall be maintained within 25 feet of the spray or dipping process.

(f) The premises where painting, dipping or immersing is performed shall be kept clear of empty paint cans, rubbish, paint accumulations and other combustible material.

Rule 8. Existing Spray Booths and Installations.

8.1 These rules shall be retroactive in the following respects:

Rule 1.3.4 Heating of Rooms.

Rule 3.1 Air Exhaust System.
3.2 Air Supply and Mixing.

Rule 4.0 Specifications for Spray Booths, Spray Rooms, Dip and Immersing Rooms, New Drying Equipment, and Material Storage Rooms.
4.1.3 Surfacing of Booths.
4.1.5 Surfacing of metal in Booths.
4.3.2 Maintenance of Ducts.
4.4.6 Method of Induced Draft.
4.5.1 Electrical Equipment.
4.5.2 Electric Lighting.

Rule 5.1 Certificate of Fitness.
5.2 Smoking, Matches, etc.
5.6 Maintenance of Equipment.
5.7 Cleaning Implements.
5.9 Fire Appliances.
5.10 Accumulation and disposal of waste materials.
5.12 Motor Vehicles in booths or rooms.
5.13 Spraying Elevator Cabs.

Rule 6. Material, Storage and Mixing.

Rule 7. General Requirements.

Rule 8.1 Rules 6.1, 6.2, 6.3 and 6.4 may not be applied in fireproof buildings equipped with an approved existing automatic sprinkler system where the general conditions of cleanliness are properly maintained at all times.

Rule 9. Permits and Plans.

Before a permit is issued by the fire commissioner, plans shall be filed with the borough superintendent, stating name, address, floor and space where the painting, dipping or spraying processes or storage room are to be installed. Such plan shall include a complete layout of the proposed installation and shall clearly indicate the location of all exterior wall openings, in premises and adjacent buildings, exits, chimneys, vent openings and proposed processes.

Plans shall be filed with the borough superintendent for storage and mixing rooms. Such plans shall show the complete floor plan of the proposed equipment and the location of the proposed equipment with respect to the storage and mixing rooms, exterior wall openings, in premises and adjacent buildings, exits and all chimneys within 20 feet of storage rooms and vent openings.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1018, Municipal Building, Manhattan, at three cents each—postage to be added if the forms are forwarded by mail.

BOARD OF STANDARDS AND APPEALS

HARRIS H. MURDOCK, Chairman

BERNARD A. SAVAGE

CHARLES M. BLUM

CHIEF JOHN E. GUNN

JOSEPH J. DOYLE, *Chief Clerk*

OFFICE—Municipal Building, Rooms 1000 to 1018.

TELEPHONE—WOrth 2-5600.

OFFICE HOURS FOR PUBLIC—9 a. m. to 4 p. m.

Saturdays 9 a. m. to 12 noon.

Address all communications to the Chairman

CONTENTS

This issue of the Bulletin contains in the order given—

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting, March 6, 1945, at 10 A. M., Affecting Calendar Numbers 595-44-BZ, 57-45-BZ, 1220-23-BZ, 422-39-BZ, 398-44-BZ, 539-44-BZ, 597-44-BZ, 623-44-BZ, 691-44-BZ, 71-45-BZ, 596-44-A, 686-44-A, 85-45-A and 742-44-SM.

Minutes of Regular Meeting, March 6, 1945, at 2 P. M., Affecting Calendar Numbers 514-44-A, 601-44-A, 612-44-A, 617-44-A, 752-44-A, 1-45-A, 59-45-A, 61-45-A, 63-45-A, 83-45-A, 99-45-A, 419-44-A, 463-44-A, 524-44-A, 6-45-A, 27-45-A, 621-24-BZ, 1193-38-BZ, 162-40-BZ, 309-40-BZ and 330-36-BZ.

Smoking in Factories, Rules for

Plumbing Rules (Submerged Inlets; Protective Methods to Prevent Contamination of Water Supply).

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to March 6, 1945.

Cal. No. Dept. Premises Affected.

100-45-A—H.B.Bx—744 East 138th street, southeast corner of Bruckner (Eastern) boulevard; (Block 2566, Lot 52), Borough of The Bronx, Amendment to Alt. 20-45.

101-45-BZ—H.B.M.—311 West 48th street, north side, 150 ft. west of 8th avenue (Block 1039, Lot 26), Borough of Manhattan, Alt. 1139-44.

102-45-A—F.D.—1631-1641 63rd street, north side, 250 ft. east of 16th avenue (1st floor); (Block 5531, Lot 20), Borough of Brooklyn, 98439-LC and Decision.

103-45-SA—Chicago Pump Co., Non-Clog Sewage Ejector and Flush-Kleen Sewage Ejector, Appliance.

104-45-A—H.B.Q.—95-20 Northern boulevard, southeast corner of 96th street (2nd floor); (Block 1710, Lot 15), Corona, Borough of Queens, Alt. 1597-44.

105-45-A—H.B.Bx—351-361 Grand concourse, west side, 131.40 ft. north of East 140th street and 350-358 Walton avenue (Block 2345, Lot 14), Borough of The Bronx, Amendment to Alt. 16-45.

106-45-BZ—H.B.M.—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan, Amendment to Alt. 27-45.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over, no date set.

57-45-BZ

APPLICANT—Ralph J. Gurfield, for Storch and Hirsche, owners.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail use, B area district, the extension of the first story of an existing building, to cover the entire lot.

PREMISES AFFECTED—733 Ninth avenue, west side, 117.13 ft. north of West 49th street, (Block 1059, Lot 34), Borough of Manhattan.

APPEARANCES—

For Applicant: Ralph J. Gurfield and Herman B. Waag.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 13, 1945 at 10 a.m. applicant to obtain new decision from the borough superintendent.

1220-23-BZ

APPLICANT—Lama and Proskauer, for Roosevelt Savings Bank of the City of New York, owner (Elwood Cross, lessee).

SUBJECT—Application reopened June 3, 1941 (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, the extension of a gasoline service station

and parking and storage of more than five motor vehicles (previously acted upon by the Board).

PREMISES AFFECTED—1090-1094 (1082-1100 displayed) Gates avenue, east side, 85 ft. north of Broadway (Block 3339, part of Lot 52), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama and Elwood Cross.

For Opposition: L. Berkley.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (1220-23-BZ)

WHEREAS, this application, permitting in a business use district, for a temporary period, the maintenance of a lot for the parking and storage of more than five motor vehicles, affecting premises 1090-1094 (1082-1100 displayed) Gates avenue, east side, 85 ft. north of Broadway (Block 3339, part of Lot 52), Borough of Brooklyn, was granted by the Board on June 10, 1924, on certain conditions; and

WHEREAS, the permit was extended from time to time, the last such extension of permit having been granted on June 25, 1940; and

WHEREAS, the applicant requested a further extension of the permit which had expired by limitation and an amendment of the resolution, under section 7c of the zoning resolution, to permit the extension of an existing gasoline service station on a portion of the premises; and

WHEREAS, this case was reopened by vote of the Board on June 3, 1941 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting March 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Gates avenue, Broadway, Linden street and Palmetto street are in a business use, C area and 1 times height district; and

WHEREAS, the decision of the borough superintendent, dated December 27, 1943, re Alt. Applic. 3739-43, reads:

"1. Proposed extension of existing gasoline service station and the change of occupancy to include parking and storage of more than five motor vehicles in a business use district is contrary to Art. II, Sec. 4(a) 15 and 46 of the zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot having a frontage of 160 ft. and a depth of a 100 ft., on which is located a one-story, Class 3 constructed building, 18 ft. 6 in. by 20 ft. 8 in. occupied as an office for an existing gasoline service station, having two grease pits, tanks and pumps; that this gasoline service station established prior to 1925, originally had a frontage of 90 ft.; that the plot is also occupied for the parking and storage of more than five motor vehicles; that it is proposed to increase the area of the gasoline service station and parking space to a frontage of 160 ft. on Gates avenue and to include a plot 21 ft. by 18 ft. at the southwest corner occupied by a one story metal building used as a one car garage and storage building; and

WHEREAS, the applicant contends that according to the Fire Department records, the original area of the gasoline station is described as located on the east side of Gates avenue, 85 ft. north of Broadway and having a frontage of 90 ft. on Gates avenue with a depth of 95 ft.; that the description of the present gasoline service station is as follows: East side of Gates avenue, 85 ft. north of Broadway; thence 160 ft. north; thence 100 ft. east; thence 181 ft. south; thence 18 ft. west; thence 21 ft. north; thence 82 ft. west to the point of beginning; that for clarification of the records, application is hereby made to extend the area of the existing gasoline service station to the size as herein stated; that under Cal. 1220-23-BZ, permission was granted for the parking and storage of more than five motor vehicles on these premises; that this additional use has been continuously carried on since the granting of this application; that in view of the fact that these premises have been continuously operating as a gasoline service station and parking and storage of more than five motor vehicles, permission having been granted by the Board of Standards and Appeals, and in view of the fact that there is a decided necessity for parking and storage facilities in this immediate area, it is respectfully requested that this application be granted; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7, subdivisions c and h of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby make a *variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted,* under section 7c thereof, permitting the portion of the premises now lawfully occupied as a gasoline service station, with a frontage of 90 feet, running northerly from a point 85 feet northerly from the Broadway line, for the full depth of the lot, except for the portion at the rear indicated on plans filed with this appeal now occupied with a metal garage, having an area of 18 ft. by 21 ft.; that the existing office and proposed lubritorium and laundry shall be constructed and maintained substantially as indicated on revised plans filed at this hearing, marked "Received March 6, 1945"; that the gasoline pumps shall be arranged as shown thereon and shall be not nearer than 10 feet to the street building line of Gates avenue; and, *granted* under section 7h for a term of five years from the date of this resolution, to permit the balance of the lot to the north and the rear portion of the gasoline selling station area to be occupied for the parking and storage of more than five (5) motor vehicles; that pleasure type cars only shall be stored or parked; that such parking lot may be operated in conjunction with the gasoline station on the southerly portion of the plot, but shall not be deemed an extension of such gasoline station; that the planting and fencing indicated on such revised plans marked "Received March 6, 1945", shall be carried out and complied with; that the gasoline selling area and a portion of the parking area as indicated to the west of the low wall and accessory buildings shall be cement paved; that the balance of the plot to be occupied for parking and storage may be covered with steam cinders, clean gravel or other suitable material, properly bound so as to provide a reasonably smooth surface and surface drainage; that the curb cuts shall be restricted to the two existing curb cuts, one to the south extended as shown to a total of 28 feet and the curb cut to the north with a width of 38 feet; that no portion of the curb cuts shall be nearer than 5 feet to the side lines as extended; that no advertising shall be maintained on the premises, except permanent signs attached to the accessory building, where indicated on plans, except that there may be erected on either end of the plot, a sign post for a supporting sign, which may be illuminated, advertising only the brand of gasoline sold; such sign may be extended beyond the building line for a distance of not more than 4 feet; that such sign at the northerly end shall not be deemed an extension of the gasoline selling area; that on the side lot lines where walls of adjoining buildings do not occur, there shall be maintained a substantial masonry or wood fence not less than 6 feet in height; that such fence shall be of solid boards and kept painted; that the open greasing racks shall be removed and no use shall be made of these premises other than as herein permitted; and that all permits shall be obtained and all work completed within six months from the date of this resolution.

422-39-BZ

APPLICANT—Lama and Proskauer, for Bonded Lien Corporation, owner.

MINUTES

SUBJECT—Application reopened July 25, 1944, for consideration as to extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—305-313 21st street and 697-705 6th avenue, northwest corner (Block 892, Lot 1), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred A. Lama.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (422-39-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 305-313 21st street and 697-705 6th avenue, northwest corner (Block 892, Lot 1), Borough of Brooklyn, was granted by the Board on January 3, 1940, on certain conditions; and

WHEREAS, the permit was extended on April 17, 1942 and the applicant requested a further extension of the permit which had expired by limitation of time; and

WHEREAS, this application was reopened by vote of the Board on July 25, 1944 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting on March 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the variance granted by the Board expired April 17, 1944, and an application for extension of the temporary period was made on July 14, 1944; and

WHEREAS, the requirements of the Board's original resolution were never complied with, although a certificate of occupancy was issued; request for extension of variance was adjourned from time to time for the purpose of obtaining compliance before the Board took further action; a violation is pending against the premises for the use of an illegal frame building occupied by someone on the lot for living quarters.

Resolved, that the decision of the borough superintendent acting on B.N. 13290-38, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

398-44-BZ

APPLICANT—Raymond Irrera, for Hi Heat Coal and Coke Company, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a business use district, the change of occupancy from office, shed and scale for a coal yard on opposite side of street to office, shed and scale and coal storage yard.

PREMISES AFFECTED—77-08 76th street and 75-12 to 75-20 Edsall avenue, southwest corner (Block 3813, Lot 6), Glendale, Borough of Queens.

APPEARANCES—
For Applicant: Raymond Irrera.
For Opposition: Theodore A. Cordler, Marie Baessler and Mary Mistler.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (398-44-BZ)

WHEREAS, Raymond Irrera, for Hi Heat Coal and Coke Company, owner, filed June 27, 1944, an application under section 7e of the zoning resolution, to permit in a business use district, the change of occupancy from office shed and scale for a coal yard on opposite side of street to office shed and scale and coal storage yard affecting premises: 77-08 76th street and 75-12 to 75-20 Edsall avenue, southwest corner (Block 3813, Lot 6), Glendale, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, March 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Edsall avenue is in an unrestricted and business use, D area and 1-times height district and that 75th and 76th streets are in a business and residence use, D area and 1-times height district; and

WHEREAS, the decision of the borough superintendent, dated June 1, 1944, re Alt. Applic. 585-44, reads:

"1. Proposed use of premises located in a business district as a coal storage yard, is contrary to Sec. 4-45 of the Building Zone Resolution. Same not further considered."

and

WHEREAS, the applicant states that the premises consist of a plot 86.79 ft. frontage by 100 ft., irregular, in depth, on which is located an office shed and scale, 24 ft. by 48 ft., irregular, of Class 4 construction, 1 story (14 ft.) in height, and which plot is now used for parking of five motor vehicles owned by the coal company; and

WHEREAS, the applicant contends that the premises consist of a corner plot having thereon a one-story frame office, approximately 12 ft. by 48 ft. 6 in., a coal weighing scale, 12 ft. 6 in. by 21 ft. 6 in. open on three sides, and an open shed 11 ft. 6 in. by 21 ft. for coal boxes, the balance being vacant; that it is proposed to use the portion having a frontage on 76th street of 86.79 ft. and on Edsall avenue of 102.47 ft. for the storage of coal; the 10 ft. strip shown on diagram on Edsall avenue has a granite block curb and is now used as a sidewalk; that it is directly opposite a coal hopper (in same ownership as that under appeal) and a factory building on 76th street; that the Edsall avenue side faces the undercut of the Long Island Railroad; that the applicant seeks a variation of the Zoning Law, to permit the use of coal storage in the vacant portion of the plot for a temporary period of two years; that due to the difficulty in obtaining coal at present, when desired, it is necessary to obtain and receive a supply only when same is available; that the storage facilities are now inadequate to receive the amount of coal that can be obtained during this time of the year, therefore in order to build a reserve to supply the community with coal during the winter months, it is desired to store it on the vacant portion of this site; that it is proposed to build a 10 ft. high tight board fence on all lot lines around the premises; that the entrance and exit to the coal storage yard will be through the scales fronting on 76th street, using the existing drop curb; that there will be no other means of exit or entrance on either street; that the applicant further contends that there are existing nonconforming uses directly opposite the subject property, and also that a portion of the site is used for the office and scales of a coal company operating buildings and premises on both sides of the street and that due to the location fronting railroad property and tracks, the requested use is reasonable and one in keeping with the immediate neighborhood; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board, which recommended that the application should not be granted; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivision e of the zoning resolution.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 585-44, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

539-44-BZ

APPLICANT—George W. Swiller, for Morris Rosen, owner (Moncel Trading Co., lessee).

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a business use district, the change of occupancy of a two story building from stores and place of public assembly to cutting and baling of wiping cloths, offices and stores.

PREMISES AFFECTED—1272-1274 Hoe avenue, northeast corner of Freeman street (Block 2987, Lot 1), Borough of The Bronx.

APPEARANCES—

For Applicant: George Swiller and Isaac Schwartz.

For Opposition: Israel Siegel, Mrs. Gross, Sol D. Greenstein, Stella Morrison, Minnie Nieberg, Benjamin Holzberg and Frank L. Trent.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (539-44-BZ)

WHEREAS, George W. Swiller, for Morris Rosen, owner (Moncel Trading Company, lessee), filed September 21, 1944, an application under section 7e of the zoning resolution, to permit in a business use district, the change of occupancy of a two story building from stores and place of public assembly to cutting and baling of wiping cloths, offices and stores affecting premises 1272-1274 Hoe avenue, northeast corner of Freeman street (Block 2987, Lot 1), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, March 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Hoe avenue is in a business and residence use, B area and Class 1½ height district; that Vyse avenue is in a business and residence use, B area and Class 1½ height district and that Freeman street is in a business use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated September 13, 1944 re Alt. App. 259-44, reads:

"2. Proposed use of building for baling is contrary to Article 2, Section 4-(a)20 of Zoning Resolution."

and

WHEREAS, the applicant states the premises consists of a plot, having a frontage of 114½ ft. and a depth of 100 ft., irregular in area, on which is erected a one and two story, Class 3 constructed building, occupied as a public market and stores in the 1st story and place of assembly in the 2nd story; that it is proposed to occupy the 1st story for cutting and baling of wiping cloths and the 2nd story for cutting and office; and

WHEREAS, the applicant contends that the premises is a one and two story, Class 3 non-fireproof building located on a corner plot known as the northeast corner of Hoe avenue and Freeman street; that the one story portion faces on Freeman street and the two story portion on Hoe avenue in a business district; that the building was used as follows: cellar, boiler room under stores on Freeman street with no cellar under two story portion; that the first floor and stores on Freeman street and 1st floor of two story portion was a public market; that the 2nd floor over public market was occupied as public assembly; that the ceilings over stores and public market are wood beams and metal covered, and the ceiling over the 2nd floor and upper portion at rear over 1st floor, fireproof concrete arch and steel; that exits from public market on 1st floor now occupied as cutting of rags and baling, are by two 2 ft. 6 in wide doors at the rear side, facing yard which leads directly to the street and two 2 ft. 6 in. doors at street store front; that the second floor has front side exterior 3 ft. 8 in. wide iron stairs enclosed with masonry walls leading to the street, with one 3 ft. wide door at the 2nd floor and two 2 ft. wide doors at the street level of stairs; that rear side exit from 2nd floor at yard has 3 ft. 8 in. wide iron stairs, that door on 2nd floor for this exit is 3 ft. wide, opening on the above iron stair leading to yard, egress through the same to the street; that the request for this appeal is under 7e of the zoning resolution, to occupy the 1st floor of the 2 story building for cutting of wiping rags, baling room, offices and storage rooms and the 2nd floor for cutting of wiping rags and offices; that the work involved and now operating on these premises for cutting of wiping rags and baling is a Naval facility and essential; that in view of the above facts and its essentiality, it is respectfully requested that permission be granted for the occupancy herein requested; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, it appeared that the use has unlawfully existed since 1942 and has unlawfully included an adjoining vacant lot in the residence district for storage of bales of rags; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivision e of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 259-44, objection 2, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

597-44-BZ

APPLICANT—Lama and Proskauer, for Abraham, Morris and Samuel Sorkin, owners.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit partly in an unrestricted and partly in a residence use, C area district, the demolition of a gasoline service station, motor vehicle repair shop and poultry slaughterhouse and reconstruction as a gasoline service station and motor vehicle repair shop, without providing the rear yard, required under the provisions of Section 17, Zoning Resolution.

PREMISES AFFECTED—2987-2997 Atlantic avenue and 205-221 Elton street, northeast corner (Block 3955, Lot 48), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (597-44-BZ)

WHEREAS, Lama and Proskauer, for Abraham, Morris and Samuel Sorkin, owners, filed October 17, 1944, an application under section 7c of the zoning resolution, to permit partly in an unrestricted and partly in a residence use, C area district the demolition of a gasoline service station, motor vehicle repair shop and poultry slaughter house and reconstruction as a gasoline service station and motor vehicle repair shop without providing the rear yard required under the provisions of Section 17 of the Building Zone Resolu-

tion affecting premises 2987-2997 Atlantic avenue and 205-221 Elton street, northeast corner (Block 3955, Lot 48), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, March 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Atlantic avenue is in a business and unrestricted use, C area and Class 1 height district and that Elton street and Linwood street are in a residence and business use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated October 10, 1944, and substituted by a decision dated January 18, 1945, on N. B. Application 240-44, reads:

"1. Proposed motor vehicle repair shop, gasoline service station, office, lubritorium and auto laundry on a lot partly in an unrestricted use district and partly in a residential use district, is contrary to Art. II, Sec. 3 of the zoning resolution.

2. Provide rear yard as per Art. IV, Sec. 17 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 99 ft. 4¾ in. frontage by 153 ft. 5 in. in depth; irregular in area, on which is located several one and two story brick and frame buildings and the tanks and pumps for a gasoline service station, repair shop and poultry slaughter house; that it is proposed to demolish all these structures and construct a gasoline service station relocating pumps and erecting a one story, Class 3 constructed repair shop, 50 ft. by 100 ft. in area, with an extension approximately 25 ft. by 78 ft. for office, auto laundry lubritorium across the rear of the lot, omitting the rear yard; and

WHEREAS, the applicant contends that the premises in question has a frontage of 99 ft. 3 in. on Atlantic avenue and 153 ft. 5 in. on Elton street, 100 ft. on the northerly lot line and irregular on the easterly lot line; that at the present time it is improved with a gasoline service station, a poultry slaughter house, erected under N. B. 10840-23, for which certificate of occupancy 21867 was issued; that there is also an automobile repair shop and several frame sheds used for storing wagons and a stable; that it is the desire of the owners to demolish all the buildings and construct thereon a modern building for a gasoline service station and automobile repair shop as shown on plans filed with the application; that this proposed set up will greatly improve the community, as it will eliminate one of the most obnoxious non-conforming uses in the area; that Atlantic avenue is a fast moving highway and the proposed use is suitably adopted, that in view of the foregoing facts, it is respectfully requested that the application be granted; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7, subdivision c of the zoning resolution as to extension of use; and

WHEREAS, the Board deemed that under section 21, the application should be granted as to the required rear yard, inasmuch as no rear yard now exists and the proposed building at the rear replaces a building for similar use with material improvement in conditions as to the abutting premises.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution, and that the application be and it hereby is *granted*, under sections 7c and 21 thereof, to permit the reconstruction of the buildings as proposed, *on condition* that revised plans as indicated at this hearing in the form of working drawings shall be submitted to the Board for further consideration; that such plans shall be submitted within three (3) months from the date of this resolution, and at that time, such conditions deemed necessary and desirable by the Board will be imposed; that after approval of such plans, all permits required shall be obtained and all work completed within one year thereafter.

623-44-BZ

APPLICANT—Lama and Proskauer, for Realty Associates Securities Corp., owner (Whitman Hotel, lessee).

SUBJECT—Application (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, the parking of more than five motor vehicles as an accessory use to a hotel in a business use district.

PREMISES AFFECTED—160-11 89th avenue, north side, 127 ft. west of 161st street (Block 9764, Lot 97), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama and J. N. Whitman.

For Opposition: L. Levy.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (623-44-BZ)

WHEREAS, Lama and Proskauer, for Realty Associates Securities Corporation, owner (Whitman Hotel, lessee), filed October 27, 1944, an application under section 7h of the zoning resolution, to permit in a residence use district, the parking and storage of more than 5 motor vehicles as an accessory use to a hotel in a business use district affecting premises 160-11 89th avenue, north side, 127 ft. west of 161st street (Block 9764, Lot 97), Jamaica, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting March 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that 161st street is in a business use, C area and Class 1½ height district; that 89th avenue is in a business and residence use, C area and Class 1½ height district and that 88th avenue is in a business and residence use, C area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated October 23, 1944 re Misc. Applic. 2697-44, reads:

"1. The parking of automobiles in a residence district as an accessory use to a hotel located within a business district is contrary to Art. 2, Sec. 3 of the Building Zone Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 75 ft. frontage by 203 ft. in depth from 161st street, L shaped, and the depth from 89th avenue is 147 ft. on which is located a 7 story, Class 1 construction building, 127¼ ft. by 75 ft., occupied as a hotel, that it is proposed to occupy the balance of the plot for parking and storage of motor vehicles for use of guests of the hotel; and

WHEREAS, the applicant contends that the premises are improved with a seven story fireproof hotel, a two story frame dwelling used for the help, a two car garage at the northwesterly portion of the plot, and the balance of the unbuilt area is used for parking of automobiles for the guests of the hotel; that this parking and storage use has been going on since the hotel was erected in 1927; that permission is requested to legalize the parking and storage of more than five motor vhicles for use of the guests of the hotel; that owing to the lack of garage facilities in this area, this parking lot is highly in demand and is very essential to the hotel and it is therefore respectfully requested that this application be granted; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case

in which to exercise its discretion to grant a variance under section 7, subdivision h of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7h thereof for a term of five (5) years from the date of this action, to permit upon the unbuilt portion of lot 97 to be occupied for the parking, but not storage of more than five motor vehicles of the pleasure-car type, *on condition* that in all other respects, the premises shall comply with all laws, rules and regulations applicable thereto; that no building shall be erected on this lot during the term of this permit other than the existing buildings as shown on plans filed with this application marked "Received October 27, 1944;" that a substantial woven wire fence shall be maintained along the street building line and along the interior and rear lot lines where walls of adjoining buildings do not occur; that such fence shall be not less than 4 feet in height, as indicated on photographs filed with this application; that the entrance to lot from 89th avenue shall not exceed 12 feet with a curb cut opposite not exceeding 15 feet; that no signs shall be maintained on the premises except a neat sign may be attached to the fence, stating this parking lot is solely for the guests of the hotel, for which no fees are charged; that this variance shall continue only so long as the hotel is in operation and this parking lot is used in conjunction therewith as proposed and as herein permitted; that the plot shall be surfaced with steam cinders or clean gravel, suitably bound and rolled to provide a reasonably smooth surface and surface drainage; that adequate bumpers shall be maintained at all points on the interior and rear lot lines to protect the fence and adjoining buildings from damage, and that all permits required shall be obtained and all work completed within three months from the adoption of this resolution.

691-44-BZ

APPLICANT—Judson E. Schnall, for 8010 Fifth Avenue Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit on a plot located in a business use and residence use, C area, district, the erection of a fur storage vault extending from a business use district into a residence use district, as an extension to an existing business building and not in compliance with the requirements for C area district.

PREMISES AFFECTED—8010-8012 5th avenue, west side, 63 ft. south of 80th street (Block 5989, Lots 46 and 47), Borough of Brooklyn.

APPEARANCES—

For Applicant: Judson E. Schnall and J. Lewis.
For Opposition: W. F. Cahill and Mary M. Smith.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (691-44-BZ)

WHEREAS, Judson E. Schnall, for 8010 5th Avenue Corporation, owner, filed November 30, 1944, an application under Sections 7c and 21 of the zoning resolution, to permit on a plot partly in a business and partly in a residence use, C area district, the erection of a fur storage vault extending from the business use into the residence use district, as an extension to an existing business building and not complying with the C area district requirements, affecting premises 8010-8012 5th avenue, west side, 63 ft. south of 80th street (Block 5989, Lots 46 and 47), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting March 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that 5th avenue is in a business use, C area and Class 1¼ height district and that 80th and 81st streets are in a business and residence use, C area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated November 17, 1944, on Alt. Applications 3352-44 and 3353-44, superseded by decision of January 9, 1945, reads:

> "1. Proposed extension into a residential zone to be used for commercial occupancy is contrary to Art. II, Section 3 of the Zoning Resolution.
>
> 2. Proposed extension to premises now exceeding 60% of lot area is contrary to Article IV, Section 13 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, having a frontage of 42 ft. and a depth of 130 ft. on which is located a building 42 ft. by 88 ft. in area on the 1st story and 42 ft. by 60 ft. in area above, occupied—1st floor, stores (retail sales); 2nd floor, 1 family; 3rd floor, 1 family and that it is proposed to erect a fur storage vault in the yard, of reinforced concrete 27 ft. by 42 ft., one story, (16 ft. above grade) leaving a 10 ft. rear yard; and

WHEREAS, the applicant contends that the premises has a frontage of 42 ft. on 5th avenue and an average depth of 130 ft.; that the buildings at present have an average depth of 88 ft. on the 1st floor and an average depth of 60 ft. on the 2nd and 3rd floors; that the 1st floor is occupied as stores and the 2nd and 3rd floors by one family on each floor; that it is proposed to erect a one story fireproof reinforced concrete extension at the 1st floor to be used for the storage of furs, that this proposed extension is to have no window openings whatsoever, and no other openings except for access from the present one story brick extension on the front portion of the lot; that a one story brick extension now exists on the northerly side of 8010 5th avenue and a one story cement block garage on the southerly side of 8012 5th avenue, that it is proposed to maintain a 10 ft. rear yard from the rear lot line and the proposed extension will be in line with the present one story extension on the northerly side of 8010 5th avenue; that the line between business and residential runs parallel to 5th avenue and 100 ft. from 5th avenue; that this line divides the proposed extension, diagonally, making one half of the proposed extension in the business zone and one half of the proposed extension in the residential zone; that the owners of the premises now conduct their fur sales at 7818 5th avenue and contemplate moving to this new location; that at present, the furs are storaged in a vault in upper Manhattan and it is a great hardship to transfer the furs daily, as is required; that reconsideration is respectfully requested under Sections 7c and 21 of the zoning resolution to permit the extension of an existing building and conforming use, into a more restricted district, on the basis that it is proposed to safeguard the character of the district by not extending beyond the adjacent structure on the northerly side, and by maintaining a 10 ft. rear yard and having no window openings on any of the lot lines; that no manufacturing of any kind will be carried on in this proposed fur vault; and that said extension is to be used for fur storage purposes only; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution as to area coverage and was, therefore entitled to relief on the grounds of practical difficulty and unnecessary hardships and that this was a proper case in which to exercise its discretion to grant a variance as to extension of use under section 7, subdivision c of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution, and that the application be and it hereby is *granted*, under section 7c thereof, to permit the extension as proposed and as indicated on plans filed with this application, *on condition* that a substantial

metal fence, either cyclone type or steel picket, shall be constructed along the parapet continuously from the existing second story along the side and rear lot lines; that such fence shall be not less than 5 feet in height above the lawfully required parapet; that no interior lot line opening shall be constructed or maintained from these premises to those abutting; and, *granted* under section 21, to permit the extension of the building to exceed the permitted lot area, provided the building shall not be further increased in height or area; that a rear yard as proposed and shown shall be maintained unbuilt upon; that the use of the premises shall not be otherwise than as proposed; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within one (1) year from the date of this application.

71-45-BZ

APPLICANT—Western Electric Co., Inc., for Metropolitan Life Insurance Co., owner (Consolidated Edison Co. of New York, Inc., lessee).

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a business use district, for a temporary period of two years, the conversion of use of an existing office building to a factory building with an area approximating 35% of the area of the building devoted to manufacturing purposes; the remainder of the building to be used for offices, storage of component materials and parts and cafeteria.

PREMISES AFFECTED—109-119 East 16th street and 35-45 Irving place, northwest corner (Block 872, Lot 13), Borough of Manhattan.

APPEARANCES—

For Applicant: George F. Knapp, Mr. Snyder, E. R. Math and J. Williams.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustav Goldman, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (71-45-BZ)

WHEREAS, Western Electric Company, Inc. for Metropolitan Life Insurance Company, owner (Consolidated Edison Company of New York, Inc., lessee), filed February 14, 1945, an application under section 7e of the zoning resolution, to permit in a business use district for a temporary period of two (2) years, the conversion of use of an existing office building to a factory building with an area approximately 35% of the area of the building devoted to manufacturing purposes; the remainder of the building to be used for office purposes, storage of component materials and parts and cafeteria; affecting premises 109-119 East 16th street and 35-45 Irving place, northwest corner (Block 872, Lot 13), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting March 6, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that East 16th street, East 17th street, Union Square East and Irving place are in a business use, B area and class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated February 13, 1945 on Alt. Applic. 216-45, reads:

> "1. As premises are located in a business district, manufacturing is limited to 25% of floor space of building or space equal to area of lot, whichever is greater. Sec. 4(c) Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 225 ft. frontage by 146 ft. in depth; on which is located an 11 story and penthouse 161 ft. high class 1 constructed building occupied for offices, that it is proposed to occupy the building for a temporary period for 35% factory work, the remainder for office, storage of component materials and parts, and cafeteria; and

WHEREAS, the applicant contends that the building is of class 1 construction and is constructed of structural steel beams and girders with steel columns and exterior masonry walls; that all of the structural steel is fireproofed by a covering of cement mortar; that the floors consist of plank on wooden sleepers on concrete flat arches; that most of the windows consist of a double hung wooden sash glazed with plain glass lights, except for the 12th floor penthouse, which has windows of wire glass in metal sheathed wooden sash; that there are three interior stairways in this building; that the building has an approved two source automatic sprinkler system and in the event a variation is granted, the applicant will install portable fire-fighting appliances, including an approved fire alarm system; that the applicant has recently been authorized by the U. S. Signal Corps to increase manufacture of Radar and restricted communication equipment in quantities beyond its present manufacturing capacity; that at the present time, in the metropolitan area, the applicant is producing large quantities of this type of equipment and employs skilled key personnel and maintains facilities which will contribute immeasurably to increased production at the proposed location; that the proposed location in Manhattan is desirable in that the proximity of similar operations at other locations in New York City permits the interchange of thoroughly trained supervisory personnel; that there is no other available space which the applicant can obtain or convert for this use; that the applicant has consulted with the Army Corps of Engineers, U. S. Navy Inspector of Naval Material and the Signal Corps for the purpose of obtaining an available factory of the size required and has been advised that there is no space under the control of the Armed Forces which may be released at the present time; that a search has been made by real estate brokers in the metropolitan area to locate suitable space within any area presently zoned for factory use without success; that there are approximately 300,000 sq. ft. gross area in this building which will be adequate for the essential war production contemplated; that the type of work to be performed will be similar to that at the applicant's plant located at 529 West 42nd street, N. Y. C., which consists of assembling prefabricated parts, wiring and testing assemblies and packing the essential products for delivery to the various war theaters; that it is not an objectionable type of factory work; that if this variation is granted, certain alterations of the building will be required to comply with applicable laws, rules and regulations; that preliminary examination indicates that the center stair and center bank of elevators are enclosed in sheet metal partitions; that these would be replaced by new masonry partitions; that inasmuch as the center stairway does not provide egress directly to the exterior of the building, it is proposed that a masonry enclosed corridor will be constructed at the first floor between the stair exit and the exterior exit to the street; that present toilet facilities appear adequate for the proposed occupancy, but should such facilities be found inadequate, additional facilities will be installed in accordance with the provisions of the New York Building Code and State Labor Law; that the entire building will be occupied by the Western Electric Company, for general office, shop employees' lockers, shop offices, employee training classrooms, select stores and other incidental uses as well as actual manufacturing space; that based upon a review of other occupancies of the Western Electric Company in the metropolitan area, the net floor space used directly for actual manufacturing operations will not exceed 35%; that it is therefore requested the Board grant a variation of section 4c of the zoning resolution to permit the use of said premises for factory use exceeding 25% of the floor area for a period of two years; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision e, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7e thereof, for a term of two (2) years from the date of this action, to permit the factory use throughout the building as proposed, provided such factory use shall at no time occupy more than 35% of the total floor area of the building; that in all other respects, the building and occupancy shall be made to comply with all laws, rules and regulations applicable thereto, including zoning, building code requirements and the New York State Labor Law; that in the event the building is made to comply with the law as herein required, it may be listed as a building in which the amount of manufacturing space as permitted in a business use district, in which the building is now located, may be continued.

APPEALS FROM ADMINISTRATIVE DECISIONS

596-44-A

APPLICANT—Thirty Central Park South, Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—30 Central Park South, south side, 320 ft. east of Sixth avenue (2nd to 13th floors); (Block 1274, Lot 60), Borough of Manhattan.
APPEARANCES—
For Applicant: Francis A. O'Neill.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over, no date set.

686-44-A

APPLICANT—Smith, Hinchman and Grylls, Inc., lessee, for National City Bank of New York, owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—52 Wall street, north side, 99.4 ft. east of William street and 51 Pine street (7th to 11th floors, inclusive); (Block 40, Lot 12), Borough of Manhattan.
APPEARANCES—
For Applicant: Gerald A. Cartier.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (686-44-A)

WHEREAS, Smith, Hinchman and Grylls, Inc., lessee, for National City Bank of New York, owner, filed November 29, 1944, an appeal from an order of the fire commissioner, affecting premises 52 Wall street, north side, 99.4 ft. east of William street, running through to 51 Pine street (7th, 8th, 9th, 10th and part of 11th floor); (Block 40, Lot 12), Borough of Manhattan; and

WHEREAS, order 39658-LC, issued by the fire commissioner, November 1, 1944, reads:

"1. Remove the refrigerating machines (Water coolers) containing 1½ lbs. of Freon in each machine from halls of building on the 7th, 8th, 9th, 10th and 11th floors, as per Sec. C19-96.0.4 of the Administrative Code of the City of New York."

and

WHEREAS, the applicant states that the building is 32 stories (403 ft. 4 in.) in height, 45 ft. front on Wall street, 88 ft. front on Pine street and a depth of 194 ft., of class 1 construction, erected in 1928, located in a business use, B area, class 2½ height district, and used and occupied as follows: basement C—storage and vaults—20 persons; basement B—same—24 persons; basement A—same—60 persons; 1st floor—bank—80 persons; 2nd and mezzanine—bank—150 persons; 3rd, 4th, 5th, and 6th stories—vacant; 7th to 31st floors—offices, 100 persons on the 7th floor, 111 persons on the 8th, 128 persons on the 9th floor, 138 persons on the 10th floor, 180 persons on the 11th floor, 165 persons on the 12th floor, 90 persons each on the 13th to 17th floors, 75 persons each on the 18th to 27th floors, 60 persons each on the 28th to 31st floors; 32nd floor—storage—no persons; 33rd floor—storage and machine rooms—no persons; and

WHEREAS, the applicant contends that it occupies the entire 7th, 8th, 9th, 10th and part of the 11th floors for research and service parts procurement, for the U. S. Navy; that it maintains a staff of 509 persons; that in order to maintain the efficiency of the staff, the applicant has installed water coolers as indicated on plans filed with this appeal; that the refrigerant employed in these coolers is non-toxic, non-irritant and non-inflammable; that the entire floor space occupied by the applicant is so partitioned as to allow sufficient ventilation to counteract any gases which might emanate from the refrigerating machinery; that the coolers are installed in the only feasible location; that there is no water piping in any of the columns or the walls within or enclosing the general office space occupied by the applicant and its staff; that to relocate the water coolers would necessitate the erection of new partitions, reinstallation of the water coolers requiring the cutting of solid concrete floors, all of which would result in practical difficulties and unnecessary hardship and interfere with the efficiency of the applicant's staff; that its efficiency is absolutely essential and imperative; that the occupancy is of a temporary nature.

Resolved, that the decision of the fire commissioner, as to Order 39658-LC, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the 7th, 8th, 9th and 10th floors shall be occupied as a whole by the present lessee, and granted as to the 11th floor, provided the water cooler of the type proposed is located within the space occupied by such tenant or is located within a toilet room and not within the public corridor; that the ventilation of the floors as proposed, in addition to the natural ventilation, shall be maintained.

85-45-A

APPLICANT—Gerson T. Hirsch, for West Disinfecting Co., and City of New York, owners (West Disinfecting Co., lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—42-17 West street (Barn street), east side, 60.84 ft. south of Jackson avenue (1st and mezzanine floors); (Block 263, Lots 1, 4 and 12), Long Island City, Borough of Queens. (Under section 35 General City Law—re bed of mapped street—West street.)
APPEARANCES—
For Applicant: Gerson T. Hirsch and George H. Heuer.
For Administration: Fred Dahlem, Dep't of Housing and Buildings and J. Haney, Board of Estimate.
ACTION OF BOARD—Appeal withdrawn on request of applicant.
THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (85-45-A)

WHEREAS, Gerson T. Hirsch, for West Disinfecting Company and the City of New York, owners, filed February 21, 1945, an application pursuant to section 35 of the General City Law for permission to erect a building, a portion of which will encroach upon a mapped street—West (Barn) street, af-

fecting premises 42-17 West street, east side, 60.84 ft. south of Jackson avenue (Block 263, Lots 1, 4 and 12), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent dated February 16, 1945 on N. B. 52-45 reads:

> "1. As this proposed building is partially in the bed of a mapped street, secure permission for the erection of this building from the Board of Standards and Appeals as per Art. 3, sect. 35 of General City Laws."

and

WHEREAS, the applicant was advised that the appeal was improperly brought, inasmuch as the Board is without power to permit the structure as proposed within the lines of an existing opened street.

Resolved, that the appeal be and it hereby is withdrawn.

MATERIAL SUBMITTED FOR APPROVAL

742-44-SM

APPLICANT—Porete Mfg. Co., owner.
SUBJECT—Porete Manufacturing Company's Porex Slabs, size 80 in. x 20 in. x 1¾ in., approval of.
APPEARANCES—
For Applicant: Ernest Walter.
ACTION OF BOARD—Material approved in accordance with report of the Committee on Tests.
THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (742-44-SM)

WHEREAS, Porete Mfg. Co., owner, filed on December 21, 1944, an application with the Board of Standards and Appeals for approval of the material known as Porete Manufacturing Company's Porex Slabs, size 80 in. x 20 in. x 1¾ in.; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

February 23, 1945

Cal. 742-44-SM
Subject: Porex Slabs, size 80 in. x 20 in. x 1¾ in., approval of.

The Porete Manufacturing Company of North Arlington, New Jersey, filed an application with the Board of Standards and Appeals for the approval of their Porex Slabs for use in roof construction under the mandatory requirements of C26-178.0,b for loads as permitted under tests as prescribed in C26-626.0 and for live loads not in excess of 40 lbs. per sq. ft. when used in either roofs or floors, with dead loads not to exceed 20 lbs. per sq. ft.

Description

Porex Slabs are manufactured in widths of 20 in., lengths up to 80 in. and in a thickness of 1¾ in. of wood fiber, high early strength portland cement with certain chemicals to mineralize the wood fiber. Two bags of cement are thoroughly mixed with not more than 150 lbs. of wood fiber, and the necessary quantity of water and chemicals for not less than ten minutes to produce a uniform coverage of the wood fiber with cement. The mixed cement and wood fiber is deposited in a uniform layer in accurate moulds. The quantity for each slab is weighed so as to produce a slab with a weight of not less than 4 lbs. per square foot when airdried. After this the slabs are compressed and subjected to a pressure of not less than 5 tons for each slab, at which pressure the slabs set overnight so that they can be removed from the moulds the next day. After the slabs are removed from the moulds, they are cured at a temperature of not less than 70 degree F. for not less than four days before they are removed to the yard. When these slabs are erected on roofs or floors, they are always covered with a 1:3 cement grout finish not less than ¼" thick. This grout is applied wet, the surplus water being absorbed by the Porex Slabs. These slabs are supported in metal rails having not less than ⅝" bearing along each edge or over beams having a width of not less than 2¾ in. The applicant proposes to supervise erection of the slabs and the application of the cement finish over the surfaces.

Test

Transverse bending tests upon the applicant's material were made in November 29, 1935, at Columbia University, Report No. 2412, as follows:

Description of Test Specimens

The Porex test slabs were 1¾ in. thick, 26¾ in. long, and 20 in. wide. Specimens numbered 1, 2, 7, 8, 13 and 14 were plain, i.e., without cement mortar finish. Specimens 3, 4, 9 and 10 had a finish of cement mortar ½ in. thick on the top surface of the Porex. On specimens 5, 6, 11 and 12, a 1" cement mortar finish was placed on the top surface of the slab. The cement mortar finish was applied to the slabs at the plant of the Porete Company.

Method of Test

The slab was placed on 4 in. I-beam supports having a flange width of 2¾ in. The distance c-c of supports was 25 in., while the clear span was 22¼ in. approximately. Load was applied at the third points through I-beams extending across the full width of the slab. Two of each type of slab described above were tested in a wet condition after having been immersed in water for 40 hours.

Results of Transverse Bending Tests

The results of the transverse bending tests made upon Porex slabs as described above are contained in the following tables:

Transverse Bending Tests

Table I

Material—Porex slabs with and without cement mortar finish. Thickness of Porex alone 1¾ in.

How Tested—Dry. Third point loading. Span 25 in. c-c of supports.

Temp. 3½ min.	1580°F	1980°F	1780°F
Temp. 4 min. 50 sec.	1570°F	1750°F	1660°F

The applicant also furnished data of a fire test, Columbia Report No. 2412, predicated upon the Columbia temperature curve for a period of 40 minutes. However, inasmuch as the requirements of the Administrative Code under C26-88.0, provide for test to determine the incombustibility of materials, and accordingly such tests were performed at the laboratories of the Protexol Corporation, Kennilworth, New Jersey, and witnessed by a representative of the Board, Frank Howard. Two samples, approximately 5 by 6 by 1¾ in. were placed in a furnace and exposed to a temperature of 1200 deg. F. for a period of 5 minutes, as follows:

Conditions after test: No flame, no glow, very little smoke, no odor. Blackened at bottom and smoked on sides.

Wt. before 464.4 gr.
Wt. after 428.5 gr. } loss 7.5%

35.9 gr.

Recommendations

On the basis of the foregoing data, the Committee on Tests recommends the approval of Porex Slabs as described herein for use in simple spans and as manufac-

tured by the Porete Manufacturing Company under C26-191.0.a for use as an incombustible material having met the requirements of C26-88.0, which however shall not include the use of this material as a wall, floor or roof system where a fire resistive rating is required. Approval is also recommended for the use of this material in Class 1 and Class 2 construction under C26-618.0 where the protective covering is permitted to be omitted, from trusses, beams and subpurlins and where, a clear height of at least 20 ft. exists between the lower cord of the trusses and the top of the floor and for live loads of 40 lbs. per sq. ft. for human occupancy under C26-344.0 and roof loads as provided in Section C26-347.0, provided that no fire resistive rating is required of such uses.

It is further recommended that Porex Slabs shall be placed on spans not exceeding 24", when metal rails are used and 26¾", when wood or steel joists are used, shall weigh not less than 4.0 lbs. per sq. ft. exclusive of cement finish and shall be placed in metal in rails having an edge bearing of not less than ⅝" or over horizontal supports having a width of not less than 1¾ in. and not less than one-fourth in. of cement finish consisting of one part of cement with no more than 2 parts of sand shall be placed over the Porex surfaces, and on the further condition that all erection work be under the supervision of the applicant, and that each bill of lading carry a stamp reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 742-44-SM.

(Sgd) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as Porete Manufacturing Company's Porex Slabs, size 80 in. x 20 in. x 1¾ in. *on condition* that the material be manufactured, used and labelled in accordance with the above report.

Adjourned: 12:30 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, MARCH 6, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

514-44-A

APPLICANT—N. Denner, for United Metal Box Co., Inc., owner.

SUBJECT—Application reopened February 27, 1945—appeal from a decision of the borough superintendent.

PREMISES AFFECTED—168-186 7th street, south side, 100 ft. west of 3rd avenue (Block 996, Lots 21 to 28), Borough of Brooklyn.

APPEARANCES—

For Applicant: Nathan Denner.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (514-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 168-186 7th street, south side, 100 ft. west of 3rd avenue (Block 996, Lots 21 to 28), Borough of Brooklyn, was granted by the Board on November 14, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, this appeal was reopened and restored to the calendar February 27, 1945, to permit reconsideration based on an additional decision issued by the borough superintendent, under B. N. Notice Applic. 727-44, which decision reads:

"3. Projection of screens for windows, beyond building line is contrary to 2.4.1.1 of the Code."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted November 14, 1944, so that as amended, the resolution shall read:

"Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on B.N. Applic. 727-44, and that the appeal be and it hereby is *granted on condition* that no panic bolts shall be installed on any doors other than the three doors opening from the first floor to 8th street; that such panic bolts shall be of an approved type; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 513-44-A.

"Resolved further, that two of the doors hereinbefore referred to as opening from the first floor to 8th street may have sill approximately 18 in. above street grade, provided a step beyond the building line is constructed and maintained as permitted by the Code, and *withdrawn* as to Objection 3."

601-44-A

APPLICANT—Frank J. Ross, for Cora Koch, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—340 Casanova street, east side, 150 ft. south of East Bay avenue (first floor); (Block 2774-A, Lot 185), Borough of The Bronx.

APPEARANCES—

For Applicant: Frank J. Ross.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (601-44-A)

WHEREAS, Frank J. Ross, for Cora Koch, owner, filed October 20, 1944, an appeal from a decision of the borough superintendent, affecting premises 340 Casanova street, east side, 150 ft. south of East Bay avenue (1st floor); (Block 2774-A, Lot 185), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated October 3, 1944, on N.B. Applic. 43-44, reads:

"5. One story Class 3, non-fireproof commercial building with one street frontage exceeding 10,000 sq. ft. in area, is contrary to Sec. 4.2.1 of the Building Code and C26-254.0 of the Administrative Code."

and

WHEREAS, the applicant states the building will be one story (23 ft.) in height; 125 ft. 4¾ in. by 97 ft. 4 in. in area, of Class 3 construction; located in an unrestricted use,

A area, Class 2 height district, and used for the storage of crane compressors, tools, etc., with an occupancy of 10 persons; and

WHEREAS, the applicant contends that the storage of contractor's equipment and adequate repairs necessitate the area shown on the plans for the proper handling of equipment; that the owner is a contractor for erecting steel and he will occupy the building himself.

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 43-44, Objection 5, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be further increased in height or area, and granted only so long as the building is used as proposed and complies in all other respects with all laws, rules and regulations applying to its use and occupancy, and that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct.

612-44-A

APPLICANT—Ronzoni Macaroni Co., Inc., owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—36-20 Northern boulevard, southwest corner of Hulst place (1st floor); (Block 214, Lot 21), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: Alfred Weiner and Ernest Ronzoni, Jr.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (612-44-A)

WHEREAS, Ronzoni Macaroni Co., Inc., owner, filed October 28, 1944, an appeal from an order of the fire commissioner, affecting 36-20 Northern boulevard, southwest corner Hulst place (1st floor); (Block 214, Lot 21), Long Island City, Borough of Queens; and

WHEREAS, Order 13529-LF, issued by the fire commissioner September 28, 1944, reads:

"3. Remove panic bolts 1st story to street; arrange doors to open both sides. Section 272 of the Labor Law."

and

WHEREAS, the applicant states the building is 5 stories (65 ft.) in height; 180 ft. by 81 ft. in area; of Class 1 construction; erected 1925, located in an unrestricted use, A area, Class 1½ height district and used and occupied since 1925 for manufacturing macaroni with 11 persons in the cellar, 5 persons on the 1st floor, 30 persons on the 2nd floor; 9 persons on the 3rd floor, 160 persons on the 4th floor and 3 persons on the 5th floor; that the building is equipped with a one source sprinkler system and a standpipe system; that there are two 3 ft. 9 in. reinforced concrete fireproof enclosed stairs leading from the roof to the street; and

WHEREAS, the applicant contends the building is equipped with an ADT fire alarm station system throughout; that the doors in question are at the foot of the stairways in the building; that the building is used for the manufacture of food products and the entire building is occupied by the owner; that a watchman is maintained on the premises when the building is closed and makes regular inspection tours throughout the night, which are recorded with the A.D.T. service; that to prevent prowlers entering the building, it is necessary to keep the doors closed from the outside; that if the panic bolts were discontinued, the owner would be required to have two additional watchmen at these doors; that at the present time, a watchman is maintained at the street level, center door, and this door is kept open and not equipped with panic bolts; that if the doors in question are not equipped with panic bolts or provided with a watchman, the products would be subject to acts of michief and vandalism from outsiders; and it is therefore requested that the Board permit the continuance of the use of panic bolts.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the labor law, as cited in an order of the fire commissioner acting on Order 13529-LF, Objection 3, and that the appeal be and it hereby is *granted on condition* that no panic bolts shall be installed or maintained on any doors except the east end stair tower door to the street, and west end stair tower door to the street, as indicated on plans filed with this appeal marked "Received October 28, 1944," *on condition* that such panic bolts shall be of approved type; that the use of these panic bolts may continue only so long as the building is occupied for the purpose as set forth by one occupant throughout the building and the sprinkler and standpipe systems are maintained to the satisfaction of the fire commissioner, and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

617-44-A

APPLICANT—Beard's Erie Basin, Inc., owner (International Freighting Corp., Inc., lessee).
SUBJECT—Appeal from a decision and an order of the fire commissioner.
PREMISES AFFECTED—Pier 2, west side of Columbia street, 1830 ft. south of Halleck street (Block 613, Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: Ernest W. Congdon, Jr.
For Administration: Thomas A. Larkin and Daniel P. Lenihan, Fire Dep't.
ACTION OF BOARD—Appeal denied.
THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (617-44-A)

WHEREAS, Beard's Erie Basin, Incorporated, owner (International Freighting Corporation, Inc., lessee), filed on November 1, 1944, an appeal from an order of the fire commissioner, affecting Pier 2, west side of Columbia street, 1830 ft. south of Halleck street (Block 613, Lot 1), Borough of Brooklyn; and

WHEREAS, Order 12699-LF, issued by the fire commissioner April 26, 1944, reads:

"1. Install an approved automatic dry sprinkler system throughout the pier having at least one source of water supply. Note: Plans and specifications to be filed with and approved by the Department of Marine and Aviation before work is commenced. Section C19-161.0 Administrative Code, and as per resolution Board of Standards and Appeals. 460-32-A."

and

WHEREAS, a subsequent decision of the fire commissioner, dated August 3, 1944, reads:

"This is to advise you that recent inspections made of the above mentioned pier indicate that the conditions as to occupancy and use have substantially changed since the modification waiving the sprinkler system was granted by the Board of Standards and Appeals on October 21st, 1930.

In your application to the Board you stated that the incoming cargoes consisted principally of raw cocoa beans and outgoing cargoes being principally machinery, steel and iron and case goods.

The latest inspection indicates that the material now stored on the pier is of a more hazardous nature. Therefore, the modification granted by the Board is no longer effective and it will be necessary for you to comply with Order 12699-LF or file an appeal from this decision with the Board of Standards and Appeals requesting a further modification.

You are requested to advise this office what action you have decided to take so that we may mark our records accordingly."

and

MINUTES

WHEREAS, a decision of the fire commissioner dated October 27, 1944, reads:

"This is to advise you that your request for reissuance of Order 12699-LF is denied as it is not the policy of this Department to reissue violation notices."

and

WHEREAS, the applicant states the building is one story (34 ft.) in height to peak; 100 ft. by 854 ft. in area; of Class 5 construction, equipped with a standpipe system; erected 1922; located in an unrestricted use district and used for freight in transit; and

WHEREAS, the applicant contends that the lease does not permit the lessee to store hazardous cargo on the pier; that the lessee has abided by these provisions although occasionally hazardous cargo may have been handled in transit across the pier; that since the inception of the National Emergency, the War Shipping Administration has played an increasing part in the operation of piers and the requirements of the War Shipping Administration have burdened the lessee with the necessity of handling in transit across the pier occasional cargoes which may have been hazardous but which were not explosive; that all these cargoes are packaged cargoes in accordance with the Interstate Commerce Commission requirements and were on the pier only during transit; that the pier is subject to daily inspections by the Coast Guard, the Fire Department, representatives of the lessee and various municipal agencies; that where cargoes were deemed hazardous by the Coast Guard, supplemental fire protection has been provided; that the pier now maintains an adequate and approved standpipe system, auxiliary fire extinguishing equipment, including three 40 gallon chemical extinguishers, foam fire extinguisher, 26 fire bucket tanks, numerous sand boxes and self-closing metal lined rubbish bins and A.D.T. fire alarm system, A.D.T. watchmen's service, a fire brigade, and two men with Fire Department certificates of fitness, adequate pier guard service around the clock, for both shore and river ends of the pier, that vessels using this pier are War Shipping Administration vessels and usually are outfitted with satisfactory fire extinguishing equipment; that at the time of the hearing by the Board on Cal. 462-30-A, there was no contemplation of a National Emergency, that however, the installation of a standpipe system and other requirements of the Board's resolution has developed a security for this pier; that the applicant does not wish to find fault with the Fire Department's determination that the material now stored on the pier is of a more hazardous nature; that such material that may be deemed hazardous has been at the instance of the War Shipping Administration; that title C of Section C19-4.0 of the Administrative Code recognizes the special status of articles shipped in conformity with the I.C.C. regulations and to military and naval forces of the U. S.; that there does appear to be some doubt which may place the applicant in a position as to the Fire Department and in conflict with the Department of Marine and Aviation; that this is due to the specific requirements of Section C-19-161.0, which relates solely to materials requiring manual operation and not to structural changes such as the installation of an automatic sprinkler system; that in view of the special circumstances herein referred, it is requested that the order of the fire commissioner be modified for the duration of the National Emergency; and

WHEREAS, the record indicates that there is also outstanding an order of the Fire Commissioner to install 10" x 10" hose openings in the pier floor which has not been complied with; and

WHEREAS, the Board deemed that the same procedure should be followed as in the appeals brought by the New York Dock Co. (555-44-A and others) now subject to court review, by denying the appeal.

Resolved, that the order of the fire commissioner acting on Order 12699-LF, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

752-44-A

APPLICANT—Sidney Daub, for Ten West Twenty Corp., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—9 West 19th street, north side, 195 ft. west of 5th avenue (2nd to 5th floors, inclusive); (Block 821, Lot 33), Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal dismissed, as being improperly before the Board.

THE VOTE TO DISMISS—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (752-44-A)

WHEREAS, Sidney Daub, for Ten West Twenty Corp., owner, filed December 29, 1944 ,an appeal from a decision of the borough superintendent, affecting premises: 9 West 19th street, north side, 195 ft. west of Fifth avenue (2nd, 3rd, 4th and 5th floors); (Block 821, Lot 33), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated December 14, 1944, relating to Violation 5330-40, reads:

"In reply to your letter of December 4, 1944, relative to means of egress from above stated premises in rear of 6 and 8 West 20th Street, you are advised that we have no record in this department showing present egress from rear fire escape was ever accepted."

and

WHEREAS, Violation 5330-44, issued July 7, 1944, reads:

"Sec. 274—Doors leading to rear fire escape are not self-closing on all floors and safe egress from termination of fire escape is not provided as required by law.

Sec. 272—Exit signs and red lights to indicate both means of exit are not provided on each floor as required by law."

and

WHEREAS, the applicant states the building is 5 stories (53 ft.) in height, 25 ft. by 86 ft. in area at 1st story; 25 ft. by 52 ft. in area at typical floor; of Class 3 construction; erected in 1903; located in an unrestricted use, B area district; Class 2 height district; used and occupied as follows: Cellar, boilerroom and kitchen, 5 persons; 1st floor—restaurant, 150 persons; 2nd floor, manufacturing knitwear, 5 persons; 3d floor—vacant; 4th floor—custom tailor, 7 persons; 5th floor—vacant; proposed to be used and occupied as follows: Cellar, same; 1st floor—same; 2nd floor—manufacturing knitwear, 6 persons; 3rd floor, manufacturing clothing, 7 persons; 4th floor—custom tailor—7 persons; 5th floor—manufacturing clothing—7 persons; that the building is equipped with interior fire alarm system and fire drills are maintained; that there is one 3 ft. wide wood stairs from the roof bulkhead to the street, enclosed in partitions of wood studs, lath and plaster, equipped with fireproof, self-closing doors; and one fire escape at the rear, leading to the roof by stair, with egress from its termination over adjoining easterly and northerly extension roof and through easterly and northerly building; and that windows on the course of fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that the only matter involved is egress from the termination of the fire escape; that all other items of Violation 5330-44 will be complied with; that the use of the building is of a non-hazardous nature and the building will have a small occupancy above the first floor; that the building has been used for manufacturing since its erection; that the fire escape at the rear extends from the second story extension roof to the roof of the building, and is equipped with fireproof, self-closing casement doors on each floor; that egress from termination of fire escape at 2nd story consists of a 3 ft. wide iron bridge from the extension roof of the building in question, to the extension roof of Nos. 6-8 West 20th street, which building has an exterior stairway with egress from termination over the extension roof of building in question; and that additional egress can

be had by a 60 degree stair from the extension roof at the 3rd story of the building in question to the adjacent second story roof of the building to east at No. 7 West 19th street; that the records of Division of Fire Prevention of the Fire Department, indicate that the fire escape and the egress from its termination was accepted by the Bureau of Buildings in 1920 as complying with Order 71194-LD; that in view of the small area of the building and the light occupancy and that egress is now provided from the termination of the fire escape, the Board is requested to accept the existing condition; and

WHEREAS, applicant has filed a communication dated September 11, 1944, addressed to him by the Division of Fire Prevention, which reads:

"In reply to your letter in reference to our records on the fire escape located on the rear of the above premises, you are advised that a fire escape on the rear of the building was altered to comply with our Order 71194-LD and approved by the Bureau of Buildings in 1920. The plans or records of the present Department of Housing and Buildings should show the means of egress from the second story balcony."

and

WHEREAS, it appears for the record that the existing fire escapes were never lawfully approved; and

WHEREAS, in the opinion of the Board plans should be filed with the Borough Superintendent.

Resolved, that the appeal be and it hereby is *dismissed*, as being improperly before the Board.

1-45-A

APPLICANT—Judson E. Schnall, for Jacob B. Plotkin, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—1319 50th street, north side, 140 ft. east of 13th avenue (1st floor); (Block 5642, Lot 70), Borough of Brooklyn.
APPEARANCES—
For Applicant: Judson E. Schnall.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal denied.
THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (1-45-A)

WHEREAS, Judson E. Schnall, for Jacob B. Plotkin, owner, filed January 2, 1945, an appeal from a decision of the borough superintendent, affecting premises: 1319 50th street, north side, 140 ft. east of 13th avenue (1st floor); (Block 5642, Lot 70), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated December 12, 1944, on Alt. Applic. 3547-44, reads:

"1. Changing occupancy from residence to public use in a frame bldg. is contrary to Section 2.1.3.5 and 4.2.1 of Bldg. Code."

and

WHEREAS, the applicant states the building is 2½ stories (33 ft.) in height, 24 ft. by 48 ft. on 1st floor; 24 ft. 2 in. by 38 ft. in area on the 2nd floor; Class 4 construction; erected in 1916; located in a residence use, C area, Class 1 height district; and used and occupied as a one family dwelling and doctor's office; proposed to be used as follows: Cellar, ordinary storage, toilet facilities; 1st floor—synagogue, prayer room, 90 persons; 2nd story and attic—caretaker's apartment; that the building is equipped with one 3 ft. wide wood stairs, enclosed in one-hour partitions; equipped with self-closing doors and leading directly to the street, and proposed to be equipped with one fire escape at the rear with drop ladder to the yard, with egress therefrom to the street through a driveway; and

WHEREAS, it is proposed to alter the building as follows: the interior cellar stairs will be enclosed in 4 in. terra cotta blocks with fireproof, self-closing door at the bottom; that the cellar ceiling will be fire-retarded with ½ in. plaster boards and two coats of gypsum mortar; that the first tier of beams will be reinforced to sustain a live load of 100 lbs.; that the first floor ceiling will be fire-retarded with perforated gypsum lath and two coats of gypsum mortar; that an additional exit will be provided from the 1st floor by a 3 ft. doorway on the westerly side of the building; that the stairs to the upper floor will be enclosed in fire-retarded partition, and that a regulation fire escape will be erected on the rear wall of building from the upper floors; and

WHEREAS, the applicant contends that the building is fully detached, with 7 and 9 ft. wide side courts and sets back 20 ft. from the building line; and that it is proposed to properly safeguard and fire-retard the area affected and the Board is therefore requested to give favorable consideration to this appeal; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed after inspection, that the appeal should not be granted, as no basis has been presented to justify a variance of the requirements.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 3547-44, Objection 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

59-45-A

APPLICANT—Henry George Greene, for 3164 Park Avenue Corporation, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—851-863 Courtland avenue and 313 East 160th street, northwest corner and northeast corner of Park avenue and East 160th street (ground and 1st floors); (Block 2419, Lot 28), Borough of The Bronx.
APPEARANCES—
For Applicant: Henry George Greene.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (59-45-A)

WHEREAS, Henry George Greene, for 3164 Park Avenue Corporation, owner, filed February 6, 1945, an appeal from a decision of the borough superintendent, affecting premises: 851-863 Courtland avenue and 313 East 160th street, northwest corner and northeast corner of Park avenue (ground and 1st floors); (Block 2419, Lot 28), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated February 1, 1945, on amendment to Alt. Applic. 634-44, reads:

"12. Exits must comply with Sections 270 and 272 of the Labor Law."

and

WHEREAS, the applicant states the building is one and two stories (28 ft.) in height; 58 ft. by 194 ft. and 58 ft. by 167 ft. in area; Class 3 construction; erected in 1922; located in unrestricted and business use, B area, Class 1½ height district; used and occupied as a non-storage garage (now vacant); proposed to be used and occupied as follows: ground floor, storage and shipping, 5 persons; 1st floor, manufacturing ceramic clay models, 30 persons; that the building is equipped with a standpipe system, two 3 ft. wide interior iron stairs and with a ladder and scuttle to the roof; and

WHEREAS, the applicant states that the building is of two-story construction; the first story (ground floor on plans) starts at the level of the Courtlandt Avenue grade and the

second (1st floor on plans) starts at the level of the Park Avenue grade; that there are at present two 3 ft. wide steel stairways leading from 1st to 2nd stories, one at each end of the building; that it is proposed to maintain them as a means of egress from both stories, said stairways to be fully enclosed with 6 in. terra cotta blocks and with fireproof, self-closing doors, enclosures to terminate at roof level of present building; that a scuttle and stationary iron ladder will be provided within each stair enclosure for access to the roof; and

WHEREAS, the applicant contends that the building is actually a combination of two one-story structures, as each has a means of exit directly to the street; that the first floor tier of beams is fireproof; that the framing around the present stairways is of such a nature that any requirement to widen these stairs or change them in any manner would involve a material change in construction without adding to the effectiveness of these exits; that the proposed occupancy does not involve more than 40 persons for the entire building and the present means of egress are adequate for this number; it is therefore requested the Board grant permission for the occupancy as proposed, with the present stairways and new enclosures as indicated on plans filed with this appeal.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the borough superintendent, acting on Alt. Applic. 634-44, objection 12, and that the appeal be and it hereby is *granted on condition* that the existing stairways shall be enclosed as proposed and as indicated on plans filed with this appeal marked "Received February 6, 1945," showing proposed conditions, and that a scuttle in the roof shall be provided within the enclosure of each stairway with a double rung ladder leading thereto; that such scuttles shall have easy opening devices; that the standpipe system shall be maintained to the satisfaction of the fire commissioner; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; that the existing openings on the cellar floor directly to Courtland avenue and on the first floor to Park avenue shall be maintained, and a new door at the Park avenue side shall be constructed as an exit from the stairway; that the boiler room shall be separated from the balance of the building by fireproof construction and shall be enterable only from the exterior; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

61-45-A

APPLICANT—Sidney L. Krakower, for Stella Brilliant, owner (Harry Brilliant d/b/a Parkside School, lessee).

SUBJECT—Appeal from a decision of the fire commissioner

PREMISES AFFECTED—1509 Morris avenue, west side, 126.89 ft. south of Mount Eden avenue (street floor and basement); (Block 2820, Lot 59), Borough of The Bronx.

APPEARANCES—

For Applicant: Sidney L. Krakower.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (61-45-A)

WHEREAS, Sidney L. Krakower, for Stella Brilliant, owner (Parkside School, lessee), filed February 8, 1945, an appeal from a decision of the fire commissioner, affecting premises 1509 Morris avenue, west side, 126.89 ft. south of Mt. Eden avenue (street floor and basement); (Block 2820, Lot 59), Borough of The Bronx; and

WHEREAS, the decision of the fire commissioner dated January 25, 1945, reads:

"In reply to your letter in reference to the proposed day nursery for 50 children at the above premises, you are advised that the following objections are pending.

1. Install an interior fire alarm system, or reduce to number of children proposed, to not more than 30."

and

WHEREAS, the applicant states the building is two stories (25 ft.) in height; 25 ft. by 68 ft. in area; of Class 3 construction; erected 1925; located in a residence use, B area, Class 1½ height district, and used and occupied as follows: cellar, boiler, storage, day nursery and play room, 15 persons; 1st floor, reception room, office, day nursery and play room, 30 persons; 2nd floor, one family dwelling, and proposed to be used and occupied as follows: cellar, same, 20 persons; 1st floor, same, 55 persons; 2nd floor, same, 3 persons; that the building is equipped with two interior wood stairs, 3 ft. 6 in. and 3 ft. 10 in. in width, respectively, enclosed in fire retarded partitions equipped with fireproof, self-closing doors and leading directly to the street, and provided with a ladder and scuttle to the roof; that there is also one exterior stairs from the 1st floor to the rear yard with egress through alleyway to the street; and

WHEREAS, the applicant contends that the building was erected as a two family dwelling with a garage; that recently the garage and basement and street floor were reconstructed for use as a day care school for children between the ages of 3 and 6 years; that the second floor remains as a private dwelling, occupied by a tenant having no connection with the school; that the 2nd floor has a private entrance; that application was made for the acceptance of these premises for day care of 75 children; that an application for a certificate of occupancy is pending and awaits only the outcome of this appeal, relating to the fire alarm system; that the building is equipped with a substandard fire alarm system with 6 in. gongs on the two floors occupied by the school; that these gongs are actuated by push buttons in places designated by the Fire Department for the standard fire alarm system, and an additional push button at the head of the fire escape leading to the rear yard; that the existing system is actuated by dry cell batteries, located in a wood box painted red; that the bells are vibrating bells; and it is requested that the Board grant a variation of the requirements, so that the present substandard fire alarm system be accepted; and

WHEREAS, the Board is not passing on the question of the height of the building, exceeding by 5 ft., the permitted height for a non-fireproof building under Section C26-254.0.

Resolved, that the decision of the fire commissioner dated January 25, 1945, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that a substandard fire alarm shall be installed and maintained substantially as proposed and to the satisfaction of the fire commissioner, throughout the cellar and first story occupied for day nurseries; that the exit doors from such day nurseries shall open outwardly; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this variance shall continue only so long as the premises are maintained substantially as proposed.

63-45-A

APPLICANT—Lama and Proskauer, for Sam Mosberg, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—9, 10 and 11 Court Square, east side, 48 ft. 4 in. north of Livingston street (Block 153, Lots 3, 4 and 5), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama and Sam Mosberg.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

MINUTES

THE RESOLUTION (63-45-A)

WHEREAS, Lama and Proskauer, for Sam Mosberg, owner, filed February 6, 1945, an appeal from a decision of the borough superintendent, affecting premises: 9, 10 and 11 Court Square, east side, 48 ft. 4 in. north of Livingston street (Block 153, Lots 3, 4 and 5), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated January 25, 1945, on Alt. Applic. 53-45, reads:

"Construction—1. Provide two means of egress complying with the requirements of C26-272.0 of Code."

and

WHEREAS, the applicant states the building will be four stories (42 ft.) in height, 61 ft. 6 in. by 38 ft. 1 in. in area; Class 3 construction; located in business use, B area and Class 1½ height district; used and occupied as follows: Cellar, storage; 1st to 4th floors, inclusive, showroom, two persons on the 1st floor and one person on each of the other floors; that the building is equipped with three interior stairs one 3 ft. 8 in. wide of iron, and two, 2 ft. 6 in. wide of wood construction, unenclosed, and a ladder and scuttle to the roof and two exterior fire escapes, extending to the roof by a ladder and to the street by counterbalanced stairway; that the windows and door openings on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that the premises are improved with two 4-story and one two-story brick buildings; that it is proposed to combine the three buildings into one and to occupy it for furniture showrooms; that on the first floor there will be five exits to the street, three interior stairs leading to the second floor and two interior stairs leading to the 3rd and 4th floors; that on the first floor between buildings 9 and 10, a 15 ft. opening will be provided, and between buildings 10 and 11, there will be a 5 ft. opening provided; that on the 2nd floor there will be two 10 ft. openings, connecting buildings 9 and 10, and one five ft. opening connecting buildings 10 and 11; that there is an existing fire escape with a sliding dropladder to the street at the rear of building 9; that not more than five persons will be employed in the conduct of the business at any time.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 53-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that there shall be maintained throughout the building on all floors, a sprinkler system complying with the requirements of the Building Code therefor; that such system may be a one source system; that if such sprinkler system is installed and maintained, the proposed open stairs may be constructed and maintained provided the fire escape with counterbalanced stairway to street is maintained on building No. 10 on Red Hook Lane as was required by the Board on December 9, 1941 under Cal. No. 1008-41-A, and the existing balcony at the third floor level is connected across to the balcony on the existing fire escape on building No. 9; that this variance is granted only so long as the combined building is not increased in height or area and is occupied throughout as a furniture warehouse as proposed and is not used for the sale of types of merchandise other than furniture and complies with the requirements of the Building Code in all other respects; that the boiler room shall be separated from the balance of the building with fireproof construction and enterable only from the exterior; that the existing 4 exits to Red Hook Lane, as shown on plans filed with this appeal marked "Received February 6, 1945", as well as the exits to Court Square as shown, shall be maintained, and that such portable fire fighting appliances shall be maintained throughout the building as the fire commissioner shall direct.

83-45-A

APPLICANT—A. Gordon Lorimer, for Department of Public Works, City of New York, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—161-25 Grand Central parkway, north side, from 161st street to 164th street (Block 6858, Lot 1), Jamaica, Borough of Queens (Queens General Hospital).

APPEARANCES—

For Applicant: Abraham Prober and S. John Andruzzi.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (83-45-A)

WHEREAS, A. Gordon Lorimer, for Department of Public Works, owner, filed February 19, 1945, an appeal from a decision of the borough superintendent, affecting premises: 161-25 Grand Central parkway, north side, from 161st to 164th streets (Block 6858, Lot 1), Jamaica, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated February 13, 1945, on N.B. Applic. 269-43, reads:

"9. All partitions within a fireproof building required to be fireproof, as per section 10.4.3.1.

10. All openings in corridor partitions leading to an exit required to have a protective assembly of ¾ hr. as per section 10.8.3."

and

WHEREAS, the applicant states that the building will be 8 stories (93 ft. 6 in.) in height, 318 ft. 6 in. by 121 ft. in area at first floor, 246 ft. by 43 ft. in area at typical floor; Class 1 construction; located in residence use, E and F area, Class 1 and Class ½ height district; used and occupied as follows: basement, storage and mechanical equipment, 40 persons; 1st floor—dining lounge, kitchen, natitorium and auditorium, 210 persons; 2nd floor, gymnasium, library, classrooms and offices, 140 persons; 3rd to 7th floors, bedrooms and living rooms, 40 persons per floor; 8th floor, infirmary, bedrooms and apartments, 20 persons; that the building will be equipped with a standpipe system, two 3 ft. 8 in. wide interior steel stairs, fireproof enclosed, equipped with fireproof, self-closing doors; and

WHEREAS, the applicant contends as to objection 9 of the borough superintendent's decision, that it is proposed to use wire glass partitions with metal frames and mullions separating the corridor on the first floor from lounge and dining-room; that although the required stairs open to this corridor, they are created solely for convenience and operative reasons; that the stairs continue and lead directly to the street and it can therefore be assumed that the corridor on the first floor is not a required means of egress; that the use of these areas will not be hazardous, and it is requested that permission be granted to use partitions of ¼ in. wire glass; and contends as to objection 10, that it is intended to provide a small area of borrowed lights in the basement, one 5 ft. 5 in. x 3 ft. 6 in. high, opening in Office #7; two 3 ft. 9 in. by 3 ft. 6 in. high, opening in the rest room #29; three 3 ft. 10 in. by 3 ft. 6 in. high opening in rest room #39, to provide some natural light in the corridor which is deemed essential by the hospital authorities; that these lights will be glazed with ¼ in. wire glass with metal frames and mullions; that the occupancy of these rooms will not be of a hazardous nature; that it is also requested to provide louvres in the fireproof, self-closing ¾ hour fire test corridor doors on 1st to 8th floors, inclusive; that these louvres will be for air intakes in such rooms as have mechanical ventilation and are necessary for the proper and efficient functioning in such ventilation and heating systems; that the louvres will vary from 100 sq. in. to 470 sq. in., depending on the room and type of equipment; that louvres will be provided in the doors to toilet, locker room and slop sink closet in the basement, the toilet on the first floor, laboratories, demonstration, practice, lecture, seminar and toilet rooms on the 2nd floor; baths, toilets and laundries on 3rd to 7th floors, inclusive;

kitchen, utility, toilet rooms and slop sink closet on the 8th floor; that the enclosure partitions of all these rooms have the same fire rating required for the corridor partitions; that if permission is denied to use the louvres in the doors, additional cost of operation and maintenance will be incurred; for then the cold air will be drawn in from the outside and the heating system will have to heat it in contrast to the corridor air which is already partly warmed; that inside rooms with no windows will entail ducts to outer air at considerable cost; and in view of these reasons it is requested permission be granted to permit the use of louvres in doors.

Resolved, that the decision of the borough superintendent, acting on N. B. Applic. 269-43, Objections 9 and 10, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that this variance shall refer only to such spaces as are marked on the floor plans filed with this appeal marked "Received February 19, 1945", 6 sheets, *on condition* that in all other respects, the building and occupancy shall comply with all laws, rules nad regulations applicable thereto, other than as modified by the Board under Cal. 7-44-BZ.

99-45-A

APPLICANT—Eisemann Corporation, lessee, for Bush Terminal Building Company, owner.

SUBJECT—Appeal from a decision of the borough Superintendent.

PREMISES AFFECTED—32-33rd street, southwest corner of 3rd avenue (5th and 6th floors, Bush Terminal Buildings 7 and 8); (Block 683, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: James R. Texter and Harry Eschbach.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (99-45-A)

WHEREAS, Eisemann Corporation, lessee, for Bush Terminal Building Company, owner, filed on February 23, 1945, an appeal from a decision of the borough superintendent, affecting premises 32-33rd street, southwest corner 3rd avenue, between 33rd and 34th streets (Bush Terminal Buildings Nos. 7 and 8, 5th and 6th stories); (Block 683, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated February 17, 1945, on B. N. 956-44, reads:

"1. Locking and bolting of exit doors is contrary to Section 272, Par. 3 of the Labor Law."

and

WHEREAS, the applicant states the building is six stories (83 ft.) in height; 700 ft. by 205 ft. in area; of Class 1 construction; erected 1912; located in an unrestricted use, A area, Class 2 height district, and used and occupied for the manufacturing of magnetos, 100 persons on the 1st floor, 100 persons on the 2nd floor, 200 persons on each of the 3rd, 4th and 5th floors, 300 persons on the 6th floor; that the building is equipped with a one source sprinkler system, a standpipe system and 10 interior stairs five of which lead to the roof; that Certificate of Occupancy 83321, issued July 22, 1937, permits the use of the building throughout as a factory; and

WHEREAS, it is proposed to erect three wire partitions, one in stair hall A on the 5th floor between Section A and Section B, and two on the 6th story, one of which would be in the stair hall A between Section A and Section B and the other in stair hall B between Section B and Section C, as indicated on plans filed with this appeal marked "Received February 23, 1945"; and

WHEREAS, the applicant contends that this application is made on the recommendation of the U. S. Army for the purpose of plant protection to facilitate the delivery of necessary war products; and

WHEREAS, the applicant filed a recommendation of the Director of Security and Intelligence Division, Army Service Forces, dated December 1, 1944, recommending the installation in question and that the doors be equipped with panic bolts, and that electric bell tamper-proof signals be installed on all doors equipped with panic bolts.

Resolved, that the decision of the borough superintendent on B.N. Applic. 956-44 dated February 17, 1945, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

419-44-A

APPLICANT—Howard H. Snyder, for Lansing Financial Corporation, owner (Acme-Ward Storage Warehouse, Inc., lessee).

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—234-240 East 54th street, south side, 100 ft. west of Second avenue (Block 1327, Lot 29), Borough of Manhattan.

APPEARANCES—

For Applicant: Howard H. Snyder.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution **amended.**

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (419-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 234-240 East 54th street, south side, 100 ft. west of Second avenue (Block 1327, Lot 29), Borough of Manhattan, was granted by the Board on September 12, 1944, on certain conditions and for a temporary period of time; and

WHEREAS, the applicant requested an amendment of the resolution, to extend the temporary term of the variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of September 12, 1944, only in so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"that the proposed storage use shall continue until April 1, 1946 * * * and that other than as herein *amended,* the conditions of the resolution of September 12, 1944 shall be complied with."

MINUTES

THE RESOLUTION (463-44-A)

WHEREAS, this appeal from an order and a decision of the fire commissioner, affecting premises 160 Scott avenue and 598 Scholes street, southeast corner (1st floor); (Block 2972, Lots 1 and 25), Borough of Brooklyn, was granted by the Board on September 26, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of September 26, 1944, so that as amended, the resolution shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in order 12844-LF of the fire commissioner and that the appeal be and it hereby is *granted* as to objection 1, *on condition* that the panic bolts shall be installed only on such doors as are indicated on plans filed with this appeal, marked 'Received July 27, 1944,' plan being marked 'Bld. 42'; and that such panic bolts shall be of approved type; that this variance shall continue only during the term of the present emergency and for six months thereafter; as to item 2, that the wire screens in question may be continued on the four buildings, as indicated on plans filed with this appeal, marked 'Received July 27, 1944,' showing the buildings marked 'Bld. 40, 41 and 42,' *on condition* that such screens shall be not over ⅛ in. wire and approximately 1½ inch mesh or greater, fastened by clips at the top and by brass or aluminum bolts at the bottom, and that all exits shown shall be maintained; and that in all other respects, the buildings and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. Nos. 918-41-A, 568-43-A, 1230-21-A, 1253-24-A, 32-27-S, 550-42-A, 553-42-A, 54-43-A, 76-43-A, 188-43-A.

Resolved further, that the existing panic bolts as manufactured by the Russell & Erwin Manufacturing Company, may be continued until the approval by the Board of an application filed by the Russell & Erwin Manufacturing Company under Cal. 35-45-SM, and if such bolts are approved thereunder, they may be continued for the term specified in this resolution."

RULES

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. **Smoking.**

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stairhall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the Administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

RULES

RULES RELATIVE TO SUBMERGED INLETS AND PROTECTIVE METHODS TO BE APPLIED TO PREVENT CONTAMINATION OF WATER SUPPLY

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS FEBRUARY 3, 1939, EFFECTIVE IN ACCORDANCE WITH SECTION 666, PARAGRAPH 2, OF THE NEW YORK CITY CHARTER, FEBRUARY 27, 1939, AS AMENDED DECEMBER 4, 1942, EFFECTIVE DECEMBER 28, 1942.

(835-38-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2 of the New York City Charter pertaining to Sections C-26-1268.0,c,4. and C26-1277,0h. of the Administrative Building Code.

Rule 1. Vacuum Breakers.

All vacuum breakers prescribed under these rules shall be set at least four inches above the flood level rim of fixtures or as otherwise specifically provided for in these rules. Each fixture with submerged inlets shall be independently controlled by an approved vacuum breaker or breakers the full size of supply pipe, as set forth in these rules.

Rule 2. Submerged Inlets.

Water supply inlets to fixtures shall be located at least one inch above the flood level rim of the fixture, except when submerged inlets are absolutely essential for the proper functioning of a fixture, or as otherwise provided for in these rules.

Water supply lines to water preheating apparatus utilizing waste water shall be equipped with an approved vacuum breaker located at least four feet above the highest elevation of the preheating apparatus or coil, with a check valve between the vacuum breaker and the preheating apparatus. Any hot water boiler supplied through such preheating device and having an independent cold water supply line shall have the cold water supply line equipped with a vacuum breaker and check valve located at least four inches above the highest elevation of the boiler.

Rule 3. Flush-Valve Fixtures.

Flush-valve controlled fixtures, with submerged inlets supplied directly or indirectly from the City Water Supply System, shall be equipped with an approved vacuum breaker in the supply line not less than four inches above the flood level rim of the fixture.

Rule 4. Ballcocks.

All flush tanks operated by ballcocks shall have an approved vacuum breaker located not less than three-quarter inch above the overflow outlet of the flush tank.

Ballcocks controlling water supply to suction, roof or other intermediate tanks shall be located at least one inch above the flood level rim of the tank excepting that in roof tanks equipped with an overflow of a size at least one commercial diameter larger than the water supply pipe, the ballcock may be located two inches above the highest elevation of the overflow pipe. The overflow and emptying pipes of roof, suction and intermediate tanks shall not be directly connected to a drainage system, notwithstanding the permissive provisions of Section C26-1273.0,d of the Administrative Building Code for connection to a leader.

Rule 5. Sterilizers.

Direct water supply connections to all sterilizers are prohibited, except such equipment as is approved by the Board. When approved sterilizers are used, the waste piping from sterilizers shall not connect directly with any drainage system.

Rule 6. Aspirators—Water Siphons.

Direct water supply connections to aspirators, water siphons or similar apparatus is prohibited except when approved by the Board. The waste pipe for this type of apparatus shall not connect directly with any drainage system.

Rule 7. Bidets—Bed Pan Washers.

Direct water supply connections to a bidet is prohibited. Water supply connection to bed pan washers or similar apparatus shall be equipped with an approved vacuum breaker and check valve, the latter located between the fixture and the vacuum breaker. Water supply to bed pan washers equipped with an approved flush valve shall be governed by Rule 3.

Bed pan washers may be equipped with steam connections only when such equipment has been approved by the Board.

Rule 8. Sump or Well Pumps.

Direct water supply connections for priming purposes to sump, well or similar type pumps when permitted by the Department of Water Supply, Gas and Electricity shall be connected to the inlet side of the pump and be equipped with an approved vacuum breaker and check valve, the check valve to be located between the pump and the vacuum breaker.

Rule 9. Condensers.

Direct water connection to refrigeration unit for cooling purposes shall be equipped with an approved check valve to prevent possible back flow of ammonia or other refrigerant from defective condenser coils or jackets, except in such installations where the water supply piping is entirely outside of the piping or tank containing the refrigerant and two independent wall thicknesses of metal separate the refrigerant from the city water supply. Refrigeration units containing more than twenty pounds of refrigerant shall be provided with an additional safeguard in the form of an approved relief valve installed at the outlet side of the check valve, such relief valve being set at five pounds above the maximum water pressure at the point of installation. Direct water connection is prohibited under Section C26-1223.0 Administrative Building Code.

Rule 10. Mortuary, Dissection, Operating and Embalming Tables or Equipment.

Mortuary, dissection, operating and embalming tables or equipment shall have no direct water supply connection. Hose used with such equipment shall terminate at least 12 inches at any point from the table or attachments.

Rule 11. Dishwashing and Laundry Machines.

Direct water supply to dishwashing and laundry machines shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker and the fixture. The vacuum breaker shall be located at least 4" above the highest elevation of the machine.

Rule 12. Chemical Solution Tanks or Apparatus.

Direct water supply connections, when permitted by the Department of Water Supply, Gas and Electricity, to any tank or apparatus containing any chemical shall be equipped with an approved vacuum breaker and a check valve located between the vacuum breaker and the tank or apparatus.

Saturdays 9 a. m. to 12 noon.

Address all communications to the Chairman

CONTENTS

This issue of the Bulletin contains in the order given—

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting, March 13, 1945, at 10 A. M., Affecting Calendar Numbers 56-45-BZ, 57-45-BZ, 75-45-BZ, 602-44-A, 650-44-SA and 663-44-SA.

Minutes of Regular Meeting, March 13, 1945, at 2 P. M., Affecting Calendar Numbers 209-44-A, 640-44-A, 21-45-A, 31-45-A, 109-45-A, 110-45-A, 127-45-A, 675-41-A, 665-44-A, 666-44-A, 508-44-A, 636-44-A, 645-44-A, 632-44-A, 653-44-A, 657-44-A, 589-38-BZ, 1199-38-BZ, and 31-39-BZ.

(Remaining minutes of the meeting of March 13, 1945 will be printed in the Bulletin of March 27, 1945).

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

589-38-BZ—Application of The Franklin Savings Bank in the City of New York, applicant and owner, reopened March 13, 1945 for consideration as to extension of variance (expired by limitation)—Application, previously granted on condition, under section 7h of the zoning resolution for a temporary term of two years, permitting in a retail use district, the parking and storage of more than five motor vehicles; premises 303 West 51st street, north side, 58 ft. 10½ in. west of Eighth avenue (Block 1042, Lot 28½ and parts of Lots 29, 30, 30½, 31, 32, 33, 33½ and 34), Borough of Manhattan.

639-44-BZ—Application, November 13, 1944, under sections 7e and 21 of the zoning resolution, of Halford Realty Corporation, applicant and owner, to permit in a residence use district, the maintenance of two garages, one (metal) for five motor vehicles and one (frame) for ten motor vehicles, space rented to persons not residing on premises; premises 440 West 240th street, southeast corner of Greystone avenue to Dash place (Block 3414-E, Lot 20), Borough of The Bronx.

40-45-BZ—Application, January 29, 1945, under sections 7c and 21 of the zoning resolution, of Daniel Santoro, applicant, on behalf of Gus Stanzione and Rose Stanzione, owners, to permit in a residence use E area district, the erection of a three-car garage (for light delivery trucks) as an accessory to a bakery-grocery business on the front of plot in a local retail D area district; premises 705 Forest avenue, north side, 310.66 ft. west of Bement avenue (Block 168, Lot 68), West Brighton, Borough of Richmond.

52-45-BZ—Application, February 5, 1945, under section 7c of the zoning resolution, of Joseph H. Cornell, applicant, on behalf of Frances Greenrose, owner, to permit in a residence use district, a one-story extension for dining room and kitchen to an existing restaurant in the first story of an existing business and residence building; premises 214 Beach 90th street, east side, 106 ft. north of Rockaway Beach boulevard (Block 574, Lots 1, 2 and 5), Rockaway Beach, Borough of Queens.

50-41-BZ—Application of John C. Wandell, applicant, on behalf of Board of Transportation, City of New York and Salvatore Scala, owners (Salvatore Scala, lessee of Lot 31), reopened April 11, 1944, under sections 7b and 7h of the zoning resolution, to permit partly in a residence use district and partly in a business use district, the parking and storage of more than five motor vehicles; premises 310-320 Smith street and 291-295 President street, northwest corner (Block 435, Lot 36 and part of Lot 31), Borough of Brooklyn.

533-42-BZ—Application of Paul Friedman and Arnold W. Lederer, applicants on behalf of Julia A. Odom and Philip Braver, owners (Philip Braver, lessee of Lot 42), reopened October 31, 1944 re consideration as to extension of time to complete work—expired by limitation—Application, previously granted on condition, under sections 7e and 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles and, also, open display and sale of used cars; premises 2242-2262 Church avenue, south side,

CALENDAR

206 ft. 8½ in. west of Bedford avenue (Block 5103, Lots 42, 43 and 45), Borough of Brooklyn.

106-45-BZ—Application, March 5, 1945, under section 21 of the zoning resolution, of James E. Casale, applicant, on behalf of I. Daniel Shorell, owner, to permit in a restricted retail use B area district, the change of occupancy of a residence building to a private hospital, the building occupying more than 65 per cent of the lot area; premises 18 East 71st tsreet, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

Appeal from Administrative Decision.

107-45-A—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

HARRIS H. MURDOCK, *Chairman.*

APRIL 10, 1945, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday afternoon, April* 10, 1945 at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Appeals from Administrative Decisions.

632-44-A—42-26 to 42-30 28th street, northwest corner of 42nd road (5th floor); (Block 422, Lot 32), Long Island City, Borough of Queens.

501-44-A—114-68 Mexico street, northwest corner of 115th avenue (Block 10392, Lot 23), St. Albans, Borough of Queens (previously denied; reopened January 9, 1945 re consideration of new proposal).

HARRIS H. MURDOCK, *Chairman.*

APRIL 24, 1945, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday afternoon, April* 24, 1945 at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matter:

Appeal from Administrative Decision.

657-44-A—166 East 73rd street, south side, 130 ft. east of Lexington avenue (3rd floor); (Block 1407, Lot 47), Borough of Manhattan.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, MARCH 13, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, March 6, 1945, and Tuesday afternoon, March 6, 1945, were approved as printed in Bulletin No. 10, Volume 30.

ZONING CASES

56-45-BZ

APPLICANT—George W. Swiller, for R. & A. Building Corp., owner.

SUBJECT—Application (decision of the acting borough superintendent) under section 7A of the zoning resolution, to permit in a business use district, abutting a residence use district, the extension of a show window more than 25 feet beyond the intersection of the two streets.

PREMISES AFFECTED—125-131 East 170th street and 1401-1405 Wythe place, northwest corner (Block 2843, Lot 98), Borough of The Bronx.

APPEARANCES—

For Applicant: George W. Swiller.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 10, 1945 at 10 A. M.

57-45-BZ

APPLICANT—Ralph J. Gurfield, for Storch and Hirsche, owners.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail use, B area district, the extension of the first story of an existing building to cover the entire lot.

PREMISES AFFECTED—733 Ninth avenue, west side, 117.13 ft. north of West 49th street (Block 1059, Lot 34), Borough of Manhattan.

APPEARANCES—

For Applicant: Ralph J. Gurfield and Herman B. Waag.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 20, 1945 at 10 A. M. Applicant to amend plans.

75-45-BZ

APPLICANT—Milton B. Weissman, for 480 Realty Corporation, owner.

SUBJECT—Application (decision of the acting borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the erection of a one-story shipping room building as an extension to an existing factory building.

PREMISES AFFECTED—477 East 143rd street, north side, 215 ft. west of Brook avenue (Block 2288, Lot 63), Borough of The Bronx.

APPEARANCES—

For Applicant: David Kulansck, Milton B. Weissman and Royce H. Potts.

For Opposition: Mrs. Viacave, Peter G. Wicka, Catherine C. Matthews, William P. Dolan, Thomas J. McFarlin, Helen M. Kearns, George Scholz, H. M. Tabhjian, John Harmong, Madeline Coste and Jennie Larusso.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (75-45-BZ)

WHEREAS, Milton B. Weissman for 480 Realty Corporation, owner, filed February 16, 1945, an application under section 7c of the zoning resolution, to permit in a residence use district, the erection of a one-story shipping room building as an extension to an existing factory build-

ing; affecting premises: 477 East 143d street, north side, 215 ft. west of Brook avenue (Block 2288, Lot 63), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, March 13, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Brook avenue is in a business use, B area and Class 1½ height district; that East 144th street is in an unrestricted, B area and Class 1½ height district; and that East 143d street is in a residence use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated February 9, 1945, re Alt. Applic. 602-44, reads:

"1. Proposed extension of factory use in a residence district is contrary to Art. 2, Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 25 ft. frontage by 103.4 ft. in depth, now vacant, on which it is proposed to erect a one story, 16 ft. high, Class 3 constructed building, 25 ft. by 99.95 ft. in area, to be occupied as a shipping room for the existing factory on the adjoining lot; and

WHEREAS, the applicant contends that it is proposed to erect a one-story shipping room building as an extension to an existing 3-story factory building, under Art. 2, Subdivision 7c of the zoning resolution; that the use district maps show East 143d street is in a residence use district, starting 100 ft. west of Brook avenue; that plot in question abuts an unrestricted district at the rear, wherein the present factory building is located; that Brook avenue for a depth of 100 ft. westerly is in a business use district; that a 3-story wing of the existing factory adjoins the plot on the easterly side and a 5-story brick multiple dwelling adjoins the plot on the westerly side; that this plot is not favorably situated for development for a residence, because of its orientation and location; that the proposed building being only one story in height will not affect the light or air of the adjoining dwellings; that it will improve conditions by eliminating a vacant plot which now acts as a catch-all for miscellaneous equipment and stored parts; that the existing factory buildings on 480-502 East 144th street were erected in 1888 and 1912, for which Certificate of Occupancy 100 was issued on June 1st, 1923; that the following administrative appeals 103-27-A, 104-27-S and 269-42-A had been filed with and judged by the Board of Standards and Appeals; that the proposed building is to be used as a shipping room for existing factory engaged in the manufacture of small metal and plastic items, some of which are used for the war effort; that the building will be equipped with a depressed ramp to grade and an interior depressed loading space for storage of one trailer truck; that the connection between the existing factory to the north and the proposed structure, will be an opening protected by a 3-hour fireproof, self-closing sliding door; that the purpose of the proposed structure is to separate the shipping and receiving functions of the plant; the present loading space, situated in the open court yard fronting on East 143d Street, has been found inefficient and a bottleneck in the management of the plant; that it is also desired to ship completed articles of manufacture within an enclosure to prevent damage that might result from adverse weather conditions; that the character of the neighborhood is already determined by its present development and has not varied substantially in over twenty years; that the proposed extension will not be used for manufacturing purposes; and

WHEREAS, the Board deemed that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivision c, of the zoning resolution.

Resolved, that the decision of the borough superintendent dated February 9, 1945 on Alt. Applic. 602-44 be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

APPEAL FROM ADMINISTRATIVE DECISION

602-44-A

APPLICANT—Arnold Lefkowitz, for First and Fifty-Eighth Realty Corporation, owner (North American Iron and Steel Company, Inc., lessee).

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—101 58th street, northeast corner of First avenue (Block 844, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Arnold Lefkowitz.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (602-44-A)

WHEREAS, Arnold Lefkowitz, for First and Fifty-Eighth Realty Corporation, owner (North American Iron and Steel Company, Inc., lessee), filed October 20, 1944 an appeal from an order of the fire commissioner, affecting premises 101 58th street, northeast corner of First avenue (Block 844, Lot 1), Borough of Brooklyn; and

WHEREAS, Order 97453-LC dated July 14, 1944, and repeated in a decision of the fire commissioner, dated September 21, 1944, reads:

"An inspection of your refrigeration system located at the above premises, shows the following must be done to have the system conform with Fire Department regulations:

1. Discontinue and remove the direct method of refrigeration from 1st to 2nd floor as same is prohibited by C19-98.0, Administrative Code."

and

WHEREAS, the applicant states that the building is 2 stories (22 ft.) in height, 68 ft. by 34 ft. in area, of class 3 construction, erected in 1918, located in an unrestricted use, A area class 2 height district and used since 1940 as follows: 1st floor—stock room and hardware—1 person; 2nd floor—office—12 persons; that the building is equipped with one 3 ft. 8 in. wide metal stairs at the front, enclosed in plaster board partitions, equipped with metal self-closing doors and one 2 ft. 2 in. stairs at the rear, similarly enclosed; and

WHEREAS, the applicant contends that the floor of the hardware storeroom is of concrete and the roof of the office is reinforced concrete slab; that the office floor is wood construction and metal covered on the underside, which is the stockroom ceiling; that the stock room is about 9 ft. high and only one or two persons occupy it; that the refrigeration unit is located on this floor and the ducts extend up to ventilate the office above; that there would be no room in the office to house the refrigeration unit, as the office is overcrowded; it is requested that the Board grant a variation, to permit the continuation of the existing refrigeration system as indicated on plans filed with this appeal.

Resolved, that the decision of the fire commissioner as to order 97453-LC be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Item 1, *on condition* that the equipment shall in all other respects, comply with all laws, rules and regulations applicable thereto and shall be maintained to the satisfaction of the fire commissioner; that such dampers or baffles within the ducts shall be installed as the fire commissioner shall direct; that the amount of F12 refrigerant shall not exceed 18 lbs.; that the system shall not be further extended.

APPLIANCES SUBMITTED FOR APPROVAL

650-44-SA

APPLICANT—Paasche Airbrush Company, owner.
SUBJECT—Paasche Water Wash Airfinishing Booth, Standard and Deluxe Models (Spray Booth), approval of.
APPEARANCES—
For Applicant: Louis Straub.
ACTION OF BOARD—Appliance approved in accordance with the report of the Committee on Tests.
THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (650-44-SA)

WHEREAS, the Paasche Airbrush Company, owner, filed on November 15, 1944, an application with the Board of Standards and Appeals for approval of the appliance known as Paasche Water Wash Airfinishing Booth, Standard and Deluxe Models, (Spray Booth); and

WHEREAS, this appliance was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS.

March 3, 1945.

Re: Cal. 650-44-SA.
Subject: Paasche Water Wash Airfinishing Booth, Standard and Deluxe Models (Spray Booth), approval of.

The Paasche Airbrush Company filed an application with the Board of Standards and Appeals for approval of the Paasche Water Wash Airfinishing Booth (Spray Booth) Standard and De Luxe Models, under the provisions of the Rules of the Board governing the use of equipment for spraying and drying of paints, varnishes and lacquers and other flammable surface coatings and the storage of such materials.

DESCRIPTION.

This equipment consists of a sheet metal enclosure open at front end having the inside surfaces of its two side walls and back wall continuously flooded with water to which a stripping compound is added, a minimum of 5 gallons of water per minute per foot flowing smoothly and completely over the baffles to form a dense water curtain. A rear and directly connected sheet metal enclosure, known as a water washed expansion chamber is fitted with 2 sets of eliminator packs between which are located two rows of powerful non-clogging cone spray nozzles.

Exhausting air is drawn through the booth and the water-washed expansion chamber, where air is thoroughly washed and precipitating any remaining solids or particles into the settling tank through the action of the cone spray nozzles. Air movement is distributed in this section by two sets of eliminator packs, below and above the cone spray nozzles. Water at high velocity constantly washes and cleans the lower packs, which deposit into the settling tank any solids that may have passed through the water curtains. The lower packs prevent turbulence in the settling tank and distributes the air uniformly throughout the precipitating or water-washed chamber. The upper moisture eliminator pack removes water from the exhausting air and returns it to the settling tank and when air is exhausted to the outside of building (through connected ductwork) it is clean and free of solids. The water chamber is an extension of the settling tank and fitted with float valve for maintaining a constant level of water, sludge plate and strainer screens, through which water is drawn and pumped to the water manifolds supplying the cone spray nozzles and overflow pans.

Overflow water diffusors distribute the water uniformly in the overflow pans, preventing turbulence.

The water is motivated and directed by means of a circulating pump and its associated pipe system. The pump is mounted at the side of water-wash chamber and settling tank, all pipes fitted with valves for regulating and proportioning flow in overflow pans and over the several baffles.

Specifications are as follows:
Model: 2½ D-S centrifugal Circulating Type
Discharge: 218 G.P.M.
Head: 55 feet of Water
Horsepower: 5 H.P. Explosion-proof motor

A belt-driven ventilating unit is located on top of and connected to the water-wash chamber. Specifications are as follows:
Model: Type B24-24
Fan: 24″ diameter, 24° pitch—6 blade aluminum.
Fan speed: 2085 R.P.M.
Free Air Delivery: 10,000 C.F.M.
Air delivery at ¾″ static pressure—6800 C.F.M.
Horsepower: 2 H.P. explosion-proof motor.
Face Velocity: 165 L.F.M.
Fan mounted on steel shaft and double ball bearings.
Belts: 2 V-fully enclosed in dust and vaporproof housing.
Door: Hinged access door provides easy access to fan for oiling, cleaning or quick removal of fan.

Overall dimensions of booths are 8′ 4″ wide, 8′ 6″ deep and 7′ 2″ high. Working compartment dimensions are 4′ 6″ wide and 5′ 6″ deep and 4′ 6″ high. Rear baffles of De Luxe models are fabricated from 16 gauge stainless steel and side baffles of 18 gauge stainless steel. Baffles in Standard Models are fabricated from 18 gauge sheet steel. Entire booth fabricated from 18 gauge sheet steel panels with a special flange construction. All flanges are outside of booth, thus when panels are assembled, the inside walls are smooth, eliminating any possibility of retarding free flow of air. The settling tank is constructed of 14 gauge sheet steel, coated on inside with rust inhibitive paint. The settling tank is easily removable for cleaning and fitted with removable water distributing plates. It is fabricated from 26 gauge galvanized steel. Packs in De Luxe Models are easily removable through front of booth by removing water curtain baffles which are easily secured in position, or removed, being held in place by interlocking flanges and supported by clips.

Paasche Water Wash Airfinishing Booths are also made in floor type with water wash curtains on rear baffles only and with water wash curtains on both rear and two side wall baffles. Sizes and overall dimensions range from 4′ 8″ wide x 7′ 2″ deep x 7′ 2″ high to 35′ wide x 12′ 2″ deep x 7′ 2″ high with corresponding increased sizes of pumps and fans.

The function of these booths is to provide an enclosure wherein paint spraying operations may be performed, to confine, collect and remove vapors released by the spraying operation to the outside of the building (through associated ductwork) and to separate and collect the pigments in the overspray for disposal.

TEST.

The spray booth was inspected by the Committee on Tests of the Board and the representative of the Division of Combustibles of the Fire Department on November 29, 1944, and found to operate as designed.

RECOMMENDATION.

On the basis of the foregoing data, inspection and test, the Committee on Tests recommends that the Paasche Water Wash Airfinishing Booth (Spray Booth) DeLuxe and Standard Models in sizes stated be approved for use in New York City, when manufactured, installed and operated in accordance with this report and with the Rules of the Board of Stand-

ards and Appeals governing the Use of Equipment for Spraying and Drying of Paints, Varnishes, Lacquers and Other Flammable Surface Coatings and Storage of Such Materials, provided the booth bears a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 650-44-SA"; that accumulated paint material, forming a film in water or on any portion of the booth shall be removed at regular intervals, in accordance with the recommendation of the manufacturer.

(Sgd) BERNARD A. SAVAGE,
Commissioner,
CHARLES M. BLUM,
Commissioner,
LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as Paasche Water Wash Airfinishing Booth, Standard and Deluxe Models (Spray Booth), *on condition* that the appliance be manufactured, installed, used, operated and labelled in accordance with the above report.

663-44-SA

APPLICANT—The DeVilbiss Company, owner.
SUBJECT—DeVilbiss Spray Gun and Electric Motor Electro-Pneumatic Control, approval of.
APPEARANCES—
For Applicant: J. L. Folks.
ACTION OF BOARD—Appliance approved in accordance with the report of the Committee on Tests.
THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (663-44-SA)

WHEREAS, The DeVilbiss Company, owner, filed on November 15, 1944, an application with the Board of Standards and Appeals for approval of the appliance known as DeVilbiss Spray Gun and Electric Motor Electro-Pneumatic Control; and

WHEREAS, this appliance was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

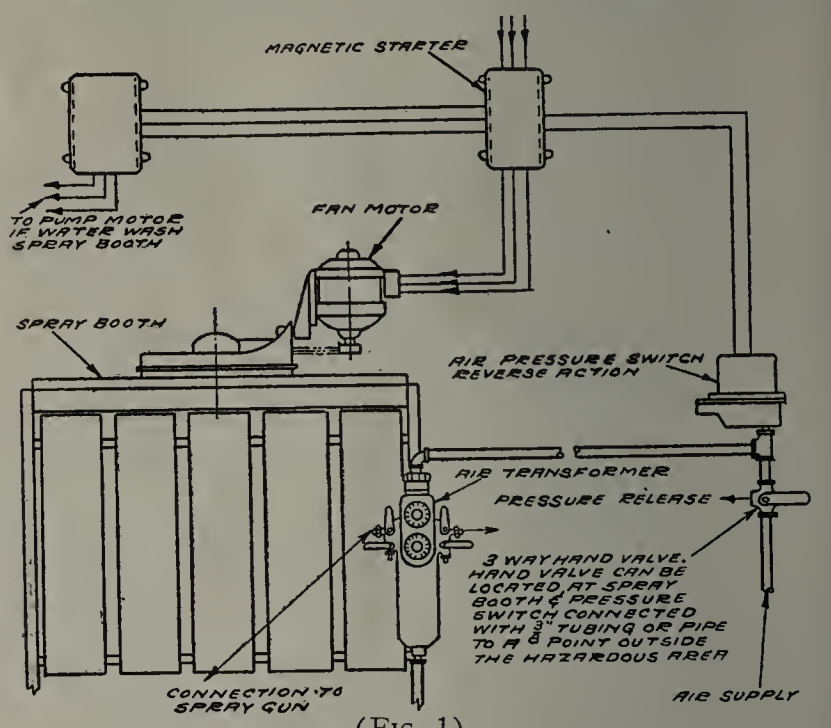
REPORT OF COMMITTEE ON TESTS.

Re: Cal. 663-44-SA
Subject: DeVilbiss Spray Gun and Electric Motor Electro-Pneumatic Control, approval of.
February 26, 1945.

The DeVilbiss Company of New York City filed an application with the Board of Standards and Appeals for the approval of their method of clearing the atmosphere of paint spray fumes as required by Rule 3.2 of the Rules Governing the Use of Equipment for Spraying and Drying of Paints, Varnishes, Lacquers and other Flammable Surface Coatings and Storage of Such Materials adopted under Cal. 353-30-SR.

DESCRIPTION.

The method of insuring air cleansing is shown on Fig. 1. In order that this system function, compressed air is required to be available at the spray gun at a pressure of at least five pounds per sq. in. This is accomplished by first setting the three-way valve, (Fig. 1) in such a position that the compressed air at a pressure of at least five pounds per sq. in. will pass from the air supply through the connecting piping to the air transformer and then the spray gun. As the pressure of the air acts on the diaphragm of the pressure switch, the contacts will close the electrical circuit



(FIG. 1)

and the exhaust fan and the pump (if water wash spray booth is used) will commence to operate. In this manner, the exhaust system will always be functioning when spraying is being done. In order to turn off the exhaust system, the operator must turn the three-way valve to such a position that the air supply will be closed off and the air remaining in the line between the air transformer and the valve will bleed out into the atmosphere. When the pressure in this portion of the line reaches 2 lbs. per sq. inch, gauge, or less, which is insufficient for paint spraying, the contacts in the pressure switch open the circuit, the exhaust fan and the pump cease to operate. With the above synchronized control, the operator cannot use his spraying equipment when the exhaust system is not in operation.

Part of the equipment but not manufactured by the applicant, consisting of a pressure switch of proper size and load characteristics with reverse action permitting cutting in at a pressure of five lbs. per sq. in. and cutting out at a pressure of two lbs per sq. in. is provided and shall be of an approved type.

RECOMMENDATIONS.

The Committee on Tests has reviewed the applicant's method of simultaneously controlling the spray gun and exhaust fan so interlocked as to accomplish the intent of Rule 3.2 of the Board's Rules Governing the Use of Equipment for Spraying and Drying of Paints, Varnishes, Lacquers and Other Flammable Surface Coatings and Storage of Such Materials, which allows the air to be cleansed of paint fumes, and accordingly recommends that this method of apparatus layout be approved under the Board's powers granted by the Charter of the City of New York, Section 666, subdivisions 1, 2, and when the pressure switch is located within ten feet of the spray booth, such switch shall be of a type approved for use in explosive atmospheres.

The Committee on Tests further recommends that all layouts of the applicant's method, when submitted to the authorities having jurisdiction, shall bear a label reading as follows: "Approved by the Board of Standards and Appeals for Use in New York City under Cal. 663-44-SA."

(Sgd) BERNARD A. SAVAGE,
Commissioner,
CHARLES M. BLUM,
Commissioner,
LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as DeVilbiss Spray Gun and Electric Motor Electro-Pneumatic Control, *on condition* that the appliance be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 11:45 A.M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, MARCH 13, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

209-44-A

APPLICANT—Raymond Irrera, for S. H. L. Realty Corporation, owner.

SUBJECT—Application reopened December 12, 1944—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—103-09 165th street, east side, from South road to Liberty avenue, 165-11 South road and 165-06 Liberty avenue (Block 10158, Lot 1), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Raymond Irrera and Lester H. Tillman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioner Savage and Deputy Chief Gunn..... 3
Negative: 0
Abent: Commissioner Blum..... 1

THE RESOLUTION (209-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 103-09 165th street, east side, from South road to Liberty avenue, 165-11 South road and 165-06 Liberty avenue (Block 10158, Lot 1), Jamaica, Borough of Queens, was granted by the Board on April 25, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, this appeal was reopened by the Board on December 12, 1944, to permit consideration of additional objections issued by the borough superintendent; and

WHEREAS, the decision of the borough superintendent dated November 13, 1944, on Alt. Applic. 1121-43, reads:

"2. Secure approval of Board of Standards and Appeals as this building was approved by the Board of Standards and Appeals under Cal. 209-44-A.

4. Provide additional exit from roof, as roof is to have an occupancy which was not on original approval. Only one stair goes to roof at present time."

and

WHEREAS, the applicant contends that application was made to the borough superintendent for permission to use the roof for parking of pleasure cars and objections 2 and 4 dated November 13, 1944 were issued; and

WHEREAS, the applicant contends that one of the existing 4 ft. wide interior fireproof stairway leads to the roof and the other is provided with a scuttle and ladder to the roof; that the original plans for the building indicate the roof construction is satisfactory to sustain a live-load of 120 lbs. per sq. ft.; that the freight elevator adjacent to the Liberty avenue stairway has a landing at the roof level, which was built according to the original plans; that although Certificate of Occupancy 29099, issued April 19, 1927, did not include the roof occupancy, the roof has always been used for parking of pleasure cars and the exclusion of this roof occupancy from the certificate was evidently an oversight; that there will be no human occupancy on the roof other than the attendants delivering the cars to the roof; that the one 4 ft. stairway to the roof affords ample exit facilities for the number of persons which may occupy the roof at any one time; therefore it is requested that the Board amend the resolution of April 25, 1944, to permit the inclusion of the roof use and occupancy for storage and parking of pleasure motor vehicles and accept the existing means of egress therefrom.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 25, 1944, by adding thereto:

"* * * that nothing in this resolution shall prevent the occupancy of the roof for the storage of motor vehicles belonging to the ground floor tenant, *on condition,* that the extension of the standpipe shall be maintained at two points on the roof, and the exit shall be maintained as shown on plans filed with this appeal marked "Received January 16, 1945;" that the floor loads shall be not less than 120 lbs. per superficial foot; that the parapet shall be not less than 3 ft. in height at all points and that in addition, a bumper shall be maintained against the parapet wall on all sides, extending 3 ft. out from the inner face of the wall; that such bumpers may be of wood beams, properly anchored in place; that the existing exits, consisting of stairway toward the north side and a scuttle toward the south side located within the stair enclosure, may be deemed sufficient, provided the roof is used only as proposed and not for human occupancy, except for one or two persons engaged in placing of the cars; that roof scuttles shall be so arranged as to be openable both from the roof and from the third floor landing and double rung iron ladders shall be maintained for access thereto; and that other than as herein *amended,* the conditions of the resolution of April 25, 1944, shall be complied with."

640-44-A

APPLICANT—Charles A. Levitt, for 114 North 4th Street Corporation, owner (Lewis Steel Products Corporation, lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—76-116 North 4th street, south side, from Wythe avenue to Berry street, 203 Wythe avenue and 176-180 Berry street (Block 2350, Lots 4-13 inclusive), Borough of Brooklyn.

APPEARANCES—

For Applicant: Charles A. Levitt and Lawrence L. Harris.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Savage and Deputy Chief Gunn..... 3
Negative: 0
Absent: Commissioner Blum..... 1

THE RESOLUTION (640-44-A)

WHEREAS, Charles A. Levitt, for 114 North 4th Street Corporation, owner (Lewis Steel Products Corporation, lessee), filed November 13, 1944, an appeal from a decision of the borough superintendent, affecting premises 76-116 North 4th street, south side between Berry street and Wythe avenue, 203 Wythe avenue and 176-180 Berry street (Block 2350, Lots 4 to 13, inclusive), Borough of Brooklyn; and

MINUTES

WHEREAS, the decision of the borough superintendent, dated March 6, 1945, on Alt. Applic. 2702-41, reads:

"1. Questioned whether roof structure as shown to be considered or penthouse and as such, so comply with Section 10.12.3 of Bldg. Code."

and

WHEREAS, the applicant states the building will be 3 stories and penthouse (60 ft.) in height; 450 ft. by 60 ft. in area; of Class 3 construction; erected 1942, used and occupied—1st floor, steel storage, 10 persons; 2nd floor, manufacturing metal goods, 15 persons; 3rd floor, packing and painting, 11 persons; penthouse, storage of metal goods, 3 persons; that the building is equipped with three 8 ft. wide fireproof stairs from the roof to the street; and

WHEREAS, the applicant states it is proposed to erect on top of the present roof, a bulkhead made of light steel to house a 4 in. Monorail conveyor; that the bulkhead will be 400 ft. long by 12 ft. wide by 12 ft. high and will not house any employees or have any floor load; and

WHEREAS, the applicant contends that the installation is for the purpose of drying painted parts of vital war materials, thus expediting delivery; that a bulkhead of this nature should not be considered as roof area; that the bulkhead will be built entirely of steel with the front facing the street, to be of steel sash and the back to have corrugated sheets for siding and the roof to be of corrugated sheets; that the floor will be of sheet iron and the entire bulkhead will be sprinklered and that access doors will be provided and 12 in. by 12 in. ventilators will be provided every 75 ft.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 2702-41, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the structure for conveyor shall be maintained substantially as proposed and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. No. 675-41-A, as amended; and that the sprinkler system shall be continued into the conveyor as proposed.

21-45-A

APPLICANT—Samuel Rosenblum, for Jessie Ridley, owner (Abbott Glass Co., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—154-164 East 120th street, south side, 111 ft. 9 in. east of Lexington avenue (1st and 2nd floors); (Block 1768, Lot 46), Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (21-45-A)

WHEREAS, Samuel Rosenblum, for Jessie Ridley, owner (Abbott Glass Company, lessee), filed January 16, 1945, an appeal from a decision of the borough superintendent, affecting premises 154-164 East 120th street, south side, 111 ft. 9 in. east of Lexington avenue (1st and 2nd floors); (Block 1768, Lot 46), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent dated March 2, 1945, on amendment to Alt. Applic. 1227-44, reads:

"2. The means of egress shall conform with Section 270 Sub. 3, 4 and 5, Labor Law.

5. The subdividing partitions shall conform with C26-637 also C26-667, Sub. 10.9.2.5 B. Code."

and

WHEREAS, the applicant states that the building is 2 stories (30 ft.) in height, 100 ft. by 100 ft. 11 in. in area, of class 1 construction, erected in 1913, located in a business use, B area, class 1½ height district and used and occupied since 1944 as follows: cellar—boiler room—no persons; 1st floor—office, glass cutting—12 persons; mezzanine—office—3 persons; 2nd floor—storage and cutting of glass, polishing and mirror silvering—24 persons; one tenant throughout the building; that the building is equipped with one interior fireproof stairs, 3 ft. 8 in. wide, fireproof enclosed, equipped with fireproof, self-closing doors and extending from the roof bulkhead, directly to the street at the center of the building, and a secondary stairs, 2 ft. 8 in. and 3 ft. 4 in. wide at easterly side of the building, extending from the 1st story to the 2nd story; that there is also one fire escape at the rear, extending to the roof by a ladder and to the yard by stair with egress proposed through the adjoining premises to the south; that the windows and door openings on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that plans for the new building were filed subsequent to October 1, 1913; that the building was formerly used for garage purposes and is now being used by one tenant for the cutting of glass, polishing and silvering of mirrors, with a maximum occupancy not to exceed 24 persons above the grade floor; that the interior fireproof stairs conforms to the Labor Law; that the secondary stairs, which is fireproof, is enclosed on the 2nd and mezzanine floors in fireproof partitions; that it does not conform to Section 270 of the Labor Law; that the stair from the mezzanine to the 2nd floor is 2 ft. 8 in. wide, enclosed on top and bottom with fireproof, self-closing doors; that from the mezzanine, there is a 3 ft. 4 in. iron stair leading to the grade floor; that in addition to these two means of egress, there is an iron stair in the rear court, terminating in the court, but proposed to be provided with a fireproof door to the adjoining premises to the south under the same ownership; that as the proposed occupancy will not exceed the capacity of the primary means of egress, it is requested that this appeal be granted.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the labor law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1227-44, and that the appeal be and it hereby is *granted,* as to objection 2, *on condition* that the means of egress shall be maintained as indicated on plans filed with this appeal marked "Received March 8, 1945"; that the fireproof door, in the lot line wall of the adjoining garage building to the south, shall be maintained so long as the adjoining premises are under the same ownership and free access shall be possible at all times through such building to East 119th street; that the means of access to the roof as indicated, shall be maintained; as to Objection 5, that the temporary partitions indicated on first floor and second floor, may be continued for a term of two years, provided such partitions are covered on both sides with approved plaster board; that the building shall not be increased in height or area; that the occupancy throughout shall be by one tenant; that the boiler room shall be separated from the balance of the building by fireproof construction; that any gasoline storage system previously used, shall be sealed to the satisfaction of the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws and rules applicable thereto.

31-45-A

APPLICANT—Joseph S. Rodell, for Paul and Esther Blackarsh and Rose and Isidore Podolsky, owners.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—153-19 Jamaica avenue, north side, 175.05 ft. east of 153rd street (2nd floor); (Block 9754, Lot 48), Jamaica, Borough of Queens.

MINUTES

APPEARANCES—
For Applicant: Joseph S. Rodell.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (31-45-A)

WHEREAS, Joseph S. Rodell, for Paul and Esther Blackarsh and Rose and Isidore Podolsky, owners, filed January 19, 1945, an appeal from a decision of the borough superintendent, affecting premises 153-19 Jamaica avenue, north side, 175.05 ft. east of 153rd street (2nd floor); (Block 9754, Lot 48), Jamaica, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated December 27, 1944, and as amended on March 13, 1945, on Alt. Applic. 1149-44, reads:

"1. Stair enclosure not shown of fireproof material and extending above the roof. Section 270, Labor Law.

2. Live load not shown to comply with Section 7.3.23 Building Code.

3. Cellar ceiling not shown properly fire-retarded. Section 10.11 Building Code (C26-669.0)."

and

WHEREAS, the applicant states that the building is 2 stories (33 ft.) in height, 100.03 ft. by 126.5 ft. in area, of class 3 construction, erected in 1930, located in a business use, C area, class 1 height district and used and occupied since 1930 as follows: cellar—boiler room and storage; 1st floor—stores; 2nd floor—offices and storage; proposed to be used and occupied as follows: cellar—same; 1st floor—same; 2nd floor—manufacturing clothing—85 persons; that the building is equipped with two interior steel stairs with terrazzo treads, enclosed with wood studs and ¾ in. portland cement mortar, both sides, on metal lath, equipped with metal covered doors which are not self-closing, and extending from the 2nd story to the street; that a ladder and scuttle to the roof is provided; that one stairs is 4 ft. 10 in. wide and the other 5 ft. 11 in. wide; that there is safe egress from the roof; and

WHEREAS, Violation 2660, issued November 14, 1944, was for occupying the first story for manufacturing of upholstered furniture, without a certificate of occupancy; and

WHEREAS, said violation was returnable in Magistrates Court January 2, 1945 and adjourned to February 6, 1945; and

WHEREAS, Certificate of Occupancy 45282 issued January 26, 1931 on N. B. Applic. 4771-30, permits the use of the first floor for stores, 75 lb. liveload and the 2nd floor for offices—75 lb. liveload; and

WHEREAS, the applicant contends as to Objection 1, that the two existing stairways are of steel construction, with steel risers and terrazzo treads and platforms and enclosed in partitions of wood studs and ¾ in. Portland cement mortar both sides on metal lath and are 5 ft. 11 in. and 4 ft. 10 in. respectively in width and are adequate for the proposed number of occupants and are so located as to provide remote egress to both street fronts, independent and unobstructed directly from the proposed manufacturing area; and

WHEREAS, the applicant contends as to objection 2, that the proposed use will be that of clothing manufacturing, using light machines of the sewing machine type and by reason of the small number of occupants proposed for the large floor area, the arrangement of these machines will be such as to impose a liveload of much less than 75 lbs., which has been previously accepted for the existing public occupancy; and

WHEREAS, the applicant further contends that the existing interior partitions on the 2nd floor, as indicated on plans filed with this appeal, are of wood studs, metal lath and plaster; that the arrangement of these partitions is such that the Board may deem it advisable that all of them be removed except those which provide passageways connecting to the interior stairs; that the applicant is agreeable to such removal, if the Board so requires; that the existing occupancy on the 2nd floor by the Court of Special Sessions imposed a greater load on the exits than will be imposed by the proposed manufacturing with an occupancy not to exceed the capacities of the existing interior stairs; that manufacturing will be confined to the rear and central portion of the second floor and the rooms fronting on Jamaica avenue will be used for office and showroom purposes only; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1149-44, as denied March 13, 1945, and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; as to objection 1, that the stair enclosure around each stair as shown on plans filed with this appeal marked "Received March 8, 1945" shall be maintained substantially as proposed and as indicated thereon; as to Objection 2, that the existing live load of 75 lbs. may be retained, provided the tenancy of the 2nd floor is by one concern throughout and the type of manufacturing is light in nature and that the floor shall not be overloaded beyond such capacity; that such floor load shall be posted; and *denied* as to objection 3; that such portable fire fighting appliances shall be maintained throughout the building as the fire commissioner shall direct; that the existing scuttles to the roof as proposed, shall be maintained with iron ladders leading thereto and with easy opening device; that the windows shown in the courts to the east and west shall be made fireproof self-closing; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

109-45-A

APPLICANT—Hess, Mela and Popkin, for The City Ice and Fuel Co., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—890 Grant avenue, northeast corner of East 161st street (Block 2444, Lot 32), Borough of The Bronx.
APPEARANCES—
For Applicant: Arthur A. Segall and William Schmid.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioner Savage and Deputy Chief Gunn..... 3
Negative: 0
Absent: Commissioner Blum..... 1

THE RESOLUTION (109-45-A)

WHEREAS, Hess, Mela and Popkin, for The City Ice and Fuel Company, owner, filed March 3, 1945, an appeal from a decision of the borough superintendent, affecting premises 890 Grant avenue, northeast corner of East 161st street (Block 2444, Lot 32), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated February 9, 1945, on Alt. Applic. 70-45, reads:

"1. Cooler tower must be constructed in accordance with Section C26-679.0."

and

WHEREAS, the applicant states that the building is 1 and 2 stories (15 ft. and 25 ft.) in height, 172 ft. 6 in. by 109 ft. 6 in. in area, of class 1 construction, erected in 1922, located in an unrestricted use, B area class 1½ height district and used and occupied as an ice manufacturing plant for which no certificate of occupancy has been issued; that the building

is equipped with two 3 ft. 8 in. fireproof stairs which lead directly to the street and a scuttle to the roof is provided; and

WHEREAS, the applicant contends that the plant manufactures ice for use in icing railroad cars used for the transportation of perishable commodities used predominantly by government agencies including the Armed Forces; that the plant also supplies ice for domestic use; that the demand for ice has increased because of the current unavailability of mechanical refrigeration for such purposes; that the type of cooling tower sought to be erected is a single cased 3500 G.P.M. mechanical forced draft; that the interior will have wood members constructed of California heart redwood of which a considerable amount is comprised of drip bars; that the tower will be in operation continuously 24 hours a day; that the interior will be saturated with water; that the manufacturer states when not saturated, California heart redwood is difficult to burn; that the outer covering of the tower will be of linasbestos sheets ¼ in. thick, bolted to the supporting steel framework on close centers and completely water tight and fire-resistant; that the tower constitutes no fire hazard and it is requested that the Board permit the construction of the tower as proposed.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 70-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the cooling tower shall be constructed substantially as proposed; that all wood parts, with the exception of the drip bars, shall be fireproofed, meeting the requirements of the Building Code therefor, and painted with a prime coat of lead and oil before erection at the site; that after erection, all such fireproofed wood parts shall again be painted with a field coat of lead and oil except such portions as are permanently under water; that the exterior of the tower shall otherwise be covered with approved incombustible siding.

110-45-A

APPLICANT—John A. Thompson, for Estate of Cortlandt F. Bishop, owner (A. A. Berle and Beatrice B. Berle, trustees); (Alex Taylor and Co., Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—22 East 42nd street, south side, 210 ft. east of 5th avenue (1st floor); (Block 1276, Lot 64), Borough of Manhattan.

APPEARANCES—

For Applicant: John A. Thompson.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Savage and Deputy Chief Gunn	3
Negative:	0
Absent: Commissioner Blum	1

THE RESOLUTION (110-45-A)

WHEREAS, John A. Thompson, for Estate of Cortlandt F. Bishop, owner (Alex Taylor & Company, Inc., lessee), filed March 5, 1945, an appeal from a decision of the borough superintendent, affecting premises: 22 East 42nd street, south side, 210 ft. east of Fifth avenue (1st floor); (Block 1276, Lot 64), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated February 23, 1945, on Alt. Applic. 127-45, reads:

"1. Wood construction for suspended ceiling not permitted by 8.4.10.5 and Departmental Interpretation.

2. Show window may not project from building line over 8 feet into lobby Section 6.3.1 Bldg. Code." and

WHEREAS, the applicant states that the building is 6 stories (78 ft.) in height, 22 ft. by 98 ft. 9 in. in area at first floor, 22 ft. by 88 ft. 9 in. in area at typical floor; Class 1 construction; erected in 1916; located in a restricted retail use, B area, Class 2 height district; used and occupied since 1922 as follows: Cellar, receiving and shipping, one person; 1st, 2nd and 3d stories, sale of athletic goods, 10 persons on the 1st floor, two persons on the 2nd floor and 3 persons on the 3rd floor; 4th floor—office, 8 persons; 5th floor, selling of athletic goods, 2 persons; 6th floor, stockroom, 2 persons; that no change in use or occupancy is proposed except for the 4th floor, which will be increased to nine persons; that the building is equipped with one 3 ft. 8 in. steel stairs enclosed in 6 in. terra cotta block partitions, equipped with kalamein, self-closing doors, extending from the roof bulkhead to the first floor; and

WHEREAS, the applicant contends as to objection 1, that the present ceiling construction of show windows is 2 ft. by 6 ft. wood joist with rough wood floor over; that the 5 ft. high space above show windows is open to store interior; that permission is requested to lower the wood construction approximately one foot, extend it as indicated on plans filed with this appeal, and to shut off space above the windows from the store, by metal lath and plaster partitions; that the utilization of present wood framing members will conserve critical materials; that to shut off the space over windows will improve existing conditions; and contends as to objection 2, that it is proposed to project show windows 17 ft. 6 in. inside building line in lieu of present 10 ft. projection; that the greater part of such extension will be used for the installation of vestibule and storm doors; that all sides of show windows and vestibule will be plate glass in metal frames; that bulkheads under windows will be terra cotta blocks, faced with structural glass; that the ceilings of the windows and space between will be metal lath and plaster; that the floor between windows will be terrazzo; that the existing conditions will be improved, as the present exit door is a single 3 ft. wide door swinging in and opening to space 3 ft. wide increasing to 10 ft. at the building line; that the proposed alteration will provide double doors, 5 ft. wide opening to a space 10 ft. wide; that the lessee is the sole occupant of the building; that practically all of the selling done on the premises will be on the first floor; that when plans were filed in 1921 for altering these premises for use by the present tenant it was planned to use more employees than at present; that the character of business has changed since that time and the occupancy of the building greatly reduced.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 127-45, objections 1 and 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the entrance shall be substantially as proposed and as indicated on plans filed with this appeal marked "Received March 5, 1945"; that in other respects, the occupancy shall be in accord with the resolution previously adopted under date of November 22, 1921; that if glass doors are used, they shall be in accordance with a general approval of the Board therefor; that the wood framing proposed over the entrance vestibule shall be filled in to a point one half inch above the level of the beams with vermiculate and gypsum plaster or rock wool; that there shall be installed within each show window, as proposed, not less than three ½ in. sprinkler heads, which may be fed from the domestic water supply of the building.

127-45-A

APPLICANT—William O. Staber, for Surob Realty Corporation, owner (U. S. Electric Manufacturing Corporation, lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—12-16 East 13th street, south side, 175 ft. east of 5th avenue (Block 570, Lot 11), Borough of Manhattan.

APPEARANCES—

For Applicant: William O. Staber and Harold Hyman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Savage and Deputy Chief Gunn	3
Negative:	0
Absent: Commissioner Blum	1

THE RESOLUTION (127-45-A)

WHEREAS, William O. Staber, for Surob Realty Corporation, owner (U. S. Electric Manufacturing Corporation, lessee), filed March 8, 1945, an appeal from a decision of the borough superintendent, affecting premises 12-16 East 13th street, south side, 175 ft. east of 5th avenue (Block 570, Lot 11), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated March 6, 1945, on amendment to Alt. Applic. 311-45, reads:

"1. As building was erected after October 1, 1913, construction of building should comply with Section 270 Labor Law. Building does not comply with Section 270 Labor Law in the following respects.

(a) 'Second means of egress required to be an interior enclosed fireproof stairway or an exterior enclosed fireproof stairway. Rear stairway does not conform.'

(b) 'Both stairways do not extend to roof.' Reconsideration denied.

(c) 'Treads not 10 in. wide exclusive of nosing.' Reconsideration denied.

(d) 'New door to stairs not 1½ hour fire test. Reconsideration denied.

2. 'Lot line ventilation for women's rest room not acceptable.' Reconsideration denied.

3. 'Loading space required to conform to 7.3.2.3—6 Building Code. Live load required is 175 lbs. per sq. ft. Also provide for minimum concentration of 12000 lbs. at any point of floor of trucking space.' Reconsideration denied."

and

WHEREAS, the applicant states the building is 8 stories (90 ft.) in height; 67 ft. by 99 ft. 6 in. in area at 1st floor; 67 ft. by 89 ft. 6 in. in area at typical floor; of Class 1 construction; erected in 1929, located in a business use, B area, Class 1½ height district and used and occupied since 1930 as a garage for more than five motor vehicles, and proposed to be used and occupied as follows: 1st to 5th floors, storage; 6th floor, manufacturing flash lights, 45 persons; 7th floor, manufacturing flash lights, 45 persons; 8th floor, manufacturing flash lights, 45 persons; that the building is equipped with an approved standpipe system, one 3 ft. 11 in. wide steel stairs (fire tower), enclosed in 8 in. brick, equipped with fireproof, self-closing doors and extending directly to the street, but not to the roof and one fire escape at the rear, extending to the roof by stairs and to the yard by stairs with egress from the yard to the street through fire passage on the 1st floor; that the windows and door openings on the course of the fire escape and fireproof and self-closing; and

WHEREAS, the applicant contends that the building has been leased for the duration of the war for the manufacture and assembling of flash light casings, packing and shipping by the lessee, which is a prime contractor for the Army and Navy departments; that only light machinery will be installed and no inflammable materials will be stored or used; that the lease is predicated on condition that the tenants restore the premises to its original condition on termination of the lease; it is therefore requested that the present certificate of occupancy remain in force and that no new certificate of occupancy be required; and

WHEREAS, the applicant further contends that in view of the proposed temporary occupancy, it is requested that the Board grant reconsideration as to the objections of the borough superintendent on the following grounds: As to Objection 1a—the existing rear stairway is a screened open stair, complying with Section 268 of the Labor Law; these stairs are 3 ft. 8 in. in width in the clear with five ft. clear landing platforms and 4 ft. 6 in. wide intermediate landings; that this stair extends from the yard to the roof and egress to the street is had by means of the fire passage on the street floor; that all doors opening on the rear stairway are self-closing, fireproof and swing in the direction of egress; that there are no locking devices on these doors; and contends as to Objection 1b, that the present front fire tower consists of steel risers, cement finished treads and has a clear width of 3 ft. 11 in. with floor landing platforms 5 ft. clear and intermediate platforms 4 ft. clear; that the present doors opening on the balcony will be removed and a new stair vestibule created, to afford ready access to these stairs from each floor; and contends as to Objection 1c, that the full width of the treads is 10 in. including the nosing, and acceptance is requested, and contends as to 1d, it is intended to re-use the existing doors removed from the stairhall; that these doors are of kalamein construction with wire glass panels, equipped with self-closing hardware, and contends as to Objection 2, that the window in question is located above the adjoining building to the east; that this window is of steel sash, wire glass, equipped with fusible link; that in view of the proposed temporary occupancy of the building, it is requested that this be accepted for ventilation of the women's toilets and dressing rooms, and contends as to Objection 3, that the floor construction in this area is designed to sustain a 160 lbs. per sq. ft. live load; that the trucks used by the tenants are two ton capacity weighing 3,000 lbs. empty, making the total axle load 7,000 lbs. and inasmuch as two-thirds of the total load is concentrated on the rear axle, the maximum concentrated load at any point is not more than 2400 lbs.; it is therefore requested that the existing condition be accepted.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 311-45, and that the appeal be and it hereby is *granted*, as to objection 1a, *on condition* that the means of egress as indicated on plans filed with this appeal marked "Received March 8, 1945" shall be maintained; that such means of egress shall consist of the existing fire tower, which shall be maintained in accordance with the fire tower requirements for all floors up to and including the fifth; that on the 6th, 7th and 8th floors, the vestibule partition indicated on plans, may be constructed and the door between the vestibule and the stairway eliminated; and that the exterior screened stairway shall comply with the requirements of the Labor Law, as proposed, exiting to the street through a fire passage, as indicated; as to objection 1b, that both the primary and secondary means of exit shall extend to the roof; as to objection 1c, that the stair treads shall not be less than 9 inches in width, exclusive of nosing and shall be steel cement surfaced; as to objection 1d, that the doors to stairs, where proposed to be changed on the 6th, 7th and 8th floors, may be the existing fire tower doors, reset as shown on plans; as to objection 2, that the lot line window may be accepted as ventilation for the rest room, provided the toilets are ventilated in accordance with the Code therefor; as to objection 3, that the space over the boilerroom on the first floor may be occupied for trucking space, provided that the liveload shall not be less than 160 lbs. per superficial foot and shall be so posted; that the trucks entering such loading space shall not exceed the weight of 3½ tons each, as proposed, and the space shall be so posted: that this variance is *granted* only for the term of the present war emergency and for six months thereafter, and upon its expiration, the proposed manufacturing and storage use shall be discontinued; that the occupancy of the building may thereafter be resumed as a public garage and the requirements therefor complied with; and that during the term of this variance, any gasoline storage system shall be sealed to the satisfaction of the fire commissioner.

675-41-A

APPLICANT—Charles A. Levitt, for Lewis Steel Products Corp., owner.

SUBJECT—Application for consideration—reopening and extension of time to complete work—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—76-116 North 4th street, south side, between Berry street and Wythe avenue, 199-203 Wythe avenue and 176-180 Berry street (Block 2350, Lots 4 and 13), Borough of Brooklyn.

APPEARANCES—

For Applicant: Charles A. Levitt and Lawrence L. Harris.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioner Savage and Deputy Chief Gunn	3
Negative:	0
Absent: Commissioner Blum	1

THE RESOLUTION (675-41-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 76-116 North 4th street, south side, between Berry street and Wythe avenue, 199-203 Wythe avenue and 176-180 Berry street (Block 2350, Lots 4 and 13), Borough of Brooklyn, was granted by the Board on July 22, 1941, on certain conditions; and

WHEREAS, the resolution was amended on December 15, 1942 and the time was extended on December 14, 1943, to install the sprinkler system; and

WHEREAS, the applicant requested a further extension of time.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted July 22, 1941, as amended by resolutions adopted through December 14, 1943, so that as amended, the portion relating to the sprinkler system shall read:

"* * * that the installation of such sprinkler system shall commence within thirty (30) days and be completed within three (3) months from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolutions of July 22, 1941 and December 15, 1942, shall be complied with."

665-44-A

APPLICANT—Ranger Aircraft Engines, Div. Fairchild Engine & Airoplane Corporation, lessee; Defense Plant Corporation, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—184-10 Jamaica avenue, south side, 411 ft. east of 183rd street (Bldg. No. 1); (Block 10352, Lots 70 and 71), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Franklin H. George.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioner Savage and Deputy Chief Gunn	3
Negative:	0
Absent: Commissioner Blum	1

THE RESOLUTION (665-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 184-10 Jamaica avenue, south side, 411 ft. east of 183rd street (Bldg. No. 1); (Block 10352, Lots 70 and 71), Jamaica, Borough of Queens, was granted by the Board on December 5, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 5, 1944, by deleting in the applicant's contention "that there is a fire alarm installed and that fire drills are maintained," and by amending the resolution, so that as amended, the resolution shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on Alt. Applic. 548-44, Objection 1, and that the appeal be and it hereby is *granted on condition* that the partitions as proposed shall be continued only during the term of the present emergency and for not over one (1) year thereafter; that no additional combustible partitions shall be installed; that the sprinkler and standpipe systems shall be maintained to the satisfaction of the fire commissioner; that a Certificate of Occupancy shall be obtained, to cover the present use and to record the full number of persons per floor, based on the exits and allowance for the sprinkler system; that such portable fire extinguishing equipment shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. Nos. 356-42-A and 24-43-S."

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

(Continuation of the minutes of the meeting of March 13, 1945.)

271-43-BZ

APPLICANT—Lama and Proskauer, for Schrier Trading Corporation, owner.

SUBJECT—Application for consideration—reopening and reconsideration as to new decision—Application (decision of the borough superintendent) previously revoking approval of plans, permits and certificates of occupancy; decision as to zoning variance to be deferred until after compliance—under section 7c of the zoning resolution, to permit in a business use district the maintenance of more than five individual garages.

PREMISES AFFECTED—11-17 (7-17 displayed) Schenectady avenue and 617-627 Herkimer street, northeast corner (Block 1701, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Irving Proskauer.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and granted on condition.

THE VOTE TO REOPEN—

Affirmative: Chairman Murdock, Commissioner Savage and Deputy Chief Gunn	3
Negative:	0
Absent: Commissioner Blum	1

THE VOTE TO GRANT ON CONDITION—

Affirmative: Chairman Murdock, Commissioner Savage and Deputy Chief Gunn	3
Negative:	0
Absent: Commissioner Blum	1

THE RESOLUTION (271-43-BZ)

WHEREAS, this application, under section 7c of the zoning resolution, to permit in a business use district, the maintenance of more than five individual garages, affecting premises 11-17 (7-17 displayed) Schenectady avenue and 617-627 Herkimer street, Northeast corner (Block 1701, Lot 1), Borough of Brooklyn, was placed on the reserve calendar on April 4, 1944 and action on zoning deferred on May 23, 1944, but a resolution was adopted, revoking plans, permits and certificate of occupancy; and

WHEREAS, the applicant requested a reopening and reconsideration of the action of the Board of May 23, 1944; and

WHEREAS, the applicant amended the application at the hearing for consideration under section 7 subdivision f; and

WHEREAS, the premises and area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* its action of May 23, 1944, and does hereby grant a variation of the zoning resolution as follows:

"*Granted* under section 7f, to permit the reconstruction and alterations of existing garages as indicated on revised plans marked "Received March 5, 1945", *on condition* that no additional garages shall be constructed; that all open space not covered by the single car garages shall be paved with concrete; that existing curb cuts on Herkimer street and Schenectady avenue shall not be increased; that no signs advertising the garage use shall be displayed; that no parking of cars shall be permitted other than the parking and storage within the garages themselves; that this variance is for a term of ten (10) years from the date of this resolution; that all permits shall be obtained and all work completed within three (3) months from the date of this resolution."

MATERIALS SUBMITTED FOR APPROVAL

62-39-SM

APPLICANT—The Philip Carey Company, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re The Philip Carey Company "Built-up" Roofing, Approval of (previously approved).

APPEARANCES—

APPLICANT—World Steel Products Corporation, owner.

SUBJECT—World Door Two A, Hollow Metal One and One-Half Hour Door, World Door One, World Door One A and World Door Two, Kalamein, approval of.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Application dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Murdock, Commissioner Savage and Deputy Chief Gunn..... 3
Negative: 0
Absent: Commissioner Blum..... 1

THE RESOLUTION (1003-41-SM)

WHEREAS, the World Steel Products Corporation, owner, filed on November 21, 1941, an application with the Board of Standards and Appeals, for the approval of their material known as the World Door Two A, Hollow Metal One and One-Half Hour Door, World Door One, World Door One A and World Door Two, Kalamein Doors; and

WHEREAS, the applicant failed to arrange for a proper inspection and test of these doors, although duly notified to do so.

Resolved, that the application be and it hereby is *dismissed* for lack of prosecution.

REGULAR MEETING

TUESDAY MORNING, MARCH 20, 1945, 10 A. M.

Present: Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, March 13, 1945, and Tuesday afternoon, March 13, 1945, were approved as printed in Bulletin No. 11, Volume 30.

ZONING CASES

25-45-BZ

APPLICANT—Paul Friedman, for Tuscan Dairy Farms, Inc., owner (Lakewood Farms, Inc., lessee).

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the change of occupancy from existing garage, milk distribution station and office to garage for more than five motor vehicles, offices, storage of insulating and roofing materials and indoor loading platform.

PREMISES AFFECTED—211-213 (205-213 displayed) Highland place, east side, 260 ft. north of Atlantic avenue (Block 3959, Lot 7), Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman, Leo Zimmerman and John Spegle.

For Opposition: Joseph McGrath, Mabel McGrath, Nicholas Ditta, Josephine Condon, Jacob Schreck, Vincenze Salerno.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 24, 1945 at 10 a. m. for an inspection by a committee of the Board. No further argument.

57-45-BZ

APPLICANT—Ralph J. Gurfield, for Storch and Hirsche, owners.

SUBJECT—Application (decision of borough superintendent) under section 21 of the zoning resolution, to permit in a retail use, B area, district, the extension of the 1st story of an existing building to cover the entire lot.

PREMISES AFFECTED—733 9th avenue, west side, 117.13 ft. north of West 49th street (Block 1059, Lot 32), Borough of Manhattan.

MINUTES

APPEARANCES—
For Applicant: Ralph J. Gurfield.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to March 27, 1945 at 10 a. m. for further consideration.

APPEALS FROM ADMINISTRATIVE DECISIONS

475-44-A

APPLICANT—Leo H. Schoen, for Reliable Remover and Lacquer Corporation, owner.
SUBJECT—Application for consideration—reopening and restoration to calendar—re appeal from an order of the fire commissioner re Packaging of Inflammable mixture known as "Reliable Paint, Varnish and Lacquer Remover" in 8 oz., 16 oz., 32 oz. and 128 oz. glass containers (previously withdrawn).
PREMISES AFFECTED—42-56 Crescent street, west side, 84 ft. north of 43rd (Harris avenue); (Block 429, Lot 31), Long Island City, Queens.
APPEARANCES—
For Applicant: Leo H. Schoen and Julius Kaplan.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal reopened and restored to the calendar, subject to usual procedure.
THE VOTE TO REOPEN—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

32-45-A

APPLICANT—K. Stenzel and Sons, lessees, for The Newspaper PM, owner.
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—21-29 Hudson street and 164-166 Duane street, southwest corner (12th floor); (Block 141, Lot 32), Borough of Manhattan.
APPEARANCES—
For Applicant: Hyman Stenzel.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (32-45-A)

WHEREAS, K. Stenzel and Sons, lessee, for the Newspaper PM, Inc., owner, filed January 20, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 21-29 Hudson street and 164-166 Duane street, southwest corner (12th floor); (Block 141, Lot 32), Borough of Manhattan; and

WHEREAS, Order 39925-LC, issued by the fire commissioner December 6, 1944, and repeated in a decision of the fire commissioner dated January 19, 1945, reads:

"With reference to your application for a permit to store and use celluloid and acetone, at the above location, I regret to inform you that this department is without power to grant such a permit for the reason:

A. Building is used for the storage of paints, varnishes or lacquers. Sec. C19-110.0-1-b-7.

B. Building is used for the storage of matches, rosin, turpentine, oil, hemp, cotton. Sec. C19-110.0-1-b-8, Administrative Code.

You are hereby advised to:

1. Remove all nitro cellulose products from the above premises."

and

WHEREAS, the applicant states the building is 12 stories (148 ft.) in height; 121 ft. by 98 ft. in area, of Class 1 construction; erected 1910; located in an unrestricted use, A area, Class 2 height district, and occupied as follows: cellar, printing, 15 persons; 1st to 4th floors, inclusive, publishing, 40 persons; 5th floor, manufacturing shoes, 50 persons; 6th floor, manufacturing cosmetics, 6 persons; 7th floor, photographic work, 15 persons; 8th floor, manufacturing pills, 39 persons; 9th floor, manufacturing marine lights, 25 persons; 10th floor, manufacturing toys, 50 persons; 11th floor, manufacturing sweaters, 75 persons; 12th floor, manufacturing celluloid glass frames, 50 persons; that no change in use or occupancy is proposed, except for the 12th floor, which will be increased in occupancy to 75 persons; that the building is equipped with a two source sprinkler system and an interior fire alarm system, but fire drills are not maintained; that there are three 35 in. fireproof stairs, one of which extends from the street to the roof; and

WHEREAS, the applicant contends that it was the first tenant to sign a lease with the owners and consequently at that time there were no other occupants in the building storing paints, matches, rosin, turpentine, etc.; that the owners had a vault constructed specially for the purpose of storing the applicant's stock of celluloid and acetone; that before leasing the premises, the applicant ascertained that the building was fireproof, sprinklered, had three exits and was equipped with a fire alarm system; that the applicant has gone to considerable expense to see that all other precautions were taken, necessary for the conduct of its business; that the applicant is enaged in an essential industry of manufacturing celluloid optical frames; that to be required to remove all nitro cellulose products from its premises as directed by the order, would mean that they would have to vacate the premises; that an investment of $20,000 was made in installing the plant to meet all fire, health, labor and Building Department standards and that these installments were made with a view of a long term occupancy; it is therefore requested that this appeal be granted; and

WHEREAS, examination of the Fire Department records indicates that permit was applied for to store 10,000 pounds of nitro-cellulose and 10 gallons of acetone.

Resolved, that the order of the fire commissioner, acting on Order 39925-LC, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the proposed storage of celluloid and acetone may be permitted, provided such nitro-cellulose materials as are not actually in process, shall be stored in a vault approved for this purpose by the borough superintendent; that the two source sprinkler system shall be maintained throughout the building; that such other portable fire fighting appliances shall be maintained, including receptacles with water for nitro-cellulose waste, as the fire commissioner shall require; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified under Cal. 722-44-A.

86-45-A

APPLICANT—Sidney L. Strauss, for 42-26 Corporation, owner (International Diesel Electric Co., lessee).
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—42-36 21st street, west side, 140.26 ft. north of 34th avenue and 42-37 13th street (1st floor); (Block 457, Lots 205, 153 and 155), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: Sidney L. Strauss.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.

MINUTES

THE VOTE—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (86-45-A)

WHEREAS, Sidney L. Strauss, for 42-26 Corporation, owner (International Diesel Electric Company, lessee), filed February 21, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 42-36 21st street, west side, 140.26 ft. north of 34th avenue, and 42-37 13th street (1st floor); (Block 457, Lots 205, 153 and 155), Long Island City, Borough of Queens; and

WHEREAS, order 98108-C, issued by the fire commissioner November 6, 1944 and repeated in a decision of the fire commissioner dated February 19, 1945, reads:

"1. Surrender to the bearer Fire Department Permit No. B-226441 expiring August 11, 1945, permitting the storage and use of 550 gallons gasoline (Private Selling Station) on above premises as same is revoked pending compliance with the following:

4. Discontinue use of blow torch in same room where gasoline is used and stored. C19-11.0, Adm. Code."

and

WHEREAS, the applicant states that the building is 1 story (27 ft.) in height, 96 ft. by 190 ft. in area, of class 3 construction, erected about 1920, located in an unrestricted use, B area, class 1 height district and used and occupied since 1943 as a factory for testing and repairing Diesel engines, packing and shipping and office—30 persons, for which no certificate of occupancy has been issued and that the building is equipped with a one source sprinkler system; and

WHEREAS, the applicant contends that the building is used entirely in connection with the war effort; that a portion of the building, as indicated on plans filed with this appeal, is used for testing Diesel engines; that it became necessary to install a buried gasoline tank and an approved pump; that the gasoline is used to prime the Diesel engines for testing; that subsequent to this installation, the process carried on required that certain welding be conducted and that a blow torch be used; that the portion of the building in question is entirely open and at no time is any welding done or a blow torch used within 20 ft. of the testing rack or the gasoline pump; it is respectfully requested that a variation be granted, to permit the work to continue, with the understanding that there will be no open flame from either a blow torch or any welding apparatus within 20 ft. of a point where gasoline is used.

Resolved, that the decision of the fire commissioner, as to Order 98108-C, objection 4, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the sash in the monitor of the building shall be kept open during working hours and that in the bottom half of the exit door on the southerly side of the gasoline engine testing bay, there shall be provided fixed metal louvres, so arranged as to be open at all times; that such portable fire fighting appliances shall be installed as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

APPLIANCE SUBMITTED FOR APPROVAL

49-45-SA

APPLICANT—Safety Heater Company, owner.
SUBJECT—Safety Oil Heater (Preheater), approval of.
APPEARANCES—
For Applicant: Harry P. Jaenike.
ACTION OF BOARD—Appliance approved in accordance with the report of the Committee of the Board.

THE VOTE TO APPROVE—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (49-45-SA)

WHEREAS, the Safety Heater Company, owner, filed on February 2, 1945, an application with the Board of Standards and Appeals for approval of the appliance known as the Safety Oil Heater (Preheater); and

WHEREAS, this appliance was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

March 10, 1945

Re: Cal. 49-45-SA
Subject: Safety Oil Heater (Preheater), approval of.

The Safety Heater Company filed an application with the Board of Standards and Appeals for approval of the Safety Oil Heater (Preheater), under the provisions of C19-57.0.a Administrative Code and the Oil Burner Rules of the Board of Standards and Appeals.

DESCRIPTION

The Safety Oil Heater is a fuel oil heater which, by using an intermediate heating medium for heating the oil, is designed to prevent any fuel oil from entering the boiler, or piping system, should an oil tube become defective and leak. Provisions are also made in conjunction with the Safety Oil Heater to "cut out" the oil burner motor, or, if desired, the entire oil burner circuit, should any of the tubes in the heater leak.

The Safety Oil Heater consists of two chambers—the oil heating chamber #1 (see Fig. 1), containing tubes #2, through which passes the oil to be heated, and the primary heating chamber #3, containing tubes #4, through which passes the primary heating medium.

The primary heating medium, either steam or the boiler water, enters chamber #3, through opening #5, passes through tubes #4, transferring its heat to the intermediate heating medium and then leaves through opening #6.

The fuel oil to be heated enters chamber #1, through opening #7, passes through tubes #2, where it is heated by the intermediate heating medium and leaves through opening #8.

The intermediate heating medium, usually City water, is supplied through opening #9 and completely fills pipe #11, chambers #1 and #3 and also pipe #10 and extends into air chamber #13, up to the level of the pet cock #12. Pet cock #12, is open during the period in which the intermediate medium is being supplied. When the pet cock level is reached, the supply of the intermediate medium is stopped and the petcock closed.

The intermediate medium is heated by the primary heating medium in the tubes #4, in chamber #3, circulates through pipe #10, into chamber #1, where it heats the oil in tubes #2, in chamber #1 and returns by way of pipe #11, to chamber #3, to complete the circuit.

The intermediate medium, when heated in chamber #3, increases in volume. Chamber #13, contains air above the level of petcock #12 and is used as an expansion chamber, to allow for the increase in volume of the heated intermediate medium.

By the use of the intermediate medium, there is no possibility of direct contact between the primary heating medium and the fuel oil, thus preventing the oil from entering the boiler or piping system, should any of the tubes become defective and leak.

Further safety is provided by the use of the Differential Control Switch #14, which, through wires #15, is wired in series with the oil burner motor wiring or,

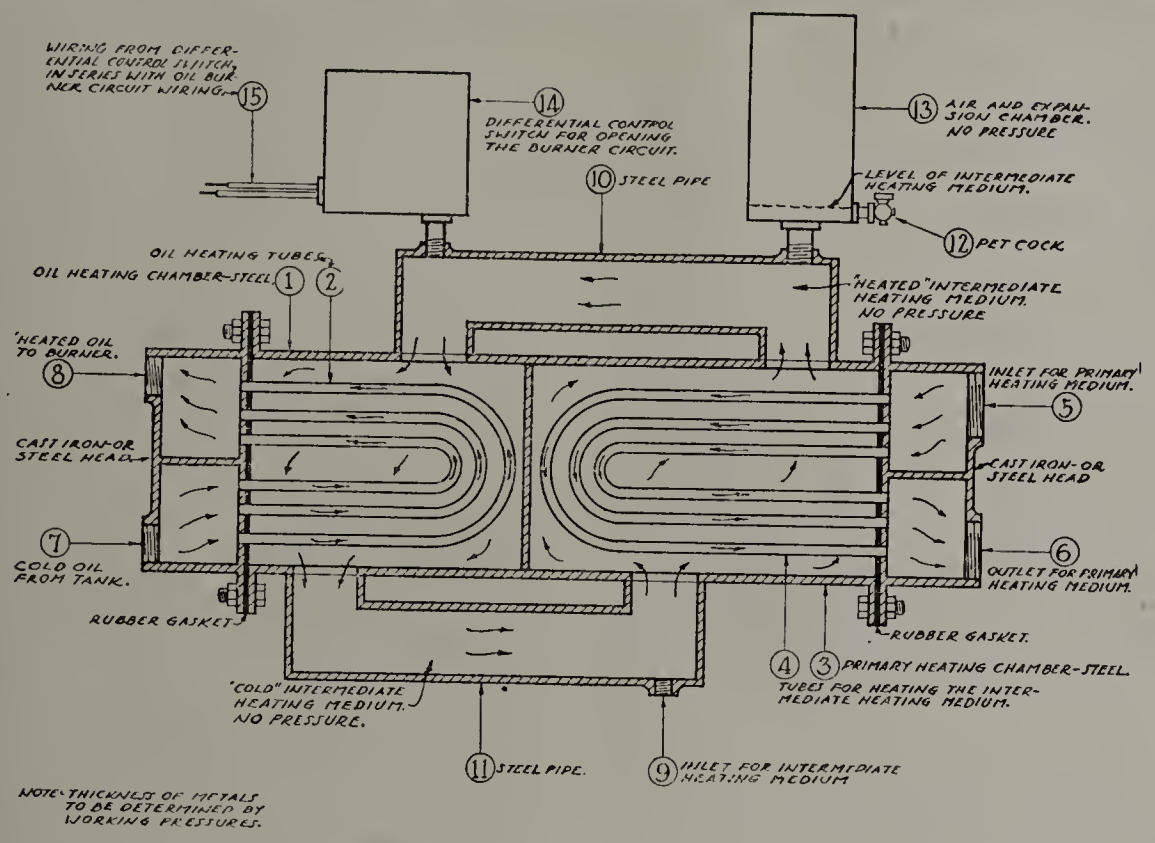

FIG. 1

if desired, the complete oil burner circuit wiring. The switch is set to open the circuit if the pressure on the intermediate heating medium should reach 5 pounds. The switch can be reset to open the circuit at any other pressure which will be less than that in the tubes.

A failure in any of the tubes in the heater will cause the pressure in the defective tubes to be transmitted to and will immediately build up the pressure on the intermediate heating medium. As soon as this pressure reaches 5 pounds, Differential Control Switch #14, will be actuated, the electrical circuit will be opened and stop the oil burner (or, if so wired, "cutout" the entire oil burner circuit).

The heater chambers are constructed of cast iron or steel for low pressures and steel for high pressures. The tubes are of copper. The heater is so designed that the tubes in each chamber are easily removed for inspection, cleaning or replacement, so that each chamber is easily accessible for cleaning. The heater is designed for a maximum pressure of 180 lbs. The pressure control acts at 10 p.s.i. and shuts off the oil flow in 15 seconds.

TESTS

Inspection and test of the Safety Oil Heater (Preheater) were made at 354 Cumberland street, Brooklyn, in the presence of the Committee on Tests of the Board and the representatives of the Division of Combustibles of the Fire Department and of the manufacturer. The device was tested as to construction and controls and found to operate as designed, the controls shutting down flow of oil in 15 seconds.

RECOMMENDATION

On the basis of the inspection and tests, the Committee recommends the approval of the Safety Oil Heater (Preheater) under the provisions of Section C19-57.0.a of the Administrative Code and the Oil Burner Rules, Section *7.2.2*, provided that the installation shall comply with the requirements of the Oil Burner Rules and that the device bears a label permanently affixed reading, "Approved by the Board of Standards and Appeals for use in New York City under Cal. 49-45-SA."

(Sgd) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as the Safety Oil Heater (Preheater), *on condition* that the appliance be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 11:05 A. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, MARCH 20, 1945, 2 P. M.

Present: Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

64-45-A

APPLICANT—Secling and Finkelstein, for 4311 Avenue H Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—4301-4313 Avenue H, northeast corner of East 43rd street (1st floor); (Block 7727, Lots 5 and 9), Borough of Brooklyn.

MINUTES

APPEARANCES—
For Applicant: Harry Finkelstein.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (64-45-A)

WHEREAS, Seeling and Finkelstein, for 4311 Avenue H Corporation, owner, filed February 9, 1945 an appeal from a decision of the borough superintendent, affecting premises 4301-4313 Avenue H, northeast corner of East 43rd street (1st floor); (Block 7727, Lots 5 and 9), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated February 8, 1945 on F. O. Applic. 2137-44, reads:

"1. Proposed use of a 4000 gallon fuel oil tank for Diesel oil contrary to Special Order #218—Fire Department and Ch. 19-69.0 Adm. Code."

and

WHEREAS, the applicant states that the building is 1 story (13 ft. 6 in.) in height, 40 ft. by 97 ft. 6 in. in area, of class 3 construction, erected in 1926, located in an unrestricted use, A area class 1 height district and used and occupied since January 1945, as a garage for storage and repair of more than five motor trucks with an occupancy of 1 person, and proposed to be used and occupied as a garage for the storage and repair of more than five motor trucks with an occupancy of five persons; and

WHEREAS, the applicant contends that the building was erected under N. B. 472-26, as a two story wetwash laundry; that under Alt. 2392-44, the second story was removed and the use changed to garage for storage and repair of more than five trucks; that the trucks to be stored in this building are Diesel engine powered, owned by the owner of the building; that a 4000 gallon fuel oil tank was installed under F. O. Applic. 4586-31; that the high pressure boiler has been removed completely and it is now proposed to use the existing tank for the storage of Diesel oil for the owner's trucks; that the decision of the borough superintendent is based on C19-69.0 of the Administrative Code, which refers to the storage of volatile inflammable oils; that Diesel oil is a fuel oil and is not a volatile inflammable oil and it is therefore contended that Section C19-69.0 does not apply to Diesel oil storage; it is therefore requested that the Board permit the existing tank for the storage of Diesel oil for the owner's trucks exclusively, and not to be sold or used for any other purpose.

Resolved, that the decision of the borough superintendent dated Feburay 8, 1945 on F. O. Applic. 2137-44, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that only fuel oil of a type used for Diesel engines shall be stored in the tank, and specifically for use in the applicant's trucks only; that such portable fire-fighting equipment shall be provided as the fire commissioner shall direct; that in all other respects, the installation shall comply with the requirements of the Oil Burner Rules of the Board, and granted only so long as there is no buried storage system for gasoline on the premises.

125-45-A

APPLICANT—Michael Glick, for Noma Electric Co., Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—55-61 West 13th street, north side, 125 ft. east of 6th avenue (1st floor); (Block 577, Lots 12, 71 and 72), Borough of Manhattan.

APPEARANCES—
For Applicant: Michael Glick and Irwin Wolf.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (125-45-A)

WHEREAS, Michael Glick, for Noma Electric Co., Inc., owner, filed March 6, 1945 an appeal from a decision of the borough superintendent, affecting premises 55-61 West 13th street, north side, 125 ft. east of 6th avenue (1st floor); (Block 577, Lots 12, 71 and 72), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated March 6, 1945, on Misc. F. P. Applic. 195-45, reads:

"3. Denied. C19-72.0 of Adm. Code calls for a boiler room completely detached from balance of the garage."

and

WHEREAS, the applicant states that the building is 9 stories (90 ft.) in height, 100 ft. by 206 ft. in area, of class 1 construction, erected in 1920, located in an unrestricted use district and used and occupied as follows: 1st floor—manufacturing electrical supplies—8 persons; 2nd to 9th floors inclusive—same; 77 persons on the 2nd floor; 4 persons on the 3rd floor; 60 persons on the 4th floor; 50 persons on the 5th floor; 70 persons on the 6th floor; 25 persons on the 7th floor; 60 persons on the 8th floor; and 20 persons on the 9th floor; that the building is equipped with a one source sprinkler system, a standpipe system, interior fire alarm system and that fire drills are maintained; that there are two 44 in. wide fireproof stairs from the roof to the street; and

WHEREAS, the applicant contends that the owner occupies the entire building and manufactures various electrical equipment for the U. S. Navy and in order to expedite deliveries purchased a 1½ ton truck, which is now being used for delivery purposes; that it has been necessary to store this truck at night in the driveway on the 1st floor and permission was requested of the borough superintendent; that this application was objected to by the decision herein appealed; that no gasoline will be stored or sold on the premises; that the truck will only be stored after 6 P.M., after which time, there will be no employees on this floor; that no manufacturing will be done on the 1st floor, but the space is used for the shipping and loading of supplies manufactured in the building; that all materials handled are of an incombustible nature; that the boiler room is located in the cellar and is entirely enclosed with 12 in. brick walls, with a three hour test door to the cellar; that the boiler is under the sidewalk and the proposed location of the car storage will not be over the boiler room, but over a portion of the open cellar; that the present ladder from the boiler room to the street and the iron sidewalk door will in no way be interfered with by the use of the driveway; that the storage of one car on the 1st floor as proposed, will not create a condition hazardous to employees and occupants of the building and it is therefore requested that this appeal be granted.

Resolved, that the decision of the borough superintendent dated March 6, 1945 on Misc. F. P. Applic. 195-45, Objection 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the boiler room in the cellar shall be separated from the balance of the building by fireproof construction and may be enterable from the cellar through one opening only as proposed, such opening to be protected by a fireproof self-closing door; that the engineer's ladder, leading directly to street from the boiler room space, shall be retained; that the use of the building for garage purposes shall be limited to the storage of one 1½ ton truck, used in connection with the

owner's business and such truck shall be stored on the east side of the building on West 13th street, as proposed; that such portable fire fighting equipment shall be installed as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified under Cal. 556-32-A; that this modification is granted for the period of the existing emergency and six (6) months thereafter.

142-45-A

APPLICANT—M. Milton Glass, Rudolph Kahn, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—2766-2770 3rd avenue, northeast corner of East 146th street (2nd floor); (Block 2307, Lot 34), Borough of The Bronx.
APPEARANCES—
For Applicant: M. Milton Glass.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (142-45-A)

WHEREAS, M. Milton Glass, for Rudolph Kahn, owner, filed March 12, 1945, an appeal from a decision of the borough superintendent, affecting premises 2766-2770 Third avenue, northeast corner of East 146th street (2nd floor); (Block 2307, Lot 34), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated February 26, 1945, on Alt. Applic. 116-45, reads:

"1. Provide two interior enclosed fireproof stairways from the 2nd floor, as per Section 270 of the Labor Law."

and

WHEREAS, the applicant states the building is 2 stories (23 ft.) in height; 83 ft. and 118 ft. by 98 ft. in area; of Class 3 construction; erected 1929; located in an unrestricted use, B area, class 1½ height district, and used and occupied as follows: cellar, storage; 1st floor, stores; 2nd floor, offices, stores and dance hall, 100 persons; proposed to be used and occupied cellar, same; 1st floor, same; 2nd floor, offices, stores and factory, 110 persons; that the building is equipped with two 3 ft. 8 in. interior stairs of steel construction with marble treads, enclosed in partitions of wood studs, metal lath and Portland cement plaster both sides, equipped with kalamein self-closing doors and extending directly to the street and one of which extends to the roof; that the building is also equipped with a 45 degree fire escape, extending to the street by a counterbalanced ladder and that the building to the east is 3 stories and the building to the north is 4 stories; and

WHEREAS, Certificate of Occupancy 897, issued January 14, 1929, permits the use of the 2nd floor for dance hall, 100 persons and classifies the building as stores, offices and dance hall of brick construction, 120 lbs. live load on all floors; and

WHEREAS, the applicant contends it is proposed to erect an additional approved type fire escape balcony and 45 degree counterbalanced stair, leading to the street, to serve the easterly part of the 2nd floor, and erect a stationary iron ladder to a new scuttle in the roof within the enclosure of stair No. 1, which does not now lead to the roof; and

WHEREAS, the applicant contends that the neighborhood is such that only tenants will lease the premises who can use it for manufacturing purposes; that this appeal is for a waiver of the requirements of Section 270, Paragraph 4 of the Labor Law, for fireproof stair enclosures and to permit the use of the 2nd floor of the building for a factory; that the proposed occupancy of the 2nd floor will be within the capacity of the stairs as provided in Section 270 of the Labor Law; that all other applicable provisions of the Labor Law and the Building Code will be complied with.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent in Alt. Applic. 116-45, and that the appeal be and it hereby is *granted* as to Objection 1, *on condition* that there shall be erected along the easterly end of the East 146th street side of the building, a second fire escape complying with the Labor Law in all respects; that a gooseneck ladder shall be provided from either one of the two fire escapes along East 146th street to the roof; that a stationary iron ladder of the double rung type shall be provided to a new scuttle in the roof within the stair enclosure, discharging on Third avenue; that no manufacturing shall be permitted on the second floor, other than as shown on plans filed with this appeal marked "Received March 12, 1945"; that the occupancy of the floors shall be limited to the capacity of the interior stairways; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

271-42-A

APPLICANT—The Procter and Gamble Manufacturing Company, owners.
SUBJECT—Application for consideration—reopening and extension of variance—re Appeal form a decision of the borough superintendent.
PREMISES AFFECTED—West side of Western avenue, 900 ft. south of Richmond terrace (Block 1400, Lot 1), Port Ivory, Borough of Richmond.
APPEARANCES—
For Applicant: Sydney Blackett.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (271-42-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises west side of Western avenue, 900 ft. south of Richmond terrace (Block 1400, Lot 1), Port Ivory, Borough of Richmond, was granted by the Board on April 7, 1942, on certain conditions, permit extended on March 30, 1943 and April 4, 1944 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of April 7, 1942 as amended through April 4, 1944, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* for a term of one (1) year from the date of this *amended* resolution, to permit the enclosure of the hoppers as proposed, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of April 7, 1942 shall be complied with and that a new Certificate of Occupancy shall be obtained."

646-44-A

APPLICANT—Frank D. Hutchinson, for Metropolitan Engineering Company, owner.
SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from the decision of the borough superintendent.
PREMISES AFFECTED—1262-1286 Atlantic avenue, south side, 80 ft. west of Nostrand avenue (3rd floor); (Block 1200, Lot 21), Borough of Brooklyn.

MINUTES

APPEARANCES—
For Applicant: Frank D. Hutchinson.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal reopened and resolution amended.
THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (646-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 1262-1286 Atlantic avenue, south side, 80 ft. west of Nostrand avenue (3rd floor); (Block 1200, Lot 21), Borough of Brooklyn, was granted by the Board on November 21, 1944, on certain conditions; and

WHEREAS, the resolution was amended on January 16, 1945; and

WHEREAS, the applicant has requested the Board to reopen this application for the purpose of consideration of an additional objection issued by the borough superintendent March 15, 1945, which objection reads:

"1. Shafts extending above the roof to have a skylight or windows of ¾ the area of the shaft as per sect. #270 of Labor Law."

and

WHEREAS, the applicant states it is proposed to install two windows equipped with steel sash, one 7 ft. 6 in. by 5 ft. 2 in. in area on the street wall of the elevator bulkhead and the other 3 ft. 8 in. by 5 ft. 2 in. in area in the rear wall of this bulkhead; that ⅔ of the area of these sash will be pivoted for ventilation.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 21, 1944, as amended on January 16, 1945, by adding thereto:

"that two windows as shown on plans marked 'Received March 16, 1945' shall be installed above the machinery floor, as shown on such plans; that the building and occupancy shall comply in all other respects with all laws, rules and regulations applicable thereto other than as modified under Cal. 380-31-A, 444-43-A, 243-44-A and 562-44-A."

RULES

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stairhall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the Administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

The Hearing Calendar.

Minutes of Regular Meeting, March 27, 1945, at 10 A. M., Affecting Calendar Numbers 661-44-BZ, 57-45-BZ, 93-45-BZ, 330-36-BZ, 94-45-A and 962-39-SM.

Minutes of Regular Meeting, March 27, 1945, at 2 P. M., Affecting Calendar Numbers 664-44-A, 698-44-A, 161-45-A, 76-45-A, 230-44-A, 653-44-A, 144-45-A, 149-45-A, 670-44-BZ and 191-34-BZ.

(Remaining minutes of the meeting of March 27, 1945 will be printed in the Bulletin of April 10, 1945).

PETITION FOR CERTIORARI ORDER SERVED ON THE BOARD OF STANDARDS AND APPEALS.

On March 29, 1945, copy of petition and order of certiorari was served on the board by Irving Meller, attorney for The Bristol Investing Corporation and Ida Sassulsky, objectors, in re decision of the Board on February 14, 1945, granting an amendment of resolution to extend time in which to obtain permits and complete work in connection with variance granted by the Board on March 25, 1941, permitting, under Section 21 of the building zone resolution, the alteration of two buildings, so that the two restaurants now located therein are changed to one restaurant with new store fronts and entrances located more than twenty-five feet from the business corner; premises 1128-1132 Eastern Parkway (1128-1130 displayed), south side, 20 ft. east of Utica Avenue, Borough of Brooklyn; Cal. No. 79-41-BZ.

It is claimed that since no substantial construction had taken place, the variance itself expired under Section 22A, and, therefore, the Board did not have the power to grant the extension of time to complete.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

area of the lot; premises 233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.

330-29-BZ—Application of Lama and Proskauer, applicants, on behalf of Hannah Harmon, owner, reopened January 23, 1945, under section 7f of the zoning resolution, to permit in a business and residence use district, the continued use of a gasoline service station beyond the temporary period granted by the Board of Standards and Appeals, under Cal. 330-29-BZ, Vol. I; premises 70-58 to 70-66 Kissena boulevard and 153-08 to 153-18 Vleigh (70th) road, southwest corner (Block 6697; Lot 1), Flushing, Borough of Queens.

660-44-BZ—Application, November 21, 1944, under sections 7a and 21 of the zoning resolution, of Henry Nordheim, applicant, on behalf of Doris Gordon, owner, to permit in a residence use district, the change of occupancy on first story of a store, office and residence building from store, apartment and garage to stores; premises 200 East Tremont avenue and 1884 Monroe avenue, southwest corner (Block 2804, Lot 7), Borough of The Bronx.

671-44-BZ—Application, November 27, 1944, under section 7c of the zoning resolution, of Charles H. Richter, applicant, on behalf of Terry and McMichael, Inc., owner, to permit in a residence use district, the erection of a one-story garage for eight (8) trucks used by the owner in the conduct of his business in substitution for an existing smaller frame garage building; premises 424 Weirfield street, east side, 100 ft. south of Wyckoff avenue (Block 3407, Lot 31), Borough of Brooklyn.

136-45-BZ—Application, March 9, 1945, under sections 7i and 7A of the zoning resolution, of Paul Friedman, applicant, on behalf of William A. White, Jr. (as executor and trustee under will of William A. White, deceased) and Nettie H. White, owners (General Outdoor Advertising Co., Inc., lessee), to permit in a business use district, the erection of an automobile showroom and salesroom and motor vehicle repair shop, incidental to salesroom and showroom only, with driveway entrance more than 25 ft. from Merrick boulevard; premises 224-01 to 224-09 Merrick boulevard and 133-29 to 133-37 224th street, northeast corner (Block 12963, Lot 308), Laurelton, Borough of Queens.

157-45-BZ—Application, March 19, 1945, under section 21 of the zoning resolution, of Charles M. Lobejager, applicant, on behalf of Bulova Watch Co., owner (Bulova School of Watchmaking, lessee), to permit in a residence use B area district, the erection of a lunch and rest room for disabled War veterans without providing the rear yard required by the zoning resolution; premises 40-23 62nd street, east side, 215.20 ft. south of Woodside avenue (rear); (Block 1337, Lot 23 and part of Lot 48), Woodside, Borough of Queens.

Appeals from Administrative Decisions.

158-45-A—40-23 62nd street, east side, 215.20 ft. south of Woodside avenue (rear); (Block 1337, Lot 23 and part of Lot 48), Woodside, Borough of Queens.

94-45-A—233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.

APRIL 17, 1945, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday afternoon, April* 17, 1945, at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Appeals from Administrative Decisions.

715-44-A—174-176 South Portland avenue, west side, 430 ft. south of Hanson place (Block 2003, Lot 53), Borough of Brooklyn.

144-45-A—810 Myrtle avenue, south side, 150 ft. west of Marcy avenue (Block 1754, Lot 37), Borough of Brooklyn.

149-45-A—186 William street, east side, 48 ft. 4½ in. north of Spruce street (2nd, 3rd and 4th floors); (Block 103, Lot 3), Borough of Manhattan.

HARRIS H. MURDOCK, *Chairman.*

APRIL 24, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, April* 24, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

25-45-BZ—Application, January 17, 1945, under sections 7c, 7e and 21 of the zoning resolution, of Paul Friedman, applicant, on behalf of Tuscan Dairy Farms, Inc., owner (Lakewood Farms, Inc., lessee), to permit in a residence use district, the change of occupancy from existing garage, milk distribution station and office to garage for more than five motor vehicles, offices, storage of insulating and roofing materials and indoor loading platform; premises 211-213 (205-213 displayed) Highland place, east side, 260 ft. north of Atlantic avenue (Block 3959, Lot 7), Borough of Brooklyn.

109-43-BZ—Application, March 12, 1943, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of Samuel Sym, owner, to permit in a business use district, the extension in area of a building used as a wet wash laundry; premises 64-08 Perry avenue, south side, 47.73 ft. east of Willow avenue (Block 2716, part of Lot 12), Maspeth, Borough of Queens.

607-40-BZ—Application of John H. W. Krogmann, applicant, on behalf of Wells-Smith Corporation, owner (John F. Dubar, lessee), reopened March 27, 1945, for consideration as to extension of variance—Application previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 89-16 to 89-32 Sutphin boulevard, west side, 384.11 ft. north of Jamaica avenue (Block 9676, Lot 13), Jamaica, Borough of Queens.

23-45-BZ—Application, January 17, 1945, under sections 7c and 21 of the zoning resolution, of M. Martin Elkind, applicant, on behalf of Santa Fazzini, owner, to permit in a residence use D area district, the extension of a garage for more than five motor vehicles (trucks of the owner) without providing the rear yard required by the zoning resolution; premises 107-28 157th street, west side, 250 ft. south of 107th avenue (Block 10135, Lots 39, 41, 42 and 43), South Jamaica, Borough of Queens.

796-23-BZ—Application, of Lama and Proskauer, applicants, on behalf of 1507-1535 Coney Island Avenue Corporation, owner, reopened October 10, 1944, under section 21 of the zoning resolution, to permit in a business use district, the alteration of a garage and gasoline service station (previously granted by the Board) to include a room for display and sale of new and used cars; premises 1507-1537 Coney Island avenue and 1101-1111 Avenue L, northeast corner (Block 6722, Lot 49), Borough of Brooklyn.

123-45-BZ—Application, March 5, 1945, under section 21 of the zoning resolution, of Benjamin H. Whinston, applicant, on behalf of Young Israel Synagogue of Claremont Parkway, Inc., owner, to permit in a B area district, the conversion and extension in area of a building now occupied as a two family dwelling into a synagogue without complying with the area requirements for a B area district; premises 1408 College avenue, east side, 87.52 ft. north of East 170th street (Block 2784, Lot 2), Borough of The Bronx.

Zoning Application.

661-44-BZ—Application, November 22, 1944, under section 21 of the zoning resolution, of Max Horn, applicant, on behalf of Kaymos Realty Corporation, owner, to permit in an F area district, the erection of an apartment house covering a greater area than permitted in an F area district; premises 147 Beach 117th street, west side, 440 ft. south of Rockaway Beach boulevard (Block 757, Lots 28, 32 and 34), Rockaway Park, Borough of Queens.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, MARCH 27, 1945.

Present: Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, March 20, 1945, and Tuesday afternoon, March 20, 1945, were approved, as printed in Bulletin No. 12, Volume 30.

ZONING CASES

661-44-BZ

APPLICANT—Max Horn, for Kaymos Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in an F area district, the erection of an apartment house covering a greater area than permitted in an F area district.

PREMISES AFFECTED—147 Beach 117th street, west side, 440 ft. south of Rockaway Beach Boulevard (Block 757, Lots 28, 32 and 34), Rockaway Park, Borough of Queens.

APPEARANCES—
For Applicant: Max Horn.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 8, 1945 at 10 A. M. on request of applicant.

57-45-BZ

APPLICANT—Ralph J. Gurfield, for Storch and Hirsche, owners.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail use, B area district, the extension of the first story of an existing building to cover the entire lot.

PREMISES AFFECTED—733 Ninth avenue, west side, 117.13 ft. north of West 49th street (Block 1059, Lot 34), Borough of Manhattan.

APPEARANCES—
For Applicant: Ralph J. Gurfield.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 17, 1945 at 10 A. M. on request of applicant.

93-45-BZ

APPLICANT—Seelig and Finkelstein, for A. Milder & Sons and Trustees of Leake & Watts Orphan House, in the City of New York, owners.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail use and D area district, the change of occupancy of an existing residence building covering more than 55% of the area lot.

PREMISES AFFECTED—233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.

APPEARANCES—
For Applicant: Harry Finkelstein.
For Opposition: Samuel A. Moss, I. R. Tillmon, Morris Korn and Irving Roossin.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 17, 1945 at 10 A. M., pending an inspection by a committee of the Board. No further argument.

330-36-BZ

APPLICANT—Samuel Rosenblum, for Shelton Holding Corp., owner.

SUBJECT—Application reopened March 6, 1945 for consideration as to extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—141-147 East 48th street, north side, 110 ft. east of Lexington avenue (Block 1303, Lots 24, 25, 26 and 27), Borough of Manhattan.

MINUTES

APPEARANCES—
For Applicant: Samuel Rosenblum and Edwin Carey.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Permit extended.
THE VOTE TO EXTEND PERMIT—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (330-36-BZ)

WHEREAS, this application, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 141-147 East 48th street, north side, 110 ft. east of Lexington avenue (Block 1303, Lots 24, 25, 26 and 27), Borough of Manhattan, was granted by the Board on January 12, 1937, on certain conditions; and

WHEREAS, the permit was extended on November 1, 1938, October 15, 1940 and October 6, 1942; and

WHEREAS, the applicant requested a further extension of the permit, which had expired by limitation of time; and

WHEREAS, this case was reopened by vote of the Board on March 6, 1945, restored to the calendar and set for hearing on March 27, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting on March 27, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of January 12, 1937, as amended through October 6, 1942, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the premises to be used for the parking and storage of more than five (5) motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolutions of January 12, 1937, as amended through October 6, 1942, shall be complied with that a new Certificate of Occupancy shall be obtained."

APPEAL FROM ADMINISTRATIVE DECISION

94-45-A

APPLICANT—Seelig and Finkelstein, for A. Milder and Sons and Trustees of Leake and Watts Orphan House in the City of New York, owners.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.
APPEARANCES—
For Applicant: Harry Finkelstein.
For Opposition: Samuel A. Moss, I. R. Tillmon, Morris Korn and Irving Roossin.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to April 17, 1945 at 10 A. M. in conjunction with Cal. 93-45-BZ.

MATERIAL SUBMITTED FOR APPROVAL

962-39-SM

APPLICANT—Aerocrete Corporation of America, owner.
SUBJECT—Gritcrete Long Span Flat Ceiling-Floor Construction, approval of.
APPEARANCES—
For Applicant: Charles H. Nichols, Jr.
ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.
THE VOTE TO APPROVE—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (962-39-SM)

WHEREAS, the Aerocrete Corporation of America, owner, filed on July 17, 1939, an application with the Board of Standards and Appeals for approval of the material known as Gritcrete Long Span Flat Ceiling-Floor Construction; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

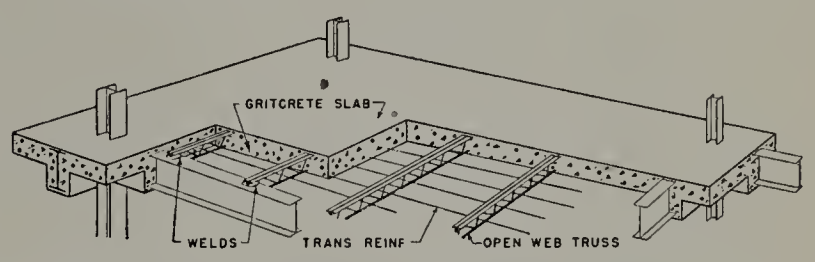
WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

March 20, 1945.

Cal. 962-39-SM
Subject: Gritcrete Long Span Flat Ceiling-Floor Construction, approval of.

The Aerocrete Corporation of America, New York City, filed an application with the Board of Standards and Appeals in accordance with the mandatory requirement of C26-178.0-b of the Administrative Building Code and requests an approval be granted for Gritcrete Long Span Flat Ceiling-Floor Construction (Fig. 1.), under C26-191.0, as a new method of construction not specifically provided for in the Administrative Building Code.



GRITCRETE FLAT CEILING FLOOR CONSTRUCTION
FIG. 1

GRITCRETE

Gritcrete is a form of porous lightweight concrete obtained by adding to the usual ingredients of concrete, compounds as follows:

Gritcrete Compound No. 1—This is a dry metallic powder (Aluminum dust) which causes a foaming to the mix or aerating action about twenty minutes after adding, by combining with the water forming an aluminum oxide and free hydrogen, the latter bubbling up through the concrete and thus rendering it cellular.

Gritcrete Compound No. 2—This is an alkaline water solution *used* in cold weather as a catalytic agent to accelerate the action. The Gritcrete mix is in the proportion of 1 part cement, 2½ parts sand, and 3½ parts grit by volume with 6¾ gallons of water per sack of cement to which is added 6 ozs. per sack of cement of compound No. 1 and one quart per sack of Compound No. 2, yielding a 10 inch stump and a weight of 108 lbs. per cu. ft.

Tests

In order to develop data on which to base a finding, tests were conducted by Columbia University—Report No. 2492 (insofar as the report pertains to Reinforced Gritcrete Flat Ceiling Construction), witnessed by representatives of the Committee on Tests and by Weiskopf and Pickworth, Consulting Engineers, representing the applicant, with tests and results as follows:

Materials Used in Columbia University Tests

The fineness modulus of the coarse sand and ⅜" pea

gravel as used in these tests was 3.23 for sand and 5.79 for gravel. The Gritcrete mix for all four inch floor slabs and the laboratory test specimens with proportions measured by loose and damp values consisted of 1 part cement, 3⅛ parts of sand, 3⅛ parts of pea gravel, and mixing water added at the rate of 6¾ gallons per sack of cement.

Six ounces of Gritcrete Compound No. 1, and ½ to 1½ quarts of Gritcrete Compound No. 2 (alkaline solution) were added per sack of cement.

Loads and Method of Loading

The loading weights consisted of cast iron elevator weights of approximately rectangular shape and varying thickness and weight. The average weight of each type of loading unit was determined before the loading tests were begun. The weight of the smaller units ranged from 29 to 47 lbs., and the larger units weighed 75, 106, 128 and 174 lbs. respectively.

The test load was applied in segregated piles on the floor surface to produce a uniformly distributed load on the panel surface. The piles of loading weights adjacent to the edge of the floor slab were brought within 3″ of the inside face of the 8″ concrete supporting walls.

(A) Load Test of 8½″ Two-Way Panel, 18′-0″ x 27′-0″ Hung Forms

This floor construction consisted of thirteen 7″ welded trusses spaced 23″ c.c. and whose camber was ⅝″. These trusses were composed of a top chord of 2 angles 2″ x 1½″ x 3/16″. The web was one 7/16″ diam. plain bar whose bends were at 45 degrees. The bottom chord comprised two 1″ diam. plain bars. The component parts of the trusses were composed of steel of structural grade, fusion welded together, and a seat was provided at each end consisting of plates 3″ x 5″ x ¼″ welded to the bottom chord. These trusses spanned the short direction of the floor panel and through these were threaded fifteen ½″ diam. deformed straight bars 27′-4″ long, and fourteen ½″ diam. deformed straight bars 20′-6″ long. In addition to these bars, at each end of the long direction of the panel there were placed eight ⅜″ round deformed anchorage bars 3′-2″ long in the last 23″ space which were bent up to provide anchorage for the ½″ diam. straight bars. The straight bars were spaced 7″ cc.

The forms were hung from the trusses and Gritcrete was poured so as to provide ¾″ of Gritcrete below and above the trusses. The Gritcrete was poured to a depth of 6–3/16″ and after expansion was struck off to the 8½″ thickness. The maximum thickness obtained from measurements of the hardened slab after completion of the loading test was 8⅞″. Allowing for small variations, the nominal thickness may be taken as 8½″. The clear spans were 17′-4″ x 26′-4″ and the loaded area was 456.4 sq. ft. The test panel was designed for a superimposed load of 160# per sq. ft.

RESULTS OF TEST—AGE AT TEST, 28 to 32 DAYS

Age (days)	Loads: Total Applied Load on Panel in Lbs.	Deflections (inches): Avg. of Two ¼* Pts. on 27′ Span	Center of Panel Avg. of Two Adjacent Pts.	Avg. of Two ¼* Pts. on 18′ Span
28	56,898	0.09	0.12	0.07
29	113,721	0.32	0.43	0.29
31	113,721	0.36	0.48	0.32
31	170,228	0.65	0.80	0.54
32	170,228	0.75	0.90	0.59
32	221,674	1.76	2.37	1.37
32	238,178 (Max. Load)	(Deflection readings discontinued.) Tension cracks formed along center line of lower surface of panel, in 27′ direction.		

Failure: Loading of slab discontinued at 238,178 lbs. Slab deflected slowly until supported by cribbing. Negative tension cracks also formed in top surface across corners of panel.

* The almost equal relative deflection in these two columns gives a good indication of the Two-Way action of this panel.

(B) Load Test of 5½″ Two-Way Panel—14′ x 16′ Hung Forms

This test floor panel consisted of three 4″ deep welded trusses spaced 48″ c.-c. and whose camber was ½″. These trusses were composed of a top chord of 2 angles 2 x 1½ x 3/16. The web was one 7/16 diameter plain bar whose bends were at 45 degrees. The bottom chord comprised two 1″ diameter plain bars. The component parts of the trusses were composed of steel of structural grade, were fusion welded together, and a seat provided at each end consisting of plates 3″ x 5″ x ¼″ welded to the bottom chord. These trusses spanned the short direction of the floor panel and through which were threaded seven ½″ diameter deformed straight bars 16′-6″ long and six ½″ diameter deformed straight bars 12′ long. In addition to these bars, at each end in the long direction of the panel there were placed seven ⅜″ round deformed bars 3′-2″ long in the last 48″ space which were bent up to provide anchorage for the ½″ diameter straight bars. The straight bars were spaced 12″ c.c.

The forms were hung from the trusses and the Gritcrete was poured so as to provide ¾″ of Gritcrete below and above the trusses. The Gritcrete was poured to a depth of 4–7/16″ and after expansion was struck off to the 5½″ thickness. The maximum thickness obtained from measurements of the hardened slab after completion of the loading test was 6″. The nominal thickness was taken at 5½″, the clear spans were 13′-4″ x 15′-4″, and the loaded area was 204.4 sq. ft. The floor was designed for a superimposed load of 75# per sq. ft.

RESULTS OF TEST—AGE AT TEST, 26 to 28 DAYS

Age (days)	Loads: Load Applied Load on Panel in Lbs.	Deflections (inches): Avg. of Two ¼* Pts. on 16′ Span	Center of Panel	Avg. of Two ¼* Pts. on 14′ Span
26	10212	0.02	0.03	0.01
26	20698	0.04	0.05	0.03
28	20698	0.06	0.08	0.06
28	30994	0.10	0.15	0.10
28	41339	0.24	0.37	0.24
28	51671	0.46	0.72	0.49
28	62266	0.76	1.25	0.79
		(Tension crack formed at mid-span in 16′ direction.)		
28	68490 (max. load)	—	2.52	—

Failure: Tension crack in lower surface as noted above and cracks top surface (Negative tension) across corners of panels at max. load. Slab deflected until supported by cribbing.

* The almost equal relative deflection in these two columns gives a good indication of the two way action of this panel.

(C) Supplementary Laboratory Load Tests Diagonal Tension

The tests for diagonal tension consisted of two Gritcrete beams 6″ wide, 10″ deep and 6′6″ long. They were reinforced with steel reinforcement composed of five ⅜′ diam. hooked deformed bars at the bottom of the beam spaced 1″ c.c. and having ¾″ projection measured from the bottom of the steel reinforcement. The diameter of the hooks in the reinforcement was 8 times

the diam. of the bar, and the length of the bar beyond the hook was 6".

This test was conducted in a 600,000 lb. Southwark-Emery Hydraulic testing machine. The loading was applied at two points 14" from the center of each support and the distance between load points was 34". The bearing at the supports was 4" wide and the bearing at the load points was 5" wide. The age of the specimens at test was 28 days. The dimensions of the specimens tested were 6¼" wide x 9⅞" deep, and were 78" long.

RESULTS OF TEST—AGE AT TEST, 28 DAYS

Specimen	Load at 1st Crack, Lbs.	Max. Load Lbs.	Remarks
1	13,200	22,400	At 13,200 lbs. diag. tension crack ext. from one support. At 22,400 lbs. diag. tension crack ext. from one support to top surface at load point.
2	13,400	19,350	At 13,400 lbs. diag. tension crack ext. from one support. At 19,350 lbs. diag. tension crack ext. from one support to top surface at load point.

(D) Special Anchorage

For this test, using the same mix, there were cast two beams 7½" wide by 6" deep by 6'6" long, reinforced with two ¾" diam. straight deformed bars in the bottom of the beam, and four ⅜" diam. anchor bars hooked and bent up at the end, 2 at each end of the beam with straight lower ends placed on top of the corresponding ¾" diam. straight bars to form the special anchorage. Concrete cover below steel ¾" thick.

These beams were tested in the 600,000 lb. Southwark-Emery Hydraulic testing machine. They were loaded at two points 10" from each support and having a distance between load points of 42". The bearing at the supports was 4" wide and the bearing at the load points was 5" wide. The specimens were measured just prior to testing and were found to be as follows:

Spec. #3, 7⅞" wide x 5¾" deep x 78" long
Spec. #4, 7⅝" wide, 5⅝" deep and 78" long

RESULTS OF TEST—AGE AT TEST, 39 DAYS

Specimen	Load at 1st Crack, Lbs.	Max. Load Lbs.	Remarks
#1	15,800	17,750	At 15,800 lbs. diag. crack formed extending from load point to support. At 17,750 lbs. combined Shear and Compression failure at one end only.
#2	15,200	18,200	At 15,200 lbs. tension crack under load point. At 18,200 lbs. combined Shear and Compression failure at one end of beam.

(E) Bond Tests

Bond tests were made on deformed straight bars embedded in blocks using the same mix with various lengths of embedment and with deformed straight bars with anchorage consisting of standard hooks. These bond tests consisted of two 7½" x 7½" x 6" cubes in which is embedded one ½" diam. deformed straight bar the length of the embedment, being 6" and two 7½" x 7½" x 8" cubes with one ¾" diam. deformed straight bar embedded therein, the length of the embedment being 8". There were two 8 x 16 x 16" blocks, and two 8" x 16" x 20" blocks with one ½" diam. deformed hooked bar embedded in each block, the lengths of embedment being two at 9" and two at 13" respectively.

There were also two 8 x 20 x 20" blocks and two 8 x 20 x 24" blocks with one ¾" diam. deformed hooked bar embedded in each block, the length of embedment being 11" and 15" respectively.

Results of Bond Tests on Deformed Straight Bars

(F) Compression Tests—Age at Test, 28 to 31 Days

Note: To determine the compressive strength of Gritcrete and in view of its aerating properties the Committee of the Board required that compression tests be made along the vertical axis for the reason that in this type of construction strength varies with vertical distance, which is a procedure similar to that prescribed for cast stone and as used by the Bureau of Standards. Thus a sample was obtained which was indicative of the properties of the actual floor construction.

On the basis of the foregoing, tests on 6" cubes using the same mix were conducted at Columbia University with the results as follows:

Source of Cube	Age at Test (days)	Area sq. in.	Height (ins.)	Max. Load Lbs.	Ultimate Strength lbs/sq. in.
4" Floor	31	36.4	6.40	35,900	986
Slabs	31	36.3	6.40	34,200	942
8½"	31	36.3	6.23	62,700	1730

(specimens taken from floor after test)

(H) Additional Field Test

In addition to developing the data on which to base the findings in the form of tests conducted at Columbia University under Report 2492, there was conducted a load test on a floor panel of a completed structure as follows. This panel was loaded, as required under Sec. C26-498.0 of the Administrative Building Code, being Load Test of Completed Reinforced Concrete Structures. This test was conducted by Columbia University and recorded in Report No. 2509.

The floor construction formed a part of the completed floor as herein described, located in apartment house at 220 Madison Avenue, New York City. The panel tested was part of the 11th floor of the building, and was supported on four sides by steel beams framing into steel columns. The supporting beams were as follows: spandrel beam on north side between columns No. 107 and 108, 10 B. L. 19#; west side between columns No. 98 and 108, 16 W. F. 45#; south side between columns No. 97 and 98, 8 B. L. 13#; east side between columns No. 97 and 107, 14 W. F. 30#. All beams had 2″ fire protection of Gritcrete. The panel was 13′ 11″ x 23′ 7½″ center to center of supporting beams with clear spans of 13′-0″ by 23′-0″. The gritcrete slab was 5½″ thick including a monolithic finish. The reinforcement in the short direction (13′ clear span) consisted of six 4″ deep open web steel joists 41″ center to center. Fire protection of the joists was ¾″ Gritcrete top and bottom. The lower chord of the joists consisted of two 1″ round bars, the 45 degree web members were ½″ rounds, and the upper chords were two angles 2″ x 1½″ x 3/16″. Standard steel joist end connections were used with a 5″ x 3″ x ¼″ bearing plate welded to supporting beams by a 1″ x ¼″ fillet weld. The reinforcement in the long direction of the slab (23′ clear span) consisted of ⅜″ round bars 12″ center to center near the lower surface of the slab passing through the steel joists. Reinforcing mesh consisting of No. 7 wire 4″ center to center in the long direction of slab, and No. 11 wire 16″ center to center in the short direction was hooked over the spandrel beam at the north edge of the slab and extended 2′ 6″ into the slab near the lower surface. At the south edge of the slab similar reinforcing mesh was placed over the supporting beam and extended 2′ 6″ into both adjacent panels.

The panel, reported to have been poured on Feb. 27, 1941, had an age of 48 days at time of test. The Administrative Building Code requires not less than 60 under C26-498.0.

Method of Loading

The load applied to the slab consisted of 4″ x 8″ x 18″ hollow cinder concrete partition blocks having an average weight of 21 lbs. each. The blocks were uniformly distributed over the entire slab in piles four blocks square leaving a space of about 3″ around each pile to insure against any tendency for "arching" of the load directly to the supporting beams. The loading was applied in three increments of 10, 40, and 40 lbs. per sq. ft. of clear span of the slab (23′ x 13′) making a total load of 90 lbs. per sq. ft. The loading remained on the slab for 24 hours and was then removed.

Deflections were measured and recorded at each increment of load, after 24 hours of sustained load, immediately after removal of load, and 24 hours later. These measurements were made by means of a deflectometer which consisted essentially of a steel bar and a recording dial reading to .001″. The deflectometer measured the change in distance between a suitable reference mark set in the upper surface of the tenth floor and a similar reference mark set in the under surface of the eleventh floor. These reference marks consisted of expansion bolts machined to engage the deflectometer. Deflections were measured at nine points on the slab (Columbia Report 2509) and are briefly described as follows:

Long Axis of Slab (23 ft. clear span)

Point No.	Location
1	9″ from edge of fireproofing of north beam
2	¼ point of clear span
3	Center of slab
4	¼ point of clear span
5	2″ from edge of fireproofing of south beam

Short Axis of Slab (13 ft. clear span)

Point No.	Location
6	2″ from edge of fireproofing of west beam
7	¼ point of clear span
3	Center of slab
8	¼ point of clear span
9	2″ from edge of fireproofing of east beam

RESULTS OF FIELD TEST

Appl. load on panel in lbs.	Deflection: Avg. of 2 ¼ pts. on 23′ span	Deflection: Center of panel	Deflection: Avg. of two ¼ pts. on 13′ 0″ spans
3066	.011	.013	.010
15288	.068	.091	.071
27300	.163	.209	.155
27300**	.194	.249	.185
0	.076	.094	.068
0***	.065	.084	.060

** Sustained load for 24 hours.

*** 24 hours after removal of load and with a recovery of at least 75% of the 24 hour loading deflection as provided in C26-498.0.

Observations: At maximum load crack visible on upper surface of slab over west of supporting beam; fine crack on undersurface of slab at midspan running north and south (23 ft. direction) about 3 ft. long.

At maximum load sustained for 24 hours, fine crack over east supporting beam. No visible change in previously noted crack over west beam or in crack on under surface of slab. Fine crack observed on upper surface of slab over south supporting beam.

Measured Deflections

	Load	Center Point	At Edge	Short Way D for Slab
Before test	0	0″	0	0
Max.	91.3#/sq. in.	.249″	.090	.084 .165″
			.076	

Measured Deflections (*Continued*)

	Load	Center Point	At Edge		Short Way D for Slab
After test	0	.084″	.016	.018	.066″
			.020		

Summary: Computed deflection = 0.49″
Measured deflection = 0.165″
24 hrs. after load was removed = 0.066″

(I) Compression Tests on Job Specimens

In order to develop data upon which to base a finding relative to working stresses to be used in Gritcrete, samples were taken from various projects installed and tested in accepted laboratories. These samples were taken under job conditions, using job materials. The fineness modulus of the aggregates, brands of cement, and water-cement ratio varied to suit the job conditions and represents the varied conditions under which the material is to be used. In each of the following cases the materials were mixed as follows:

One part of Portland Cement to 5½ parts of aggregate (sand and pea gravel) by dry rodded weight, and so graded as to give a fineness modulus as defined in A.S.T.M.C.-125-36T between 4.0 and 4.3 with total water of not more than 8¾ gals. per bag of cement. To this was added 6 oz. of Gritcrete powder No. 1 to the bag of cement, and where weather conditions necessitated using Gritcrete Compound No. 2, an alkaline solution, it was added up to three quarts of alkaline solution to the bag of cement. This alkaline solution and the moisture in the aggregates was included in the quantity of 8¾ gals. of water per bag of cement. Tests were made on 6 x 6 x 6″ cubes similar to those tested by Columbia University Report No. 2492. These tests were witnessed by a representative of the Board of Buildings Inspection Department.

FIRE TESTS

A four hour fire test of Aerocrete Floor Construction was made by Columbia University, Report No. F. W. 42, January 3, 1929. This construction consisted of a test floor made up as follows:

Type 1—Construction consists of reinforced stone concrete ribs 20 ins. on centers and having a width of 4 ins. at the top and 4½ ins. at the bottom, and a thickness of 4½ ins. between precast or cast-in-place Aerocrete fillers 4½ ins. thick, 16 ins. wide at the top, and 15½ ins. wide at the bottom.

Type 11—Construction consists of a poured in place Aerocrete slab 10½ ins. thick with a ½″ Portland cement mortar finish on top.

The results of the test indicate that the temperature of the lower flange of westerly I-beam did not exceed 221 degrees F. total for Type 11 during the four hours of the test (starting temperature 31 degrees F.) while the unexposed surface of the Type 1 floor reached a temperature of 212 degrees F. which was within the permitted 250 degrees Fahr. rise.

The Building Department, Borough of Manhattan, issued an approval dated April 2, 1929, on both types of floors when protected with precast or poured in place Aerocrete and a fireproof floor fill between beams and girders.

CORROSION TEST

In order to determine the corrosive effect on reinforcing bars embedded in Aerocrete, the following test was made by Theodore Crane, Professor Architectural Engineering at Yale University.

This test was carried out by placing a slab of Aerocrete cast approximately 2″ thick and reinforced with steel wire, in containers with sufficient tap water to cover them. An air jet was placed beneath the water in the container to insure that the latter would, at all times, be completely saturated with air. This test was of the nature of an accelerated corrosion test and rep-

resented conditions much more severe than might be expected under actual construction conditions. After eight weeks exposure in the above described apparatus, the following results were observed. The reinforcement showed very little corrosion. The attack was not sufficient to impair the strength of the reinforcement appreciably.

Control specimens of ⅛" cold rolled steel rods were subjected to identical test conditions in the same apparatus. After eight weeks exposure the following loss of weight was observed:

Aerocrete 0.44%

GENERAL

In order to consider this construction, when designed in accordance with C26-468.0, it is pertinent to compare the results of the load tests (Columbia University Test #2492, Oct. 9, 1939) with those as determined by the formulas of the Administrative Building Code, using allowable values of f'c, as given in Table 1 of C26-364.0 and an n value of 30.

Test Specimen	Designed Superimposed Load	Ult. Superimposed Load	Ratio of Test Load to Formula Load
8½" Slab 18'-0"x27'-0" Panel	160	522	3.26
5½" Slab 14'-0"x16'-0" Panel	75	334	4.45

Results of the Tests on Gritcrete for Diagonal Tension Special Anchorage and Bond compared with results obtained from the Building Code Formulas are as follows:

Columbia University Report #2492

Specimen	Designed Load, N.Y.C. Bldg. Code	Ultimate Load from Test	Ratio Test Load to Designed Load
Diag. Tension (Av. of 2 Specs.)	2740#	20,875	7.62
Spec. Anchorage (Av. 2 Specs.)	2665	17,975	6.74
No Special Anchorage			
½" dia. def. bars	589	4,125	7.01
¾" dia. def. bars	913	7,550	8.27
Bond; Av. of 2 Spec. Anchorage of Standard Hooks			
½" Def. bars 9" embed.	1061	6,025	5.67
½" dia. def. bars 13" embed.	1532	7,800	5.19
¾" dia. def. bars 11" embed.	1943	13,800	7.10
¾" dia. def. bars 13" embed.	2651	16,450	6.21

In the aforementioned tests, Gritcrete was cast using various Portland cements, fine aggregate, coarse aggregate and water cement ratios. These specimens were tested in accepted laboratories, giving the following results:

	Av. Strength lbs./sq. in. in 7 days	Av. Strength lbs./sq. in. in 28 days

A further analysis of concrete construction with a wide range in moduli of elasticity show only minor changes in the concrete stress and, in the worst case, results in a slight increase in the stresses of the reinforcing steel. In Sec. C26-364.0 Item S17, it provides that "in determining the ratio for design purposes, the modulus of elasticity for the concrete shall be taken as 1000 f'c and that for steel as 30 million pounds per sq. in. where f'c is the ultimate compressive strength of concrete." On the basis of the foregoing data, it is apparent that this relatively new construction known as

MINUTES

Reinforced Gritcrete Flat Ceiling Construction can be safely used when designed in accordance with the accepted engineering formula. Numerous specific approvals and tests on completed floor constructions have been made by several Borough Superintendents and the Board in recent years, which upon inspection indicates satisfactory performance, further justify the integrity of this construction.

The Committee on Tests of the Board visited premises where this method of construction had been used and reports as follows:

Inspections were made by the Committee on Tests of the Board on January 27, 1943, of floor slab in apartments 14-J, 11-M, 8M and 2-G at 220 Madison Avenue (Cal. 1018-40-A) and in apartments 12C, 7B and 8E at 735 Park Avenue, corner of 71st Street (Cal. 44-40-A). These buildings have been completed and occupied about a year and a half.

There were no indications of settlement or cracking in Gritcrete slabs in any of these apartments, while there was evidence of settling and cracking in walls, ceilings and slabs of other construction and the reinforced concrete fireproofing of hall girders did show several cracks at supports. The ordinary hair cracks were observed on plaster and calcinous ceilings. These cracks were not probed for depth and extent. On painted ceilings no cracks were observable. In one Duplex apartment a heavy man jumped up and down repeatedly on the floor slab while ceiling underneath was being observed. There was no noticeable effect.

A recent inspection of Gritcrete Long Span-Flat Ceiling-Floor Construction, installed some four years ago, was made in buildings located at 280 Madison Avenue and 737 Madison Avenue, New York City, by Mr. John W. Pickworth of Weiskopf and Pickworth, who reports as follows:

"At 280 Madison Avenue the superintendent and the renting agent, who authorizes all repair work and who receives all complaints, were closely questioned, as were tenants in various apartments. The floors and ceilings were observed to be in excellent condition and the questions were all answered in a manner indicating entire satisfaction with the installation. The flat ceiling as a feature is appreciated and considered much better sound insulation than is the short span cinder concrete construction in other portions of each apartment.

At 737 Madison Avenue several apartments were inspected and the superintendent and tenants questioned. The ceilings in the Long Span Gritcrete construction were in excellent condition and in places still looked clean and uncracked, although they have never been repainted. All concerned were well pleased and even enthusiastic about the installation.

An experiment was made to compare the soundproofing qualities of the Long Span Gritcrete construction used in the living rooms and the short span cinder concrete floor construction used in the other rooms. Steel balls of various sizes were dropped from a height of two feet and two listeners a floor below made careful notes on the noise. After the experiment comparisons of their notes showed that they were in complete agreement that considerably more sound was transferred through the cinder concrete short span construction.

In conclusion we wish to state that we find the Gritcrete construction in as good shape and as satisfactory as when last inspected in January, 1943, over two years ago."

RECOMMENDATIONS

On the basis of the foregoing data, in accordance with Sections C26-189.0 and C26-191.0, which vest in the Board the power to test and approve new materials and methods of construction, the Committee on Tests recommends approval of Gritcrete and Gritcrete Long Span Flat Ceiling Floor Construction, fig. 1 for uses as follows:

As a permissive type of fireproofing under C26-575.0, Grade I in long spans, and for use in floor and roof construction for clear spans as listed hereinafter, and for superimposed loads not exceeding 115 lbs. per sq. ft. under Sections C26-315.0 to 319.0 incl., 366.0, 468.0 to 473.0 incl., 478.0 to 486.0 incl., 489.0 to 492.0 incl. of the Administrative Building Code.

Provided that the average Ultimate Compressive Strength of not less than five 6" cubes as determined by compression tests at end of 28 days shall be not less than 1,000 lbs. per sq. in. with no individual specimen less than 800 lbs. per sq. in., in which event all samples shall be disregarded and the necessary corrections made to the mix. Should the tests meet these requirements the f'c established shall be 900 p.s.i. and the corresponding values for bond, shear and flexure and n shall be as given in table below:

Designation	Description	Allowable Working Stresses %	lbs/sq. in.
	Flexure: f_c		
S_1	Extreme fibre stress in compression	0.40f'c	360
S_2	Extreme fibre stress in compression adjacent to supports of continuous or fixed beams or slabs or of rigid frames	0.45f'c	405
	Shear: v		
S_3	Beams without web reinforcement and without special anchorage of longitudinal steel	0.02f'c	18
S_4	Beams without web reinforcement, but with special anchorage of longitudinal steel	0.03f'c	27
S_5	Beams with properly designed web reinforcement, but without special anchorage of longitudinal steel	0.06f'c	54
S_6	Beams with properly designed web reinforcement, and with special anchorage of longitudinal steel	0.09f'c	81
	Bond: u		
	In beams, slabs and one-way footings:		
S_{10}	Plain bars	0.04f'c	36
S_{11}	Deformed bars	0.05f'c	45
	Double values for bond		
	Bearings: f_c		
S_{14}	Direct bearing	0.25f'c	22
S_{17}	Ration (n)		25

Provided further that the minimum thickness of slabs and the depth of open-web trusses shall be the following:

Table

Thickness of Slab	Depth of Truss	Minimum Camber of Truss	Principal Max. Clear Span Short Dir.
5½"	4"	½"	14' 0"
6"	4½"	½ to ⅝"	15' 6"
6½"	5"	⅝ to ¾"	17' 0"
7"	5½"	¾ to ⅞"	18' 0"
7½"	6"	¾ to ⅞"	19' 0"
8"	6½"	¾ to ⅞"	20' 0"

Provided further that the maximum spacing of the open web trusses shall be 48" o.c. and that in calculating the resisting moment, the effective width of the Gritcrete shall be taken as 48" or one-quarter of the span,

whichever is less and the finish not to be included in the computations.

Provided, further that the reinforcement in the long direction shall be at least one third of the amount which is required in the short direction for the support of the superimposed loading. At the supports running parallel to the short direction, deformed hooked bars shall be provided not less than ⅜" in diameter, 30" in length, and spaced 24" c. to c. or an equivalent mesh area may be substituted.

Provided that the open web trusses where used shall be welded securely to the principal steel beams with fillet welds complying with the Welding Rules of the Board, at least one inch total length at each end, and that each one of these trusses be cambered by means of a distinct cambering operation and of an amount equal to the deflection of the open web trusses for the dead weight of the slab and forms when carried by the floor. Any openings in the floor shall be either framed for, or the slabs shall be reinforced, to provide for such conditions as may exist.

The ingredients of the proposed mixture of Gritcrete weighing 108 lbs. per cu. ft. shall consist of one part of approved cement to 5½ parts aggregate (sand and grit) by dry rodded weight, and so graded as to give a fineness modulus as defined by A. S. T. M. C125-36T between 4.0 and 4.3 and with total water of not more than 8¾ gals. to the bag. This mixture shall be aerated by adding Gritcrete Compound No. 1 (a dry metallic powder) in the ratio of six ounces of powder to a bag of cement. Where weather conditions necessitate, Compound No. 2, an alkaline solution mixed in proportions of one pound of such compound to two gals. of water may be added in amounts not to exceed 3 quarts to a bag of cement. The amount of this water added shall be included in arriving at the maximum water cement ratio given above in the mixing water.

The proportioning, mixing, handling and placing shall be under the supervision of an experienced engineer of the Aerocrete Corporation continuously during the pouring of all floors and fireproofing and field records of mixes and tests shall be kept on the job, as required under C26-497.0. He shall also be responsible for the placing and welding of trusses and the reinforcement, and the camber of the trusses.

Field tests as provided for in C26-501.0 (8.5.33) insofar as applicable to this material shall be made by the Borough Superintendent. All reinforcing steel used herein shall correspond to the requirements of C26-316-7.0 and comparable to the test values of reinforcing steel, and shall be protected as required in C26-509.0. Conduits and piping shall be so placed as not to reduce the strength of the construction.

It is further recommended that all designs be certified to by a Professional Engineer in charge of design, that drawings submitted to the Department of Housing and Buildings bear wording as follows: The design of .....floors under Building permit #..... year ..... is strictly in accordance with the approval granted under Cal. 962-39-SM.

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Gritcrete Long Span Flat Ceiling-Floor Construction, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

REGULAR MEETING

TUESDAY AFTERNOON, MARCH 27, 1945.

Present: Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

664-44-A

APPLICANT—Jochanon I. Rudavsky, for Midwood Gardens, Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—741-775 Ocean Avenue, east side, 60 ft. south of Beverly road (Block 5151, Lot 33), Borough of Brooklyn.

APPEARANCES—

For Applicant: Jochanon I. Rudavsky.

For Administration: Fred Dahlem and Henry Pheney, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Commissioners Savage and Blum and Deputy Chief Gunn 3

Absent: Chairman Murdock 1

THE RESOLUTION (664-44-A)

WHEREAS, Jochanon I. Rudavsky, for Midwood Gardens, Inc., owner, filed November 24, 1944, an appeal from a decision of the borough superintendent, affecting premises 741-775 Ocean avenue, east side, 60 ft. south of Beverly road (Block 5151, Lot 33), Borough of Brooklyn and;

WHEREAS, the decision of the borough superintendent, dated November 14, 1944, on Alt. Applic. 2834-44, reads:

"Const. 2. Roof construction of space devoted to sun bathing weak. To be good for 100 lbs. per sq. ft. live load as per Sec. 7.3.2.2.5 of the Building Code."

and

WHEREAS, the applicant states the building is six stories (65 ft.) in height; 300 ft. by 87 ft. in area; of Class 3 construction; erected 1931; located in a residence use, C area, Class 1¼ height district, and used and occupied as follows: cellar, ordinary, 1st floor, dentist's office and 16 apartments; 2nd to 6th floors, inclusive, 16 apartments each; and

WHEREAS, Certificate of Occupancy 104327 issued January 30, 1942 on Alt. Applic. 1417-40, classifies the building as Class A hereafter erected and permits the use of the building as follows: cellar, ordinary; 1st floor, 16 families, including the dentists office; 2nd to 6th floors, 16 families each; and

WHEREAS, violation was issued by the Division of Housing for erecting a 25 ft. by 50 ft. frame sun platform, half of which is covered with a frame roof supported by 2 ft. by 4 ft. supports and directed the restoration of the above premises to the original legal condition existing prior to said alteration; and

WHEREAS, the applicant contends it is proposed to use a small portion of the roof as a space for sun bathing by the tenants; that this space or platform will have a 3 ft. high pipe railing all around same; that the roof is designed for a live load of 40 lbs. per sq. ft.; that at no time will the roof area be loaded in excess of 40 lbs. per sq. ft.; that the roof area will be furnished with beach chairs and will be used by the tenants for recreational purposes only.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 2834-44, Obj. 2, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

698-44-A

APPLICANT—Harold Carlson, for Anna Marmon, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—197-23 47th avenue, north side, 340.22 ft. west of Francis Lewis boulevard (Block 5554, Lot 12 and Block 5555, Lot 19), Bayside, Borough of Queens (Under section 35, General City Law re bed of mapped streets—46th road and 197th street [place]).
APPEARANCES—
For Applicant: Harold Carlson.
For Administration: Fred Dahlem, Dep't of Housing and Buildings, and Charles M. McWilliams, Borough President's office.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn	3
Negative:	0
Absent: Chairman Murdock	1

THE RESOLUTION (698-44-A)

WHEREAS, Harold Carlson, for Anna Marmon, owner, filed December 1, 1944, an application pursuant to Section 35 of the General City Law, for permission to erect a building extending into the bed of a mapped street, affecting premises 197-23 47th avenue, north side, 340.22 ft. west of Francis Lewis boulevard (Block 5554, Lot 12 and 5555, Lot 19) Bayside, Borough of Queens; and

WHEREAS, the decision of the borough superindentent, dated November 10, 1944, on N. B. Applic. 6368-44, reads:

"1. The erection of a building in the bed of a mapped street is contrary to Art. 3, Sec. 35 General City Law."

and

WHEREAS, the building will be one story, 18 ft. in height; 50 ft. by 150 ft. in area; of Class 5 construction, located in a business and residence use, D area, Class 1 height district and used and occupied as a green house; and

WHEREAS, the applicant states that should this application be granted, the owner will remove any portion of the building encroaching on the mapped street, when the street is acquired by the city; and

WHEREAS, drawings filed with this application indicate that the proposed building will project approximately 25 ft. into the bed of 197th street (as proposed), north of 46th road (as proposed); and

WHEREAS, due notice of this hearing was had by publication in the Bulletin of the Board, in accordance with the requirements of Section 35 of the General City Law.

Resolved, that the decision of the borough superintendent, acting on N. B. Applic. 6368-44, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted* under the powers vested in the Board under Section 35 of the General City Law, to permit the extension of the green house as proposed, into the bed of 197th street for a distance of approximately 25 ft., *on condition* that in the event the premises are acquired by the City of New York for street purposes, that such portion of the green house shall be removed by the owner at his expense and no claim made for the cost or removal or reconstruction of the remaining portion of the green house and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

161-45-A

APPLICANT—M. Allen Schlendorf, for John W. Kiesling and Son, Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—237-239 Richmond street, east side, 65 ft. north of Dinsmore place and 91-95 Dinsmore place (1st and 2nd floors); (Block 4141, Lot 4), Borough of Brooklyn.
APPEARANCES—
For Applicant: M. Allen Schlendorf.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn	3
Negative:	0
Absent: Chairman Murdock	1

THE RESOLUTION (161-45-A)

WHEREAS, M. Allen Schlendorf, for John W. Kiesling and Son, Inc., owner, filed March 21, 1945, an appeal from a decision of the borough superintendent, affecting premises 237-239 Richmond street, east side, 65 ft. north of Dinsmore place and 91-95 Dinsmore place (1st and 2nd floors); (Block 4141, Lot 4), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated March 20, 1945, on Alt. Applic. 383-45, reads:

"6. Provide exits from 2nd floor as per Section 270 of the Labor Law.

7. Provide exits from the first floor leading to the street, so that no point on the floor is distant more than 100 ft. from an exit as required by Section 270, par. 3 of the Labor Law."

and

WHEREAS, the applicant states that the building is 1 and 2 stories in height, 60 ft. front on Richmond street, 60 ft. front on Dinsmore place with a depth of 250 ft. therefrom, of class 3 construction, erected in 1920, located in an unrestricted use, C area and class 1 heiglit district, used and occupied since March 1, 1945 as follows: cellar—boiler room—no persons; 1st floor—garage (non storage) for more than five cars—25 persons; 2nd floor—office—10 persons; proposed to be used and occupied: cellar—same; 1st floor—machine shop—50 persons; 2nd floor office and dead file storage—5 persons; that the building is equipped with a standpipe system, one 3 ft. 5 in. wide interior steel stairs enclosed in 6 in. terra cotta blocks, equipped with one hour test fireproof, self-closing doors and leading directly to the street, but not to roof; and

WHEREAS, no Certificate of Occupancy has been issued and

WHEREAS, the applicant contends that it is proposed to alter the building for use as a factory on the first floor and retain the existing office on the second floor; that the Board is requested to accept the present exit facilities from the 2nd floor, consisting of a 3 ft. 5 in. wide steel stairs, enclosed with 6 in. terra cotta on 1st floor; that the occupancy of the second floor will not be changed, but will be reduced in office area by the construction of a dead file storage room occupying ½ of the floor area; that the maximum number of occupants on the 2nd floor will be five persons; and

WHEREAS, the applicant has filed plans with the Board, marked "Received A-2)", indicating that it is proposed to install a new 3 ft. 8 in. wide one-hour self-closing fireproof door on the easterly wall opening to an easement at the rear of the adjoining premises, which easement will have a minimum width of 6 ft. and will lead to Chestnut street.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 383-45, and that the appeal be and it hereby is *granted* as to Objection 6, *on condition* that a hinged iron ladder is placed either on the Dinsmore place wall or the portion of the interior lot line wall adjacent to the property of Jack Siegal at premises 242 Chestnut street, Brooklyn, New York, for which a copy of a properly executed easement shall be filed with the borough superin-

tendent; and withdrawn as to Objection 7, to comply and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

76-45-A

APPLICANT—Jules Kabat, for Nicholas Bachert, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—139 Evergreen avenue, east side, 25 ft. north of Troutman street (1st and 2nd floors); (Block 3172, Lot 2), Borough of Brooklyn.
APPEARANCES—
For Applicant: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal withdrawn on written request of applicant.
THE VOTE TO WITHDRAW—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

230-44-A

APPLICANT—Henry George Greene, for Sheraton Hotel Corporation, owner.
SUBJECT—Application for consideration—reopening and restoration to calendar (previously withdrawn—re Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—297-303 Lexington avenue and 133-139 East 37th street, northeast corner (15th floor and penthouse); (Block 893, Lot 25), Borough of Manhattan.
APPEARANCES—
For Applicant: Henry George Greene.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal reopened and restored to the calendar, subject to usual procedure.
THE VOTE TO REOPEN—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

653-44-A

APPLICANT—Samuel Rosenblum, for Adon Realty Corporation, owner.
SUBJECT—Appeal from a decision re an order of the fire commissioner.
PREMISES AFFECTED—80-84 Nassau street, east side, 99 ft. 9 in. North of John street (cellar); (Block 78, Lot 38), Borough of Manhattan.
APPEARANCES—
For Applicant: Samuel Rosenblum.
For Administration: Peter Maher, Fire Dep't.
ACTION OF BOARD—Laid over to April 10, 1945 at 2 P.M., pending an inspection by a committee of the Board.

144-45-A

APPLICANT—Abraham Landow, for Fannie Edelman, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—810 Myrtle avenue, south side, 150 ft. west of Marcy avenue (Block 1754, Lot 37), Borough of Brooklyn.
APPEARANCES—
For Applicant: Abraham Landow.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to April 17, 1945 at 2 P.M., pending an inspection by a committee of the Board.

149-45-A

APPLICANT—Harry P. Jaenike, for Guaranty Trust Co., (trustee u/w of Theodore Roosevelt), owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—186 William street, east side, 48.4½ ft. north of Spruce street (2nd, 3rd and 4th floors); (Block 103, Lot 3), Borough of Manhattan.
APPEARANCES—
For Applicant: Harry P. Jaenike.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to April 17, 1945 at 2 P.M., pending an inspection by a committee of the Board.

ZONING CASES

670-44-BZ

APPLICANT—Albert E. Wheeler, for Vinmont Land Corporation, owner.
SUBJECT—Application (decision of the borough superintendent) under Section 21-C of the zoning resolution, to permit in a C and F area district, a one-family residential development not conforming to the area requirements.
PREMISES AFFECTED—East side of Mosholu avenue, from West 254th to West 255th streets (Block 3421C, Lot 1311 and Block 3421D, Lot 1417), Borough of The Bronx.
APPEARANCES—
For Applicant: Albert E. Wheeler and Robert C. Weinberg.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application placed on the Reserve Calendar.

191-34-BZ

APPLICANT—Herman Kron, for 180th street and Boston Road, Inc., owner.
SUBJECT—Application for consideration—reopening on a new proposal—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit partly in a business use district and partly in a residence use district, the erection of a gasoline service station and also, the parking and storage of more than five motor vehicles; previously denied.
PREMISES AFFECTED—2087 Boston road, north side, 91.96 ft. east of East 179th street (Block 3137, Lot 20), Borough of The Bronx.
APPEARANCES—
For Applicant: Herman Kron.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and restored to the calendar, subject to usual procedure.
THE VOTE TO REOPEN—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

CONTENTS

This issue of the Bulletin contains in the order given—

Court Decision.

Docket.

Rules Directory.

The Hearing Calendar.

Continuation of Minutes of Regular Meeting, March 27, 1945, at 2 P. M., Affecting Calendar Numbers 607-40-BZ, 330-22-BZ, 93-37-BZ, 609-37-BZ, 162-40-BZ, 284-42-BZ and 570-43-SA.

COURT DECISION.

Matter of Anne Cosden vs. Board of Standards and Appeals:—On January 22, 1935, the Board denied an application under section 21 for erection and maintenance of a gasoline station on this plot, including in its decision a report by the Board, referring in part to a temporary grant.

On June 25, 1935, the Board reopened application for consideration of a temporary permit for 5 years, but on July 16, 1935, it denied said application, deeming the applicant had failed to substantiate his basis of appeal under section 21, for a five-year period, on the ground of practical difficulty and unnecessary hardship. Subsequently, a writ of certiorari was served on the Board. The Supreme Court, at Special Term, sustained the action of the Board and dismissed certiorari on January 29, 1936.

On January 6, 1942, the application was reopened, under section 7f, by a vote of the Board.

On December 14, 1943, the Board, after a public hearing, affirmed the decision of the borough superintendent on Alt. Applic. 5066-41 and denied application under section 7f, deeming that there was no justification for the exercise of its discretion.

Writ of certiorari was served on the Board on January 21, 1944.

Supreme Court, at Special Term, Mr. Justice Walsh, in dismissing writ of certiorari and affirming the determination of the Board, stated in part: ". . . the transcript of the record has been carefully examined. It does not disclose any evidence to indicate that the board abused its discretion in denying the petitioner's application . . ." (N.Y.L.J., April 9, 1945, page 1342).

Cal. No. 297-34-BZ; premises 2705-2715 Nostrand Avenue, east side, 360 ft. north of Avenue N, Borough of Brooklyn.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to April 3, 1945.

Cal. No. Dept. Premises Affected.

179-45-BZ—H.B.R.—15 and 17 Smith street, northeast side, 153.83 ft. northwest of St. Marys avenue (Block 2969, Lots 16 and 17), Rosebank, Borough of Richmond, N. B. 25-45.

180-45-A—H.B.B.—1283-1285 Coney Island avenue, east side, 260 ft. south of Avenue I (Block 6704, Lot 74), Borough of Brooklyn, Alt. 481-45.

181-45-A—F.D.—429 5th avenue, east side, 60 ft. 11 in. north of East 38th street (cellar); (Block 868, Lot 4), Borough of Manhattan, 18388-LF and Decision.

182-45-A—F.D.—1100-1108 Grand street, south side, 561 ft. 1½ in. west of Morgan avenue (Block 2942, Lot 49), Borough of Brooklyn, Decision re 96295-LC.

183-45-A—H.B.Q.—1037-1041 Beach 20th street, west side, 204 ft. 8 in. south of Mott avenue (1st and 2nd floors); (Block 212, Lot 60), Far Rockaway, Borough of Queens, Alt. 287-45.

184-45-A—H.B.Q.—147-02 Newport avenue, northwest corner of Beach 147th street (Block 34, Lots 1634 and 1643), Neponsit, Borough of Queens, Alt. 331-45.

185-45-A—F.D.—1527-1531 Charlotte street, west side, 110 ft. south of Boston road (Block 2966, Lot 31), Borough of The Bronx, 40356-LC and Decision.

186-45-BZ—H.B.Bx.—1219 Mace avenue, northwest corner of Pearsall avenue (Block 4462, Lot 5), Borough of The Bronx, Amendment to Alt. 213-44.

187-45-A—H.B.M.—137-143 West 108th street, north side, 300 ft. east of Amsterdam avenue (Block 1863, Lot 13), Borough of Manhattan, Alt. 258-44.

188-45-BZ—H.B.B.—170-172 Van Siclen avenue, west side, 102 ft. 10 in. south of Atlantic avenue (Block 3961, Lot 18), Borough of Brooklyn, Alt. 769-45.

189-45-A—H.B.Q.—53-86 65th place and 64-23 53rd drive, northwest corner (1st floor); (Block 2374, Lots 101 to 105, inclusive, 200 and 201), Maspeth, Borough of Queens, Alt. 1326-44.

190-45-SA—Pan-Tex Dry Cleaning System, Models CB1, CB2, CB3, CB4, CB5, CB6, CB7, CB8, M1, M2, M3, M4, M5, M6, M7 and M8, Appliance.

191-45-BZ—H.B.M.—346-352 and 354-360 West 17th street, south side, 100 ft. east of 9th avenue and 355 West 16th street (Block 740, Lots 7 and 55), Borough of Manhattan, Alt. 224-45 and Alt. 101-45.

192-45-A—F.D.—111-117 East Houston street and 229 Chrystie street, southwest corner (Block 427, Lot 27), Borough of Manhattan, Decision re 40051-C.

193-45-A—H.B.Bx.—1074 Franklin avenue, south side, 249.70 ft. east of 3rd avenue (1st and 2nd floors); (Block 2607, Lot 37), Borough of The Bronx, Alt. 134-45.

APRIL 10, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, April* 10, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

753-44-BZ—Application, December 29, 1944, under sections 7e, 7f and 21 of the zoning resolution, of Chester A. Cole and Maurice G. Uslan, applicants, on behalf of Emanuel M. Honig, owner, to permit partly in a residence use and partly in a business—1 business use district and D and E area district, the erection of a building occupying more than the permitted percentage of lot and omitting the required yards and court area; building to be occupied as a garage for more than 5 motor vehicles, motor repair shop, show rooms and gasoline service station; premises 140 Main street, south side, 369.04 ft. west of Craig avenue (Block 8028, Lot 67), Tottenville, Borough of Richmond.

56-45-BZ—Application, February 6, 1945, under section 7A of the zoning resolution, of George W. Swiller, applicant, on behalf of R. and A. Building Corporation, owner, to permit in a business use district, abutting a residence use district, the extension of a show window more than 25 feet beyond the intersection of the two streets; premises 125-131 East 170th street and 1401-1405 Wythe place, northwest corner (Block 2843, Lot 98), Borough of The Bronx.

589-38-BZ—Application of The Franklin Savings Bank in the City of New York, applicant and owner, reopened March 13, 1945 for consideration as to extension of variance (expired by limitation)—Application, previously granted on condition, under section 7h of the zoning resolution for a temporary term of two years, permitting in a retail use district, the parking and storage of more than five motor vehicles; premises 303 West 51st street, north side, 58 ft. 10½ in. west of Eighth avenue (Block 1042, Lot 28½ and parts of Lots 29, 30, 30½, 31, 32, 33, 33½ and 34), Borough of Manhattan.

639-44-BZ—Application, November 13, 1944, under sections 7e and 21 of the zoning resolution, of Halford Realty Corporation, applicant and owner, to permit in a residence use district, the maintenance of two garages, one (metal) for five motor vehicles and one (frame) for ten motor vehicles, space rented to persons not residing on premises; premises 440 West 240th street, southeast corner of Greystone avenue to Dash place (Block 3414-E, Lot 20), Borough of The Bronx.

40-45-BZ—Application, January 29, 1945, under sections 7c and 21 of the zoning resolution, of Daniel Santoro, applicant, on behalf of Gus Stanzione and Rose Stanzione, owners, to permit in a residence use E area district, the erection of a three-car garage (for light delivery trucks) as an accessory to a bakery-grocery business on the front of plot in a local retail D area district; premises 705 Forest avenue, north side, 310.66 ft. west of Bement avenue (Block 168, Lot 68), West Brighton, Borough of Richmond.

52-45-BZ—Application, February 5, 1945, under section 7c of the zoning resolution, of Joseph H. Cornell, applicant, on behalf of Frances Greenrose, owner, to permit in a residence use district, a one-story extension for dining room and kitchen to an existing restaurant in the first story of an existing business and residence building; premises 214 Beach 90th street, east side, 106 ft. north of Rockaway Beach boulevard (Block 574, Lots 1, 2 and 5), Rockaway Beach, Borough of Queens.

50-41-BZ—Application of John C. Wandell, applicant, on behalf of Board of Transportation, City of New York and Salvatore Scala, owners (Salvatore Scala, lessee of Lot 31), reopened April 11, 1944, under sections 7b and 7h of the zoning resolution, to permit partly in a residence use district and partly in a business use district, the parking and storage of more than five motor vehicles; premises 310-320 Smith street and 291-295 President street, northwest corner (Block 435, Lot 36 and part of Lot 31), Borough of Brooklyn.

533-42-BZ—Application of Paul Friedman and Arnold W. Lederer, applicants on behalf of Julia A. Odom and Philip Braver, owners (Philip Braver, lessee of Lot 42), reopened October 31, 1944 re consideration as to extension of time to complete work—expired by limitation—Application, previously granted on condition, under sections 7e and 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles and, also, open display and sale of used cars; premises 2242-2262 Church avenue, south side, 206 ft. 8½ in. west of Bedford avenue (Block 5103, Lots 42, 43 and 45), Borough of Brooklyn.

106-45-BZ—Application, March 5, 1945, under section 21 of the zoning resolution, of James E. Casale, applicant, on behalf of 18 East 71st Corp., owner, to permit in a restricted retail use B area district, the change of occupancy of a residence building to a private hospital, the building occupying more than 65 per cent of the lot area; premises 18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

Appeals from Administrative Decisions.

107-45-A—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

165-45-A—33-67 35th street and east side of 2nd avenue, 1300 ft. 4 in. north of 39th street (2nd floor, West Section A, Building 5); (Block 687, Lot 1), Borough of Brooklyn.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday afternoon, April* 24, 1945 at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

CALENDAR

Appeals from Administrative Decisions.

657-44-A—166 East 73rd street, south side, 130 ft. east of Lexington avenue (3rd floor); (Block 1407, Lot 47), Borough of Manhattan.

647-44-A—23 Park avenue and 101 East 35th street, northeast corner (Block 891, Lot 1), Borough of Manhattan.

HARRIS H. MURDOCK, *Chairman.*

MAY 1, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, May* 1, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

78-45-BZ—Application, February 16, 1945, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of The Greater New York Brewery, owner, to permit partly in a business and partly in an unrestricted use district, the occupancy of an existing building for 100% factory; premises 284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn.

418-44-BZ—Application, July 5, 1944, under section 7c of the zoning resolution, of Bernard Shatkin, applicant, on behalf of Tilyou Realty Corp., owner, to permit partly in an unrestricted use and partly in a business use district, the parking and storage of more than five motor vehicles; premises 221-251 Nagle avenue and 501-539 Academy street, southeast corner (Block 2216, Lots 1, 7, 11, 15 and 42), Borough of Manhattan.

HARRIS H. MURDOCK, *Chairman.*

MAY 8, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, May* 8, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matter:

Zoning Application.

661-44-BZ—Application, November 22, 1944, under section 21 of the zoning resolution, of Max Horn, applicant, on behalf of Kaymos Realty Corporation, owner, to permit in an F area district, the erection of an apartment house covering a greater area than permitted in an F area district; premises 147 Beach 117th street, west side, 440 ft. south of Rockaway Beach boulevard (Block 757, Lots 28, 32 and 34), Rockaway Park, Borough of Queens.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

(Continuation of the minutes of the meeting of March 27, 1945.)

607-40-BZ

APPLICANT—John H. W. Krogmann, for Wells-Smith Corporation, owner (John F. Dubar, lessee).

SUBJECT—Application for consideration—reopening and extension of variance—re Application (decision of the borough superintendent) under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—89-16 to 89-32 Sutphin boulevard, west side, 384.11 ft. north of Jamaica avenue (Block 9676, Lot 13), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Jonathan Greene.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and restored to the calendar and set for hearing on April 24, 1945 at 10 A. M.

THE VOTE TO REOPEN—

Affirmative: Commissioners Savage and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

330-22-BZ

APPLICANT—Allen A. Blaustein, for 1663 East 17th Street Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition under sections 7a and 7c of the zoning resolution, permitting partly in a business and partly in a residence use district, the alteration and conversion of occupancy of a three story, theatre and stores building, to a one story stores building.

PREMISES AFFECTED—1663-1669 East 17th street, east side, 57 ft. 2½ in. south of Kings highway (Block 6780, Lot 55), Borough of Brooklyn.

APPEARANCES—

For Applicant: Allen A. Blaustein and Samuel Freedman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (330-22-BZ)

WHEREAS, this application, permitting partly in a business use district and partly in a residence use district, the erection and maintenance of a building, partly used for business purposes, affecting premises 1665 East 17th street, Borough of Brooklyn, was granted by the Board on May 2, 1922, on certain conditions, resolution amended on June 27, 1922 and April 5, 1938; and

WHEREAS, an application was made, to permit the change of occupancy to stores and motion picture theatre, affecting premises 1663-1669 East 17th street, east side, 57 ft. 2½ in. south of Kings Highway (Block 6780, Lot 55), Borough of Brooklyn, and such application was granted by the Board on January 28, 1941, on certain conditions; and

WHEREAS, the present applicant requested a reopening on a new proposal—to permit the alteration and conversion of occupancy of a three story theatre and stores building to a one story stores building; and

WHEREAS, this application was granted by the Board on March 30, 1943, on certain conditions and the resolution amended and plans approved on April 27, 1943; and

WHEREAS, time to complete the work was extended on March 14, 1944; and

WHEREAS, the Building Department records indicate that an inspection of the premises show that a substantial amount of work has been done under existing permits; and

WHEREAS, the applicant now requests a further extension of time to complete the aforesaid work under the existing permits.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 28, 1941, as amended through March 14, 1944, only so far as it has reference to the completion of the work, so that as amended, this portion of the resolution shall read:

"* * * that in view of the statement by the applicant and the Inspector's report of the Building Department, that a substantial amount of the work has been done, all work shall be completed within one year from the date of this *amended* resolution."

93-37-BZ

APPLICANT—David F. Cohen for Elmore Kelsch, lessee (67 Pike Street Realty Corporation, owner).

SUBJECT—Application for consideration—reopening and extension of variance—re Application (decision of the borough superintendent) under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—261-277 South 5th street, north side, 103 ft. 11 in. east of Havemeyer street and 60 ft. west of Marcy avenue and 266-270 South 4th street (Block 2447, Lots 27 and 35, inclusive and 15 to 17, inclusive), Borough of Brooklyn.

APPEARANCES—

For Applicant: David F. Cohen and Elmore Kelsch.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Commissioners Savage and Deputy Chief Gunn 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION (93-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, the parking and storage of more than five motor vehicles for a term of two years, affecting premises 261-277 South 5th street, north side, 103 ft. 11 in. east of Havemeyer street and 60 ft. west of Marcy avenue and 266-270 South 4th street (Block 2447, Lots 27 to 35, inclusive and 15 to 17, inclusive), Borough of Brooklyn, was granted by the Board on April 29, 1941, on certain conditions; and

WHEREAS, the permit was extended on March 23, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of April 29, 1941, as amended through March 23, 1943, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the premises as indicated on plans marked 'Received March 5, 1941,' as revised to exclude Lots 21, 22 and 41, to be occupied for the parking and storage of more than five motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of April 29, 1941, as *amended* through March 23, 1943, shall be complied with and that a Certificate of Occupancy shall be obtained."

609-37-BZ

APPLICANT—Grand Street Realty Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of variance—re Application (decision of the borough superintendent) under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—91-02 168th street, west side, 150.72 ft. north of Jamaica avenue (Block 867, Lots 83, 85 and 86), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Herman Tille.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Commissioners Savage and Deputy Chief Gunn 3

Negative: 0

Absent: Chairman Murdock 1

THE RESOLUTION (609-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 91-02 168th street, west side, 150.72 ft. north of Jamaica avenue (Block 867, Lots 83, 85 and 86), Jamaica, Borough of Queens, was granted by the Board October 4, 1938, on certain conditions, the resolution amended January 4, 1939, February 15, 1939 and permit extended on March 18, 1941, March 30, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend,* the resolution of October 4, 1938, as amended through March 30, 1943, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the plot to be used for the parking and storage of more than five (5) motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of October 4, 1938, as amended through March 30, 1943, shall be complied with and that a Certificate of Occupancy shall be obtained, after inspection of the premises by the Building Department for compliance with the resolution adopted October 4, 1938 (M2548-41)."

162-40-BZ

APPLICANT—William R. McVay, for Biagio Becce, lessee (Josephine Wild and Robert T. Wild, owners).

SUBJECT—Application for consideration—reopening and restoration to calendar (request to reopen previously dismissed for lack of prosecution) re Application—(decision of the borough superintendent)—extention of permit—previously granted on condition under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—31-06 31st avenue, southeast corner of 31st street (Block 613, Lots 37 and 38), Astoria, Borough of Queens.

APPEARANCES—

For Applicant: William R. McVay and Biagio Becce.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, restored to calendar and permit extended.

MINUTES

THE VOTE TO REOPEN—
Affirmative: Commissioners Savage and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE VOTE TO EXTEND PERMIT—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (162-40-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 31-06 31st avenue, southeast corner of 31st street (Block 613, Lots 37 and 38), Astoria, Borough of Queens, was granted by the Board on February 18, 1941, on certain conditions, resolution amended on May 27, 1941 and on June 17, 1941 and the permit was extended on February 24, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of February 18, 1941, as amended through February 24, 1943, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of February 18, 1941, as amended through February 24, 1943, shall be complied with and that a Certificate of Occupancy shall be obtained (Misc. Applic. 10125-39)."

284-42-BZ

APPLICANT—Lama and Proskauer for North American Oil Corporation, owner (Matt David, lessee).

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition under section 7c of the zoning resolution, permitting in a business use district, for a term of ten (10) years, the erection and maintenance of a garage for more than five motor vehicles, lubritorium, dressing rooms and offices, upon a plot occupied as a gasoline service station with individual garages.

PREMISES AFFECTED—1672-1680 86th street, southeast corner of Bay 14th street (Block 6365, part of Lot 33), Borough of Brooklyn.

APPEARANCES—
For Applicant: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Commissioners Savage and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (284-42-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district for a term of ten years, the erection and maintenance of a garage for more than five motor vehicles, lubritorium, dressing rooms and offices, upon a plot occupied as a gasoline service station with individual garages, affecting premises 1672-1680 86th street, southeast corner of Bay 14th street (Block 6365, part of Lot 33), Borough of Brooklyn, was granted by the Board on April 6, 1943, on certain conditions; and

WHEREAS, on March 28, 1944, time was extended to complete the work and the applicant requested a further extension of time for such purpose.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of April 6, 1943, as amended March 28, 1944, only in so far as it has reference to completion of the work, so that as amended, this portion of the resolution shall read:

"that in view of applicant's statement that all plans have been approved by the Department of Housing and Buildings and permits obtained, all work shall be completed within one (1) year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolution of April 6, 1943, shall be complied with and that a certificate of occupancy shall be obtained."

APPLIANCE FOR APPROVAL

570-43-SA

APPLICANT—Thomas G. Keefer, for Thomas G. Keefer and Ben Striziver, owners (Keefer Products Co., agent).

SUBJECT—Keefer Products Co., Chemical Feeders, approval of.

APPEARANCES—
For Applicant: Benjamin Striziver.

ACTION OF BOARD—Application withdrawn on request of owner.

THE VOTE TO WITHDRAW—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

NOTICE

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

CONTENTS

This issue of the Supplement to the Bulletin contains a complete list of—

Approved Materials, Appliances and Methods of Construction through March 20, 1945.

Note: Under each approval, reference to V —, No. —, P —, means the volume, the number of the Bulletin and the page in which the resolution incorporating description, terms of approval and limitations of use are published.

Caution—Resolution should be consulted in every case for pertinent details.

FOREWORD

For the convenience of the public and the Administrative Departments, the Board is publishing in this Supplemental Bulletin a list of Materials, Appliances, and Methods of Construction that have been approved by the Board since its creation under Chapter 503 of the Laws of 1916, through March 20, 1945 and supersedes the list published in the Supplement dated June 8, 1943. By the terms of that amendment to the Greater New York Charter, the Board was empowered to test materials and the present New York City Charter continues this power under Section 666 Paragraph 1 reading, "The Board shall have power to test and approve materials and appliances to be used pursuant to law." The requirement that all Materials, Appliances and Methods of Construction shall be approved is also provided in Section C26-178.0.b of the Administrative Building Code, effective December 30, 1937. The definition of "approved" is in Section C26-14.0. Section C26-191.0.a provides that "the sole authority to test and approve materials and appliances is vested in the Board."

This list does not include such materials and appliances as may have been approved prior to 1916 by the Board of Standards of the Fire Department or the several Superintendents of the Departments of Buildings even though such approvals were certified by the Corporation Counsel as automatically becoming approvals of the Board. The reason for their non-inclusion is that due to subsequent changes in the law, practically none of the approvals given prior to 1916 have any present application.

Any such materials, appliances or methods of construction, which have been accepted for general use prior to or since 1916 should be submitted to the Board for test and approval under the present requirements of law, so that they may be included in the published list, when next issued. Due to improvements in construction methods and design of materials and appliances as well as amendments to the law, some materials and appliances herein listed may no longer meet the terms of their approval or the present law. In these instances, such materials and appliances should be resubmitted so as to keep the approvals abreast of the latest designs and methods.

It has been the intention of the Board in publishing this list to make it complete, and if any approvals are omitted it has been by inadvertence. At most, this list is merely a synopsis and index. ***Reference in each case should be made to the resolution of approval itself.*** For convenience, the index includes under each item the Calendar Number of the application and the issue of the Bulletin in which the resolution of approval appeared. In such resolutions, the record of tests, the description of the material, appliance or method of construction is set forth as well as the basis of the approval and the extent of the permitted use.

HARRIS H. MURDOCK, *Chairman.*

ACOUSTICAL MATERIAL (See also Fibre Board, Plaster and Gypsum Wallboard)

ARMSTRONG CORK COMPANY.
1367-39-SM V. 27 No. 39 P. 990

Corkoustic—An all cork product. Approved as incombustible material for use as sound and heat insulation. Approved under Section C26-191.0a.

56-42-SM V. 27 No. 44 P. 1095

Armstrong's Cusiontone—Wood chips pulped and formed into a fibrous board—½, ⅝, ⅞ in. thicknesses. Approved as acoustical material—may not be used where combustible materials are prohibited. Approved under Section C26-191.0a.

F. E. BERRY, JR. & CO., INC.
1178-39-SM V. 24 No. 41 P. 1429

Berry-Cel Mineral Acoustical Tile made from powdered limestone talcum and silicate of soda, incombustible. Approved under Sections C26-88.0, C26-178.0b and C26-191.0.

CELOTEX CORPORATION.
257-40-SM V. 25 No. 21 P. 732

Acousteel—perforated and unperforated galvanized steel panels of 24 U. S. gauge—backed with compressed rock wool fibres. Approved under Section C26-178.0b.

258-40-SM V. 25 No. 20 P. 689

Acousti-Celotex—mineral tile of rock wool with a binder of asbestos and starch—incombustible.

Acousti-Celotex—cane tile of bagasse felted together—combustible.

Absorbex type A, C and F—long wood fibres with a binder of high temperature cement—heavier fibres in C and F—incombustible.

Calicel—expanded slag with a mineral binding agent—incombustible.

Calistone—expanded slag with Portland cement as a binder—incombustible.

Muffletone—an expanded mineral product made of gypsum—incombustible. Approved under Section C26-178.0b.

INDUSTRIALS INCORPORATED.
269-41-SM V. 26 No. 26 P. 955

Softone Acoustical Tile or Atoz Insulation—Composed of Magnesium Oxide, Magnesium Chloride combined with animal glue and quartz particles—ferrous oxide and air bubbles added. Approved as incombustible under sec. C26-88.0 and as acoustical and insulation material under Sections C26-178.0b and C26-191.0.

JOHNS-MANVILLE SALES CORP.
1221-40-SM V. 26 No. 12 P. 449

J-M Aircoustic Sheets—J-M Duct Lining—inorganic material with a binder ½ in. and 1½ in. thicknesses—incombustible. Approved under Sections C26-88.0 and C26-178.0b.

82-41-SM V. 26 No. 9 P. 353

J-M Permacoustic—made of clay and Rock Wool—may be used cemented or suspended.

J-M Sonacoustic—Compressed water-proofed rock wool fibres in perforated metal pans—suspended.

J-M Spongecoustic—made of asbestos fibre, Portland cement and finely ground sponge—cemented.

J-M Transite Acoustical Units—perforated Transit plus 1 in. rock wool block plus asbestos paper—nailed.

Above materials approved as incombustible—under Section C26-88.0 (1.80).

J-M Fibrecoustic—made of combustible pure wood fibres felted into a porous board.

All materials approved under Section C26-178.0b.

33-44-SM V. 29 No. 5 P. 83

Johns-Manville Fibretex and Johns-Manville Fibretone—composed of pine fibres with fibre board and cut in 12″ x 12″ squares. Fibretex is slotted while Fibretone is perforated. Approved under C26-178.0b, C27-191.0a, in class 1 and 2 construction and Rules of the Board, when installed in accordance with C26-667.0, par. 3 and 8 and C26-632.0g. Note installation precautions.

KEASBEY AND MATTISON COMPANY
32-41-SM V. 28 No. 4 P. 83

Sprayed "Limpet" Asbestos (Acoustical Treatment). Approved as an acoustical and thermal material. Approved under Section C26-191.0a.

DAVID E. KENNEDY, INCORPORATED.
293-40-SM V. 25 No. 26 P. 945

Koustex—manufactured of wood fibre water-proofed by a magnesium binder supplemented with magnesium salts—incombustible. Approved under Section C-26-88.0 and C26-178.0b.

295-41-SM V. 27 No. 42 P. 1055

Kencoustic—Manufactured of ground cork held together by its natural gum. Approved as an acoustical material—may not be used where combustible materials are prohibited. Approved under Section C26-191.0a.

538-44-SM V. 29 No. 46 P. 980

Acoustifibre—wood fibres felted into a porous fibre board—perforated or slotted—⅝ in. thickness in sizes from 12 in. by 12 in. to 12 in. by 24 in.—Approved under C26-667.0, par. 3 and 8 and C26-632.0g and the rules of the Board, for use with Class 1 and 2 construction.

Refer to the resolution for details of approval and limitations of use.

NATIONAL GYPSUM CO.

985-40-SM V. 25 No. 44 P. 1474
corrected in V. 25 No. 50 P. 1667

Acoustex—pure wood fibres with a binder of magnesium oxysulphate.

Travacoustic—pure white gypsum with induced multiple air cells—density 24 pounds p.c.f.

Acoustimetal—perforated and unperforated 26 U. S. Gauge Terre plate panels with upturned edges—backed with compressed rock wool fibre pads.

Above approved as incombustible under Section C26-88.0 (1.80).

Econocoustic (Fibre Acoustical Tile)—pure wood fibres felted into a porous board.

All materials approved under Section C26-178.0b.

OWENS-CORNING FIBREGLAS CORPORATION

620-40-SM V. 27 No. 30 P. 884

"Fibreglas" Thermal and Sound Insulation. Approved under Sections C26-178.0b and C26-191.0a. (See Resolution of Approval).

U. S. GYPSUM COMPANY.

1144-40-SM V. 26 No. 45 P. 1491

Acoustone—made from mineral wool fibres and a binder.
V. 29 No. 42 P. 886

Auditone—wood fibres. Approved under C26-178.0b and C26-191.0a and under the Insulating Fibre Board Rules when meeting requirements of C26-667.0, par. 3 and 8 and C26-632.0g.

Perfatone—terne plate pans holding pads of compressed rock wool fibres.

Perforated Asbestos Board Units—perforated asbestos boards backed by rock wool pads.
Approved as incombustible and acoustical under Sections C26-88.0 and C26-178.0b.

Quietone—combustible pure wood fibres, felted together. Approved under Section C26-178.0b and under the Insulating Fibre Board Rules.

WESTERN SILICAIR PRODUCTS, INC.

877-40-SM V. 25 No. 50 P. 1665

Silicair Acoustical Tile Units—diatomaceous earth with a binder of cementitious adhesive material—incombustible. Approved under Sections C26-88.0 and C26-178.0b.

ADHESIVES

PETER COOPER CORP.

369-41-SM V. 28 No. 19 P. 400

Peter Cooper Standard No. 1 Extra Special Hide Glue and Peter Cooper Standard 1⅜ Hide Glue (Animal). Animal glue used to secure wood, which comprises building fixtures. Approved under Section C26-191.0.

MINNESOTA MINING & MANUFACTURING CO.

800-40-SM V. 26 No. 30 P. 1141

EC-269 3-M Acoustical Cement—a resin type adhesive containing inorganic filler, resin plasticizer and a volatile solvent. Approved under Section C26-178.0b.

TEMPLAR OIL PRODUCTS CO.

1151-40-SM V. 26 No. 8 P. 321

Acousti-Gum Adhesive—coal tar and natural naval store resin with asbestine filler mixed with a solvent consisting of petroleum naphtha and a plasticizing oil. Approved under Section C26-178.0b.

AIR CONDITIONING EQUIPMENT

(Refrigerating)

CARRIER CORPORATION.

200-39-SA V. 24 No. 18 P. 662

Carrier Self-Contained Air Conditioning Units, Model 50L, Types 50G, 50H and 50M. Approved.

New Models Added. Models 41B, 41Q, 51B1, 51B2, 51C2, 51D2. Self contained Air Conditioning Units. Approved.

183-41-SA V. 27 No. 21 P. 589

Carrier Humidifier, Type 49D2—for humidifying indoor air. Approved under Section C26-178.0b.

661-39-SA V. 25 No. 31 P. 1132

Carrier Industrial Humidifier, Type 29R. Industrial Humidifying in ducts. Approved under Section C26-191.0.

834-39-SA V. 25 No. 31 P. 1133

Carrier Room Air Conditioner (Weather Master-Unit), Types 48F, 36E, 36F, 36G, 36H, 39D, 39J, 39Q, 39R, 39G, 43Q and 43T. For cooling, heating, humidifying and circulation of air. Approved under Section C26-191.0.

835-39-SA V. 26 No. 12 P. 447

Carrier Home Weathermaker, Model 59H. A suspended humidifying, heating and cooling unit for residences. Approved under Sections C26-1312.0, C19-96.0, C19-97.0 and C19-98.0.

RESEARCH PRODUCTS CORP.

341-44-SM V. 29 No. 46 P. 979

Research Air Filter, Series No. 230, Dry Type. Approved under C26-178.0b for installation in Air Conditioning, Warm Air Heating, Air Cooling and Ventilation Systems.

ANTI-SIPHON DEVICES

(See also Plumbing Fixtures)

AMERICAN RADIATOR AND STANDARD SANITARY CORPORATION.

208-39-SA V. 24 No. 31 P. 1201

Standard Sanitary Tank Vacuum Breaker (anti-vacuum ballcock). Approved under Section C26-1277.0.

1036-41-SM V. 27 No. 12 P. 305

American Radiator and Standard Sanitary Corporation, HF12302 or F-575 Vitreous China Flushing Rim Dental Lavatory with Integral Vacuum Breaker. Approved under Sec. C26-1277.0.h.

798-41-SM V. 27 No. 9 P. 227

American Radiator and Standard Sanitary Corp. HK15755 Vacuum Breaker. Approved under Sec. C26-1277.0.h.

AMERICAN STERILIZER COMPANY

439-41-SM V. 26 No. 28 P. 1039

Aeroflush Bedpan Washer—equipped with vacuum breaker. Approved under Sec. C26-1277.0.h.

892-42-SA V. 28 No. 10 P. 210

American Precision Water Sterilizer—Equipped with vacuum breaker. Approved under Sec. C26-1277.0.h.

BEATON-CALDWELL MANUFACTURING COMPANY.

370-39-SA V. 24 No. 22 P. 823

Caldwell Syphon Breaker and Agitator, No. 115 (for use with submerged inlets). Approved under Section C26-1277.0.

165-39-SA V. 24 No. 21 P. 769

Caldwell Syphon Breaker, No. 125 (for flush valves). Approved under Section C26-1277.0.

Refer to the resolution for details of approval and limitations of use.

BRIDGEPORT BRASS COMPANY
611-40-SM V. 25 No. 28 P. 1029
V. 26 No. 42 P. 1402

Bridgeport Brass Company Vacuum Breaker (for flushometer units). Approved under Section C26-1277.0.

B-T COMPANY (The)
156-44-SM V. 29 No. 16 P. 316

Ormax Vacuum Breaker, Types 1 and 2. Approved under Section C26-1277.0, and Rules Relative to Submerged Inlets of the Board of Standards and Appeals.

MODESTO CALLEJO.
270-38-SA V. 23 No. 29 P. 941

Bidoro Vacuum Breaker, Type D (for flushometers or other submerged inlets). Approved under Section C26-1277.0.

COLDWATER BRASS COMPANY.
439-39-SA V. 24 No. 22 P. 824

Anti-Back-Syphonage Ballcock, C.B.C. No. 136. Approved under Section C26-1277.0.

COYNE & DELANY CO.
908-40-SM V. 26 No. 1 P. 21
V. 27 No. 8 P. 194

Coyne & Delany Vacuum Breaker, No. 50 (for flushometer valves). Approved under Section C26-1277.0.
116-40-SM V. 25 No. 24 P. 857

Coyne & Delany Vacuum Breaker, No. 95 (for flushometer valves). Approved.
379-39-SA V. 24 No. 22 P. 824

Delany Vacuum Breaker, DV No. 90, (for flush valves). Approved under Section C26-1277.0.
842-38-SA V. 23 No. 51 P. 1625

Delany Vacuum Breaker, DV No. 88 (for flush valves). Approved under Section C26-1277.0.

CRANE COMPANY.
174-38-SA V. 23 No. 29 P. 940

Novac Flush Valve-Vacuum Breaker. Approved under Section C26-1277.0.
750-38-SA V. 24 No. 5 P. 168

Crane C-7830 Vacuum Breakers for Supply Fixtures. Approved under Section C26-1277.0.
345-38-SA V. 23 No. 29 P. 942

Crane Company Vigilant Vacuum Breaker (for flushometer valves). Approved under Section C26-1277.0.

A. F. CURTIN VALVE CO.
94-41-SM V. 26 No. 23 P. 840

Curtin Rotary Ballcock. Approved under Section C26-1277.0.

THE DIERKER COMPANY.
1059-41-SM V. 27 No. 19 P. 539

Vacuum Breaker Unit. Approved when used with Dierker Therapeutic apparatus, under Sec. C26-1277.0.h.

HEDGES & BROTHER.
186-39-SA V. 24 No. 14 P. 510

Hedges & Brother Pilot Vacuum Breaker. Approved under Section C26-1277.0.

THE HOSPITAL SUPPLY CO.
860-42-SA V. 28 No. 19 P. 401

Climax Water Sterilizer. Hospital type water sterilizer with vacuum breaker and connected directly to house water supply. Approved under Rule 5, of the Board's Rules, Relative to Submerged Inlets and Protective Methods to Prevent Contamination of Water Supply.

IMPERIAL BRASS MFG. CO.
1439-39-SM V. 25 No. 28 P. 1025

Imperial Vacuum Breaker, Model M-1139. Approved under Section C26-1277.0.
351-38-SA V. 23 No. 50 P. 1582

Watrous Flush Valve and Vacuum Breaker, Models Imperial, Majestic and Jewel. Approved under Section C26-1277.0.

INDIANA BRASS CO.
837-40-SM V. 25 No. 49 P. 1637

Indiana Brass Company Anti-Syphon Float Valve, No. 88. Approved under Section C26-1277.0.
2-43-SM V. 28 No. 5 P. 108

Indiana Brass Anti-Siphon Float Valve, No. 89. Approved for use under Sec. C26-1277.0,h.

KOHLER COMPANY.
492-39-SM V. 24 No. 31 P. 1208

Kohler K-9251 Float Valve and Vacuum Breaker. Approved under Section C26-1277.0.

BERNARD MARSAK.
685-39-SM V. 24 No. 27 P. 1029

Beal Vacuum Breaker for Flush Valve Equipped Fixtures. Approved under Section C26-1277.0.

MACDONALD HARDWARE MFG. CO.
1539-39-SM V. 25 No. 50 P. 1665

Kramer Vacuum Breaker. Approved under Section C26-1277.0.

MULTIPLEX MANUFACTURING COMPANY.
883-41-SM V. 27 No. 7 P. 166

Crispin Air & Vacuum Valves. Approved under Sec. C26-1277.0.h.

MURRAY AND SORENSON, INC.
494-39-SM V. 24 No. 29 P. 1106

Murray and Sorenson, Inc. Vacuum Breaker Types 1 and 2. Approved.

NORMAN BOOSEY MANUFACTURING COMPANY.
888-41-SM V. 26 No. 52 P. 1732

Boosey No. 2010 Vacuum Breaker. Approved in sizes ¾" to 4" under Sec. C26-1277.0,h.

NORTHERN INDIANA BRASS CO.
416-39-SA V. 24 No. 24 P. 913

Nibco Ace Type Back-Siphon Ballcock. Approved under Section C26-1277.0.
V. 25 No. 28 P. 1029

Nibco King Anti-Siphon Ballcock, No. 09A. Approved as above.

Refer to the resolution for details of approval and limitations of use.

PELTON AND CRANE COMPANY.
1105-39-SM V. 26 No. 3 P. 99

Pelton and Crane Company Vacuum Breaker. Approved under Section C26-1277.0.
139-42-SM V. 27 No. 19 P. 540

Vacuum Breaker Unit used with Pelton Surgical Cuspidor. Approved under Sec. C26-1277.0,h.

PENBERTHY INJECTOR COMPANY.
1200-38-SA V. 24 No. 11 P. 400

Penberthy Vacuum Breaker. Approved under Section C26-1277.0.

RITTER DENTAL MFG. COMPANY.
190-40-SM V. 25 No. 15 P. 529

Ritter Model C Dental Cuspidor. Approved under Section C26-1277.0.

SCOVILL MANUFACTURING COMPANY.
515-39-SM V. 24 No. 27 P. 1029

Scovill Vacuum Breaker Ballcock, No. 18. Approved under Section C26-1277.0.
942-38-SA V. 24 No. 7 P. 242

Scovill M.V.B. No. 21 and No. 22 Ballcocks. Approved under Section C26-1277.0.
283-40-SM V. 25 No. 21 P. 733

Scovil Vacuum Breaker Ballcock, No. 24-VB. Approved under Section C26-1277.0.
109-39-SA V. 24 No. 11 P. 401

Scovill "S" Vacuum Breaker Ballcocks. Approved under Section C26-1277.0.

SLOAN VALVE COMPANY.
167-38-SA V. 23 No. 29 P. 940

Sloan Vacuum Breaker Model V-60-A. Approved under Section C26-1277.0.
1224-39-SM V. 24 No. 46 P. 1655

Sloan V-100-A Vacuum Breaker. Approved under Section C26-1277.0.
V. 25 No. 49 P. 1635

Sloan V-100-A Vacuum Breaker—improved model. Approved under Section C26-1277.0.
139-40-SM V. 25 No. 25 P. 905

Sloan V-100-B Vacuum Breaker. Approved under Section C26-1277.0.
57-41-SM V. 26 No. 24 P. 879

Sloan "Lo-Flo" Flush Valve Water Closet Combination. Approved under Section C26-1277.0c.
548-44-SM V. 30 No. 3 P. 46

Sloan V-200 ⅜" and ½" IPS Vacuum Breaker. Approved under C26-1277-0,h.

SPEAKMAN COMPANY.
563-41-SM V. 26 No. 44 P. 1465

Speakman Company I. P. S. Back Syphon Preventor, sizes ½ in., ¾ in., and 1 in. Approved under the provisions of Section C26-1277.0h.

VAC-O-VENT COMPANY.
477-39-SM V. 24 No. 24 P. 914

Vac-O-Vent for Plumbing Fixtures, Model B. Approved under Section C26-1277.0.

WATTS REGULATOR COMPANY.
346-39-SA V. 24 No. 21 P. 771
V. 24 No. 46 P. 1651

Watts Vacuum Breaker, No. 88. Approved under Section C26-1277.0.

WEBER DENTAL MFG. COMPANY.
413-40-SM V. 25 No. 28 P. 1028

Weber Vacuum Breaker for Dental Cuspidors. Approved under Section C26-1277.0.
413-40-SM V. 26 No. 30 P. 1140

Weber Vacuum Breaker for Dental Cuspidors—improved model. Approved.

S. S. WHITE DENTAL MFG. CO.
1354-39-SA V. 25 No. 9 P. 308

S. S. White Master Dental Unit. Approved under Section C26-1277.0h (14.8.2.8) as an anti-siphon device.
366-40-SM V. 25 No. 21 P. 733

S. S. White Non-Siphoning Cuspidor No. 7. Approved under Section C26-1277.0.

ANTI-SIPHON VALVES—OIL BURNER

222-33-SA V. 19 No. 1 P. 12
Dowie Combination Anti-Siphon Valve.

313-34-SA V. 19 No. 49 P. 1050
General Electric Oil Screen Valve, Model CR 7860-E1A (Anti-Syphon Type).

182-34-SA V. 19 No. 29 P. 697
Genuine Detroit Anti-Syphon Valve, Model CRC-100, Types V and S.

213-34-SA V. 19 No. 38 P. 809
Grant Syphon Breaker.

192-34-SA V. 19 No. 30 P. 728
Preferred Type "B" Anti-Siphon Valve.

ANTI-SLIP MATERIAL

SAFE TREAD COMPANY, INC.
1500-39-SM V. 25 No. 2 P. 50

Safe-Tread Anti-Slip Material—made of cast metals with corundum abrasive particles in the wearing surface. Approved under Sections C26-292.0gl and C26-527.0.

SAFE-T-METAL COMPANY.
863-40-SM V. 26 No. 2 P. 60

Safe-T-Metal Co. Abrasive—surfaced metal castings—grey iron, bronze or aluminum alloy castings containing abrasive grains in the wearing surface. Approved under Sections C26-292.0gl and C26-527.0.

AREA WALLS (METAL)

ST. PAUL CORRIGATING COMPANY.
376-41-SM V. 27 No. 43 P. 1076

Lux-Right Metal Areawalls, for basement under wells—14 and 16 gauge sheet steel, galvanized. Approved for use in one and two-family residence structures.

ASH AND CIGARETTE RECEPTACLE

WM. F. CONRAN. 1148-40-SM V. 26 No. 4 P. 156
Narnoc Metal Ash and Cigarette Receptacle—made of metal with a sliding top section which, when dropped, cuts off the supply of oxygen to the bottom section in which is set a removable cup. Approved for use under the provisions of Section C19-165.1b.

Refer to the resolution for details of approval and limitations of use.

BEVERAGE DISPENSERS

(Refrigerated)

AUTOMATIC CANTEEN COMPANY OF AMERICA.
392-42-SA V. 28 No. 15 P. 303

"Selective Drink" Canteen (Carbonated Beverage Dispenser)—Electrically operated, coin type, refrigerated beverage dispenser. Approved under Section C19-96.

AUTOMATIC COLEDRINX COMPANY.
856-41-SA V. 27 No. 18 P. 516

Coledrinx Automatic Carbonated Beverage Dispenser. Approved.

BALLY MANUFACTURING COMPANY.
329-41-SA V. 26 No. 44 P. 1464

Bally Beverage Vender—
Bally Automatic Beverage Vender—
approved.

BEVERAGE DISPENSERS, INC.
346-41-SA V. 26 No. 30 P. 1135

Thirst Quencher—an automatic carbonated beverage dispenser. Approved under Section C19-96F.

FRIGIDRINK CORPORATION.
614-41-SA V. 26 No. 30 P. 1137

Frigidrink Beverage Dispensing Machine—a compression type refrigerating system using Freon (F12), a carbonating system and a water system. Approved under Section C19-96.0F.

MILLS NOVELTY COMPANY.
555-42-SA V.27 No. 49 P. 216

Mills Coin Controlled Bottle Vendor, Models 45, 47, 47A, 47B, 47N, 66, 96, 98 and 98A—Automatic Beverage dispensing machines. Approved.

SPACARB, INCORPORATED.
313-41-SA V. 26 No. 28 P. 1034
V. 28 No. 29 P. 631

Spacarb Automatic Carbonated Beverage Dispenser—a small Frigidaire containing Freon 12 cooling a bath of water. Approved for use under Section C19-96F.

Additional Models
UACGP-42, UACGP-42T, UACGP-42W, UACGP-42SD and UACGP-42TSD.

VEND-O-MATIC COMPANY.
1091-41-SA V. 27 No. 7 P. 162

Vendrink Beverage Dispensing Machine. Approved for use under Section C19-96F.

BOLTS, NUTS AND RIVETS

AUTOMATIC NUT CO.
188-38-SM V. 23 No. 18 P. 572

Anco Structural Rib Bolts and Anco Lock Nuts—bolt made of carbon manganese steel, nut of hot rolled, open hearth steel with a locking pin. Approved for use under Sections C26-521.0 and C26-368.06, 4a and 5a.
659-40-SM V. 25 No. 47 P. 1569
V. 26 No. 8 P. 320

Anco Lock Nut. Approved for use with all classes of machined and turned bolts under Section C26-521.0.

DARDELET THREADLOCK CORP.
871-38-SM V. 23 No. 52 P. 1658

Dardelet Self-Locking "Rivet-Bolt"—bolt made of carbon manganese steel, nut of cold rolled bar stock, both with self-locking seven threads. Approved for use under Section C26-521.0.

RICHMOND SCREW ANCHOR CO., INC.
452-44-SM V. 29 No. 42 P. 887

Richmond Screw Anchor and Bolt. Approved for use in concrete walls and floors under Section C26-191.0a.

CARBIDE LIGHTS

LINDE AIR PRODUCTS COMPANY.
269-40-SM V. 25 No. 14 P. 497

Carbic Flood Lights, Types C F L 2 and C F L 3—operates on the water recession principle and consists of three main parts, water tank, cake holder and gas bell. Approved.

NATIONAL CARBIDE CORPORATION.
250-40-SM V. 25 No. 18 P. 625

National Carbide V-G Light—consists of a calcium carbide hopper, a water compartment and a pipe leading from the gas chamber to a burner where the acetylene gas is burned. Approved.
250-40-SM V. 27 No. 30 P. 883

National Carbide Floodlight, Models NC-100 and NC-200, Handy Light Model NC-199 and Police Emergency Model NC-299. Approved under Sec. C19-92.0.

CARBON DIOXIDE CONVERTER

CARBONIC GAS EQUIPMENT CO.
241-35-SA V. 20 No. 46 P. 1098

Dry Ice Converter. Approved.

TAYLOR ENGINEERING COMPANY.
1060-38-SA V. 25 No. 8 P. 281

Taylor's C O^2 150 pound Converter. Approved for use under the rules of Carbon Dioxide Liquefiers.

CEILING SYSTEMS

S. H. POMEROY COMPANY, INC.
424-42-SM V. 27 No. 31 P. 903

"Jackson System" (fastening for acoustical and insulating materials for walls and ceilings). Approved under Sections C26-178.0b and C26-191.0.

CAULKING, COMPOUND

L. SONNEBORN SONS, INC.
715-41-SM V. 28 No. 14 P. 283

Stormtight Caulking Compound. Caulking Compound, wood and metal frames, glazing, painting and sealing, when applied by gun, knife or cartridge form. Approved under Section C26-191.0.

CEMENTS

Masonry Cements

CENTURY CEMENT MFG. CO., INC.
849-38-SM V. 24 No. 31 P. 1204

Century Masonry Cement. Approved under Section C26-312.0, C2, for use under Sec. C26-314.0.

Refer to the resolution for details of approval and limitations of use.

COPLAY CEMENT MFG. CO., INC.
433-38-SM V. 23 No. 28 P. 903
V. 24 No. 10 P. 360
V. 26 No. 47 P. 1559

Saylor's Velvet Mortar Cement. Approved under Sec. C26-312.0, C2 for use under Sec. C26-314.0.

GLENS FALLS PORTLAND CEMENT CO.
489-40-SM V. 25 No. 46 P. 1538

Iron Clad Brick Cement. Approved as a masonry cement under Section C26-312.0c2, and for use in other mortars under Section C26-314.0.

GREEN BAG CEMENT COMPANY OF WEST VIRGINIA. 79-40-SM V. 27 No. 28 P. 770

Green Bag Non Staining Waterproofed Masonry Cement. Approved as a cement of another type under Section C26-312.0,C,2 and for use in other mortars under Section C26-314.0.

HY-TEST CEMENT CO.
578-38-SM V. 23 No. 30 P. 1003
V. 26 No. 14 P. 1377
V. 26 No. 47 P. 1559

Hy-Test Cement—a masonry mortar. Approved under Section C-26-312.0,C2 for use under Sec. C26-314.0.

LEHIGH PORTLAND CEMENT CO.
432-38-SM V. 23 No. 30 P. 999
V. 24 No. 49 P. 1766
V. 26 No. 47 P. 1558

Lehigh Mortar Cement. Approved as a masonry mortar under Section C26-312.0C2 for use under Section C26-314.0.

LOUISVILLE CEMENT CO.
1176-38-SM V. 24 No. 14 P. 513
V. 26 No. 9 P. 355
V. 26 No. 47 P. 1560

Brixment (Masonry Cement). Approved under Sec. C26-312.0,C2 for use under Sec. C26-314.0.
4-39-SM V. 24 No. 22 P. 828

Stonemason's Brixment. Approved as a cement lime mortar for use in painting and setting of natural stonemasonry only under Section C26-360.0.

MEDUSA PORTLAND CEMENT CO.
988-39-SM V. 25 No. 6 P. 197
V. 26 No. 47 P. 1561

Medusa Stonset Cement—Medusa Brickset Cement. Approved under Section C26-312.0,C2 for use under Sec. C26-314.0.

NORTH AMERICAN CEMENT CO.
124-38-SM V. 25 No. 7 P. 246

Blue Bond Mortar Cement. Approved under Section C26-312.0,c,2 for use under Sec. C26-314.0.

SOUTHERN CEMENT COMPANY.
311-39-SM V. 24 No. 26 P. 991

Magnolia Stainless Cement. Approved under Section C26-314.0 when mixed with lime as a masonry mortar and limited to the setting, parging, pointing and the backing up of ashlar stonework.

Other Cements

ATLAS LUMNITE CEMENT COMPANY.
1132-38-SM V. 26 No. 50 P. 1656

Atlas Lumnite Cement. Approved as an "other cement" under Sections C26-312.0,C,2. Approved for use in refractory concretes.

Portland Cements

ALLENTOWN PORTLAND CEMENT CO.
986-39-SM V. 25 No. 3 P. 79

Allentown Light Portland Cement—Allentown Dark Portland Cement. Approved under Section C26-312.0,C.

ALPHA PORTLAND CEMENT.
496-39-SM V. 24 No. 31 P. 1208

Alpha Portland Cement (Martins Creek Mill and Cementon, N. Y., Mill). Approved under Section C-26-312.0,C1.

COPLAY CEMENT MFG. CO. INC.
433-38-SM V. 23 No. 28 P. 903
V. 24 No. 10 P. 360

Saylors Portland Cement. Approved under Section C26-312.0,C1.

EDISON CEMENT CORPORATION.
860-39-SM V. 24 No. 48 P. 1726

Edison Portland Cement. Approved under Section C26-312.0,C.
861-39-SM V. 25 No. 51 P. 1691

Edison Portland Plus Cement. Approved under Section C26-312.0,C.
863-39-SM V. 24 No. 48 P. 1765

Edison Dark Portland Cement. Approved under Section C26-312.0,C.

GIANT PORTLAND CEMENT CO.
802-39-SM V. 24 No. 40 P. 1406

Giant Portland Cement. Approved under Section C26-312.0,C.

GLENS FALLS PORTLAND CEMENT CO.
774-39-SM V. 24 No. 31 P. 1218

Iron Clad Portland Cement—Dark Iron Clad Portland Cement. Approved under Section C26-312.0,C1.

HERCULES PORTLAND CEMENT CO.
937-39-SM V. 25 No. 20 P. 687

Hercules Dark Portland Cement—Hercules Gray Portland Cement—Hercules Moderate Heat of Hardening Portland Cement—may also be marketed under the name "Vulcanite." Approved under Section C26-312.0,C.

KEYSTONE PORTLAND CEMENT CO., INC.
113-39-SM V. 24 No. 31 P. 1206

Keystone Portland Cement. Approved under Section C26-312.0,C1.

LAWRENCE PORTLAND CEMENT CO.
719-39-SM V. 24 No. 42 P. 1498

Dragon Portland Cement. Approved under Section C26-312.0,C1.

Refer to the resolution for details of approval and limitations of use.

LEHIGH PORTLAND CEMENT CO.
795-38-SM V. 23 No. 51 P. 1626
V. 23 No. 52 P. 1661

Lehigh Portland Cement. Approved under Section C26-312.0,C1.

LONE STAR CEMENT CO.
347-39-SM V. 24 No. 29 P. 1104

Lone Star Portland Cement. Approved under Section C26-312.0,C1.

MEDUSA PORTLAND CEMENT CO.
940-39-SM V. 24 No. 41 P. 1427

Medusa White Portland Cement; Medusa White Waterproofed Portland Cement; Medusa Gray Portland Cement; Medusa Gray Waterproofed Portland Cement. Approved under Section C26-312.0,C1.

NATIONAL—PORTLAND CEMENT CO.
667-40-SM V. 25 No. 31 P. 1159

Pioneer Light Portland Cement; Pioneer Dark Portland Cement. Approved under Section C26-312.0,C1.

NAZARETH CEMENT CO.
695-39-SM V. 24 No. 31 P. 1216

Nazareth Portland Cement. Approved under Section C26-312.0,C1. 695-39-SM V. 27 No. 31 P. 879

Nazareth Dark Portland Cement. Approved under Sec. C26-312.0,C,1.

NORTH AMERICAN CEMENT CORP.
124-38-SM V. 23 No. 28 P. 908

North American Portland Cement. Approved under Section C26-312.0,C1.
1190-39-SM V. 25 No. 28 P. 1023

North American Dark Portland Cement. Approved under Section C26-312.0,C1.

PENNSYLVANIA-DIXIE CEMENT CORPORATION.
1324-39-SM V. 25 No. 31 P. 1148

Portland Point Mill; Penn-Dixie Regular Portland Cement; Penn-Dixie Dark Portland Cement. Approved Under Section C26-312.0,C1.
676-39-SM V. 24 No. 31 P. 1214

Penn-Dixie Portland Cement (Bath Mill); Penn-Dixie Portland Cement (Nazareth Mill). Approved under Section C26-312.0,C1.
677-39-SM V. 25 No. 31 P. 1147
(Nazareth Mill) V. 29 No. 8 P. 143

Penn-Dixie Dark Portland Cement (Bath Mill). Approved under Section C26-312.0,C1.

UNIVERSAL ATLAS CEMENT CO.
1020-38-SM V. 24 No. 6 P. 210

Hudson Atlas Portland Cement; Northampton Atlas Portland Cement; Atlas White Portland Cement; Atlas Waterproofed White Portland Cement. Approved under Section C26-312.0,C1.
V. 29 No. 11 P. 201

Atlas Portland Cement and Atlas High Early Portland Cement as manufactured at the New Northampton Mill and Atlas Duraplastic Air Entraining Portland Cement as manufactured at the old Northampton Mill. Approved under Section C26-312.0C1.

WHITEHALL CEMENT MANUFACTURING COMPANY. 1503-39-SM V. 25 No. 6 P. 200

Whitehall Dark Portland Cement. Approved under Section C26-312.0,C1. 1504-39-SM V. 25 No. 6 P. 201

Whitehall Portland Cement (Regular). Approved under Section C26-312.0,C1.

High Early Portland Cements

COPLAY CEMENT MANUFACTURING COMPANY.
63-39-SM V. 24 No. 10 P. 367

Saylor's Hyper Portland Cement (a high early strength Portland Cement). Approved under Section C26-312.0,C.

EDISON CEMENT CO.
862-39-SM V. 24 No. 48 P. 1727

Edison High Early Portland Cement. Approved under Section C26-312.0,C1.

GLENS FALLS PORTLAND CEMENT CO.
774-39-SM V. 24 No. 31 P. 1218

Velo High Early Strength Portland Cement. Approved under Section C26-312.0,C1.

KEYSTONE PORTLAND CEMENT CO. INC.
113-39-SM V. 24 No. 31 P. 1206

Velroca High Early Strength Portland Cement. Approved under Section C26-312.0,C1.

LAWRENCE PORTLAND CEMENT CO. INC.
849-39-SM V. 24 No. 42 P. 1498

Dragon Superior High Early Portland Cement—known also as Vulcanite All-Purpose Cement. Approved under Section C26-312.0,C1.

LEHIGH PORTLAND CEMENT CO.
795-38-SM V. 23 No. 51 P. 1626
V. 23 No. 52 P. 1661

Lehigh Early Strength Portland Cement. Approved under Section C26-312.0,C1.

LONE STAR CEMENT CO.
347-39-SM V. 24 No. 29 P. 1104

Incor High Early Strength Portland Cement. Approved under Section C26-312.0,C1.

NAZARETH CEMENT CO.
695-39-SM V. 24 No. 31 P. 1216

Nazco High Early Strength Portland Cement. Approved under Section C26-312.0,C1.

NORTH AMERICAN CEMENT CO.
546-38-SM V. 23 No. 30 P. 1002

Blue Streak High Early Portland Cement. Approved under Section C26-312.0,C1.

PENNSYLVANIA-DIXIE CEMENT CORP.
678-39-SM V. 24 No. 31 P. 1214

Penn Dixie Quality High Early Portland Cement. Approved under Section C26-312.0,C1.

Refer to the resolution for details of approval and limitations of use.

UNIVERSAL ATLAS CEMENT CO.
1176-39-SM V. 25 No. 6 P. 198

Atlas High Early Portland Cement. Approved under Section C26-312.0,C1.

WHITEHALL CEMENT MFG. CO.
1505-39-SM V. 25 No. 6 P. 202

Whitehall High Early Portland Cement. Approved under Section C26-312.0,C1.

Foreign Portland Cement

M. L. KHAU
431-38-SM V. 23 No. 29 P. 943
735-38-SM V. 23 No. 40 P. 1213
649-39-SM V. 24 No. 24 P. 917
1030-39-SM V. 24 No. 38 P. 1336

Seven Castles Brand Portland Cement.
Temple Brand Portland Cement.
Approval of specific shipments from Yugoslavia under Section C26-312.0,C1.

CHECK VALVES—PUMP, FIRE AND DOMESTIC

WILLIAM GAUGE COMPANY.
1-34-SA V. 19 No. 27 P. 1611

Hager Silent Check Valve. Approved.

CINDERS

COLONIAL SAND AND STONE COMPANY.
671-40-SM V. 26 No. 18 P. 654

Colonial Sand and Stone Company Crushed Bituminous Cinders. Approved for permissive use as an aggregate in concrete, subject to limitations contained in the resolution.

CLAY PRODUCTS

INSULATED INTERLOCKING BRICK AND TILE CORP. 989-38-SM V. 23 No. 52 P. 1659

Munlock Interlocking Brick—a hollow clay product designed with interlocking ridge and lateral voids. Approved for use in non-load bearing walls and partitions.

NATIONAL FIREPROOFING CORP.
196-40-SM V. 25 No. 31 P. 1152

Natco Structural Hollow Clay Partition Tile—2″ to 12″—in non-load bearing partitions.
Furring tile—1½″ and 2″.
Vertical Cell Backing Tile—for exterior load bearing wall construction. Approved under Section C26-308.0,b (7.1.1.3). 198-39-SM V. 24 No. 12 P. 404

Natco Vertical Cell Backing Tile (for exterior wall construction—made from surface clay). Approved under Section C26-308.0.

NEW JERSEY HOLLOW TILE CORP.
263-39-SM V. 24 No. 12 P. 434

Nu-Raritile (vertical two cell backing tile)—made of surface clay. For exterior load bearing wall construction. Approved under Section C26-308.0.
379-38-SM V. 23 No. 23 P. 736

Kwicklay Backer Block (Hollow Tile)—manufactured from surface clay burned at 2100°F. Approved for use as back-up tile under Section C26-308.0.

JOSEPH ROSE. 1187-38-SM V. 24 No. 7 P. 245

Rose Self Furring Unit (tile for furring)—an extruded clay tile laid in exterior masonry walls with 2″ of the width of the perforated tile projecting inwardly towards the interior of the building. Approved under Sections C26-308.0a, C26-535.0b, C26-685.0.

F. L. SMIDTH & CO.
110-39-SM V. 24 No. 31 P. 1205

Moler Insulating Brick, Partition Blocks, Floor Blocks, Slabs—made from diatomic earth with an added mixture of plastic clay. Approval of a specific shipment from Denmark under Section C26-309.0.

UNITED BRICK WORKS COMPANY.
620-38-SM V. 23 No. 42 P. 1295

Belgian Brick (common clay). Approval of a specific lot of 5,000—shipped on S. S. Westernland. Approved under Section C26-307.0.

COLUMNS (ADJUSTABLE)

ADJUSTA-POST COMPANY.
250-42-SM V. 27 No. 28 P. 773

Adjusta-Post (jack column) an adjustable post for permanently shoving up floors in buildings. Approved for use in Class 4 construction.

COLUMNS, LALLY TYPE

ATLAS COLUMN COMPANY.
421-39-SM V. 24 No. 27 P. 1028

Atlas column (Concrete filled) approved for maximum loads of 12,000 pounds—max. length 7 ft. 11 in.—approved under Sec. C26-191.0.

CONTRACTORS PRODUCTS COMPANY.
264-40-SM V. 25 No. 25 P. 906

Standard Concrete Filled Steel Column—max. length 15 ft.—approved under Sec. C26-191.0.

CONVISER AND COMPANY.
203-40-SM V. 25 No. 31 P. 1153

Conviser and Company Steel Shell Concrete Filled Columns—max. length, 9 ft.,—approved under Sec. C26-191.0. 25-42-SM V. 27 No. 15 P. 415

Conviser Concrete Filled Steel Columns, Heavy Weight—O.D.—4″ (max. length 13′ 3″), 4½″ (15′); 5½″ (16′ 1½″). Approved.

CONCRETE, ADMIXTURES

CHEMICAL MARKETING COMPANY.
712-40-SM V.25 No. 52 P. 1735

Tricasal Normal—an admixture to concrete and cement mortars. Approved under Section C26-178.0b, for permissive use.

MASTER BUILDERS COMPANY.
1274-39-SM V. 28 No. 24 P. 315

Embeco (Metallic Powder)—an admixture for concrete. Approved under Sec. C26-191.0.
1275-39-SM V. 25 No. 52 P. 1733

Pozzolith—hardener and water-proofer for concrete flooring—a ferric alumino silicate and a cement plasticing agent. Approved under Section C26-178.0b.

Refer to the resolution for details of approval and limitations of use.

SIKA CHEMICAL CORPORATION.
824-39-SM V. 26 No. 18 P. 645

Plastiment—an admixture in concrete. Approved under Sections C26-178.0b and C26-191.0.

TOCH BROTHERS INCORPORATED.
156-39-SM V. 24 No. 15 P. 552

Toch Brothers "R.I.W." Toxement Integral Waterproofing Compound. Approved for use with cement mortar, stucco and concrete.

CONCRETE AGGREGATES

NEW YORK TRAP ROCK CORPORATION.
486-42-SM V. 27 No. 30 P. 888

Clinton Paint Dolomite Crushed Stone. Approved for use as concrete aggregate.
448-42-SM V. 27 No. 52 P. 1285

Verplanck Limestone. Approved for use under the pertinent provisions of the Administrative Building Code.
489-42-SM V. 27 No. 48 P. 1194

Tomkins Cove Crushed Limestone. Approved for use as fine and coarse aggregate in concrete.
487-42-SM V.27 No. 50 P. 1239

Haverstraw Trap Rock as produced by the New York Trap Rock Corporation. Approved for use as coarse and fine aggregates in concrete.

CONCRETE BUILDING UNITS

H. W. BELL COMPANY.
89-40-SM V. 27 No. 16 P. 441

Bell Concrete Building Units (Hollow and Solid Cinder Concrete). Load bearing and non-load bearing. Approved for use under Sections C26-305.0 and C26-309.0.

CONCRETE UNITS INCORPORATED.
1345-39-SM V. 26 No. 18 P. 648

Cinder Concrete Masonry Units—8" x 2" x 18" Solid Cinder Concrete Fireproofing Unit. Approved under Section C26-309.0d.
8" x 3" x 24", 8" x 4" x 24", 8" x 6" x 24" Hollow Cinder Concrete Partition Units. Approved under Section C26-309.0 a and d.
8" x 6" x 18", 8" x 8" x 18", 8" x 12" x 16" Hollow Cinder Concrete Load-bearing Units. Approved under Section C26-309.0a.
8" x 6" x 18", 8" x 8" x 18", 8" x 12" x 16" Solid Cinder Concrete Load-bearing units. Approved under Section C26-309.0b.
8" x 6" x 18", 8" x 8" x 18" Cinder Concrete Hollow Header Backer Units. Approved under Section C26-309.0a. 1346-39-SM V. 26 No. 18 P. 651

Sand and gravel Concrete Masonry Units—8" x 6" x 18". 8" x 8" x 18", 12" x 8" x 16" Hollow Concrete Load-bearing Units. Approved under Section C26-309.0a.
8" x 6" x 18", 8" x 8" x 18" Solid Concrete Load-bearing Units. Approved under Section C26-309.0b.

DE YORGI BROS. INC.
333-39-SM V. 27 No. 30 P. 824

DeYorgi Bros. Concrete Blocks Hollow and Solid Load Bearing Concrete Masonry Units. Approved under Rules of the Board.

FOREST HILLS CONCRETE BLOCK COMPANY, INC. 10-40-SM V. 27 No. 39 P. 990

Concrete and Cinder Blocks—Load bearing and Non-load bearing, hollow and solid. Approved.

F. H. HEDINGER. 138-38-SM V. 23 No. 18 P. 572

Multi-Vent Hollow Building Block in Concrete—1 part cement, 3 parts sand, 1 part grit, 4 gallons of water per bag of cement. Approved for use in bearing walls.

HUDSON CONCRETE BLOCK CO. INC.
777-39-SM V. 24 No. 52 P. 1851

Hollow Cinder Concrete Block—8" x 8" x 16" in non-load bearing partitions. Approved under Section C26-309.0.

CHARLES S. LUISI. 292-39-SM V. 24 No. 22 P. 829
L.A. Cement Blocks 8" x 8" x 16" Hollow Block.
V. 24 No. 38 P. 1334
8" x 8" x 16" Solid Block.
8" x 12" x 16" Solid Foundation Block. Approved under Section C26-309.0.

PETER MARTINEN. 1376-39-SM V. 25 No. 6 P. 199

Martinen Concrete Blocks.
8" x 8" x 16" Solid Load Bearing.
8" x 12" x 16" Solid Load Bearing.
8" x 8" x 16" Hollow Load Bearing—40% voids.
8" x 12" x 16" Hollow Load Bearing—33% voids.
Mix—6 cu. ft. sand, 1 bag Portland, 5 gallons of water. Approved under Section C26-309.0.

PERFORIT PAVING BLOCK CORPORATION.
1161-38-SM V. 24 No. 13 P. 474

Perforit Concrete Building Brick—made of Portland Cement, sand, graded bluestone and limestone screenings. Approved under Section C26-309.0b.
Perforit Concrete Paving Brick—sizes 3¾ x 7¾ x 2½ in. and 8 x 8 x ¾ in. Approved.

PICONE BROTHERS.
1268-39-SM V. 29 No. 3 P. 34

Picone Brothers Concrete and Cinder Block. Concrete and Cinder, Hollow and Solid, Load-bearing and Non-load bearing Concrete Masonry Units. Approved under C26-309.0 and Rules of the Board.

REPUBLIC FIREPROOFING CO.
189-44-SM V. 29 No. 28 P. 605

Republic Fireproofing Co. Hollow Wall Slagblok Concrete Units (as manufactured at Bound Brook, N. J. plant). Approved for use in load-bearing and non-load-bearing masonry, under C26-309.0 and the rules of the Board.

CONCRETE CONTROL METHODS

SCIENTIFIC CONCRETE SERVICE CORPORATION.
874-41-SA V. 27 No. 4 P. 83

$(SC)^2$, Method of Precision Control in Concrete Manufacture. Approved under Sec. C26-499.0,d.

CONCRETE CURING METHODS

THE JOHNSON MARCH CORPORATION.
969-38-SM V. 24 No. 20 P. 743

Curcrete (Concrete Curing Method). Approved as an acceptable method of curing concrete under Section C26-502.0,c. V. 24 No. 18 P. 664
970-38-SM V. 24 No. 22 P. 837 Corr.

Refer to the resolution for details of approval and limitations of use.

Hunt Process (for curing concrete). Approved as an acceptable method of curing concrete under Section C26-502.0,c. 880-38-SM V. 23 No. 46 P. 1431

Ritecure (impervious membrane curing compound for concrete). Approved as an acceptable method of curing concrete under Section C26-502.0,c.

CONCRETE REINFORCEMENT

PITTSBURGH STEEL CO.
616-44-SM V. 30 No. 4 P. 62

Pittsburgh Welded Wire Reinforcement. Approved for use as a concrete reinforcing material under requirements of C26-318.0 and C26-319.0; as a metal reinforcement in concrete under C26-366.0; as a shrinkage and temperature reinforcement under C26-478.0 and as a reinforcing mesh under C26-620.0b.

CONSTRUCTION METHODS

(See also Floor and Roof Construction)

ATLAS SUPPLY COMPANY.
1134-40-SM V.26 No. 14 P. 507

"Nailock" Steel Channels and "Screwlock" Backing (Suspended Ceiling System)—cold rolled channels into which ¼ in. rods are welded with welds 5½ in. o.c. to which channels the backing is attached by nails forced around the rods; the backing consists of two sheets of gypsum board with a No. 14 black wire cloth between. Approved under Sections C26-178.0,b and C26-461.0.

DRILLED-IN CAISSON CORPORATION.
94-39-SM V. 28 No. 1 P. 6

Drilled-In Caisson—A method of construction. The extension of a superstructure to bed rock through the underlying soil and into a socket drilled in the bedrock by means of a drilled pipe caisson with or without steel core. Approved.

NATIONAL ACOUSTICS, INCORPORATED.
851-40-SM V. 25 No. 46 P. 1540

Simplex Ceilings—a system of suspended ceilings for use with Acoustimetal—galvanized iron strap hangers suspend supporting "Snap Bar" runners from the ceiling. Approved under Sections C26-191.0 and C26-178.0,b.

NATIONAL GYPSUM COMPANY.
49-40-SM V. 25 No. 47 P. 1568

Gold Bond Floating Wall (Nail System)—attachment consisting of a double layer of small mesh expanded metal lath flanged over a double piece of cardboard, with the head of a lathing nail being secured between the metal lath and the cardboard layers. Approved under Section C26-191.0 and for use in a one hour fire resistive partition under Section C26-636.0,C.

W. I. LUCIUS. 46-41-SM V. 20 No. 10 P. 382

Simplex Spline Frame (Suspended ceiling system)—preformed angles of 24 U. S. Gauge galvanized steel—used to support acoustical materials. Approved under Section C26-178.0,b.

SIMPLON PRODUCTS CORPORATION.
12-40-SM V. 26 No. 29 P. 1077

Simp-L-On and Modified Simp-L-On (adjustable Metal wall Covering)—made of a galvanized metal shield built into the brickwork of a wall with an adjustable bracket. Approved for use under Section C26-460.0.

CONTAINERS (SAFETY FOR GASOLINE AND BENZINE)

MILLER PEERLESS MFG. CO.
516-38-SA V. 24 No. 19 P. 694

Peerless Safety Can for gasoline—sizes 1, 2, 3 and 5 gallons—approved.

ALFRED DUNHILL OF LONDON, INCORPORATED.
202-41-SM V. 26 No. 27 P. 992

Dunhill's Benzique Lighter Fluid Tubules—made of gelatin, each tubule holding 4 c.c. of lighterfluid. Approved under provisions of Sec. C19-59.0,c.

DOORS

A. B. C. KALAMEIN DOOR COMPANY.
503-40-SM V. 25 No. 40 P. 1347

A. B. C. One and One-half Hour Kalamein Door—stiles and rails 24 U. S. gauge metal on exposed and 26 U. S. gauge on unexposed side with wood core. The panel, ⅜ in. thick asbestos millboard between two sheets of 24 U. S. gauge metal, extends into 30 U. S. gauge channels inserted in groove side of the stiles. Opening 3′ x 6′ 10″. Frame 16 U. S. gauge. Approved under Sections C26-661.0, C26-662.0 and under the Multiple Dwelling Law.

ACME KALAMEIN DOOR & SASH COMPANY, INC. 854-39-SM V. 25 No. 2 P. 45

Acme Kalamein Door—1½ hour fire door; stiles and rails of 24 gauge metal with solid white pine core; panel ⅜ in. thick millboard asbestos glued between 2 sheets 24 gauge metal. For openings 3 ft. by 6 ft. 9 in. Frame 16 gauge steel. Approved under Sections C26-610.0, C26-661.0, C26-662.0, and under the Multiple Dwelling Law, Art. 1, Sec. 4, subd. 10.

AETNA STEEL PRODUCTS CORPORATION.
339-40-SM V. 26 No. 19 P. 699

Aetna Three Hour Hollow Steel Fire Door—semi-flush, stiles and rails 18 U. S. gauge steel, flush side 18 U. S. gauge steel, panel side 20 U. S. gauge steel, reinforcing channels of 14 U. S. gauge steel, insulation one sheet ⅜ in. asbestos and four ⅛ in. asbestos shims to build out to flush side of the door; size 3 ft. by 7 ft. 1¼ in. thick. Frame 14 U. S. gauge. Approved under Sections C26-610.0, C26-660.0, C26-661.0, C26-662.0, and under the Multiple Dwelling Law.

Modified flush type door and panel type also approved.
83-41-SM V. 26 No. 22 P. 817

Aetna Hollow Steel One Hour Fire Door—stiles and rails of 18 U. S. gauge steel with cellular asbestos insulation; panel of 20 U. S. gauge steel with ⅜ in. millboard asbestos insulation. Opening 3 ft. by 7 ft.; steel buck of 16 U. S. gauge metal. Approved under Section C26-662.0 and under the Multiple Dwelling Law.

ART METAL CONSTRUCTION COMPANY
197-40-SM V. 26 No. 52 P. 1726

Art Metal ¾, 1, 1½ and 3 hour Hollow Metal Fire Doors panel type and semi-flush type. Approved for above fire resistive ratings—opening for par. 5 ft. 8 in. wide by 7 ft. high.

ATLANTIC METAL PRODUCTS, INC.
1319-39-SM V. 24 No. 50 P. 1790

Atlantic Hollow Metal Fire Door—flush type—3 hour fire door—stiles 18 U. S. gauge with interlocking chan-

Refer to the resolution for details of approval and limitations of use.

nel of 20 U. S. gauge—flush panel of 18 U. S. gauge steel with 18 U. S. gauge reinforcing channels; cellular asbestos insulation 1⅝ in. thick—opening 3 ft. 4 in. by 7 ft. Frame combination buck and trim of 16 U. S. gauge steel. Approved for use under Sections C26-660.0, C26-661.0, C26-662.0, C26-665.0 and under the Multiple Dwelling Law. 304-39-SM V. 24 No. 15 P. 553

Atlantic Hollow Metal Fire Door—1½ hour fire resistive rating—stiles and rails of 18 U. S. gauge steel with interlocking channel of 20 U. S. gauge steel—16 U. S. gauge reinforcing channels at top and bottom, panel of two sheets of 20 U. S. gauge metal with ⅜ in. asbestos millboard insulation, stile and rail insulation of cellular asbestos 1⅝ in. thick. Frame 16 U. S. gauge steel—for openings 3 ft. by 7 ft. Approved under Section C26-661.0. 192-41-SM V. 26 No. 23 P. 833

Atlantic Three Hour Fire Door—semi-flush type—stiles and rails of 18 U. S. gauge steel, interlocking channels 20 U. S. gauge steel, reinforcing channels 16 U. S. gauge. flush side of panel 18 U. S. gauge steel, panel side 20 U. S. gauge steel, insulation ⅜ in. asbestos millboard. Opening 3 ft. by 7 ft. Frame of 16 U. S. Steel. Approved under Section C26-610.0, C26-660.0, C26-661.0, C26-662.0, and under the Multiple Dwelling Law. 583-44-SM V. 30 No. 6 P. 109

Atlantic One and One-Half Hour-Hollow Metal Door, No. 11 Flush Type and No. 12 Panel Type.

No. 11 Flush Type—stiles, 18 USG steel, 1 piece 4½" by 1¾" reinforced with 20 USG steel channels, spot welded every 8 in. Hollow spaces filled with laminated cellular asbestos, 1⅝ in. top and bottom reinforced with 16 USG steel channel, spot-welded every 4 in.—joints between panel and stiles electric welded and filled 10 in. on center, 2 in. long.

No. 12 Panel Type—stiles—one piece 18 USG steel, 1¾" by 4½", reinforced by 20 USG steel channel, insulated with laminated cellular asbestos block. Top and intermediate rails 18 USG steel reinforced by two 20 gauge channels.

Approved under C26-661.0 for use in fire partitions of 1½ hr. fire-resistive rating, C26-662.0 for ¾ hr. rating, C26-663.0 for protection of openings in interior shafts, requiring fire-resistive rating of 1½ hr. and C26-610.0 for use of panel or flush type doors in single or in pairs with astragal and for the increase in permissible sizes and Art. 1, sec. 4, Item 10 of the Multiple Dwelling Law for fireproof partitions with fire-resistive rating of 1 hr. 584-44-SM V. 30 No. 7 P. 135

Atlantic Three Hour Hollow Metal Door, No. 9, Flush Type and No. 10, Panel Type.

No. 9 Flush Type—stiles—18 USG steel, 1 piece, reinforced with 20 USG steel channels, spot welded every 8 in.—panels, 16 gauge, reinforced with "Z" bar clip stiffeners, spaced 7 in. on centers. Hollow spaces filled with laminated cellular asbestos 1⅝". Top and bottom reinforced with 16 USG steel channels, spot-welded every 4 in. Joints electric-welded 10 in. centers, 2 in. long and filled. Lock stiles for 3 and 2 point locks only, insulated with 1/16 in. sheet asbestos and lined with 30 gauge galvanized iron.

No. 10 Panel Type—stiles—18 USG steel, 1¾" by 5¾", reinforced wtih 20 gauge channel—insulation cellular asbestos laminated sheets. Top rail similar to stiles. Intermediate and bottom rails—2 pieces 18 USG steel, reinforced by 2-20 gauge channels. 18 gauge stiffener channel in center. Bottom channel 16 gauge spot-welded every 4 in. Molding—20 USG steel reinforced with 20 USG steel channel, fastened to stiles and rails, welded every 8 in.

Approved under C26-661.0 for use in fire partitions of 1½ hr. fire-resistive rating; C26-662.0 for ¾ hr. fire-resistive rating; under C-26-663.0 for protection of openings in interior shafts requiring fire-resistive rating of 1½ hr. and C26-610.0 for use of panel or flush type in single or in pairs with astragal and for the increase in permissible sizes and under Art. 1, sec. 4, Item 10 Multiple Dwelling Law when used in fireproof partitions with a fire-resistive rating of 1 hr.

CITY STEEL DOOR COMPANY (new owner)
CITY FIREPROOF DOOR COMPANY, INC.
274-40-SM V. 25 No. 17 P. 594
V. 29 No. 22 P. 454

City 3 Hour Hollow Metal Door—18 U. S. gauge steel sheet forming one face and two edges; 18 U. S. gauge stiles and rails and panels—two faces separated by ⅜ in. asbestos millboard, 1/32 in. air space and ⅛ in. asbestos millboard for an over-all panel thickness of ⅝ in. panel moulding of 20 U. S. gauge steel—frames of 14 U. S. gauge steel for 3 hour rating, 16 U. S. gauge for 1 and 1½ hour ratings, size 3 ft. by 6 ft. 10⅛ in. Approved under Sections C26-660.0, C26-661.0, C26-662.0 and under the Multiple Dwelling Law.

CORNELL IRON WORKS, INCORPORATED.
1428-39-SM V. 25 No. 40 P. 1336

Cornell Rolling Steel Door, Llenroc Type—door may not be used in required means of egress—curtain of 20 U. S. gauge steel interlocking slats with steel wall guides—limit stops—counterbalance mechanism—shaft, helical springs and brackets, etc. Hood 22 U. S. gauge galvanized sheet steel; operating mechanism, two handles secured to bottom bar—self-closing by means of fusible link. Opening 9′ x 10′. Approved under Section C26-660.0.

DAHLSTROM METALLIC DOOR COMPANY.
98-40-SM V. 25 No. 27 P. 985
V. 26 No. 6 P. 258

Dahlstrom Three Hour Hollow Metal Fire Door—rails, stiles and panels of 18 U. S. gauge steel, insulated with asbestos millboard shimmed away from unexposed side—rails and stiles reinforced with channels and Z bars. Opening 3′4″ x 7′. Frame of 16 U. S. gauge metal. Approved under Sections C26-660.0, C26-661.0, C26-662.0 and under the Multiple Dwelling Law.

ELLISON BRONZE CO. INC.
172-44-SM V. 29 No. 20 P. 398

Ellison Balanced Door Assemblies. Approved for use as an opening assembly under Sec. C26-191—where a fire-resistive rating is not required for use under the requirements of C26-283.0 through 286.0 and C26-1446.0. In other than Class 1 and 2 construction, wood may be substituted for the doors only, but not for the operating mechanism or hardware.

WILLIAM E. GAMBRILL AND COMPANY.
1309-39-SM V. 25 No. 51 P. 1695

Gambrill Counterbalanced B-Parting Fire Door—for openings in vertical shafts—1½ hour fire resistive rating—two equal sized metal clad panels of 24 U. S. gauge over two ply T. & G. wood 25/32 in. thick each—for openings up to 10 ft. by 8 ft. Approved under Sections C26-610.0 and C26-663.0.

GENERAL FIREPROOF DOOR COMPANY.
344-41-SM V. 26 No. 23 P. 836

General 1½ Hour Kalamein Door—stiles and rails 1¾ in. thick—lumber covered with 14 U. S. gauge steel plate; interlocking channel of 20 U. S. gauge steel, panel insulated with ⅜ in. asbestos millboard and formed of 2 sheets of 24 U. S. gauge cold-rolled patent levelled steel—opening 3 ft. by 6 ft. 10 3/16 in. Frame of 16 U. S. gauge steel. Tentatively approved under Sections C26-610.0, C26-661.0, C26-662.0 and under the Multiple Dwelling Law.

General 1½ Hour Hollow Metal Door—stiles and rails of 18 U. S. gauge steel with ¼ in. cellular asbestos insulation, interlocking channel of 20 U. S. gauge steel—other details as above.

Refer to the resolution for details of approval and limitations of use.

HARDWOOD PRODUCTS CORP.
997-40-SM V. 25 No. 52 P. 1736

Kim-Wood Fire (Proof) Door—¾ hour rating—constructed of fireproofed wood except for face veneers—flush type—7 ft. by 3 ft. by 1¾ in. thick—hung in a pressed steel combination buck and frame. Approved for use under Section C26-662.0.

HUB DOR METAL PRODUCTS CORP.
317-44-SM V. 29 No. 43 P. 922

Hub-Dor One and One-Half Hour Kalamein Door—stiles and rails 1¾ in. thick and panel approx. 7/16 in. Core, stiles and rails of white pine and covered with 24 gauge metal, a 20 gauge metal molding was provided at edge of panel. Approved under C26-661.0(10.8.2) as a protective opening in fireproof partitions and C26-662.0 (10.8.3) and for use under the Multiple Dwelling Law, which provides for one hour ratings in fireproof partitions.

JAMESTOWN METAL CORPORATION.
964-40-SM V. 25 No. 45 P. 1507

Jamestown Three Hour Hollow Metal Fire Door—stiles and rails of 18 U. S. gauge steel, rails reinforced with closure channels of 14 U. S. gauge steel with an additional transverse bracing channel of 20 U. S. gauge—panels of 18 U. S. gauge steel—for less than three hour rating 20 U. S. gauge permitted—insulated with 4 sheets 3/32 in. asbestos shimmed out with asbestos stripping to 13/16 in. thickness—insulation of stiles and rails—mineral wool of 6 pounds p.c.f. density—frames of 14 U. S. gauge steel—opening 3 ft. 6 in. by 7 ft.—semi-flush and flush types. V. 26 No. 11 P. 414

Panel type of above door. Above approved under Sections C26-610.0, C26-660.0, C26-661.0, C26-662.0 and under the Multiple Dwelling Law.

JOHN W. KIESLING AND SON, INC.
1380-39-SM V. 29 No. 1 P. 19

Kiesling Hinged Door—¾ hour fire resistive rating—sheet metal over asbestos millboard insulation—for openings up to 50 in. by 35½ in.

Kiesling Bi-Parting Counterbalance Door—¾ hour fire resistive rate—sheet metal panels with asbestos millboard insulation—for openings up to 50 in. by 51 in. Approved under Section C26-663.0 subject to the limitation of Section C26-610.0e.

KINNEAR MFG. CO., INC.
792-38-SM V. 23 No. 52 P. 1657

Kinnear Steel Rolling Door, Akbar Type—3 hour fire door (not to be used in required means of egress)—spring counterbalanced curtain of 20 U. S. gauge steel, interlocking type slats—for openings 9 ft. wide by 10 ft. high. Approved under Sections C26-610.0 and C26-660.0.

LA PORTE CORPORATION (formerly Metal Door and Trim Co.) 846-40-SM V. 26 No. 11 P. 414
V. 29 No. 23 P. 475

Metal Door and Trim Company One and One-Half Hour Hollow Metal Fire Door, Panel Type—stiles of 18 U. S. gauge hollow insulated steel members, panel moulding of 20 U. S. gauge steel, panel of two sheets of 20 U. S. gauge steel separated by asbestos insulation, rails of 18 U. S. gauge steel, rails and stiles insulated with solid asbestos, frame of 14 U. S. gauge steel, size of door 7 ft. 3 in. by 3 ft. 6 in. Approved under Sections C26-661.0 and C26-662.0 and Art. 1, Sec. 4, subd. 10 of the Multiple Dwelling Law.

McKEE DOOR COMPANY.
735-41-SM V. 26 No. 52 P. 1730

McKee Overdoors for garages, service stations, factories, warehouses, etc. Models T, DT, HT, DHT, and UT. Approved.

METAL DOOR CREDIT ASSOCIATION.
830-39-SM V. 26 No. 4 P. 151
V. 26 No. 30 P. 1152
V. 26 No. 39 P. 1334
V. 28 No. 45 P. 947
V. 29 No. 6 P. 97
V. 29 No. 20 P. 397
V. 29 No. 23 P. 475

N. Y. K-A Fire Door—one hour rating—stiles and rails 1¾ in. thick white pine cores covered with 24 U. S. gauge steel; panel of ⅜ in. thick asbestos millboard covered both sides with 24 U. S. gauge steel—frame of 16 U. S. gauge combination steel buck and trim—size 3 ft. by 6 ft. 10 in.

N. Y. K-B Fire Door—one hour rating—stiles and rails of 24 U. S. gauge hollow steel construction, with wood core—panel of ⅜ in. asbestos millboard covered both sides with 24 U. S. gauge steel—hollow steel moulding of 20 U. S. gauge with asbestos strip insulation ¾ in. wide by ¾ in. thick; frame of 16 U. S. gauge combination buck and trim—size 3 ft. by 6 ft. 10 in. Approved under Sections C26-662.0, C26-663.0a, and under Art. 1, Sec. 4, subd. 10 of Multiple Dwelling Law.

The list of manufacturers is given below. They are divided into two groups, each making a specific type of door as follows:

N. Y. Kalamein—Type "A" Shops

A.B.C. Kalamein Door Co., 1435 Boone Avenue, Bronx, N. Y.
Hub Door Metal Products, 461 E. 147th Street, Bronx, N. Y.
Pioneer Fireproof Door Co., 807 Zerega Avenue, Bronx, N. Y.
Supreme Kalamein Door Co., 721 E. 133rd Street, Bronx, N. Y.
Ace Metal Door Corp., 226 E. 144th Street, Bronx, N. Y.
Grand Kalamein Sash and Door Co., 340 Stanton Street, N. Y. City.
Lion Fireproof Door and Sash Co., 167 Chrystie Street, N. Y. City.
International Fireproof Door Co., 157 Walworth Avenue, Brooklyn, N. Y.
National Kalamein Co., 418 Johnson Avenue, Brooklyn, N. Y.
Reliable Fireproof Door & Sash Co., 112 Dobbins Street, Brooklyn, N. Y.
Universal Bronze & Steel Door Co., 222-6 Siegel Street, Brooklyn, N. Y.
Firedoor Manufacturing Corp., 204 E. 27th Street, N. Y. City.
Greenpoint Metal Covered Door Co., 133 Green Street, Brooklyn, N. Y.
Long Island Kalamein Door Co., 120-10 15th Avenue, College Point, N. Y.

N. Y. Kalamein—Type "B" Shops

General Fireproof Door Corp., 900 Whittier Street, Bronx, N. Y.
World Steel Products Corp., 448 Tiffany Street, Bronx, N. Y.
Independent Fireproof Door Co., 1706 Atlantic Avenue, Brooklyn, N. Y.
Royal Kalamein Door Co., 161 Jamaica Avenue, Brooklyn, N. Y.
Triangle Steel Products, 246 Russel Street, Brooklyn, N. Y.
Williamsburg Fireproof Products Co., 86 Quay Street, Brooklyn, N. Y.

Temporary approval expired on November 23, 1941.

Refer to the resolution for details of approval and limitations of use.

METAL COVERED DOOR ASSOCIATES.
518-43-SM V. 29 No. 43 P. 919

Metal Covered Door Associates One and One-Half Hour Test Fire Door Assembly—Single, swing type, full panel Kalamein covered door assembly of 1½ hour fire resistive rating, hung on USG No. 16 steel frame. Approved under C26-661.0 and C26-663.0,b,d and Section 4, par. 10 of the Multiple Dwelling Law, and for a rating of ¾ hour under C26-662.0, C26-663.0 and C26-664.0. Manufacturers listed below have agreed to discontinue manufacture of NYKA and NYKB types of Opening Protective Assemblies previously temporarily approved under Cal. No. 830-39-SM, upon approval of this protective assembly. No other companies are included other than those listed herein:

Metal Covered Door Associates, comprising:
National Kalamein Company, Inc., 418 Johnson Avenue, Brooklyn, N. Y.
Greenpoint Metal Covered Door Company, 153 Green Street, Brooklyn, N. Y.
Royal Kalamein Door Company, 161 Jamaica Avenue, Brooklyn, N. Y.
City Steel Door Corporation, 820 Whittier Street, Bronx, N. Y.
Ajax Metal Door Corporation, 226 East 144th Street, Bronx, N. Y.
Independent Fireproof Door Company, Inc., 1706 Atlantic Avenue, Brooklyn, N. Y.
Universal Bronze & Steel Door Company, Inc., 222 Seigel Street, Brooklyn, N. Y.
Pioneer Fireproof Door Corp., 807 Zerega Avenue, Bronx, N. Y.
Supreme Fireproof Door Company, 442 East 166th Street, Bronx, N. Y.
Reliable Fireproof Sash & Door Corp., 650 Sackett Street, Brooklyn, N. Y.
International Fireproof Door Co., Inc., 157 Walworth Street, Brooklyn, N. Y.
Hub Dor Metal Products Corporation, 461 E. 147th Street, New York, N. Y.
Willaimsburg Fireproof Products Corp., 86 Quay Street, Brooklyn, N. Y.
Lion Fireproof Sash & Door Company, Inc., 167 Chrystie Street, New York City.

METAL DOOR AND TRIM COMPANY (now the LA PORTE CORP.) 846-40-SM V. 26 No. 11 P. 414
V. 29 No. 23 P. 475

Metal Door and Trim Company One and One-Half Hour Hollow Metal Fire Door, Panel Type—stiles of 18 U. S. gauge hollow insulated steel members, panel moulding of 20 U. S. gauge steel, panel of two sheets of 20 U. S. gauge steel separated by asbestos insulation, rails of 18 U. S. gauge steel, rails and stiles insulated with cellular and solid asbestos, frame of 14 U. S. gauge steel, size of door 7 ft. 3 in. by 3 ft. 6 in. Approved under Sections C26-661.0, C26-662.0 and under Art. 1, Sec. 4, subd. 10 of Multiple Dwelling Law.

NEW CASTLE PRODUCTS CO.
162-43-SM V. 29 No. 44 P. 934

Modernfold Doors (Partition). Approved for use as a folding partition under Sec. C26-239.0, C26-240.0, C26-241.0, C26-242.0, C26-243.0, C26-244.0 in class 1, 2, 3, 4, 5 and 6 construction and under C26-726.0 and C19-161.0 when fabrics are of approved incombustible materials or flameproofed as required under the Board's rules. The use of these doors may be permitted in Multiple Dwellings in such places where specific fire-resistive rating is not required.

NORTH AMERICAN IRON AND STEEL COMPANY, INC. 982-41-SM V. 27 No. 17 P. 489

Narisco Three Hour Rolling Steel Door—20 U. S. gauge slats, 2⅞ in. wide—opening 9 ft. by 10 ft. Approved for 3 hour rating.

OTIS ELEVATOR COMPANY.
972-40-SM V. 26 No. 14 P. 503

The Otis Bi-Parting Counterbalanced Vertical Sliding Elevator Hoistway Door (Regular and By-Pass Type)—consists of two panels of 14 U. S. gauge steel set in 2 x 2 x 3/16 in. angle iron frames with vertical stiffener bars ⅛ in. by 1¾ in. spaced 20 in. O. C., the guides in which they operate, counterbalancing and locking mechanism and movable lintel for pass type doors; shaft face of lower panel of 18 U. S. gauge backed by 1¾ in. of mineral wool insulation—opening 8 ft. by 10 ft. Approved for use with insulation under Sections C26-663.0,b and C26-610.0,c and without insulation under Section C26-663.0,b.

THE PEELLE COMPANY.
490-40-SM V. 25 No. 41 P. 1367

Peelle Flush Counterbalanced Door—one and one-half hour rating—panels of two-ply cross laminated white pine 25/32 in. thick covered with 26 U. S. gauge galvanized steel, in 2″ x 2″ x ⅛″ angle frames—counterbalancing halves slide vertically in guides built up of angles, connected by chains, rods and pulleys—openings 6′ x 8′. Approved for use under Section C26-663.0.

RICHARDS-WILCOX MANUFACTURING COMPANY. 673-41-SM V. 27 No. 12 P. 305

Richards-Wilcox Fye-R Ward Fire Door and Sliding Fire Door Hardware—Corrugated sheet metal 24 U. S. gauge steel on both sides of 1/16 in. asbestos sheet. Rating—¾ and 1 hour fire resistant.

RICHMOND FIREPROOF DOOR COMPANY.
491-40-SM V. 25 No. 43 P. 1445

Fyrgard B. N.Y.C. ¾ to 1½ Hour Flush Kalamein Door—two ply wood door separated by 1/16 in. thick sheet of asbestos, covered with 24 U. S. gauge galvanized steel—frame of 8 in. steel channels for jambs and head welded together—sill of 8 in. steel channel—opening limited to 3 ft. by 7 ft. Approved under Sections C26-661.0, C26-662.0 and under Multiple Dwelling Law.
492-40-SM V. 25 No. 43 P. 1447
V. 27 No. 6 P. 131
V. 27 No. 52 P. 1286

Fyrgard C. N.Y.C. Three Hour Metal-Clad Three-Ply Door—white pine core, three thicknesses, 25/32 in. each, covered wtih 24 U. S. gauge galvanized steel, same seam reinforcing—opening 10′ x 10′—bar track 3⅛ in. x 3½ in. Approved under Sections C26-660.0, C26-661.0, C26-662.0 and under Art. 1, Sec. 4, subd. 10 of Multiple Dwelling Law.
56-41-SM V. 26 No. 14 P. 514
V. 27 No. 52 P. 1286

Richmond One and One-Half Hour Flush Kalamein Fire Door—two ply wood core with a 1/16 in. asbestos lining on the stop face, covered with 24 U. S. gauge galvanized stretcher leveled steel, hung in a 14 U. S. gauge steel frame—size 3 ft. 8 in. by 7 ft. Approved under Sections C26-661.0, C26-662.0 and under the Multiple Dwelling Law.
324-43-SM V. 28 No. 44 P. 920

Richmond One and One-Half Hour Flush Metal Clad Kalamein Fire Doors (in pairs). One and One-Half Hour rating—frame—Standard Label Type No. 14 U. S. gauge pressed steel. Doors—wood core flush type metal clad, reinforced, mortised drilled and tapped for mortise hardware. Approved under C26-661.0(10.8.2) and C26-662.0(10.8.3), Multiple Dwelling Law.

RODDIS LUMBER & VENEER COMPANY.
527-40-SM V. 26 No. 4 P. 154

Roddiscraft Protext Door—1 hour rating—flush type construction, having a wood core, with edge strips of fire-

---

Refer to the resolution for details of approval and limitations of use.

proofed wood covered on each side with a sheet of woven asbestos cloth and crossbanding and face veneer —hung in a 14 U. S. gauge pressed steel combined buck and frame—size limited to 2′ 8″ x 6′ 8″. Approved under Section C26-662.0 and under Multiple Dwelling Law. 158-41-SM (V. III) V. 27 No. 29 P. 803

Roddis Protext 45 Door—White pine wood core, covered each side 1/16″ thick asbestos cloth glued to core, then 1/20″ veneer of cross banding glued to asbestos cloth—size 2′ 8″ x 6′ 8″. Approved for ¾ hour fire resistive rating.

SECURITY FIRE DOOR COMPANY.
808-41-SM V. 27 No. 12 P. 302

Seco One and One-Half Counterbalanced (Bi-parting) Elevator Door—wood core, asbestos insulation, 24 gauge steel covering for upper half, additional 16 gauge steel covering for shaft side of bottom half. Approved.

ST. LOUIS FIRE DOOR COMPANY.
232-42-SM V. 27 No. 25 P. 696

"Ti-Co-Dor" Metal Clad Counterbalanced Freight Elevator Door—Top panel 24 gauge steel sheet over 2 ply wood core separated by 1/16 in. thick asbestos sheet; lower panel—16 gauge steel sheets over same type core with additional sheet of asbestos between core and steel on unexposed face. Approved—1½ hour fire resistive rating.

SUPERIOR FIREPROOF DOOR AND SASH CO., INC. 420-39-SM V. 24 No. 28 P. 1067

Superior Panel Type Door—3 hour fire door—stiles, rails and panel of 18 U. S. gauge steel—insulation ⅞ in. sheet asbestos—sizes up to 8 ft. by 4 ft.—frame 14 gauge steel.

Superior Flush Type Door—3 hour fire door—made of two 16 U. S. gauge steel sheets, each sheet forming one face and vertical edge; 14 U. S. gauge channel at top and at bottom insulation loose asbestos packed solid—sizes up to 8 ft. by 4 ft.—frame 14 gauge steel. Approved under Sections C26-660.0, C26-661.0, C26-662.0, C26-664.0 and under the Multiple Dwelling Law.
453-41-SM V. 27 No. 17 P. 487

Superior One Hour Kalamein Fire Door—Panels 26 U. S. gauge metal over ⅜″ thick asbestos core, rails and stiles 24 U. S. gauge metal over wood core 1⅝″ thick, 5″ wide. Approved for 1 hr. and ¾ hr. fire resistive ratings.
454-41-SM V. 27 No. 29 P. 800

Superior One Hour Hollow Steel Fire Door—Stiles and rails 18 gauge steel filled with cellular asbestos to 1⅝″ thickness; panels of 18 gauge steel over ⅜″ asbestos board; 14 gauge steel channeling reinforces stiles and rails. Approved for 1 hour fire resistive rating—opening 6′ 8″ by 4′.

SUPERIOR STEEL DOOR AND TRIM CO., INC.
1520-39-SM V. 25 No. 5 P. 155

Connell Three Hour Hollow Metal Fire Door—rails, stiles and panels (two sheets) of 18 U. S. gauge steel—insulation of panel—two sheets ¼″ and ⅛″ asbestos—millboard—insulation of rails and stiles—¼″ asbestos sheet —opening 3′ 2″ x 7′—frame of 16 U. S. gauge steel. Approved under Sections C26-660.0, C26-661.0, C26-662.0 and under the Multiple Dwelling Law.

TRIANGLE STEEL PRODUCTS CORPORATION.
657-40-SM V. 25 No. 31 P. 1156

Triangle Three Hour Hollow Metal Fire Door—rails and stiles 18 U. S. gauge metal, with 16 U. S. gauge closure channels in rails, panel is of two sheets 20 U. S. gauge insulated with two sheets of asbestos ⅜ in. and ⅛ in. thick separated by thin strips of asbestos—rails and stiles insulated with air cell asbestos—opening 3′ x 7′—frame 14 U. S. gauge for three hour rating; 16 U. S. gauge for one and one-half hour rating. Approved under Sections C26-610.0, C26-660.0, C26-661.0, C26-662.0 and under the Multiple Dwelling Law.

W. S. TYLER COMPANY.
707-40-SM V. 25 No. 38 P. 1273

Tyler One and One-Half Hour Hollow Metal Fire Door —flush type made of 2 sheets 18 gauge steel, side edges lapping and top and bottom closed with 14 gauge steel channels insulated with 1⅛ in. mineral wool—opening 2′ 9″ x 7′—frame of 16 gauge steel. Approved under Sections C26-610.0, C26-661.0, C26-662.0, C26-663.0, under the Multiple Dwelling Law and under the Labor Law.

UNITED METAL PRODUCTS DIVISION OF DIEBOLD LOCK AND SAFE COMPANY.
659-39-SM V. 24 No. 31 P. 1212

United Metal Products Division of Diebold Lock and Safe Company One Hour Hollow Metal Door—1 hour fire resistive rating; stiles and rails of 19 U. S. gauge steel, rails reniforced with 18 U. S. gauge channels, panels of two sheets of 24 U. S. gauge steel insulated with ½ in. thick asbestos millboard; rails and stiles insulated with cellular asbestos 1⅝ in. thick. For openings 3 ft. by 7 ft.—Frame of 16 U. S. gauge steel. Approved under Sections C26-610.0, C26-662.0, C26-668.0 and under the Multiple Dwelling Law.
941-39-SM V. 24 No. 31 P. 1220

Diebold Safe and Lock Company Hollow Metal Door—1½ hour fire resistive rating. Stiles and rails of 19 U. S. gauge steel, rails reinforced vertically with 16 U. S. gauge channels, horizontally wtih 18 U. S. gauge channels; panel made of two sheets of 24 U. S. gauge steel insulated with asbestos millboard ½ in. thick; rails and stiles insulated with cellular asbestos 1⅝ in. thick. For openings 3 ft. by 7 ft. Frame of 16 U. S. gauge steel. Approved under Sections C26-610.0, C26-661.0, C26-662.0 and under the Multiple Dwelling Law.

WILLIAMSBURG FIREPROOF PRODUCTS CORPORATION. 1455-39-SM V. 25 No. 2 P. 47

Williamsburg One and One-Half Hour Fire Door—Swinging Kalamein Door—rails and stiles 24 U. S. gauge steel with wood core 1¾″ thick. Panel of asbestos millboard ⅜″ thick, covered both sides with 24 U. S. gauge metal. Opening 6′ 9½″ x 3′. Frame 16 U. S. gauge steel. Approved under Sections C26-610.0, C26-661.0, C26-662.0 and under the Multiple Dwelling Law. 1455-39-SM V. 26 No. 30 P. 1152

Williamsburg One and One-Half Hour Fire Door—1¾ in. flush type door—18 gauge panels (replacing 20 gauge sheets of previously approved panel door) spot welded on 10 in. centers to channels having ¼ in. vent holes, 6 in. o.c.—⅜ in. asbestos millboard insulation. All other details as previously approved.
338-43-SM V. 29 No. 30 P. 670

Williamsburg Three Hour Fire Wall Door, Model "Sentinel" lap hinged type and frame hinged type (single and in pairs), single sliding type door, level and inclined tracks. Metal-covered, three ply wood core—dressed two sides to 25/32″ thickness—imbedded between core and strips with 24 gauge by 2″ galvanized steel with similar pieces of 3″ wide steel imbedded between each wood ply at seam intervals. Metal covering of 24 gauge galvanized sheet steel—opening 9 ft. by 10 ft. Approved under Sec. C26-660.0, C26-661.0 and Sec. C26-662.0 and Article 1, Sec. 4, subdivision 10 of the Multiple Dwelling Law.

Refer to the resolution for details of approval and limitations of use.

J. G. WILSON CORPORATION.
374-39-SM V. 24 No. 52 P. 1848

Wilson Steel Rolling Fire Shutter, Type No. 23. Three hour rating (not to be used in required means of egress). Rolling and sliding in grooves built up of steel plates and angles, manually operated curtain, spring counterbalanced 16 U. S. gauge galvanized steel interlocking slats, automatic self-closing by fusible links. Opening 9′ x 10′. Approved under Sections C26-610.0 and C26-660.0.

DOOR CHECK AND CLOSER

JOHN H. DERBY. 1185-38-SA V. 24 No. 6 P. 209
Derby Heat Actuated Automatic Door Check and Closer. Approved.

DRY CLEANING UNITS

U. S. HOFFMAN MACHINERY CORPORATION.
1047-41-SA V. 27 No. 7 P. 158

Hoffman 104F Safety Dry Cleaning Units. Models A1, A2, B1, B2, M1, M2, M1-U and M2-U. Approved for installation in Class 1, 2 or 3 construction.

DUST EXTRACTOR

GEORGE E. TEASDALE.
175-38-SA V. 23 No. 16 P. 509

Teasdale & Edwards Incinerator Dust Extractor. Approved under Sec. C26-698.0.

ELEVATOR ACCESSORIES

ECONOMY ELEVATOR EQUALIZER COMPANY.
1095-41-SA V. 27 No. 13 P. 338

Economy Elevator Equalizer. Automatic equalizer for elevator hoist cables. Approved under Sec. C26-1091.0,c.

ELEVATOR SUPPLIES COMPANY, INC.
193-42-SA V. 27 No. 42 P. 1055

E. S. Emergency Release Switch. Approved as meeting the requirements of Sec. C26-924.0.

ELEVATOR SAFETY CORPORATION.
121-41-SA V. 27 No. 19 P. 539

Elsco Elevator Roller Guide. Approved for use under Sec. C26-952.0.

LOUIS A. FREEDMAN.
368-43-SA V. 28 No. 52 P. 1124

Grafibre Gib for Elevator Guide-Rail Shoe. Approved under C26-191.0a.

INTERBORO ELEVATOR COMPANY.
811-41-SA V. 27 No. 11 P. 277

Hydromatic Leveling Device. Approved.

ELEVATOR DOOR HANGERS

OTIS ELEVATOR COMPANY.
723-40-SA V. 26 No. 44 P. 1463

Otis Type A and AU Hoistway Door Hangers. Approved for use under the provisions of Article 14.
724-40-SA V. 26 No. 44 P. 1463

Otis Type B Two-Point Suspension Hanger. Approved for use under the provisions of Article 14.

WESTINGHOUSE ELECTRIC ELEVATOR COMPANY. 767-40-SA V. 27 No. 30 P. 836

Westinghouse A-3 and A-3R Elevator Door Hangers.
768-40-SA V. 27 No. 30 P. 837

Westinghouse B-3 and B-3R Elevator Door Hangers.

ELEVATOR DOOR INTERLOCKS

DUMBWAITER SHUR-LOCK CO.
1068-39-SA V. 24 No. 46 P. 1652

Dumbwaiter Shur-Lock. Approved.

ELEVATOR APPLIANCE COMPANY, INC.
53-42-SA V. 27 No. 45 P. 1120

Electro-Mechanical Interlocks. Types CD, CS, DS, and ED. Approved under Article 14 of Administrative Code.

ELEVATOR SUPPLIES COMPANY, INCORPORATED. 191-42-SA V. 27 No. 48 P. 1190

E. S. Type "S" Elevator Inetrlocking Device, Hatchway Unit System. Approved under Article 14 of Administrative Code. 192-42-SA V. 27 No. 48 P. 1192
E. S. Positive Bar Lock (Type B) Elevator Interlocking Device, Hoistway Unit System.

G. A. L. ELECTRO MECHANICAL SERVICE OF NEW YORK CITY.
1050-39-SM V. 24 No. 47 P. 1691

G. A. L. Type "G" Elevator Door and Gate Contact, or switch. Approved under Sections C26-914.0 through C26-920.0, C26-982.0 through C26-985.0 and C26-191.0.
24-41-SA V. 26 No. 6 P. 254

G. A. L. Types "L" and "M" Elevator Door Interlocks for Automatically Controlled Elevators. Approved for use under Sections C26-914.0 through C26-920.0.
134-38-SA V. 23 No. 27 P. 876

G. A. L. Bar Interlock, Types E, K, K1, K2, K3, K4 and K5. Approved for use under Sections C26-903.0, C26-914.0, C26-907.0 and C26-913.0.

KAYLOR COMPANY (THE)
229-44-SA V. 29 No. 22 P. 454

MCK Type B, Regular All Mechanical Interlocks, MCK Type C, All Mechanical Interlocks, MCK Elcon Type All Mechanical Interlocks, MCK Master Switch Type Electro-Mechanical Interlocks and MCK Car Gate Interlocks. Approved under C26-1179.0 and C26-191.0.

JOHN W. KIESLING AND SON, INC.
1235-40-SA V. 26 No. 6 P. 251

Kiesling Door Contact and Lock, Type KMA (Interlock). Approved for use under the requirements of Sections C26-907.0 through C26-920.0 and C26-928.0.

OTIS ELEVATOR COMPANY
714-40-SA V. 26 No. 43 P. 1430

Otis Type 4B Door Closer and Interlock.
718-40-SA V. 26 No. 43 P. 1431

Otis Type N-2 Interlock.
719-40-SA V. 26 No. 43 P. 1432

Otis Type 4PB Door Closer and Interlock.
721-40-SA V. 26 No. 43 P. 1433

Otis Type 40A Door Closer and Interlock.
722-40-SA V. 26 No. 43 P. 1434

Refer to the resolution for details of approval and limitations of use.

Otis Type 42A Door Closer and Interlock.
All the above approved under the provisions of Subarticle 9, Group 1, of Article 14.
715-40-SA V. 26 No. 50 P. 1653

Otis Type "K" Bar Interlock.
716-40-SA V. 26 No. 50 P. 1653

Otis Type "L" Bar Interlock.
717-40-SA V. 26 No. 50 P. 1654

Otis Type "N" Bar Interlock.
720-40-SA V. 26 No. 50 P. 1655

Otis Type "P" Bar Interlock.
724-42-SA V. 28 No. 16 P. 319

Otis Interlock 6690A, for Bi-Parting Vertical Hoistway Doors. Approved under Section C26-191.0.
725-42-SA V. 28 No. 16 P. 321

Otis Interlock 6690B, for Bi-Parting Vertical Hoistway Doors. Approved under Section C26-191.0.

RICHARDS-WILCOX MFG. CO.
250-44-SA V. 29 No. 29 P. 641

R. W. No. 748-W Elevator Door Interlock. Approved under C26-191.0a and C26-1179.0, for use under Article 14 Administrative Building Code.
102-43-SA V. 28 No. 22 P. 473

R. W. No. 1403 Elevator Interlocking Device. Approved under Section C26-191.0, for use under Sub. Article 9, Group 1 of Article 14 of the Administrative Code.
136-44-SA V. 29 No. 14 P. 278

R. W. No. 725 and R. W. No. 755 Elevator Door Interlocks. Approved under C26-191.0, for use under Article 14 of the Administrative Building Code.

SEABERG ELEVATOR COMPANY
210-42-SA V. 27 No. 23 P. 646
Seaberg Type BL Bar Interlock. Approved.

SECURITY FIRE-DOOR COMPANY.
569-42-SA V. 28 No. 46 P. 967

Security Fire Door Company's Type D Interlock. Approved under Sections C26-191.0 and C26-1179.0.
566-42-SA V. 28 No. 46 P. 963

Security Fire Door Company's Type DL Interlock. Approved under Sections C26-191.0 and C26-1179.0.
386-43-SA V. 28 No. 43 P. 889

Security Fire Door Company's Type DLS Interlock. Approved under Sections C26-191.0 and C26-1179.0.
130-38-SA V. 23 No. 19 P. 612

Electro-Mechanical Interlock, Type PA. Approved for use with elevators under Sections C26-897.0 and C26-907.3.

SEDGWICK MACHINE WORKS, INC.
443-39-SA V. 24 No. 31 P. 1193

Sedgwick Type SW Door Interlock. Approved under Sec. C26-907.0.

STALEY ELEVATOR COMPANY, INC.
147-42-SA V. 27 No. 44 P. 1096

Staley Elevator Hoistway Door Interlock, Type RL-2. Approved under Article 14 of Administrative Code.

WESTINGHOUSE ELECTRIC ELEVATOR CO.
719-38-SA V. 24 No. 3 P. 84

Westinghouse Interlock for Automatic Elevators, Types SW-1 and SW-2. Approved under Sec. C26-914.0,2 and Sub Article 9, Group 1.
681-40-SA V. 27 No. 30 P. 825

Westinghouse Type B2 Interlock.
682-40-SA V. 27 No. 30 P. 826

Westinghouse Type BC Interlock.
701-40-SA V. 27 No. 30 P. 829

Westinghouse Type 126B Interlock.
727-40-SA V. 27 No. 30 P. 831

Westinghouse Type F Interlock.
728-40-SA V. 27 No. 30 P. 832

Westinghouse Type P Interlock.

ELEVATOR ELECTRIC CONTACTS

OTIS ELEVATOR COMPANY.
725-40-SA V. 26 No. 45 P. 1490

Otis Type 6098-C and Type 6098-E Car Gate or Door Contact. Approved under the requirements of Sec. C26-985.0.

SEABERG ELEVATOR COMPANY, INC.
203-42-SA V. 27 No. 23 P. 645

Seaberg Type G. S. Elevator Car Door or Gate Switch.

SECURITY FIRE DOOR COMPANY.
567-42-SA V. 28 No. 46 P. 965
V. 29 No. 4 P. 63

Security Fire Door Company's Type C Contact. Approved under Sections C26-191.0 and C26-1179.0.

WATSON ELEVATOR COMPANY, INC.
47-44-SA V. 29 No. 39 P. 825

Watson Type "A" Interlock and Watson Type "A1" Gate Contact. Approved under Sec. C26-1179.0a and Subarticle 9, Group 1 of Article 14.

WESTINGHOUSE ELECTRIC ELEVATOR COMPANY. 683-40-SA V. 27 No. 30 P. 827

Westinghouse Type C Electric Contact.
743-40-SA V. 27 No. 30 P. 834

Westinghouse Type SC Contact.
744-40-SA V. 27 No. 30 P. 835

Westinghouse Type CH Contact.
1150-40-SA V. 27 No. 30 P. 837

Westinghouse Type FC Gate Contact.

ELEVATOR OIL BUFFERS

WESTINGHOUSE ELECTRIC ELEVATOR COMPANY. 699-40-SA V. 27 No. 30 P. 828

Westinghouse Type OC Oil Buffer.
700-40-SA V. 27 No. 46 P. 1149

Westinghouse Type OM Oil Buffer.

FIBRE BOARD (See also Lath, Gypsum Wallboard and Sheathing)

BIRD AND SON, INC.
243-43-SM V. 28 No. 49 P. 1061

Bird Insulating Fibre Board. Approved under Insulating Fibre Board Rules of The Board of Standards and Appeals.

Refer to the resolution for details of approval and limitations of use.

CELOTEX CORPORATION.
13-39-SM V. 24 No. 28 P. 1065
V. 26 No. 5 P. 215
V. 26 No. 46 P. 1518

Thermax—shredded wood shavings cemented together with an air emulsion solution of magnesium oxy-sulphate—incombustible, sound insulation, heat insulation, sheathing, plaster base, substitute for combustible lath, roofing material. Approved under Sections C26-88.0, C26-462.0, C26-458.0, C26-538.0, C26-636.0, C26-626.0 and under the Insulating Fibre Board Rules.

THE CELOTEX CORP.
199-39-SM V. 24 No. 39 P. 1370

Celotex—manufactured from long Bagasse fibre, approved under the Insulating Fibre Board Rules.

FIR-TEX INSULATING BOARD CO.
411-38-SM V. 24 No. 42 P. 1496

Fir-Tex Insulating Board—made from wood fibres—approved under the Insulating Fibre Board Rules.

FLINTKOTE COMPANY
314-40-SM V. 25 No. 31 P. 1154

Flintkote Insulation Products—approved for use as building board, insulating lath, insulating tile, insulating plank, roof insulation and sheathing—under the Insulating Fibre Board Rules.
355-41-SM V. 27 No. 22 P. 617

Flintkote Insulation Board Products—manufactured from southern pine pulp. Approved for use in accordance with the requirements of Rule 2 of Insulating Fibre Board Rules.

INSULITE COMPANY.
1107-39-SM V. 25 No. 4 P. 111

Insulite Insulating Fibre Board—felted wood fibres—marketed as "Ins-Lite" and "Graylite"—approved under Insulating Fibre Board Rules.
V. 25 No. 12 P. 425

Satincote Interior Board, Tile Board and Plank,
Graylite and Sealed Lok-Joint Plaster Base, approved as above.
Fiberlite and Acoustilite—felted wood fibres of low porous density—approved as acoustical materials.

JOHNS-MANVILLE SALES CORPORATION.
1207-40-SM V. 26 No. 16 P. 576

Johns-Manville Insulating Board (Insulating Fibre Board)—Approved under the Insulating Fibre Board Rules.
33-44-SM V. 29 No. 5 P. 83

Johns-Manville Fibretex and
Johns-Manville Fibretone—composed of pine fibres with fibre board and cut in 12 in. by 12 in. squares. Fibretex is slotted while Fibretone is perforated. Approved under C26-178.0b, C26-191.0a in Class 1 and 2 constructions and rules of the Board, when installed in accordance with C26-667.0 pars. 3 and 8 and C26-632.0g. Note installation precautions.

A. JOHNSON AND COMPANY, INC.
431-39-SM V. 24 No. 31 P. 1207

L. W. Insulating Board (Specific Shipment)—Approval limited to specific shipment of ½" thick building board and plaster base. Approved under the Insulating Fibre Board Rules.

MASONITE CORPORATION.
404-40-SM V. 25 No. 24 P. 842

Masonite Fibre Insulation Board—approved as structural insulation, insulation tile and plank, insulating lath and roof insulation under the Insulating Fibre Board Rules.

McANDREWS & FORBES COMPANY.
938-39-SM V. 24 No. 40 P. 1407

Lockaire Insulation Fibre Board—made from licorice root plus ground wood fibres and rosin—full approval for use under the Insulating Fibre Board Rules.
V. 25 No. 15 P. 527

Asphaltic Lockaire Insulation Fibre Board—same as above plus 20% asphalt—approved under the Insulating Fibre Board Rules but may not be used as a plaster base.

NATIONAL GYPSUM COMPANY.
1016-39-SM V. 25 No. 5 P. 154

Gold Bond Fibre Insulation Board, Plank & Tile, Insulation Lath, Sheathing, made from a mixture of fibres of sound pine, bay poplar and cotton wood—approved under the Insulating Fibre Board Rules.

TREETEX CORPORATION.
811-39-SM V. 25 No. 12 P. 425

Evenaire Insulating Wallboard Lath—approval of specific shipments under the Insulating Fibre Board Rules.

UNITED STATES GYPSUM COMPANY.
1550 39 SM V. 25 No. 15 P. 528

Weatherwood and Samson Insulation Fibre Board—Building board, sheathing board, plaster base, roof insulation—approved under the Insulating Fibre Board Rules.

WOOD CONVERSION COMPANY.
996-38-SM V. 27 No. 7 P. 164

Nu-Wood Insulating Fibre Board—Manufactured from wood fibre produced by chemically cooking chipped wood under pressure and subsequently defibering the chips in attrition mills. Approved for use in accordance with Rule 2 of Fibre Board Rules.

FIBRE BOARD (HARD)

MASONITE CORP.
403-40-SM V. 25 No. 24 P. 840

Masonite De Luxe Quartrboard, Quartrboard, Presdwood, Tempered Presdwood, Presdwood Temprtile, Century of Progress Flooring—approved for use as combustible trim, combustible partitions and floor covering under Sections C26-191.0, C26-241.0, C26-243.0, C26-667.0.

UNITED STATES GYPSUM COMPANY.
68-42-SM V. 27 No. 25 P. 693

U. S. Gypsum and Sampson Densboard, Structboard, Hardboard, Treated Hardboard, Hardboard Tile and Treated Hardboard Tile—Manufactured from pressed wood fibres. Approved.

FILL PIPE TERMINALS

ALRO PLUMBING SPECIALTY COMPANY.
720-38-SA V. 23 No. 51 P. 1624

Alro Fill Pipe Terminal for Fuel Oil—approved for use in fuel oil installations.

Refer to the resolution for details of approval and limitations of use.

FEE AND MASON MFG. CO., INC.
10-36-SA V. 21 No. 44 P. 1249

Fee & Mason Fill Pipe Terminal for Fuel Oil—approved for use in fuel oil installations.

STANLEY G. FLAGG & CO., INC.
345-35-SA V. 20 No. 53 P. 1305

Flagg Fill Pipe Terminal—approved for fuel oil installations.

JAY H. NEWBURY & SONS, INC.
292-35-SA V. 20 No. 46 P. 1096

J. H. N. Fill Pipe Terminal—approved for use in fuel oil installations.

MALLORY FITTINGS COMPANY.
990-39-SM V. 24 No. 50 P. 1789

Mallory Fill Pipe Terminal for Fuel Oil—approved under Sec. C19-57.0 and the Oil Burner Rules.

MOORE & KLING, INC.
184-38-SA V. 23 No. 41 P. 1256

Moore and Kling 6 inch, Type D, Fill Pipe Terminal for Fuel Oil, approved under Oil Burner Rules.

NEWBURY MFG. CO.
223-35-SA V. 20 No. 39 P. 882

Newbury Fill Pipe Terminal for Fuel Oil—approved under the Oil Burner Rules.

PREFERRED UTILITIES COMPANY, INC.
213-35-SA V. 20 No. 39 P. 882

Preferred Fill Pipe Terminal for Fuel Oil—approved for use under the Oil Burner Rules.

RHODE ISLAND FITTINGS CO.
204-35-SA V. 20 No. 38 P. 852

Rhode Island Fill Pipe Terminal for Fuel Oil—approved for use under the Oil Burner Rules.

SEAL-O-STRAIN CORPORATION.
48-35-SA V. 20 No. 11 P. 220

Seal-O-Strain Curb Fill Box—approved for use in gasoline and in fuel oil installations under the Oil Burner Rules.

A. JAY KATES.
231-35-SA V. 20 No. 46 P. 1099

Sealtite Fill Pipe Terminal for Fuel Oil—approved under the Oil Burner Rules.

SIMPLEX BOILER STAND CO., INC.
214-35-SA V. 20 No. 39 P. 882

Simplex Fill Pipe Terminal for Fuel Oil—approved for use under the Oil Burner Rules.

WHITEHALL EQUIPMENT CO., INC.
78-38-SA V. 23 No. 16 P. 511

Weco Flush Fill Pipe Terminal for Fuel Oil—approved for use under the Oil Burner Rules.

OHIO PATTERN WORKS & FOUNDRY CO.
221-34-SA V. 20 No. 20 P. 429

Metropolitan Curb Fill Box No. 138—2 in. and 3 in. sizes, approved for use in gasoline installations.

FILM MACHINE

BLOOMFIELD TOOL CORP.
(formerly owned by Automatic Film Machine Corp.)
65-31-SA V. 16 No. 11 P. 417
V. 16 No. 29 P. 820
V. 22 No. 28 P. 870
V. 29 No. 40 P. 853

Auto Patch Machine—Approved.

FIRE ALARM SYSTEMS and ACCESSORIES

ACME FIRE ALARM CO., INC.
214-40-SA V. 25 No. 17 P. 593

Acme Type 11 VA, Non-Code Closed Circuit Interior Fire Alarm System—approved.
697-28-SA V. 21 No. 24 P. 728

Acme Fire Alarm Gongs—approved.
96-31-SA V. 16 No. 21 P. 513

Acme High, Low and Water Flow Alarm Control Board—approved.
249-35-SA V. 21 No. 29 P. 923

Acme High and Low Water Alarm Tank Switch—approved.
248-35-SA V. 21 No. 29 P. 922

Acme Polarized Vibrating Bells Type 205—approved.
178-33-SA V. 18 No. 41 P. 794

Acme Interior Fire Alarm Station, Types 1200A, 1201A, 1202A and 1203A—approved.

AIRELEASE CORPORATION.
872-41-SA V. 26 No. 49 P. 1624

Lowe Thermoskope Fire Detector—A Fire Alarm System.

AMERICAN FIRE PREVENTION BUREAU, INC.
242-25-SA V. 10 No. 44
V. 28 No. 11 P. 227

Derby Automatic Sprinkler and Standpipe Supervisory Alarm Panel—approved.
2-26-SA V. 11 No. 49
V. 28 No. 11 P. 227

Derby Closed Circuit A. C. Standpipe and Sprinkler Supervisory Alarm Panel—approved.

AUTOCALL COMPANY.
694-21-S V. 6 No. 40

Autocall Type "H" Single Stroke D. C. Gong—
Autocall Type "DD" Fire Alarm Control Board—
Autocall Type "AD" Fire Alarm Control Board—
Autocall Type "A.H.T.B." Trouble Bell—
Autocall Type "A.H." Single Stroke A. C. Gong—approved.
996-21-S V. 6 No. 51

Model A.D.P. Alternating and Model D.D.P. Direct Current Pre-signal Control Board—approved.

AUTOMATIC FIRE ALARM CO.
1062-27-SA V. 13 No. 31

Mohawk Closed Circuit Sprinkler Alarm System and Mohawk Closed Circuit Standpipe Alarm System, A. C. and D. C.—approved.
742-24-SA V. 9 No. 46

Refer to the resolution for details of approval and limitations of use.

Watkins Interior Fire Alarm Station—for use with approved closed circuit interior fire alarm systems—approved.

BENJAMIN ELECTRIC MANUFACTURING CO.
473-19-S V. 5 No. 12

Benjamin Horn—a fire alarm signal system consisting of a horn operated by magnets controlled by an electric circuit—approved.

J. H. BUNNELL & CO.
1512 24 SA V. 10 No. 17

Jane Break Glass Pull Lever Interior Fire Alarm Box—approved.

CENTRAL STATION SIGNALS, INCORPORATED.
969-41-SA V. 27 No. 21 P. 590

Automatic Thermostatic Central Office Connected Fire Alarm System.
40-42-SA V. 28 No. 8 P. 178

Central Station Signals, Inc. Method for Central Station Fire Alarm and Air Pressure Supervision of Non-automatic Sprinkler Systems.

CONRAN STANDPIPE COMPANY.
360-21-S V. 7 No. 12

Conran Electric Trip—for the operation of type B valves —approved.
308-21-S V. 6 No. 31

Ideal Thermostat—approved.

CROKER ELECTRIC COMPANY.
351-20-S V. 5 No. 6

Croker Type M-D Interior Fire Alarm System—
Croker Type M-E M.G. Control Boards—approved.

CROKER NATIONAL FIRE PREVENTION CO.
25-21-S V. 6 No. 40

Pneumatic Fire Alarm System—an automatic fire alarm system operating on the principle of the expansion of air—approved.

JOHN H. DERBY.
1509-24-SA V. 19 No. 51 P. 1093
V. 28 No. 11 P. 227

USEM Closed circuit standpipe tank and supervision system. Approved. Name changed to John H. Derby, etc.

EDWARDS & COMPANY, INC.
141-24-SA V. 9 No. 18

Edwards A. C. Control Panel for Interior Alarm Systems—approved.
224-31-SA V. 17 No. 6

Edwards & Co. Catalog No. 551, Vibrating Bell for A. C. operation for use with interior signalling equipment—approved.
1290-27-SA V. 13 No. 23

Edwards Tank Sentinel—a standpipe and Sprinkler Closed Circuit Alarm System—approved.
394-21-S V. 6 No. 31

Type 21 F. P. single stroke D. C. gong—approved for interior fire alarm installations.

EDWARDS & COMPANY.
28-23-SA V. 8 No. 30

Edwards New Type Single Stroke A. C. Gong—approved.
385-37-SA V. 24 No. 25

Edwards V A C C, Non Code, Closed Circuit Interior Fire Alarm System—approved under Sec. 279 Labor Law and Rule 5.1 of the Interior Fire Alarm Rules of the Board.
154-25-SA V. 10 No. 29

Edwards Solenoid Type Interior Fire Alarm Gong—approved.

ELECTRO MECHANICAL MACHINE CO., INC.
87-27-SA V. 12 No. 28

Emco Vibrating A. C. and D. C. Gongs—approved.

ELECTRO PROTECTIVE CORPORATION.
1118-40-SA V. 26 No. 28 P. 1032

Central Stations Signals Inc. Automatic Fire Alarm System—a metallic bulb provided with a vent opening sealed with fusible solder—approved when installed in accordance with the Interior Fire Alarm Rules of the Board.

FIRE DETECTING WIRE CORPORATION.
377-23-SA V. 8 No. 26

F. D. W. Automatic Thermostatic Fire Alarm Control Panel—approved.

FIRE DEVICES INC.
(formerly known as Lowe Laboratories, Inc.)
1014-41-SA V. 28 No. 24 P. 520

Spot Fire Lowecator, Models 101 & 102.
(formerly known as Spot-Fire Detector (Lowe).
Thermostat—Spot type rate of rise principle of operation. Approved under C26, Art. 16 & Sprinkler Rules of Board of Standards and Appeals. (may be marketed under name Temp-O-Rise.)

JEWELL ELECTRIC INSTRUMENT CO.
680-22-S V. 7 No. 39

Jewell Electric Instrument Co's. devices Pattern Nos. 33 and 54 Milliameter D. C. and Pattern No. 74 Milliameter A. C. for use with interior closed circuit fire alarm signal system—approved.

LOWE LABORATORIES, INC.
1014-41-SA V. 27 No. 15 P. 409

"Lowe Spot Fire Detector" Thermostat—Spot type rate of rise principle of operation. Approved for use with system so operated.
V. 27 No. 20 P. 571

May be marketed under name "Temp-O-Rise."

JOHNS-MANVILLE.
1615-21-SM V. 7 No. 8 P. 179

Ebony Asbestos Wood for Fire Alarm Control Panels.

MOHAWK ELECTRIC MANUFACTURING CO.
79-29-SA V. 15 No. 11

Mohawk A. C. & D. C. Electric Bell Single Stroke Type—approved.
307-21-S V. 6 No. 26

Mohawk A. C. Control Panel No. 700—
Mohawk Trouble Bell No. 704—approved.
1055-40-SA V. 26 No. 2 P. 59

Mohawk Non-Coded Closed Circuit Interior Fire Alarm Control Panel—approved.

Refer to the resolution for details of approval and limitations of use.

NATIONAL DISTRICT TELEGRAPH CO.

958-28-SA V. 17 No. 18

N. D. T. Fire Gong Control Panels, Gen. Types No. 100A and 236 for use with interior fire alarm signalling equipment—approved.

957-28-SA V. 14 No. 46

N. D. T. Fire Alarm Boxes, Types 30-M, 1030-JM, 1040-D, 1040-DJ, 1040-B, 1040-BJ, 1040-BN, 1040-BJN—approved.

597-31-SA V. 17 No. 18

N. D. T. Single Stroke Gongs, Types No. 134 AS and No. 134 DS—for use with interior signalling equipment—approved.

598-31-SA V. 17 No. 19

N. D. T. Fire Alarm Boxes, Types Nos. 1046, 1046A, and 1046AN—spring operated boxes—approved.

W. R. OSTRANDER & CO.

872-24-SA V. 10 No. 9

Ostrander A. C. - D. C. Control Panel — Code ringing, supervised, closed circuit—approved.

PROTECTOWIRE COMPANY (THE)

179-43-SM V. 28 No. 30 P. 665

Protectowire (Heat Sensitive Cable) for use in Fire Alarm Systems—Approved under Section C26-178.0b.

SAMSON ELECTRIC COMPANY.

818-21-S V. 7 No. 8

Single Stroke Revised Alarm Bell—A. C. and D. C.—approved.

943-21-S V. 6 No. 47

Electric Relay Device for control panels—approved.

16-22-S V. 7 No. 12

A. C. and D. C. Current Control Boards—for use with interior fire alarm signal systems—approved.

252-22-S V. 7 No. 17

Samson Vibrating Bell—to be used for multiple operation on open circuit systems or as trouble bells on closed circuit systems—A. C. and D. C.—approved.

673-24-SA V. 10 No. 9

Samson No. 76 Break Glass Interior Fire Alarm Signal Station—approved.

SIGNAL ENGINEERING & MFG. CO.

91-26-SA V. 12 No. 43

Signal Engineering and Manufacturing Co's. 110-220 Volt AC and DC Closed Circuit Alarm Panel—approved.

1705-21-S V. 8 No. 2

Signal Engineering Company Single Stroke Bell and Horn for use with interior fire alarm signal systems—approved.

1469-22-S V. 8 No. 6

Type F. A. Single Stroke A. C. Gong—approved for use in accordance with the Rules of the Board.

617-23-SA V. 8 No. 32

D. C. and A. C. Current Control Boards—
D. C. and A. C. Vibrating Bells—approved.

231-33-SA V. 19 No.13

Signal Engineering and Manufacturing Co's. Interior Fire Alarm Box, Types S.P., F.P., S.G.P., F.G.P., S.P.D., F.P.D., S.G.P.D., and F.G.P.D.—the gongs of the system automatically sound a code signal after the manual starting of the station's mechanism—approved.

SIMPSON ELECTRIC COMPANY.

1117-40-SA V. 26 No. 20 P. 734

Simpson Ammeters Model 55
Simpson Voltmeters Model 55
Simpson Milliameters Models 25 and 155 (for use on either AC or DC Current) approved for interior fire alarm service.

THOMAS SMITH CO.

1064-22-S V. 8 No. 6

Thomas Smith D. C. Single Stroke Gong
Thomas Smith D. C. Vibrating Gong—approved for use in accordance with the Rules of the Board.

STANLEY & PATTERSON DIVISION OF SCHWARZE ELECTRIC COMPANY.

187-28-SA V. 23 No. 28

Faraday Model 6120 and 6130 Single Stroke Solenoid Gongs—approved.

188-28-SA V. 23 No. 28

Faraday Waterflo Alarm Panel for use on standpipe and sprinkler installations—approved.

799-26-SA V. 23 No. 28

Faraday Break Glass Door Locking Device for interior fire alarm boxes—approved.

1012-40-SA V. 26 No. 24 P. 876

Faraday Non-Coded Closed Circuit Interior Fire System—approved for installation under the Interior Fire Alarm Rules.

SUNDH ELECTRIC COMPANY, INC.

187-26-SA V. 12 No. 39

Sundh Closed A. C. and D. C. Standpipe Signalling System—approved.

1314-24-SA V. 10 No. 21

U. S. E. M. COMPANY.

U. S. E. M., A. C. and D. C. Control Panels—approved.

WESTINGHOUSE ELECTRIC AND MANUFACTURING COMPANY.

1310-25-SA V. 11 No. 44

Westinghouse Type BA and CA Voltmeters and Milliameters for use on fire alarm control panels—approved.

FIRE ESCAPES

C. F. DAVY.

804-19-S V. 4 No. 48 P. 926

Davy Fire Escape (Portable, Auxiliary)—approved.

EXIT SAFETY DEVICE CORPORATION.

1441-39-SM V. 25 No. 27 P. 984

Safety Type Drop Ladder for Fire Escapes—approved under the Fire Escape Rules of the Multiple Dwelling Law.

FIRE EXTINGUISHERS—PORTABLE

The following General Resolution of the Board adopted on July 16, 1940 under Cal. No. 809-40 GR (V. 25 No. 31 P. 1161):

"A fire extinguisher listed as approved by the National Board of Fire Underwriters after test by the Underwriters' Laboratories, Incorporated, may be accepted by the administrative officials under the Oil Burner Rules and the Administrative Code for the

---

Refer to the resolution for details of approval and limitations of use.

class or classes of fires as set forth in such approval. All such fire extinguishers for use in New York City shall bear the label of the Underwriters' Laboratories, Incorporated, stating the class or classes of fire for which such fire extinguisher was so approved."

CARDOX CORPORATION.
288-43-SA V. 28 No. 45 P. 942

Cardox Low Pressure Carbon Dioxide Storage Unit and Cardox Fire Extinguishing Systems, Type A (Automatic) and Type M (Manual) Approved under C19-161.0.

DUGAS ENGINEERING CORP.
604-39-SA V. 25 No. 31 P. 1131

Dugas Dry Chemical Fire Extinguisher—Models No. 15, No. 30, No. 150 and No. 350—approved.

EMPYRE FIRE EQUIPMENT MANUFACTURING COMPANY, INC.
484-37-SA V. 24 No. 9 P. 327

Stop-fire Fire Extinguishers—Types MC and C—approved. Type C may also be marketed as Type X.
484-37-SA V. 26 No. 29 P. 1075

Stop-Fire Extinguisher—Model 2X—two quart size. See previous approval under this Calendar No.

FIRETOX SYSTEM, INC.
205-34-SA V. 20 No. 51

Automatic Firetox Extinguisher—approved.

NU EX FIRE APPLIANCE CO.
303-19-S V. 4 No. 26 P. 485

Nu Ex Fire Extinguisher—approved.

PYRENE MFG. CO.
113-40-SA V. 25 No. 19 P. 659

Pyrene and Vangarde One Quart Fire Extinguishers (Vaporizing Liquid Types)—approved under Rule 39 of the Fire Department and the Oil Burner Rules.

ROGERS PRODUCTS COMPANY, INCORPORATED.
382-41-SA V. 26 No. 30 P. 1137

Firemaster—one pint fire extinguisher—pump type using carbon tetrachloride—approved.

SAFAND SHUR CHEMICAL CO., INC.
372-32-SA V. 22 No. 38 P. 1101

Safand Shur Extinguisher—approved.

UNION STOP-FIRE CORPORATION, (New owner).
(Empyre Fire Equipment Mfg. Co., previous owner).
484-37-SA V. 28 No. 46 P. 970
V. 26 No. 29 P. 1075
V. 24 No. 9 P. 327

Stop-Fire Extinguisher, Types MC, C, X and 2X.

WALTER KIDDE & CO., INC.
282-37-SA V. 23 No. 50 P. 1581

Lux Model 2, Carbon Dioxide Fire Extinguisher—approved.

FIRE EXTINGUISHING EQUIPMENT

EMPYRE FIRE EXTINGUISHER CORP.
346-42-SM V. 27 No. 28 P. 774

"Empyre" and "Stop-Fire" Stirrup Type Water Spray Pump (Fire Extinguisher). Approved.

GIOVANNI FIORE.
395-42-SM V. 27 No. 30 P. 887

Antiflame (Bomb extinguishing compound). A chemical compound dissolved one part in three parts of water, to be sprayed on incendiary bombs. Approved.

HANDY FOLDING PAIL COMPANY, INC.
373-42-SA V. 27 No. 29 P. 802

Handy Folding Water Bucket, 10 and 12 Qt. Capacities. Approved for War Emergency Use.

E. B. KELLEY CO., INC.
435-42-SA V. 27 No. 26 P. 925

British Type ARP-33 Stirrup Pump. Approved for use (during existence of emergency) as provided in Local Law No. 25 of 1942.

NATIONAL POWDER EXTINGUISHER CORP.
141-42-SA V. 29 No. 45 P. 958

"All Out" Fire Extinguisher, Model A-16. A dry chemical fire extinguisher—approved for use in New York City in Class B and C (Underwriters classifications) fires of inflammable liquids and fires of electric origin, under the provisions of C26-178.0b, Adm. Code & Oil Burner Rules of Board of Standards and Appeals, when labeled in conformity with Cal. No. 809-40-GR.

SIPH-O-PRODUCTS CORPORATION.
665-42-SA V. 27 No. 40 P. 1017

Siph-O-Universal Smooth Faucet Adapter. Approved for use during the period of existing emergency.

FIRE HOSE RACKS

FIRE HOSE REELS—SPECIAL SERVICE

CRAIG EXPANSIBLE FIRE HOSE REEL.
35-37-SA V. 22 No. 46 P. 1269

Approved.

JAMES M. SINCLAIR.
567-37-SA V. 24 No. 25 P. 946

Sinclair Instantaneous Hose Reel—approved.

FIRELINE HOSE VALVES

TYPE A—150 LBS. WATER WORKING PRESSURE

May be installed on all 4-inch and 6-inch systems and on uppermost stories on 8-inch systems.

Name	*Calendar No.*
M. H. Aterite Co.	720-19-SA
Fairbanks Company	81-20-SA
Walworth Company	899-27-SA
A. B. C. Fire Prevention Mfg. Co., Inc.	1307-27-SA
Croker National Fire Prev. Eng. Co.	304-28-SA

Refer to the resolution for details of approval and limitations of use.

Name	*Calendar No.*
Jenkins Brothers	779-28-SA
W. D. Allen Mfg. Co.	890-28-SA
John Simmons Co.	209-29-SA
Grinnell	651-30-SA
Elkhart	14-31-SA

TYPE B—250 LBS. WATER WORKING PRESSURE

May be installed on all standpipe systems.

Name	*Calendar No.*
New York Brass Foundry Co. (Stillbech)	53-21-SA
Walworth Company	900-27-SA
W. D. Allen Mfg. Company	1151-27-SA
A. B. C. Fire Prevention Mfg. Co., Inc.	1307-27-SA
Jenkins Brothers	780-28-SA
Croker National Fire Prev. Eng. Co.	970-28-SA
Fairbanks Company	268-29-SA
Pratt & Cady	231-30-SA
Elkhart	15-31-SA

W. D. ALLEN MANUFACTURING COMPANY.
473-42-SA V. 27 No. 46 P. 1147

Allen Iron Body 2½ in. Fireline Angle Valve, Type "A", 175 lb. W.W.P. Approved for use in standpipe installations.

FIRE RESISTING MATERIALS

THORTEL FIREPROOF FABRICS, DIVISION OF H. THORP AND CO., INC.
477-44-SM V. 30 No. 8 P. 150

Thortel "100" Fireproof Fabrics—A fabric woven of 100% glass yarns—Approved for use in New York City as a drapery material under C26-191.0a, Subdiv. 6 of Article 13, C26-720.0, Subdiv. 4, C26-726.0, C19-161.1 (Local Law No. 29) and Rules of the Board for Testing Fire Resistive and Flameproofing of Fabrics.

UNITED STATES GYPSUM COMPANY.
1083-40-SM V. 26 No. 5 P. 1705

Pyrobar Gypsum Fireproofing, Pyrobar Shoe Tile, Soffit Tile, Angle Tile, Pryobar Strap Type, Channel Tile, Partition Tile. Approved as fire-resistive material for use under Sec. 26-575.0.

FLAME ARRESTOR

VAPOR RECOVERY SYSTEMS CO.
555-38-SA V. 25 No. 17 P. 590

Varec Flame Arrestors and Vent Valves—approved.

FLAMEPROOFING COMPOUNDS

ALBI CHEMICAL CORPORATION.
547-43-SM V. 28 No. 51 P. 1102
V. 29 No. 14 P. 276

Albi Flameproof Compound K and Albi Flameproof Compound X. Approved for use under the Rules for Tests of Fire-Resistive, Flameproofed Materials, etc.

ALL WEATHER PROCESSORS, INC.
279-40-SM V. 26 No. 27 P. 987

Flameproofing Substance—Ammonium sulphate, ammonium phosphate, ammonium chloride, borax and boric acid—approved under the Rules of the Board.

ANTIPYROS COMPANY.
684-41-SM V. 26 No. 46 P. 1521

Antipyros Flameproofing Compound—approved for use under the Rules for Tests of Fire Resistive, Flameproofed Materials, etc.

BOTANICAL INDUSTRIES OF AMERICA, INC.
265-41-SM V. 28 No. 10 P. 211

Botanical Industries of America, Inc. Flameproofing Compound—solution of ammonium sulphate, ammonium phosphate, borax, glycol and tergitol. Approved under the Rules of the Board.

CLARION CHEMICAL CORPORATION.
477-43-SM V. 28 No. 51 P. 1101

Flameproof M Flameproofing Compound. Approved for use under the Rules for Tests of Fire Resistive, Flameproofed Materials, etc.

CROTON CHEMICAL CORPORATION.
330-41-SM V. 27 No. 49 P. 1215

Croton Flameproofing Compound (CFC)—Ammonium sulphate, boric acid. Approved under the Rules of the Board.

DE-OXO-LIN CHEMICAL PRODUCTS, INC.
552-43-SM V. 29 No. 5 P. 82
V. 29 No. 14 P. 277

De-Oxo-Lin 200 FF Flameproofing Compound. A chemical compound. Approved for use under Rules of the Board.

JOHN H. DIRKES AND ASSOCIATES.
1144-38-SM V. 24 No. 13 P. 473

Salenite—approved for use in special occupancy structures—V. 25 No. 45 P. 1506—may be marketed under name "Flamex". Continuing approval conditioned on resubmission of this material for retest.

E. I. DU PONT DE NEMOURS & CO., INC.
822-40-SM V. 26 No. 3 P. 100

Dupont Fire Retardants "CM" and Ammonium Sulfamate—approved for use under the Rules for Tests of Fire Resistive, Flameproofed Materials, etc.

GENERAL DYESTUFF CORPORATION.
267-41-SM V. 26 No. 27 P. 992

Akaustan—Flameproofing compound for textile fibres and fabrics—a complex inorganic salt—approved under the Rules of the Board.

GLYCO PRODUCTS COMPANY, INCORPORATED.
505-41-SM V. 26 No. 46 P. 1520

Abopon and Flameproofing Agent 313—approved under the Rules for Tests of Fire Resistive, Flameproofed Materials, etc. V. 28 No. 20 P. 427

Amendment of approval, permitting the additional name of Permasol. V. 29 No. 10 P. 174

Amendment of approval, permitting additional name of Pyroseal.

HERZBERG'S FINE ART DYEING INC.
1069-40-SM V. 26 No. 3 P. 101

Neva-burn Flameproofing Compound—approved for use under the Rules for Tests of Fire Resistive, Flameproofed Materials, etc.

Refer to the resolution for details of approval and limitations of use.

McNAMARA PRODUCTS COMPANY.
(See John H. Dirkes & Associates)
1144-38-SM V. 28 No. 40 P. 829

Flamex (Salenite Flameproofing). Approved on basis of retest for use in special occupancy structures under the Rules for Tests of Fire Resistive, Flameproofed Materials, etc.

MONSANTO CHEMICAL COMPANY.
438-41-SM V. 27 No. 22 P. 622

Mono Ammonium Phosphate. Approved for use as a flameproofing compound.

NEVA-BURN PRODUCTS CORPORATION.
1069-40-SM V. 27 No. 49 P. 1218

Above name substituted for Herzberg's Fine Art Dyeing, Inc.

NEVA-MOTH CORPORATION OF AMERICA.
777-40-SM V. 28 No. 5 P. 107

Neva-Flame (Flameproofing Compound)—A compound of ammonium sulphate, ammonium phosphate, borax and boric acid. Approved.

ONYX OIL & CHEMICAL CO.
901-42-SM Vol. 28 No. 24 P. 518

Onyx Flameproof S. P. Compound—approved for use under the Rules for Tests of Fire Resistive, Flameproofed Materials, etc.

PRICE FIRE AND WATERPROOFING CO.
277-40-SM V. 26 No. 13 P. 477

Price Fireproofing Compound "C"—approved for use under the Rules for Tests of Fire Resistive, Flameproofed Materials, etc.

PROOFENE MANUFACTURING COMPANY.
93-42-SM V. 27 No. 11 P. 279

Proofene (Flameproofing Compound). Approved under the Rules of the Board.

QUAKER CHEMICAL PRODUCTS COMPANY.
501-41-SM V. 27 No. 4 P. 85

Quaker Pyr-E-Pel—A flameproofing compound. Approved for use under the Rules of the Board.

STANDARD BLEACHING AND PRINTING COMPANY.
855-41-SM V. 27 No. 46 P. 1144

Swanproof, (fire resistive flameproofed material)—Treated with a mixture of ammonium sulphate, diammonium phosphate and borax. Approved under Board's Rules for Tests of Fire Resistive, Flameproofed Materials, etc.

FLOOR COVERING

ARMSTRONG CORK CO., INC.
477-40-SM V. 26 No. 10 P. 380

Armstrong's Linoleum—made of oxidized linseed oils, resins, cork or wood flour, color pigments and fillers on a carrier of burlap—approved under Sec. C26-178.0,b and Sec. C26-667.0, subd. 4.
479-40-SM V. 26 No. 13 P. 478

Armstrong's Cork Tile Flooring—made from cork, which is ground, cleaned, pressed and backed into molds—approved under Sec. C26-667.0, subd. 4.
480-40-SM V. 26 No. 9 P. 352

Armstrong-Stedman Reinforced Rubber Tile—made by mixing reinforcing mineral and cotton filament fillers into crude rubber—approved under Sec. C26-667.0. subd. 4. 478-40-SM V. 26 No. 8 P. 318

Armstrong's Asphalt Tile—Armstrong's Alkali and Greaseproof Asphalt Tile—composed of asphalt, resin, asbestos, color-pigments and fillers—approved under Section C26-178.0,b and C26-667.0, Subd. 4.
482-40-SM V. 26 No. 29 P. 1079

Armstrong's Linotile (Oil Bonded) composed of oxidized linseed oil, resins, cork or wood flour, color pigments and fillers—approved under Sections C26-178.0,b and C26-667.0, sub. 4.

BIRD & SON, INC. 119-38-SM V. 25 No. 16 P. 564
Chromalin Floor Covering—Chromatile Floor Covering—Permatred Floor Covering—a mastic made of wood flour and special synthetic binders, cemented to a base of asphalt saturated rag felt—approved under Sec. C26-667.0,4.

BUFFALO WEAVING AND BELTING COMPANY.
1076-41-SM V. 27 No. 13 P. 340

Buffalo Non-Static Rubber Flooring. For use as a wearing surface in hospital operating rooms only—under Sec. C26-667.0,4a.

DAVID E. KENNEDY, INC.
547-38-SM V. 25 No. 42 P. 1412

Kentile—an asphalt tile composed of asbestos, asphalt, color pigments, fillers and resin—approved under Sections C26-178.0,b and C26-667.0,4.

HOOD RUBBER CO., INC.
669-40-SM V. 26 No. 4 P. 155

Hood (and Goodrich) Rubber Tile Covering—a compound of crude rubber, mineral fillers, metallic oxides, sulphur, accelerators and other chemicals—approved under Sec. C26-178-0,b and Sec. C26-667.0, subd. 4.

PAUL COSTE, INC. 123-40-SM V. 25 No. 28 P. 1025
Royalite—Rubber Tile Covering—composed of new crude rubber, sulphur filler, metallic oxide pigment, sunproof ingredients and anti-oxidants—approved under Sec. C26-178.0,b and Sec. C26-668.0, subd. 4.

PARRAFINE CO. (THE)
637-41-SM V. 29 No. 4 P. 61

Pabco Mastipave (Asphalt Mastic Floor Surfacing)—an Asphalt, impregnated felt, with bituminous backing, faced with color pigments and bituminous binder secured to subfloor by an approved cement—under C26-191.0 and C26-667.04a.

TILE-TEX COMPANY.
290-39-SM V 26 No. 48 P. 1588

Tile-Tex Asphalt Tile—Asbestos, Asphalt Color pigment, fillers and resins. Approved as floor covering under C26-178.0,b and C26-667.0,4.

Refer to the resolution for details of approval and limitations of use.

UVALDE ROCK ASPHALT CO.
1329-39-SM V. 25 No. 42 P. 1414

Azrock Carpet Tiles, Types W and C—Asphalt Tiles with limestone rock, asphalt and gilsonite as basic materials—approved under Sections C26-178.0,b and C26-667.0,4.

FLOOR AND ROOF CONSTRUCTION

AEROCRETE CORPORATION OF AMERICA.
33-38-SM V. 25 No. 31 P. 1137

Gritcrete Short Span Floor Construction and Fireproofing—Gritcrete is a porous lightweight concrete approved for use where cinder concrete is permitted under Sections C26-575.0 and C26-620.0.

AMERICAN CYANAMID AND CHEMICAL CORP.
191-38-SM V. 23 No. 26 P. 836

Gypsteel Junior and Senior Planks for floor and roof slabs—made of gypsum with welded wire mesh reinforcing, with tongued and grooved steel binding—approved under Sections C26-618.0, C26-619.0 and C26-620.0. 545-38-SM V. 25 No. 22 P. 772

Gypsteel Precast Short Span Reinforced Gypsum Roof Slabs (Tile)—approved under Sectoins C26-347.0, C26-618.0, C26-619.0, C26-625.0, and C26-626.0.

CERTAIN-TEED PRODUCTS CORPORATION.
779-41-SM V. 27 No. 29 P. 801

Certain-teed Gypsteel Precast Short Span Gypsum Roof Slabs (3″ x 12″ x 30″, solid) for use on sub-purlins on horizontal and sloping roofs. Approved.
780-41-SM V. 27 No. 22 P. 619

Certain-Teed Gypsteel Senior and Junior Plank for Floor and Roof Slabs—Manufactured of gypsum, 3% dry weight of wood planer shavings, reinforced with 16 gauge galvanized welded wire mesh. Approved.

CONCRETE PLANK CO., INC.
28-38-SM V. 24 No. 7 P. 242

Cantilite Concrete Plank—Steel reinforced concrete—approved under Sections C26-618.0, C26-619.0, and C26-620.0.

340-43-SM V. 28 No. 48 P. 1038
Concrete Plank Co., Inc., Precast Concrete Plank, size 1″ x 16″ x 48″. Approved under Sections C26-191.0, C26-618.0,b and C26-626.0.

FEDERAL-AMERICAN CEMENT TILE CO.
465-38-SM V. 23 No. 30 P. 1013

Featherweight Concrete Plank and Joist cinder concrete about 75 pounds p.c.f.—planks 2 in. x 16 in. x 9 ft. reinforced with 2 layers of wire mesh—joists 10 in. x 3½ in. x 16 ft. reinforced with rods and welded wire mesh; approved under Sections C26-625.0 and C26-626.0. 578-39-SM V 24 No. 43 P. 1537

Featherweight Concrete Channel Slabs—for floor and roof construction—approved under Sections C26-618.0, C26-619.0, C26-620.0, C26-626.0 and C26-670.0.
V. 30 No. 9 P. 179
(See Lastik Products Co., Inc.)
1170-39-SM V. 24 No. 43 P. 1542

Featherweight Nailing Concrete Roof Slabs—for use on Floors and Roofs—approved under Sections C26-618.0, C26-619.0, C26-620.0, C26-626.0 and C26-670.0.
V. 30 No. 9 P. 178
(See Lastik Products Co., Inc.)
638-39-SM V. 25 No. 31 P. 1144
V. 25 No. 51 P. 1700

Featherweight Tongue and Groove Concrete Plank—for use on Floors and Roofs, approved under Sections C26-618.0, C26-620.0, C26-626.0 and C26-670.0.
V. 30 No. 9 P. 179
(See Lastik Products Co., Inc.)

LASTIK PRODUCTS CO., INC. (see Federal American Cement Tile Co.)
578-39-SM V. 30 No. 9 P. 178
Featherweight Concrete Channel Slabs.
1170-39-SM V. 30 No. 9 P. 179
Featherweight Nailing Concrete Roof Slabs.
638-39-SM V. 30 No. 9 P. 179
Featherweight Tongue and Groove Concrete Plank.

NATIONAL BRICK CORP.
293-39-SM V. 24 No. 21 P. 771

"Nabcor" Steam-Cured Cinder Concrete Blocks—made of high early strength Portland Cement and clean graded Anthracite Cinders—for use in one and two-way ribbed floor systems, for floors not in excess of 75 pounds p.s.f. live load. Approved under Section C26-476.0.
812-39-SM V.26 No. 51 P. 1700

"Nabcor" High Pressure Steam Cured Cinder Concrete, hollow and solid, load bearing and non-load bearing masonry units. Approved under Rules for use of Concrete Masonry Units.

NATIONAL FIREPROOFING COMPANY.
40-40-SM V. 25 No. 40 P. 1339

Natco 16 in. x 16 in. Tile (for ribber floor construction)—approved for use as filler block in one and two way systems under Sec. C26-476.0 in sizes 16 in. x 16 in. x 10 ft., 9 in., 8 in., 7 in. or 6 in.

PITTSBURGH STEEL CO.
192-44-SM V. 29 No. 21 P. 429

Steeltex Floor Lath—for use in floor and roof construction as a steel wire reinforcement material under C26-318.0 and C26-330.0. As a steel wire reinforcement material for use with steel joists or over approved concrete joists under C26-620.0c,1,(b). For use as a steel reinforcing material over wood, steel or concrete joists under C26-241.0, C26-243.0 and C26-244.0.

PORETE MANUFACTURING COMPANY.
228-39-SM V. 24 No. 14 P. 514

Porete Channel Slabs—reinforced concrete channels 24 in. wide.
Porete Nailing Slabs—flat reinforced concrete slabs 24 in. wide, approved under Sections C26-618.0, C26-619.0, C26-620.0, C26-626.0 and C26-670.0.
357-39-SM V. 24 No. 17 P. 624

Porete Precast Lightweight Concrete Slabs—for floors, flat and sloped roof construction—approved under Sections C26-618.0, C26-619.0, C26-620.0, C26-626.0 and C26-670.0.
742-44-SM V. 30 No. 11 P. 208

Porex Slabs—80 in. x 20 in. x 1¾ in. Approved for use in simple spans as an incombustible material under C26-88.0; under C26-618.0 for use in Class 1 and Class 2 construction, where protective covering is permitted to be omitted; from trusses beams and surplusses and where a clear height of 20 ft. exists between the lower chord of the trusses and the top of the floor, for live loads of 40 lbs. per sq. ft. under C26-344.0 and roof loads as provided in Sec. C26-347.0, where no fire-resistive rating is required for such uses.
1507-39-SM V. 25 No. 31 P. 1150

Refer to the resolution for details of approval and limitations of use.

Precast Featherweight Tongue and Groove Concrete Plank for Floor and Roof Construction—nailable aerated concrete made with cinder aggregate—approved under Sections C26-618.0, C26-619.0, C26-620.0, C26-626.0 and C26-670.0.

20-38-SM V. 23 No. 13 P. 408

Alpha System—of steel and concrete floor construction—consists of a structural steel beam, a reinforced concrete slab and a spiral heliz electrically welded to this beam and solidly embedded into the concrete slab—maximum span 30 ft., maximum live load 225 pounds—approved.

REPUBLIC FIREPROOFING COMPANY, INC.
200-40-SM V. 26 No. 21 P. 779

Republic Fireproofing Company Slag-block Filler (for ribbed floor construction)—horizontal dimensions 8" x 16"—depths 4½", 6", 7", 8", 9", 10". Approved under Sections C26-178.0,b and C26-476.0.

H. H. ROBERTSON COMPANY.
448-40-SM V. 25 No. 40 P. 1342

Robertson Cellular Beam Steel Floor and Roof Construction, Types K, FK, RK and UK—14, 16, 18 U. S. gauge steel, Cells 6 in. on centers—three hour fire resistive rating when protected as described in report of Committee on Tests—approved under Sections C26-619.0, C26-239.0, C26-240, C26-241.

UK and FK Units approved also under Sections C26-618.0, C26-243.0 and C26-347.0.

STEELOX CO.
649-38-SM V. 24 No. 7 P. 243

Steelox—a substitute for wood floor construction; formed of steel channel-like plates no lighter than 18 U. S. gauge with interlocking vertical ribs placed with open face of the channel upward to support a wooden floor—approved under Section C26-243.0.

K. R. SCHUSTER.
122-38-SM V. 24 No. 21 P. 776

Schuster Monoplate System of Two Way Reinforced Hollow Tile Floor Construction—nickel steel reinforcement—approved under Sections C26-178.0,b and C26-191.0, for use under Art. 9, Sub. Art. 5.

TRUSCON STEEL CO.
125-38-SM V. 23 No. 24 P. 773

Truscon Ferrobord Steeldeck—18 and 20 U. S. gauge steel strips shaped into a 6 in. channel with vertical flanges 1¼, 1½, and 1¾ inches deep—approved for use as roof decking under Sec. C26-347.0.

UNITED FLOORS, INC.
1407-39-SM V. 27 No. 30 P. 881

United Floor Construction—Long-span reinforced concrete one-way ribbed floor construction with burnt clay tile as fillers. Approved.

UNITED STATES GYPSUM COMPANY.
310-40-SM V. 25 No. 28 P. 1026

U.S.G. Two Inch Medium and Long Span, Tongue and Groove, Metal Bound, Gypsum Plank—approved under Sections C26-344.0, C26-241.0, C26-618.0, C26-620.0, C26-626.0 and C26-669.0.

233-38-SM V. 23 No. 49 P. 1539

U.S.G. 2½ in. Tongue and Groove Gypsum Tile—approved under Sections C26-620.0 and C26-626.0.

234-38-SM V. 23 No. 49 P. 1540

U.S.G. 3 in. Tongue and Groove Gypsum Tile—approved under Sections C26-618.0.a, C26-619.0,b, and C26-626.0.

230-38-SM V. 23 No. 49 P. 1538

Pyrobar Short Span Gypsum Tile—approved under Sections C26-618.0 and C26-619.0.

231-38-SM V. 24 No. 27 P. 1026

U.S.G. Cell Concrete Roof Tile—approved under Sections C26-618.0, C26-619.0 and C26-626.0.

232-38-SM V. 24 No. 27 P. 1027

U.S.G. Type, B, C and D, Solid Long Span, Gypsum Tile—approved under Sections C26-618.0,a, C26-619.0,b, C26-620.0 and C26-626.0.

745-39-SM V. 25 No. 10 P. 351

U.S.G. Steel Roof Decks—made of 18, 20, 22 U. S gauge steel with reinforcing ribs 6 in. o.c. 1½ in. deep and ½ in. on the base—approved under Sections C26-347.0, C26-349.0 and C26-243.0.

236-38-SM V. 25 No. 10 P. 349

Sheetrock Pyrofill Slab Construction erected with bulb tees on rail sub-purlins spaced 2 ft. 8½ in. o.c. welded to roof purlins or floor beams—poured in place gypsum construction with 12½% ground wood fibre—approved under Sections C26-619.0, C26-620.0,e,1,c.

WALTER H. WHEELER.
841-40-SM V. 26 No. 27 P. 988

"Smooth Ceilings" System (Reinforced Concrete Floor System)—used in two-way flat slab with column capitals consisting of steel grillages. Approved under Art. 9, Sub. Art. 5 (reinforced concrete construction), Administrative Building Code.

FLUE PIPE

CONDENSATION ENGINEERING CORP.
173-43-SM V. 29 No. 2 P. 21

Vitroliner-Porcelain Enameled Outlet Piping for use as an outlet vent piping for gas appliances for temperatures under 600°F.—when installed under requirements of C26-191.0a and C26-696.0.

JUNIPER ELBOW CO., INC.
175-40-SM V. 25 No. 52 P. 1734

"Everbrite" Stainless Steel Flue Pipe—made from a stainless steel alloy known as 18-8 chrome nickel steel—approved for use under Article 12.

JOHNS-MANVILLE SALES CORP.
147-38-SM V. 23 No. 20 P. 654

Transite Flue Pipe—cement and asbestos fibre combined homogeneously under pressure—approved for use where maximum flue temperature is 600°F. when installed under requirements of Sec. C26-696.0.

291-44-SM V. 29 No. 31 P. 711

I.W. Transite Flue Pipe, Fittings and Accessories—Cement Asphalt and Asbestos fibre, combined homogeneously under pressure. Approved for use as an outlet pipe or breeching from gas, coal, oil or wood-fired heating units to legal chimneys, for low, medium or high temperature work, not exceeding 1400°F. in sizes from 2 inches to 12 inches inside diameter, under Sec. C26-696.0c.

Refer to the resolution for details of approval and limitations of use.

FUEL OIL STORAGE TANKS

BRETTLER STEEL TANK WORKS, INC.
789-41-SM V. 27 No. 26 P. 723

Brettler 275 Gal. Basement Fuel Oil Storage Tank. Approved under Oil Burner Rules.

JOHN WOOD MANUFACTURING COMPANY, INC.
980-41-SM V. 27 No. 28 P. 773

John Wood 275 Gal. Basement Obround Fuel Oil Tank. Approved under Oil Burner Rules.

KANSTINE COMPANY, INC.
981-41-SM V. 27 No. 40 P. 1015

Kanstine 275 Gallon Obround Fuel Oil Tank. Approved under Oil Burner Rules.

L. O. KOVEN AND BROTHER, INC.
979-41-SM V. 27 No. 41 P. 1033

Koven 275 Gallon Obround Fuel Oil Tank. Approved under Oil Burner Rules.

TRAGESER COPPER WORKS, INC.
978-41-SM V. 27 No. 22 P. 623

Trageser Obround 275 Gallon Tanks. Approved for use as fuel oil storage tanks, under the Oil Burner Rules.

GAS HEATERS, BURNERS AND GAS-FIRED BOILERS

Name of Burner	*Calendar No.*
Anthony Nebulyte Oil Burner, Model BGH (for use with gas fuel)	1026-22-SA
Arco Ace Conversion Gas Burner	588-39-SA
Bryant Unit Garage Heater, Models 1-AG-85-C, 2-AG-85-C and 3-AG-85-C	292-38-SA
Bryant Vertical Forced Air Heater, Models 6, 8, 10 and 12, Type VB (Gas Fired)	443-38-SA
Carrier Direct Fired Gas Burner Unit, Models 58C3 and 58C4	201-39-SA
Carrier Gas Heater, Models US 55, 75, 75S, 110, 110S, 150 and 150S	449-40-SA
Empire Ideal Gas Fired Boiler, Model O-G	553-39-SA
Empire Ideal Gas Fired Boiler, Model 1GA, for Hot Water Systems	554-39-SA
Empire Ideal Gas Fired Boiler, Model 4-GA, for Hot Water Systems	556-39-SA
Empire Ideal Gas-Fired Boiler, Model 1-G, sizes 4, 5, 6, 7, 8, 9, 10 and 11	596-39-SA
Estate Flue Connected In-A-Floor Gas Heatrolas, Nos. 75, 45, 30 and 20	973-39-SA
Gas-Vac Flexi-Unit No. 6-40, sizes 8, 15, 20 and 21	211-41-SA
Gas-Vac Winter Air Conditioner (Gas Burning Furnace)	1124-40-SA
Humidaire Gas Fired Humidifier	926-39-SA
Humphrey Gas Unit Heater, Models 60, 65, 85, 100, 125 and 200	679-38-SA
Humphrey Heat Tower (Gas Fired Forced Air Heater)	912-39-SA
Hypressure Jenny, Models JM and JL	661-41-SA
Janitor Gas Boilers	636-39-SA
Janitrol Gas Conversion Burners, Series J, JB, 16, 17, BW, BA and XR	631-39-SA
Janitrol Gas Unit Heater, Models UG45-37, UG60-37, UG85-37, UG100-37, UG125-37, UG160-37, UG-200-37, UG400, CG45-37, CG60-37, CG85-37, CG100-37, CG125-37, CG160-37, CG200-37, CG400, M 2000, M 3000, M 4000, D 4000, UG60-35, UG125-35, UG200-35, CG10-34, CG8-34, UAS-50-14, UAS-65-14, USA-85-14, UAS-100-14, UAS-125-14, UAS-175-14, UAS-200-14, UAS-225-14, UAC-65-14, UAC-85-14, UAC-100-14, UAC-125-14, UAC-175-14, UAC-200-14, UAC-225-14, BAC-75-14, BAC-105-14, BAC-125-14, BAC-225-14 and BAC-450-14	683-38-SA
Janitrol Winter Air Conditioner, Series FAC	214-41-SA
Maxon Premix Gas Burner (Multi-ratio Valve Mixer Type) with Maxon Safety Shutoff Valve, Series 404	203-44-SA
Pittsburgh Gas Unit Heater	775-39-SA
Reznor Gas Heater, Models US 55, 75, 7SS, 110, 110S, 150, 150S and 200	449-40-SA
Richmond Gas Fired Air Conditioner	655-39-SA
Richmond Heatomat Gas Heating Boiler	654-39-SA
Standard Ideal Gas Fired Boiler, Model 1-GA	592-39-SA
Standard Ideal Gas Fired Boiler, Model O-G	593-39-SA
Standard Ideal Gas-Fired Boiler, Model 4-GA, sizes 9, 11 and 13	558-39-SA
Standard Ideal Gas-Fired Boiler, Model 1-G, sizes 4, 5, 6, 7, 8, 9, 10 and 11	594-39-SA
Standard Ideal Gas-Fired Boiler, Model 4-G, sizes 13, 15, 17, 19, 21, 22, 25, 28, 31, 33, 37 and 41	595-44-SA

THATCHER FURNACE COMPANY.
116-42-SA V. 27 No. 15 P. 411

Thatcher "comfortmaster" Gas Fired Burner Unit—for steam, hot water and warm air installations.

VACUUM GAS APPLIANCES DIVISION OF UNION FORK AND HOE COMPANY.
719-41-SA V. 26, No. 49 P. 1621

Gas-Vac Unit Heater, No. 75.
720-41-SA V. 26 No. 49 P. 1623

Gas-Vac Highboy Unit Heater.

GAS MASK

INDUSTRIAL SAFETY CORPORATION.
796-21-S V. 7 No. 4

Ammonia Gas Mask—approved.

GAS SHUT OFF VALVES

EMPIRE VALVE CO.
1278-25-SA V. 11 No. 12

Empire Gas Shut-Off Valve—approved.

J. F. HEALY.
231-20-S V. 10 No. 25 P. 757

Star Gas Shut-Off Valve—approved.

NELSON B. CREIGHTON.
309-22-S V. 7 No. 19 P. 505

Ideal Automatic and Manual Gas Valve—approved.

ARTHUR E. MacLEAN.
1135-21-S V. 6 No. 47

Protecto Gas Shut-Off Valve—approved.

GAS TORCHES

AMERICAN GAS FURNACE COMPANY.
391-43-SA V. 28 No. 46 P. 969

American Gas Furnace Co. Oxygen Gas Fishtail Burners, Needle or Sharp Flame Burners, Blowpipes and Accessories. Approved under Sec. C19-93.0.

Refer to the resolution for details of approval and limitations of use.

WELDIT ACETYLENE COMPANY.
246-43-SA V. 28 No. 48 P. 1038

Weldit Model E, Gasaver. Approved for use with oxy-acetylene torches under Sec. C19-93.0.

WESTERN ELECTRIC CO., INC.
392-43-SA V. 28 No. 48 P. 1041

Western Electric Co., Inc., Type "OF" Burner Tip for Hydrogen-Oxygen Flame. Approved under C19-93.0.

QUEENS GAS CUT-OFF DEVICE CORP.
1280-25-SA V. 11 No. 31

Queens Gas Shut-Off Valve—approved.

FELLINGER & HEBARD.
752-25-SA V. 11 No. 18

Toro Emergency Gas Shut Valve—approved.

GASOLINE STORAGE TANK

ALPHA TANK COMPANY.
417-42-SM V. 27 No. 40 P. 1016
V. 28 No. 1 P. 14

Alpha 550 Gallon Cylindrical Gasoline Storage Tank. Approved.

GAUGE

A. L. RICHOLSON.
320-41-SA V. 26 No. 28 P. 1035

Rich-oil-Son Gauge (for Fuel Oil)—a glass tube with a ⅜" slot through which the oil column is visible—approved for use with storage tanks not exceeding 275 gallons.

GLASS

BLUE RIDGE GLASS CORPORATION.
569-40-SM V. 27 No. 39 P. 993

Figured, Wired, Aklo-Heatabsorbing Glasses. Approved.

MISSISSIPPI GLASS COMPANY.
1084-39-SM V. 27 No. 8 P. 193

Mississippi Glass—various types, including wire glass. Approved.

GLASS BLOCK, STRUCTURAL

OWENS-ILLINOIS GLASS CO.
169-38-SM V. 23 No. 30 P. 994

Insulux Glass Block—Hollow, partially evacuated glass block consisting of two halves, made of water clear pressed glass hermetically sealed—Series No. 100 approved for a ¾ hour fire resistive rating under Sec. C26-610.0.
V. 23 No. 42 P. 1286

Series No. 100 approved for use under the Labor Law.
V. 26 No. 21 P. 776

Additional sizes and series approved.

PITTSBURGH-CORNING CORPORATION.
820-38-SM V. 23 No. 48 P. 1509

P C Glass Blocks—hollow, partially evacuated glass blocks consisting of two halves made of water clear pressed glass sealed when made—The argus pattern, 5¾ in. x 5¾ in. x 3⅞ in. size, approved for ¾ hour fire resistive rating under Sec. C26-610.0.
V. 23 No. 48 P. 1509

Additional requirements when used above the ninth floor.
V. 26 No. 18 P. 644

Additional blocks approved.

GLASS CLOTH

OWENS-CORNING FIBER GLASS CORPORATION.
149-39-SM V. 24 No. 23 P. 475

Owens-Corning Fiberglas Fabrics—a woven material of tempered, blown or drawn glass threads—approved as fire resistive incombustible material under Sections C26-726.0 and C26-720 o.c.

GYPSUM PARTITION TILE

UNITED STATES GYPSUM COMPANY.
638-41-SM V. 26 No. 30 P. 1142

Pyrobar Gypsum Partition Tile—
6 in. Hollow (plastered on unexposed side)
4 in. Hollow (plastered both sides)
3 in. Hollow (plastered both sides with ½" gypsum plaster)
3 in. Solid (unplastered)

Above approved for fire resistive ratings up to and including 3 hrs.—2" Solid—(unplastered)—one hour rating—approved under Sec. C26-312.0.

GYPSUM WALLBOARD

(See also Lath and Sheathing)

NEWARK PLASTER COMPANY.
816-39-SM V. 24 No. 49 P. 1725

Kelly Cork Gypsum Wallboard—calcined gypsum with a cork filler covered on both surfaces with Chip board paper—approved under Sections C26-636.0 and C26-667.0.

UNITED STATES GYPSUM COMPANY.
486-39-SM V. 25 No. 40 P. 1335
V. 27 No. 29 P. 668

Sheetrock (Square Edge)
Sheetrock (Recessed Edge)
Wood Grained Sheetrock
Sheetrock Panelwood
Insulating Sheetrock
Sheetrock Tile Board and Sheetrock Joint Treatment
Samson Wallboard (Square Edge)
Samson Wallboard (Recessed Edge)
Samson Wood Grained Wallboard
Samson Panelboard
Samson Insulating Gypsum Wallboard
Samson Tile Board and Samson Tape and Wallboard Finisher—approved under Sections C26-241.0, C26-242.0, C26-636.0 and C26-667.0.
V. 28 No. 20 P. 425

Amendment of approval, permitting the predecorating of Sheetrock as approved and to be marketed under the names of Predecorated Sheetrock and Predecorated Samson Wallboard.

Refer to the resolution for details of approval and limitations of use.

INSULATION MATERIALS

(See also Fibre Board, Plaster and Acoustical Materials)

BALDWIN-HILL COMPANY.
1075-39-SM V. 24 No. 42 P. 1499

Baldwin-Hill Rock Wool—
Flintkote Rock Wool—
Keasbey and Mattison Rock Wool—approved as fire retarding material min. density 8 lbs. p.c.f. under Sec. C26-191.0 and Sec. C26-535.0.

BARRETT CO.
34-38-SM V. 23 No. 15 P. 483
V. 26 No. 48 P. 1589

Barrett Rock Wool—approved as fire retarding, fire stopping and incombustible material—under Sec. C26-535.0.

PHILIP CAREY COMPANY.
191-36-SM V. 24 No. 5 P. 170

Carey Rocktex Insulating Wool—approved as fire-retarding and fire-stopping material—min. density 6 lbs. p.c.f. —under Sections C26-191.0 and C26-535.0.

F. E. SCHUNDLER COMPANY.
14-41-SM V. 26 No. 7 P. 294

Schundler No. 121 Asbestos Vermiculite Insulation—approved as insulation material under Sections C26-178.0,b, C26-191.0, C26-127.0.

S. A. FABBRICHE FIAMMIFERI ED AFFINI.
1116-38-SM V. 24 No. 15 P. 552

Populit—specific shipment approved for use in non-load bearing partitions under Sections C26-626.0 and C26-462.0—approved as incombustible, acoustical and insulating material.

FLINTKOTE CO.
359-39-SM V. 24 No. 18 P. 665

Flintkote Rock (Mineral) Wool Insulation approved as fire retarding, fire stopping material—min. density 8.5 lbs. p.c.f.—under Sections C26-191.0 and C26-535.0.

JIFFY MANUFACTURING COMPANY.
388-38-SM V. 24 No. 46 P. 1654

Jiffy Blanket House Insulation—two sheets of heavy waterproofed, fireproofed Kraft paper covering a mixture of macerated air-drafted newspaper and 14% powdered asbestos approved for permissive use as an insulating material.

JOHNS-MANVILLE SALES CORP.
227-39-SM V. 24 No. 45 P. 1604

Johns-Manville Rockwool Home Insulation Type A, B & C, approved as fire-retarding, fire stopping material—min. density 7 lbs. p.c.f. under Sec. C26-191.0 and Sec. C26-535.0.

KIMBERLEY-CLARK CORPORATION.
1169-38-SM V. 26 No. 1, P. 19

Kimsul Expanding Building Insulation—a porous homogeneous insulation made from wood fibre waterproofed with asphalt and fireproofed with a mixture of stable salts—approved for permissive use.
V. 26 No. 30 P. 1139

Use in Class 3 construction permitted.

MASONITE CORPORATION.
777-41-SM V. 27 No. 11 P. 277

Masonite Cell-U-Blanket—Standard and Silvershean—manufactured from Southern Pine Sulphate Kraft Cellulose Fibres. Approved as sound thermal insulation in other than Class 1 and 2 construction.

NATIONAL GYPSUM COMPANY.
39-42-SM V. 27 No. 26 P. 924

National Gypsum Company Gold Bond Rock Wool and Gimco Rock Wool. Approved as fire retarding and fire stopping material in densities of 3.2 lbs., p.c.f. for batt form and 8 lbs. p.c.f. for loose form.

OWENS-CORNING FIBERGLASS CORPORATION.
12-39-SM V. 24 No. 4 P. 136

Red Top Insulating Wool—approved as fire retarding, fire stopping material—min. density 7 lbs. p.c.f. under Sec. C26-191.0 and Sec. C26-535.0.

PITTSBURGH CORNING CORP.
131-44-SM V. 29 No. 18 P. 348

PC Foamglas Insulation for use as an incombustible thermal insulation material in all classes of construction. Approved under Sec. C26-191.0a.

PLASTERGON WALL BOARD COMPANY.
28-42-SM V. 27 No. 13 P. 341

Airlock Mineral Wool Insulation. Approved as fire-retarding material 4.2 lbs. density for batt—8 pounds loose form.

REYNOLDS METALS COMPANY.
916-41-SM V. 27 No. 5 P. 107

Reyn-O-Cell (house and building insulation). Approved, use subject to limitations.

UNITED STATES MINERAL WOOL COMPANY.
646-40-SM V. 25 No. 46 P. 1539

U. S. Rock Wool—U. S. Stud-Pak—approved as fire-retarding, fire-stopping material—min. density of 10 lbs. p.c.f.—under Sec. C26-191.0 and Sec. C26-535.0.

WESTERN SILICAIR PRODUCTS, INC.
989-40-SM V. 26 No. 29 P. 1080

Silicair Duct Sheathing—with exceptions of size same as Silicar Acoustical Tile Units—approved under Sections C26-88.0 and C26-178.0,b.

JOISTS

BETHLEHEM STEEL COMPANY.
326-44-SM V. 29 No. 29 P. 643

Bethlehem Open Web Expanded Steel Joists. Approved under C26-191.0a and C26-519.0e for use in classes of construction under C26-240.0, C26-241.0, C26-244.0 and C26-620.0, when installed as required under C26-519.0.

DEXTONE CO. (THE)
157-38-SM V. 28 No. 45 P. 948

Lith-I-Bar Precast Lightweight Concrete Joists. Approved under C26-191.0, C26-615.0,a, C26-615.0,b, C26-620.0 and C26-461.0.

Refer to the resolution for details of approval and limitations of use.

LADDERS

ELEVATOR APPLIANCES CO., INC.
249-38-SA V. 24 No. 7 P. 238

Emergency Escape Ladders for Elevator Cabs. Types L-1, L-2, L-3 and L-4—approved.

LATH

(See also Fibre Board and Gypsum Wallboard)

CONSOLIDATED EXPANDED METAL COMPANIES.
236-39-SM V. 28 No. 11 P. 225

Consolidated Expanded Metal Companies Metal Lath and Lathing Accessories—approved under Sections C26-458.0, C26-459.0 and C26-191.0.
V. 28 No. 19 P. 400

Permission was granted by the Board to also market the above-mentioned material under the trade name of Wheeling Corrugating Co.

EBSARY GYPSUM CO.
229-38-SM V. 23 No. 16 P. 510

Ebsary Plasterboard and Lath—approved for use as a substitute for wood lath under Sec. C26-458.0.

GYPSUM ASSOCIATION.
H. W. Bell Co.
Certain Teed Products Corp.
Ebsary Gypsum Co.
Kelly Plasterboard Co.
National Gypsum Company.
United States Gypsum Company.
136-38-SM V. 23 No. 26 P. 834

Perforated Gypsum Lath—approved for use as a plaster base in a wood stud partition with a one hour fire resistive rating under Sec. C26-636.0, as a plasterboard under Sec. C26-462.0; for use in fire resistive ceilings under Sec. C26-669.0, as a substitute for combustible lath under Sec. C26-458.0.

NATIONAL GYPSUM COMPANY.
709-39-SM V. 25 No. 5 P. 151

Gypsum Wallboard and Plaster Base—approved under Sections C26-191.0, C26-241.0, C26-242.0, C26-363.0, C26-458.0, C26-462.0, C26-686.0, C26-667.0—may be marketed under the following brands: Gold Bond, Rockwall, Gypsolite.

KELLY PLASTERBOARD CO., INC.
798-39-SM V. 25 No. 3 P. 77

Kelly Cork—Gypsum Lath and Plasterboard—approved for use under Sections C26-363.0, C26-462.0, C26-669.0, C26-686.0 and as a substitute for combustible lath under C26-458.0.

PENN METAL COMPANY, INCORPORATED.
242-39-SM V. 25 No. 49 P. 1634

Penn Metal Company Metal Lath and Lathing Accessories—approved for use under Sections C26-458.0, C26-459.0 and C26-460.

PITTSBURGH STEEL COMPANY.
132-39-SM V. 24 No. 41 P. 1426

Steeltex, Type A (Plaster Base)—flameproofed, paper-backed metal lath—approved for use as a substitute for combustible lath under Sec. C26-458.0.

REYNOLDS METAL COMPANY.
714-38-SM V. 25 No. 15 P. 526

Reynolds Ecod Welded Wire Fabric—approved for use as a substitute for combustible lath under Sec. C-26-458.0.
V. 26 No. 50 P. 1656

Permitting Reynolds Ecod Welded Wire Fabric to be marketed as Reyn-O-Lath.

TRUSCON STEEL CO.
579-31-SM V. 17 No. 11 P. 351

Insulmesh—approved for use as a plasterbase in lieu of wood lath—a paper backed metal lath of at least No. 23 gauge.
235-39-SM V. 28 No. 22 P. 471

Truscon Steel Co. Lath. Approved under Sections C26-458.0, 459.0 and 460.0.

UNITED STATES GYPSUM COMPANY.
257-39-SM V. 25 No. 42 P. 1413

U. S. Gypsum (also known as Samson)—Metal Lath and Lathing Accessories—approved under Sections C26-191.0, C26-458.0, C26-459.0, C26-460.0, C26-461.0.
790-42-SM V. 28 No. 13 P. 258

Rocklath and Diamond Liner (Gypsum Lath) Plasterboard—approved under Sections C26-191.0 and C26-458.0.

WHEELING CORRUGATING CO.
236-39-SM V. 28 No. 19 P. 400

Reference is directed to the approval issued the parent company, the Consolidated Expanded Metal Companies, under this heading (LATH).

LATHING ACCESSORIES

JOHNS-MANVILLE SALES CORPORATION.
896-41-SM V. 27 No. 4 P. 86

Johns-Manville Transite Furring—Metal furring for J-M Transite sheeting, 20 gauge studs in 20 gauge floor and ceiling channels.

OLSEN PRODUCTS, INC.
1041-40-SM V. 25 No. 52 P. 1737

Olsen Gypsum Lath Spring Wire Clips, PC MC PS and corner Combinations—manufactured from No. 11 and No. 12 U. S. gauge hot drawn steel wire—for use in floating wall systems—approved as substitute methods of attachment as provided in Sections C26-459.0 and C26-462.0,b.

TRUSCON STEEL CO.
235-39-SM V. 28 No. 22 P. 471

Truscon Steel Co. Lathing Accessories. Approved under Section C26-191.0.

U. S. GYPSUM COMPANY.
485-39-SM V. 24 No. 24 P. 914

U. S. Gypsum Rocklath Accessories—approved for use with Rocklath under Sections C26-178.0,b and C26-462.0.

U. S. MACHINE CORPORATION.
261-41-SM V. 27 No. 15 P. 412

Frewal-Flat Clip #101, Corner Clip #201, Channel Clip #301. Accessories for a floating wall system—#101 and 201 manufactured from 28 gauge tight coat galv. sheets—#301-26 gauge.

Refer to the resolution for details of approval and limitations of use.

LIMES

AMERICAN LIME PRODUCTS COMPANY.
430-40-SM V. 25 No. 51 P. 1698

Hi-Power Brand Masons Hydrated Lime—Bulldog Pulverized Quicklime—Thomasville Lump, Pulverized and Pebble-Sized Bulk Quicklime—Red Seal Pulverized Water-Proofed Masons Quicklime. Approved under Sec. C26-312.0.

G. & W. H. CORSON, INC.
844-40-SM V. 26 No. 27 P. 991

Miracle Hydrated Lime (for masonry). Approved for use in masonry mortar under Sections C26-178.0,b and C26-313.0,b,e.

GIBSONBURG LIME PRODUCTS COMPANY.
774-40-SM V. 25 No. 52 P. 1743

Gibsonburg and Superspread Brands of Finishing Hydrated Lime—approved under Sections C26-312.0,b, C26-463.0 and C26-464.0.

HOOSAC VALLEY LIME COMPANY, INC.
1518-39-SM V. 25 No. 6 P. 203

Hoosac Granular Quicklime for masonry.
Hoosac Pulverized Quicklime for masonry.
Hoosac Superfine Quicklime for Finishing.
Hoosac Granular Quicklime for Finishing.
Hoosac Adams Granular Quicklime for Finishing.
Approved under Sections C26-312.0,a, C26-463.0 and C26-464.0.

HOOSAC MASONS HYDRATED LIME.
1519-39-SM V. 25 No. 6 P. 204

Approved under Sections C26-312.0,b and C26-463.0 and C26-464.0.

KELLY ISLAND LIME AND TRANSPORT CO.
1328-39-SM V. 25 No. 4 P. 113

Tiger Brand (White Rock) Hydrated Finishing Lime. Approved under Sections C26-312.0,b and C26-463.0.

LIMESTONE PRODUCTS CORPORATION OF AMERICA.
711-41-SM V. 28 No. 4 P. 85

Lime Crest (Masons Hydrated Lime). Approved for use under Sections C26-312.0,b and C26-313.0.

H. E. MILLARD.
247-40-SM V. 25 No. 19 P. 663

Millard's Pebble Lime. Approved for use in manufacture of sand lime brick.
Millard's Pebble Lime.
Millard's Medium Pulverized Lime—Swelt Arrow Masons Hydrated Lime.
Approved under Sections C26-312.0,a, and b, C26-313.0, C26-463.0, C26-464.0.

NATIONAL GYPSUM COMPANY.
1114-39-SM V. 25 No. 51 P. 1693

Gold Bond Hydrated Finishing Limes.
Rockwall Hydrated Finishing Limes.
Gold Bond, Palmer, Rockwall, and Big Yield Hydrated Masons Limes and Quicklimes. Approved under Sections C26-312.0,a,b and C26-313.0.

NATIONAL LIME AND STONE COMPANY.
289-41-SM V. 27 No. 48 P. 1188

Monarch Hydrated Finishing Lime, Monarch Masons Lime, Monarch Brick Mortar. Approved.

NEW ENGLAND LIME CO.
213-40-SM V. 25 No. 19 P. 661

Nelco Snowite Granular Finishing Lime.
Nelco Adams Granular Finishing Lime.
Nelco Granular Masonry Lime.
Nelco Pulverized Masonry Lime.
Nelco EZ-on Blended Finish.
Nelco Masons Hydrated Lime.
Nelco Finishing Hydrated Lime.
Nelco Pulvo Quicklime.
Approved under Sections C26-312.0,a, C26-313.0, C26-463.0 and C26-464.0.

NORTH AMERICAN CEMENT CORPORATION.
124-38-SM V. 23 No. 26 P. 832

Berkeley Masons Hydrated Lime. Approved for use under Sec. C26-312.0,b.

OHIO HYDRATE AND SUPPLY CO.
1106-40-SM V. 28 No. 52 P. 1120

Ohio and Hawkspread White Finishing Lime; Ohio White Finish Autoclaved Lime; Ohio Masons Hydrated Lime; Ohio Quickmix Masons Lime, Hypressure Hydrate; Ohio Sanlime Colored Interior Sand Finish (Ohio Ritewall Hair Fibred Base Coat Lime—see also PLASTER). Approved under C26-191.0; C26-463.0; C26-313.0,b,e,d and C26-464.0.

PILGRIM MASONS HYDRATED LIME.
1523-39-SM V. 25 No. 6, P. 205

Pilgrim Masons Hydrated Lime. Approved under Sec. C26-312.0,b.

ROCKLAND ROCKPORT LIME CO., INC.
1524-39-SM V. 25 No. 6 P. 205

Star Pulverized Quicklime for Masonry, Rockland Waterproof Lime for Masonry—Failproof Quicklime for Finishing. Approved under Sections C26-312.0,a, C26-463.0 and C26-464.0.

STANDARD LIME AND STONE COMPANY.
949-40-SM V. 26 No. 5 P. 215

Washington Brand Hydrated Finishing Lime. Approved under Sections C26-463.0 and C26-464.0.

UNITED STATES GYPSUM COMPANY.
483-39-SM V. 26 No. 11 P. 413
V. 28 No. 41 P. 848

Minitmix and Mortaseal.
Red Top Ivory Finish Lime.
Red Top Grand Prize Finish Lime.
Red Top Masons Hydrated Lime.
Red Top General Purpose Hydrated Lime.
Red Top Fibered Lime.
Samson Masons Hydrated Lime.
Samson Hydrated Finish Lime.
Approved under Sections C26-312.0,b, C26-313.0,a,b,e,d and C26-463.0.

484-39-SM V. 26 No. 29 P. 1075

Blue Label Cheshire Finish Quicklime.
Farnams Cheshire Finish Quicklime.
U. S. G. Masons Quicklime.
Samson Finish Quicklime.
Samsons Masons Quicklime.
Approved for use under Sections C-26-312.0,a and C26-313.0,a,b,e,d.

Refer to the resolution for details of approval and limitations of use.

VERMARCO LIME COMPANY.
231-40-SM V. 25 No. 21 P. 731

Vermarco Quicklime.
Vermarco Finishing Quicklime.
Vermarco Hydrated Lime.
Approved under Sections C26-312.0,a,b, C26-463.0 and C26-464.0.

WARNER COMPANY.
1366-39-SM V. 26 No. 12 P. 448

Bell-Mine Pebble Quicklime. Approved for use in manufacture of sand-lime, brick.
Bell-Mine Rotary Kiln Pulverized Masons Quicklime. Approved for use under Sections C26-313.0 and C26-463.0, C26-464.0.
Bald Eagle Hydrated Lime. Approved under Sections C26-312.0, and C26-463.0, C26-464.0.

WHITEROCK QUARRIES, INCORPORATED.
681-39-SM V. 24 No. 25 P. 949

Whiterock Pulverized Quicklime. Approved under Sec. C26-312.0,a.

WOODVILLE LIME PRODUCTS COMPANY.
1311-39-SM V. 28 No. 8 P. 282

White Lily Blubag Finishing Hydrated Lime. Approved under Sections C26-312.0,b, C26-313.0, C26-463.0 and C26-464.0.

LINTELS

TRUSCON STEEL COMPANY.
15-41-SM V. 26 No. 20 P. 734

Truscon Formed Steel Lintels, No. 572 (an angle 3½" x 3½" x ⅛") and No. 573 (4½" x 3½" x 5/32"). Approved under Sections C26-178.0,b, C26-818.0, C26-421.0,b and C26-616.0.

MIXER

ALSOP ENGINEERING CORPORATION.
1111-41-SA V. 27 No. 26 P. 723

Alsop Engineering Corporation Mixer or Agitator—in sizes from ¼ H.P. to 30 H.P. installations. Approved under Sec. C19-15.0.

MOTION PICTURE EQUIPMENT

DUPLEX CINEMA EQUIPMENT.
56-38-SA V. 23 No. 27 P. 876

Duplex DeLuxe Splicing Machine. Approved under Sec. C19-112.0.

NEUMADE PRODUCTS CORPORATION.
838-39-SM V. 24 No. 31 P. 1219

Neumade Vented Cabinets for Motion Picture Films—Models, Fumetite, Fire Chief, Firetite Sectional. Approved under Sec. C19-119.0.

AUTOMATIC FILM MACHINE CO., INC.
65-31-SA V. 22 No. 28 P. 870

Auto Patch Machine. Approved.

FILM INSPECTION MACHINE CO., INC.
418-26-SA V. 13 No. 22

Film Inspection Machine. Approved.

ALBERT G. MACKLER.
260-31-SA V. 16 No. 42 P. 1067

Mackler Film Rewinder and Renovator. Approved.

NATIONAL FIRE PROTECTION COMPANY.
609-41-SM V. 27 No. 5 P. 107

National Film and Volatile Cabinet. Approved under Sec. C19-110, Subd. 4.

OIL BURNERS FOR DOMESTIC AND COMMERCIAL USE

(See also Range Burners and Space Heaters)

Name of Burner	*Calendar No.*
A. B. C. Oil Burner	1295-24-SA
A. B. C. Oil Burner, Type H	684-29-SA
ABC Oil Burner, Models 2 and P7	98-35-SA
Ace Rotary Oil Burner	47-35-SA
Acme Automatic Oil Burner (Gun Type) Model A-1	112-36-SA
Acme Oil Burner, Models BO-1 and BO-2	132-34-SA
Aetna Automatic Oil Burner	1547-23-SA
Air-Blast Oil Burner	579-32-SA
Airnoil Burner	175-37-SA
Airtemp Oil Burner, Models B-6 and C-6	139-36-SA
Airtemp Oil Burner, Models D, F and G	88-34-SA
Aldrich Heat-Pak Oil Burner, Models 35, 35F 35TF, 35LG, 35DD, 35J, 35OA, 35P, 35GF, 35FF, 35CA and Compact	237-36-SA
Aldrich Sav-Haf Oil Burner, Models 35F5SP, 35F5LP, 35F5XP and 35J5	514-39-SA
Alladin Oil Burner	298-26-SA
Alexander Oil Burner	65-28-SA
Alida Oil Burner	124-34-SA
Alida-Remington Oil Burner	124-34-SA
Alpine Oil Burner, Models A and H	110-36-SA
Ameco Oil Burner, Models 1G, 2G, 3G, 4G and 5G	265-37-SA
Ameco Oil Burner, Model 2½M	559-38-SA
American Blue Flame and Sun Flame Oil Burning Heaters, Models No. 73, 86, 88, 92, 93, 94, 95, 96, 4512, 4518, 4528, 4538, 4562, 4563, 4573, 4578, 4588, 4688, 4678, 4668, 4666, 4683, 4663, 4653, 4673, 4674, 4664, 4612, 4618, 4628, 4638, 4788, 4778, 4768, 4783, 4763, 4753, 4773, 4712, 4718, 4721 and 4738	298-33-SA
American Oil-Saver Special Oil Burner, Models 1G, 2G, 3G, 4G and 5G	265-37-SA
American Oil-Saver Special Oil Burner, Model 2½M	559-38-SA
Anthony Nebulyte Oil Burner	1026-22-SA
Arcoflame Oil Burner	426-38-SA
Arcoflame Oil Burner, Models B, C, L, D, DF, 64, 65, M and MF	426-38-SA
Aristocrat Oil Burner	222-35-SA
Arrow Oil Burner, Models 1G, 2G, 3G, 4G and 5G	265-37-SA
Arrow Oil Burner, Model 2½M	559-38-SA
Associated Oil Burner	178-35-SA
Auto Heat Oil Burner	284-33-SA
Autocrat Oil Burner, Model B-1	297-31-SA
Automatic Airless Oil Burner, Model No. 1	53-34-SA
Baker Automatic House Heating Burner	1323-22-SA
Baker Oil Burner, Model L, Gun Type	404-29-SA
Baker Perkins Atomizing Type, Mechanical Draft Oil Burner, Types C and CD	329-35-SA
Ballard Baby Grand Oil Burner	447-32-SA
Ballard Low Pressure Mechanical Oil Burner, Models AAPA, ABPA, ACPA, ADPA, AFPA, AHPA, AAPH, ABPH, ACPH, ADPH, AFPH, AHPH, AAPM, ABPM, ACPM, ADPM, AFPM, AHPM, AAM, ABM, ACM, ADM and AFM	1493-22-SA

Refer to the resolution for details of approval and limitations of use.

Name of Burner	*Calendar No.*
Ballard Oil Burner, Models B-A, 1, 2, 3 and 4	447-32-SA
Ballard Oil Burner, Model BAO and BBS Unit	839-38-SA
Ballard Super Domestic Oil Burner	939-24-SA
Bauer Oil Burner	129-37-SA
Bayard Domestic Fuel Oil Burner	1184-22-SA
Beckett Commodore Oil Burner, Model OB-1	518-39-SA
Benat Oil Burner, Models A, B and E	23-37-SA
Berggren Oil Burner	764-26-SA
Bethlehem-Doe Oil Burner, Models CE, FE, F, G and H	116-37-SA
Bethlehem-Dynatherm Oil Burner	888-40-SA

Bethlehem Oil Burner, Crusader Model	335-38-SA
Bethlehem Steam Atomizing Fuel Oil Burner	485-32-SA
Bettendorf Automatic Oil Burner, Models D, F and G	88-34-SA
Bettendorf "Double Heat" Automatic Oil Burner, Models MV and MW	505-37-SA
Bettendorf High Pressure Oil Burner	479-31-SA
Bettendorf Oil Burner	731-28-SA
Bettendorf Oil Burner, Models G1, G2, D3, HD2, MV1, MV2, B and B1	1133-39-SA
Bettendorf Oil Burner, Model HB	498-32-SA
Bock Oil Burner, Models A, B, C and D	123-31-SA
Bock Oil Burner, Models WH-3, WH-5, WH-6 and WH-8	102-34-SA
Borden Oil Burner, Model B	29-37-SA
Braden Automatic Fuel Oil Burner, Models XLA, AL, W, CL, XLNT and XLNC	322-30-SA
Branford Oil Burner	36-31-SA
Branford Oil Burner, Model "A"	461-32-SA
Brighton Oil Burner	372-33-SA
Bullet Automatic Oil Burners, Models A and B	195-33-SA
Caloroil Burner, Type AA	1361-24-SA
Caloroil (Heavy Oil) Oil Burner, Models HR-4H, HR-5H and HR-6H	1137-40-SA
Caloroil Horizontal Rotary Oil Burner, Models 1, 2, 3, 4, 5 and 6	327-31-SA
Camel Automatic Oil Burner, Model 30, Types A, B and C and Models J and AS	229-32-SA
Capitol Oil Burner, Models A, B and E	23-37-SA
Carboradiant Oil Burner, Models V and VS	16-31-SA
Carboradiant Oil Burner, Model VSS	49-32-SA
Carborundum Burner	571-29-SA
Carrier Home Air Conditioner, Type 58C (Oil Fired)	664-39-SA
Carrier Home Weathermaker, Type 58D2	182-41-SA
Carrier Oil Burner, Models CE, FE, F, G and H	116-37-SA
Carrier Oil Burner, Model 62C2	499-38-SA
Carrier Oil Burner, Models 62D2 and 62D3	334-39-SA
Cardinal Oil Burner, Model C	50-37-SA
Carter-Korth Oil Burner, Model "P"	389-32-SA
Carter-Korth Oil Burner	54-30-SA
Carter Oil Burner, Models 4X, 5X, 6X and 10X	117-34-SA
Ceco Oil Burner	354-35-SA
Central Oil Burner, Models 4X, 5X, 6X and 10X	117-34-SA
Centry Oil Burner	157-28-SA
Century Pressing Machine Oil Burner, Models U1 and U2	25-37-SA
Challenger Kleen Heat Burner, Series No. 100	813-28-SA
Challenger Oil Burner, Model "A"	86-34-SA
Chalmers-Ace (Rotary) Oil Burner	47-35-SA
Chalmers Automatic Oil Burner, Models D1 and D2	608-32-SA
Citro Oil Burner, Models A and B	86-36-SA
Clark Domestic Gun Type Oil Burner, Models EJ-1 and EJ-2	579-37-SA
Clark Horizontal Rotary Oil Burner	618-37-SA
Commonwealth Automatic Oil Burner	348-28-SA
Conco Oil Burner	1200-39-SA
Concord Burner	108-35-SA
Conservoil Burner, Models H-1C and H-1F	155-37-SA
Continental Oil Burner, Models A, B and C	146-31-SA
Cook's Automatic Oil Burner	955-27-SA
Cope-Swift Safety Automatic Oil Burner	354-31-SA
Craftsman Oil Burner	222-35-SA
Crano Oil Burner, Models H-1C and H-1F	155-37-SA
Crater Automatic Oil Burner	34-34-SA
Crescent Oil Burner	222-29-SA
Crescent Type M Size I Oil Burner and Models 8, 18 and 28	592-31-SA
Creveling Oil Burner, Models A, B and E	23-37-SA
Crown Oil Burner, Type XA	426-29-SA
Crystal Blue Flame Oil Burner	423-29-SA
D and K Oil Burner	369-40-SA
Dahl Vaporizing Oil Burner	915-26-SA
D'Elia Oil Burner	155-31-SA
Delco Heat Oil Burner	420-31-SA
Delco Heat Oil Burner, Models DX, D12, D34, D44, DR, DRO, DR-1, DRF, DF2, and DLM	800-38-SA
Delco Heat Burners, Models A, AO, AFO, A12 and B	537-41-SA
Demand Oil Burner	108-34-SA
DeSoto Oil Burner, Models D, DA and D2	787-39-SA
DeWalt Oil Burner	541-31-SA
Diesel-American Oil Burner, Models DA-0, DA-2, DA-1 and DA-3	6-37-SA
Diesel Oil Burner	354-35-SA
Dietz Oil Burner, Type B	295-29-SA
Dietz Oil Burner, Type D	1105-22-SA
Dist-O-Matic Oil Burner	663-28-SA
Doe Oil Burner	317-31-SA
Doherty Oil Burner	943-26-SA
Draft-Rite Oil Burner	178-35-SA
Duo-Therm Oil Burning Furnace, Models 750 and 850	1044-40-SA
Dupont Oil Burner	248-36-SA
Dynamic Oil Burner	108-34-SA
Easternoil Automatic Oil Burner, Models A, B and C	600-31-SA
Econ-O-Heat Oil Burner, Model E	130-37-SA
Econ-O-Mizer Oil Burner, Models E, M and A	393-38-SA
Economy Oil Burner, Type A-1	45-31-SA
Edison Oil Burner, Models A, B and E	23-37-SA
Eisler Automatic Oil Burner	481-27-SA
Elec-tro-matic Oil Burner, Type 151	125-33-SA
Electrol Automatic Oil Burner and Models BB, C, EA, TCV, TUV, TM and JM	259-25-SA
Ember-Glo Oil Burner	462-32-SA
Empire Oil Burner	222-35-SA
Enterprise Rotary Fuel Oil Burner	1149-27-SA
Enterprise Steam Atomizing Burner	15-33-SA
Enterprise Type Junior "W" Oil Burner Models 1, 2 and 3	225-32-SA
Espo Oil Gas Burner	1431-23-SA
Esso Oil Burner, Models AAPA, ABPA, ACPA, ADPA, AFPA, AHPA, AAPH, ABPH, ACPH, ADPH, AFPH, AHPH, AAPM, ABPM, ACPM, ADPM, AFPM, AHPM, AAM, ABM, ACM, ADM and AFM	1493-22-SA
Esso Oil Burner, Models E.B. 1 and 2	520-31-SA
Esso Oil Burner, Models E.B. 3, 4 and 5	109-31-SA
Esso Oil Burner, Models EBOO and EBS Unit	839-38-SA
Evenheet Oil Burner	554-32-SA
Everedy Oil Burner	102-33-SA
Excelsior Steel Furnace Co. Oil Burner, Model U.C.	132-34-SA
Fadco Oil Burner	493-24-SA
Fairfield-Diesel Oil Burner	753-38-SA
Fairfield Model F Jr. Oil Burner	547-37-SA
Fairfield Oil Burner	584-31-SA
Faultless Oil Burner	493-24-SA
Fine-Glo Oil Burner	178-35-SA
Fitzgibbons Oil Burner, Model M	172-37-SA
Flex-O-Gas Oil Burner for Pressing Machine, Model T-2	125-36-SA

Refer to the resolution for details of approval and limitations of use.

Name of Burner	*Calendar No.*
Fluid Heat Domestic Oil Burner, Type O	1094-27-SA
Fluid Heat (Gun Type) Oil Burner, Model P	134-35-SA
Fluid Heat Oil Burner	361-32-SA
Forsdraft Oil Burner	41-34-SA
Foster Oil Burner	715-26-SA
Franklin Domestic Oil Burner	560-26-SA
Freeport-Silent Service Oil Burner, Models 5, 10 and 30	97-33-SA
Friar Oil Burner, Models R-15 and R-35	21-36-SA
Fuelo Oil Burner	47-30-SA
Gar Wood Oil Burner	373-30-SA
Gar Wood Oil Burner, Models K, K-3500, T and W	481-32-SA
General Automatic Oil Burner, Model A	60-36-SA
General Electric Fuel Oil Burner	434-32-SA
General Electric Oil Burner, Type DA-2	228-33-SA
General Electric Oil Burner, Type DB-2, DB-20 and DB-26	201-38-SA
General Electric Oil Burner, Models LA-3, LA-20, LA-22, LA-32, LA-34, LA-42, LA-44 and LA-54	605-38-SA
Ghapco Steam Generator	348-31-SA
Gilbarco-Ballard Heavy Oil Burner, Models BM, DM, FM, HM, BS, DS, FS, HS, BA, DA, FA, HA, BPM, DPM, FPM, HPM, BPS, DPS, FPS, HPS, BPA, DPA, FPA, HPA, BPW, DPW, FPW, HPW, BPH, DPH, FPH and HPH	1493-22-SA
Gilbarco G.B.O. Oil Burner	282-33-SA
Gilbarco Industrial Burner	350-32-SA
Gilbarco Oil Burner, Models AAPA, ABPA, ACPA, ADPA, AFPA, AHPA, AAPH, ABPH, ACPH, ADPH, AFPH, AHPH, AAPM, ABPM, ACPM, ADPM, AFPM, AHPM, AAM, ABM, ACM, ADM and AFM	1493-22-SA
Gilbarco Oil Burner, Models G.B. 1 and 2	520-31-SA
Gilbarco Oil Burner, Models G.B. 3, 4 and 5	109-31-SA
Gilbarco Oil Burner, Model GBOO and GBS Unit	839-38-SA
Gilbert & Barker Flexible Flame Burner	109-31-SA
Gilbert & Barker Junior Flexible Flame Domestic Oil Burner	520-31-SA
Gilbert & Barker Oil Burner, Model S-1	282-33-SA
Gilbert-Bethlehem Oil Burner, Models CE, FE, F, G and H	116-37-SA
Gill Oil Burner	1231-23-SA
Gold Star Oil Burner, Models F, S, J and J-1	166-33-SA
Golden Glow Oil Burner	493-24-SA
Goodrich Oil Burner, Models G-0, G-1, G-2 and G-3	441-31-SA
Goodspeed Automatic Oil Burner	957-27-SA
Goodspeed Oil Burner, Nozzle Type 2	346-33-SA
Gould Automatic Oil Burner	178-35-SA
Grant Oil Burner	382-26-SA
Grant Oil Burner, Model "C"	232-32-SA
Great Eastern Oil Burner, Models A, B and E	23-37-SA
Great Eastern Oil Burner, Model JM	295-25-SA
Hardinge Oil Burner	813-25-SA
Hardinge Oil Burner, Model 23	33-33-SA
Harris Fuel Oil Burner	690-30-SA
Hart Automatic Oil Burner	1162-24-SA
Hart Automatic Oil Burner, Model Series "DO"	595-29-SA
Hart Oil Burner, Model "H"	221-33-SA
Hauck Venturi Low Pressure Oil Burner	88-27-SA
Hauck Venturi Improved Propositioning Oil Burner	88-27-SA
Hayward Oil Burner (Vertical Rotary) Models AG, BG, CG, DG, AP, BP, CP, and DP	696-30-SA
Hayward Oil Burner, Model 2000	118-35-SA
Heat and Power Oil Burner, Models 1G, 2G, 3G, 4G and 5G	265-37-SA
Heat and Power Oil Burner, Model 2½M	559-38-SA
Heat King Oil Burner, Model 2	98-35-SA
Heat Master Oil Burner and Improved Model	56-39-SA
Heat-O-Matic Oil Burner	178-35-SA
Heat-Pak Oil Burner, Models 35 and Compact	237-36-SA
Heatiator Oil Burner	1346-23-SA
Heil Activ-Flame Oil Burner, Models X1, X3 and X6	295-29-SA
Heil Combustion Fuel Oil Burner	1105-22-SA
Heil Combustion Fuel Oil Burner, Type B	295-29-SA
Henjes Oil Burner, Models 1G, 2G, 3G, 4G and 5G	265-37-SA
Herco Oil Burner, Models R-15, R-35, F, P-15, P-35, P-50, J-5, J-10, S-20, S-40 and P-5	21-36-SA
Hercules Jr. Oil Burner, Model 2101	1015-40-SA
Hercules Oil Burner	510-29-SA
Hercules Oil Burner, Models H, HF, and Type H, 1937 Model, as improved 1940	309-33-SA
Hercules Oil Burner, Models M 1200 and M 1800	486-32-SA
Herman Nelson Conversion Oil Burner	144-36-SA
Hev-E Oil Burner, Models S-1, S-2, S-3 and S-4	948-40-SA
Hillcrest Oil Burner, Models A, B, and E	23-37-SA
Hipoint Oil Burner, Models A-2, B-2 and C-2	11-36-SA
Hofmann Automatic Fuel Oil Burner, Model 41	274-35-SA
Holby Type A Fuel Oil Burner	688-29-SA
Holland Gun Type Oil Burner	225-37-SA
Holland Gun Type Oil Burners, Models H4, S4, M4 and L4	367-42-SA
Holland Type "F" Oil Burner	237-34-SA
Home-Utility Oil Burner, Models A and H	110-36-SA
Homer Domestic Oil Burner	1211-25-SA
Homer Utility Oil Burner	187-33-SA
Homestead Oil Burner, Model E	176-36-SA
Homestead Twin Control Oil Burner, Models J, N, H, JU and NU	176-36-SA
Hupp Oil Burner, Models H, U, P and PP	10-34-SA
Ideal ArcoVariflame Oil Burner	837-38-SA
Ideal Oil Burner, Models A, B and E	23-37-SA
Imperial Oil Burner	187-33-SA
Improved Kres-Kno Oil Burner and Model MD	591-29-SA
Indiana Oil Burner, Models AG, AGH, AP and APH	503-37-SA
Inferno Oil Burner	82-33-SA
International Mechanical Draft Oil Burner	372-30-SA
International Oil Burner	1305-24-SA
Iron Fireman Oil Burner, Model M	577-39-SA
Jackson Oil Burner	771-41-SA
Jacobsen Balanced Oil Burner (Model V-1)	333-33-SA
Johnson Improved Rotary Fuel Oil Burner	938-22-SA
Joyce Oil Burner	852-26-SA
K. F. C. Oil Burner	846-25-SA
Kalamazoo Power Oil Burner, Models 1, 2 and 3	166-34-SA
Kaytown Quiet Automatic Oil Burner, Models A, B and C	146-31-SA
Kelco Oil Burner	237-33-SA
Kelvinator Oil Burner	339-31-SA
Kelvinator Oil Burner, Models K, 0256-A 0256-B, 0256-C, 0456, 0836 and NK 30-A, and Models NK 30-B, NK 30-C, NK 30-D, NK 45 and NK 83	105-34-SA
Kelvinator Rotary Oil Burner, Models NKB-275S, NKB-400S, NKB-525S, NKB-675S, NKB-440W, NKB-640W, NKB-840W and NKB-1080W	255-39-SA
KeWaNee Oil Burner, Model "C"	518-32-SA
Keystone Oil Burner, Models LP and WP	438-38-SA
Kingsco Oil Burner, Model E	130-37-SA
Kingsway Century Oil Burner, Models F and G	369-33-SA
Kingsway Silent Automatic Oil Burner, Model A-1	216-36-SA
Kleen Heet Oil Burner	62-24-SA
Kleen Heet Oil Burner, Type 902 Models 2 and 711	99-35-SA
Kleen Heet Oil Burner, Type R	49-33-SA
Korth Oil Burner, Models G and S	136-34-SA
Kreager Oil Burner	367-30-SA

Refer to the resolution for details of approval and limitations of use.

Leiman Brothers Fuel Oil Burner	314-30-SA
Lektro-Matic Oil Burner, Models 1-G, 2-G, 3-G, 4-G and 5-G	265-37-SA
Lennox Oil Burner, Series LE-1, LE-2 and LE-3	565-38-SA
Liberty Automatic Heater	129-28-SA
Liberty Pressure Oil Burner	75-34-SA
H.C. Little Oil Burner	814-41-SA
Lochinvar Oil Burning Unit	142-36-SA
Lonergan Automatic Oil Burner	208-33-SA
Luxor Heat Oil Burner, Models XLA, AL, W, CL, XLNT and XLNC	322-30-SA
Lynn Power Oil Burner, Models 1, 2 and 3	166-34-SA
"M W" Domestic Oil Burners, Models Nos. 25, 26, 65, 66, 307, 308, 309, 400 and 800	341-32-SA
M. W. Emancipator Oil Burner	102-33-SA
M. W. Oil Burning Water Heater	737-29-SA
M. W. Water Heater, Model 20-D	365-34-SA
Magna Fuel Oil Burner	197-33-SA
Majestic Oil Burner	693-30-SA
Major Oil Burner, Models H, U, P and PP	10-34-SA
Major Oil Burner, Models M and J	293-38-SA
Marnis Domestic Oil Burner, Models 50 and 60	556-41-SA
Marr Oil Burner, Model H, Type R	765-26-SA
Marvelo Oil Burner, Model MB	336-38-SA
Master Fuel Oil Burner	350-32-SA
Master Gulf Oil Burner, Models A, B and E	23-37-SA
Master-Kraft Oil Burner	83-33-SA
May Oil Burner, Models L, C and S	68-24-SA
May Oil Burner, Models BB, B, NSJ, F, NSJ1, W, SMT, LCT, DU, N, O, U and D	46-34-SA
Mayfield Oil Burner	568-31-SA
Mayflower Oil Burner	124-29-SA
Mazda Oil Burner, Models A, B and E	23-37-SA
McIlvane Oil Burner	544-29-SA
Melco Automatic Oil Burner, Type "A"	1032-25-SA
Merco Oil Burner	637-29-SA
Mercurol Oil Burner, Models 4X, 5X, 6X and 10X	117-34-SA
Mercury Oil Burner, Model M-2	722-39-SA
Metered Heat Oil Burner, Model G	136-34-SA
Metro-Pressure Oil Burner, Models A, B and C	146-31-SA
Micron Oil Burner	345-34-SA
Midget Oil Burner	155-34-SA
Midget Pressing Machine Oil Burner	122-35-SA
Mid-West Oil Burner, Models 106, 108, 208, 211, 311 and 114	327-31-SA
Midwest (Heavy Oil) Oil Burner, Models 211H, 311H and 114H	1137-40-SA
Miller Oil Burner, Type OG-80	937-40-SA
Minneapolis Automatic Oil Burner	34-34-SA
Mohawk Oil Burner, Models A, B and H	110-36-SA
Monitor Oil Burner	202-34-SA
Morgan Oil Burner, Models A and H	110-36-SA
Morrissey Oil Burner	673-27-SA
Morrissey Oil Burner, Models MA-2, MA-3, MA-4, SP-1, SP-2, SP-3, and MP-1	359-33-SA
Morse Conical Type Steam Atomizing Burner	938-25-SA
Morse Fan Tail Type Steam Atomizing Burner	939-25-SA
Morse Fuel Oil Burner	820-23-SA
Moto-Heat Oil Burner	195-32-SA
Motorless Oilheat Burner, Models 7, 9, 11, 13 and 15	628-23-SA
Mousette Oil Burner	887-25-SA
Nabco Oil Burner	287-37-SA
Nairoil Oil Burner, Type R, Model E	13-35-SA
National Airoil High Pressure Burner	185-29-SA
National Airoil Low Pressure Burner	186-29-SA
National Airoil Type D-R Rotary Oil Burner	548-31-SA
National Devices Oil Burner	184-36-SA
National Heat and Power Co., Inc., Oil Burner	788-38-SA
National Oil Burner, Model E-J	360-34-SA
National Oil Burner, Series N, Models S, I and C	1129-38-SA
National Rotary Oil Burner	836-25-SA
Nesbitt Oil Burner, Models F, JF, BF and D	226-33-SA
New Perfection Oil Burner, Type "C"	518-29-SA
New Process Oil Burner	1071-27-SA
Nichols-McCann-Harrison Burners	255-31-SA
Noiseless Nokol Model G Oil Burner	801-28-SA
Noiseless Nokol Rotary Oil Burner, Model R	584-28-SA
Nokol Automatic Burner	1078-24-SA
Norge Oil Burner, Models N5, N8, N68 and N88	345-31-SA
Norge Oil Burner, Models N8, N18, and N28	226-34-SA
Norge Oil Burner, Models N8-8C and N13-8C	543-37-SA
Norge Oil Furnace, Gun Type, Models 0-90 and 120	271-41-SA
Norge Oil Furnace, Pot Type, Models OA-63 and OB-60	272-41-SA
Norge Water Heater, Models 23 and 45	365-34-SA
Novo Oil Burner, Model JM	259-25-SA
Nu-Way Oil Burner	773-26-SA
Nu-Way Oil Burner, Models 1G, 2G, 3G, 4G and 5G	265-37-SA
Nu-Way Oil Burner, Model 2½M	559-38-SA
Oil Aire-Flo Burner Unit, Series H	564-38-SA
Oilbuilt Burner	85-33-SA
Oil King Oil Burner, Models F, S, J and J-1	166-33-SA
Oliver Oil Gas Burner, No. 30-A	1359-24-SA
Orco Oil Burner, Model A-1	216-36-SA
Oronoque Oil Burner	394-30-SA
Orr Fuel Oil Burner	113-26-SA
PDM Low Pressure Oil Burner	205-38-SA
Pacific Oil Burner	343-35-SA
Packard Fuel Oil Burner	77-34-SA
Paragon Oil Burner, Models A-25, A-50, A-75, A-180, AF-20 and AB-20	248-37-SA
Paragon Oil Burner, Model B	698-40-SA
Paragon Oil Burner, Models R-15 and R-35	21-36-SA
Paramount Oil Burner	1193-25-SA
Paramount Oil Burner, Model A	617-30-SA
Pascoe Oil Burner	1029-26-SA
Penn Automatic Oil Burner, Gun Type	250-37-SA
Penn Rotary Oil Burner	236-35-SA
Peoples Silent Oil Burner, Models O and G	313-35-SA
Perfect Automatic Oil Burner, Models DL-7, DL-8, DL-10, 0-5, 0-7, 0-8 and 0-10	264-35-SA
Perfect Automatic Oil Burner (Gun Type), Model A-1	112-36-SA
Perfect-Pantex Oil Burner	271-33-SA
Perfex Airnoil Burner	175-37-SA
Petro Domestic Burner	161-26-SA
Petro Model T Oil Burner	451-31-SA

Rightway Oil Burner	339-31-SA
Rite Silent Burner	187-33-SA
Ritz Oil Burner, Model A	378-36-SA
Rockville Oil Burner, Models J-5 and J-10	21-36-SA
Rohr Schanck Fuel Oil Burner	583-21-SA
Rotoflame Gem Oil Burner	187-33-SA
Round Oak Oil Burner	343-35-SA
Ryan & Scully Commercial and Domestic Oil Burner	304-32-SA
S. & K. Mechanical Fuel Oil Burner	1115-22-SA
S & K Wide Range Fuel Oil Burner	10-33-SA
S-K Oil Burner, Models F and G	369-33-SA
S and W Air King Oil Burner	493-24-SA
S. T. Johnson Co., B.H. Oil Burner	517-37-SA
S. T. Johnson Co., Type 30-A, Rotary Fuel Oil Burner	197-32-SA
S. T. Johnson Co., Type 30-H, Rotary Fuel Oil Burner	198-32-SA
S. T. Johnson Oil Heat Servant	157-34-SA
Sachem G.B.O. Oil Burner	282-33-SA
Schulse Home Oil Burner	1487-23-SA
Scott-Newcomb Pioneer Oil Burner, Models C, CA, CJ, CV and SN Junior	436-32-SA
Sealdheet Oil Burner, Model SH	160-36-SA
Security Oil Burner	56-28-SA
Selectrol Oil Burner, Models 1G, 2G, 3G, 4G and 5G	265-37-SA
Selectrol Oil Burner, Model 2½M	559-38-SA
Shepard Oil Burner	563-30-SA
Sherwood Oil Burner, Model P	134-35-SA
Shill Oil Burner	315-30-SA
Shur-Heat Oil Burner, Models R-15 and R-35	21-36-SA
Silent-Auburn Fuel Oil Burner, Models A, B, C, O, A1 and AA	461-31-SA
Silent Automatic Oil Burner	458-26-SA
Silent Automatic Burner, Model "B"	709-30-SA
Silent Automatic Burner, Model "E"	710-30-SA
Silent Flame Oil Burner, Model M	172-37-SA
Silent Flash Oil Burner, Model C1	38-33-SA
Silent Glow (Heavy Oil) Oil Burner, Models 211 H, 311 H and 114 H	1137-40-SA
Silent Glow Mid-West Oil Burner for Pressing Machines, Model 106	328-37-SA
Silent Glow Oil Burner, Model G	600-30-SA
Silent Glow Oil Burner, Models 600, 800, 1000, 1200, 1800, 2800, 3800, 6800 and 8800.	345-31-SA
Silent Glow Oil Burner, Model 1300	12-37-SA
Silent Glow Oil Burner for Pressing Machines, Models 600 and 800	327-37-SA
Silent Heet Oil Burner, Models A, B and E	23-37-SA
Silent Heet Oil Burner, Model C	96-36-SA
Silent Paramount Oil Burner, Models F and G	369-33-SA
Simplex Domestic Oil Burner, Type P.A.	446-30-SA
Simplex Domestic Type "S.P." Oil Burner	145-31-SA
Simplex Horizontal Rotary Oil Burner, Types H, H.E.G., and H.E.G.-H	367-36-SA
Simplex Turbine Fuel Oil Burner, Models C.O.G. and M.O.G.	1203-22-SA
Socony Arrow Oil Burner	1191-24-SA
Standard Automatic Oil Burner, Type 14-G	536-31-SA
Standard Automatic Oil Burner, Type 11-G	537-31-SA
Standardyne Oil Burner	34-34-SA
Stephens Oil Burner, Models Nos. 1 and 2	146-33-SA
Sterling Oil Burner, Models XLA, AL, W, CL, XLNT and XLNC	322-30-SA
Stromberg Oil Burner, Models A, B and E	23-37-SA
Stuhler Oil Burner	618-27-SA
Stuhler Oil Burner, Model R	84-36-SA
Summerheet Oil Burner	581-26-SA
Sundstrand Automatic Oil Burner	755-26-SA
Sundstrand Purmaco Automatic Oil Burner, Models A-2, 4-B, C-5, A-3U, 3-K, B-5U, B-5K and C-6U	658-30-SA
Sunflower Model S-1 Oil Burner	657-29-SA
Sunflower Oil Burner, Model S-2	587-30-SA
Sun-Glo Oil Burner, Models A, B and E	23-37-SA
Sun Heat Oil Burner	603-29-SA
Sun-Ray Fuel Oil Burner	106-33-SA
Sunway Oil Burner	624-30-SA
Super Automatic Oil Heater, Model SSH	715-29-SA
Super Automatic Zephyr Oil Burner, Model A	463-31-SA
Superb Oil Burner, Models A and B	86-36-SA
Superflex Oil Burner, for Warm Air Furnaces, Models 100, 100-E, 101, 101-E, 200, 200-E, 300 and 300-E	400-32-SA
Superheet Oil Burner, Model D	254-33-SA
Superior Oil Burner, Models A and H	110-36-SA
Supreme Oil Burner, Model G	136-34-SA
Swirling Heat Oil Burner, Model A-M	242-36-SA
Sword Automatic Oil Burner	951-25-SA
Synchro-Flame Oil Burner, Models R and RH	139-35-SA
Tabor Automatic Oil Heater, Type "D"	778-28-SA
Thatcher Oil Burner (Gun Type), Models B-1 and B-2	831-39-SA
Thermoil Oil Burner, Model G1	324-36-SA
Thompson-Gould Oil Burner	178-35-SA
Thoroburn Oil Burner, Model A-1-16-G	269-33-SA
Timken Oil Burner, Model 20	287-28-SA
Timken Rotary Oil Burner	297-29-SA
Timken Silent Automatic Heater (Water Heater Unit) Models 40-A and 50-B	121-35-SA
Timken Silent Automatic Oil Burner, Model G	266-34-SA
Timken Wall Flame Oil Burner, Model F	497-38-SA
Todd Mechanical Oil Burner, Type Hex-Press	177-35-SA

Refer to the resolution for details of approval and limitations of use.

Name of Burner	*Calendar No.*
Todd Rotary Burner, Models A, B and C	454-25-SA
Todd Rotary Burner and Pump, Types P.A.H. and P.A., and Models A, B, C, C-1 and D	281-37-SA
Todd Spiro Oil Burner	470-31-SA
Todd Spiro Oil Burner (pump type)	94-32-SA
Toridheet Oil Burner	63-28-SA
Toridheet Oil Burner, Model G	17-35-SA
Toridheet Oil Burner, Model P	134-35-SA
Tri-Aire Oil Burner, Model C-3	188-36-SA
Trojan Domestic and Industrial Fuel Oil Burner	667-28-SA
Tropic Heat Oil Burner, Model G	136-34-SA
Twin City-on-the-Door Oil Burner	129-27-SA
Tydol Silent Knight Oil Burner, Models XLA, AL, W, CL, XLNT, and XLNC	322-30-SA
U and S Oil Burner for Pressing Machine, Models A, B and C	331-36-SA
Uni-Lec-Tric Oil Burner	498-29-SA
United States Gun-type Oil Burner	222-35-SA
United States Oil Burner	620-28-SA
Universal Fuel Oil Burner	6-24-SA
Universal Oil Burner	584-31-SA
Vapomatic Oil Burner	275-34-SA
Vaporoil Burner	44-32-SA
Vesta Oil Burner	451-26-SA
Victor Oil Burner	612-30-SA
Victory Oil Burner	320-30-SA
Viking Oil Burner	396-32-SA
Vitro-Heet Oil Burner, Model MD	591-29-SA
Vitro-Heet Pressing Machine Burner, Model MD, sizes KRF and KRF-1	354-34-SA
Volcano Automatic Oil Burner	556-29-SA
Volcano Automatic Oil Burner, Models EW, EW-1, EW-2 and E	341-33-SA
Volcano Automatic Oil Burner, Models D, H and K	234-37-SA
Vortex Oil Burner, Type V, Model No. 7	180-38-SA
Wards Oil Burner, Models A-3U, B-5U and C-6U	658-30-SA
Warner Oil Burner, Model A	16-34-SA
Wayne Oil Burner	1155-25-SA
Wayne Domestic Oil Burner, Model K	115-32-SA
Wayne S-2 Domestic Oil Burner	115-32-SA
Weatherall Oil Burner, Models XLA, AL, W, CL, XLNT and XLNC	322-30-SA
Webster Oil Burner, Model M	172-37-SA
Weco Multi Oil Burner, Low Pressure Type	24-36-SA
Welbilt Oil Burner	222-35-SA
Westinghouse Oil Burner, Model K	17-35-SA
Westinghouse Oil Burner, Model P	134-35-SA
Westinghouse "Spiralaire" Oil Burner, Model J	559-39-SA
Wheco Oil Burner	108-34-SA
White Flame Oil Burner	357-35-SA
White Heat Oil Burner	232-36-SA
Williams Oil-O-Matic Oil Burner, Models J, JJ, Junior, K, KA, KB, R, HP-3, HP-1 Sentinal, HP-3A Sentinal, HP-1 Metered Heat and HP-3A Metered Heat	918-22-SA
Windsor Oil Burner, Models A-3U, B-5U and C-6U	658-30-SA
Winslow Kleen Heet Burner, Models 805 and 820	19-25-SA
Wisconsin Fuel Oil Burner, Models O, A and B	32-33-SA
Wizard Automatic Oil Burner	181-33-SA
York Air Conditioning Systems Oil Burner, Model MB 141	36-38-SA
York Automatic Oil Burner	44-29-SA
York Bake Oven Oil Burner	384-36-SA
York Horizontal Rotary Oil Burner (Type AP)	56-36-SA
York-Lalor Oil Burner	261-37-SA
Yorktown Oil Burner	166-32-SA
Yorktown Oil Burner, Model A	3-35-SA
Zenith Oil Burner	270-34-SA

OIL BURNERS FOR INDUSTRIAL USE

Name of Burner	*Calendar No.*
Ace Rotary Oil Burner	47-35-SA
Air-Blast Oil Burner	579-32-SA
Airnoil Burner	175-37-SA
Airtemp Oil Burner, Models D, F and G	88-34-SA
Aldrich Sav-Haf Oil Burner, Models 35F5SP, 35F5LP, 35F5XP and 35J5	514-39-SA
Alpine Oil Burner, Models A and H	110-36-SA
Anthony Nebulyte Oil Burner	1026-22-SA
Arcoflame Oil Burner, Models A, B, C, D, DF, 64, 65, M and MF	426-38-SA
Aristocrat Oil Burner	222-35-SA
Associated Oil Burner	178-35-SA
Auto Heat Oil Burner	284-33-SA
Automatic Airless Oil Burner, Model No. 1	53-34-SA
Babcock & Wilcox Mechanical Oil Burner	45-21-SA
Bake-O-Heat Oil Burner	1205-39-SA
Ballard Automatic Oil Burner	1363-23-SA
Ballard Oil Burner, Models B-A 1, 2, 3 and 4	447-32-SA
Ballard Low Pressure Mechanical Oil Burner, Models AAPA, ABPA, ACPA, ADPA, AFPA, AHPA, AAPH, ABPH, ACPH, ADPH, AFPH, AHPH, AAPM, ABPM, ACPM, ADPM, AFPM, AHPM, AAM, ABM, ACM, ADM and AFM	1493-22-SA
Ballard Jr. Oil Burner	1176-27-SA
Ballard Staples & Pfeiffer Steam Atomizing High Pressure Burner	1414-22-SA
Bauer Oil Burner	129-37-SA
Berggren Oil Burner	764-26-SA
Best Calorex Burner	1464-21-SA
Bethlehem Steam Atomizing Fuel Oil Burner	485-32-SA
Bettendorf Automatic Oil Burner, Models D, F and G	88-34-SA
Bock Oil Burner, Models A, B, C and D	123-31-SA
Bock Oil Burner, Models WH-3, WH-5, WH-6 and WH-8	102-34-SA
Borden Oil Burner, Model B	29-37-SA
Brighton Oil Burner	372-33-SA
Bullet Automatic Oil Burners, Models A and B	195-33-SA
Burnwell Mechanical Burner	957-22-SA
Caloroil Burner, Type AA	1361-24-SA
Caloroil (Heavy Oil) Oil Burner, Models HR-4H, HR-5H and HR-6H	1137-40-SA
Caloroil Horizontal Rotary Oil Burner, Models 1, 2, 3, 4, 5 and 6	327-31-SA
Carter Oil Burner, Models 4X, 5X, 6X and 10X	117-34-SA
Central Oil Burner, Models 4X, 5X, 6X and 10X	117-34-SA
Century Pressing Machine Oil Burner, Models U1 and U2	25-37-SA
Chalmers-Ace (Rotary) Oil Burner	47-35-SA
Chalmers Automatic Oil Burner, Models D1 and D2	608-32-SA
Clark Horizontal Rotary Oil Burner	618-37-SA
Coen Mechanical Oil Burner	942-21-SA
Conco Oil Burner	1200-39-SA
Concord Burner	108-35-SA
Cornell No. 1 Type A Oil Burner	397-23-SA
Craftsman Oil Burner	222-35-SA
Crater Automatic Oil Burner	34-34-SA
D and K Oil Burner	369-40-SA
Dahl Mechanical Fuel Oil Burner	13-21-SA
D'Elia Oil Burner	155-31-SA
Delco Heat Oil Burner, Models DX, D12, D34, D44, DR, DRO, DR-1, DRF, DF2 and DLM	800-38-SA
Demand Oil Burner	108-34-SA
Demand Oil Burner, Model A (for Pressing Machines)	841-39-SA
Dempsey Industrial Oil Burner	317-36-SA
DeWalt Oil Burner	541-31-SA
Doe Oil Burner	317-31-SA
Draft-Rite Oil Burner	178-35-SA

Refer to the resolution for details of approval and limitations of use.

Dry-Sys Type L Indirect Oil Fired Air Heater and Syphon Oil Burner	726-41-SA
Dynamic Oil Burner	108-34-SA
Electrol Industrial and Range Oil Burner, Model LF	575-39-SA
Empire Oil Burner	222-35-SA
Enco Type 400 Steam Atomizing Oil Burner.	1414-23-SA
Enco Mechanical Oil Burner	509-30-SA
Enterprise Rotary Fuel Oil Burner	1149-27-SA
Enterpise Steam Atomizing Burner	15-33-SA
Esso Oil Burner, Models AAPA, ABPA, ACPA, ADPA, AFPA, AHPA, AAPH, ABPH, ACPH, ADPH, AFPH, AHPH, AAPM, ABPM, ACPM, ADPM, AFPM, AHPM, AAM, ABM, ACM, ADM and AFM	1493-22-SA
Faber Industrial Fuel Oil Burner, Types B and M	372-38-SA
Fess Turbine Burner, Airoil Fan and Pump Set	26-22-SA
Fine-Glo Oil Burner	178-35-SA
Fisher Oil Burner, Model M	182-38-SA
Fitzgibbons Oil Burner, Model M	172-37-SA
Flex-O-Gas Oil Burner, Model FR	168-37-SA
Forsdraft Oil Burner	41-34-SA
Frankfort Type P Oil Burner	1046-23-SA
Friar Oil Burner, Models R-15 and R-35	21-36-SA
Gem Fuel Oil Burner	111-26-SA
General Electric Fuel Oil Burner, Model D-1	434-32-SA
General Electric Oil Burner, Type DA-2	228-33-SA
Ghapco Steam Generator	348-31-SA
Gilbarco-Ballard Heavy Oil Burner, Models BM, DM, FM, HM, BS, DS, FS, HS, BA, DA, FA, HA, BPM, DPM, FPM, HPM, BPS, DPS, FPS, HPS, BPA, DPA, FPA, HPA, BPW, DPW, FPW, HPW, BPH, DPH, FPH and HPH	1493-22-SA
Gilbarco Industrial Burner	350-32-SA
Gilbarco Oil Burner, Models AAPA, ABPA, ACPA, ADPA, AFPA, AHPA, AAPH, ABPH, ACPH, ADPH, AFPH, AHPH, AAPM, ABPM, ACPM, ADPM, AFPM, AHPM, AAM, ABM, ACM, ADM and AFM	1493-22-SA
Gilbert & Barker Fuel Oil Burner	1636-21-SA
Gold Star Oil Burner, Models F and S	166-33-SA
Goodspeed Oil Burner, Nozzle Type 2	346-33-SA
Gould Automatic Oil Burner	178-35-SA
Grant Oil Burner, Model "C"	232-32-SA
GRD Fuel Oil Atomizer	128-27-SA
Greenawalt Down Draft Combustion Oil Burning Furnace	85-35-SA
Hammond Oil Burner	72-31-SA
Harris Fuel Oil Burner	690-30-SA
Hart Oil Burner, Model "H"	221-33-SA
Hauck Venturi Low Pressure Oil Burner	88-27-SA
Hayward Oil Burner (Vertical Rotary), Models AG, BG, CG, DG, AP, BP, CP and DP	696-30-SA
Hayward Oil Burner, Model 2000	118-35-SA
Heat Master Oil Burner and Improved Model	56-39-SA
Heat-O-Matic Oil Burner	178-35-SA
Herco Oil Burner, Industrial Models A-4 and A-5	349-33-SA
Herco Oil Burner, Models R15, R35, F, P15, P35, P50, J5, J10, S20 and S40	21-36-SA
Hobeco Oil Burner	1278-21-SA
Holby Oil Burner	328-27-SA
Holby Type B Fuel Oil Burner	689-29-SA
Holland Gun Type Oil Burner	225-37-SA
Home Utility Oil Burner, Models A and H	110-36-SA
Hupp Oil Burner, Models H, U, P and PP	10-34-SA
Hypressure Jenny Steam Cleaner, Models JM and JL	672-42-SA
Ideal Arco Variflame Oil Burner	837-38-SA
Indiana Oil Burner, Models AG, AGH, AP and APH	503-37-SA.
Induslo Fuel Burner 1-27	5-24-SA
Kalamazoo Power Oil Burner, Models 1, 2 and 3	166-34-SA
Kelvinator Oil Burner, Models K, 0256-A, 0256-B, 0256-C, 0456, 0836, NK30-A, NK30-B, NK30-C, NK30-D, NK45 and NK83	105-34-SA
Keystone Oil Burner, Models LP and WP	438-38-SA
Kingsway Century Oil Burner, Models F and	
Kingsway Century Oil Burner, Models F and G	369-33-SA
Kingsway Silent Automatic Oil Burner, Model A-1	216-36-SA
Korth Oil Burner, Models G and S	136-34-SA
Kreager Oil Burner	367-30-SA
Kres-Kno Pressing Machine Burner, Model MD, sizes KRF and KRF-1	354-34-SA
Laco Oil Burner, Models F, JF, BF and D	226-33-SA
Leader Bake Oven Oil Burner	384-36-SA
Leiman Brothers Fuel Oil Burner	314-30-SA
Lennox Oil Burner, Series LE-1, LE-2 and LE-3	565-38-SA
Liberty Automatic Heater	129-28-SA
Liberty Pressure Oil Burner	75-34-SA
Leintz Oil Burner	155-20-SA
Lonergan Automatic Oil Burner	208-33-SA
Lynn Power Oil Burner, Models 1, 2 and 3	166-34-SA
Magna Fuel Oil Burner	197-33-SA
Mahrvel Low Pressure Burner	859-26-SA
Major Oil Burner, Models H, U, P and PP	10-34-SA
Master Fuel Oil Burner	350-32-SA
Maxon Oil Burner (New Style)	1026-22-SA
May Oil Burner, Models L, C and S	68-24-SA
May Oil Burner, Models BB, B, NSJ, F, NSJ1, W, SMT, LCT, DU, N, O, U and D	46-34-SA
Mercurol Oil Burner, Models 4X, 5X, 6X and 10X	117-34-SA
Metered Heat Oil Burner, Model G	136-34-SA
Micron Oil Burner	345-34-SA
Midget Oil Burner	155-34-SA
Midget Pressing Machine Oil Burner	122-35-SA
Mid-West Oil Burner, Models 106, 108, 208 211, 311 and 114	327-31-SA
Midwest (Heavy Oil) Oil Burner, Models 211H, 311H and 114H	1137-40-SA
Minneapolis Automatic Oil Burner	34-34-SA
Mohawk Oil Burner, Models A, B and H	110-36-SA
Monarch Industrial Oil Burner	133-35-SA
Morgan Oil Burner, Models A and H	110-36-SA
Morrissey Oil Burner, Models MA-2, MA-3, HA-4, SP-1, SP-2, SP-3 and MP-1	359-33-SA
Morse Conical Type Steam Atomizing Burner	938-25-SA
Morse Fan Tail Type Steam Atomizing Burner	939-25-SA
Morse Fuel Oil Burner	820-23-SA
Nabco Oil Burner	287-37-SA
National Airoil High Pressure Burner	185-29-SA
National Airoil Low Pressure Burner	186-29-SA
National Airoil Type DR Rotary Oil Burner	548-31-SA
National Devices Oil Burner	184-36-SA
National Heat and Power Co., Inc., Oil Burner	788-38-SA
Nesbitt Oil Burner, Models F, JF, BF and D	226-33-SA
Nichols-McCann-Harrison Burners	255-31-SA
Norge Oil Burner, Models N8-8C and N13-8C.	543-37-SA
North American Low Pressure Oil Burner	792-26-SA
Nu-Vapomatic Oil Burner (for Pressing Machines)	708-39-SA
Oil Aire-Flo Burner Unit, Series H	564-38-SA
Oilbilt Burner	85-33-SA
Orco Oil Burner, Model A-1	216-36-SA
Oronoque Oil Burner	394-30-SA
PDM Low Pressure Oil Burner	205-38-SA
Packard Fuel Oil Burner	77-34-SA
Paragon Oil Burner, Models R-15 and R-35	21-36-SA
Paramount Oil Burner, Model A	617-30-SA
Peabody-Fisher Wide Range Mech. Oil Burner	644-21-SA
Penn-Automatic Oil Burner, Gun Type	250-37-SA
Perfect-Pantex Oil Burner	271-33-SA

Refer to the resolution for details of approval and limitations of use.

Shur-Heat Oil Burner, Models R-15 and R-35	21-36-SA
Silent Glow (Heavy Oil) Oil Burner, Models 211H, 311H and 114H	1137-40-SA
Silent Glow Mid-West Oil Burner for Pressing Machines, Model 106	328-37-SA
Silent Glow Oil Burner for Pressing Machines, Models 600 and 800	327-37-SA
Silent Flame Oil Burner, Model M	172-37-SA
Silent Paramount Oil Burner, Models F and G	369-33-SA
Simplex Horizontal Rotary Oil Burner, Types H, H.E.G. and H.E.G.-H	367-36-SA
Simplex Turbine Fuel Oil Burner, Models C.O.G. and M.O.G.	1203-22-SA
Standardyne Oil Burner	34-34-SA
Steam Oil Burner	183-22-SA
Stephens Oil Burner, Models No. 1 and 2	146-33-SA
Stewart Gasifier Oil Burner	146-35-SA
Sun Heat Oil Burner	603-29-SA
Sun-Ray Fuel Oil Burner	106-33-SA
Sunway Oil Burner	624-30-SA
Superior Oil Burner, Models A and H	110-36-SA
Supreme Oil Burner, Model G	136-34-SA
Surface Combustion Low Pressure Burner	92-23-SA
Syncro-Flame Oil Burner, Model R	139-35-SA
Tate-Jones Fuel Oil Burner, "L" Type	1254-24-SA
Tate-Jones No. 6 Oil Burner	1444-23-SA
Thompson-Gould Oil Burner	178-35-SA
Timken Rotary Oil Burner	297-29-SA
Timken Siltent Automatic Oil Burner, Model G	266-34-SA
Todd Mechanical Fuel Oil Burner	1525-22-SA
Todd Mechanical Oil Burner, Type Hex-Press	177-35-SA
Todd Rotary Burner, Models A, B and C	454-25-SA
Todd Rotary Burner and Pump, Types P.A.H. and P.A., and Models A, B, C, C-1 and D	281-37-SA
Todd Spiro Oil Burner	470-31-SA
Todd Spiro Oil Burner (pump type)	94-32-SA
Todd Steam Atomizing Fuel Oil Burner	123-23-SA
Trojan Domestic and Industrial Fuel Oil Burner	667-28-SA
Tropic Heat Oil Burner, Model G	136-34-SA
United States Gun-Type Oil Burner	222-35-SA
United States Oil Burner	620-28-SA
Vapofier Oil Burner	184-34-SA
Vapomatic Oil Burner	275-34-SA
Vaporoil Burner	44-32-SA
Vitro-Heet Pressing Machine Burner, Model MD, Sizes KRF and KRF-1	354-34-SA
Vortex Oil Burner, Type V, Model No. 7	180-38-SA
Warner Oil Burner, Model A	16-34-SA
Wayland Horizontal Rotary Oil Burner	204-40-SA
Webster Oil Burner, Model M	172-37-SA
Welbilt Oil Burner	222-35-SA
Wheco Oil Burner	108-34-SA
White Heat Oil Burner	232-36-SA
Winslow Kleen Heet Burner, Models 805 and 820	19-25-SA
Wizard Automatic Oil Burner	181-33-SA
York Bake Oven Oil Burner	384-36-SA
York-Labor Oil Burner	261-37-SA
Yorktown Oil Burner	166-33-SA
Yorktown Oil Burner, Model A	3-35-SA

Refer to the resolution for details of approval and limitations of use.

OIL BURNERS ACCESSORIES

COLE SULLIVAN ENGINEERING CO.

102-36-SA V. 22 No. 27 P. 835

Cole Draft Governor (combination damper and automatic draft governor)—Approved for use in New York City with Oil Burner Installations.

DAVIDSON ELECTRIC CO.

381-38-SA V. 23 No. 27 P. 877

Davidson Automatic Damper Control, Model M405A. Approved for use in oil burner installations.

HERD UTILITIES, INC.

30-43-SA V. 28 No. 8 P. 179

Herd Thermostatic Damper Control (Automatic Draft Regulator). Approved for use in oil burner installations.

S. LOWE AND SONS COMPANY.

710-40-SM V. 25 No. 29 P. 1060

Lowe Draft Controls for Metal Smoke Pipes—designed for use in 8 and 9 inch metal smoke pipes. Approved for use in oil burning installations. Approved under Sec. C26-191.0.

PENN ELECTRIC SWITCH COMPANY.

640-38-SA V. 23 No. 40 P. 1179

Penn Overload Switch for Oil Burners, Type 730. Approved for use in Oil Burner Installations.

1046-38-SA V. 27 No. 23 P. 642

Penn Overload Switch, Type LC, Models LCT, LCP, LSCT and LSCP. Approved for use as a refrigerator control under Sec. C19-100.0,b.

RELIABLE PRODUCTS MFG. CO.

345-44-SA V. 29 No. 44 P. 936

Reliable Heat Exchanger—Approved for use in Oil Burning Installations under C19-57 of the Administrative Code and Rule 7.2.2 of the Oil Burner Rules.

BENJAMIN RIESNER, INC.
15-36-SA V. 21 No. 20 P. 597

Riesner Fuel Oil Ventilating Brick F-1 and Riesner Volatile Oil Ventilating Brick, G-1 and G-2—Approved under Oil Burner Rules.

TEESDALE MANFACTURING CO.
119-36-SA V. 21 No. 44 P. 1249

Teesdale Baramatic Damper—Approved for use in New York City with Oil Burner Installations.

WHEELCO INSTRUMENTS COMPANY.
239-41-SA V. 28 No. 6 P. 131

Wheelco Flameatrol (Safety System for Oil Burners), Models 1101A, 1102A, 1123A, 1124A, 1125A, 1126, 1131A, 1132A, 1256, 1257 and 1265C. Approved for use under the Oil Burner Rules.

PAINT

ALBI CHEMICAL CORP.
40-43-SM V. 29 No. 13 P. 254
V. 29 No. 15 P. 302

Albi Firepel "S" (fire-retarding paint). Liquid coating material—mixed 4 parts to 1 part water—applied in 2 coats over wood construction, to be used only where protected from the elements. Approved under Sections C26-191.0a for voluntary use under Sub. Art. 7 of Art 9 and C26-161.0, Administrative Building Code.

ARKANSAS CO., INC., THE.
405-41-SM V. 28 No. 20 P. 425

Arko Flameproofing Compound AS. A complex inorganic salt, when dissolved in water, renders Rayon Pile Fabric and Cotton Velour flameproofed. Approved under the Rules of the Board.

DEBEVOISE COMPANY.
863-41-SM V. 27 No. 40 P. 1032

Dereka Damp-Proof Black Paint and Dereka Metal Paint, Red, No. 500. Approved for use under Sec. C26-522.0 and C26-524.0.

JOSEPH DIXON CRUCIBLE COMPANY.
892-38-SM V. 24 No. 18 P. 663

Dixon's Waterproof Primer No. 101.
Dixon's Waterproof Finish Coat No. 108. Approved under Sections C26-520.0 and C26-524.0.

A. C. HORN. 757-38-SM V. 24 No. 18 P. 663
Dehydratine No. 10, Semi-Mastic (waterproofed brush coating). Approved under Sec. C26-524.0.

M. J. MERKIN PAINT COMPANY, INC.
282-40-SM V. 25 No. 24 P. 858

Merkin No. 62 Red Oxide Primer for Structural Steel.
Merkin No. 291 Black Graphite Finish Coat for Structural Steel. Approved under Sections C26-522 and C26-524.0.

MODERN WATERPROOFING PAINT CO.
449-43-SM V. 29 No. 23 P. 475

Aquella and Aquella No. 2, Waterproofing Mineral Paint for Interior and Exterior Use. Approved tentatively under C26-191.0a for use under Rule 5.3.1 of the rules of the Board on Manufacture, Testing and Use of Concrete Masonry and Article 9, Administrative Building Code, until such time as durability data is developed which will warrant unlimited general approval.

TECHNICRAFT COMPANY, INC.
195-42-SM V. 27 No. 27 P. 751
V. 28 No. 1 P. 15

Lumiplast—luminus pigment to be used on exit signs. Approved.

TRUSCON STEEL COMPANY.
126-38-SM V. 23 No. 24 P. 773

Bar-Ox Paint RB-22 (Red)—Black Bar Joist Paint 30B-74. Approved under Sections C26-191.0 and C26-522.0.

WILBUR AND WILLIAMS COMPANY.
727-41-SM V. 27 No. 9 P. 225

Totrust (Rust Preventive Paint). Approved for use under Sections C26-552.0 and C26-554.0.
728-41-SM V. 27 No. 28 P. 772

Bondlite (for interiors) and Exterior Bondlite—Penetrating and bonding oil paints.
900-41-SM V. 28 No. 8 P. 177

Damp Coat Enamel (water resisting paint). Approved.

PAINT DRYING SYSTEM

ELLIOTT ELECTRIC COMPANY (THE).
100-43-SA V. 28 No. 45 P. 941

Elliott Electric Infra-Red Oven. Approved under Rule 4.4, Paint, Varnish & Lacquer Spraying Rules of Bd. Standards and Appeals, and C26-191.0.

GEHNRICH AND GEHNRICH, INC.
69-43-SA V. 29 No. 50 P. 1067

Gehnrich and Gehnrich Gas-Fired Industrial Ovens, Types T, H, C, Indirect Gas Recirculating Air Heater, Type IH and Direct Gas-Air Heater, Type D.J. Approved under C26-191.0z and the Rules of the Board.

PANIC BOLTS

AMERICAN HARDWARE CORPORATION OF NEW YORK (P and F Corbin Division).
842-42-SM V. 28 No. 32 P. 717

Corbin Automatic Exit Fixtures or Panic Bolts, Types 3552½, 3552, 3557 and 3557½. Approved under Sections C26-191.0 and C26-285.0.
66-43-SM V. 28 No. 32 P. 718

Corbin Panic Bolt (Rim Type Automatic Exit Fixture) Types 2585, 2685, 2586, 2686, 2588, 2688, 2590 and 2690. Approved under Sections C26-191.0 and C26-285.0.

CORBIN (P & F) DIVISION OF (American Hardware Corporation of New York).
842-42-SM V. 28 No. 32 P. 717

Corbin Automatic Exit Fixtures or Panic Bolts, Types 3552½, 3552, 3557 and 3557½. Approved under Sections C26-191.0 and C26-285.0.
66-43-SM V. 28 No. 32 P. 718

Corbin Panic Bolt (Rim Type Automatic Exit Fixture) Types 2585, 2685, 2586, 2686, 2588, 2688, 2590 and 2690. Approved under Sections C26-191.0 and C26-285.0.

SARGENT & CO.
918-21-S V. 6 No. 47 P. 893

Anti-Panic Fire Exit Bolt. Approved.
304-43-SM V. 28 No. 32 P. 719

Sargent Fire Exit Bolt, Models J5344L and J5391L. Approved under Sections C26-191.0 and C26-285.0.

Refer to the resolution for details of approval and limitations of use.

SARGENT & GREENLEAF.
651-27-SA V. 13 No. 10 P. 241

S. & G. Panic Lock. Approved.
61-43-SM V. 28 No. 50 P. 1079

Sargent and Greenleaf Fire Exit Panic Locks, Models 5300, 5300-C, 5300-X2545, 5400, 5400-X2545, 5300-J, 5300-JC, 5300-JX2545J, 5400-J and 5400-JX2545J. Approved under Sections C26-191.0 and C26-285.0.

VAN KANNEL REVOLVING DOOR CO.
554-19-S V. 5 No. 20 P. 300

Van Kannel Panic Bolt. Approved.

VON DUPRIN DIVISION OF VONNEGUT HARDWARE CO.
907-42-SM Vol. 28 No. 26 P. 556

Von Duprin Fire & Panic Exit Bolts, Types A, A2, B2, C2, E, F, H, J, K, L, Q, S, U, V1 and Y. Approved under C26-191.0 and C26-285.0.

PARTITIONS

MELVILLE PRAEGER.
461-43-SM V. 29 No. 30 P. 676

Magiclip Partition (2" Solid Gypsum Lath and Plaster Partition)—a solid non-bearing, incombustible partition, for use as a substitute method of construction. Approved under Sec. C27-191.0 and C26-3.0.

S. H. POMEROY COMPANY, INC.
424-42-SM V. 27 No. 46 P. 1145

"Jackson System." Amended to include the Jackson Metal Nailable Studs and accessories for non-bearing interior and exterior partitions. Approved under Section C26-191.0.

JOHNS-MANVILLE SALES CORPORATION.
894-41-SM V. 26 No. 52 P. 1733

J-M Transite Walls (Partitions) Imperial Type. Approved as a fireproof partition.
895-41-SM V. 27 No. 4 P. 85

J-M Transite Walls, Universal Type—approved for use in sub-dividing partitions under Sec. C26-667.

OLSEN PRODUCTS INC.
354-43-SM V. 28 No. 48 P. 1040

Olsen Clip System 2-in. Solid Plaster Partition. Approved under C26-3.0.

U. S. GYPSUM CO.
476-44-SM V. 29 No. 48 P. 1027

U. S. Gypsum Co. 2 in. Solid Rocklath and Plaster Partition (Method of Construction)—Approved as a solid non-bearing incombustible partition not exceeding 9 ft. in height using ⅜" or ½" Rocklath, as a substitute method of construction, under C26-3.0.

PASTE, PIPE JOINT

FEDERAL PROCESS COMPANY.
1049-41-SM V. 27 No. 4 P. 86

Federal Gasoila Varnish. Approved.
Federal Gasoila Cement. Approved. For threaded pipe connections under Sec. C26-191.0.

KEY COMPANY.
882-38-SM V. 25 No. 28 P. 1023

Key Graphite Paste (for threaded connections, oil, gas, etc.). Approved under Sec. C26-191.0.

PIPE COVERING (Insulation)

ATLANTIC ASBESTOS CORPORATION.
834-40-SM V. 28 No. 12 P. 241

Atlantic Asbestos Corporation's Asbestos Air Cell Pipe Covering, Asbestos Air Cell Block, Woolfelt Pipe Covering, 1 inch thick and 1 inch thick doubleshell. Approved under Sections C26-191.0 and C26-1274.0.

PLASTER

(See also Gypsum Wallboard and Lath)

CALIFORNIA STUCCO PRODUCTS COMPANY.
266-40-SM V. 25 No. 25 P. 906

Stucoustic Acoustical Plaster. Approved as an acoustical plaster under Sec. C26-191.0; approved under Sections C26-464.0 and C26-637.0, b.

CERTAIN-TEED PRODUCTS CORPORATION.
1343-39-SM V. 24 No. 47 P. 1692

Kalite Acoustical Plaster. Approved under Sec. C-26-191.0 and as an incombustible material under Sec. C26-88.0.

COLONIAL PLASTER COMPANY.
1059-39-SM V. 24 No. 41 P. 1450

Duraplast (Decorative Plaster). Approved for use as a finish coat on plaster surfaces under Sections C-26-463.0 and C26-464.0.

INSULATING DURAPLAST PLASTER.
215-41-SM V. 26 No. 14 P. 509

Insulating Duraplast Plaster—the mineral Vermiculite expanded at high temperature. Approved as a fire retarding material under Sec. C26-191.0.

EASTERN COMPOSITION STONE COMPANY.
1248-39-SM V. 25 No. 29 P. 1059

Craftplaster. Approved for use as a substitute for the finish (Gypsum) coat only under Sections C26-312.0, C26-463.0 and C26-464.0.

KEYCAST STONE CO.
309-38-SM V. 24 No. 15 P. 551

Plastalath Prefabricated Plaster wire lath embedded midway in a monolithic mixture of brown and scratch mortar. Approved for use as a substitute for combustible lath and plaster under Sec. C26-458.0.

MAC-RYAND CORPORATION.
831-38-SM V. 24 No. 11 P. 361

MacStone Decorative Plaster approved for use as a finish Coat but not as a substitute for required plaster.

NATIONAL GYPSUM COMPANY.
711-39-SM V. 26 No. 17 P. 607

Gypsum Plaster under the following names—Gold Bond, Universal, Rockwall, Clip-On, Riverside, Pioneer, Gold Bond Superwhite, Universal Silverwhite, Universal Blue Ribbon, Pioneer FF, Pioneer FFF, Pioneer Barga Lucca, Gold Bond Macoustic, Best Brothers Keene's Cement—approved under Section C26-468.0.

Refer to the resolution for details of approval and limitations of use.

NEWARK PLASTER COMPANY.
814-39-SM V. 25 No. 3 P. 78

Newark Plaster Co.—Gypsum Plaster approved for use under Sections C26-312.0, C26-464.0, C26-466.0, C26-572.0, C26-632.0, C26-636.0, C26-667.0, C26-669.0.

OHIO HYDRATE & SUPPLY CO.
1106-40-SM V. 28 No. 52 P. 1120

Ohio Ritewall Hair Fibred Base Coat Lime Plaster—Approved under C-26-464.0.

SAFETY PLASTER SALES CORPORATION.
818-38-SM V. 24 No. 44 P. 1577

Kaminex Safety Plaster—approved for use as a plaster material under Sections C26-312.0, C26-463.0 and C26-464.0.

TUCKAHOE STUCCO CORP.
1123-39-SM V. 24 No. 50 P. 1790

Keentex Colored Plaster—approved for use as a substitute for the finish (gypsum) coat only under Sections C26-312.0, C26-463.0 and C26-464.0.

WILLIAM S. STEELE, INC.
821-38-SM V. 24 No. 14 P. 512

Zonolite Insulating Plaster approved as a fire retarding material under Sec. C26-191.0.

J. S. GYPSUM COMPANY.
800-39-SM V. 27 No. 47 P. 1165
V. 28 No. 13 P. 259
V. 29 No. 22 P. 453

U. S. Gypsum Company Gypsum Plaster, Red Top and Samson Brands (various names). Approved (see resolution).

PLUMBING, PIPING, FIXTURES & ACCESSORIES

AMERICAN RADIATOR COMPANY.
669-38-SM V. 23 No. 45 P. 1397

Arco Cast Iron Pipe and Fittings—approved under Sec. C26-1229.0.

AMERICAN RADIATOR AND STANDARD SANITARY CORPORATION.
208-39-SA V. 24 No. 21 P. 770

American Radiator and Standard Sanitary Corporation Vitreous China, W. C. Tank, Models F-4050—approved under Sec. C26-1277.0.
1093-41-SM V. 27 No. 8 P. 195

American Radiator and Standard Sanitary Corp. Plate B-1942 Water Controller (ballcock for low tank). Approved under Sec. C26-1277.0,h.
101-42-SM V. 28 No. 20 P. 426

American Radiator and Standard Sanitary Corp. "Standard" B-884-ST Combination Sink Faucet with Spray. A combination sink faucet and spray, provided with a vacuum breaker. Approved under Section C26-1277.0h.

AMERICAN STERILIZER CO.
439-41-SM V. 26 No. 28 P. 1039
V. 28 No. 6 P. 135

Aeroflush Bedpan Washer—Approved for use in New York City under Section C26-1277.0. and C26-178.0b.

ANNENBURG MARBLE AND TERRAZZO CORPORATION.
463-39-SM V. 24 No. 23 P. 873

Anolith Hopper Ring (ring slab for toilet bowl)—approved under Sec. C26-1250.0.

A. S. G. PIPE LINING COMPANY.
81-42-SM V. 27 No. 18 P. 517

PermOlive (Cement Lined Pipe). Approved for use in hot and cold water supply systems.

W. A. CASE AND SONS MANUFACTURING CO.
1048-26-SA V. 12 No. 22

T. N. One Piece Combined Bowl and Flushing Reservoir Water Closet—approved.

ALEXANDRO COZZO.
734-39-SM V. 24 No. 31 P. 1217

Caboco Superior Drain Ring for Toilet Bowls or Gaskets—approved under Sec. C26-1250.0.
V. 25 No. 29 P. 1059

Name of above changed to "Excelled Draining Ring for W. C. Bowl."

CRANE COMPANY.
1384-39-SM V. 25 No. 22 P. 773

Crane C-12785 Saxanet Closet Bowl with C13558 Six-gallon Ipswich Tank with Scovill Type "S" Float Valve and Vacuum Breaker—approved under Sec. C26-1277.0.
668-38-SA V. 24 No. 18 P. 660

Crane "Hanover" tank and Closet Combinations—approved under Sec. C26-1277.0.

EVER-PLASTICS CORPORATION.
1084-38-SM V. 24 No. 9 P. 328

"Sani-Sett" (Plumbing Fixture Setting Compound). Approved for use as a gasket under Sec. C26-1250.0.

JOHN DOUGLAS COMPANY.
89-35-SA V. 20 No. 17 P. 358

Siphon Proof Water Closet, Type A. Approved under the Plumbing Rules of the Board.

GENERAL CERAMICS COMPANY.
129-40-SM V. 25 No. 18 P. 624

Belmont G-211 Water Closet Combination. Approved under Section C26-1277.0.

GB-800 ADMIRAL CLOSET COMBINATION.
1214-39-SM V. 24 No. 42 P. 1500

Approved under Section C26-1277.0.

HOSPITAL SUPPLY COMPANY.
531-40-SM V. 26 No. 14 P. 502

Hospital Supply Company Overflow for Bed Pan Washer (Model Orbit). Approved for use in New York City under Section C26-1277.0.

JOHN J. KELLY.
237-19-S V. 4 No. 17 P. 269

Glennan Improved Hub Ferrule. Approved.

Refer to the resolution for details of approval and limitations of use.

EDWARD KENNEDY.
36-35-SA V. 20 No. 15 P. 321
Kennedy Special Double Seal Joint Fitting. Approved under the Plumbing Rules.

MAURICE A. KNIGHT.
785-39-SM V. 27 No. 43 P. 1075
Knightware Acid Neutralizing Sumps. Approved for use under Sec. C26-1297.0,b.

KOKOMO SANITARY POTTERY CORPORATION.
549-40-SM V. 25 No. 24 P. 858
Kokomo Sanitary Pottery Corporation—six-gallon vitreous china toilet tank, No. 230. Approved under Section C26-1276.0.

NATHAN KUHN.
519-39-SM V. 24 No. 24 P. 917
Kuhn Automatic Back Pressure Sewer Valve. Approved under Section C26-1259.0.

CHARLES W. MOORE.
734-38-SA V. 23 No. 40 P. 1211
Moore Water Closet Floor Flange and Gasket. Approved under Section C26-1250.0.

IGNATIUS L. MULLER.
348-39-SA V. 24 No. 28 P. 1064
Absolute Oil Separator. Approved under Section C26-1296.0.

NATIONAL TUBE COMPANY.
471-38-SM V. 24 No. 4 P. 128
Duroline Steel Pipe. Approved under Section C26-1240.0.

SECURITY PRODUCTS COMPANY.
1038-38-SA V. 24 No. 3 P. 85
Noverflo Toilet Combination. Approved.

SIMPLEX BOILER STAND COMPANY, INC.
1077-39-SM V. 27 No. 40 P. 1014
Simplex Felt Grease Treated W.C. Gaskets. Approved under Sec. C26-1250.0.

JAY R. SMITH.
174-39-SM V. 24 No. 27 P. 991
Jay R. Smith Felt Gasket for Water Closet Floor Flanges. Approved under Section C26-1250.0.

UNITED WIRE AND SUPPLY CORPORATION.
219-35-SM V. 21 No. 9 P. 240
"United" Copper Service Pipe. Approved for use in New York City.

PREHEATERS

ADVANCE CRESCENT CORPORATION.
1110-38-SA V. 24 No. 4 P. 128
Crescent Preheater for Oil Burning Equipment. Approved under the Oil Burner Rules.

ALBERT G. PURDUE ASSOCIATES.
820-39-SA V. 24 No. 31 P. 1196
Lines Thermal Electric Conductions System (for heating oil). Approved under the Oil Burner Rules.

ARMOR CLAD INDUSTRIES, INC.
859-41-SA V. 27 No. 23 P. 644
Armor Clad Safety Oil Preheater. Approved under Oil Burner Rules.

CHARLES A. HONES, INC.
874-38-SA V. 24 No. 7 P. 241
Buzzer Fuel Oil Preheater (gas fired). Approved under the Oil Burner Rules.

SAFETY HEATER CO.
49-45-SA V. 30 No. 13 P. 245
Safety Oil Heater (Preheater). Approved under Sec. C19-57.0a Administrative Code and Rule 7.2.2 of the Oil Burner Rules.

PRESSURE REDUCING VALVES—STANDPIPE OUTLET

CONRAN STANDPIPE COMPANY.
315-22-S V. 9 No. 23
V. 16 No. 7 P. 157
Conran Pressure Reducer. Approved.

CROKER NATIONAL FIRE PREVENTION ENGINEERING CO.
535-29-SA V. 16 No. 7 P. 158
Croker 2½" Pressure Reducing Valve. Approved.

ANSONIA FIRE PREVENTION ENGINEERING CO., INC.
65-32-SA V. 17 No. 25
Elkhart 2½ in. Hose Outlet Pressure Reducing Valve. Approved. 162-33-SA V. 20 No. 22
Elkhart Combination Pressure Reducer and Hose Valve. Approved.

PUMPS—FUEL OIL

Petro-Nokol Industrial Oil Pump	570-32-SA
Quiet May Gerotor Pump	267-32-SA
Quimby Screw Pump, Sizes 2 in., 2½ in., 3 in., 3¼ in., 3½ in., 4 in., 5¼ in., 6 in., 7 in. and 8 in.	1193-21-SA
Range-O-Matic Oil Pump, Model 50 and Suction Model	102-35-SA
Ray Rotary	588-25-SA
Rotary Pressure Pump	1060-25-SA
Rotary Vacuum Pump	513-25-SA
Samson Magnetic Fuel Oil Pump	163-34-SA
S. B. U. Pumps, Models A, B, C and D	410-32-SA
Sundstrand Fuel Unit (Pump), Models 7-OB, 77-OB, 90B-1, 90B-2, S-1 and S-2	199-36-SA
Tate-Jones	492-21-SA
Teesdale Automatic Booster Fuel Oil Pump	1279-25-SA
Teesdale Oil Pump, Types S, 2S and 4S	281-38-SA
Tuthill Model B Fuel Oil Pump	60-28-SA
Tuthill Fuel Oil Pump, Models L, LD and 30-LE Fuelstat	568-30-SA
Union Steam Pump for Fuel Oil	705-30-SA
Viking	438-21-SA
Warren Oil Pump	1169-23-SA
Wayne Oil Pump & Fan Set	1155-25-SA
Webster Fuel Oil Pump, Types A, Q and T	23-34-SA
Worthington Duplex Double-Acting Steam Pump	184-22-SA
Worthington Show Model Duplex	194-22-SA
Yale and Towne Tri-Rotor Pump	191-39-SA

PUMPS AND ACCESSORIES FOR GASOLINE & FUEL OILS

S. F. BOWSER AND COMPANY, INC.
974-39-SA V. 24 No. 46 P. 1651

Bowser "Reel Way" Gasoline Pump with Hose Reel Attachment. Approved.

DAYTON PUMP AND MANUFACTURING COMPANY.
1022-38-SA V. 24 No. 12 P. 432

Rapidayton Centrifugal Gasoline Pumping Unit, Model G-6500. Approved.

DETROIT LUBRICATOR CO.
1112-38-SA V. 24 No. 2 P. 47

Clearview Oil Gauge, Model CRC-725. Approved for voluntary installations under the Oil Burner Rules.

ERIE METER SYSTEMS, INCORPORATED.
452-40-SA V. 25 No. 26 P. 944

Erie Non-Computing Pump, Models 77 and 99. Approved.

GILBERT & BARKER MFG. CO.
572-38-SA V. 24 No. 6 P. 208

Gilbarco Calcometer M96, M97 and M98, Gasoline Dispensing Pump. Approved under Section C19-69.0.

B. F. GOODRICH COMPANY.
225-41-SA V. 27 No. 20 P. 569

Goodrich Type B. Flexible Nozzle Tube. Approved for use under Sec. C19-70.0—intended for use with hose nozzle valves of gasoline discharge devices.

L. O. KOVEN & BROTHER, INCORPORATED.
114-42-SM V. 27 No. 40 P. 1015

Koven, N. Y. C. Oil Separator.

MARTIN AND SCHWARTZ, INC.
391-40-SA V. 25 No. 19 P. 660

Martin and Schwartz, Inc. Pneumatic Hose Control No. 12565-M and M-1 for Power Operated Gasoline Pumps. Approved.
779-38-SA V. 26 No. 51 P. 1697

M. & S. Computing Gasoline Pumps, Models 70RA2, 70RPA2-15, 70RA2-25, WMP2-15, and WMP2-25.

NATIONAL PUMPS CORPORATION.
954-38-SA V. 27 No. 39 P. 989

National Pumps Corporation's Gasoline Pumps, Models A-38, B-38, C-38 and CC-38, gasoline dispensing pumps. Approved.

NATIONAL TRANSIT PUMP & MACHINE CO.
175-35-SA V. 21 No. 18 P. 535

National Transit Rotary Pump for Gasoline and Fuel Oil. Approved.

NEPTUNE METER COMPANY.
130-40-SA V. 25 No. 17 P. 592

Neptune Red Seal Computer and non-computer gasoline dispensing pump, Model 855. Approved.

SCOVILLE MANUFACTURING COMPANY.
339-42-SM V. 27 No. 30 P. 839

Scoville Manufacturing Company Rubber Covered Hose Nozzle.

SERVICE STATION EQUIPMENT COMPANY.
746-38-SA V. 26 No. 50 P. 1652

Bennett Pumps for Motor Fuels, Models 541, T542, 543, T544.

SERVICE STATION EQUIPMENT CO.
746-38-SA V. 24 No. 31 P. 1191

Bennett Pumps for Motor Fuels Models 156 and 375. Approved.

SUN OIL COMPANY.
779-38-SA V. 24 No. 5 P. 169

M and S Computing Gasoline Pump, Model 70. Approved.

TOKHEIM OIL TANK AND PUMP COMPANY.
1326-39-SA V. 24 No. 46 P. 1653

Tokheim Model 39-HR Computer Pump with Hose Reel and Tokheim Model 39-DP-HR Clock Dial Pump with Hose Reel. Approved.
1326-29-SA. V. 26 No. 51 P. 1698

Tokheim Motor Fuel Dispensing Pumps, Models 800-S, 800-S-TP, 802-S, and 802-S-TP.

PUTTY AND CAULKING COMPOUNDS

L. SONNEBORN SONS, INCORPORATED.
715-41-SM V. 28 No. 14 P. 283

Stormtight Caulking Compound—approved.

Refer to the resolution for details of approval and limitations of use.

TREMCO MANUFACTURING COMPANY.
154-40-SM V. 26 No. 23 P. 839

Tremglaze Mastic Glazing Compound—Tremco Steel Sash and Casement Putty. Approved under Section C26-178.0b.

RANGE CONNECTORS

COLONIAL STOVE COMPANY.
357-38-SA V. 23 No. 39 P. 1178

Colalloy Kwik Konnector for Gas Stoves. Approved as a connecting device for gas appliances under Sections C26-1330.0 and C26-1331.0.

GRAY-WILSON COMPANY.
68-38-SA V. 25 No. 11 P. 391

Romine Gas Range Connection. Approved for use in New York City.

MARSHALL BRASS COMPANY.
857-38-SA V. 24 No. 6 P. 209

"E-Z" Range Connector. Approved for use in New York City.

V. 26 No. 26 P. 953

"E-Z" Range Connector. Resolution amended to permit copper tubing as well as aluminum tubing.
1206-38-SA V. 24 No. 11 P. 401

"Lo-Lo" Range Connector. Approved for use in New York City.

MORRIS A. ELLIOTT COMPANY.
199-40-SM V. 26 No. 21 P. 778

"Quick-Link" Flexible Gas Range Connector—semi-rigid tube of seamless aluminum. Approved under Sections C26-1330.0 and C26-1331.0.

SUPERSEAL CORPORATION.
625-37-SA V. 23 No. 7 P. 202
V. 26 No. 42 P. 1401

Superseal Gas Connection. Approved for use in New York City.

TYNE COMPANY.
964-39-SM V. 24 No. 46 P. 1655

Tyne Company Semi Rigid Gas Range Connectors. Approved for use in New York City.

RANGE OIL BURNERS AND SPACE HEATERS

(See also Oil Burners for Domestic & Commercial Use)

Name of Burner	*Calendar No.*
A. B. C. Range Burner Assemblies, Models AS-4, AS-6, AD-6, AS-9 and A-3798 Water Heater Assembly	250-34-SA
Aetna Range Oil Burner	29-35-SA
Aetna Water Heater, Models 6, 7, 9, and 47 W.H.T. and 15 and 16 W.H.T	148-37-SA
*Air-O-Flame Space Heater, Models 108 and 810 (pot type)	190-35-SA
* NFC—Not Flue Connected.	
Air-O-Flame Portable Type Cabinet Oil Heaters, Models 103-76200 and 103-76300.	725-39-SA
Air-O-Flame Space Heater, Models 71, 91, 1572 and 1582 (sleeve type)	206-35-SA
Air-O-Flame Range Burner	236-34-SA
American Beauty Heater (Pot Types), Models 1P61, 1P62, 1P91 and 1P92	224-36-SA
Ameroil Oil Burner for Stoves and Ranges	592-32-SA
Biltwell Range Oil Burner, Models B-1 and B-2	196-34-SA
Bland Range Oil Burner	234-34-SA
Blue Glow Range Oil Burners, Models Supreme and DeLuxe	308-34-SA
Brigham Range Oil Burner	217-35-SA
Caloroil Oil-Electric Range Burner	728-39-SA
Caloroil Range Oil Burner	172-34-SA
Carrier Water Heater, Types 60B4 and 60B5	121-35-SA
Champion Range Oil Burner, Models A and B	291-34-SA
Cole Hot Blast Oil Burning Stove, Model No. 912	207-35-SA
Coleman Oil Burning and Space Heater, Models 821A, 822A, 824, 825, 826 and 827	308-36-SA
Diamond Range Oil Burner	325-34-SA
Duo-Therm Circulating Heater, Models 902 and 952	1042-40-SA
Duo-Therm Water Heater, Model 16	1043-40-SA
Easyway Range Oil Burner, Models D27, DC27, G27 and NG27	157-35-SA
Easyway Space Heater, Models CRL19, CRN17, CSP27 and CSP19	158-35-SA
Easyway Water Heater, Models H.W.1 and H.W.2	159-35-SA
Electrol Industrial and Range Oil Burner, Model LF	575-39-SA
Ellington Range Oil Burner, Square Circulating Heater and Round Circulating Heater	351-34-SA
Ellington Range Oil Water Heater, Models M and J	40-35-SA
Estate Oil Heatrola (Oil Burner), Models 821F, 822F, 822FT, 823F, 825FT, 827F, 883F, 884F, 885F, 913F, 913FT, 915F, 917F and 919F	135-39-SA
Estate Speedex Oil Heater, Models 731, 732, 733, 734, 735 and 737	135-39-SA
Evanoil Heater, Circulating Type, Models SF-7, SF-8, DF-10, DF-88, E-7, E-8, E-10 and E-88	1209-39-SA
Evur-Ready Range Oil Burner, Models Leader, Standard and DeLuxe	311-34-SA
Fairfax Range Burner	302-34-SA
*Florence Cabinet Heaters, Models CK-1, CK-2, CJ-1, CJ-21 and C-2	545-39-SA
* Not Flue Connected.	
Florence Oil Heater, Models, KC-9, GC-6, GC-7, GS-27, CH-9, CH-27, CH-28, CH-29, RH-7 and RH-9	62-33-SA
Florence Oil Space Heater, Models PH-28, PH-8, PC-8, PC-28, PR-10, PR-81 and PR-82	172-35-SA
Florence Range Burners	219-34-SA
Fox Range Oil Burner	200-34-SA
Frogil Oil Burning Space Heater, Models 182, 274, 284, 294, 487 and 588	923-38-SA
Gilbert and Barker Oil Space Heaters, Models GB-1315, GB-1015, GB-1011, GB-815 and GB-811	56-37-SA
Hi-Heat Range Burner, Models A and DeLux	323-34-SA
Hoffman Controlled Heat Warm Air Furnace, Models HU-70 and HB-75	507-41-SA
Hupp Range Oil Burner, Models S.D. and C.D.	309-34-SA
Kalamazoo Oil Burning Space Heater, Models F-2, F-3, C-4, R-1 and R-2	263-34-SA
Kalamazoo Range Burner, Models Junior, Lupre and DeLuxe	238-33-SA
Ker-Oil Automatic Water Heater	263-35-SA
Kerogas Bowl Type Space Heater, Models 300-300-A, 303-303-A, 310-310-A, 315-315-A and 320-320-A	266-35-SA
Kerogas Hot Blast Oil Heater, Models 210, 135, 110, 207 and 115	339-34-SA
Kolrid Range Burner	48-34-SA
Kress-Kno Ball Flame Range Burner, Models BFM-10, BFM-13, BFTDR, BEF, BFWDR and BFSE	905-40-SA
Kres-Kno Range Oil Burner, Model MD, Sizes KR, KRF, KRF-1 and 1R	355-34-SA
Lochinvar Automatic Oil Burning Water Heater	143-36-SA

Refer to the resolution for details of approval and limitations of use.

Name of Burner	*Calendar No.*
Lonergan Automatic Hot Water Heater	179-35-SA
Lonergan Oil Burning Heater, Models F-2, F-3, C-4, R-1 and R-2	263-34-SA
Loyalty Range Burner	302-34-SA
Lynn-Range Burner, Models Junior, Lypre and DeLuxe	238-33-SA
M.W. Bake Oven Range Burner, Model 448 and M.W. Core Oven Range Burner, Model 450	367-34-SA
M.W. Circulating and Radiant Heaters, Models 501, 601, 701, 801, 406, 407, 506, 507, 611, 612, 614, 711, 712, 714, 807, 575.2, 675.2, 715.2 and 815.2	366-34-SA
M.W. Oil Burning Range, Commercial Models 152 and 251 and Domestic Models 101-G, 165 and 175	364-34-SA
Majestic Range Oil Burner, Models 27B and 27T	180-35-SA
Majestic Space Heater, Models 247T and 248	181-35-SA
Majestic Water Heater, Models 255A and 255B	182-35-SA
Matchless Self-Lighting Range Oil Burner	410-37-SA
Modern Range Oil Burner, Models Regular, Junior and Firenew	357-34-SA
Monogram Oil Fire (Circulating) Heaters, Models E30, G30, H30, K30, L30, R30, S30, 38A130, 38B130, 37C130, 38B240, 37C240, 38B340, 37C340, E50, G50, H50, K50, L50, R50, S50, 38A150, 38B150, 37C150, 38B250, 38B350 and 37C350	153-44-SA
National Range Oil Burner	361-34-SA
Nesco Circulating Heater, Models 041, 41, 042 and 42	264-36-SA
No-Wyck-Koaless Range and Stove Oil Burner	251-34-SA
Norge Space Heater, Models 75, 50, 37 and 37-R	366-34-SA
Octo Range Oil Burner	410-37-SA
Odin Beauty (Space Heater), Models 61, 62, 91 and 92	233-35-SA
Odin Beauty Heater (Pot Types), Models 1P61, 1P62, 1P91 and 1P92	224-36-SA
Orlando Range Oil Burner, Models VJ-275, VJ-195 and VO-275	329-34-SA
Plymouth Oil Burning Space Heater, Models 18, 20, 28 and 30	923-38-SA
Preway Circulating and Radiating Type Oil Burning Space Heater, Models 906P, 907P, 300P, 918P, 920P, 930P and 933P	493-38-SA
Putnam Range Oil Burner	54-35-SA
Quaker Burnoil Stove	11-31-SA
Quick Meal Range Burner	304-34-SA
Quick Meal Space Heater, Models 5672-0, 5671-13, 5671-33 and 5671-35	306-34-SA
Quick Meal Water Heater, No. 5681-0	305-34-SA
Ray-Dio Sunshine Range Oil Burner, Models A, Daisy and Water Heater	32-31-SA
Rex Range Burner, Models 27B and 27T	165-35-SA
Rex Space Heater, Models 247T and 248	166-35-SA
Rex Water Heater, Models 255A and 255B	167-35-SA
Sachem Oil Space Heater, Models GB-811, GB-815, GB-1011, GB-1015 and GB-1315.	56-37-SA
Samco Oil Space Heater, Models 1108 and 1110	73-37-SA
Sears-Roebuck Oil Burning Water Heater, Hercules Model No. 2544	303-36-SA
Serv-Well Range Oil Burner, Models 27B and 27T	165-35-SA
Serv-Well Space Heater, Models 247T and 248	166-35-SA
Serv-Well Water Heater, Models 255A and 255B	167-35-SA
Silent Glow Oil-Electric Range Burner	728-39-SA
Silent Glow Range Oil Burner	172-34-SA
Silent Glow Si-Glo-Lo Oil Space Heater, Models 15, 35, 60 and 80	24-37-SA
Silent Heet Oil Burner for Ranges and Stoves	592-32-SA
Smith-Whaley Range Oil Burner, Models SW-1 and SW-2	196-34-SA
Speedy Hot Oil Space Heater, Models GB-811, GB-815, GB-1011, GB-1015 and GB-1315	56-37-SA
Superfex Oil Burning Heater, Models 1031, 1032, 1035, 1036, 1107, 1108, 1109, 1110, 1117, 1118, 1119, 1120, 1221, 1231, 1201, 1232, 1222, 1202, 1235, 1247, 1205, 1309, 1305, 1306, 1310, 1317, 1318, 1319 and 1320 and Superfex Heat Projector, Models 1051, 1052, 1053 and 1054	491-31-SA
Toridheet Range Water Heater, Models 222, 232 and 242	65-35-SA
Tower Range Oil Burner	126-33-SA
Vap-R-Oil Oil Burner for Ranges and Stoves	592-32-SA
Victor Circulating Fuel Oil Heater, Models VCH-27, VCH-19 and VCH-17	243-36-SA
Victor Range Oil Burner, Models VJ-275, VJ-195 and VO-275	329-34-SA
Viking Pot Type Space Heater, Models 120, 165 and 170	310-35-SA
Viking Range Oil Burner and Range Oil Burning Heater, Models 20, 30, 60, 65, 70 and 80	333-34-SA
Viking Range Water Heater, Models 222, 232 and 242	65-35-SA
Vitro-Heet Range Oil Burner, Models MD, sizes KR, KRF, KRF-1 and 1-R	355-34-SA
Washington Oil Burning Space Heater, Models 3712, 3724, 3736, 3747 and 3758	923-38-SA

ROOFING AND SIDING MATERIALS
(See also Floor and Roof Construction)

BARBER ASPHALT CORPORATION.

870-38-SM V. 24 No. 44 P. 1577

Barber Built-Up Roofs and Asphalt Shingles. Approved under Section C26-608.0.

BARRETT COMPANY.

777-38-SM V. 23 No. 39 P. 1181

Barrett Mineral Surfaced Roofing (for general roof covering). Approved under Article 11, Group 16 and Section C26-680.0.

778-38-SM V. 23 No. 39 P. 1182

Barrett Specification Tarred Felt and Pitch Built-Up Roofing. Approved under Article 11, Group 16.

827-38-SM V. 23 No. 41 P. 1257
V. 24 No. 10 P. 361

Barrett Roofings. Approved under Section C26-680.0.

BIRD & SONS, INC.

341-38-SM V. 23 No. 30 P. 1012

Bird Roofing Materials, Paroid and Neponsit Brands. Approved under Article 11, Group 16 and Section C26-680.0.

V. 24 No. 6 P. 209

Bird Custom-Built. Approved as above.

V. 24 No. 13 P. 472

Flat Shingles of Square Butt Type. Approved as above.

V. 24 No. 24 P. 909

Bird Roofing Materials and Accessories. Approved as above.

876-38-SM V. 24 No. 2 P. 48

Bird Asphalt Siding. Approved under Sections C26-191.0 and C26-248.0—limited to frame construction outside the fire limits and to legal replacements within the fire limits.

V. 24 No. 24 P. 911

Bird Asphalt Siding Accessory Materials. Approved as above.

243-43-SM V. 28 No. 49 P. 1061

Refer to the resolution for details of approval and limitations of use.

Bird Insulating Fibre Board. (Roof Insulation). Approved under Insulating Fibre Board Rules of The Board of Standards and Appeals.
681-42-SM V. 27 No. 52 P. 1287

Bird Insulated Siding, Bric Design, ½ in. fibre board, surface-saturated with hard asphalt, bitumastic coating, colored mineral granules of igneous rock. Approved.

CELOTEX CORPORATION.
1205-38-SM V. 24 No. 8 P. 294

Celotex Roofing Materials. Approved under Sections C26-680.0 and under Article 11, Group 16.

CERTAIN-TEED PRODUCTS CORP.
42-39-SM V. 24 No. 10 P. 362

Certain-Teed and Vulcanite Brands Asphalt Roofing Materials and Asphalt Shingles. Approved under Article 11, Group 16, and Section C26-680.0.

CLEMENT HALLOWS COMPANY.
716-38-SM V. 23 No. 46 P. 1397

Alumintop Nos. 5 and 6 (Reroofing). Approved.

COOPER COMPANY.
1081-38-SM V. 24 No. 26 P. 989

Cooper Asphalt Shingles and Roofing Materials. Approved under Section C26-680.0 and Article 11, Group 16.

FLINTKOTE COMPANY.
145-39-SM V. 24 No. 17 P. 623

Flintkote Company Asbestos and Asphalt Siding Shingles. Approved under Section C26-191.0—use limited to frame construction outside fire limits and replacement within the fire limits under Section C26-248.0.
V. 26 No. 6 P. 258

Flintkote Insulated Brick Siding.
Flintkote Embossed Brick Strip Siding.
Approved for use limited to frame construction outside the fire limits as provided in Section C26-248.0.
415-38-SM V. 23 No. 30 P. 996
V. 24 No. 17 P. 619

Flintkote Roofing Materials. Approved under Article 11, Group 16, and Section C26-680.0.
V. 27 No. 21 P. 591
V. 27 No. 25 P. 699
V. 27 No. 43 P. 1077

Flintkote, 2 and 3-ply Asphalt Felt, slag or gravel surface re-roofing and Flintkote, 3 and 4-ply asphalt felt, slag or gravel re-roofing and mineral surface shingle. Approved.

FORD ROOFING PRODUCTS COMPANY.
573-39-SM V. 24 No. 31 P. 1209

Ford Asphalt Built-Up Roofing, Asphalt Shingles and Allied Products. Approved under Section C26-680.0 and Article 11, Group 16.

INSUL-MASTIC LABORATORIES, INC. and McGREW PAINT AND ASPHALT COMPANY.
395-40-SM V. 25 No. 31 P. 1155

Insul-Mastic (re-roofing and re-surfacing materials). Approved under Section C26-680.0 and Article 11, Group 16.

JOHNS-MANVILLE SALES CORPORATION.
163-38-SM V. 23 No. 26 P. 835

Asphalt Saturated Asbestos Roofing Felt. Approved under Section C26-680.0.
96-38-SM V. 23 No. 17 P. 678

Johns-Manville Corrugated Transite. Approved for use as roofing and siding under Sections C26-347.0 and C26-351.0.

JONES AND BROWN, INCORPORATED.
170-42-SM V. 27 No. 29 P. 802

Inselbric—½" fibre board base, saturated both sides and coated on the exterior surface with asphalt mastic. Approved for use limited to frame construction outside the fire limits.

KEASBEY & MATTISON COMPANY.
278-39-SM V. 28 No. 7 P. 155

Keasbey & Mattison Company Asbestos-Cemented Corrugated Roofing and Siding. Approved under Sec. C26-347.0 as a roofing material, under Sec. C26-351.0 as a siding material.
650-40-SM V. 28 No. 4 P. 80

K & M Century Asbestos—Cement shingles—laminated and homogeneous methods of manufacture. Approved for use under Section C26-540.0.

KEYSTONE ROOFING MANUFACTURING COMPANY.
410-39-SM V. 25 No. 31 P. 1140

Keystone Roofing Manufacturing Company Roofing Materials. Approved under Section C26-680.0 and Article 11, Group 16.

KOPPERS COMPANY.
670-38-SM V. 24 No. 4 P. 129

Koppers Built-Up Roofing. Approved.

LLOYD A. FRY ROOFING COMPANY.
352-39-SM V. 24 No. 21 P. 774

Lloyd A. Fry Roofing Company Roofing Materials. Approved under Section C26-680.0 and Article 11, Group 16.

LOGAN-LONG COMPANY.
947-38-SM V. 23 No. 47

Logan-Long Built-Up Roofing and Asphalt Shingles. Approved under Section C26-680.0 and Article 11, Group 16. These materials may be marketed under the following names:

Tru-Test	Tru-Test Corp.
Jim Brown	Brown Fence & Wire Co.
Doyle	Doyle Hdwe. Co.
Ajax	Stelwagon Mfg. Co.

M. J. MERKIN PAINT COMPANY INCORPORATED.
997-38-SM V. 24 No. 20 P. 744

Perfectseal Roof Coating and Roof Cement. Approved for use as a repair coating for old roofs and as a cement in the laying of new roofs—Section C26-680.0.

Refer to the resolution for details of approval and limitations of use.

THE PHILIP CAREY COMPANY.
62-39-SM V. 27 No. 14 P. 373

The Philip Carey Company Built Up Roofing—May be applied to either combustile or non-combustible decks.

RUBEROID COMPANY.
733-38-SH V. 23 No. 48 P. 1503
V. 25 No. 3 P. 75

Ruberoid Built-Up Roofings—Asphalt Shingles—Asbestos Shingles—Corrugated Asbestos Roofing. Approved under Article 11, Group 16, and Section C26-680.0.
1032-38-SM V. 23 No. 50 P. 1584

Ruberoid Eternit Corrugated Asbestos. Approved under Sections C26-347.0, C26-351.0, C26-605.0, C26-626.0.

SHINGLE-GIBBS COMPANY.
447-39-SM V. 24 No. 22 P. 836

S-G Fibrated Coating No. 110 (for roofing). Approved.
448-39-SM V. 24 No. 22 P. 837

S-G Structural Waterproofing No. 170 (for roofing). Approved.

STANDARD OIL CO. OF N. J.
1229-38-SM V. 24 No. 43 P. 1535

Ennjay 160/180 Melting Point Asphalt for flat roofs.
Ennjay 180/200 Melting Point Asphalt for steep roofs.
Ennjay slate filled Asphalt for use in roofing materials.
Approved under Sections C26-605.0 to C26-609.0.

TEXAS COMPANY.
133-39-SM V. 24 No. 23 P. 869

Texas Company Roofing Materials. Approved.

TILO ROOFING COMPANY.
1152-38-SM V. 26 No. 52 P. 1725

Tilo Roofing. Approved as fire-resistive material under Sec. C26-680.

UNITED STATES GYPSUM COMPANY.
440-39-SM V. 24 No. 23

U. S. G. Asphalt and Asbestos Cement Roofing Materials (also marketed under the name "Samson"). Approved under Article 11, Group 16, and Section C26-680.0.

ROOFLIGHTS, SKYLIGHTS, SIDEWALK LIGHTS (See also Ventilators)

AMERICAN BAR LOCKS CO., INC.
1371-39-SM V. 25 No. 4 P. 113

Alglas Wire glass floor and Roof Construction—wire glass plates set in a steel frame grid—approved under Sec. C26-515.0.
1372-39-SM V. 25 No. 4 P. 114

Alglas Vaculite Floor & Roof Construction—approved under Section C26-626.0.

AMERICAN 3 WAY LUXFER PRISM CO., INC.
531-38-SM V. 24 No. 31 P. 1202

Clad-Crete Rooflights. Approved under Section C26-191.0.
532-38-SM V. 24 No. 31 P. 1202

Thermag Rooflights. Approved under Section C26-191.0.
534-38-SM V. 24 No. 31 P. 1203

3-Way Armored Sidewalk Lights. Approved under Section C26-191.0.

MARCO COMPANY.
260-38-SA V. 23 No. 18 P. 571

Marco Automatic Stage Ventilator or Skylight. Approved under Sections C26-720.0, C7 and C26-724.03.

PENNSYLVANIA WIRE GLASS CO.
355-38-SM V. 23 No. 45 P. 1394

Pennsylvania Original Solid Corrugated Wire Glass—wire netting embedded in corrugated sheet glass—approved fire use as a skylight—maximum width 27¾"—maximum span 48" under Sections C26-347.0, C26-676.0.

SCAFFOLDS

EDWARD B. BRITTIN.
898-38-SA V. 24 No. 15 P. 548

Brittin Bracket (for Scaffold work). Approved under Section C26-191.0 (2.2.3).

MAX MICHELSON.
359-38-SA V. 23 No. 51 P. 1623

Michelson Scaffold. Approved under Section 240 Labor Law, Sections C26-191.0 and C26-556.

SCREENS (Safety Window)

CARL E. TRULOCK.
1114-40-SM V. 25 No. 50 P. 1666

Trulock Safety Screen (Combination Detention and Insect Screen). Approved for permissive use under Section C26-178.0, b.

CHAMBERLIN METAL WEATHER STRIP COMPANY.
273-41-SM V. 28 No. 6 P. 134

Chamberlin Safety Detention Screen. Approved for voluntary use.

SHEATHING (See also Fibre Board and Gypsum Wallboard)

BIRD AND SON, INC.
243-43-SM V. 28 No. 49 P. 1061

Bird Insulating Fibre Board. Approved under Insulating Fibre Board Rules of Board of Standards and Appeals.

UNITED STATES GYPSUM COMPANY.
620-39-SM V. 26 No. 17 P. 605

U. S. Gypsum Sheathing—Samson Gypsum Sheathing. Approved under Sections C26-538.0c and C26-242.0.

SIAMESE FIRELINE CONNECTIONS

W. D. ALLEN MFG. CO.
472-42-SA V. 28 No. 45 P. 941

Allen's Iron Body Siamese, 4, 5 and 6 inch for Fire Dept. use. Approved under C26-191.0 for use under C26-1340, C26-1383.0 and Standpipe and Sprinkler Rules of Board of Standards and Appeals.
1162-27-SA V. 17 No. 12 P. 377

Allen's Recessed Fire Dept. Standpipe and Sprinkler Siamese Connection. Approved.
156-34-SA V. 22 No. 30 P. 948

Allen's Siamese Connections for Fire Dept. use. Approved.

Refer to the resolution for details of approval and limitations of use.

ANSONIA FIRE PREVENTION CO., INC.
98-33-SA V. 23 No. 28 P. 902

Elkhart Siamese House Connection for Standpipe and Sprinkler System 3" x 3" x 6" Flush Type of Straightway and 90° patterns. Approved.

M. H. ATERITE COMPANY.
664-20-S V. 6 No. 1

Aterite Siamese Connection. Approved.

CROKER FIRE PREVENTION CORP.
209-32-SA V. 20 No. 20 P. 588

Croker 4", 5", 6" Siamese for Standpipe and Sprinkler Systems. Approved.
764-39-SA V. 25 No. 3

Croker Flush Type Siamese. Approved.

ELKHART BRASS MFG. CO.
337-22-S V. 11 No. 18

Elkhart Brass Co. Siamese Connection. Approved.

NEW YORK BRASS FOUNDRY CO., INC.
11-35-SA V. 23 No. 11 P. 335

Four inch, 5" and 6" Standpipe and Automatic Sprinkler and Siamese Connection. Approval expired 3/8/40.

SPRAY GUN FOR METALS

METALLIZING ENGINEERING CO., INC.
688-39-SA V. 26 No. 12 P. 446

Metco Metallizing Gun, Type E—for spraying molten metals. Approved under C-19-93.0.
443-41-SA V. 27 No. 51 P. 1260
V. 27 No. 52 P. 1286

Mogul Metal Spray Gun. Approved for use under Sec. C19-93.0.

SCHORI PROCESS CORPORATION.
567-38-SA V. 24 No. 18 P. 660

Schori Pistol for Spraying Powdered Metals, Zinc, Copper, Lead, etc. Approved.

SPRAYING EQUIPMENT—PAINT, VARNISH & LACQUER

Name	*Calendar No.*
Automatic Paint Sprayer	477-37-SA
Binks Circulating System for Paint Spraying.	851-39-SA
Binks-Hu-Ro-Thor-Hurley Spray Equipment.	338-32-SA

Paasche Water Wash Airfinishing Booth, Standard and DeLuxe Models (Spray Booth)	650-44-SA
Sharpe Spray Guns, Models B-21, C-21, RA-21, RC-21, GA-37, GC-37, Bear-Cat, K, KF, KO, L, M-2, M-4, FA-36 and FC-36	604-38-SA
Spraco Spray Painting Equipment	479-32-SA
Western Electric Co., Inc., Paint Spray Booths, Models RS-13161 and RS-13162 (Water Impingement Type)	404-44-SA

SPRINKLER VALVES—DRY PIPE

HODGMAN MANUFACTURING CO.
141-41-SA V. 26 No. 18 P. 641

Hodgman Air Check Valve, 3" Model C. Approved.

STANDPIPE FIRELINE DELUGE VALVES

AMERICAN FIRE PREVENTION BUREAU, INC.
781-42-SA V. 27 No. 50 P. 1240

Derby Type B Electrically Operated Remote Control Valve for Standpipe and Sprinkler System. Approved under Articles 16 and 17.

AUTOMATIC SPRINKLER COMPANY OF AMERICA. 297-23-SA V. 24 No. 4 P. 127

Remote Control Deluge Valve for Standpipe Systems.

STANDPIPE FIRELINE GATE VALVES—REMOTE CONTROL

CONRAN STANDPIPE CO., INC.
359-30-SA V. 22 No. 10 P. 291
V. 26 No. 42 P. 1401

Conran Hydraulic Emergency Control Valve for Fire Line.

KENNEDY VALVE MANUFACTURING CO.
34-40-SA V. 25 No. 40 P. 1334

Kennedy Motorized O.S. and Y. Fireline Valve—approved under Sections C26-1383.0 and C26-1396.0.

STANDPIPE SYSTEM

CONRAN STANDPIPE CO., INC.
293-37-SA V. 24 No. 46 P. 1648

Conran System of Standpipes.

STUCCO (Prepared)

U. S. GYPSUM COMPANY.
482-39-SM V. 28 No. 27 P. 581

Oriental Exterior Stucco and Samson Exterior Stucco. Approved under Section C26-178.0b.

TANK PROTECTION
(Cover for Underground Tanks)

FINK-DUMONT-WHITE, INC.
484-26-SA V. 16 No. 31 P. 874

Protectoseal Cover for Underground Tanks. Approved.

TERRAZZO STRIPPING

CENTRAL COMMERCIAL COMPANY.
366-41-SM V. 26 No. 52 P. 1730

Vogeliner Plastic Dividing Strip for Terrazzo. Approved.

MANHATTAN TERRAZZ0 BRASS STRIP CO.
52-40-SM V. 25 No. 51 P. 1696

Manhattan Dividing Strips—Brass, White Alloy Zinc, and Nickel Silver Strips for floor and wall base. Approved under Sec. C26-178.0,b.

TRAPS

BRADLEY WASHFOUNTAIN COMPANY.
577-38-SA Vol. 24 No. 15 P. 548

BNY Bradley Trap—approved under Section C26-1224.0.

G. WALTON BUSCH AND SONS, INCORPORATED.
911-42-SM V. 28 No. 9 P. 196

Busch "Codepruf" Grease Trap. Approved for use under Sec. C26-1260.

Refer to the resolution for details of approval and limitations of use.

GEORGE M. CALL.
1166-40-SM V. 26 No. 18 P. 655

G. M. CALL Interceptor-Non-Stoppage Waste Trap. Approved under Section C-26-1260.0.

CHASE BRASS & COPPER CO., INC.
254-36-SA V. 21 No. 22 P. 621

Chase Brass & Copper Co., Inc. 1½-inch New York Regulation Lavatory Trap. Approved under Section 99 of the Rules for Plumbing and Drainage.

CRANE COMPANY.
142-39-SA V. 24 No. 10 P. 359

Russell Vitreous China Lavatory with Integral Trap. Approved under Sections C26-1240.0 and C26-1256.0.

CODY BRASS WORKS, INC.
1352-18-S V. 4 No. 14 P. 228

Geco Anti-Siphon Trap. Approved under Rule 99, Rules for Plumbing and Drainage.

JOSAM MANUFACTURING COMPANY.
165-38-SA V. 23 No. 30 P. 993

Josam Plaster Interceptor. Approved under Section C26-1260.0.
166-38-SA V. 23 No. 30 P. 993

Josam Grease Interceptor. Approved under Section C26-1260.0.
243-35-SA V. 21 No. 7 P. 179

Josam-Marsh Hair Interceptor. Approved under the Rules for Plumbing and Drainage.
427-38-SA V. 24 No. 7 P. 240
V. 25 No. 46 P. 1536

Josam Oil Interceptor, Models B64, B65, B66 and B85. Approved.

M. S. LITTLE MANUFACTURING COMPANY.
1080-38-SA V. 24 No. 15 P. 549

N. Y. Code Duo Trap for Continuous Sink and Tray Wastes. Approved under Art. 15, Subarticle 5.

NORMAN BOOSEY MANUFACTURING COMPANY.
886-41-SM V. 26 No. 52 P. 1732

Boosey No. 2021 Fixed Air Gap.
An indirect waste with an air gap to prevent siphonic action. Approved in sizes ¾" to 4" under Sec. C26-1277.0,b.
933-41-SM V. 26 No. 52 P. 1734

Boosey Air-Away Grease Interceptors, Series Nos. 1507, 1508 and 1509. Approved.

J. A. ZURN MANUFACTURING COMPANY.
86-40-SM V. 25 No. 10 P. 352

Zurn Greaseptor, Z-1170, Z-1171. Approved for use as a grease trap under Section C26-1260.0.

TUBING—(METAL) FOR OIL BURNER INSTALLATION

AMERICAN BRASS COMPANY.
519-40-SM V. 25 No. 44 P. 1474

American Brass Company Copper Water Tubing, Type K (for oil burner lines) made from seamless drawn copper. Approved for use in oil burner installations.

CHASE BRASS AND COPPER CO., INC.
357-37-SM V. 25 No. 22 P. 771

Chase Brass and Copper Co. Oil Burner Tubing. Approved for use as copper tubing in oil burner lines.

REVERE COPPER AND BRASS, INC.
305-36-SM V. 23 No. 24 P. 772

Revere Copper Oil Burner Tubing. Approved for use as copper tubing in oil burner lines.

VACUUM BREAKERS
(See Anti-Siphon Devices)

VACUUM STILL

DE LAVAL SEPARATOR COMPANY.
936-38-SA V. 24 No. 3 P. 85

DeLaval Vacuum Still. Approved for use at limited locations.

VALVES (Shower)

HAMILTON MANUFACTURING COMPANY.
440-40-SM V. 26 No. 28 P. 1037

Hamilton Thermostatic Shower Mixing Valve, Series No. 2000, 3000, and 4000. Thermal unit to close hot water port in case of failure of cold water supply. Approved under Section C26-178.0,b.

VENEERS, EXTERIOR

SAYRE AND FISHER BRICK CO.
301-38-SM V. 23 No. 21 P. 679

S. & F. Colonial Veneer Brick—made of burnt red clay, 8¼" x 2½" x 3". Approved for use in veneered walls of frame constructed buildings under Section C26-437.0.

WATSONTOWN BRICK CO.
57-39-SM V. 24 No. 11 P. 403

Watsontown Persian 2" Veneer Brick—red matt texture shale burned clay, 2¼" x 2" x 8". Approved for use in veneered walls in frame constructed houses under Section C26-437.0.

METAL-LITHIC PRODUCTS COMPANY.
365-38-SM V. 23 No. 30 P. 996

Metal-Lithic Porcelain Building Veneering Unit, 16 to 20 gauge Porcelain enameled steel backed with 1" of concrete. Approved for use under Sections C26-437.0, C26-437.2 and C26-438.0.

VENTILATORS
(See also Rooflights, etc.)

CARRIER CORPORATION.
339-39-SA V. 24 No. 16 P. 582

Carrier Room Ventilator. Approved under Section C26-191.0.

CENTURY FAN AND VENTILATOR COMPANY.
878-39-SM V. 24 No. 47 P. 1691

Century Spring Register with Fusible Link Attachment. Approved under Section C26-191.0.

EMPIRE FAN AND VENTILATING EQUIPMENT COMPANY.
1056-38-SA V. 24 No. 10 P. 358

Empire Spring Register. Approved under Section C26-191.0.
498-39-SM V. 24 No. 43 P. 1536

Empire Turbine Ventilator. Approved.
499-39-SM V. 24 No. 43 P. 1537

Refer to the resolution for details of approval and limitations of use.

Empire Syphon Ventilator. Approved.
1077-38-SA V. 24 No. 10 P. 359

Empire Wall and Empire Ceiling Gravity Registers. Approved under Section C26-191.0.

BENJAMIN LOW.
213-38-SA V. 23 No. 17 P. 545

"Low" Wind-operated Stationary Single and Dual Suction Type Ventilator. Approved for use under Sections 200 and 250, Multiple Dwelling Law.

PHOENIX VENTILATOR COMPANY.
998-38-SA V. 23 No. 52 P. 1659

Phoenix Duo-Cone Syphon Ventilator. Approved under Section C26-262.0 and Section 200 of Multiple Dwelling Law.

747-38-SA V. 23 No. 51 P. 1583

Phoenix Wind-Driven Turbine Ventilator. Approved under Section C26-262.0 and Section 200, Multiple Dwelling Law.

PUREXHAUST CORPORATION.
675-38-SA V. 23 No. 42 P. 1286

Purexhaust (Fume, smoke and carbon monoxide eliminator). Approved for use with internal combustion engines under Section C26-165.

SUPERIOR SKYLIGHT COMPANY, INCORPORATED.
501-40-SM V. 25 No. 25 P. 907

Invisible Gravity Ventilator. Approved under Sections C26-720.0 and C26-724.0.

VENTILATION ACCESSORIES

BENJAMIN RIESNER, INC.
1358-39-SM V. 29 No. 3 P. 39

Benjamin Riesner Ventilating Brick, Types C and D—metal ventilating brick for masonry walls in garages. Approved for use under C26-267.0b.

WALL COVERING (See also Fibre Board, Gypsum Wallboard and Veneers)

BIRD AND SON, INCORPORATED.
976-41-SM V. 27 No. 18 P. 516

Bird Armowall-Flexible Wall Covering .051 in. thick-enamel on an asphalt saturated backing felt.
Monaconsec-Flexible Wall Finishing Sheet—.065 in. thick. Approved for use in Class 3 and 4 construction.

FORMICA INSULATION COMPANY.
993-40-SM V. 26 No. 21 P. 783

1/16-inch Formica (decorator sheets for wall covering) 50% heat reaction synthetic resin and 50% cellulose. Approved for use under Section C26-667.0, 7b.
993-40-SM V. 28 No. 5 P. 109
Formica, 1/16 in. decorator sheets for wall covering. Approval rescinded.

WATER COOLERS

CARRIER CORPORATION.
488-39-SA V. 24 No. 28 P. 1065

Carrier Water Cooler. Approved.

WATER TANK LEVEL INDICATOR

ACME FIRE ALARM CO., INC.
839-39-SA V. 24 No. 52 P. 1848

Acme Type P. S. High and Low Water Level Indicating Device for Pressure Tank. Approved for use on sprinkler and standpipe pressure tanks under Sections C26-1366.0 and C26-1419.

WATERPROOFING METHODS FOR CONCRETE AND MASONRY WALLS (See also Paints)

AMERICAN BRASS COMPANY.
508-38-SM V. 23 No. 30 P. 1002

Walsh Waterproofing Method A—a sheet copper waterproofing membrane backed up with sisalkraft building paper, with an asphalt binder fastening. Approved for use in masonry construction with lime free Portland cement mortar, under Article 9, Subarticle 4 of the Administrative Building Code.
V. 23 No. 45 P. 1394

Walsh Waterproofing Method B. Approved as above.

ANTI-HYDRO WATERPROOFING CO.
179-39-SM V. 28 No. 21 P. 451

Anti-Hydro Integral Waterproofing Compound. Waterproofing material. Approved under Section C26-191.0.

BRISK WATERPROOFING COMPANY, INC.
1243-39-SM V. 26 No. 49 P. 1626

Larson Waterproofing Units—Waterproofing Membrane of Asphalt-Impregnated Felt. Approved as a method of construction under C26-178.0b.

DUSING AND HUNT, INC.
1002-39-SM V. 27 No. 49 P. 1214

Perfection Joint Cover—for protection of Horizontal Stone Joints—made of 12 oz. lead coated copper. Approved.

WATER TREATMENT EQUIPMENT

WATER SERVICE LABORATORIES, INC.
470-43-SA V. 29 No. 31 P. 709

Chemistat (proportioning feed for treating water with sodium silicate)—Approved under C26-178.0b and Sec. 170 of the Sanitary Code.

WATER TREATMENT CORPORATION.
597-43-SM V. 29 No. 30 P. 678

Water Treatment Corporation's Automatic Proportionate Feeding Device (for chemical treatment of water supply using Sodium Silicate). Approved under C26-178.0b, Administrative Building Code and Sec. 170 of the Sanitary Code.

WEARING SURFACE (See also Floor Coverings)

BUILDERS SPECIALTY COMPANY.
60-39-SM V. 24 No. 26 P. 998

Permaflex—flexible concrete for resurfacing and patching floors—approved as a flooring material and as a waterproofing material under Sections 76 and 200 of Multiple Dwelling Law.

Refer to the resolution for details of approval and limitations of use.

CELOTEX CORPORATION.
1205-38-SM V. 26 No. 38 P. 1296

"Mil-Flor"—bagasse fibre saturated with an asphaltic compound, in sheets 24 in. by 48 in. by ½ in. thick to be cemented to the under floor. Approved as a wearing surface under Section C26-667.0, 4c.

WELDING—RODS AND EQUIPMENT

AIR REDUCTION SALES COMPANY.
437-38-SM V. 23 No. 30 P. 1000

Airco Welding Electrodes. Approved.
V. 24 No. 22 P. 827

Airco No. 79 may be marketed under Wilson No. 98V&O.
541-39-SA V. 25 No. 12 P. 424

Airco Type "A" Portable Acetylene Generators. Approved as an appliance.
603-42-SA V. 27 No. 45 P. 1122

Airco Stationary Acetylene Generator, 300 lb. and 500 lb. capacities. Approved.

AMERICAN CHAIN & CABLE CO.
248-38-SM V. 23 No. 18 P. 573

Page Hi-Tensile Electrodes. Approved under Rule 7. Subdivision 2 of the Welding Rules.

BASTIAN BLESSING COMPANY.
316-40-SA V. 26 No. 9 P. 351

Rego Oxy-Acetylene Welding and Cutting Equipment. Approved.

GENERAL ELECTRIC COMPANY.
174-41-SA V. 26 No. 51 P. 1699

General Electric Silver Braising Torch No. P-5163606. Approved.

HARNISCHFEGER CORPORATION.
544-38-SM V. 23 No. 30 P. 1014

Smootharc Electrodes. Approved under Rule 7, Subdivision 2 of the Fusion Welding Rules.

HOKE, INC.
450-43-SA V. 29 No. 6 P. 96

Hoke Jewel Torch—Approved for use with illuminating gas and oxygen—for brazing and soldering under Section C19-93.0.

LINCOLN ELECTRIC COMPANY.
486-38-SM V. 23 No. 30 P. 1001

Lincoln Fleetweld Welding Electrodes. Approved.

LINDE AIR PRODUCTS COMPANY.
884-38-SA V. 23 No. 48 P. 1501

Acetylene Generator "Carbic Type CMP2" for Welding. Approved as an Appliance.

LINDE AIR PRODUCTS COMPANY.
91-40-SM V. 25 No. 9 P. 311

Oxweld W29 Welding Blowpipe.
Purox No. 23 Welding Blowpipe.
Purox No. CA33 Cutting Attachment.
Purox No. 34 Welding Blowpipe.
Purox No. CA-34 Cutting Attachment.
Prest-O-Weld C108 Cutting Blowpipe.
Prest-O-Weld W108 Welding Blowpipe.
Prest-O-Weld CW108 Cutting Attachment.
Prest-O-Weld W109 Welding Blowpipe.
Prest-O-Weld CW109 Cutting Attachment.
Oxweld MP-5 Acetylene Generator—Stationary.
Oxweld MP-7 Acetylene Generator—Portable or Stationary.
Oxweld MP-9 Portable Acetylene Generator.
Approved as appliances.
91-40-SA V. 26 No. 52 P. 1723
V. 27 No. 18 P. 513

Oxweld C52, C53, C54 and W37 Machine Cutting Blowpipe, Oxweld W26-M Blowpipe, Oxweld CW-29 Cutting Attachment; Prest-O-Weld C-111 Cutting Blowpipe, Prest-O-Weld W-110 Welding Blowpipe and CM-110 Cutting Attachment; Prest-O-Weld W-111 Blowpipe and CW-111 Cutting Attachment and Oxweld MP-10 Portable Acetylene Generator. Approved.

METAL AND THERMIT CORPORATION.
798-38-SM V. 24 No. 8 P. 293

Murex Vertex and Murex Fillex Welding Electrodes. Approved.

SMITH WELDING EQUIPMENT CORPORATION.
221-42-SA V. 27 No. 44 P. 1098

Smith's Type D and Type J Portable Acetylene Generators, K815, K830, K850, K1515, K1530 and K1550. Approved.
222-42-SA V. 27 No. 44 P. 1100

Smith's Type L Stationary Acetylene Generators, K2100, K220, K2300 and K2500.

REID-AVERY COMPANY.
645-39-SM V. 25 No. 27 P. 983

Raco Welding Electrodes. Approved under Rule 7, subdivision 2 of the Fusion Welding Rules.

UNA WELDING, INC.
1134-38-SM V. 24 No. 9 P. 328

Una 3100 Welding Electrode. Approved.

WILSON WELDER AND METALS CO.
474-38-SM V. 24 No. 19 P. 695

Wilson Welding Electrodes and Alloy Rod A. Approved.

WINDOWS

HERMANN AND GRACE COMPANY.
1153-40-SM V. 26 No. 7 P. 291

Hermann and Grace Company Hollow Metal Double Hung Window. One hour fire resistive rating. Approved under Sections C26-610.0, C26-659.0, C26-191.0, C26-178.0, b.

REVERSIBLE DOUBLE HUNG WINDOW CORP.
510-40-SM V. 25 No. 45 P. 1507

Reversible Safe-E-Sash (Double-Hung) Wood Window. Approved under Sections C26-261.0 and C26-262.0.

S. H. POMEROY CO., INC.
1137-39-SM V. 24 No. 43 P. 1540

Pomeroy "Standard Type" Hollow Metal Steel Double Hung Window, Model M—one hour fire resistive rating. Approved under Sections C26-178.0, b, C26-191.0 and C26-610.0.
1136-39-SM V. 24 No. 43 P. 1539

Pomeroy "Superior Type" Hollow Metal Steel Double Hung Window, Models H, I. L. Approved as a fireproof window under Sections C26-178.0, b, C26-191.0 and C26-610.0.

WOOD PRESERVATIVES

CELCURE SOUTHERN CORPORATION.
744-38-SM V. 23 No. 46 P. 1431

Celcure Acid Cupric Chromate—a wood preservative. Approved under Section C26-191.0.

AMERICAN LUMBER AND TREATING COMPANY.
22-42-SM V. 27 No. 30 P. 886

Wolmanized Lumber—Treated with Wolman salts for protection against termites and decay. Approved.

Refer to the resolution for details of approval and limitations of use.

PETITION FOR CERTIORARI ORDER SERVED ON THE BOARD OF STANDARDS AND APPEALS.

On April 12, 1945, copy of Petition and Order of Certiorari was served on the Board by Reginald S. Hardy, attorney for Beard's Erie Basin, Inc., owner, in re decision of the Board on March 6, 1945, denying appeal from an order of the fire commissioner for the installation of a sprinkler system; Cal. No. 617-44-A; premises Pier 2, west side of Columbia Street, south of Halleck Street, Borough of Brooklyn.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

APRIL 17, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning,* April 17, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

57-45-BZ—Application, February 7, 1945, under section 21 of the zoning resolution, of Ralph J. Gurfield, applicant, on behalf of Storch and Hirche, owners, to permit in a retail use B area district, the conversion of the 1st story of an existing building to cover the entire lot; premises 733 Ninth avenue, west side, 117.13 ft. north of West 49th street (Block 1059, Lot 34), Borough of Manhattan.

93-45-BZ—Application, February 24, 1945, under section 21 of the zoning resolution, of Seelig and Finkelstein, applicants, on behalf of A. Milder and Sons and Trustees of the Leake and Watts Orphan House in the City of New York, owners, to permit in a retail use and D area district, the change of occupancy of an existing residence building to a commercial building covering more than 55% of the area of the lot; premises 233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.

330-29-BZ—Application of Lama and Proskauer, applicants, on behalf of Hannah Harmon, owner, reopened January 23, 1945, under section 7f of the zoning resolution, to permit in a business and residence use district, the continued use of a gasoline service station beyond the temporary period granted by the Board of Standards and Appeals, under Cal. 330-29-BZ, Vol. I; premises 70-58 to 70-66 Kissena boulevard and 153-08 to 153-18 Vleigh (70th) road, southwest corner (Block 6697; Lot 1), Flushing, Borough of Queens.

660-44-BZ—Application, November 21, 1944, under sections 7a and 21 of the zoning resolution, of Henry Nordheim, applicant, on behalf of Doris Gordon, owner, to permit in a residence use district, the change of occupancy on first story of a store, office and residence building from store, apartment and garage to stores; premises 200 East Tremont avenue and 1884 Monroe avenue, southwest corner (Block 2804, Lot 7), Borough of The Bronx.

671-44-BZ—Application, November 27, 1944, under section 7c of the zoning resolution, of Charles H. Richter, applicant, on behalf of Terry and McMichael, Inc., owner, to permit in a residence use district, the erection of a one-story garage for eight (8) trucks used by the owner in the conduct of his business in substitution for an existing smaller frame garage building; premises 424 Weirfield street, east side, 100 ft. south of Wyckoff avenue (Block 3407, Lot 31), Borough of Brooklyn.

136-45-BZ—Application, March 9, 1945, under sections 7i and 7A of the zoning resolution, of Paul Friedman, applicant, on behalf of William A. White, Jr. (as executor and trustee under will of William A. White, deceased) and Nettie H. White, owners (General Outdoor Advertising Co., Inc., lessee), to permit in a business use district, the erection of an automobile showroom and salesroom and motor vehicle repair shop, incidental to salesroom and showroom only, with driveway entrance more than 25 ft. from Merrick boulevard; premises 224-01 to 224-09 Merrick boulevard and 133-29 to 133-37 224th street, northeast corner (Block 12963, Lot 308), Laurelton, Borough of Queens.

157-45-BZ—Application, March 19, 1945, under section 21 of the zoning resolution, of Charles M. Lobejager, applicant, on behalf of Bulova Watch Co., owner (Bulova School of Watchmaking, lessee), to permit in a residence use B area district, the erection of a lunch and rest room for disabled War veterans without providing the rear yard required by the zoning resolution; premises 40-23 62nd street, east side, 215.20 ft. south of Woodside avenue (rear); (Block 1337, Lot 23 and part of Lot 48), Woodside, Borough of Queens.

Appeals from Administrative Decisions.

158-45-A—40-23 62nd street, east side, 215.20 ft. south of Woodside avenue (rear); (Block 1337, Lot 23 and part of Lot 48), Woodside, Borough of Queens.

94-45-A—233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.

692-44-A—130-05B 94th avenue, north side, 65 ft. east of 130th street (1st floor); (Block 9375, Lot 261), Jamaica, Borough of Queens.

195-45-A—26-32 West 17th street, south side, 403 ft. west of 5th avenue (12th floor); (Block 818, Lot 66), Borough of Manhattan.

213-45-A—745 Classon avenue, northeast corner of Park place (basement); (Block 1163, Lots 1 and 90), Borough of Brooklyn.

HARRIS H. MURDOCK, *Chairman.*

Casale, applicant, on behalf of 18 East 71st Corp., owner, to permit in a restricted retail use B area district, the change of occupancy of a residence building to a private hospital, the building occupying more than 65 per cent of the lot area; premises 18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

109-43-BZ—Application, March 12, 1943, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of Samuel Sym, owner, to permit in a business use district, the extension in area of a building used as a wet wash laundry; premises 64-08 Perry avenue, south side, 47.73 ft. east of Willow avenue (Block 2716, part of Lot 12), Maspeth, Borough of Queens.

607-40-BZ—Application of John H. W. Krogmann, applicant, on behalf of Wells-Smith Corporation, owner (John F. Dubar, lessee), reopened March 27, 1945, for consideration as to extension of variance—Application previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 89-16 to 89-32 Sutphin boulevard, west side, 384.11 ft. north of Jamaica avenue (Block 9676, Lot 13), Jamaica, Borough of Queens.

23-45-BZ—Application, January 17, 1945, under sections 7c and 21 of the zoning resolution, of M. Martin Elkind, applicant, on behalf of Santa Fazzini, owner, to permit in a residence use D area district, the extension of a garage for more than five motor vehicles (trucks of the owner) without providing the rear yard required by the zoning resolution; premises 107-28 157th street, west side, 250 ft. south of 107th avenue (Block 10135, Lots 39, 41, 42 and 43), South Jamaica, Borough of Queens.

796-23-BZ—Application, of Lama and Proskauer, applicants, on behalf of 1507-1535 Coney Island Avenue Corporation, owner, reopened October 10, 1944, under section 21 of the zoning resolution, to permit in a business use district, the alteration of a garage and gasoline service station (previously granted by the Board) to include a room for display and sale of new and used cars; premises 1507-1537 Coney Island avenue and 1101-1111 Avenue L, northeast corner (Block 6722, Lot 49), Borough of Brooklyn.

123-45-BZ—Application, March 5, 1945, under section 21 of the zoning resolution, of Benjamin H. Whinston, applicant, on behalf of Young Israel Synagogue of Claremont Parkway, Inc., owner, to permit in a B area district, the conversion and extension in area of a building now occupied as a two family dwelling into a synagogue without complying with the area requirements for a B area district; premises 1408 College avenue, east side, 87.52 ft. north of East 170th street (Block 2784, Lot 2), Borough of The Bronx.

Appeals from Administrative Decisions

124-45-A—1408 College avenue, east side, 87.52 ft. north of East 170th street (Block 2784, Lot 2), Borough of The Bronx.

107-45-A—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

731-44-A—38-38 9th street (Hamilton street), west side, 244 ft. south of 38th avenue (Freeman avenue); 2nd and 3rd floors (Block 476, Lot 1), Long Island City, Borough of Queens.

751-44-A—1681-1683 McDonald avenue, east side, 180 ft. north of Avenue O (1st floor); (Block 6583, Lots 67 and 68), Borough of Brooklyn.

Materials for Approval.

53-45-SM—Alpha 275 Gallon Fuel Oil Storage Tanks, Cylindrical and Obround.

497-44-SM—Thatcher Manufacturing Company's "Boston Round" Glass Bottles in 8 oz., 16 oz., and 32 oz., sizes.

490-44-SM—Anchor Hocking Glass Corporation's "Boston Round" Glass Bottles in 8 oz., 16 oz., and 32 oz., sizes.

492-44-SM—Ball Brothers Company's "Boston Round" Glass Bottles in 8 oz., 16 oz., and 32 oz., sizes.

494-44-SM—Fairmount Glass Works, Inc., "Boston Round" Glass Bottles in 8 oz., 16 oz., and 32 oz., sizes.

491-44-SM—Armstrong Cork Company's "Boston Round" Glass Bottles in 8 oz., 16 oz., and 32 oz., sizes.

495-44-SM—Owens-Illinois Glass Company's "Boston Round" Glass Bottles in 4 oz., 6 oz., 8 oz., 16 oz., and 32 oz., sizes.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, APRIL 10, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meeting of the Board held on Tuesday morning, March 27, 1945, and Tuesday afternoon, March 27, 1945, were approved as printed in Bulletin No. 14, Volume 30.

ZONING CASES

50-41-BZ

APPLICANT—John C. Wandell, for Board of Transportation, City of New York and Salvatore Scala, owners (Salvatore Scala, lessee of Lot 31).

SUBJECT—Application reopened April 11, 1944—Application (decision of the borough superintendent) under sections 7b and 7h of the zoning resolution, to permit partly in a residence use district and

partly in a business use district, the parking and storage of more than five motor vehicles.
PREMISES AFFECTED—310-320 Smith street and 291-295 President street, northwest corner (Block 435, Lot 36 and part of Lot 31), Borough of Brooklyn.
APPEARANCES—
For Applicant: John C. Wandell.
For Opposition: Harold Klorfein, Dep't of Parks.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to May 1, 1945 at 10 A. M., pending an inspection by a committee of the Board. No further argument.

753-44-BZ

APPLICANT—Chester A. Cole and Maurice G. Uslan, for Emanuel M. Honig, owner.
SUBJECT—Application (decision of the borough superintendent) under sections 7e, 7f and 21 of the zoning resolution, to permit partly in a residence use and partly in a business-1 use district and D and E area district, the erection of a building occupying more than the permitted percentage of lot and omitting the required yards and court area; building to be occupied as a garage for more than five motor vehicles, motor vehicle repair shop, showrooms and gasoline service station.
PREMISES AFFECTED—140 Main street, south side, 369.04 ft. west of Craig avenue (Block 8028, Lot 67), Tottenville, Borough of Richmond.
APPEARANCES—
For Applicant: Maurice G. Uslan and Chester A. Cole.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Placed on Reserve Calendar.

106-45-BZ

APPLICANT—James E. Casale, for 18 East 71st Corporation, owner.
SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a restricted retail use B area district, the change of occupancy of a residence building to a private hospital, the building occupying more than 65 per cent of the lot area.
PREMISES AFFECTED—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.
APPEARANCES—
For Applicant: James E. Casale.
For Opposition: George J. Thompson, Arthur J. Sylvester, Thomas Capek, Jr., William H. Welsh, Alfred Rice and John J. Matthews.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to April 24, 1945 at 10 A. M., pending an inspection by a committee of the Board. No further argument.

589-38-BZ

APPLICANT—The Franklin Savings Bank in the City of New York, owner.
SUBJECT—Application reopened March 13, 1945 for consideration as to extension of variance (expired by limitation)—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution for a temporary term of two years, permitting in a retail use district, the parking and storage of more than five motor vehicles.
PREMISES AFFECTED—303 West 51st street, north side, 58 ft. 10½ in. west of 8th avenue (Block 1042, Lot 28½ and part of Lots 29, 30, 30½, 31. 32, 33, 33½ and 34), Borough of Manhattan.
APPEARANCES—
For Applicant: George Robinson.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Permit extended.
THE VOTE TO EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (589-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a retail use district, for a term of two years, the packing and storage of more than five motor vehicles, affecting premises 303 West 51st street, north side, 58 ft. 10½ in. west of 8th avenue (Block 1042, Lot 28½ and part of Lots 29, 30, 30½, 31, 32, 33, 33½ and 34), Borough of Manhattan, was granted by the Board on December 13, 1938, on certain conditions; and

WHEREAS, the permit was extended on February 9, 1943 and the applicant requested a further extension of the permit, which had expired by limitation of time; and

WHEREAS, this case was reopened by vote of the Board on March 13, 1945, restored to the calendar and set for hearing on April 10, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting on April 10, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of December 13, 1938, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit the unbuilt upon portion of the plot facing Eighth avenue and the adjoining lot facing 51st street to be used for the parking and storage of more than five (5) motor vehicles, *on condition* * * * that other than as herein *amended,* the conditions of the resolution of December 13, 1938 shall be complied with and that a certificate of occupancy shall be obtained."

533-42-BZ

APPLICANT—Paul Friedman and Arnold W. Lederer, for Julia A. Odom and Philip Braver, owners (Philip Braver, lessee of Lot 42).
SUBJECT—Application reopened October 31, 1944 re consideration as to extension of time to complete work—expired by limitation—Application (decision of the borough superintendent) previously granted on condition, under sections 7e and 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles and, also, open display and sale of used cars.
PREMISES AFFECTED—2242-2262 Church avenue, south side, 206 ft. 8½ in. west of Bedford avenue (Block 5103, Lots 42, 43 and 45), Borough of Brooklyn.
APPEARANCES—
For Applicant: Paul Friedman.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Resolution amended and permit extended.
THE VOTE TO AMEND RESOLUTION AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

MINUTES

THE RESOLUTION (533-42-BZ)

WHEREAS, this application under sections 7e and 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles and also, open display and sale of used cars, affecting premises 2242-2262 Church avenue, south side, 206 ft. 8½ in. west of Bedford avenue (Block 5103, Lots 42, 43 and 45), Borough of Brooklyn, was granted by the Board on January 25, 1944, on certain conditions; and

WHEREAS, the applicant requested an extension of time to complete the work (which had expired by limitation) and the extension of the permit; and

WHEREAS, this case was reopened by vote of the Board on October 31, 1944 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting on April 10, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted January 25, 1944, so that as amended, it shall read as follows:

"*Granted* under sections 7e and 7h for a temporary term of two years from the date of this *amended* resolution, to permit the occupancy as proposed for the parking and storage of more than five motor vehicles and for the sale of used cars on the premises, consisting of lots 42 and 43 and part of lot 45, where the later is now unbuilt upon, *on condition* that the frame building on Lot 43 shall be removed and the entire premises leveled and graded substantially to the grade of Church avenue; that the plot shall be surfaced with steam cinders, or clean gravel treated with a binder and rolled so as to provide surface drainage; that on the interior lot lines where walls of adjoining buildings do not occur, there shall be erected a substantial steel picket fence not less than 4 ft. in height erected on a concrete curb not less than one foot in height or a wall of brick masonry not less than 4 feet in height and suitably coped; that there shall be no entrance to the premises except one curb cut as indicated to the west, which may be 24 ft. in width; that all other curb cuts shall be removed and the curbs restored; that there shall be located against the wall of the Erasmus Hall high school, a concrete bumper not less than 3 ft. in width and not less than 6 in. in height, to prevent cars from bumping the school wall; that a similar bumper shall be constructed against the premises of the adjoining owner to the west; that the existing buildings on Lot 45 shall not be increased in height or area during the term of this variance; that the cars may enter the plot to reach the 4-car garage at the rear thereof; that the sale of used cars shall be toward the east, and the westerly portion may be used for parking and storage of motor vehicles; that no additional building shall be erected on the premises, except there may be erected an office, solely for shelter for the attendant and for toilet for the customers, provided such building is not over 150 sq. ft. in area and one-story in height, and constructed of masonry; that such building shall be erected near the entrance and adjacent to the side of the building to be removed; that only motor vehicles in condition for operation shall be stored or parked and only motor vehicles of the pleasure-car type; that no signs shall be erected on the premises advertising the parking and storage use and the sale of used cars, except a sign advertising each use, attached to the fence, provided such signs do not exceed 15 sq. ft. in area, do not extend beyond the building line and are not illuminated; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that all permits required shall be obtained and all work completed within six months from the date of this *amended* resolution and that a certificate of occupancy shall be obtained."

639-44-BZ

APPLICANT—Halford Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7e and 21 of the zoning resolution, to permit in a residence use district, the maintenance of two garages, one (metal) for five motor vehicles and one (frame) for ten motor vehicles, space rented to persons not residing on premises.

PREMISES AFFECTED—440 West 240th street, southeast corner of Greystone avenue to Dash place (Block 3414-E, Lot 20), Borough of The Bronx.

APPEARANCES—

For Applicant: Percival Corn.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (639-44-BZ)

WHEREAS, Halford Realty Corporation, owner, filed November 13, 1944, an application under sections 7e and 21 of the zoning resolution, to permit in a residence use district, the maintenance of two garages, one (metal) for five motor vehicles and one (frame) for ten motor vehicles, space rented to persons not residing on premises; affecting premises 440 West 240th street, southeast corner of Greystone avenue to Dach place (Block 3414E, Lot 20), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, April 10, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that West 240th street and Greystone avenue are in a residence use, B area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated December 1, 1943, re request for certificate of occupancy, reads:

"Receipt is acknowledged of your communication of November 26, in which you advise us that you are about to take an appeal to the Board of Standards and Appeals for an interpretation of Article 2, Section 6 of the zoning resolution in relation to your application for a certificate of occupancy for garages for more than five cars, located at the subject premises.

As you were previously informed, the records of this Department show only that an approval was issued for an extension to a frame stable under Alt. Applic. 1340-1895. Since there are no records on file that any approval or permit was ever issued for the erection of a five car metal garage, or for the change in use of the frame stable to a garage at the above premises, the affidavits submitted by you, which purport to prove that these structures existed, and were used as garages prior to July 25, 1916, cannot serve as a basis for issuing a certificate of occupancy under the authority of Article 2, Section 6 of the zoning resolution. The storage of automobiles in a residence district, other than as accessory to dwelling is prohibited under Article 2, Sec. 3 of the zoning resolution, and your application for a certificate of occupancy is, therefore, again denied."

and

WHEREAS, the applicant states the premises consist of a plot, 181.07 ft. frontage by 185.88 ft., irregular in area, on which is located a one story metal building, 45 ft. by 18 ft., occupied as a garage for five cars and a one story frame building occupied as a garage for (ten) 10 cars; that it is proposed to maintain these garages, in view of the long continued usage, at least 15 years for a part, and much longer
